

Greatest Red Cross Roll Call in Nation in Twenty Years

Mrs. Burke, Call Chairman, Urged All Who Can to Become Members.

The American Red Cross, confronted with increased demands of the current national defense program and growing needs for widening its regular domestic operations, on November 5 will embark on its greatest membership roll call since the days of the first World War, Mrs. J. I. Niergarth, chairman of the Red Cross branch here, declared today.

Red Cross officials here have set a goal of 250 memberships as their share in strengthening the services of the organization locally and nationally.

Appealing for greater membership, Mrs. G. H. Burke, county roll call chairman, declared the success of the national enrollment of members will hinge upon the individual success of chapters in attaining their membership goals. She urges every person who can to become a Red Cross member to insure the local chapters meeting their shares.

"Following the outset of 'total war' last May," Mrs. Burke said, "the American Red Cross asked the public for a fund of \$20,000,000 to widen its war relief operations in Europe. This amount has been raised and oversubscribed, enabling the Red Cross to ship thousands of tons of food, clothing and medical supplies to the war zone areas where it has been most needed."

Differentiating from the needs of European war relief, Mrs. Burke stated that the Red Cross roll call is held each year to support the national and local Red Cross organizations in their domestic operations. Funds realized at roll call time, she explained, will not be used for war relief, but to enable the Red Cross to continue its day-to-day operations in disaster relief, first aid, life saving, nursing and its assistance to the United States Military and other programs.

Particular stress was laid on Red Cross operations for the U. S. Turn to page 7, please.

Bishop to Speak at Sunshine Church

Rev. Raymond J. Wade, bishop of the Detroit Area of the Methodist Church, will preach at the Sunshine Church in Elmwood Township, Sunday at 3:00 p. m., on the subject, "Outlook for Religion in Europe." Bishop Wade had the supervision of Methodist Churches in Norway and Sweden before serving in his present position. The public is invited to attend this service.

Attention Voters.

On election day you will be asked to vote on a Dental Practice Act (Proposal No. 4) which was passed by the last legislature and signed by the governor. It, now, is submitted to the voters for ratification or rejection.

This act when ratified, will bring Michigan into line with 44 other states which have led the way. We believe the new law is of greater concern to you than the dentists, because it will require every licensed member of the profession to maintain a high standard of competency, and will prevent unscrupulous advantage being taken of the believing public. A law that safeguards the dental health of children, women and men is good for you. Therefore, we urge you to vote Yes on Proposal No. 4.

Westphal-Duff Marriage at Novesta

On October 25, at 2:00 p. m., the Novesta Baptist parsonage was the scene of a very pretty wedding at which Rev. Frank Collins united in marriage Miss Audrey Westphal of Decker and John S. Duff of Marlette.

The bride was charming in soft blue velvet, accentuated by a bouquet of sweetheart roses and baby chrysanthemums.

The attendants were Miss Annabelle Papp of Detroit, who wore a black silk dress, panelled in blue and a corsage of Souvenir roses, and Mr. Howard Walker of Marlette, nephew of the groom.

The wedding party left immediately for a dinner given at the home of Mrs. Merle Lown, mother of the bride. The happy couple will take a week's trip through Michigan and parts of northern Indiana. They will reside on a farm near Marlette.

Three Ballots Go to Tuscola Voters Next Tuesday

Six Parties Are Represented on the General Election Ballot in State.

The Tuscola County voter will be handed three ballots when he appears at the polls next Tuesday. The largest in size is the amendment ballot on which are listed four proposals on which the voter is to vote "yes" or "no" on each. The second is the general election ballot and the smallest of the three is the non-partisan ballot for the election of probate judge and circuit court commissioners. Candidates for the judge of probate are Clare W. Horning and Almon C. Pierce. Two are to be elected to the office of circuit court commissioners and there are but two candidates, Myron David Orr and Warren S. Rundell.

On the general election ballot, parties appear in the following order: Republican, democratic, socialist, socialist labor, prohibition and communist. In addition a blank column will appear in last position according to the election laws. Candidates are:

Republican.
National—President, Wendell L. Willkie; vice president, Charles L. McNary. State—Governor, Luren D. Dickinson; lieutenant governor, Eugene C. Keyes; secretary of state, Harry F. Names of Fifty Registrants of Tuscola County Whose Numbers Were Among First Drawn at Washington

Names of registrants whose numbers have been called and posted by the draft board of Tuscola County at their office in the court house in Caro are printed below in the order drawn in the national draft lottery in Washington.

Those listed are not necessarily to be drafted. They may be married men with dependents, they may have physical disabilities or may be exempted because of occupation. Those questions are up to the county draft board.

Mrs. Caroline Hunt Ayre, secretary of the county board, says that this list is not official, but was prepared as the numbers came over the radio. They are substantially correct, however. There are 4,105 registered in Tuscola County.

Village President's Proclamation

WHEREAS it is a known fact that no section of the United States and its insular possessions is free from threat of natural catastrophe in one form or another: Famine, fire, flood, hurricane, explosion, epidemic, blizzard, drought, tornado, earthquake or other calamities of nature; and

WHEREAS conditions in the world today necessitate an unprecedented peace time expansion of our Army, Navy, Marine Corps, Coast Guard; and

WHEREAS the current European war continues to cause intense distress among innocent victims, making essential the extension of American aid to suffering humanity abroad; and

WHEREAS the American Red Cross is the only organization in our land equipped and ready, first, to protect us against the aforementioned disasters and render relief when they occur; second, to assist, comfort, advise and otherwise serve the men of our armed forces and to act as liaison between them and their loved ones at home; third, to undertake the administration of American mercy to stricken non-combatants and refugees in Europe when assurance is had that such activity will not be interfered with by belligerent powers; fourth, to continue at the same time in our own community such indispensable welfare programs as Red Cross Public Health Nursing, First Aid and Life Saving, Accident Prevention in the Home and on the Farm, Home Hygiene, and the Junior Red Cross in the schools;

THEREFORE, I, President of Cass City, proclaim the period of the 1940 Annual American Red Cross Roll Call, November 5 to 15, a period during which public spirited men and women of this village should bend every effort to support the Red Cross through their local Red Cross chapter, by becoming members of the Red Cross through their chapter or by renewing memberships therein; and I further PROCLAIM that it is the sense of all of us, residents of Cass City, that our response to Red Cross Roll Call this year, in view of world events, must be stronger numerically than it has ever been before.

65 Key Workers of County Red Cross Met Friday

Attend Dinner at Caro and Hear Addresses of Red Cross Officials.

Sixty-five key workers of the Tuscola County Chapter of the American Red Cross gathered at the Hotel Montague at Caro Friday evening to attend a dinner and hear addresses by Red Cross officials. The group were welcomed by Village President A. R. Meredith and the response was made by J. Ivan Niergarth of Cass City, vice chairman of the county chapter. Guy W. Landon, chapter chairman, presided.

Miss Ruth Kimball, executive secretary of the Oakland County Red Cross Chapter at Pontiac, said that 3,700 chapters in the United States were holding similar meetings to that of Friday evening and that the Red Cross was created as a humanitarian agency for just such a situation as exists in the world today. She suggested that workers of the county make a full coverage for memberships this month by asking everyone to join in the roll call. The year-round program of the county is most important, she said.

Mrs. Ruth Musgrave of St. Louis, Missouri, introduced Miss Kimball and explained the use made of roll call receipts. She also answered several questions of workers at the conclusion of the addresses.

Gerald Hicks, the one-man band from the Cass City High School, and Fred Gunsell, Caro pianist, contributed musical numbers during the evening.

Vote in April on Sinking Fund for New Jail Building

Proposition Will Ask for Half Mill Tax Each Year for Six Years.

The Tuscola County Board of Supervisors, in their October session, decided to submit to the voters of the county the proposition of creating a sinking fund for the purpose of erecting a new jail at Caro. The plan is to levy a tax of a half mill each year for a period of six years. The proposition is to be submitted to voters at the April election in 1941.

Arnold McComb, William Kirk and Maurice Eveland were elected members of the county board of canvassers by the supervisors and Miss Bernice Turner was chosen as school examiner.

James Schwaderer, county engineer, and A. W. Atkins, chairman of the county road commissioners, reported to the board that the commission would be glad to work with the different townships of the county in solving the problem of roadside ditches or would work with any committee appointed for that purpose. The road commission have equipment to do the work, and if townships could raise part of the money, they would go as far as possible to cooperate with the drain commissioner in improving roadside ditches.

The board adopted resolutions commemorative of the lives of former members of the supervisors' board who have passed away in recent years. These include Albert Ruggles, Nelson Perry, John A. Caldwell, Charles Frenzel and William Kelley.

The sum of \$200 was appropriated to the Starr Commonwealth to apply to the cost of care of children sent to that place from Tuscola County and \$200 to the Salvation Army in recognition of aid and services rendered to the county during the past year.

The bond of the county treasurer was fixed at \$25,000 and that of his deputy at \$10,000.

Considerable time was spent during the October session in hearing the reports of the various county officers, commissions and board of supervisors committees.

The board concluded their deliberations Wednesday afternoon.

Start Cement Pouring for New Cass River Bridge

Within the past week, the first cement was poured for the abutments of a new Cass River bridge on M-85 at Caro. The contractor, Andrew T. Barnes, of Cass City, says that besides the two abutments, six piers rising 21 feet or more from the river bed, are required to carry the structure. The bridge will have a 40-foot roadway and specifications call for reinforced concrete and steel.

Mr. Barnes' bid on the project was \$73,319.18. It is to be completed by July 1.

Cass City Defeats Pigeon in Football

The Cass City High School football team, victory starved for the past three weeks, broke their jinx last Friday by a decisive 26 to 0 win over Pigeon. The Maroon and Grey team ran and passed its way to the goal line in every period of the contest as they held the Pigeon passing attack in check to protect their own goal line.

Cass City kicked off to Pigeon and held for down forcing Pigeon to punt. The locals marched down the field with Profit sweeping around his own left end to score. Strickland's pass to Wright was incomplete for the point after touchdown.

The second score came as a result of a Pigeon fumble on their own 15-yard line which was recovered by Cass City. Strickland passed to Profit for five yards. Kloc picked up two through center, Profit made four off tackle from where Kloc went over for the touchdown. Strickland went off tackle for the extra point.

Pigeon kicked off to Cass City to open the second half. On the third play, Profit cut inside tackle, and as he was about to be tackled lateraled to Kloc who romped fifty yards, through the Pigeon backfield. Turn to page 6, please.

THE VOTER'S DUTY.

Why are there many people who in ordinary affairs are conscientious and honest and useful, but who neglect the great duty of voting at elections?

They fail to realize that this duty is the citizen's fair share of carrying on a great country. This idea of the fair share should be emphasized. If a man goes on an excursion, he expects to pay his fair share of the expenses of that trip. It would not occur to him to neglect to pay his fair share.

