Cass City-Kingston Miss Schenck Will Road to Be Let on August 30

Twelve Miles Will Be Improved with a Bituminous Surface Treatment.

In the Chronicle this week, there appears a notice requesting bids for the improvement of 12 miles of road in Elkland, Novesta and Kingston Townships with a bituminous surface treatment. Sealed proposals will be received from contractors until ten o'clock Wednesday morning, August 30, in the state capitol building in Lansing.

"The Federal Government has extended financial aid to the various state highway departments for of federal roads," says Murray D. Miss Florence Marion Schenck, this afternoon. VanWagoner, state highway commissioner. "Approximately 75% of the paved mileage on the present Joseph Frederick Sahlmark, son of the river, a mile south of the villege on the present Joseph Frederick Sahlmark, son of the river, a mile south of the villege that the pavel mileage on the present Joseph Frederick Sahlmark, son of the river, a mile south of the villege that the pavel mileage on the present Joseph Frederick Sahlmark, son of the river, a mile south of the villege that the pavel mileage on the present Joseph Frederick Sahlmark, son of the river, a mile south of the villege that the pavel mileage on the present Joseph Frederick Sahlmark, son of the river, a mile south of the villege that the pavel mileage on the present Joseph Frederick Sahlmark, son of the river, a mile south of the villege that the pavel mileage on the present Joseph Frederick Sahlmark, son of the river, a mile south of the villege that the pavel mileage of the pavel mileage on the present Joseph Frederick Sahlmark, son of the river, a mile south of the villege that the pavel mileage of the pavel mileage on the present Joseph Frederick Sahlmark, son of the river, a mile south of the villege that the pavel mileage of the pavel milea improvement of farm to market or of Kinde, former minister here, at years. secondary roads, and Tuscola Coun- 12:30 p. m. ty has chosen to participate in the second program through the im-Helga Sahlmark of Grand Rapids, village paid the remainder. Couple Celebrate 65th Wedding **Anniversary**

Mr. and Mrs. Hendrick Spent That Period on Their Ellington Township Farm.

Mr. and Mrs. Orson Hendrick of Ellington Township, who quietly celebrated their 65th wedding anniversary Thursday, August 24, advise young married couples to work together, plan together and save," if they wish to live a long and happy married life. They state that this is their secret and by following it, each year of their married life grows more pleasant.

Mr. and Mrs. Hendrick, who have spent every year of married life on their 100-acre farm here, report that very few quarrels marred their happiness. During the first few years, work in clearing the land and preparing it for farming occupied every hour of the day. There was little time to spend in "foolish quarreling," and after they were settled, found happiness in planning together. They admit little differences sometimes bobbed up, but do not believe it is human nature to not have them. Their differences, however, never led into quarrels which they believe are the cause of many divorces today.

Their marriage 65 years ago was the culmination of a school day romance. As youngsters they both attended a school in Ohio, and grew fond of each other. When Mr. Hendrick moved to Ellington Township with his parents, it was feared Hendrick remained in Ohio and in that day the distance between these two points was almost insurmountable, even to romance. Mr. Hendrick began working in the lumber mills hereabouts, clearing land and other jobs, while the future Mrs. Hendrick continued life in Ohio. A few years later fate brought them together again.

DEMAND FOR THE COOKBOOK.

Baltimore, Maryland, reports that the months of July and August always see a sharp upswing in the demand for cookbooks. This seems to mean that the brides home from their honeymoons see the necessity that they learn to cook.

This is a cheering news note, and indicates that young housewives realize what a vital part is played in family life by the knowledge of cookery. The husband's love may be extremely ardent, but if he comes down to breakfast every morning to super-hardened biscuits, and if the pie at dinner has a wet and soggy crust, it is not so clear whether that love will last.

The old saying has it that "love laughs at locksmiths," indicating that the lovers have a way of evading all locked doors, and getting the knot tied in spite of all objections. But love may not laugh continuously at bad cooking, and it has gone sour in countless instances because the meals were hard to eat.

The women of former days took pride in their wonderful cakes and the luscious quality of their roasts. drive faster than 35 miles an hour The man who contemplated fleeing to parts unknown did a lot of rumi- At 40 miles an hour you are overnating, before he separated himself driving your light or continuously from those good eats.

It is not merely a question of keeping a man good natured. You can't bring up a healthful family on bad eats. If the food is indigestible, the children are likely to look pale and both husband and wife will probably feel a lack of energy. Hence three cheers for the cookbook. It is one of the finest wedding presents for a bride. It wouldn't hurt the husband to study it some

short time. Lest we be too proud of the changes science has wrought it might be said that some things were better in those days. No one was thinking of bombing great cities from the air in those times.

TRAFFIC INSTRUCTION.

It is estimated that 5,000 high schools in 33 states are teaching traffic safety to students. Such instruction may be a leading reason why the number of automobile accidents has decreased. When the great majority of automobile drivers have had such instruction, the A public library executive of traffic death rate should be greatly reduced.

