

E. B. Schwaderer Is Awarded M-81 Paving Contract

Work Starts Here Next Week on the Grading and Drainage Structures.

E. B. Schwaderer, Cass City highway contractor, was awarded the job of paving 4.873 miles of M-81 commencing at Cass City and running west. The contract was awarded by the Michigan State Highway Department at Lansing on Wednesday. Mr. Schwaderer's bid was \$130,791.53 for grading and drainage structures and 22 feet of concrete paving.

Mr. Schwaderer expects to start on the grading and drainage structures next week and the laying of the concrete will commence about July 1. The paving is to be completed by August 15.

Mr. Schwaderer has the contract for constructing seven miles of concrete pavement on M-53 south of the junction of that highway and M-81. His force of workmen have been engaged in grading that stretch of highway this winter. They will be taken to the M-81 job next week and no additional help will be employed for the present time.

Car Mishap Follows Farmer's Injury

Mishap followed injury when George Hartsell of Grant Township lost the thumb of his left hand while buzzing wood last week. He was hurriedly driving to a physician to have the wound dressed directly after the accident. As he was passing a truck, he noticed a car coming from the opposite direction, and in hurrying back to the right side of the highway to avoid a collision, his car slipped into a ditch and toppled over. Fortunately he escaped injury this time, but damage to his car set Mr. Hartsell back more than \$150. All in all, it was enough excitement for one day.

Party of Three Leave Sunday for Florida

John A. Benkelman and son, D. W. Benkelman, and Glenn Reid expect to start Sunday on a motor trip to sunny Florida and will sojourn at Cortez. Messrs. Benkelman expect to remain at that point about ten weeks, but Mr. Reid will leave March 1 for Washington, D. C., where he will superintend the erection of a residence for Alvin Benkelman. The house will be erected on a bank of the Potomac River in a suburb of the nation's capital.

Tax Sale Advertised in the Chronicle

The advertising of descriptions of land which will be offered at the May tax sale in Tuscola County is appearing in the Chronicle columns. It will be advertised for five weeks previous to February 13 when the petition of George T. Gundry, former auditor general, for the sale will be presented in circuit court for hearing and decree. The date of the sale has been set for the first Tuesday in May.

The descriptions advertised occupy 10 1/2 newspaper columns. On most of the property advertised there is claimed unpaid taxes for 1936.

Church Lighting System Dedicated

Special dedicatory services were conducted Sunday morning in the Evangelical Church for a new lighting system presented to that society by the children of the late Mr. and Mrs. Solomon Striffler as a memorial to their parents. The donors are Frank, Louis and Miss Gertrude Striffler, all of Detroit, Mrs. Clayton Schenck and Leonard Striffler of Cass City and Mrs. Ira Reagh of Branch, Michigan.

Frank Striffler, the eldest son of the family, in behalf of his brothers and sisters, formally presented the system to the church and William J. Schwegler, president of the trustee board, accepted the gift and expressed the appreciation and gratitude of the society. The dedicatory service was read responsively by pastor and people and was closed by a prayer by the minister, Dr. R. N. Holsapple.

The new system is composed of the semi-indirect type of lighting, which produces a soft, mellow illumination. Four large lights have been installed in the auditorium, two in the annex to the west and one in the choir loft.

CRAWFORD-TURNER.

A quiet wedding took place on Saturday, January 14, when Miss Onalee Turner, daughter of Mr. and Mrs. Byron Turner, of Ellington became the bride of Harold Crawford, son of Mr. and Mrs. John Crawford of Cass City. The wedding took place in the Heman's Mennonite Church, Rev. A. J. Avery, pastor, performing the ceremony. They were attended by Mr. and Mrs. Owen Quinn of Cass City.

The bride wore a gown of powder blue crepe with darker blue accessories. Mrs. Quinn wore navy blue crepe.

Mr. and Mrs. Crawford left Saturday afternoon for Pontiac where a reception was held that evening in the home of the groom's grandmother, Mrs. Agnes Bidelman. They also visited relatives in Flint and returned home Wednesday.

They will make their home in Caro, Mr. Crawford being employed at Wahjamega.

Play Overtime to Win from Pigeon

Saturday's Contest Said to Be One of the Best Games Ever Played Here.

Cass City Independents defeated Pigeon here Saturday night in an overtime game, 35-33, which was packed with action and thrills. This game saw the local team clicking and displaying a very good passing game. There were only one or two points difference throughout. According to reports, it was one of the best games ever played in Cass City.

Ross was high scorer for Cass City with 12 points, and Voelker held the honors for Pigeon with 12. Cass City held the lead most of the way and because they were playing good, hard, fast basketball stayed on top.

M. R. Beckett's Funeral Held Today

From Gagetown Correspondent. Moses Richard Beckett, Elkland Township farmer, passed away on Tuesday, January 17, following a heart attack. He had been ill one day.

Funeral services will be held today (Friday) at 2:00 p. m. at the family residence, 1 1/2 miles southeast of Gagetown, and at 2:30 p. m. at the M. P. Church in Gagetown with Rev. Wesley Dafeo officiating. Interment will be in Hillside Cemetery.

Born in Kempsville, Ontario, on April 28, 1860, Moses R. Beckett came to Tuscola County in 1910. He married Miss Fannie Coughlin at Kempsville, Ontario, in 1883. Mr. Beckett was a member of the Episcopal Church.

He leaves a daughter, Mrs. William Anker, of Detroit; two sons, Clare and Charles, at home; and four grandchildren. Mrs. Beckett passed away on January 22, 1920, and a son, Keble, died in 1918.

Fire Damages Maier's New Residence

Mr. and Mrs. Fred Maier had made plans to move into their new residence on Third Street next week, but Wednesday morning found their purpose frustrated, and but for a timely discovery, they might have suffered the loss of their beautiful new home.

Spontaneous combustion of oily rags placed in a box with shavings caused the fire which had burned a hole in a floor and another in a wall.

When William I. Moore came Wednesday morning to do some last minute carpenter work to the nearly completed house, he found the residence filled with smoke and a fire smoldering in a floor. Decorations were ruined and their replacing will delay moving several weeks.

Value of Modern Case Finding in Tuscola County

Reduces the High Cost of TB Hospitalization, the Association Reports.

The value of modern case finding in preventing the spread of tuberculosis and in reducing the high cost of hospitalization was pointed out to Tuscola County this week in a report from the Michigan Tuberculosis Association. Eighteen cases of tuberculosis infection were discovered by specialists who interpreted the X-ray films recently taken of Vassar Township residents. Of these, two were found to have active adult tuberculosis and sixteen the childhood type of the disease, an early stage resulting from primary infection of tuberculosis germs.

Actual saving in Tuscola County's tuberculosis expenditures was seen in the fact that the findings for sixteen people tell them of early tuberculosis infection before the disease has had a chance to develop. No costly sanatorium treatment will be necessary for them if they carefully observe the rules of healthful living and avoid further contact with actively tuberculous people. For tuberculosis authorities agree that though neglect of the childhood type tuberculosis may be the first step to the dangerous active disease, the individual can do much to prevent the first infection from developing.

176 Musicians in Clinic Here Monday

When Arthur Hesburn, music instructor in the Cass City Public Schools, last fall, suggested band clinics of high schools of the Thumb of Michigan, he proposed a popular musical project but it is doubtful if even Mr. Hesburn anticipated such a response in the early history of the association.

Music students and instructors of ten schools met in Cass City Monday evening for the second band clinic. One hundred seventy-six were present, representatives coming from Pigeon, Elkton, Harbor Beach, Bad Axe, Sandusky, Marlette, Vassar, Mayville, Caro and Cass City. Plans were made to hold the next clinic in Caro on Monday, February 13.

Instructors are much pleased over the success of the meeting Monday night as it was larger and much more interesting than the one held last month.

Guess This One? Taken When We Were Young

"I have never sent in an opinion on the Guess Who column for I have found but very few whose pictures had not been taken long before my time as the old saying goes," writes Mrs. A. C. Kelly from Kingston. "But this week I feel confident enough that the picture is that of George Palmer and I will offer that as my guess."

Mrs. Kelly was correct in her opinion and she has many who agree with her in this. Others who named George Palmer are Cliff Champion, Mrs. Howard Retherford, Mr. and Mrs. John Caldwell, Lewis Travis, Cameron Wallace, J. A. Sandham, Mrs. O. W. Nique, John Gordon, Mrs. Fred Ball, Mrs. Dan McNaughton, Charles Mudge, Herb Greenleaf, Philip Wright, Junior Pringle, J. D. Turner, A. A. Jones, Fred Buehrly, Mrs. J. P. Neville and Ed Buehrly.