Yet the same man may fail to vote, and thereby fail to perform his share of the work of carrying on the country. The old saying has it that eternal vigilance is the price of liberty.

Our government is not a perpetual motion machine that will run indefinitely on its own momentum. A vast amount of work is necessary to keep it going, and the work is not performed only by those elected to public office. It is necessary also that every citizen do his share of that work.

One of the most important things to be done is the nomination and election of the officials of all the units of government, from the chief executive down to the least important city or town office. This calls not merely for the time spent in voting at all primaries and elections, but for willingness on the part of the citizens to read and study about the work of government. A vote counts but little, if citizens make little effort to find out what makes good government, and what candidates will do the most to maintain it.

The people who refuse to vote should ask themselves if they are doing their fair share in carrying on this great job of government. It would seem as if the least they could do would be to register on the voting lists, and cast a ballot at each election.

Commenting on the voter's duty, the Pathfinder, in a recent issue, says:

"Of all the countries in the world, there are only a few where the individual still has the right to vote as his mind and heart tell him. Our land is one of these, and yet there are millions of Americans who fail to make full use of the great privilege that is theirs. In the last Presidential election, for example, vast numbers stayed away from the polls, Republicans and Democrats alike.

"State after state could be cited, the simple fact being that thousands and thousands of voters in every one of them failed to cast their ballots four years ago. This year, the story may be different, for the issues themselves are different. At any rate, there are clear signs that President Roosevelt and Wendell Willkie are currently staging a close race—a race in which a few thousand voters here and a few thousand voters there could well mean the difference between victory and defeat for either candidate. Consider New York, for instance. In 1936, only 68.7 per cent of that state's voting-age population took the trouble to visit the polls. Now, suppose, that on next November 5, there are relatively few laggards in New York; suppose 90 per cent of the voters turn out. The significance of such a possibility is obvious. If the increased turn-out went to Willkie, Willkie might easily carry the state, or if it went to Roosevelt it would put the state on ice for the New Deal—and New York could yield a big enough electoral margin to swing the entire national election to one side or the other.

"In this connection, it is interesting to note that in states like New York and Illinois, the metropolitan vote can be decisive—especially where it is well organized by such bosses as Mayor Ed Kelly of Chicago. From the Republican standpoint, therefore, the more out-of-city votes there are, the better, because in recent times the big-city returns have been generally Democratic, large enough to overcome G. O. P. leads in rural or small-town areas. Similarly, from the standpoint of Democrats, it is important to maintain this advantage while trying to make inroads on traditional Republican strongholds. In other words, both major parties have a vital interest in seeing to it that all eligible voters be urged to cast their ballots. This is just plain, practical politics.

"In the last analysis, it should

DEMOCRACY AT THE CROSSROADS?

Thomas Jefferson: "I should unwillingly be the first person who, disregarding the sound precedent set by an illustrious predecessor, should furnish the first example of prolongation beyond the SECOND term of office."

George Washington: "It appears to me proper . . . to DECLINE being considered for a Third Term among the number of those, out of whom a choice is to be made." (Farewell Address).

Andrew Jackson: "I cannot but believe that the more is lost by the long continuance of men in office than is generally to be gained by their experience."

Grover Cleveland: "When we consider the patronage of this great office, the allurements of power, the temptations to retain public place once gained, and more than all, the availability a party finds in an incumbent whom a horde of officeholders with a zeal or born of benefits received and fostered by the hope of favors yet to come, stand ready to aid with money and trained political assistance, we recognize in the eligibility of the President for re-election the most serious danger to that calm, deliberate and intelligent action which must characterize a government by the people."

Senator Robert LaFollette: "Establishment of the precedent that one man may continue to wield this power for longer than EIGHT YEARS would make a definite step toward ABROGATION OF POPULAR GOVERNMENT. Once the precedent has been broken that no one should hold the office for more than eight years, it will be difficult if not impossible to prevent re-election for 12, 16 and perhaps 20 years."

John W. Davis, Democratic candidate for president, 1924: "The traditional limitation of two terms of no more than four years each comes to us with overwhelming endorsement of the patriots who have held the presidential office, and many lesser men who have considered the subject. Jefferson, Madison, Monroe, Jackson, Cleveland, Buchanan, William Henry Harrison, Andrew Johnson, Rutherford B. Hayes, William McKinley, Theodore Roosevelt, Taft and perhaps other presidents have spoken in its favor (limitation to two terms) in NO UNCERTAIN TERMS. It is clear from this roster that it has not been, treated as a party question."

Franklin Delano Roosevelt, in 1932: "A great man (Woodrow Wilson) left a watchword we can well repeat. 'There is NO indispensable man.' I still know that the fate of America cannot depend on any one man. The greatness of America is grounded in principles and not on any single personality."

be remembered that the individual who marks an American ballot marks down the fact that in this corner of the world at least, man is still free in a free land and means to remain that way for as long as the sun rises and sets—come hell, Hitler or high water."

THOROUGHLY DISGRACEFUL.

No American can approve the egg-throwing episodes that involve Wendell Willkie, the Republican candidate for the presidency.

Neither can any loyal American approve the boozing of the President, reported in various theatres and gatherings during the political campaign.

While citizens may differ as to the worthiness of the ideals represented by these candidates there can be no debate as to the discourtesy involved. The individuals responsible can hardly be regarded as good Americans.

Mr. and Mrs. D. G. Wilson and sons and Miss Florence Purdy were Sunday dinner guests at the home of Mr. and Mrs. Kenneth Ginter of Elkton.

Mr. and Mrs. George Bohn of Detroit were Saturday guests of Mrs. Bohn's parents, Mr. and Mrs. Fred Witzke.

Miss Lila Wood of Temperance is spending the week with her parents, Mr. and Mrs. A. O. Wood.

Mr. and Mrs. Elmer Butler will be hosts next Tuesday evening when the installation of the newly elected officers of the Gagetown Grange will be held. Arthur Fischer was elected master; Lawrence McDonald, overseer; Mrs. Lawrence McDonald, lecturer; William Simmons, steward; Alvin Beach, assistant steward; Mrs. Edna Clara,

chaplain; Richard Karr, treasurer; Mrs. Maude Karr, Ceres; Mrs. Elmer Butler, Floris; Mrs. Alvin Beach, lady assistant steward; Richard Karr, business manager. Mr. and Mrs. William Simmons, delegates to the state convention, will give their reports at this meeting and refreshments will be served.

Mr. and Mrs. K. P. Leipprandt of Detroit were week-end guests of Mr. and Mrs. J. L. Purdy.

Gifford Chapter 369 will be hosts Saturday, November 3, to the Tri-County Eastern Star Association to be held in the auditorium of the high school. The first session will begin at 10:30 a. m., followed by a dinner at noon served in the Methodist Church dining room by the ladies of the Christian Service Society. At the afternoon session, Ford's Dixie Minstrels of eight colored people will entertain the 250 expected guests. Miss Mildred Clara is president and Mrs. Fern English of Elkton is vice president of the association. Eloise Rowlee, Worthy Grand Matron of the Michigan Grand Chapter, also J. W. Grills, Worthy Grand Patron of Flint, are expected to participate at the sessions. During the business session there will be held the election of officers.

The women of the Christian Social Service held a very interesting meeting in the auditorium of the Methodist Church Wednesday afternoon.

Mrs. James J. Bennet of Toledo, Ohio, was a caller at the home of Mrs. J. L. Purdy Tuesday.

Mr. and Mrs. Alfred Sting of Grant visited Sunday at the home of Mrs. Abagail Howell.

Rev. Wesley Dafeo attended the Saginaw District Methodist rally Monday at the Madison Street Methodist Church in Bay City.

R. Champlain of Port Austin was a caller in this vicinity Sunday.

Thursday, November 7, the women of the Christian Service Society will serve their usual monthly public dinner at the Methodist Church.

Mrs. M. S. Karr is spending the week with friends in Ann Arbor, Pontiac and Flint.

Ten acres of swamp land on the J. L. Purdy farm was burned over Saturday. Several men with spades worked all afternoon putting out the fire. In some places the fire had burned two feet into the peat soil. The fire, no doubt, was due to careless cigarette smokers. When discovered the smoke was high above the treetops and the surrounding farmers became greatly alarmed.

William Hardies of Hawks is visiting at the home of his daughter, Mrs. L. D. MacRae.

Miss Florence Purdy attended the Twentieth Century Woman's Club at the home of Mrs. A. O. Purdy of Caro Monday evening. Miss Purdy gave several piano selections.

Mrs. John Fournier and Mrs. Burton Roth spent the week-end visiting relatives in Ann Arbor and Detroit.

Mr. and Mrs. Harold Sutton moved to Flint last week where Mr. Sutton is employed.

Mrs. Margaret Walters of Detroit spent the last of the week with her mother, Mrs. William LaFave, who accompanied her daughter to Detroit to remain for the winter.

Mrs. Floyd Werdeman attended the teachers' institute in Detroit Thursday and Friday.

Marlene Rocheleau, four-year-old daughter of Mr. and Mrs. Jerome Rocheleau, was the honored guest at a birthday party given at her home Wednesday, October 23. The party was attended by fifteen little guests. Games were played and lunch served.

Mrs. Vincent Wald and daughter, Mary Louise, spent from Thursday until Sunday in Detroit with Mr. and Mrs. David Durst and Misses Agnes and Susan Phelan.

Miss Rita Thiel spent last week in Detroit with Mr. and Mrs. James Thiel and Mr. and Mrs. Arthur Thiel.

James McGinn, son of Mr. and Mrs. Lloyd McGinn; Raymond Comment, son of Mr. and Mrs. William Comment; and Clinton McCrea, who made his home with Mr. and Mrs. Joe McDermid for the last four years, left Sunday for military training. Tuesday morning they went to Detroit for final examination and will then leave for Missouri and later will be sent to Hawaii. The three boys are graduates from the Gagetown High School.

Guests, numbering 75, were entertained last week Wednesday at a tea given by the Woman's Study Club in the basement of the Methodist Church. Owendale, Cass City and Unionville were represented. Mrs. Frances Belle Watson of Bad Axe gave a very interesting talk on Mexico and displayed a collection of pieces of pottery and hand worked linen and crash. Special piano music was presented by Miss Florence Purdy. Mrs. F. D. Hemerick and Mrs. C. P. Hunter poured. Committee members in charge of the meeting were Mrs. Ralph Clara, Mrs. Donald Wilson, Mrs. F. D. Hemerick and President Florence Lehman.

Mr. and Mrs. Delos Wood and Paul Hunter of Detroit spent Sunday with Mrs. C. P. Hunter and Carroll. Mrs. Hunter accompanied the Woods to Detroit and returned Monday.