Where such instruction includes actual training by competent instructors in running a car, with the instructor sitting beside the driver, and telling him every time he does something risky, the accident rate should come down by a big percentage. The American people are capable of learning to drive better, but they need to have their operating faults pointed out.

Here is a question to test you night-driving sense.

How fast can you drive at night and still see as far as it takes you to stop?

IN POWER-

IF YOU like facts instead of claims, you'll be glad to know that the question of which low-price car is fastest has been answered—not in words but on the road.

At Daytona Beach in March a Fordbuilt Mercury 8 took first place in the grueling 150-mile stock car race. All prize-winning places were taken by Fordbuilt cars. A clean-cut triumph for the Ford V-8 engine.

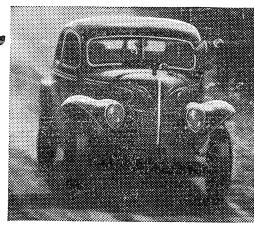

In April the South American Grand Prize Race was run-twice across the Andes-4515 heart-breaking miles! All leading American low-price cars were among the 69 starcers. The race was won by a Ford V-8. And 10 of 28 cars to finish were Fords!

There's just one way to know the smooth, quick power of a Ford V-8. That's to get behind the wheel. Come in and drive the new Ford.

TRUTH about ADVERTISING By CHARLES B. ROTH

JUST WHAT IS GOOD WILL?

that beguiling writer, Bruce Barton, a large factory caught fire. It burned to the ground. Sirens shrieked. Crowds milled. Firemen fought the flames. Newspaper reporters scurried here and there after stories. Consternation reigned. Amid all this confusion the most

serene man in sight was the presi-

dent of the factory, he who should have been the most excited. Alighting from his car, he strolled over to where that which he had spent years in building was becoming a total loss. He was calm, at ease, un-

disturbed. A newspaper man spied him, asked Charles Roth him why he was no more concerned. He explained that the loss was fully covered by insurance and that, besides, the most

valuable asset of the business

hadn't even been touched by the fire.

"To what asset do you refer, Mr. Burlingame?" "Why, to our good will. We can build a new factory—now we'll have to. We can buy new machinerybetter machinery than was in the old plant. As long as the good will

of a business is intact, nothing else matters," he concluded. He was right. The most impor-

FEW months ago, according to | tant thing a business man has is the good will of his customers. Every business which has that is successful; every business which does not have it fails. Good will is not a mysterious

quality like genius. It is a simple, commonsense matter depending upon doing simple, commonsense The first of these consists of giving good value and service, that

the business may win and hold friends. The second consists of making the fact that the business is the kind which wins and holds friends known to its customers, by telling them of its ideals and its services and its merchandise. This telling process is called ad-

vertising. Whenever a manufacturer or a merchant advertises in the newspaper he informs you that he is the kind of business man whom it would pay you to patronize. He makes public the fact that he wants good will and that he realizes the only way he can keep it is by living up to his promises.

You as a customer get more for your money when you patronize a concern with good will. Good will is proof that the concern has done something to warrant the friendship and confidence of its customers.

You see, good will doesn't just happen. It is created-by good goods, by good service, by good advertising.

@ Charles B. Roth.

IS YOUR CHILD READY FOR SCHOOL?

Within the next few weeks, schools will re-open. Now is the time to prepare children for the lessons and the activities of the next school year. The Department of Health, Detroit, has made these suggestions to parents:

First, consult your physician and arrange for your child to have a physical examination; be sure that the child is protected against diphtheria; make sure that the child is vaccinated against smallpox; have a tuberculin test, and if necessary, an

Second, consult your dentist, and have the teeth examined

Then consult an eye doctor and have the eyes checked. Taking these precautions before school opens will assist your child to derive the greatest benefit from his school year.

J. I. Niergarth told Rotarians of the exceptionally fine time he and Mrs. Niergarth and Mr. and Mrs. Audley Kinnaird had on their trip to South Dakota, Wyoming, Montana and Utah, and other states in the West. The story was told at the club luncheon at the Hotel Gordon Tuesday. With the word picture came cards showing the most interesting views sighted on the

From 2:00 to 5:00 p. m. on Monday, August 28, are the hours set in which the Cass City Rotary Club will entertain a group of Caro school children at the swimming pool in Cass City. The first 100 registering at the Striffler Garage in Caro willbe brought here for the occasion. This gesture to bring happiness to young folks is given in memory of the late Herbert P. Orr, whowas most influential in the organization of Rotary in Cass City and who assisted greatly in the programs in the first year of its

Will Conquer **Great Desert**

Waters of Rio Grande Soon Will Flow Into Three Southwestern States.

DENVER.—Conquest of American ca's great southwestern desertstarted 400 years ago by Spanish explorers-is under way again, this time for a prize more valuable than Mr. and Mrs. George Spooner, all the fabulous gold sought by the helmeted Conquistadores.

