The Backyard FLOODLIGHT

What is that noise in the back of the house, late at night? Flip on your backyard floodlight and find out! An inexpensive outdoor light of this sort is really a necessity: It adds immeasurably to your peace of mind, it contributes to safety, and it helps light the garage. A 100-watt

lamp bulb in a simple reflector will do the job nicely... and costs next to nothing for the short time it is used. Coming on the low step in your rate, this incidental lighting will probably add as little as 10c a month to your bill. Any electrical contractor will gladly install an outdoor floodlight. And it's a fine feeling to know that we can phone neighbors or the doctor quickly in an emergency. A phone is well worth its price. It doesn't pay to be without one.