Mrs. Alden Moden of Detroit, who was a guest at the Hemerick home the first of the week, was the honored guest at a bridge party Monday evening held at the Hemerick home. Each guest was presented with a gift and as the game progressed there were periods when the game was called and the one having the highest score could take any gift he or she preferred in exchange for his or her gift. Luncheon was served. Mrs. Alden Moden and son, Lawrence, returned to Detroit and were accompanied by Mrs. F. D. Hemerick who will remain for the week.

Mr. and Mrs. John Karner and son, Larry, of Kalkaska were guests of Mr. and Mrs. Anthony Weiler from Sunday until Tuesday.

Quicksilver Mine Will Be Reopened

Leap in Price of Chemical Renewes Activity.

SAN FRANCISCO.—With war demands having advanced the price of mercury from \$50 to \$172 a flask, the world-famous New Almaden quicksilver mines of Santa Clara county are to be worked over by a new \$500,000 corporation.

The New Almaden is the oldest quicksilver mine in the United States and has an important place in mining books and history.

During the period of 1846-1928, it is credited with having produced from \$65,000,000 to \$75,000,000 worth of quicksilver.

But from a mining community of 13,000 people in its heyday of the seventies it has dwindled to an almost uninhabited region, where a few people work sporadically at extracting quicksilver, and where tourists occasionally pass to have a glimpse at the spot that once figured so remarkably in the mining days of early California.

The entire property has been leased for a long period by Fritz Eugene Newbold, Philadelphia broker, from its owners, William and Mary Sexton, also of Philadelphia, and a corporation is being organized to work the lease.

It is believed the new mining operations will center about Mine Hill, in the middle of the area, and under which there are more than 100 tunnels and shafts dug during the past 80 years.

It is not expected that much new quicksilver finds will be discovered, but the rich cinnabar soil and rock will be worked over again by new and more modern processes to extract quicksilver that escaped the older processes; material that was even discarded in the old days, as well as free quicksilver that was lost years ago when it fell off the wagons and miners did not stop to pick it up. Much quicksilver also still is to be regained from the old dumps.

A flask of quicksilver contains 76 pounds, and while the present price of \$172 a flask is one of the highest ever reached in the history of mining, the new corporation is confident that even higher prices will prevail.

War Pigeon Strays From Duty Only to Lay an Egg

LONDON.—War or no war, Jenny, a royal air force carrier pigeon, has been true to her sex.

And in being so Jenny has proved that the old adage "it is impossible to do two things properly at once" is entirely wrong.

For Jenny, while on duty with an R. A. F. pilot in a Lockheed Hudson bomber from a Scottish station flying far out over the North sea, allowed her mind to stray momentarily from her work and laid an egg.

Jenny had accompanied the pilot on many a hazardous patrol flight, and the first indication the airman had of the "event" was the excited fluttering in the pigeon basket at his side.

He peered into the basket and smiled when he saw the cause of the commotion.

When the bomber returned to the airbase the pilot brought his machine down as cautiously as if a wheel of his undercarriage had been shot away.

Jenny is one of the many homing pigeons loaned by British fanciers to the R. A. F. for the duration of the war. Some of the birds are worth over \$300 each.

They are used to carry messages back to airbases if the plane's radio breaks down. Each bomber carries two birds for the purpose.

Yaqui Indians Studied For Racial Background

TUCSON, ARIZ.—A racial study of the Yaqui Indians, once one of the most feared tribes of the Southwest, is being made by Dr. Edward H. Spicer of the University of Arizona.

Spicer said he would study the 3,000 fugitive Indians who drifted into Arizona from Mexico in an attempt to discover their relationship with other tribes of Indians and with the Mexican race.

Spicer said he wanted to find out how the Indians had adapted themselves to American culture, what political beliefs they had, and the degree of change they had undergone since the old days when they were a warlike tribe.

Barbed Wire Defense of Swiss Snares a Stag

ST. MARGRETHEN, SWITZERLAND.—The Swiss army, which has strung thousands of miles of barbed wire along its frontiers to show up any would-be aggressor, netted its first invader—a powerful stag.

The stag crossed the frontier from the old Austrian province of Vorarlberg, now German, and was found exhausted in Switzerland, dragging 300 yards of barbed wire and posts from its antlers.

The animal had to be killed. Frontier troops ate venison.

Captain Arch Fletcher had a narrow escape from death during a severe storm which raged on the Great Lakes during Thursday evening, October 19. During the night, his boat, the Joseph S. Fay, sprang a leak and began to fill rapidly. When within two miles of the Michigan shore she commenced to sink and break up. To the pilot house which floated to shore near Rogers City and afforded them a means of escape, Captain Fletcher and five of his men owe their lives.

Grazing Animals vs. Crops
Grazing animals can sometimes jump a fence from the pasture to the corn or grain field to forage for better food, says the Middle West Soil Improvement committee, but growing crops have to stay where they are and either thrive or starve, depending on the fertility level of the soil. Hence it is necessary for the farmer to carry the plant food to the growing crops, the same as he rations his cows with silage or concentrates. His task of aiding both his soil and his crops is being made simpler by chemical science which is providing nitrogen, phosphoric acid and potash at a cost level more in keeping with what the farmer produces than practically any other thing he buys today.

HOW TO MAKE DOLLARS WITH LIGHT!

IN YOUR STORE: Selling merchandise with LIGHT is like pulling dollars out of a hat . . . it doesn't seem possible. But many alert, progressive business men are using this powerful selling tool every day to ring up extra cash sales and boost profits. These two facts have been definitely proved: (1) Good lighting in show windows will often DOUBLE their stopping power and attract more customers. (2) Clever "spot lighting" and featured displays inside the store will frequently TRIPLE sales on specific items.

IN YOUR FACTORY: Increases in production of 10% to 35% have been achieved through improved lighting in industrial plants. Good lighting cuts down spoilage, makes accurate inspection possible, and is an important factor in promoting safety. Figure its cost—approximately three-tenths of one per cent of production cost—against a possible 10% or more INCREASE in production, plus 5% or more savings from fewer accidents and fewer errors and rejects . . . and there is only one conclusion: Good lighting pays dividends.

We will be glad to send one of our Lighting Staff to study your lighting problems and offer recommendations without charge. Phone your Detroit Edison office. The Detroit Edison Company.

Patrick Mullin, Prop.
Worthy Tait, Auctioneer Pinney State Bank, Clerk

Lansing—Because of competition, two private feuds go before Michigan voters next Tuesday.

And as usually the case, the innocent bystander who is most affected, is the consumer—Mr. and Mrs. John Q. Public—who pay the bill.

The controversies involve two referendums—State Proposal No. 3, the 1939 bus bill, and State Proposal No. 4, the 1939 dentists' anti-competition bill. The state legislature, along with other measures, passed both acts only to have special groups circulate petitions for a referendum of the people.

And so, when you go to the polls on Tuesday, you will be confronted with huge special ballots of bed-sheet proportions. The headings will mean little, if anything.

Bus Competition

The bus act feud involves two transportation concerns—the Department of Street Railways in Detroit, a municipal utility, and the Eastern Michigan Motor Bus Company, a private utility.

In 1939 the legislature enacted an amendment to the Motor Carrier Act. This change said that when Detroit seeks to operate its buses beyond a two-mile limit from the city's borders, and on state highways, it must come under the same regulations and pay the same taxes as do private transportation buses.

The Michigan Motor Bus Association, which seeks a "Yes" vote on the No. 3 proposal, wants competition to be put on the same basis for all.

The DSR of Detroit, which as a municipal utility urges a "No" vote, raises the cry of "monopoly" and "profits."

Who is concerned about all this? Consumers in the Detroit suburban area are affected directly. Consumers in up-state communities are affected indirectly in payment, or non-payment, of gasoline taxes.

Dental Competition

The second private feud, also involving the consumer, is between two groups of professionally trained and state licensed dentists.

One group, who term themselves "ethical" dentists, operate single offices—one dental chair to each office.

Another group, known as the "advertising" dentists, operate low-cost dental offices on the chain store basis. Because of operating economies, these dental offices enjoy big patronage in the industrial centers by telling the consumer what they have to offer. They do so by advertising. In Detroit these firms even support the Better Business Bureau!

The 1939 dental act contained these provisions, plainly designed to prevent such low-cost competition. We quote the law:

"No Prices"
"No person or persons shall own . . . or manage . . . more than one office for the practice of dentistry in any location . . . and operate them under his . . . own name, with employed operators."
"It shall be unlawful for any dentist or dentists to advertise price, cost, charge, fee or terms of credit for professional service or for materials used in the practice of dentistry."

This Henry Ford mass production method in dentistry—which economies made possible largely through advertising prices to the consumer—has thrived in industrial centers where there are many low wage earners. Actually, only

a comparative few dentists in the state are concerned by such competition. And likewise, only a few newspapers have ever received dental advertising of this kind.

The Detroit Bureau of Governmental Research, a group that enjoys a splendid reputation, made this analysis of the two competing claims:

"The dentists who secured the passage of this act claim that poor dental work in confined largely to the 'advertising' dentists and by depriving them of advertising, they would lose their clients, who would seek more competent care.

"The 'advertising' dentists claim they are able to attract persons who otherwise would neglect their teeth, that their work is as good as other dentists, that advertising prices prevent other dentists from 'gouging' the public, and that advertising is as rightfully applied to dentistry as to the sales of any other service."

"Doesn't Make Sense."

Continuing the bureau's analysis: "The public at large is not particularly concerned with a quarrel within the dental profession. It is concerned with the protection of public health. No doubt much of the material of this act (P. A. 122) is in the interest of public health.

"As to the allegation that advertising and the operation of more than one office is prima facie evidence of poor dental practices—to the laymen THAT DOESN'T MAKE SENSE. Possibly the answer is competent state regulation of all dentists—advertisers and non-advertisers alike."

As both dental groups must have professional training at a recognized dental college and must be licensed by the dentists' own state dental board, the competitive motive behind the bill is easy to see, as the Detroit bureau points out. From the consumer's viewpoint, the anti-competition restriction "doesn't make sense."

Shutting Out Competition
If the State Proposal No. 4 was the only anti-competition bill to confront the consumer, perhaps there would be less reason for concern. But such is not the case. Stuart Perry, editor of the Adrian Daily Telegram, which has never received a penny in dental advertising, has called attention editorially to the point that the dentists' act is designed to stifle competition and would establish a dangerous precedent for the consumer who always pays.

If it is wrong to advertise the truth about dental prices, then it is

wrong to tell the truth about other prices. And where will it all end?

In 1911 the "truth in advertising" statute, making it illegal for anyone to make an untruthful, deceptive or misleading statement in any advertisement, was introduced nationally. Michigan's statute is considered to be a model law of its kind.

Advertising of Prices

Invariably the point arises: Why is it necessary for any group to have a special law of its own—prohibiting price advertising of any kind—when Michigan already has a statute fully protecting the interests of the consumer? The answer always brings up the legal delays, continuances and politics which are involved by a suit at law. There are the prosecutor, the judge, and the jury, and they all take time.