Ratification by Texas, Colorado and New Mexico of a compact apportioning the flow of the great Rio Grande opened the way for expansion of thousands of acres in farm lands that line the 1,800-mile-long river valley.

Guns and lances have no part in the modern conquest of the Southwest-rather the weapons will be dams, reservoirs and irrigation canals. The result will produce a fortune in tillable land far surpassing the wildest dreams of the conquering Spaniards when they marched northward from Mexico centuries ago.

Ratification Up to Congress. Only the further ratification by congress is necessary to make effective the tri-state compact permitting actual work on a \$50,000,000 program for construction of dams, power plants, diversion canals and reservoirs at various points on the river's course.

Hydro-electric, irrigation and flood control benefits will improve an area comparable in size to Massachusetts, Rhode Island and Connecticut combined.

Starting as a trout stream in the two-mile-high snowfields of the San Juan range in southern Colorado, the river flows through sand dunes and the volcanic badlands of New Mexico, runs placidly to El Paso and continues its lazy way after plunging out of Santa Helena canyon just southeast of the Texas city. Near its mouth, the river streams through the rich citrus farms of southern Texas.

Fulfillment of the Rio Grande compact was the result of more than 50 years of work by water experts, engineers, and the governments of the three states. The treaty provides yearly quantities of water that must be delivered at the Colorado-New Mexico boundary and the amount that New Mexico must deliver to Texas. It limits the amount of water that may be stored during various stages of the river.

Studied by Engineers. Army engineers already were studying the proposed Wagon Wheel Gap reservoir which would water the San Luis valley of southern Colorado. This \$14,000,000 dam and its companion projects would supplement the present development of approximately 350,000 acres of the fertile valley. Flood control and power benefits also would accrue from the completed project.

Power for Albuquerque, Santa Fe and other northern and central New Mexico communities would be the product of a proposed dam near the Colorado-New Mexico state line. This structure also would be used to harness flood waters that annually flood the lower New Mexico valley regions causing thousands of dollars damage.

A projected series of slit reservoirs, dikes, canals and channeldeepening projects in the south central section of New Mexico would cost approximately \$10,000 .-000. Value of bordering farmlands would be doubled by this work.

Farther south, the Elephant Butte hydro-electric power plant and dam would be expanded and work completed for extended irrigation fa-

Seven in Japan Attain a Yearly Income of Million

TOKYO .- Seven persons in Japan have incomes of more than a million dollars a year. The exact income of the seven was not given in the finance depart-

ment statistics, which showed that the largest tax-paying group was in the bracket earning about \$400 a year. The seven persons in the \$1,000,-

000,000 bracket are from three families, not listed by name, but presumably the Mitsuis, Mitsubishis and Sumitomos. Eight families are included in the

15 individuals earning between \$550,-000 and \$1,000,000 annually. Thirty-five families cover the 48 individuals in the bracket between \$275,000 and \$550,000.

The group earning between \$325 and \$400 a year is composed of 340,872 persons from 79.593 families Income taxes reach into the low incomes in Japan and a person earning \$275 annually is subject to a levy of 10 per cent. There are 40,-929 in this group.

Mississippi Girl Eats Her First Ice Cream Cone

MEMPHIS, TENN.-Alma Mardis, 16 years old, ate her first ice cream cone and listened to a radio for the first time. The girl, who came here from rural Mississippi, had never seen an electric light, a Christmas tree, or a movie; had never been higher up than two stories; had never even heard of an elevator, and didn't know Franklin D. Roosevelt is President. She was given shelter at the juvenile home in Memphis after arriving here penniless.

ers, James Osburn of Tuscola, Walter J. Moeller of Bay and Linus J. Frost of Saginaw County, and John Hudson, chief of drains of the state department of agriculture, will form a board of determination which meets on September 7 in Bay County to determine the necessity of cleaning out and widening the Constant-Dee Russell Drain. Included in the work is the proposal to extend dredging one and a half miles upstream from the drain's outlet in the Quanicassee River and reconstructing three bridges.

William Roese of Bay City and ssociates will re-open the old Whittier coal mine in the near future. The village council at its regular meeting Monday evening passed a resolution approving the running of an electric line to the property, which is located on the Oscar Winter farm at the south village limit on Bay Street. Mr. Roese, who is a nephew of Alvin Roese of Sebewaing, worked in the coal mines here in the early nineties. He is an experienced operator and will start operations in pumping out the mine as soon as the electric line is constructed. He will start moving pumping machinery on the lot within the next week. -Sebewaing Blade.

Name for the Highbrows Uppertendom was a word once common for the upper or aristocratic class.

Brand New... Super-tender Frankfurts in the big size!