Well, here's another opportunity to test your ability to recognize old photographs. Do you remember going to school with this fellow forty odd years ago. Quite a number around town did. Who is it?

W. S. C. TO DISCUSS CURRENT LEGISLATION

A legislation day program will be presented Tuesday afternoon, January 24, at the meeting of the Woman's Study Club with Mrs. Alex Tyo as hostess. Mrs. T. J. Heron, Mrs. Warren Wood and Mrs. G. A. Striffler are in charge of the program. Current events are the subjects of the roll call.

Better English Day was observed by the club on Tuesday afternoon, January 10, at the home of Mrs. D. A. Krug on South Seeger Street. Mrs. A. Moore read a paper entitled, "Why We Need Better English"; Mrs. G. A. Tindale, "Better Grammar"; Miss Lura DeWitt, "Elimination of Speech Faults"; Mrs. Moore, "Enunciation"; Mrs. C. L. Graham, "Pronunciation." Roll call was under the supervision of Mrs. Berkeley Patterson and was in the form of correcting incorrect sentences.

Mrs. A. A. Schmidt, Mrs. G. A. Tindale and Mrs. Berkeley Patterson were named as a nominating committee by the president, Mrs. Ed Baker.

\$16,632 Paid to Tuscola Schools

A Similar Amount Was Paid in December from Funds of the State.

Money to the amount of \$16,632.53 was received from the state for Tuscola County schools by County Treasurer Arthur Willets and checks will be mailed to the schools within a few days for the amounts due each district. A similar amount was received in December. The two payments totalling \$33,265.05 represent \$10,468.02 for primary supplement, \$12,426.29 from the equalization fund and \$10,370.74 for tuition.

Local Talent in Temperance Drama Here Sunday

Using the drama as a new weapon for combating the evils of liquor indulgence, several churches will unite in a community mass meeting at the Cass City High School auditorium next Sunday evening to present the new temperance drama, "Senator North's Deciding Vote." The plot of the story is built around a state senator who cast the deciding vote to legalize liquor in the state and the results of drinking as they effected his own home and family. His son acquires the drink habit, and driving an automobile while under the influence of liquor has a wreck in which three persons are killed and his sister crippled for life. As a result the young man is sent to prison for a long period.

In a subsequent session of the legislature an attempt is made to repeal the Liquor Control Act, and in order to vote intelligently, the senator holds a number of hearings on the question. Representatives of the dry organizations as well as the lobbyist for the brewers and distillers, and the party boss appear and endeavor to show why the senator should vote their way.

Tremendous and almost overwhelming influence of a sinister kind is brought to bear upon Senator North at this meeting and in the legislature not to change his

Horses Revive Runaway Tactics

Thirty-five years ago it was not unusual for the Chronicle to print stories of runaway horses which had been frightened by automobiles, but today such items are among the extraordinary. This week's runaway differs somewhat from those of the beginning of the nineteen hundreds in that the automobile had to bump into the wagon from the rear to start the rampage.

While driving into Cass City from the east about 5:30 p. m. Monday, with a team of horses belonging to Samuel Bigelow, E. Nix was taken by surprise when the back end of the wagon was struck by an automobile driven by a young man from Argyle. Mr. Nix was thrown backward into the wagon, and as the wagon was pushed forward, the horses became frightened, broke loose from the vehicle and ran away. Mr. Nix was taken to Pleasant Home Hospital but left there soon, having only been badly shaken up.

A peculiar coincidence about the accident was that Mr. Nix had hired a young man to help him haul rubbish. The employee had gone on into town and the man driving the car was a brother of the man Mr. Nix had employed.

North Tuscola Cows Average Is High in Butterfat

Stood First in the Thumb Association in November, December Record High.

The North Tuscola Dairy Herd Improvement Association hit a rather high mark in both number of 50-pound cows and average butterfat production. There were 26 50-pound cows in December with high cow producing 86.5 pounds of butterfat and 2,703 pounds of milk. The cow, owned by Loren Ewald, with a record of 2,703 pounds of milk and 86 1/2 pounds of butterfat, is being milked three times daily. Rufus Wark's herd made the highest herd average this month that has been reported in the North Tuscola Association this year. His herd averaged 44.9 pounds of butterfat, four of the eleven making over 50 pounds.

The average butterfat per cow was 27.7 pounds. In November, North Tuscola averaged 27.1 pounds butterfat and was the high association in the Thumb. The next two high associations, Macomb and St. Clair, averaged 25.0 pounds of butterfat. The Huron County Association averaged 24.9 pounds. South Tuscola averaged 24.4 pounds.

"If you like clean, cold milk, you should visit the barn of Art Fischer, Gagetown," says Clayton Reid, association tester. "He has all of his cows clipped, their tails washed, his stable white-washed and he keeps his cows well bedded with clean straw. Milk from such a herd can hardly be anything but clean. Other herds that have been clipped are Floyd Reid's, James Coan's, Tom Kimmel's and Loren Ewald's. Clipping helps greatly in the production of clean milk."

"Cleveland Neal has one of the cleanest, whitest barns in the county. He bottles his milk and sells it in Bay City, where reports show that he produces the cleanest milk sold in Bay City. His bacteria count is always lowest."

HUBERT ROOT BUYS 80-ACRE BINGHAM FARM

Floyd Clark, realtor, reports the sale of the 80-acre farm known as the Colin Bingham place in Elmwood Township to Hubert Root of Grant Township. He takes possession March 1. The farm is located two miles south and 1/2 mile east of Gagetown and was purchased from Glenn Terbusch.

The Sunday Evening Round Table Starts on January 29

To meet some of the more urgent local needs in adult education, the Christian Citizenship League is again sponsoring both a Sunday evening and mid-week series of meetings during the coming ten weeks up to the pre-Easter season.

A school of religion will meet weekly beginning Thursday, January 26, from 7:30 to 9:30 p. m., in the Presbyterian Church. Two courses of study will be offered, one on "India" and the other on "Old Testament Prophets." The class periods will be separated by a fifteen minute devotional assembly. Those attending may elect either or both study courses, which are open to all adults or young people of the community. There is no expense to those who enroll except for the textbook. Visitors are also welcome.

A Sunday evening Round Table will also meet either weekly or bi-weekly.

The Langs Are in Midst of Bombers' Raids While Engaged as Chinese Missionaries

"We take this opportunity of wishing you joyful Christmastide and a blessed New Year throughout," write Rev. Harry and Mrs. Lang from Lungchow, Kwangsi, South China, to Mr. and Mrs. Cecil U. Brown of Cass City. Mr. Lang is the grandson of the late James Greenleaf and spent his boyhood days in this community. He and Mrs. Lang have been engaged in missionary work in China for several years. They write:

"The picture we enclose is that of our missionary party which sailed August 20th, on board the S. S. Empress of Japan for Hongkong, and includes: Rev. and Mrs. J. S. Bechtel and Harriet, Rev. and Mrs. Lang and children, Grace, Robert and Ruth, and Mrs. A. G. Knowles (Miss Violet Gibson) to South China; Rev. and Mrs. W. A. Pruett

COMING AUCTIONS.

Because of the death of her husband, Mrs. Fred Walker will have an auction sale of farm machinery and poultry, 7 miles east and 1 mile south of Cass City on Tuesday, January 24. Arnold Copeland is the auctioneer and the Pinney State Bank is clerk.

Floyd Ackerman will have a sale of Shropshire and Oxford sheep on Monday, January 23, 3 miles west, 1 mile north and 1/4 mile west of Fairgrove. Worthy Tait is the auctioneer and William Hurley is clerk.

Full particulars regarding both sales are printed on page 8.

One hundred fifty White Leghorn chickens were stolen from the Eber Stewart farm a mile east of Wilmet Friday night. Officers are endeavoring to locate the thieves.

Enters Ranks of the Octogenarians

J. J. Gallagher, Prosperous Farmer, Came Here in '79 with \$1.25 in Pockets.

John Gallagher, Elkland Township pioneer, quietly celebrated his eightieth birthday Monday, January 16, in the home of his son, Albert Gallagher. A dinner had been served in his honor on Sunday which was attended by Mr. and Mrs. Floyd Johnson and Miss Adeline Gallagher, all of Detroit. Other members of the family were unable to come because of illness.

John Gallagher was born January 16, 1859, in Ontario and in 1879 came to Michigan arriving in Cass City with \$1.25 in his pockets. He obtained employment on the farm of Eugene Morse, 1 mile west and 1 1/2 miles north of Cass City, where he worked for \$14.00 a month. He later bought a farm one mile north of the Morse farm and ten years afterwards purchased the Morse farm of 80 acres. This was increased to 120 acres of Tuscola's finest farm land. Here he still makes his home most of the time with his son, Albert. The summer months are spent in the home on West Main Street, which he built twenty-six years ago, his daughter, Miss Adeline, a teacher in the Detroit schools, spending the summer vacations with him.

