THANK Thee for FAITH.

The humble trust that suns will rise again; That over and through the universe there moves a plan, A changeless law that governs wind and rain; Constant—devising Thy beneficence for Man.

THANK Thee for LOVE.

Greater than human passion or a close embrace— The love that says all living stems from Thee; Cares less than nothing for position, pride or race, But calls its Neighbor all humanity.

THANK Thee for STRENGTH.

The blessing of work—the humble job or great; The power to face each daily task begun; The knowledge of our mastery of fate And consciousness of worthwhile things well done.

THANK Thee for TRUTH

That we may choose the right—discard the wrong; And having chosen, bravely lift our load, E'en though the way be tortuous and long, We may not stumble blindly on Life's road.

THANK Thee for LIFE.

These golden days in pastures cool and green; Each hour a treasure chest we may explore That may be bursting with a joy unseen— Moments, unfolding like a mystic door.

THANK Thee for a COUNTRY THAT IS BOUNTEOUS and for a social consciousness that seeks employment and plenty for all; we thank Thee for a people that loves liberty even as did our forefathers; we thank Thee for the privilege of holding a free election and for the fine American spirit which accepts the results of that election; we thank Thee for the democracy we enjoy and for every safeguard in its behalf; we thank Thee for making us each day more and more a united nation to protect us from within and without against all forms of aggression; we thank Thee for the lamp of civilization that has been entrusted to us and for the peace which, in honor, may be ours; we give thanks, dear Lord, for the freedom to thank Thee according to our conscience.

The Cass City community suffered comparatively little in the big windstorm Monday afternoon and night which worked great havoc throughout the state and which was particularly severe on the Great Lakes. Three large freighters were lost and others damaged and several small craft are missing. There is a probable loss of at least 65 lives.

In this community, several trees were blown down as well as a number of advertising signs. A sign on the Reed & Patterson meat market building was blown from its standard and smashed a large window at the store front. Mrs. J. D. Brooker had a large window broken in her residence on North Oak Street.

Lighting Adviser of the Detroit Edison Co. Gave an Instructive Address.

Rev. Frank B. Smith, pastor of the Baptist Church, conducted a brief memorial service for Dr. R. N. Holsaple at the beginning of the November program of the Cass City Community Club on Tuesday evening. Rev. Wendling H. Hastings, pastor of the Presbyterian Church, in his remarks, stated that Mr. Holsaple, who died here October 31, was a minister of more than average ability, and as a citizen possessed great nobility of character, was genial, generous, cheerful and kind, possessed abounding energy and lived wisely and well. The service was concluded with a memorial prayer by Rev. Henry G. Bushong, pastor of the Methodist Church.

During the dinner which was served by the Baptist Ladies Aid, an orchestra, of which George Dillman, Charles Keen, J. Wesley Dunn and Carolyn and Frederick Auten were members, were generous with musical selections. Mr. Dillman led club members in group singing.

Fred Hayes, lighting adviser of the Detroit Edison Company, in his address, related the development and achievements of electric lighting since the invention of the incandescent lamp. The Cass City High School foot ball team dropped its first game o the season to the strong Bad Az

to 6 score.

Cass City opened the scori first quarter which ended up wit Kloc going over for the score from the eight-yard line. The attempt for the extra point failed.

Bad Axe's first scoring opportunity came early in the second quarter when, after recovering a Cass City fumble, they made it a first down on the Cass City threeyard line. The Cass City line dug in and held for the next three downs and a Bad Axe pass was incomplete on fourth down, so Cass City took the ball on their own 20-yard line. Bad Axe again moved into pay dirt as Tindall intercepted Strickland's pass on the Cass City twenty, and after a series of plays, Huston went around end for the touchdown. The drop kick for the point was wide.

With the score tied, 6 to 6, and one minute go to the half, the Cass City backfield relaxed as Huston faded back to his own forty-five Turn to page 5, please.

#### THE FIRST THANKSGIVING.

There is again a difference of opinion as to the date on which Thanksgiving Day should be celebrated. If the truly thankful spirit exists, such differences do not count a great deal. The main thing is to make it a real day of Thanksgiving.