Swift & Company discovers an almost magic way to make frankfurts tender through and through

Undoubtedly these big, round, largesize frankfurts have always been your favorites. Like a thick steak or a double lamb chop, they're juicier—have a richer, more savory flavor. And now Swift has discovered a way to give these big juicy links a completely new kind of tenderness! The meat "melts" in your mouth. And the skin, tendered in freshly crushed, pure pineapple juice by a special Swift process (patent pending), is so delicate it seems part of the meat itself. This process tenders but does not flavor. The skin couldn't be any more tender and still seal the flavor and natural juices in the meat!

Made of fine meats only . . . big and juicy, full of flavor . . . they're a meal fit for a king!

The August Sale of Rytex Why Ship is Called 'She' In some of the older languages, such as Latin and Old German, from which modern languages have been derived, all inanimate objects were given masculine or feminine gender. In this way the moon was feminine and the sun masculine and among other things, ships and other vehicles were generally spoken of in the feminine gender. Modern lan-guages have adopted this same idea; hence, the reason for speaking Only at the Chronicle. of a ship and train as "she."

Household Hints

By BETTY WELLS

ONCE upon a time in London, we visited the home of Mrs. Belloc Loundes, the English novelist, whom Alexander Woolcott once described as Queen Victoria with a French accent. And it was her French ancestry that Mrs. Loundes credited with her affection for a big bedroom, where a lady could write and rest, have tea or just sit and ruminate.

We sense a trend toward bigger bedrooms in the American scene . . . after all the "master bedroom" indicated in all plans for the newer houses is quite a spacious room. And pleasantly this room is assuming a feeling of rural leisure in its

Upholstered beds are being covered in chintz these days.

furnishings. Braided rugs and flowered walls, the addition of desk. chaise longue and fireplace give a gracious ease to such a room-make the space serve as secondary sit-

ting room, morning room or study. Another French influence on current bedroom styles is the prevalence of upholstered beds. Not the formal types that probably come to mind when the subject comes upthe upholstered beds we mean are unpretentious and provincial in mood, and often they're covered in chintz crettonne, sateen or twill. Watch also for them in pastel leathers and leatherettes. Two bedrooms in Lily Pons' country cottage have upholstered beds-her own bed is covered with quilted blue chintz. Another room has twin beds upholstered in gray-and-yellow flowered chintz. Consider this idea when you are refurnishing because the new upholstered beds aren't out-of-sight in cost.

A Bride's House With Lasting Quality

Oh me, oh my . . . I remember when Nell R. was born. So it was quite a blow to find her grown up and married when I went back to my old home town recently.

Her new little house is very fresh and bride-y. Yet very practical and livable, furnished with chests, tables, cabinets, chairs that she won't blush for 50 years hence-simply finely made pieces of authentic design. Style and smartness are there in the pieces that will be changed more often, the upholstered chairs, the curtains, the accessories.

The walls throughout the little cottage are painted cream, but Nell hasn't let this spell "commonplace" in her home. Instead, she's made

the most of it. In the living room for instance, the curtains and slip covers are in a large scale flowered chintz with a cream ground, and

the rug is a soft sage green. For accent odd cushions in a deep, red and silver for accessories. The dining room and the guest room are both done in the same colors and material-which gives a

feeling of spaciousness and poise to

a small house. Nell's room has curtains in cream ninon draped softly and fully and tied back in big swooping loops, and the bedspread is cream candlewick. The furniture, painted light green, has small flower garlands painted on it, and the rug is an all-over

Because of the subtle simplicity of the decorative scheme, you have a feeling that the house itself has more dignity and size than it really

© Betty Wells-WNU Service.

USEFUL HINTS

To clean mica in a stove that's been blackened with smoke, wash with vinegar. Keep your brown sugar in the

bread box. If kitchen drawers are lined with oilcloth they look much neater. When metal tips come off shoe-

strings, dip tips in hot parraffin and twist ends. To force rosebuds to open out, put a lump of sugar in the water of the

vase.

To give apple sauce a good flavor add two slices of lemon while it is cooking. Use left-over ceiling paper for

pantry shelf lining paper. It stays clean longer. When baking squash, place pieces

in oven upside down. It will bake much faster. Vegetables should be cooked in minimum amount of water.

Always wash rice before cooking. Keep goldfish cool. The air in the ordinary living room is too warm.

COUPLE CELEBRATE 65TH WEDDING

ANNIVERSARY

Concluded from first page. Mrs. Hendrick's parents decided o move into the rich farm land near Ellington. One day they met here and the romance blossomed again.

For three years Mrs. Hendrick taught in the Cedar Run School and another school near Cass City. Then they were married by Elder McKinney in the Ellington Church. They moved to the log cabin on the Hendricks farm and commenced heir married life. Both worked hard on the farm

and it was soon all cleared and paid for. A large brick house was built to replace the old log house many years ago. When they were first married it vas not uncommon to hear the

wolves howl in the distant woods,

and frequently be visited by Indians. Mrs. Hendrick was born in New York State, 83 years ago. She noved to Ohio with her parents as a young girl. Mrs. Hendrick was orn in Canada and will celebrate

is 86th birthday, December 8.