Mr. Gallagher was united in marriage with Miss Louisa Krapp on Thanksgiving Day in 1883. She passed away in March, 1925.

MEREDITH TO STUDY AT N. U. M. C. IN '39

Paul Meredith, son of Village President A. R. Meredith of Caro, has been accepted as a student in the Northwestern University Medical School and will enter that institution next autumn. This is a distinct honor because only about one out of 10 who apply is accepted as a student at Northwestern. Paul Meredith is taking a pre-med course at North Central College at Naperville, Illinois, and will graduate from there next June.

4-H Leaders Will Hold County Meeting

Leaders in 4-H handicraft and clothing projects will meet in Caro on Wednesday, January 25. In the afternoon, instructions will be given to leaders. In the evening, a banquet will be served at which Nevels Pearsons will speak on handicraft work and Miss Alice Bates on clothing. Both are assistant state club leaders.

Three Pleaded Guilty in Circuit Court on Monday

James Gebauer, Frank and Clayton Bullis Are to Be Sentenced Later.

James Gebauer, 23-year-old farm laborer employed near Vassar, pleaded guilty Monday in the Tuscola County Circuit Court to "willfully placing an obstruction on a railroad track, endangering the lives of others." Judge Louis C. Cramton remanded Gebauer to the custody of the sheriff to await sentence.

The locomotive of a Michigan Central freight train was damaged when it struck a steel rail placed on the railroad track a mile and a half north of Otter Lake by Gebauer on January 6. None of the cars were derailed.

Frank Bullis of Greenleaf Township and his brother, Clayton Bullis of Evergreen Township, both pleaded guilty to breaking and entering in the night time. Both men were remanded to the custody of the sheriff to await sentence.

Frank Bullis admitted entering two poultry houses in Elkland Township, the first on November 20 on the Herbert E. Greenleaf farm and the second on December 20 near the Lawrence Bartle home.

Clayton Bullis said he entered two poultry houses on the night of January 6 on the farms of J. M. Curtis and R. A. Langworthy, both in Novesta Township.

In the case of Burnell Tindale of Ann Arbor doing business as the Electric Service Co. vs. William H. Hood of Kingston which concerned an electrical contract, the court found for the defendant and ordered costs to be taxed granting the usual 20-day stay.

The petition of O. E. McPherson, administrator of the Estate of Jennie McGinnis, Deceased, to discharge a mortgage was granted by the court.

William Lawrence's petition for a reduction of payments under order for a mortgage moratorium was granted. Payments were reduced from \$52.50 a month to \$25.

William Grant, receiver for the objecting depositors of the State Savings Bank of Vassar, was granted a release from that position and Ronald Rhead was appointed receiver for the balance of the assets. He is to serve in that position without cost or compensation.

Last Veteran of G. A. R. at Vassar Dies

William I. Warren, the last veteran of the Vassar G. A. R. Post which once had a membership of over 100 men, died at the age of 93 at his home in Millington on January 12, just four days after the death of his wife. Funeral rites were held at the Pedlow Funeral Home in Millington Saturday. American Legion posts of Millington, Vassar and Caro gave the Civil War veteran a military funeral at the Riverside Cemetery at Vassar.

Locals Lead at Half, Trail at the End of Friday's Game

A second half spurt by Vassar's rangy basketers proved too much for the locals in their basketball game here Friday, the final score being Vassar 30, Cass City 21.

Cass City stepped off to an early lead which they maintained throughout the first half. The locals were able to control the ball most of the time through clever passing and cashed in on a good percentage of their shots to lead Vassar 19-14 at the half.

During the second half, Vassar's offense began to click and Cass City seemed unable to hit her former stride. An airtight defense in the fourth quarter kept Cass City from hitting the hoop at all, while Vassar managed to get six to end up leading 30-21. Smith was high scorer for Cass City with nine and Severer led Vassar with 11 points.

The Cass City second team was

Safetygrams

The Safety Man

The year 1939 is before us. It isn't how we drove last year or last week that counts; it's how we drive today—right now—that makes safety records. Safety precaution must be kept up to the minute.
Several persons were killed in a grade crossing accident last week-end. There is only one way to prevent accidents with moving trains, and that is to stay out of their path.
You cannot be hit by a train unless you are directly on the railroad tracks. Therefore, wait, look, and listen!

Most Important Of Foods Is Milk
Utmost Care Taken in Bringing It to Table
By EDITH M. BARBER
WHILE comparisons are seldom accurate, it is hardly going too far to say that among all our foods, milk is the most important. While no food is absolutely complete, milk scores high on account of its vitamin, mineral and protein content. It supplies also a form of sugar which is easily absorbed.
The utmost care in handling and preparing milk for markets is necessary in order that it may arrive in our kitchens uncontaminated. First of all, the cattle must be inspected so as to be sure that they are in healthy condition. Their quarters must be kept clean. The methods of milking must be particular and the milk itself must be cooled immediately. The farmer receives a bonus if his milk is very low in bacteria count and also if it has a large percentage of butter fat. Grade A milk contains a larger per cent of butter fat than does grade B-milk and for this reason it has a richer flavor.
Milk-Vegetable Chowder.
2 cups diced cooked vegetables
1 small onion
2 tablespoons butter
1 quart milk
Salt
Pepper
Chopped parsley or nutmeg
Carrots, celery, turnips are diced and boiled together until soft. Chop the onion and cook in butter until yellow. Add cooked vegetables, vegetable stock, milk and seasoning. Heat, sprinkle with parsley or nutmeg and serve at once. The same recipe may be used for a cream soup by blending three tablespoons of flour with melted butter.
Chocolate Blanc Mange.
3 squares chocolate
3 cups milk
¾ cup sugar
¼ tablespoons cornstarch
¼ teaspoon salt
1 teaspoon vanilla
Put the chocolate and 2½ cupsful of the milk in a double boiler; cook until the milk is scalded and the chocolate melted, and beat thoroughly with an egg beater. Mix the sugar, the cornstarch and the salt, add the remaining milk and stir until thoroughly blended. Add the cornstarch mixture gradually to the chocolate mixture, stirring constantly until the mixture thickens. Cover and cook without stirring for 20 minutes. Add the vanilla, turn into a serving dish and chill. Serve with whipped cream.
Golden Tapioca Cream.
3 cups milk
3 tablespoons granulated tapioca
3 eggs
¼ cup brown sugar
¼ teaspoon salt
¼ teaspoon vanilla
Scald milk in double boiler and slowly add tapioca. Cook until clear and add some of hot mixture to yolks of eggs slightly beaten with sugar and salt. Return to boiler and cook, stirring constantly until mixture coats spoon in a straight line when tested. Remove from fire and fold in stiffly beaten whites. Flavor, pour into pudding dish and chill.
Waffles.
2¼ cups flour
4 teaspoons baking powder
1 teaspoon salt
3 eggs
½ cup melted shortening
1½ cups milk
Mix and sift dry ingredients, beat eggs, stir in melted shortening. Add milk, then dry ingredients all at once. Beat until smooth and bake in a hot iron about five minutes.
Scalloped Potatoes.
6 potatoes, pared, cut in thin slices
½ cup sliced onions
Butter
Salt, pepper
1 quart milk
Put layer of potatoes in buttered baking dish, sprinkle with onions, dot with butter and sprinkle with salt and pepper. Repeat until potatoes are all used. Add milk. Bake, covered, for 20 minutes in a moderate oven (350 degrees Fahrenheit) uncover and continue baking until potatoes are tender, about 45 minutes.
Broiled Tomatoes.
Cut tomatoes in halves, arrange on broiler, sprinkle with salt, pepper and sugar. Cover with minced onion and arrange half a strip of bacon on each tomato. Broil under low heat about 12 minutes, until bacon is crisp.
Coffee Jelly.
2 tablespoons granulated gelatin
½ cup cold water
3 cups of clear strong coffee
½ cup sugar
Soak the gelatin in the cold water five minutes and dissolve in the hot coffee. Add sugar and turn into a mold. Chill. Serve with whipped cream.

Nature Sounds the Note
Nature forms the foundation for good color schemes in interior decoration. The subdued tones employed for floor surfaces correspond to the dark colors of earth; the medium tones of walls to the medium green of trees, and, until the present modern idea of colorful ceilings came into being, ceilings were always light similar to the paler tints of the sky.