It is one characteristic of our ungrateful human race, that the more blessings they have, the more they seem unconscious of them. The story of the first Thanksgiving illustrates this truth. When the Pilgrim fathers landed at Plymouth, Massachusetts, there were only 102 in their little company. They set foot on that cold shore in | It becomes easy to make exagthe dead of winter, December 20, gerated statements. when it was impossible to raise come. What a little thing that was to be thankful for, according to the big ideas of our time! They had no comforts, only the most primitive tools with which to work, they were far from help from their former homes, their future was dark and gloomy at the best. But just because they saw enough food to last through one more winter, they sang Psalms and were full of good cheer.

What a lesson to us in our time, as we enjoy life, surrounded by so many comforts, with a wealth of amusements and opportunity offered us. We have 1,000 times more than the Pilgrim fathers. Yet they thanked God, while we usually pass the day with scarcely a thought.

#### RELIEF OF SUFFERING.

The world is full of suffering. he hatreds and wars of men lay eat countries in the dust, and bmit their people to untold Terrible disasters, which suffering due to the failure of the people to learn the methods by which disease perils can be averted. Then there are the poor and the

destitute, the folks suffering from unemployment. What are kindhearted people going to do with all the misery that human life develops? Shall we go our way serenely, as if these troubles do not interest us, and shall we do nothing to relieve them?

It is not always possible for the average person to do a great deal by his own personal effort to relieve this suffering. But there is a grand organization covering the whole country, the American Red Cross, which offers to do this work for us. It sends its messengers of mercy and aid all over the land, wherever disaster has fallen with its crushing hand.

It reaches out across the seas and feeds the British people, whose homes have been destroyed by cruel bombs. It provides clothing for those who are shivering in wintry winds. It nurses the wounded, whose bodies have been torn by the bombs of hell.

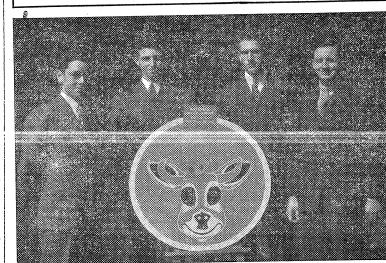

In our own country it is alert to succor the victims of misfortune. If floods sweep away homes, the Red Cross is there with tents and get married nowadays. It is not food and nursing and clothing. If merely a question of providing the fire or tornado levels a city to the money. There is also the question ground, there is the Red Cross, whether the accepted mate is going

caring for all in need. The Red Cross is holding its annual roll call, seeking to enlist ed in this close intimacy. It is millions of new members. Will you easy for marriages to break up not join?

#### CALMER VIEW NEEDED.

#### Gas Appliances Increase

Sales of gas appliances throughout the country during the first four months of 1940 were substantially in advance of sales made during the same 1939 period, according to reports received by the Association of Gas Appliance and Equipment Manufacturers, it was announced by C. W. Berghorn, managing director of the association. The increases in various types of gas appliances were as follows: Gas ranges, 18.2 per cent; gas-fired furnaces (househeating equipments), 26.3 per cent, and water heaters, 13.7 per cent.

#### Surgeons Shift Heart Of 7-Week-Old Infant

ANN ARBOR, MICH.-University hospital surgeons said today that a 10-week-old infant whose heart was moved from the right to the left side was recovering and gaining weight normally.

The delicate operation was performed three weeks ago, surgeons said, on Elneda Baumann, the daughter of Theodore R. Baumann of Hope, Mich. The child was under an anesthetic for more than an hour.

Surgeons said a misplacement of the intestines, due to an opening at birth in the upper part of the diaphragm, collapsed the infant's left lung and pushed the heart to the right side.

CASS CITY HIGH DROPPED ITS FIRST GAME ON FRIDAY

Concluded from page one and passed to Todd who took the ball on the Cass City forty and scampered across for the second tally. Huston's kick was too low.

A recovered fumble and a long completed pass gave Bad Axe her third scoring opportunity in the Verify Bible on Flood third period when MacTaggart must be met with decision to give over for the touchdo The kick for point failed again.