Both have been active members

of the Methodist Church, and until a few years ago Mrs. Hendrick attended meetings of the Rebekah, Grange and Maccabee Lodges of which she was a prominent member. Mr. Hendrick was a member of the Odd Fellow Lodge for several years. Despite their ages, both are in fairly good health, and Mrs. Hendrick is able to do much of her housework, while Mr. Hendrick cares for a large garden. They have six children, Arthur of Texas, Mrs. John Hayes of Elmwood, Mrs. Eunice Finkbeiner of Flint. Orson. Jr., of St. Louis, Michigan, Mrs.

"Open house" will be held at heir farm home Sunday and many neighbors, relatives and friends are xpected in to help them celebrate

Fannie Finkbeiner of Gagetown and

Theodore of Cass City. They have

several grand and great-grandchil-

his memorable anniversary day. Having lived in Ellington Townhip for 74 years, Mr. Hendrick is pelieved to be the oldest pioneer resident.

will jump from \$26 to \$35 in rural

areas, and from \$40 to \$50.70 in

At the second battle of Manassas

in 1862, famed Stonewall Jackson

sent his men a-raiding General

Pope's headquarters. They re-

turned with everything but the gen-

eral himself. Manassas again made

headlines this month when the regu-

lar U. S. army units duplicated

Stonewall Jackson's strategy, cap-

tured a brigadier general's outpost

against defending national guards-

and advanced toward Washington

This was the first phase of spec-

tacular military maneuvers un-

matched in U.S. peacetime. The

N. Y., where 36,000 national guards-

men and regulars began their battle,

this invader piercing from the north

to meet the invader coming up

Bigger than either battle, howev-

er, was the realism of Plattsburg's

commander, Lieut, Gen. Hugh A.

Drum. Night before the war began,

stern-jawed General Drum assem-

bled 3,000 officers on the parade

ground to present a few facts. Pub-

licly scorned was the suggestion that

his troops fight at "paper strength,"

i. e., with imaginary armament the

army hopes some day to secure.

The general demanded a campaign

of reality. "to bring home the actu-

alities of our state of preparedness."

Only in tanks, he said, is the army

up to strength. Other deficiencies:

manpower, 77 per cent; machine

guns, 67 per cent; trucks, 83; auto-

Said he: "I do not intend to be-

little the advantages of speed. But

mobility off the battlefield cannot

compensate for inefficiency in the

conduct of a fight. What we need

A simple law of economics is that

prices drop as surpluses increase.

No exception is crude oil, which in

one week dropped a rough 30 cents

a barrel. Major reason, thought oil-

men, was the rapid recent exploita-

tion of new oil pools in Illinois,

which operate full-blast without pro-

duction restrictions enforced by oth-

er states in the midcontinental area.

Meeting in Oklahoma City, the inter-

state oil compact commission de-

cided to let each state handle the

problem in its own way. Five states

(Texas, Oklahoma, New Mexico,

Kansas and Arkansas) found a way.

Production was stopped for 15 days.

DOMESTIC:

Un-Americanism

Dearly beloved by congressional investigating committees are the hot days of a Washington summer when the slightest ruffle of news makes national headlines. Into this scene last summer came a new figure, Texas' Rep. Martin Dies with his loud-but-not-accurate committee investigating un-Americanism.

This summer Martin Dies came back with a new committee and a new appropriation. At its first session the committee gave reporters a story as newsy as last year's accusation that Shirley Temple was a

Up to the witness stand strode German - American Bundmaster

FUEHRER KUHN Who's a liar?

Fritz Kuhn. After hearing his life story, Alabama's Rep. Joe Starnes made so bold as to ask Fuehrer Kuhn if his organization wasn't intended to establish a Nazi government in the U.S.

"That's an absolute lie—a flat lie!" shouted Kuhn.

Flaming with anger, Joe Starnes jumped to his feet. Shoving reporters and photographers aside he strode toward the witness crying: "Don't call me a liar!"

When capitol policemen had put an end to these fighting words, the committee got down to more serious work. With calm deliberation, Illinois Rep. Noah Mason drew enough information from the witness to make German-American bundism 'distasteful. When faced with the accusation that his bund is "a moneymaking racket based on the credulity of the American people," Kuhn countered by listing these strange objectives: (1) To unite the German-American element, (2) to fight communism, (3) to give the German element "political background."

The committee also learned Fuehrer Kuhn had visited Hitler in 1936, had given him \$3,000 for winter relief and had worn a Nazi uniform in a Berlin parade. His brother is a Berlin supreme court justice. His 20,000 bund followers (whose records have been destroyed) are pledged to defend the "good name of the mother country-Germany."

