## OLD BILL says "Here's what I think"

"I see by the papers that the Gallup poll shows one out of every three persons hasn't made up his mind whether to vote four years for Willkie or nine, ten, eleven and twelve years for Roosevelt."

"Well, if I were a veteran, I'd remember that Willkie volunteered within 24 hours after we got into the last war. He won his captaincy by overseas service on the front line, not by White House pull. He didn't warm a swivel seat at Washington, either."

"If I were a mother, I'd surely want to know how far the Brain Trust has involved us down a costly and bloody road to war. Who and where are those 2,000,000 American boys going to fight, anyway—in France again, or Japan?"

"If I were a laboring man, I'd want a steady job with good pay and reasonable hours. I can trust a man like Willkie, who rose humbly as a worker himself to responsibility as an employer of thousands of folks. He served even as legal counsel for labor unions, wants to preserve and extend our social security laws, and otherwise give the worker a real deal. I'd believe in a man who proved during the depression that it could be done—lowering consumer costs and putting more men to work, both at the same time! After all, you've got to have a job first before you can bargain with anyone."

"If I were a business man, I'd certainly remember the staggering debt of 60 billions spent in the past seven and a half years, the mounting burden of taxes, and the un-American inciting of class against class. Let's give business a chance!"

"If I were a farmer, I'd think twice about today's low farm prices, our threatening national bankruptcy, and I'd support this next-door Hoosier just because it makes good horse sense. Here's a man who owns his own farms. You can't go wrong with Willkie."

"It was Churchill, a few years ago, who said Roosevelt had failed to solve the depression here and was hurting world recovery. What did the British do when Chamberlain got them into the middle of the stream, even after war was declared? Why, they turned to this man Churchill!"

"I feel we're in the same fix now. It's high time we turned to our American Churchill, Mr. Wendell L. Willkie, while there is still time for us to keep out of war."

"Yes, they threw rotten eggs at him in some of the automobile towns. Well, some radical agitators threw more than that at the good name of Michigan in 1937, and you remember what we folks did in November, two years ago? We made no mistake then."

"Let's finish the job on Nov. 5!"