The legislative trend since NRA has been to circumvent the usual system of justice by establishing special state bureaus, empowered to regulate competition as far as the legislature will permit them.

That the trend is distinctly anti-competition is shown by State Proposal No. 4 provision to forbid more than one dental office with the mass-economy savings for low-income groups.

The ban on truthful price advertising is the heart of the entire proposal and has been so conceded privately by the Michigan State Dental Society, its sponsors. Behind the 6,000 words is this significant denial of consumer rights.

Milker's Nodules
Dr. Frederick T. Becker of Duluth, Minn., reported studies of four cases of milker's nodules, an occupational disease of persons who milk cows. He determined that the disease, which consisted of small swellings on the hands, came from sores on the cows' udders. He further found that the germ concerned was not cowpox, bovine form of smallpox, that the nodules were easily cured in four to six weeks and produced only slight pain and mild itching, and that one attack immunized the milker against the disease.

Still Weigh Less
If all nine of the planets (Earth, Jupiter, Mars, Mercury, Neptune, Saturn, Pluto, Uranus, and Venus) were melted into a single planet, it would take 700 of these super-planets to weigh as much as the sun.

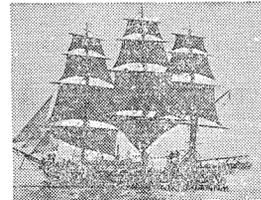

Soy Bean
Though the soy bean was virtually unknown 25 years ago, about 57,000,000 bushels are now produced annually, providing jobs for 50,000 persons.

Re-elect Senator Vandenberg

When You Vote for Vandenberg You Vote for Michigan

Senator Arthur H. Vandenberg is Michigan's champion. In foreign relations, in finance, in commerce, he is one of the few successful, influential and important men Michigan ever sent to Washington. BUT he has never forgotten the people who sent him there. For thirteen years he has fought for Michigan's interests—from sugar beets to automobiles, from furniture to fruit. He's a staunch friend of farming, an aggressive spokesman for organized labor . . . and an implacable foe of extravagance.

Vandenberg is the man who sponsored the famous "munitions investigation" that took big profits out of war.

He is the man who forced congressional reapportionment, gaining four seats for Michigan in the House of Representatives, and four votes in the Electoral College.

He is the man who was chiefly responsible for last January's bill which stopped an increase of 50% in taxes on 40,000,000 workers.

He is called "the Father of Bank Deposit Insurance."

He is the man who saved America \$500,000,000 by defeating the shamefully wasteful Passamaquoddy and Florida Ship Canal and a number of other senseless projects.

He has done all these things for the nation, but he has never been too busy to "deliver the goods" for Michigan.

He saved the state's copper industry with his tariff.

He sponsored Isle Royale's development as Michigan's first National Park.

He has vigilantly guarded the state's vast interests in Great Lakes commerce, and he is working now for Michigan's share in National Defense.

This is the man who is a great leader of the Senate minority party . . . the man whom Life magazine picked among the "first ten" Senators.

His re-election is Michigan's duty to 47 other states as well as to itself. His re-election means that Michigan will continue to be "tops" in the United States Senate!

Re-elect MICHIGAN'S NATIONAL LEADER!
ARTHUR H. VANDENBERG

...he gets things done!
As State Highway Commissioner for seven and a half years Murray D. Van Wagoner has proved that he knows how to get things done. As Governor he can be counted on to apply the same vigorous methods and to give Michigan capable leadership.

VOTE FOR HIM WITH Confidence!

1940 Call for Red Cross Recruits

The 1940 Poster of The American Red Cross sounds the call to the nation to serve humanity within the ranks of this army of mercy.

KEEPING step with the boys called to the colors in America's new defense army and navy, will be the American Red Cross, fulfilling its mission of service to the men in the line and to their loved ones at home, Chairman Norman H. Davis announced in Washington.

"Several thousand Red Cross nurses already have been called to the colors," Mr. Davis said, "and Red Cross field directors, and thousands of Red Cross workers in Chapters throughout the nation, are ready to help America's soldiers and sailors with personal problems, just as in the 1917-18 World War period.

"Every patriotic man and woman in the United States, who wants to do his or her share in upholding the national defense of our nation, can do so by sharing in the vitally important work of the Red Cross. Join as a member of the local Chapter, during the roll call, November 11 to 30, and through your support you will strengthen the Red Cross army of mercy.

"Recruits are needed not alone as members, but also as volunteer workers in the Red Cross Chapters."

Red Cross work will continue undiminished in its usual domestic program of relief in disaster; community public health nursing; safety education and promotion of the Junior Red Cross. An individual membership supports all of this work, not only in Red Cross Chapters, but in the nation. Relief to war victims in Europe is financed by the \$20,000,000 war relief fund contributed by the public during the summer of 1940.

A Halloween masquerade party, sponsored by the young people of the Nazarene Church, was enjoyed in the Chauncey Tallman home on Friday evening. Forty-five were present and came masked. Halloween games were played and various prizes awarded. Orangeade and doughnuts were served.

Earl Stevens, 36, a passenger in a truck driven by Clarence Frederick of Caro, had his right leg injured when the driver lost control of the truck and the machine ran into a ditch and tipped over. The truck was loaded with 150 bushels of potatoes and the accident occurred 1 1/2 miles east of East Dayton on Wednesday morning at six-fifty o'clock.

The Children's Society of Christian Service, which was formerly the Home Guards, will meet in the Methodist Church Sunday afternoon at four o'clock. Devotionals will be in charge of Robert Foy and Carl Reed. Chairman of the program is Donna Turner and the refreshment committee is John and Joan Sommers, Mollie and Beverly Goodall. Leaders of the society are Mrs. Ben Kirton and Mrs. Angus McPhail.

BURNSIDE CITIZEN INSTANTLY KILLED

Concluded from page one

Capac, driver of the milk truck, was uninjured.

Leo Linck was born January 25, 1880, in Burnside Township, and after marrying Miss Martha Boersig in 1901, has lived on a farm north of Burnside. Mrs. Linck died in 1922.

Funeral services were held at 10:00 a. m. Wednesday in St. Mary's Catholic Church at Burnside. Rev. Fr. P. J. O'Sullivan, pastor, chanted requiem mass. Burial was in the church cemetery. He is survived by a son, Edward Linck, Detroit; two daughters, Miss Mildred Linck, Battle Creek, and Miss Pauline Linck, Lansing; two sisters, Mrs. William Martus, Sr., and Mrs. Martha Horn, both of Cass City; two brothers, Peter Linck, Burnside, and Sylvester Linck, Ravenna; and three grandchildren.

Those from Cass City who attended the funeral were Mr. and Mrs. William J. Martus, Mrs. Martha Horn and W. G. Elsey.

DEATHS

Mrs. George Daley.
Mrs. George Daley, 81, resident of Argyle Township for many years, passed away Monday night, October 28, in the home of her daughter, Mrs. George Laver, at Fostoria.

Funeral services were held at 1:00 p. m. Monday in the Angus McPhail residence. Burial was in Elkland Cemetery.

Mrs. Daley is survived by the daughter, Mrs. Laver; and three sons, Walter Daley of Argyle, and James and William Daley, both of Pontiac.

JUSTICE COURT.

George Link, 58, of Unionville, who was arrested on a drunk and disorderly charge on August 20, was sentenced to 60 days in jail. On his promise to behave himself, he was released after 10 days. Officers reported his arrest again on Monday and the court ordered him held to serve the remaining 50 days of the original sentence. Phil Peters, 51, of Caro, arrested for driving while drunk on M-81, northeast of Caro, on Tuesday, pleaded not guilty in justice court. He will be given a trial by jury in justice court.

CASS CITY DEFEATS PIGEON IN FOOTBALL

Concluded from page one
field, and was brought down on the four-yard line. Strickland went around end to score. Kloc plunged through center for the point.
During the fourth quarter the Maroon and Grey, made up mostly of reserves, started a goalward march from their own 20 and went straight down the field without losing the ball, Kolb going over for the touchdown from the six-yard line. Phetteplace's pass to Koepfgen was batted down.

Pigeon started to drive toward the goal through the air, but the threat was broken up as Strickland intercepted a Pigeon pass as the ball game ended.

Line-ups:

CASS CITY	P	PIGEON

Kloc	FB	Webber

Substitutions — Bishop, Lounsbury, Nemeth, Leitch, Garety, Kelly, Phetteplace, Kolb, Ballagh and VanVliet.

This week Cass City plays Marlette on the local field. This is a non-league game but the Maroon and Grey will have to play heads up football against the strong Sanilac County team if they are to keep their slate clear of defeats this season.

Cat's Eyes Reflect
In the back of the eye of a cat, as well as some other animals, there is a mirroring surface, called a tapetum. Even in a very feeble light the mirror-like membrane will cause the cat's eye to "shine in the dark." However, points out the Better Vision Institute, there must be some light for the cat's eye to reflect, for the animal's eye merely reflects and does not generate light. That is easily demonstrated by looking at a cat in a photographer's dark room. In such a place devoid of light the eye of a cat does not shine.

Trichinosis
Trichinosis, an agonizing disease caused by parasites in poorly cooked pork, may be avoided if the pork is not eaten unless first cooked in a minimum temperature of 140 degrees Fahrenheit.

Sun Cracks
"Sun cracks" made ages ago in soft mud which subsequently hardened into Potsdam sandstone have etched many of the huge slabs of stone in Ausable chasm, N. Y., with weird patterns.

Tolls for Victims
A half-century-old church bell tolls over the radio in a country church in Dallas county, Texas, for persons in Texas who have lost their lives in traffic accidents.

Good Attendance at Special Services at Nazarene Church

Rev. Mr. and Mrs. Hoot are assisting Rev. George Bugbee in conducting revival services at the Church of the Nazarene at Cass City. Besides preaching, Mr. Hoot plays the trombone and mandolin and Mrs. Hoot and Mrs. Bugbee both play accordions. The choir sings every night and Mr. and Mrs. Hoot sing special numbers. The services are marked by a good attendance, says the pastor, and will continue until the evening of November 10. A furnace has been installed in the church building and the edifice is comfortable at each service.

HAPPENINGS IN THUMB OF MICHIGAN TOWNS AND VILLAGES

Concluded from first page. accidentally killed Thursday afternoon when struck in the head by a charge from his own shotgun while hunting alone on his farm three miles southwest of here. The body was discovered about 8:00 p. m. by a party of relatives and neighbors who set out to look for him when he failed to return home.

Unionville—Rev. Benjamin Whalen of Flint has accepted the call to become the pastor of the Unionville and Owendale Methodist Churches. This is Mr. Whalen's first charge. He graduated from Oberlin College in Ohio last June. He will make his home in Owendale. Rev. Whalen will succeed Rev. William N. Mertz, who left in September to complete his education.