Most Americans, reading about Martin Dies' newest revelations, agreed the committee had made a good start. Still on the docket, however, was a list of some 110 witnesses whom agents have rounded up since last February. Observers hoped this summer's investigation wouldn't follow last year's patterna forum for unburdening grudges.

RELIEF:

Wages Up

A key provision of this year's \$1,477,000,000 relief appropriation was that WPA wages should be juggled to prevent any more geograph-

In Paris . . .

ART-Watteau's famous "L'Indifferent," stolen from the Louvre June 11, was unexpectedly returned to Parisian police by 25-year-old Serge Bogouslavsky, an artist who admitted he took the \$200,000 painting to "bring back its original glory." Slapping the thief in jail, police called experts who found young Bogouslavsky's retouching had not only re stored the picture, but "actually improved it."

EUROPE: War of Nerves

Last summer it was Britain's Viscount Runciman who volunteered to mediate the scrap between Czecho-Slovakia and Germany. Mediation -and Czecho-Slovakia's hopescame to a sudden end when Viscount Runciman turned pro-Nazi.

This month there arose a new poential Viscount Runciman named Dr. Karl J. Burckhardt, internationally respected Swiss scholar appointed by the League of Nations as high commissioner of Danzig. Off to Hitler's Berchtesgaden eyrie he flew one day without notifying the League. There, while he listened in silence, Der Fuehrer lectured angrily and at

length about Danzig. Why had he, as high commissioner, allowed "incidents" in Danzig? And why should Danzig notbereturned immediately to the Reich? Dr. Burckhardt had no

BURCKHARDT chance to di-

A Runciman? vulgehissecret, that Great Britain alone knew about his mission and had empowered him to bespeak her official attitude on Danzig. Next day, back in Danzig, the commissioner forwarded a highly confidential report of proceedings to London. Significantly, neither Poland nor France got copies.

Meanwhile, grasping at the chance, the controlled German press started another war of nerves. pouring out rumors of British-spon-sored "peace plans." Veteran students of propaganda decided this had two purposes: (1) To make Poland think the British are ready to desert them, and (2) to find out, via the report-and-denial method, just how far Britain really will go toward appearement.

This latter point was indeed important. High German circles confidently expected Danzig would be returned to the Reich within a few weeks, since there was little chance Britain would aid Poland in rescuing Danzig from an internally inspired anschluss. So great was the confidence that Der Fuehrer himself planned to cross into East Prussia late in August. Greater still, the press soon took Danzig for granted and began talking about German acquisition of Pomorze (Polish Corridor) as another aim in the appeasement-to-come. For the fourth time in one year, Europe remembered that Adolf Hitler only gets hungrier each time he's fed.

AGRICULTURE: Rail Rebellion

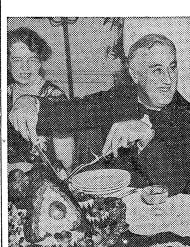

some 255,000,000 bushels of farmsealed corn. Although the Commodity Credit corporation has offered to holds most farmers will turn their old grain over to the government, be with her.

thereby making room for the 1939 Last month the department of agriculture saw what was coming. Bids were called on 33,000 storage bins for defaulted corn. Topping this problem came another-the railroads.

First rebuff was the carriers' refusal to let the government erect its bins without cost on railway property. Also denied was a reduced rate and elimination of demurrage charges on movement of the bins to their destination. The railroads thought they had good reason for being stubborn, because there was handwriting on the wall:

This autumn will see first practical application of the "ever-normal granary" program, designed to set aside excess supplies of grain in years of large production, to be held for lean crop periods. As it affects corn, this program will raise havoc with the normal flow of grain from farm to market via railroads. By buying its 33,000 bins, the U.S. will make storage at the farm end. Later, when finally moved, corn will be hauled as government property and will thus bring additional loss of revenue to railroads because land-grant statutes call for reduced (50 per cent) carrying charges.

Dramatic Appeal of Mother to Stop them at all costs, because even a Needless Slaughter

A recent dramatic appeal, entitled "Dear Driver" in which a father pleaded with motorists to drive carefully and protect his little daughter, attracted nation-wide attention when it was read in open court by Traffic Judge J. M. Braude of Chicago. A few days later Judge Braude received the following letter:

Dear Judge Braude:

I have just read your letter to Dear Driver."

I'm glad you CAN say "Dear Driver," because I can't. Sometimes when I think of drivers they appear as something between a leopard and an elephant—they sneak up bloodshed, and death! With each quietly with great speed, like a leopard, but suddenly become as huge our own country! Something must and impossible to stop as an ele-You see, I'm a mother. I have It would be more than I could bear,

a daughter, too. If she's a wee bit it seems, to lose another. Expiring August 1 were loans on late getting home from school I This is the first letter I have become 255,000,000 bushels of farm- become so horribly frightened I ever written to someone I do not think death would be preferable to know. But because my boy is althe awful torture I must endure. ways on my mind and your letter extend these loans, the consensus I even dislike letting her go out to fitted in . . . well, here it is—unplay, because as you say, I cannot But, of course, she must go out to

more, because I let him go out to play once too often and one of your Dear Drivers" cut him down.