Invents Device For Air Combat
Cleveland's Young Idea Man Comes Up With Another Amazing Plan.
CLEVELAND.—Harry Rubin, 25 years old, idea man, is at it again with an invention which he thinks will revolutionize air combat.
Rubin, whose ideas have been astonishing Clevelanders for nine years, thinks his latest to be a "natural."
"It's simple," said Rubin, who once was an amateur pilot, "when an enemy plane is behind you—on your tail, the pilots call it—it is just too bad. But with my idea you have him where you want him, because all you need to do is turn a valve, spray the enemy with acid and he's down."
The invention, he explained, merely is a glass acid tank, from which the acid is forced by the exhaustive pressure. Caught in the propeller blast, the acid is thrown over the enemy plane, destroying the wings, wires and possibly the pilot.
Hopes to Interest Army.
Harry said that J. J. Matwig of the department of commerce was to have recommended the idea to the secretary of war.
"Meanwhile, I'm working on my powder ice, getting ready to market it," Rubin said.
According to the inventor, who in 1933 won first prize at the Inventors' congress with a refrigerator he called "canned ice," his powder ice is a mixture of three chemicals, which is not cold, but when added to a liquid, chills it.
One spoonful to a glass of water at faucet temperature cools it to freezing. Add more powder and a cold slush is formed, although it never freezes solid.
"Funny thing about it," Harry said, "if I add a fourth chemical to the mixture, it generates heat when added to a liquid."
Rubin quit school at 16—at his teacher's suggestion after a burglar alarm he was inventing went off, by mistake, in history class.
"They were talking about the rise and fall of the Roman empire when it happened," he said, "I thought I could do a little work on the alarm behind my history book. When it went off, the teacher was pretty sore and told me either to quit inventing or quit school."
He Is Never Idle.
Since then Rubin hasn't been idle a minute. He has turned out in rapid succession a gasoline-saver, an oil purifier, a non-glare windshield screen, a double-gap spark plug, the garbage deodorizer, a can of chemicals which keeps an iceless refrigerator cold during the night (to save current) and metal ice cubes, which can be used over and over.
Between inventions, Rubin has had his share of adventure. In 1934, while trying with another man to set a new outboard motor boat record, he was caught in a storm and cast upon a breakwall. When the craft caught fire the two had to swim a quarter-mile to shore through mountainous waves.
While working as a cab driver in 1936, Rubin was attacked by a robber with a knife. The youthful inventor grabbed a crank handle, knocked the knife to the ground and routed the thief.

Explorer Glad to Find No Jazz Bands in Arctic
OMAHA. — The Arctic regions where the Eskimos roam is a Utopia—at least for Dr. Victor E. Levine, who spent 14 months doing research on the dietary habits and general health conditions of the Eskimo.
The long Arctic winter with its average temperature of 25 below zero he found a partial answer to his yearning for Utopia: "A place free from night clubs, jazz bands, rumors of wars."
Dr. Levine headed the U. S. public health service survey of Eskimos. His headquarters were at Point Barrow.
"Despite pessimists, birth control and war, the world's population is increasing 20 million a year," he says, and Arctic regions will provide outlets for future colonization.
"The future generations of whites will inevitably crowd northward as well as natives," said Dr. Levine, and "colonists will find the Arctic climate healthful."
Taxi Politeness Decreed

Ends of Beer Bottles Floor a Beach Shack
DARWIN, AUSTRALIA. — A "parquet" flooring made of beer bottles is the proud possession of W. Shaw of Darwin.
He has floored nearly all the area of the kitchen and living-room of his hut so far, having used 4,000 empty bottles set bottom upmost in the ground.
The effect is cool, artistic and comfortable in the hot climate, and if one of the dark green bottles becomes broken it is easily replaced.

ISO-VIS LEADS!

ISO-VIS HAS MADE MORE FRIENDS THAN ANY OTHER MOTOR OIL IN THE MIDWEST!

ISO-VIS 10-W MAKES COLD STARTING EASIER THAN ANY OTHER OIL!

You CAN FREE YOURSELF from starting worry for the cold weeks ahead by changing now to Iso-Vis 10-W motor oil.
Even if you have an oil of winter grade in your crankcase now, you're bound to notice the difference after you change to Iso-Vis 10-W. Actual tests prove it makes cold starting easier than any other oil.
And there's more to it than convenience. Oil that resists undue thickening in bitter cold weather—like Iso-Vis 10-W—gives instant lubrication on cold starts, protects your engine better. And Iso-Vis 10-W holds its body too, at engine running heat.
It's the safer, quicker, more carefree winter motor oil. Change now, and enjoy it!

State of Michigan
The Circuit Court for the County
of Tuscola in Chancery

Laura A. DeWitt, Plaintiff

—vs.—
John Waldron, (sometimes known as John Walden), Michael Donohue, (sometimes known as Michael O'Donohue), Della A. Smith, Esther Harris, Mary Smith, Alta Stoner, Edwin J. Smith, all heirs at law of John M. Smith, Mary Jane Wallace, (also known as Mary Wallace and Mary J. Wallace), or their unknown heirs, devisees, legatees and assigns. Defendants.

At a session of said court held at the court house in the village of Caro in said county on the 16th day of January, A. D. 1939.

Present: Hon. Louis C. Cramton, Circuit Judge.

On reading and filing the bill of complaint in said cause and the affidavit of Timothy C. Quinn attached thereto, from which it satisfactorily appears to the court that the defendants above named, or their unknown heirs, devisees, legatees and assigns, are proper and necessary parties defendant in the above entitled cause, and;

It further appearing that after diligent search and inquiry, only the following of the above named defendants could be found: Della A. Smith, Mary Smith, Alta Stoner and Edwin J. Smith, all heirs at law of John M. Smith, and that all of these defendants have been personally served with process in this case, and that as to the balance of the defendants named in this suit, it can not be ascertained, and it is not known whether or not said defendants are living or dead, or where any of them may reside if living, and, if dead, whether they have personal representatives or heirs living or where they or some of them may reside, and further that the present whereabouts of said defendants

are unknown, and that the names of the persons who are included therein without being named, but who are embraced therein under the title of unknown heirs, devisees, legatees and assigns, can not be ascertained after diligent search and inquiry.

On motion of Timothy C. Quinn, attorney for plaintiff, it is ordered that said defendants, John Waldron (sometimes known as John Walden), Michael Donohue (sometimes known as Michael O'Donohue), Esther Harris, Mary Jane Wallace (also known as Mary Wallace and Mary J. Wallace), and their unknown heirs, devisees, legatees and assigns, cause their appearance to be entered in this cause within three months from the date of this order, and in default thereof that said bill of complaint be taken as confessed by the said defendants, their unknown heirs, devisees, legatees and assigns.

It is further ordered that within forty days plaintiff cause a copy of this order to be published in the Cass City Chronicle, a newspaper printed, published and circulated in said county, such publication to be continued therein once in each week for six weeks in succession.

LOUIS C. CRAMTON, Circuit Judge.

Countersigned: CLARE W. HORNING, Clerk of Circuit Court.

Take Notice, that this suit, in which the foregoing order was duly made, involves and is brought to quiet title to the following described piece or parcel of land situate and being in the village of Cass City, county of Tuscola, State of Michigan, described as follows, to-wit:

The East thirty-six feet of Lot four, block three of the Village of Cass City.

TIMOTHY C. QUINN, Attorney for Plaintiff. Business Address, Caro, Michigan. 1-20-7.

The Guild will meet Monday evening at the G. A. Tindale home with Mrs. Curtis Hunt as hostess. David Orr of Caro will be guest speaker.

Mr. and Mrs. Claude Karr, Mrs. Baden and Edward and J. H. McIntyre attended the funeral of J. L. Warrington at Windsor, Ontario, Tuesday.

Miss Joanna McRae came into the office of County Treasurer Arthur Willets on Tuesday and left \$5,000 with the county official. Miss McRae is township treasurer and that sum is a partial payment of county taxes collected by Miss McRae in Elkland Township.

Mrs. J. D. Brooker is anticipating a very pleasurable occasion when three of her girlhood friends arrive Saturday to be her guests for a few days. They are Mrs. O. K. Jones of Alma, Mrs. Elizabeth Schooley of Saginaw and Mrs. Mollie Ardell of Grand Rapids. Mrs. Brooker cordially extends an invitation to their Cass City friends to call during their stay.

Twin daughters were born to Mr. and Mrs. Maurice Parrott on Wednesday, January 18, at the home of Mrs. Parrott's parents, Mr. and Mrs. Charles McConnell. They weighed about four pounds each.

Twenty-five ladies enjoyed playing bingo Thursday evening when Mrs. J. W. Ryland entertained at a stork shower, in the M. D. Hart home, honoring Mrs. Maurice Parrott. First prize was won by Mrs. Vernon McConnell; second, Miss Helen Battel; third, Mrs. C. McLellan; consolation, Mrs. John McConnell; door prize, Mrs. Lyle Bardwell. A luncheon was served.