Caro—The board of commerce will sponsor a potato queen contest which will be held in conjunction with the board of commerce farmers' night program November 4. A county queen to represent Tuscola County will be selected for the Southeastern Michigan Potato Show at Midland on November 4, 5 and 6. Rural organizations are invited to sponsor some young lady from their community.

GREATEST RED CROSS ROLL CALL IN 20 YEARS

Concluded from page one Military and other programs fitting into the national defense program. Last year when the Army, Navy and Marine Corps had skeletonized peacetime forces, the Red Cross aided more than 53,000 men in uniform with their social and economic problems. Today with an army of more than 1,000,000 men imminent, the Red Cross will need heavy increases in membership to meet proportionate needs arising in its field offices in military posts, camps and naval stations.

World conditions have prompted the Red Cross to set up two new programs since last roll call. More than 50,000 medical technicians have been circularized for the formation of a reserve corps being organized at the request of the U. S. Army Medical Corps. In addition, experimental studies are being made for a national "blood bank" which would furnish blood plasma to the U. S. Military in time of emergency. Ann Arbor is the state repository for local needs. The latter program is being run as a parallel project to a program of furnishing blood plasma to the British Red Cross for war victims.

Mrs. Burke pointed out that last year more than 100,000 persons, victims of 106 disasters in the United States, received Red Cross relief in being rescued, clothed, housed, fed and aided in rehabilitation.

"The American Red Cross nursing reserve, a corps pledged for service in time of national emergency, now comprises 42,000 registered nurses. In view of world conditions, plans for strengthening reserve during the coming year will be undertaken by Red Cross nursing committees throughout the country," she said.

"More than 500,000 American Red Cross volunteer workers are engaged in the program of war relief production of clothing and surgical dressings. "Publicity in Tuscola County has been greatly aided through the contribution of space by newspapers of the county and the generosity of Andrew Champion, who has contributed signs and boards throughout the county."

The local roll call chairman is Mrs. E. B. Schwaderer and she has appointed the following workers: Mrs. M. B. Auten, Mrs. E. Hunter, Mrs. C. L. Graham, Ralph Ward, Mrs. H. M. Bulen, Mrs. C. M. Wallace, Mrs. G. W. Landon, Mrs. E. A. Corpron and Mrs. Mary Holcomb. Membership payments will also be received at the Cass City State Bank, the Pinney State Bank and the Cass City Chronicle.

Memberships begin at one dollar but it is hoped that with so much extra service required due to the National Defense Program that many will make greater donations. A list of memberships and their apportioning is given below:

Life Expectancy Found Increased to 62 Years

CAMBRIDGE, MASS.—The life expectancy of man has increased to 62 years through public health programs, says Prof. Murray P. Horwood of Massachusetts Institute of Technology. He predicts that during the next generation smallpox, typhoid and diphtheria will be exterminated, tuberculosis will decrease 75 per cent and infant mortality will be cut in half.

Apple Tree Forgets Itself REDWOOD, CALIF.—Mrs. Sadie Tuxford would like to have someone analyze the "secret urges" which have pushed her two-year-old apple tree to blossom five times this year and to bear four crops of fruit.

Sun Cracks "Sun cracks" made ages ago in soft mud which subsequently hardened into Potsdam sandstone have etched many of the huge slabs of stone in Ausable chasm, N. Y., with weird patterns.

Cross-word Puzzles

Puzzles similar to the cross-word puzzles were known to the ancients. What is believed by some authorities to be the oldest cross-word puzzle was made by a Cretan about 2,000 years ago, a copy of which now lies in the archeological museum at Johns Hopkins university, Baltimore. This puzzle is called the Phaestus disk, and was found on the island of Crete by an expedition many years ago.

Discover Oil Oil fields have been discovered in Hungary which are said to be sufficient to meet all the country's demands, with a surplus for export. The new fields near the Yugoslav border are being covered with oil derricks reminiscent of a Texas boom field.

Desert Animals The desert scorpion, centipede, tarantula and spulgid are not so dangerous as most people suppose. According to a researcher at the University of California, they are only slightly poisonous; a scorpion's sting, for example, is no more harmful than a bee's.

Navajos Drop Tomahawks For Modern Can Openers

GALLUP, N. M.—A sign of civilization's encroachment upon the vast Navajo Indian reservation of New Mexico and Arizona is the growing pile of tin cans near John Navajo's hogans. Indian traders report the Navajo squaws are as expert with a can opener as many white women.

Aside from meat and corn, the Navajo grows very little that can be used in his diet. He raises some goats, but even much of his milk comes from cans.

A typical Navajo meal consists of coffee, mutton stew with canned tomatoes, and wheat flour bread baked as a sort of "hoecake." Canned fruit is popular, but the head of the list of good things to eat Navajo places watermelon and soda pop.

\$17.50 for Year School teaching wasn't a profitable profession in Chicopee, Mass., in 1713—it paid 34 cents a week. The WPA historical records survey has discovered that a Miss Cooley was paid a total of \$17.50 for a whole year's teaching.

But There's One Time When Playing Hookey Does Not Pay

SUPPOSE THAT—

At a regular time each week, a big majority of the people of this community gathered together in one big meeting place.

There isn't in the town a gymnasium or coliseum big enough to hold that many.

No circus has ever brought a tent big enough to hold the thousands of men, women and children comprising such an audience.

But suppose there were such a place. Then

SUPPOSE THAT—

After all of these people had settled down in comfortable chairs, you were offered an opportunity to get up on the stage in front of them and announce over a loud speaker that you had certain things you would like to sell them. Wouldn't you jump at the chance?

YOU SURE WOULD!

You would instantly recognize the high value of the opportunity to talk to all these possible customers—folks who would have to walk only a few steps or drive a few miles to your place of business.

You'd study out carefully what you wanted to say to them.

You'd like it immensely if you could show them the pictures of things you had to sell.

WOULD YOU PLAY HOOKEY?

When your time came to step before the microphone, would you want to be reported absent? You would NOT.

Would you say to yourself: "I talked to them last week. They all know I'm here, and what I sell." You would NOT.

You know that there would be new faces in every audience—young folks who have reached the buying age—older folks who have moved in from some other community.

WHAT'S THE ANSWER?

Regularly, every week, a big majority of the people seat themselves in comfortable chairs to read The Chronicle. They are just as ready to listen, as individuals, to what sellers have to say about their wares as if they were in the midst of a crowd of thousands of neighbors and friends.

THE LOUD SPEAKER

Is all set. Folks with things to sell have only to get on the platform and begin speaking. The audience is out front, anxious to hear about things they need to buy. No time to "play hookey" with a crowd that size on hand. Who wants too?

NOVESTA.

Farewell Party—Mrs. Charles Cunningham and daughter, Miss Leota, were pleasantly surprised Friday afternoon when about 25 friends met at their home to bid them farewell. A potluck lunch was served and each of the ladies brought a block for a "crazy" quilt with her name embroidered in the center to present to Mrs. Cunningham. Mrs. Cunningham left Saturday to make her home in Saginaw that she may be near her daughters, Misses Leota and Pearl, who are employed there.

Arthur Bunker, who has been confined to his bed with rheumatism, is able to be around again. Mr. and Mrs. Alvah Spencer and family moved to Pontiac Monday.

A Hallowe'en party for the entire community was enjoyed on Wednesday night in the basement of the Church of Christ. Doughnuts and Kool-aid were served. The Willing Workers' class of the Church of Christ will meet Friday (tonight) at the O. Tallman home.

Mr. and Mrs. O. E. McNutt and family, Miss Velma Pratt of Pontiac and Mrs. Henry Sweet of Lapeer visited Saturday at the home of Mr. and Mrs. A. H. Henderson and Mr. and Mrs. A. J. Pratt.

Mr. and Mrs. Earl Burgess of Pontiac were Sunday guests at the home of Mr. and Mrs. Mack Little. Mr. and Mrs. Jay Hicks and daughter, Mary, Mr. and Mrs. Arthur Royle of Detroit were guests at the home of Mr. and Mrs. Archie Hicks Saturday.

Mr. and Mrs. A. H. Henderson took Mrs. Charles Cunningham and daughter, Miss Leota, to their new home in Saginaw Saturday. Mr. and Mrs. Neil Hicks and two daughters of Flint spent the week-end at the home of Mr. and Mrs. Claud Peasley.

A delegation from the Novesta Church of Christ attended the homecoming at the Church of Christ in Deerfield Sunday afternoon. Ali Jarman was the guest speaker. Little Miss Ruth Rickwalt of Caro spent the week-end with her

grandparents, Mr. and Mrs. Robert Horner. Romney Horner of Pontiac also spent the week-end at the Horner home.

Mr. and Mrs. Ernest Seeley were Sunday guests of Leslie Peasley. Mr. and Mrs. Arthur Henderson and family of Kingston and Mr. and Mrs. Thomas Colwell of Cass City were Sunday guests of Mr. and Mrs. A. H. Henderson and Mr. and Mrs. A. J. Pratt.

Opinions expressed under this heading are those of the writer and not necessarily of this newspaper. Write Your Congressman. Has Europe gone stark raving mad? Will America follow suit? (No).

A few centuries ago our forefathers and founders of this great Democracy fled from European shores, and from them came the wisest group of statesmen ever assembled here. They left words of warning for their coming posterity to not become entangled in any European quarrels or troubles.

The record of all major European countries proves how wise these statesmen were. Their prophecy has proven true, that European wars mean European peace, and in a European peace, so far in the world's history, means another European war. How true the words—a nation that prospers by the sword shall perish by the sword. God has caused this great country to grow and prosper in a spirit of "live and let live" and wealth. Is it this wealth that has crept back to Europe in investments, such as oil and rubber and other business whereby they can procure real cheap labor that is acting as a magnet to draw us nearer the brink of disaster again? While still staggering from the results of the World War, for which we sacrificed so much for Democracy, we wonder if it isn't a repeat order coming up. Do not blame our national legislative body too much for the wrecking of the neutrality law, as terrific pressure was brought to bear on them by business men. From small town business men to large corporation business men, for the sole purpose of creating business to put men to work to make money.

Many times the map of Europe has changed in the last few centuries and always by force, regardless of what nation was seeking more territory, but the world that looked upon those changes is not the world that is seeing the map of Europe changed today. There was the same sorrow and suffering then, as now. We believe in the defense of our great Americas from the jungles of Brazil to the icebergs in the north. In less than twenty-four months, America is capable of producing one of the greatest fighting machines the world ever knew, and may it ever be kept for the defense of America only. And may God bless every Congressman from our great State of Michigan for the record they have made. We have free speech and free press YET, and if you believe in keeping out of European wars write your Congressmen. They will be glad to hear from you, and you will receive a courteous reply, regardless of whether you are a factory worker or a corporation lawyer. May God guide us in the paths of righteousness, and keep America the Land of the Free.

