Regimenting Michigan.

(Daily Tribune at Royal Oak). Instead of worrying about how Hitler is regimenting the German people, it might be a good thing if we would pay attention to some of the proposals continually coming before the Michigan legislature.

If all the laws proposed there to regulate people and their jobs were passed, we would all be living in a straight jacket.

One of the latest is a plan to establish a state board of examiners on watch making. Four years' apprenticeship would be required, an examination and, of course, a \$5 annual license fee.

In defining "unethical conduct," the bill includes advertising prices of watch repairing. What is unethical about that? If so, what about other forms of advertising?

Another legislator suggests that we line up the contractors under government control. He would create a state license board for them with power to examine, classify and qualify applicants.

Still another control measure has been proposed. This would set up a code of ethics for painters. In this case, the initial license fee would be \$50.

At this rate, eventually we won't have any watch makers, painters, masons or anybody else. We will all be working in government bureaus, collecting fees and telling other people how to run their businesses.

Buy Michigan Products.

An effort is being made to seek greater appreciation on the part of the public of the importance of Michigan's agriculture.

Michigan has been referred to so often as the automobile state that the value of our farming has been lost sight of. The fact is that while we rank tenth or better in all of the major crops with the exception of two, one of them being corn.

Michigan's rank among states in agricultural production is as follows: First, cherries; second, beans; third, grapes and potatoes; fourth, pears, peaches, alfalfa hay, clover seed; fifth, apples, peas and buckwheat.

Every consumer in Michigan should cooperate in promoting all-Michigan products by insisting on Michigan products when shopping in your corner grocery store or meat market.

Michigan has lost a great man.

Swift Lather's Philosophy.

There is an arithmetic of tranquility that so many wish they could decipher its arabic numeration. There is a bookkeeping of balance and content that could eliminate every red ink problem of relief from our national ledger.

May I ask five minutes of your time to tell you the formula of peaceful living? Where are the fields where tranquility blooms like the blue velvet of morning glories on your pantry window?

Where are the fountains of personal peace? Where are the cobblestone curbs of the old oaken bucket wells of security? Where is the shade tree bench where one may sit down to escape the tension of the machine age, the frenzy of the unbalanced budget?

"ON MY HONOR I WILL DO MY BEST.."

Robin Hood might have been a better archer, and he probably didn't roam the Sherwood Forest in a wheel chair, but he probably was no more brave at heart than these handicapped scouts who are gallantly facing the future, determined that in spite of everything they are going to do their duty to God and their country if they are given half a chance.

Endorsement Given Easter Seal Sale by Meredith Auten

Praising the work of the Michigan Society for Crippled Children, Inc., Meredith B. Auten, today gave her warm personal approval and endorsement of the sale of Easter seals now being carried on by this organization in order to finance its program for crippled children.

"Although the work of the Michigan Society carries with it every opportunity for a strong heart appeal, in my estimation no such appeal is necessary," said Mr. Auten, local banker. "The economic and social benefits to society as a whole would alone serve to justify many times the expenditure now made in this kind of work."

Mr. Auten pointed out that although the element of human sympathy in work of this kind is inescapable, it should not be such as to obscure practical aspects of the situation.

"The Michigan Society has been carrying on a dogged campaign of education to get public recognition of the whole problem," he declared. "In bringing home to us the fact that by a small initial investment society can be relieved of a great financial burden this organization has done a great service."

The banker enthusiastically cited numerous cases of handicapped young people he knew who had been helped to help themselves. "Restoring them to earning capacity has relieved the community of the burden of caring for them as long as they lived," he said. "That is not only a fine thing for them but for all of us. A movement which pays dividends of that kind should have the support of everyone. I appeal to the people of this community to give the seal sale the unanimous support it deserves. Dollars invested here will bear fine dividends, both in happiness and money."

Noted Case of Mistaken Identity An outstanding case of mistaken identification occurred in a criminal court in Boston in 1913. Seven witnesses, all unknown to one another, positively identified the accused as the man who had given them worthless checks. Subsequently, says Collier's Weekly, he was released from prison through the capture and confession of the real forger who bore no resemblance whatsoever to him.

Presbyterian Church—Mr. Arthur Holmberg will occupy the pulpit March 26. The annual meeting of Presbyterian Church will be held April 3 in the church at 8:00 p. m. Kindly have all reports ready for the meeting.

Evangelical Church—R. N. Holsaple, Minister. Sunday, March 26, and the week following: Sunday morning at ten, the Sunday School will meet. Ed Helwig is superintendent and there are classes for all who do not attend elsewhere.

At eleven o'clock, Rev. Joe Denton, evangelist, will preach on "A Surrendered Life."

Next week, Dr. R. N. Holsaple, the pastor, will preach each night in the second section of the three-weeks revival campaign that precedes Easter.

Prayer meeting is being held each afternoon at three o'clock.

Proof That Animals Really Think. An absorbing, informative article in The American Weekly, the great weekly magazine with the March 26 issue of The Detroit Sunday Times, points out that maybe animals' brains don't function like those of human beings, but, often enough to convince anybody, they use a certain kind of reasoning. Be sure to get Sunday's Detroit Times.—Advertisement.