Mr. and Mrs. Andrew Schwegler and daughter, Joan, of Lansing came Wednesday to spend a few days with the former's parents, Mr. and Mrs. William Schwegler. Andrew Schwegler will leave Saturday for Pennsylvania, where he will be employed for the Lansing Dairy Company, as traveling salesman. He has been in the employ of the same company in Lansing in recent years.

Norris Wilber of Caro, Tuscola County Agricultural Agent, was guest speaker Tuesday evening when the Cass City Grange met at the home of Mr. and Mrs. William Schwegler. He had for his subject, "Tuscola County," and told many interesting facts about it. Group singing and a quiz in charge of Mrs. Ben Schwegler were enjoyed. The program was in charge of Mrs. Sam Blades. Mrs. Clara Folkert was given the first and second degrees. A potluck supper was served. The next meeting will be held with Mr. and Mrs. Sim Bardwell on February 21.

Build Home for Huge Telescope

Almost Inaccessible Peak Is Site of House for 200-Inch Lens.

SAN DIEGO, CALIF.—Man's eternal quest to fathom the mystery of his being will be further enhanced next May when the 200-inch "eye" of the Mount Palomar observatory will enable him to probe the heavens for some 3,600,000,000,000,000 miles, Capt. Clyde McDowell, supervising engineer, said.

Because its 5,550-foot summit is enveloped by unsullied air, lonely Palomar mountain, 89 miles northeast of San Diego, has been selected as the site for the \$5,000,000 telescope.

Since early 1936 American industry has been at work fabricating the scores of essential parts for the observatory. In dozens of factories throughout the country the various parts have been painstakingly completed.

Piece-meal, the parts are being received on the isolated spur of the mountain, where they will be assembled, jigsaw fashion, to give the world the greatest astronomical tool man's ingenuity could conceive.

Peak Almost Inaccessible.

Transportation now takes up where industry left off, for with all the parts completed, they must be moved to the summit, where five years ago only the hardest of mountain climbers ventured.

Only access to the 720-acre observatory site is by road of which a new six-mile unit was constructed recently at a cost of \$300,000.

Every ounce of material used in constructing the 500-ton telescope and the buildings which will house it must be trucked over steep, winding grades from the port of San Diego or the closest railroad, 54 miles distant.

The 99 tons of rotating machinery which will cradle the 200-inch mirror have made the trek up the mountain, but yet to be carried up the slopes of Palomar is the 300-ton horseshoe bearing which will support the telescope structure.

Mirror to Be Ready Soon.

The 200-inch aluminum coated mirror, now undergoing the last stages of polishing at the California Institute of Technology's laboratory in Pasadena, soon will be ready for shipment up the mountain, McDowell said.

Three 10-ton trucks, harnessed to a 26-wheel trailer, are used to lug the precious cargoes up the grade. The average traveling time required to make the trip from San Diego to Palomar is about 36 hours for the 89 miles.

So perfectly balanced will be the 500-ton structure that it will be capable of being moved by an electric motor developing only 165-horsepower of one horsepower, McDowell said.

Installation of the rotating machinery which will synchronize the movements of the big glass with the heavens upon which it will be focused is expected to take about six months, the supervising engineer estimated.

The observatory and housing accommodations for the glass are nearing completion and the entire unit will probably be turned over to scientists from the California Institute of Technology before June 1, 1940.

Vanilla Is Most Popular Of Ice Cream Flavors

CLEVELAND, OHIO.—"I'll take vanilla," still is the most popular demand when it comes to choosing ice cream flavors.

The Dairy Industries exposition's flavor salesman said that the next most popular ice cream flavor—after vanilla—varies in different sections of the country. The dairy industries displayed their products in Cleveland's public hall in connection with their annual convention.

Down south chocolate is second choice in flavors. Dark cherry and butter pecan tie for second place in Michigan.

The ice-cream eating public now likes big chunks of fruit in its ice cream, the exposition revealed.

When Land Bobs Around It's Hard to Prove Title

BRISBANE, QUEENSLAND.—The owner of a parcel of land on Stradbroke island which disappeared several months ago as a result of erosion now insists that his property has reappeared on Main Beach Point, and that he intends to reclaim it. His principal difficulty is the fact that his shifting land has shown up in a different parish from the one where it was originally located.

Downeasters Tell How To Cure Seasickness

city and jettisoned their cargo of death and destruction upon a poor, frightened and helpless people. Mrs. Lang reached the home on the hilltop and was quickly pulled into the Mission dugout as the planes came over. A Chinese policeman stationed me in the shade of a tree saying that I would be safe there, then he ran away to his dug-out. I could see what was going on and I was glad for that. This was our welcome back to China. Missionaries had warned us that we would see great changes in this country, and we are certainly seeing them.

"Upon arrival at our inland station of Lungchow we enjoyed a few days of quiet as contrasted with the almost daily alarms or bombings at Wichow. We were barely settled in our home however when Japan launched her South China attack. With the fall of Canton came the closing of the West River and the stopping of our mail. We haven't received any letters from home since early in October. In answering this letter, please write, c/o Mr. Bechtel as directed above. Thank you.

"The time of peace and quiet at Lungchow was of short duration; for suddenly on the morning of November 16th, the huge temple bells throughout the city began to ring out the warning that planes were coming. There was little time to hide but the people ran away scattering everywhere. The raid lasted three-quarters of an hour and as the planes disappeared over the mountain tops they left fifty lifeless bodies and thirty demolished houses behind them. More than twenty-five bombs were dropped. Several of them landed in the public market while two larger ones wrecked the only hospital in town so that when scores of wounded came for treatment they had to be turned away. The whole province was subjected to merciless bombings of open and undefended towns for weeks. In each place the casualties have been almost entirely among the civilian class with a large majority of women and small children.

"This is Thanksgiving Day—but notwithstanding we were bombed again this morning and for an hour and a half the planes droned overhead while we lay hidden in the basement of our house. It was there that we held our Thanksgiving Day Service, and the Lord's presence was very real to all of us. Thirty bombs were dropped on objectives outside of the city. We have nearly completed the construction of a good dugout in the yard which will be much better than hiding in the house. They won't bomb us intentionally but we are endeavoring to avoid accidents as far as possible.

"These are days of unusual opportunity here at Lungchow and we are very glad to have the privilege of being here on the field at this time. The blessings far outweigh the hardships and dangers. Man's extremity has always been God's best opportunity to speak to his soul, and we find many people who were formerly hard to reach

VALUE OF MODERN CASE FINDING IN TUSCOLA COUNTY

Concluded from first page.

Thus he, as well as his associates, is protected.

Follow-up work on the two cases of active tuberculosis in Vassar Township is being carried on by Miss Helen Canfield, Tuscola County nurse. One of these is minimal and the other an advanced case. It is estimated that sanatorium care for minimal cases costs less than half the money needed for advanced cases. Here again is demonstrated the sound economy of early X-ray examination for evidence of tuberculosis.

All X-rays were taken by Arnold J. Linden, technician in charge of the Michigan Tuberculosis Association's portable X-ray unit. The family physician of each person X-rayed has been sent the specialist's complete interpretation of his patients' films, together with a recommendation for care in the cases of those found to have some form of the White Plague.

The X-ray clinic was part of the intensive tuberculosis survey in Vassar Township. Sponsored by the association and supervised locally by the Tuscola County Medical Society and the Vassar Civic Committee, the Vassar survey stands as an example of aggressive civic interest in community health. Begun by the association with a thorough study of tuberculosis in Tuscola County for the past five years, the survey culminated in the tuberculin testing of more than a thousand Vassar Township residents. Two hundred and twenty-four persons who reacted positively to the test were X-rayed, with the above findings the end result. Through this united effort the value of the tuberculin test and diagnostic X-ray—now recognized as the most accurate and practical means of detecting early tuberculosis—is clearly demonstrated.

'Farmers' Labor-Saving Machine'

The World's fair in New York, in 1853, made a brave showing of new threshing machines, which, in a simpler, more rural day, attracted a good deal of attention. "The farmer's labor-saving machine," patented by E. S. Snyder of Charlestown, Va., in 1848, was designed for two horses and was said to be capable of threshing and cleaning 100 bushels per day. Hathaway's combined threshing, hulling and cleaning machine for all kinds of grain and seeds was said by the inventor to be capable of threshing and cleaning 600 to 800 bushels of wheat in a day.