Gas Appliances Increase. Sales of gas appliances throughout the country during the first four months of 1940 were substantially in advance of sales made during the same 1939 period, according to reports received by the Association of Gas Appliance and Equipment Manufacturers, it was announced by C. W. Berghorn, managing director of the association. The increases in various types of gas appliances were as follows: Gas ranges, 18.2 per cent; gas-fired furnaces (house-heating equipments), 26.3 per cent, and water heaters, 13.7 per cent.

Straw Cat. The straw cat, known also as the pampas or grass cat, is a yellowish-gray wildcat, with straw-colored bands running backward across its flanks and horizontally on its legs and chest.

Table with columns: Bowler Name, Average. Includes Landon (166), M. Burt (165), F. Pinney (164), etc.

The two teams which were tied for the league's lead last week, met on Thursday, October 24, and when the final pin had been counted it left the Starmann pinsters alone at the top of the heap after taking two of the three games played from the McIntyre Five.

Herb Ludlow was the only bowler to crash through with a total worthy of mention when he hung up a three-game count of 553 pins. Al Freiburger also broke into the honor roll when in his first game he collected 221 pins to place him first for highest game yet bowled during the schedule thus far. Two teams of the sixteen were good enough to cop all three of their games during the week and they were the C. Wallace and Rether-

ford Fives. With a three-game total of 2,306 pins, the Larkin team went into second place for teams' three high game totals and they also jumped from fifth to first position for teams' total pins to date.

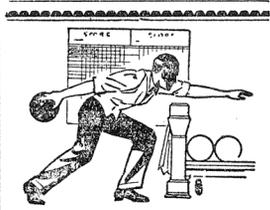

Desert Animals. The desert scorpion, centipede, tarantula and sulphur are not so dangerous as most people suppose. According to a researcher at the University of California, they are only slightly poisonous; a scorpion's sting, for example, is no more harmful than a bee's.

Farms Mortgaged. Norman J. Wall of the bureau of agricultural economics, says that 34.5 per cent of all farms in the United States are now mortgaged. In 1930 life insurance companies held 22 per cent of the total farm debt of \$9,000,000,000. At the end of 1938 they held only 12 1/2 per cent of the decreased debt of seven billions.

WEEKLY NEWS ANALYSIS By Edward C. Wayne

National Lottery for Peacetime Draft Holds Spotlight of Defense Program; Germany Changes Tactics in Air War; Tension in Far East Affairs Grows

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)
(Released by Western Newspaper Union.)

Joys of Childhood?

U. S. army guns, tanks and toy soldiers in miniature are the favorite of the current season's new crop of toys as far as Nick Tassalo, 6, is concerned. Nick is shown at the preview of the toy manufacturers' display in New York. A large percentage of the new toys for the coming Christmas season reflect the national defense program preparations.

Interest in the current draft program has led the government to place on display in the Washington office of the Selective Service board this first World war draft register. The register shows that the draft lottery began 9:16 a. m., Friday, July 20, 1917, and ended 16 hours and 46 minutes later, with the drawing of the 10,500th capsule. The same method is being used to determine the order in which men shall be called for the 1940 peacetime conscription program.

DEFENSE: Numbers Called
To War Secretary Henry L. Stimson went the honor of selecting the first number in the national selective service lottery. President Roosevelt was to pick the first capsule out of the goldfish bowl that was used in the 1917 draft lottery, but graciously yielded to Stimson. The late Newton D. Baker, secretary of war under President Wilson, selected the first number in 1917.

Contracts
The industrial program of national defense entered its second phase. First was drafting and awarding of contracts. Billions of dollars worth of goods, from battleships to paper clips, were contracted for.

The job now is one of procurement, actual manufacture on the speed-up scale demanded by the Defense Commission in order to achieve the two-ocean navy and equip an army that will number close to 1,500,000 within a few months.

Chief bottleneck is machine tools, the machinery and gear necessary in the process of turning automobile shops into tank factories, and the mass production of warplanes and munitions. William S. Knudsen, head of the production division of the commission, said tool makers are swamped with orders, sold out a year in advance. President Roosevelt issued an order permitting seizure of tool machines being made for foreign countries, wherever the material is necessary in American defense.

Outside tools, however, the vast industrial capacity of the United States seemed to be taking both defense and expanding civilian orders in its stride toward record production figures. The climb in manufacturing indices since last spring still has left a margin of surplus in manpower, raw materials and money.

But despite the rise of various business statistics to new peaks since 1929, Wall Street security markets remained inert.

WAR AT NIGHT: Tactics Change
England was emerging from almost three months of continual bombing with greater confidence in its ability to withstand whatever the Luftwaffe can deliver. As the stormy weather wore on and German planes were not halted by fog and freezing weather, British air leaders increased the fury of their own raids over France, Germany and Italy. Prime Minister Winston Churchill made bold to predict that by spring, 1941, with the help of American production, England will seize supremacy of the air.

The German air attack on London was reduced in one respect. Daylight raids were fewer and less violent. In the beginning Air Marshal Goering sent large formations in daylight raids. During this period the British scored heavily. Then the tactics shifted to single planes at varying heights. The German losses were reduced, but still remained high.

Now raids are confined largely to night. Bombers drop their packages from the stratosphere and scoot for home. The result is that the

Romance—Martha Jane Mooney, 24, daughter of a vice president of General Motors corporation, went to England last spring to drive an ambulance. Her parents protested but to no avail. Now the parents, Mr. and Mrs. James V. Mooney, have announced her engagement to Lieut. John K. McGlynn, who is in a hospital, having shot down 22 Nazi fliers.

POWER: On the St. Lawrence

An agreement between the United States and Canada looking toward development of a hydroelectric system along the St. Lawrence river has been advocated by four Presidents but never achieved. The war need for greater power has brought about a start.

With the consent of the United States, Canada will take more water from the Niagara river to generate power for its defense industries. So as to maintain the level of the Great Lakes, waterways now flowing into the Albany river and Hudson bay will be diverted southward to the lakes.

The announcement immediately awoke echoes of the two-decade fight for a Great Lakes-to-the-Seas waterway. Existing navigation above Montreal is limited to 14 feet. Locks are sought to provide a 32-foot draft.

Farmers of the West favor the plan. It would permit ocean liners to dock at Great Lakes ports and load wheat. Advocates of public power look upon the proposal as providing cheap electricity.

Opposition comes chiefly from ports in the Gulf of Mexico and along the Atlantic, as well as transshippers of grain. On the Canadian side the same is true.

President Roosevelt has allotted \$1,000,000 of special defense funds for a survey.

SABOTAGE: Mr. Dies Again

A wave of fires and explosions in U. S. defense industries "like the recent Hercules powder blast in New Jersey," is predicted by Representative Dies (D., Texas), chairman of the house committee investigating un-American activities. He called attention to the fact that a former member of the German American Bund told his committee several weeks before the New Jersey disaster that it could be expected.

Dies said there are more than 250,000 alien agents in the United States and more than 5,000 in defense industrial plants in the Detroit area alone.

Meanwhile members of the same committee declared they have proof that Friedrich Draeger, German consul in New York, has for six years been the actual head of the National Socialist party in the United States. They said the German diplomat has been "under observation for a long time" and is head of a vast ring of espionage, sabotage and propaganda.

It was revealed that Draeger's connections were linked up when a raid was made on the German Tourist Information Bureau and Trans-ocean Press, both in New York.

Far East Bloc

In Manila, Capt. Ruffo Romero, a native Filipino, graduate of West Point and officer of the Fourteenth Engineers at Fort McKinley, was formally arrested and charged with plotting to sell confidential military papers to an unnamed foreign power. He was taken into custody in the basement of his home while allegedly photographing documents showing defense fortifications at the entrance to Manila bay. Two civilian accomplices were arrested. His American-born wife was sought.

Meanwhile a Japanese, who feigned insanity, was seized on the U. S. aircraft carrier Langley, at Olangapo. He was found when still in a wet bathing costume and apparently had swum from shore to the ship.

Stupendous Collision
Prof. Harlow Shapley, director of the Harvard university observatory, has discovered evidence of a stupendous collision of two island universes hundreds of millions of years ago. Each universe was composed of billions of stars. Dr. Shapley bases his conclusions on telescopic observation of a "cosmic dent" in a star system known as the smaller Magellanic Cloud.

The Next Few Hours May Decide THE DESTINY OF OUR COUNTRY

In a few hours you will be called upon to decide whether a President of the United States shall break one of our most cherished and hallowed traditions.

There are—of course—other grave issues. But none, however grave, is likely to have such a far-reaching effect on the future of our country. Shall we, with open eyes, go down the road that leads to Fascism, Nazism, Communism or whatever you choose to call a type of government which denies the dignity of man and the rights of the individual? Shall we, for the first time in our history, accept the theory of the indispensable man, as against the fact that no man in all history has ever been indispensable?

Make no mistake. Once we set foot on the road to dictatorship there is no turning back any more than the people of Germany or Russia can now turn back and choose other leaders . . . any more than the people of Germany can now end the terrible war that their present leaders have led them into.

So when you enter the polling booth on Tuesday—and you are alone with your conscience—with the ballot spread out before you, it will be up to you to choose whether we shall surely remain free men and women working together in a democracy, or whether we shall put ourselves in peril of one day living as slaves ruled by despots. It has happened there—it could happen here.

Children's Outfits Have Style, Durability for Every Day Wear

By **CHERIE NICHOLAS**

IT IS a delight to shop for children these days. More than ever in the history of juvenile fashions, mothers owe a debt of gratitude to designers who specialize in little folks' apparel for having so completely analyzed and sensed the needs of youngsters not only from the esthetic point of view but decidedly from the angle of service and wearability. Let what may arise in weather, fair or foul, outfits are now so comprehensively constructed, so all efficient within themselves they are ready to meet any emergency of varying temperature.

This idea of many-purpose wear expresses itself in such contrivances as linings that zip in and out, of coats and even dresses that are made reversible, detachable hoods, matching hats, two skirts with one jacket, mittens and leggings made to match for tots—the list is endless. A judiciously selected outfit constitutes a wardrobe of clothes within itself.

The practicality of juvenile costumes designed with "latest improvements" for all-purpose wear was repeatedly stressed at a recent preview of children's fashions held at the Merchandise Mart of Chicago. In the foreground of the illustration is pictured one chosen from among many of the junior coat-and-dress "sets" shown.

For this "glamour teen-age" coat and skirt the designer combines gay plaid with handsome monotone wool cloaking. The coat offers multiple service, at the same time proving a constant source of joy to the wearer. By reversing it you can have a coat as shown in the picture one

day, and the next day little daughter can "go stepping" in a stunning all-plaid ensemble. Then too, the plaid skirt calls for a collection of blouses so that little Missy can come forth looking different each day. Headgear is provided in the plaid lined hood that can be worn either side out, can be adjusted to wear as a deep collar and may even be detached altogether when wanted.