During the fourth quarter, Bad Axe played defensive ball and kept the locals away from their goal

Waxing Apples

Waxing of apples has "markedly prolonged the salability" of them, D. V. Fisher and J. E. Brittain of the Dominion experimental station, Summerland, B. C., said recently. They found that apples in cold storage for more than seven months shrank only a pound to the bushel, but that unwaxed apples kept at 60 degrees shrank a half-pound per bushel in five weeks. Waxing of apples "materially reduced" their shrinkage in low-humidity areas, they discovered. The waxing does not affect the flavor. The scientists said that waxing delayed the onset of mealiness in Delicious apples and reduced the "core flush" in McIntosh apples.

## International Problems Face Roosevelt Before Beginning of His Third Term; Determined Greeks Hold Off Italians As England Rushes 'All Possible Aid'

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)

All over the country soldiers are at work putting U.S. army camps in shape to receive the new draftees and the regulars and recruits pictured above at Camp Edwards, Mass., are shown charging the camera during military drills being held at this army post on Cape Cod. More than 12,000 men are at work at this particular camp, getting it ready for part of America's new peacetime army.

#### **AFTER-ELECTION:**

Decisions in Making

With President Roosevelt capturing an unprecedented third term by almost 4,000,000 plurality and continuing his party control of both houses of congress, the period ahead is expected to be one of fast moving decisions on both foreign and domestic issues. Many of these may come before the inauguration January 20. Many have been delayed during anxious weeks and months while the nation indulged itself in a political campaign.

In the foreign field continued sale of oil, copper and machine tools to Japan, that later may be used against a U.S. army, must be resolved. Likewise the issue of sale of food to territory conquered by Germany is due to be settled. Other problems are the sovereignty of Martinique, which may be used as a supply base for German submarine raiders in the Caribbean; the activities of foreign agents in this country; loans to Latin American nations; and greater priority for

Britain in the production of planes In the domestic field almost everyone in Washington expects a reorganization of the national defense commission with appointment of a co-ordinator of activities. There must also be action where labor is pressing for higher wages in defense industries, and resistance to price increases. Tax studies already have begun and banks are urging an attractive long-term loan at rates above the present market. The unwillingness of industry to expand in the steel and machine tool industries them government financing or for the government to enter that field

#### State Machines

Another problem Washington expects to be given speedy attention is the political machines of both parties controlling certain graft-ridden cities and states. The justice department is said to have some indictments ready even before election. They were withheld because the administration did not want to be accused of playing politics. Michigan is said to be in this category. Here charges are expected in connection with operation of a liquor ring, diversion of funds from state liquor stores. This might seem at first glance to be a local problem, but "hot" money is alleged to have passed through the United States mail, and that is a federal offense.

New Jersey also may draw a crack-down rather early. Mayor Frank Hague of Jersey City suffered a severe moral defeat in the election. Not only did the state fail to turn in its usual Democratic majority, but Republicans were elected governor and senator. This is attributed to a public revision of machine tactics which already has

#### NAMES ... in the news

ed and instructed Anthony Drexel

greet the 80-year-old evacuee.

Tourist-Neville Chamberlain, former British Prime Minister, was reported en route to the United States for his health. The umbrella statesman had decided to go, of all places, to California.

Prediction-Democracy is dead all over the world, says Pierre Laval, vice premier of France. The man who negotiated the pre-armistice terms with Germany and later linked the Vichy government with Nazi Germany, indicated in an in-

drawn investigation from a senate Pennsylvania which two years ago

turned out its first Democratic state administration of the Twentieth century gave the Democratic ticket a wide sweep of the state this year. But even before the election federal agents were making investigations in Philadelphia.

#### MIGHTY ROME: Plans Awry

Apparently confident of a speedy capitulation, Rome began to talk of peace terms as soon as the first Fascist legions crossed the Albanian border to enter Greece. Rome implied dissension would bring the Greek to heel. Premier John Metaxas, power behind the throne, was expected to resign. King George. so the Italian story went, would abdicate, bestowing the crown on his brother, Prince Paul, 37, and married to a German princess.

But the Greeks had a word for it. The word was "no." They refused to capitulate. Italian forces gained but 30 miles into Greek territory at their best point when a week passed. They were doing a lot worse at other points. On the Koritza-Florina road the Greeks caught the Fascist flank in a vice and pinched it until both sides were fighting far inside Albanian territory and the Italian rear was threatened.

Civilians stood up under air raids carried out against the islands of Crete and Corfu, against Salonika and the port of Athena, Pireatus.