Rural Women to View Styles

Sixty-three home economics students at Michigan State College will put on a collegiate style revue for the entertainment and information value it will present to rural women during the 24th annual Farmers' Week program at Michigan State College, Jan. 30 to Feb. 3. Included among those who will model clothing are Lorraine Hoffman and Esther Turner, both of Cass City, and Helen Wilson of Marquette.

This 1939 fashion show is being directed by Miss Marion Hillhouse, assistant professor of clothing at the college.

To make the style revue more interesting, the modeling by the girls will be on garments which they have planned and completed as part of their work in clothing classes.

All types of materials and costumes for various occasions are to be featured as the girls tread the stage of the Little Theater in the Home Economics Building. The students originally started in elementary classes. In advanced work they did not use commercial patterns but went into individual design and then modelled and constructed the garments. The revue is scheduled for 10:00 a. m., on Wednesday, February 1.

A Non-Partisan
State News Letter
By GENE ALLEMAN
Michigan Press
Association

Lansing—By beating the legislature "to the draw" through November 8 adoption of the anti-diversion amendment, Commissioner Murray D. ("Pat") Van Wagener of the state highway department has put the "good roads" cause in rather an invulnerable position for 1939.

In fact, there is considerable speculation as to what, if anything, legislators can do to clip Van Wagener's wings.

Votes back home possess a peculiar yearning for more highways. The chamber of commerce is always agitating a road improvement or another that would take motorists from somewhere to elsewhere. Good road sentiment knows no party lines: it thrives amid all income groups.

When Governor Fitzgerald proposed that the highway department provide free ferry service at the Straits of Mackinac, build its own office building at Lansing, and cease dipping into general funds, he threatened what former Governor

Murphy tried to do in spirit. Murphy wanted to divert highway funds for welfare relief; instead the legislature authorized a "blank check" for \$10,000,000.

Free Ferries

The free ferry idea, like free school books, sounds fine.

Obviously, such a service would be popular, for motorists are just as human as anyone else. The present law provides that the ferry toll charge shall meet the cost of operating the ferry service which approximates a half million dollars each year.

Where the difficulty arises is over the financing of a bridge across the Straits. In all estimates made so far, engineers have assumed that the tremendous investment would be liquidated in part, if not eventually, through payment of toll fees. Once the state authorized free ferry service, bridge sentiment would rapidly subside.

The office building recommendation has merit, as has the suggestion that no further appropriations be made from the state general fund.

These latter proposals, like the first, will have to run the inevitable gauntlet of good road boosters who want every highway dollar available for matching by the federal government. Washington will send to Michigan in 1939 a total of \$4,114,084 for highway improvements. Of this amount \$3,012,993 will match state funds on a 50-50 basis; \$451,949 will match funds that are raised 50-50 by counties and the state, and \$649,147 will be an outright grant to build grade separations in metropolitan districts.

On February 3, Governor Fitzgerald will face the same hurdle that Murphy had one year ago. On that day the Michigan Good Roads Federation holds a big rally at Grand Rapids, to which the governor has been invited to speak.

Gambling, Civil Service

The honeymoon period for the new state administration has been unexpectedly upset by a press tempest over gambling in Macomb County.

Taking the position that county officials, the sheriff and prosecuting attorney, are responsible for local law enforcement, Governor Fitzgerald let it be known, early this month, that gambling was a home rule responsibility. He didn't intend to order the state police hither and yon to clean up local conditions, unless or until the probate judge officially ousts the local officials and thereby invites the state to intervene.

Actually, this position is no innovation with Fitzgerald, and everyone concedes that there is plenty of good common sense to his views. But it has been most annoying, to put it mildly. A compensating factor, however, is the announced determination of the new liquor control chairman, Orrin A. DeMass, of Detroit, that the present prohibition would be continued against slot machines in licensed establishments.

He did intimate, however, that private clubs might be permitted to operate them if they could prove that all revenues were used for operating expenses or for benevolent purposes.

It raises a neat question: What is a "private club"? The Club Ackmur, gambling house in Detroit, poses as a private club with an initiation fee of \$5 and monthly dues of \$1.

Civil Service Storm

Governor Fitzgerald's utterances in recent days have indicated a growing apprehension that patronage-minded legislators might go too far in revision of the civil service law.

After Personnel Director William Brownrigg had been pounded verbally by investigating legislators, Fitzgerald telephoned Geo. Burke of Ann Arbor, Democrat and chairman of the civil service commission, to come to Lansing and back up Brownrigg in presenting a true story of civil service. Attorney General Thomas Read was reminded tartly that under the law he was vested with responsibility to provide legal counsel for Brownrigg.

Brownrigg did admit that the law made it "legally and theoretically possible" for employees to be assessed for political purposes. During an investigation of telephone fees paid by motorists at a Detroit branch of the secretary of state, statements were made to the effect that employees were assessed 2 per cent of their pay for campaign purposes by order of Bernard Youngblood, deputy secretary.

Medical Insurance

Socialized medicine under voluntary leadership of the Michigan State Medical Society is assured for the low income wage-earner. Hospitalization insurance rates would vary from 60 cents an individual to \$1.25 a family, depending on whether the patient is in a ward or a private room.

Benefits would include 21 days' hospital care the first year and thereon in a graduated scale up to 30 days in the fifth and subsequent years.

Household Hints

By BETTY WELLS

IT'S time we took a little time to think about time. About clocks, to get right down to brass tacks. How many of us are carrying a 99-cent drug store clock from one room to the other? A clock like that doesn't mean much one way or the other . . . certainly it doesn't look like much and I've yet to see one that kept very good time.

As a matter of fact, a clock should be a decorative part of every room as well as an accurate timekeeper. I blame the clock manufacturers for this somewhat . . . they haven't really done right by us lately. They'll answer right back and say we don't buy nicer clocks so it's our fault after all. Mebbe so.

I've been digging around trying to find out what types of good looking clocks there are available—clocks worthy of being a decorative focal point in a room. Because I'm for utility with decoration wherever possible—so why isn't a handsome clock a better idea than a candlestick for a mantelpiece or chest . . . certainly it serves a more useful purpose.

The most interesting modern clocks I've found are the grandfather clocks for halls—copies of fine old ones. An imposing clock like that

Now you can get reproductions of handsome old grandfather clocks.

would practically furnish the average hall. There are reproductions of old banjo clocks too that would do exciting things to most any wall. They are as authentic in design as they are accurate in time keeping.

The smaller clocks that I've seen and liked included one in an antique silver finish and in oblong shape. The clock is at one end, while a hand chased design of deer and trees at the other end has a certain austere formality about it—it suggests itself for use on a mantel or some other important place.

A smaller jaunty clock is a new sort for a desk. It must have been inspired by old time paper weights—as a matter of fact it's a combination clock and paper weight. It has one of those pieces of heavy round glass in place of a crystal, while the face showing through this is a brilliant emerald green. Of course there are ever so many table clocks of crystal, wood and chromium in modern design.

A Call for Help.

"I'm a business woman," writes L. E. H., "and so I'm all at sea about the subtleties of home decorating. Right now I'm trying to fix up my living room and dining room and need some help. I have a very good taupe sofa and a flowered armchair which harmonizes with the rust draperies at the living room windows. I have a mahogany set with black leather seats and backs which I'd either like to sell or refinish. I need a new dining room set. What would you suggest that would not be expensive and yet smart? Do I have enough lamps? For the living room I have one floor lamp, one bridge lamp, one table lamp. For the dining room I have only the center ceiling fixture. The walls of both rooms are beige. What rugs would you suggest?"

"Have you any suggestions about the arrangement of furniture? I en-

"I'm all at sea about the subtleties of home decorating."

close a rough sketch of the room plan as I have it now. Thank you for your help."

I'd like to see large soft old blue rugs in both these rooms. Then soft blue coverings in place of the black leather on the old mahogany frame pieces. You might add several odd round cushions for them to repeat the note of rust. For your dining room why don't you get a rather smallish dinette set in bleached walnut or bleached maple?

About the arrangement of the room, I think that it would be more friendly and graceful if you placed your taupe sofa at right angles to the fireplace (looking toward the dining room) with a big easy chair opposite. Then put the mahogany frame settee against the wall where the taupe sofa is now. This would give a less crowded feeling around the stairway and would make your fireplace grouping more comfortable. Your living room is difficult to arrange because there is so little wall space.

Men Get Jump on Wives in Economy

Act Sooner as Conditions Turn Downward.

MINNEAPOLIS.—Husbands start economizing much sooner than their wives when economic conditions turn downward; a sliding off in sales in men's wear departments was the first indication many department stores had that all was not well in the summer of 1937.

Men are still buying less for themselves than this time a year ago, though the spread is narrower than in the first six months; several other lines of "prosperity goods" have also climbed closer to 1937 sales volumes, according to a third-quarter study of luxury and semi-luxury sales at 236 department stores, made by Northwestern National Life Insurance company.