A word to the wise mother is sufficient. Instead of haphazardly buying a dress here, a coat there and a hat from most anywhere, get one good dependable ensemble carefully "thought through" by experts to meet every requirement from every angle of protection and comfort for your child as well as being infinitely chic and charming as any modern young miss could fancy.

And look who's here in the group pictured! It's brother and sister in two-piece knits. Enthusiasm for "brother-and-sister" fashions grows. The newest thing out is the cunning jersey knit jumper outfits shown here. The tiny blouse is knitted in red and white or other combinations if you choose. Plain jersey makes the tiny trousers with the big buttons for the wee boy and for little sister's flare skirt. Jersey is no-end practical for little folks to wear. This is one reason why these little suits are so popular.

The pretty little girl to the right has on a winsome jumper suit of a dressier sort which is "pretified" by dainty embroidery. There is nothing more practical than the new jumper dresses. A fresh blouse each day worn with the skirt that has shoulder straps, and little daughter is dressed for any occasion.

Many of the newest jumper dresses are made of bright velveteen and of pin-wale corduroy this season. Buy the jacketed models and you will get unlimited wear and service in a suit plus dress always ready to go places.

elected to the COUNTY ROAD COMMISSION.

To the Voters of Tuscola County:

The undersigned business men of Cass City wish to endorse **ANDREW T. BARNES** as a candidate for **COUNTY ROAD COMMISSIONER** in the November 5th election, and we do respectfully request your vote for him.

Mr. Barnes is very well qualified for the job, as he has been successfully engaged in road and bridge building most of his life. We feel that his experience will be a valuable asset to the County Road Commission. His contacts with the State Highway Department, through contract work he has done for the State in recent years, should operate to the benefit of our County if he were

Mr. Barnes has never before held public office, and this effort on the part of the undersigned to promote his candidacy is entirely voluntary and was not in any way solicited by Mr. Barnes. Because our community regards him highly, and feels that he is so well qualified for the job, we want you to know how we feel and to request your support.

As this letter will undoubtedly be received mostly by Republicans, whereas Mr. Barnes is a candidate on the Democratic ticket, we would like to point out that to vote a split ticket you need only put an (X) in front of the names of those persons for whom you want to vote, regardless of which ticket they are on.

Shawl to Match

A perfectly charming fashion is that of cunning little evening shawls made of the identical material that fashions the dress. The beautifully styled gown pictured is of black chiffon distinguished with an artfully shirred bodice that has an unusual halter-neck treatment and a graceful gathered-at-waist skirt. The little shawl of matching black chiffon is finished with hand-tied fringe. A black velvet dress with scarlet chiffon shawl is also a suggestion. The newest white jersey evening frocks have matching fringed shawls.

Unusual Motif

With familiar scenes from everyday life, Jane Renaud, a young Parisian designer, decorates her unusual handmade belts.

Dressy Modes Use Fringe Novel Ways

A generous use of fringe is seen throughout dressier modes. In addition to dresses massively befringed, there are cunning and unique accents of fringe on simply styled black wool or satin frocks. One example of accessories made of fringe is the new pocket that is woven or knotted of silk fringe, with strands falling true to fringe form in a graceful way. These pockets are placed on skirts and jackets. Then there are the new epaulets that are knotted of fringe. A plain black dress with epaulet formed of fringe in a military way and positioned on each shoulder becomes a gown of style distinction.

Narrow fringe along the side seam of gloves worked out after the manner of cowboy leather gloves is very new in the mode. Felt hats carry out the idea in self-cut fringe about wide brims.

Glitter Holds Sway In Festive Fashions

Glitter is the word for festive fashions this winter. As a new evening wrap fashion experts are offering a finger-tip length jacket of colorful tweed or other fashionable wool weave. The sleeves are embroidered in scintillating sequins or brilliants.

Young girls are wild over these new evening coats. The fashion for black coat and dress ensembles glittered with jet embroidery is also popular.

Designers are enthusiastically carrying the idea of sparkling embroidery into their program of wool fabric dresses and suits.

THE MANDATE OF 1938—Two years ago the people of Michigan registered a protest at the ballot box. It was a protest against wasteful spending, mounting deficits, and a betrayal of honest laboring men.

You gave the Republican party in Michigan a mandate to do a job.

This party has kept the faith!

NO NEW TAXES—Needs of public service have been met on a "pay-as-you-go" basis without recourse to new taxes.

Business has been encouraged to GO AHEAD—hire more men, increase payrolls. Industrial peace has replaced industrial turmoil.

The party has kept the faith!

LET'S SWING INTO FALL
(See Recipes Below)

Three cheers! It's fall again! Now is the time to perk up your home a bit, to scan through Dame Fashion's news notes, and to dress up your table a bit with new and old-time favorites.

As each season comes we always heed its call by planning foods suitable for serving at that particular time of the year. We try to rush spring by setting forth very crisp, cool, and fresh vegetable salads. Throughout the summer, when appetites wane, cooling beverages and light foods are most popular.

But with cooler weather just around the corner, appetites pick up, and the family is more than ready to discard their favorite lighter meals for something more substantial that will provide new energy for school and fall activities.

Many of the foods we serve are those that your mother served, and her mother before that time, but we can give new flavor to them, new and attractive ways of serving, and a 1940 style.

A tiny sprinkling of ginger over roast beef gives it a yummy flavor. Meat loaf may be baked in a ring mold and served with parsley potato balls in the center.

Pour a bottle of gingerale over ham for baking, and baste occasionally.

When using jelly or jam as a filling for layer cake, spread each layer very thinly with soft or creamed butter first. This keeps the jelly or jam from soaking into the cake.

If you add a few drops of mint extract to whipped cream it makes a delicious topping for chocolate cake.

Apple Pie.
1/2 cup shortening
1/4 cup boiling water
1 1/2 cups flour
1 teaspoon salt
1/4 teaspoon baking powder
4 to 5 tart apples (peeled and sliced)
1/2 cup sugar
Dash cinnamon or nutmeg

Place shortening in a warm bowl, pour boiling water over it and cream thoroughly with a fork. Place flour, salt and baking powder in flour sieve and sift gradually into the creamed shortening and water mixture. Mix thoroughly. Make up into a dough ball and chill.

To make apple pie, divide pastry, roll out and line pie plate with first half. Peel and slice the apples, arrange in alternate layers with sugar and cinnamon, or nutmeg. Top with pastry and bake in a hot oven (450 degrees) for 10 minutes; then reduce oven heat to 350 degrees and bake approximately 35 minutes longer. Serve warm with a wedge of cheese.

Golden Carrot Ring.
(Serves 5-6)
1 tablespoon onion (minced)
3 tablespoons butter
1 cup soft bread crumbs
2 eggs (well beaten)
1 1/2 cups milk
2 cups raw carrots (grated)
1 teaspoon salt
Dash pepper

Brown the onion in the butter. Remove from fire, and add crumbs. Place in a mixing bowl, and add well-beaten eggs. Mix well. Add milk, carrots, salt and pepper. Pour into well greased ring mold and bake in a moderate oven (350 degrees) for about 40 minutes. Turn onto heated platter and serve immediately.

Stuffed Ham Steak.
(Serves 5-6)
2 cups soft bread crumbs
1/2 cup seeded raisins (chopped)
1/2 cup walnut meats (broken)
1/4 cup brown sugar
1/2 teaspoon dry mustard
1/4 cup butter (melted)
2 large slices smoked ham (1/2 inch thick)

Combine the crumbs, raisins, nuts, sugar, mustard, and butter to form a dressing. Place one slice of ham in a shallow baking pan, and spread dressing on the ham. Place a second slice of ham on top. Stick whole cloves into the fat. Bake in

a slow oven (300 degrees) for about 1 hour.

Dutch Cream Cookies.
(Makes 4 dozen)
1/2 cup butter
1/2 cup sugar
1 egg
1/4 cup sour cream
1/4 teaspoon soda
3 cups flour
1 teaspoon lemon extract

Cream butter and add sugar. Add egg and beat thoroughly. Dissolve soda in cream and add to mixture. Add flour to make a dough which can be easily handled. Chill over night. When firm, slice into thin slices. Bake in a moderate oven (350 degrees) for 10 to 12 minutes.

Date Butterscotch Pudding.
(Serves 5-6)
2 cups brown sugar (light)
3 tablespoons cornstarch
1/4 teaspoon salt
1/2 cup cold water
1 cup boiling water
1 egg
3 tablespoons butter
1/2 cup dates (chopped)

Combine brown sugar, cornstarch, salt, and cold water. Add boiling water and cook until thickened, stirring constantly. Remove from range and pour over slightly beaten egg. Cook about a minute longer. Add butter and dates. Pour into sherbet glasses and chill before serving. Serve plain or garnished with whipped cream.

Cinnamon Apple Salad.
(Serves 5)
2 cups granulated sugar
2 teaspoons cinnamon
1 1/2 cups water
Red vegetable coloring
5 medium sized apples (peeled and cored)

Bring sugar, cinnamon, and water to the boiling point and add sufficient vegetable coloring to tint mixture bright red color. Drop apples (peeled and cored) into boiling syrup and cook until apples are tender but firm. Remove and chill.

Serve on bed of water cress and fill core of apple with diced celery and chopped nuts. Serve with Roquefort dressing.

Scrambled Eggs and Mushrooms.
(Serves 5)
2 tablespoons butter
6 eggs (slightly beaten)
1/2 cup milk or mushroom liquor
1 cup canned mushrooms (sliced)
1/4 teaspoon salt
Dash pepper

Heat butter in frying pan over low burner. Combine eggs, milk or mushroom liquor, sliced mushrooms and seasonings, and pour into frying pan. As mixture cooks, stir with a spatula, forming creamy flakes. Cook for about 5 minutes, or until eggs are firm but tender.

Bacon Baked Spaghetti.
(Serves 6-8)
1/2 package spaghetti
6 slices bacon
1/2 cup raw onion (cut fine)
2 1/2 cups tomatoes
1 cup cheese (grated)
1/2 teaspoon salt
1/4 teaspoon pepper

Boil spaghetti until tender in boiling salted water. Drain. Cut bacon in small pieces and fry until light brown in color. Butter casserole, and place alternate layers of spaghetti, bacon, onion, tomatoes, and cheese in the casserole. Season each layer with salt and pepper, cover top layer with grated cheese and dot with butter. Bake approximately 30 minutes in a moderately slow oven (325 degrees).

And to vote upon the following proposed Amendments to the State Constitution:
Proposed Amendments to State Constitution and Referendums on Section 3 of Article I of Act 261, P. A. 1939, and Act 122, P. A. 1939, to be submitted November 5, 1940.