While there was indication the Greeks would receive little help from their neighbor Balkan countries, British stakes were high. The British were giving what they promised, "all possible aid." British soldiers occupied Crete and Corfu, British and Greek planes bombed Italian bases both in Italy and Al-

How long the Greeks could hold out, neutral observers were loath to state. Mountains stood in the Italian path. Torrential autumn rains turned primitive roads into seas of mud. Mountain streams overflowed into soggy marshland. If Italian conquest was held off until British assembled greater strength in the east, anything might happen.

## PEACEFUL LONDON:

Is This War?

The Axis air attack on London played on a limited scale while war was being made in the Balkans. Fewer and fewer were the attacks by the Luftwaffe. On one Sunday only a single German plane crossed the channel.

But the British attack on Germanv was not lessened. The British air ministry said the hardest blows of the war were being struck at Berlin railroad centers and power stations. Tons of bombs also were dropped in the industrial Ruhr and at Nazi invasion points in the Netherlands, Belgium and France. One day the German ministry of propaganda and public enlightenment admitted the loss of eight German planes to four British. It was the first time Herr Goebbels admitted anything like that.

Meanwhile London resumed its boast of "business as usual." Subways and trains were running close to schedule, food was arriving in sufficient amounts to prevent closer trimming of the ration cards and stores were open in regular hours.

#### SPEED:

In the Air

G. T. Baker, president of the National Airlines, landed a transport monoplane at Jacksonville, Fla., just nine hours and 29 minutes after leaving Burbank, Calif. It was the fastest west-east crossing since Howard Hughes took off from the same field and landed in New York 10 hours and 34 minutes later. Baker's average speed was 248 miles terview he desires the defeat of an hour. He carried four passengers

## Paying Up

NEW YORK .-- One of the first election bets to be paid off was the one pictured above, in which Ina Ray Hutton, leader of an all-woman orchestra is shown being given a ride around the Astor hotel. Actors Jimmie Dunn and Preston Foster chose the losing candidate but Miss Hutton bet on Mr. Roosevelt.

#### IN THE ARMY: Simple Routine

For trainees now going off to answer the call of the draft, the first five days will be devoted to fitting them into the groove which they will occupy during the next year. During these five days the trainee will go through the operation known as "processing." This includes inoculation, vaccination and blood test. He will be issued a uniform, shoes and blankets; an identification tag will be made out and he will

be assigned a serial number. Also he will be interviewed extensively, and be given an intelligence record. His schooling, athletic ability, hobbies and civilian occupation will be recorded, and he will be offered a special form of life insurance.

When these records are complete his time at the reception center will have been served. The records will be sent to a group of officers who have been specially trained in organizing new battalions and regiments. From perforated cards prepared during the interviews these officers will be able to assemble perfect companies with the proper number of cooks and clerks, send mechanics in civilian life to proper branches of the army and select men with previous experience in organizations like the C. M. T. C. for non-commissioned officers.

Then the trainees will move off to the unit where they are needed and best suited. That unit probably will not be in the same camp as the reception center, but will be the trainee's home for the next year.

#### **NAVY PREPARES:** Ship Buying

chased 113 merchant ships, yachts, tugs, tankers, and other auxiliarv vessels. It is the greatest ship buying program since the World war. Some yachts have been purchased for \$1, including teakwood decks and tile bathrooms. For one commercial freighter, \$7,000,000 was paid.

The navy needs many of these small ships to accompany fighting craft for fueling and servicing, as well as submarine chasers in narrow waters and off dangerous coasts. Nine of the most modern tankers in the world were purchased from the Standard Oil company.

In addition the maritime commission has placed contracts for the construction of 174 ocean-going steamships with a gross tonnage of about 1,900,000. Of these, 47 already are completed, and 95 per cent of the others could be commissioned immediately on an emer-

#### gency. Exercises

Meanwhile it was revealed that units of the fleet are on "schedule exercises" near the French West Indian island of Martinique. Both Secretary of State Hull and the navy department insist there is no connection between the naval activity and the status of the island which has been a matter of concern in Washington since the Vichy government and Germany made arrangements for a joint war effort.

#### MISCELLANY:

¶ Rudolph Leonardi, famous Vienna animal trainer, who often was bitten and clawed by lions, tigers and bears, died from blood poisoning, the result of the bite of a mouse. He was bitten while cleaning a cage and succumbed eight days later.