Pianos, whose phenomenal four-year come-back was checked during the winter of 1937-38, again show an actual increase in sales for the third quarter of 1938, running 3.4 per cent above the corresponding period of 1937, in the department stores studied.

Fashion can successfully resist a depression, the survey states, pointing to the fact that department store sales of jewelry registered only slight declines during the 1937-38 recession, in the third quarter were within 3.3 per cent of the corresponding period of 1937, and are now running practically even with last year. Style dictates which made jewelry an essential accessory of women's dress have been mainly responsible for the maintenance of public buying of such items, the study states.

Home furniture and electric household appliances both improved their showing in the third quarter. Furs, sporting goods and luggage maintained or increased the margins by which they are trailing their 1937 sales volumes, the report shows.

Inventories of eight out of the nine lines covered by the study have been reduced, and smaller stocks remain on hand than last autumn. The sole exception is pianos; increased public interest and new designs have resulted in a modest increase in stores' piano stocks, the study shows.

U. S. Opens Farm to Treat 1,000 Narcotics

FORT WORTH, TEXAS.—A new \$4,000,000 United States public health service hospital devoted to non-dangerous narcotic addicts has been placed in operation with 250 patients. The narcotic farm, a few miles southwest of Fort Worth, has no walls, and the directors intend to give fullest freedom to patients.

"It is the government's policy to treat addicts as patients instead of criminals," said Dr. W. S. Ossensfort, who is in charge. "Our problem is making a healthy personality out of a warped and unstable personality."

Seventy-five per cent of the patients will be consigned by federal courts. They will be narcotic addicts who are believed to be harmless. The other 25 per cent will be voluntary patients.

The farm will accommodate 1,000 patients. Work is planned on \$1,300,000 worth of new buildings. The farm will have its own workshops and facilities for agriculture. Patients will be kept in dormitories, and the only restraint will be a wire fence about the premises. Doctors said they anticipated no trouble from patients leaving the farm without permission.

Artificial Pump Devised To Save Heart Victims

PHILADELPHIA.—An artificial heart and lungs which may save the lives of victims of pulmonary embolism has been designed by Dr. John H. Gibbon, of the University of Pennsylvania's Harrison department of surgical research.

Pulmonary embolism, which accounts for 8 per cent of deaths following surgical operations, comes when a blood clot clogs the artery from the heart to the lungs, and usually results in death within 15 minutes.

Doctor Gibbon's chromium-plated steel heart and lungs is designed to perform the functions of the living heart and lungs while a surgeon removes the clot.

No attempt has been made yet to use the apparatus on human beings, but Doctor Gibbon told the Medical Society of Pennsylvania at its recent Scranton convention that the blood of 13 cats had been diverted through the artificial organs for periods up to 18 minutes without loss of life.

The apparatus can be attached to a cat's blood stream in 10 minutes, five minutes short of the time in which pulmonary embolism usually is fatal.

Septuagenarian Devours 120 Oysters at Sitting

SYDNEY, N. S. W.—T. W. Rattigan, 71 years old, ate 10 dozen oysters at one sitting at a luncheon held in connection with the eleventh annual Oyster Growers' conference here.

His performance is acclaimed as the best weight-for-age feat seen at the conference for many years.

Special Notice

After giving dishes for about three years, we find at this time that we can no longer afford to do so.

We are sorry, but we must discontinue this practice.

To those persons with names on our charts, who have not completed their sets and wish to do so; we are doing what we feel the only fair thing to do. We will offer these dishes at their cost to us, for the period of one year.

Persons who have tickets in possession may redeem them, at any time.

We will discontinue giving tickets after January 31, 1939.

Merchandise you want, at lowest possible prices, has, and always will be our aim.

Teen-Age Girl Outfitted In Garb of Modish Wools

By CHERIE NICHOLAS

AFTER Yuletide holidays, so carefree and so joyous, then what? Ask the teen-age and the sub-deb, they know. It's back to school for them with an outfitting of new clothes. A dress, a coat and a suit as pictured give the correct answer. Starred for youthful simplicity and gay young charm, this season's smart wool costumes for the teen-age are ready to go places and do things with utmost chic and charm.

Fine, soft-textured wools, nicely adaptable to any occasion, and sturdy enough to take plenty of wear and tear, make gay little frocks, for classroom, sports and after-school wear as well as versatile action-built jacket-and-skirt costumes, nonchalant sports coats and formal fur-trimmed coats.

The lightweight wool frock for all-day wear is appearing this season in any number of attractive versions. Sheer wool crepe, fine wool flannel in its lovely glowing colors, soft rabbit-and-wool mixtures, intriguing novel weaves and the ever-popular wool knits are distinctively tailored in chic little frocks that are as flattering as they are correct.

The plaid dress with all-round pleated skirt is a school-girl favorite. The appropriately youthful gayety of bright plaid is reflected in the winsome frock in the accompanying illustration. This youthful version of the classic shirtwaist type is of lightweight wool in a gaily colorful plaid, accenting a bold red with navy and white. The smart buttons and belt are navy leather. Short sleeves are pulled on for flattering shoulder effect.

Important in the teen-age wardrobe are the wool jacket-and-skirt suits designed for all-occasion wear. Correct for traveling, country, campus or town wear, they are distinguished by smart simplicity of line with accent on fabric and color.

Fine wool tweeds in subdued or bright shades, smooth wool flannels, tailor-minded twills and worsteds are all favored for these versatile costumes which are designed to be worn with little silk blouses for dress or with sporting high-neck wool sweaters for casual wear. Pleats share honors with stitched gored constructions in built-for-action skirts. For the college-minded jacket-suit pictured a nubby wool tweed in soft rose-beige is used, with brown buttons and brown leather belt for smart contrast. The double pointed pockets are clever and decorative.

Costumes that contrast jacket to skirt have made a tremendous "hit." Suits are selling with two jackets, one matching the skirt, the other in a vivid plaid or stripe wool that picks up the color of the skirt.

Color is important in the soft wool fleeces and sturdy tweeds are used for tailored all-purpose coats for the younger set. Luscious wine shades and rich greens vie for popularity with the traditional neutral shades. Deep browns are good and navy is still popular. Styles vary from the comfortable and correct polo coat type single breasted and belted, to the boxy swagger or the high-buttoned semi-fitted reefer type. The fleecy coat pictured has a high-rolled wolf collar worn well up to show the squared shoulder line of the sleeves. A leather belt and the large buttons are in dark brown to contrast the deep green of the coat.

The teen-age girl's wardrobe will not be complete unless it includes a jaunty tip-tilted feathered hat together with a youthful plaid flannel dress as pictured in the inset below. The blouse is enlivened with shining starlike buttons by La Mode and a pert sharkskin Peter Pan collar and cuff set.

The woodthrush, for some unexplained reason, becomes almost fearless in early autumn and will permit human beings to approach within two or three feet.

Bird Uses Bill as Needle

The tailor-bird of Asia uses her bill as a needle and with bits of fiber or grass sews leaves into a kind of sack. This is then filled with wool, fibers and hair to make a nest.

BLIND MAN'S BUFF

Have you ever hunted in the dark to turn on a light? Aside from the lurking ambush of an open cupboard door (a favorite object to bump into in the dark) there are many good reasons for not putting up with this annoyance. One's time can be spent much more pleasantly than in groping for a dangling chain on a light fixture in the center of the room. A light switch on the wall by the door costs very little, and pays for itself many times over in convenience and safety. Telephone any electrical contractor for an estimate on this work. Crochet Ensemble

Winter fun for a young lady will be just so much more exhilarating if she is dressed for her sports in this smart playtime outfit. This perky knitted and crocheted hat-scarf-glove ensemble is warm to wear and eye-appealing to behold. This set is worked in white german-town wool with a dashing trim in two contrasting colors. The gloves are done in a bold vertical ribbing effect.

Bolero Theme in New Silhouette

A new departure in the bolero theme is the very short dress top that pulls on over the head like a sweater. It is, as a matter of fact, of bolero inspiration except that it is closed up the front instead of left open jacket fashion. The beauty of this new fashion is that it has a tendency to slenderize the waistline below, giving width at the top of the figure and extending out at bustline. Some of these new pull-on boleros are prettily braided and embroidered.

Fur Dyers Adding To Lure of Skunk

Both kolinsky and Russian fitch in sable coloring and mink-dyed muskrat have found great favor. The fur dyer has also contributed to the continued success of skunk, now available in stunning sable and baum marten shades.

Foxes—silver, red and blue—are extremely important now in the making of fur coats in short and intermediate lengths. And a newcomer in this field is the silky lynx.