(Proposal No. 1)
By a Joint Resolution passed at the 1939 Legislature it is proposed to amend Section 21 of Article I of the State Constitution to read as follows:

Sec. 21. The total amount of taxes assessed against property for all purposes in any 1 year shall not exceed 1 1/2 per cent of the assessed valuation of said property, except taxes levied for the payment of interest and principal on obligations heretofore incurred, which sums shall be separately assessed in all cases: Provided, That this limitation may be increased for a period of not to exceed 5 years at any 1 time, to not more than a total of 5 per cent of the assessed valuation, by a two-thirds vote of the electors of any assessing district, or when provided for by the charter of a municipal corporation: Provided further, That this limitation shall not apply to taxes levied in the year 1932: Provided further, That this limitation shall not apply to the taxes levied in an amount not exceeding 1.2 per cent per year for the payment of the principal and interest on bonds issued by school districts for the purpose of defraying the cost of erecting, altering or improving buildings or making repairs thereto or purchasing a site therefor, maturing in not to exceed 15 years from date of issuance, when such bonds shall have been authorized by the legally required number of the qualified electors voting thereon.

The Section of the Constitution which would be altered and amended in the event of the passage of this amendment now reads as follows:

Sec. 21. The total amount of taxes assessed against property for all purposes in any one year shall not exceed one and one-half per cent of the assessed valuation of said property, except taxes levied for the payment of interest and principal on obligations heretofore incurred, which sums shall be separately assessed in all cases: Provided, That this limitation may be increased for a period of not to exceed five years at any one time, to not more than a total of five per cent of the assessed valuation by a two-thirds vote of the electors of any assessing district, or when provided for by the charter of a municipal corporation: Provided further, That this limitation shall not apply to taxes levied in the year 1932.

(Proposal No. 2)
By initiative petition, it is proposed to amend Article VI of the State Constitution by adding a new section to stand as Section 22 and to read as follows:
Sec. 22. The state civil service shall consist of all positions in the state service except those filled by popular election, heads of departments, members of boards and commissions, employees of courts of record, and the legislative, judicial, educational institutions recognized by the state constitution, all persons in the military and naval forces of the state, and not to exceed two other elective positions for each elected administrative officer, and each department, board and commission.

There is hereby created a non-salaried civil service commission to consist of four persons, not more than two of whom shall be members of the same political party, overlapping terms, the four original appointments to be for two, four, six and eight years respectively. This commission shall supersede all existing state personnel agencies and succeed to their appropriations, records, supplies, equipment, and other property.

The commission shall classify all positions in the state civil service according to their respective duties and responsibilities, fix rates of compensation for all classes of positions, approve or disapprove disbursements for all personal services, determine by competitive performance exclusively on the basis of merit, efficiency and fitness the qualifications of all candidates for positions in the state civil service, make rules and regulations covering all personnel transactions, and regulate all conditions of employment in the state civil service. No person shall be appointed to or promoted in the state civil service who has not been certified as so qualified for such appointment or promotion by the commission. No removals from or demotions in the state civil service shall be made for partisan, racial, or religious considerations.

The administration of the commission's powers shall be vested in a state personnel director who shall be a member of the state civil service and who shall be responsible to and selected by the commission after open competitive examination. To enable the commission to execute these powers, the legislature shall appropriate for the six months' period ending June 30, 1941, a sum not less than one-half of one per cent, and for each and every subsequent fiscal year, a sum not less than one per cent of the total annual payroll of the state service for the preceding fiscal year as certified to by the commission.

After August 1, 1941, no payment for personal services shall be made or authorized until the provisions of this amendment have taken effect in every particular. Violation of any of the provisions hereof may be restrained or enjoined by the courts of this state.

This amendment shall take effect on the first of January following the approval thereof.

(Proposal No. 3)
Referendum on Section 3 of Article I of Act 261 of the Public Acts of 1939, Act 261 is an Act amending Act 254 of the Public Acts of 1933. The said section reads as follows:

Sec. 3. General exemption and regulations in connection therewith. All carriers of passengers or property by motor vehicle for hire upon the highways of this state shall be subject to the provisions of this act. No person, firm, association or private or municipal corporation or any agency or instrumentality thereof shall operate as a common or contract motor carrier for hire without first obtaining from the commission a certificate or permit under the provisions of this act authorizing such operation, regardless of the provisions of any other statute, unless hereinafter specifically exempted: Provided, However, Common motor carriers of property whose operations do not extend for a distance of more than 40 miles over the highways of the state in any direction from their home terminal, as designated under the requirements of this section, shall not be subject to the provisions of this act except to the extent required by this section: Provided, However, That this exemption shall not be construed to apply to common motor carriers or contract motor carriers furnishing service between two or more cities, towns, or villages. The commission shall determine whether any motor carrier is within this exemption and shall make such rules and regulations and orders as it may deem necessary for the proper classification of such carriers and for the enforcement of this act. Any common or contract motor carrier who desires to come under the provisions of this section shall file with the commission an application under oath, setting forth such information as may be required by the commission to his operations upon the form prescribed by the commission. Such application shall, among other things, designate the home terminal of such carrier. Such designated home terminal shall thereafter be the fixed point from which the 40 mile radius within which operations shall be permitted under this section shall be computed. Such common motor carriers of property and contract motor carriers of property may change their home terminal when notice in writing is given to the commission 48 hours before such anticipated change. Any person who shall willfully, under oath, make false statements in such application, shall be deemed guilty of perjury.

The section of Act 254 of the Public Acts of 1933 which would be altered or abrogated in the event of this proposed amendment now reads as follows:

Sec. 3. General exemption and regulations in connection therewith. All carriers of passengers or property by motor vehicle for hire upon the highways of this state shall be subject to the provisions of this act unless hereinafter specifically exempted: Provided, However, Common motor carriers of property whose operations do not extend for a distance of more than 40 miles over the highways of the state in any direction from their home terminal, as designated under the requirements of this section, shall not be subject to the provisions of this act except to the extent required by this section: Provided, However, That this exemption shall not be construed to apply to common motor carriers or contract motor carriers furnishing service between two or more cities, towns, or villages. The commission shall determine whether any motor carrier is within this exemption and shall make such rules and regulations and orders as it may deem necessary for the proper classification of such carriers and for the enforcement of this act. Any common or contract motor carrier who desires to come under the provisions of this section shall file with the commission an application under oath setting forth such information as may be required by the commission to his operations upon the form prescribed by the commission. Such application shall, among other things, designate the home terminal of such carrier. Such designated home terminal shall thereafter be the fixed point from which the 40 mile radius within which operations shall be permitted under this section shall be computed. Such common motor carriers of property and contract motor carriers of property may change their home terminal when notice in writing is given to the commission forty-eight hours before such anticipated change. Any person who shall willfully, under oath, make false statements to the commission in such application, shall be deemed guilty of perjury.

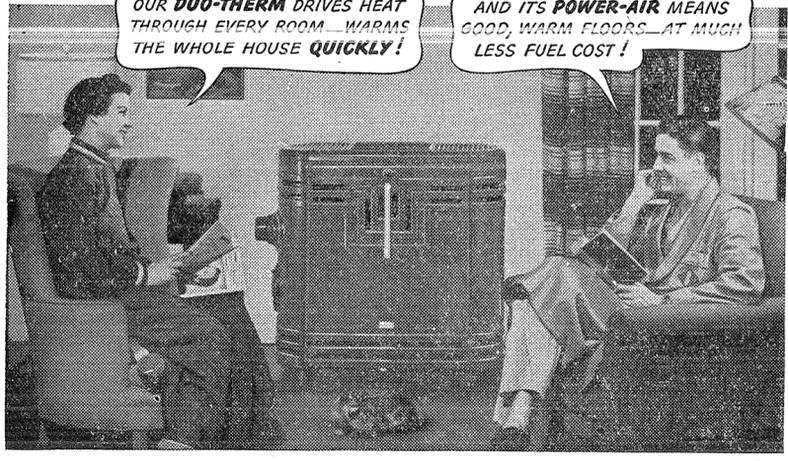

(Proposal No. 4)
Filing of referendum petitions holding up the taking effect of Act 122, P. A. 1939, necessitates the submission of this act to the people for approval or rejection at the November 5 election. The title of this act reads as follows:

An Act to regulate the practice of dentistry and dental surgery; to provide for the examination, licensing, registration and regulation of persons who may practice the same; to provide for the disposition of moneys received under this act; to provide penalties for violations of this act; and to repeal certain acts and parts of acts.

The polls of said election will be open at 7 o'clock a. m. and will remain open until 6 o'clock p. m., Eastern Standard Time.

STATE DENTAL BILL

This is an important message to you, Mr. and Mrs. Consumer. Michigan has a model statute governing the use of advertising. It fully protects the consumer against misuse of advertising by false or misleading statements of any kind. Newspapers are ready at all times to keep their advertising columns clean from such abuse. Merchants likewise do not wish to mislead the consumer with inaccurate statements which result only in ill will and loss of patronage. The economic freedom of the consumer depends largely on his or her ability to get truthful information. Is there any justification for a scheme to rob you of this right; to prohibit telling the truth? State Proposal No. 4, the Dental Bill, would deny the consumer this important privilege. It would prohibit the telling of prices. It would encourage other groups to work for special legislation to restrict competition. It would evade the American system of justice by court and jury. It would deny to both consumer and business man the freedom of truthful advertising. Consumers, Guard your rights! Defend the right to tell the truth, as judged by court and jury, and as safeguarded against abuse by the Michigan false advertising law. This is the American way!

DEFORD

Roth-Nagy Nuptials—

At 10:00 a. m. on Saturday, October 26, the Deford Church was the scene of a beautiful wedding ceremony, when Miss Elizabeth Roth, daughter of Mr. and Mrs. William Roth, became the bride of William Nagy. The Rev. Carl Szabo of the Fairgrove Pentecostal Church, performed the ceremony, using the ring service. The marriage vows were taken in the presence of a large number of relatives and friends who had gathered to witness the marriage and extend felicitations.

The minister, Carl Szabo, followed closely by the groomsmen, Henry Roth, and the groom took their places before the altar which was beautiful with cut and potted flowers against a bank of palms to the lovely strains of Lohengrin's wedding march, played by Mrs. H. D. Malcolm.

The maid of honor, Miss Anna Nagy, sister of the groom, preceded the bride's party up the aisle to the altar. At regularly spaced intervals, the three bridesmaids each with an escort took their places. The bride, accompanied by her father, took her place beside the groom.

At the conclusion of the ceremony, the bridal party retired as the pianist played "When We Come to the End of a Perfect Day."

In the retiring hall, the bridal party paused while the bride and groom received best wishes and congratulations.

The maid of honor was attired in blue silk, with a wine jacket, while the bridesmaids were attired exactly alike in full length wine colored silk, each with a corsage of flowers. The bride was charming in a splendid gown of white silk, and large bridal veil, and carried a bouquet of white rosebuds and bebe mums.

Their home for the present is in Detroit where the groom is employed.

A wedding dinner was served at the home of the bride's parents to about 85 relatives, friends and neighbors.