Less than ten minutes after he went out to play some of my neighbors brought one of his little shoes up to my apartment.

You should see what being hit by a car can do to shoes! I didn't recognize that shoe. He had on his play shoes-we were saving his new shoes for special occasions. He was buried in them.

Honestly, Judge Braude, it takes much, much strength to go to look at a child you have bathed-one whose little hands and face and knees would sometimes get so black you would wonder if they ever would scrub clean again . . whose colds you worried so over and got up many times during the night to see if he was covered, and wondered what you would do if his fever went up much farther, knowing your purse wouldn't stretch to include doctor's calls.

And looking at those golden curls and that so fair skin, wondering (in your own secret heart) how anything so beautiful happened to come

Honestly, it's hard to enter the portals of a place marked "Funeral Home" and walk down quiet, empty aisles to a small white casket and look at that child of white marble.

You feel too utterly crushed to weep. And then you feel: "This can't be so! It's only a hideous night mare. Soon I'll awake and see him again." But you never do! You go quiet-

ly, if limply, through the whole dream-like ordeal, because you are civilized and you know other parents go through it. If they can, vou can!

But sometimes you feel you can't go on-that you must abandon yourself to wild grief. But somehow you don't.

Then sets in the rest of your life—the common "every days"and you wonder how you can bear it. There's a very large chunk cut right out of your heart and, believe me, it does not heal. And you know it never will. Life can never

You are never again quite free.

planned and poorly done. I have no money, but I'm strong and could work hard. So please, if there is anything I can do along these lines,

inform me. Best of luck to you, and may God protect your little girls.

(Signed) Mrs. R..

When a Duck Sinks

A duck cannot float in a tank of water containing a small quantity of dioctyl ester of sodium sulfosuccinic acid. As little as one part of quickly loosens the protective oil in the bird's feathers and they become so waterlogged and heavy within a few minutes, that the duck sinks, observes a writer in Collier's

Women Can Stand Cold Weather The thickness of the "thermal insulating tissues," or cold weather protection, of women is nearly double that of men.

Early Egyptians Had Arthritis Arthritis of the spine has been found in a good many skeletons of early Egyptians who lived before the first kings.

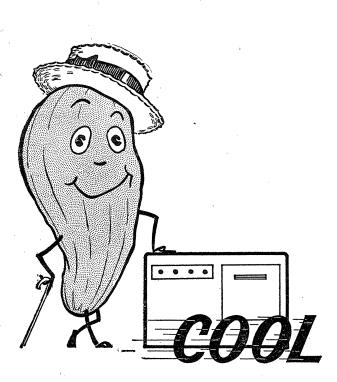

The Loon No Fool The loon is one of the lowest forms of bird life, biologically speaking, but it's no fool.

Solitaire Allied to Dodo The solitaire was allied to the dodo and became extinct about 1761. Like the dodo it was incapable of flight.

as a cucumber!

How cool a cucumber really is on a warm day is a matter for conjecture. Perhaps it depends on how recently he left the refrigerator. But in the matter of room temperatures, one fact stands out: You can be sure of comfortable cooking in warm weather if you have an electric range. Tests show that baking or roasting in an electric oven will not raise the kitchen temperature one degree: All of the heat is kept inside. This is a boon in hot weather. See the new electric ranges on display at department stores, hardware stores, electrical dealers or at your Detroit Edison office.

Marquette on the Lake

Heading toward the Copper County the traveler arrives at Marquette, a prosperous industrial center on Lake Superior which is less dependent on tourists and mining than most of the Upper Peninsula cities. North of the city is Sugar Loaf Mountain with a blazed trail over which venturesome tourists may climb to obtain a breathtaking view of forests and islands.

Nearby are prominent iron mining towns such as Negaunee and

Ishpeming. To the east of Marquette is Munising, well known for its "Pictured Travelers may inspect a pulp mill of the Munising Paper Company which consumes Canadian logs rafted across the lake each spring, and also a woodenware plant operated by the Piqua-Munising Woodenware Company. An Upper Peninsula meeting of the Michigan Press Association will be held at Munising Sept. 9 and 10.

At the lower tip of the Kewee naw Bay is L'Anse, enterprising hub of Henry Ford's hardwood lumber holdings. One of the Ford boats, "Green Island," has a retracting stack and house which are lowered to clear bridges on the Erie Canal between Buffalo and Albany. Lumber shipments are shipped by water from L'Anse to the Atlantic seabord for sale on the open market.

More than 1,000 persons, employed by the Ford Motor Company, dwell in model villages in the vicinity of

Words in Latin Dictionary In a standard Latin dictionary there are approximately 55,000 words.