Sports Coats Spotted

Only for sports are the spotted coats—ocelot and leopard skin, mottled pony or calf.

Lingerie Note

There is a definite trend toward high necklines and short sleeves in lingerie.

FSA Made Loans to 22 Additional Tuscola Farmers

During 1938, the Farm Security Administration made loans to 22 additional Tuscola County farm families who were unable to secure adequate credit for live stock, feed, machinery and other necessary farm and home operating requirements, reports John McDurmon, FSA County Supervisor, whose office is in the Court House at Caro.

Practical farm and home management plans providing for maximum production on the farm of the family's living supply, as well as crop and live stock programs that provide the greatest net cash income, have been worked out by each FSA borrower and his wife, with the aid of the supervisor. All loans are based on plans designed to meet the individual family's needs and the type of farm operated.

As a productive farm, and satisfactory rental arrangements are among the primary requirements for an FSA loan, assistance in working out improved leases and rental agreements on a written basis, has been extended to all borrowers. These written agreements, designed to improve the relationship between landowners and renters not only contribute to the security and stability of the tenant, but at the same time aid in stimulating good farm management and soil conservation, Mr. McDurmon said.

Progress of the 101 Tuscola County farmers now operating under the FSA loaning program indicates that although they could not get credit elsewhere, the majority of these borrowers are regaining independence and repaying their loans.

The Farm Security Administration has also administered the Bankhead-Jones Farm Tenant Act in Tuscola County for the past five months. This act which makes funds available to tenants for the purchase of their own farms, operates only in certain designated counties as the appropriation necessarily limits the number of loans which can be made in any state. To date, it has enabled ten eligible tenants in Tuscola County to buy farms of their own. It is anticipated that loans will be available in more counties next year as additional funds are made available.

Winter Vegetables Important in Diet

Take Page From Book of Old-Fashioned Housewife

By EDITH M. BARBER
MOST of us, it seems to me, are neglecting the good old-fashioned "winter" vegetables. Once upon a time they provided most of the season's supply of fresh food. Every household kept a supply of parsnips, turnips, carrots and cabbage in the cellar. To be sure, flavor and quality deteriorated with the months, but in the absence of other fresh food, they did their bit.

Today we buy these vegetables just as we do the others from day to day and they deserve consideration in our menus. Have you ever tried serving fried parsnips with roast beef? This was always a favorite combination in our family. The parsnips, of course, must be boiled first until they are tender, but they must not be overcooked before they are drained, sliced and fried to a delicate brown.

Then there are turnips, both yellow and white. The former are generally known as rutabagas and they are at their best when they are boiled, drained before mashing with plenty of butter and seasoned. They may also be diced before boiling and served with a sour sauce.

While carrots can be stored as are other winter vegetables today we prefer the young carrots which are so tender and have such a delicate flavor. These make them appropriate for serving raw as a relish or for a salad ingredient. They may be cooked either whole or sliced and dressed with melted butter, which may be flavored with lemon juice. They may be glazed or served with brown butter. In any case they should not be overcooked.

Sweet-Sour Cabbage.
1 quart cabbage
2 sour apples
2 tablespoons fat
2 tablespoons flour
4 tablespoons brown sugar
2 tablespoons vinegar
Salt and pepper
Shred the cabbage and mix with apples cut in slices. Heat fat, add cabbage and apples. Pour boiling water over them and let cook until tender; sprinkle over the flour, add sugar, vinegar, salt and pepper. Cook four minutes and serve.

Glazed Carrots.
Scrape carrots, slice and cook in a small amount of water with a dash of sugar and salt in a heavy-covered utensil until tender. When tender, place in a saucepan with two tablespoons of sugar and two tablespoons of butter. Cook over a low fire until sugar is melted. Baste with the syrup and serve.

Rice With Mushrooms.
2 cups cooked rice
1½ cups canned tomatoes
1 green pepper
½ cup mushrooms, canned or cooked
½ cup mushroom stock
4 tablespoons butter
Seasoning
¾ cup buttered fine crumbs
Mix the rice with the tomatoes and add the chopped pepper and mushrooms. Stir in the mushroom stock, add the melted butter, with additional seasoning of salt and pepper to taste. Pour into a buttered baking dish, cover with buttered crumbs, and bake in a moderate oven 375 degrees Fahrenheit, until browned.

French Fried Onions.
1 cup flour
½ teaspoon salt
¾ cup water
2 tablespoons salad oil
1 egg white
10 to 12 large onions
Mix and sift dry ingredients. Add water, beat smooth; add oil; fold in stiffly beaten egg white. Slice the onion one-eighth inch thick. Separate into rings. Reserve the small rings for other use. Soak in milk to cover one hour. Drain and dry, dip in batter and fry in deep oil about two minutes. Drain on soft paper.

Braised Leeks.
In the bottom of a baking dish arrange a bunch of leeks. Sprinkle over the leeks one sliced carrot, two sprigs of parsley, one minced celery stalk and a sprig of thyme. Add one cup of meat stock and cook uncovered in a hot oven, 425 degrees Fahrenheit, for about 15 minutes or until leeks are tender.

Russian Dressing.
½ cup mayonnaise
¼ cup whipped cream
½ cup chili sauce
1 tablespoon minced green pepper
Mix ingredients thoroughly and serve with salad.

Fried Tomatoes With Cream Gravy.
6 tomatoes
Salt
Pepper
Flour
Butter
2 tablespoons butter
3 tablespoons flour
2 cups milk
2 teaspoons sugar

Wipe, peel and slice tomatoes. Sprinkle with salt and pepper, dredge with flour, and saute lightly in butter, as many as the frying pan will take at one time. Remove to another pan as slices are browned. When they have finished cooking, add the two teaspoons of butter to what is left in pan, stir in flour and when smooth add milk. Stir until smooth and thick. Season with salt and pepper and sugar. Reheat tomatoes, remove to hot platter and pour gravy around them.

DEFORD

Milk Producers Meet—

A group of milk producers numbering about 200, met on Monday evening at the Hambleton Hall building to hear an address given by L. B. Ward, a representative of the Federal government, in the interest of small business. The purpose of these meetings is to have the producers work unitedly in an effort to have the state enact legislation that will lead to receiving a more equitable price for milk production, stating that it of a right ought not to be less than \$2.80 cwt. He stated it would require an additional 65,000 cows to yield the amount of Michigan's consumption of milk products. The meeting voted unanimously in favoring such an effort.

An association was formed and Francis Stewart was elected as president-secretary, and William D'Arcy, treasurer. An effort for a large enrollment of members is being conducted.

Electric Cooking—

The Edison Company conducted a demonstration of roasters and other electrical cooking utensils, to a large group of ladies on Wednesday afternoon at the Deford Church dining room. The ladies furnished coffee and cream and the Edison Company served a very delicious luncheon of chicken, roast ham, and other delicacies.

Forgery Ancient Custom

That forgery was practiced in the Thirteenth century is evidenced by two forged coins found among the 450 of the reign of Henry III dug up in Hornchurch, England.

Specific Gravity of Blood

The specific gravity of blood depends upon the quantity of haemoglobin present. Normally it is between 1.055 and 1.060.

WHAT WOULD HAPPEN TO YOU IF A TIRE BLEW OUT AT 60?

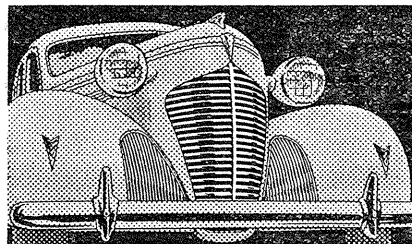

YOU'D BE SAFER WITH HUDSON'S EXCLUSIVE AUTO-POISE CONTROL

WHY? Because this revolutionary mechanical invention (patent applied for) automatically helps to keep wheels on their course—on rough roads, in heavy side winds, even when a tire blows. The operation of AUTO-POISE CONTROL does not require special tires, tubes or extra equipment of any kind. It is standard at no extra cost on all 1939 Hudson passenger cars; NO OTHER CAR HAS ANYTHING LIKE IT.

WHAT WOULD HAPPEN TO YOU IF HYDRAULICS SUDDENLY FAILED?

YOU'D BE SAFER WITH HUDSON'S EXCLUSIVE DOUBLE-SAFE BRAKES

WHY? Because, even if hydraulics should suddenly fail through accident or service neglect, the driver of a Hudson just pushes farther on the same foot pedal and STOPS. Thanks to Hudson's exclusive Double-Safe Brakes—two braking systems (finest Bendix Hydraulics and a separate reserve mechanical system) working automatically from the same foot pedal. Many letters in our files tell of accidents prevented by Double-Safe Brakes, standard in all 1939 Hudsons.