An adapted hybrid corn is useful in Michigan for producing a crop of good feed for livestock.

But a warning comes from a man who has proved his idea that it does brid crop for use in the second generation for seed.

A. R. Marston conducted tests in 1938 which indicated these results and his test plots at Michigan State College in 1939 are heading toward the same conclusion. Remore each year but the pile in the

Michigan farmers, for many years, have looked to the crib for seed each spring. With the standard or open-pollenated varieties this type of seed selection can be practiced. With a hybrid, however, the mixed breeding represented in obtaining the hybrid cross shows up in the second year.

Yields in the test plots in 1938 were sorted into sound ears and culls. On an acreage basis the first generation hybrid seed yielded 71.8 bushels an acre. In adjacent plots Marston had planted second generation hybrid seed corn, in other words, seed selected from a 1937 hybrid. The second generation

vielded 51.4 bushels an acre-"Use of second generation is inadvisable," Marston concludes. "A recombination of characters occurs in the second and subsequent generations and causes variations in purchase of hybrid seed may cost type, size of plant and maturity and a reduction in vield."

Cass City High School

Will Open September &

for New Students at 9:00 a. m.

Busses will make return trips on September 6 at 11:00 a. ml.

Classes start September 7 at 8:30 a.m. Students who enrolled last spring need not report until September 7

Eight Bus Routes Convey Grade and High School Pupils to Cass City School

The following gives the directions the eight busses will drive each school day:

No. 1—Bird School Bus EVARD RAWSON, Driver

East of Cass City 1 mile; north 3 miles; east 3 miles to M-53; north 1 mile to Willis' Gas Station; then 3 miles west; 1 mile north; 3/4 mile east to David Murphy Farm; then back west 13/4 miles; south 1 mile to Bethel Church; east 3/4 mile and retrace; then south 4 miles to Cass City.

No. 2—Paul School Bus

LESLIE KARR, Driver Start Cass City. Then—31/4 south and retrace 1/4 mile; 1 west and retrace; ½ east and retrace; 1 north; 2 east, 3/4 south and retrace; 1 east and retrace to Cass City Road; 2 north to Cass City.

No. 3—Quick School Bus

RAY KILBOURN, Driver Start 2 miles south, 1 west, ½ south of Cass City. Then—½ mile south; 2 west; 1 south to Little's Corners; 1½ east; 1 south, 1½ east; 5 north to Cass

No. 4—Winton School Bus WILLIAM MARTUS, Driver

Start 1 north, 23/4 west of Cass City. Then—west; 3 north; 1/2 west to Gagetown; 1 northeast; east and retrace to Gagetown; 21/2 east; 1 north; 1 east; 1 south to Bethel Corners; 1 west; 4 south to Cass City road; 1 east to Cass City.

No. 5—Dillman-Cedar Run-Colwood Schools Bus

ROY WRIGHT, Driver

Start at Cass City—Then—4 west; 1½ north; 2 west; ½ south; 3 west to Colwood; 1 south; 1 east; $\frac{1}{2}$ north and retrace; $\frac{1}{2}$ east, $\frac{1}{2}$ north and retrace; $\frac{2^3}{4}$ east to Aaron Turner's; $\frac{1}{4}$ west; 1 southwest to Elmwood; 1½ east to Cedar Run; ¼ north and retrace; 1½ south and retrace; 2½ east, retrace ¾ mile; 1 north; 2½ east to Cass City.

No. 6—Argyle-Shabbona Bus

MR. WILLERTON, Driver Start 2 miles west of Argyle. Then—2 west; 2 south; 1 west; 1 south, ½ west and retrace; 2 west; 3 north; 1 west and retrace; 2 east to Rockwell's Corners; 3 north; 1 west; 1 south; 7 west to Cass City.

No. 7—Grant-Sheridan Bus JOHN GARETY, Driver

Start 5 miles north and $1\frac{1}{2}$ east of Cass City, at Phil McComb's. Then— $\frac{1}{2}$ west; 1 north; 2 east; 2 north; $1\frac{1}{2}$ west and retrace; 1 north to Owendale Road; 1 east; 3 south to Ballaugh Corner; 1 east to Sweeney School; 1 south; 1 east; 1 south; 1 west to New Greenleaf; 2 south; 2 west; 2 south to M-81; 3 west to Cass City.

No. 8—M-53, Leek School, Deford Bus HAROLD MURPHY, Driver

Start at Cass City. Then-4 east; 4 south; 1 west and retrace; 1 east; 1 south; 2 west; 3 south; 1 west; 2 north; 4 west, and retrace 2 miles to John

Field Corner; 6 north to Cass City.

NO TUITION IS CHARGED HIGH SCHOOL STUDENTS (Grades 9 to 12 inclusive) **USED BOOK EXCHANGE**

For the convenience of students, the main school office will be open until school opens. More particulars may be obtained by students seeking information. School Phone No. 40.