• Riding a faulty radio beam, a United Airlines passenger plane crashed on snow-covered Bountiful peak, 18 miles from the Salt Lake City, Utah, airport. Seven passengers and crew of three were killed. King Michael, who succeeded to the throne of Rumania when his father, Carol, fled, received a raise of \$160,000 with the job.

¶ Paul B. West, elected president of the Association of National Advertisers, announced that in a recent survey only one member expected less business during the coming year than in this.

Industrial centers which went for Van Wagoner were Detroit, Saginaw, Pontiac, Muskegon, Mon-Crawford (Grayling), Cheboygan counties went heavily for the Demreturns).

Bi-Partisan Control

Results of the November 5 vote indicate that while the governor and lieutenant governor will be democratic, the remainder of the state administration with the sole exception of state treasurer will continue under Republican control.

The legislature will be dominated by Republicans, enough so to give the party a two-thirds majority over possible vetoes.

Harry F. Kelly, secetary of state, and Vernon J. Brown, auditor general, were favorites in the voting. Herbert Rushton, Republican nominee for attorney general, slipped through for a photo-finish margin.

The state administrative power, the so-called "executive committee" for state business, will be divided 50-50 between Democrat and Republican office-holders. With an individual less popular and less persuasive than Mr. Van Wagoner, the split might prove nearly disastrous. It will be recalled, however, that the highway commissioner was remarkably successful in dealing with Republican legislators in

Another result of the election is urban forces. For a generation at experience.

Willkie Victory

The Gallup poll through the Intitute of Public Opinion had forecast a 51-49 victory in Michigan for Wendell L. Willkie. And the final returns vindicated the prediction to a fraction of 1 per cent.

The Willkie plurality, small as t was, served only to emphasize the significance of the Van Wagoner victory which was a triumph of independent voting and not, by any stretch of the imagination, a Roosevelt "coat-tail" victory.

The democratic nominee for governor led the president by aproximately 30,000 votes.

Here are some of the counties which gave a majority to Willkie and yet turned to the Van Wagoner column: Saginaw, Oakland, Monroe, Manistee, Crawford (Grayling), Calhoun (Battle Creek), and Cheboygan in the Lower Peninsula and Iron and Keeweenaw in the

Upper Peninsula. Because of the Republicans' "anti-boss" fight at the Grand Rapids convention in September, observers have scanned the returns carefully to detect any sign of a bolt in Wayne or Kent Counties, or aunt. even in Genesee County. The Roosevelt-Van Wagoner and Willkie-Dickinson votes were nearly been some rumors, prior to the and election, that a "trade" was under City. way to sell out Dickinson for Van Wagoner in favor of Willkie. Faced with a pending crisis in the trial of Mr. Hitler, the voters turned to President Roosevelt because he was strong in years of experience in handling national affairs.

Michigan's part in national defense is perhaps greater than any other state other than New York; defense contracts have exceeded the half billion mark and are still mounting. The same trend favored Van

#### 'Fashion-Wise' Will Watch New Trends

#### Colorful Tweeds Popular For Fall Wear.

#### By CHERIE NICHOLAS

Watch for gorgeously colorful tweeds in the fashion picture this fall. Watch also for the progress of wool jersey in every phase of women's apparel. It's black, brown, dark green and natural for daytime wear and it's turquoise, frivolity red and pastel tweeds for evening.

the fitted long torso look. Jackets run from 23 to 28 inches. Every little dress has a jacket of its own. This is true not only of daytime fashions, but evening as well. Black wool jackets with velveteen accents are good style.

Watch for long coat ensembles that have the elegant look because of their handsome materials and the simplicity of their styling. Most of them are collarless and go unfurred, serving as a perfect accompaniment to separate fur pieces. Watch also for the young-looking costume suits that top wool dress with chic fur

Watch for the new slim silhouettes under the terms, pencil, tubular and so on. Look closely and you will discover subtle, deftly concealed pleats or fullness sufficient for ease of motion. It's the designer's way of leading on to ultimate slimness for skirts, which "they say" is inevitable in fashion futures.

After the triumph of black in the mode has reached the limit, watch for a stampede of striking eye-delighting color. Watch for tangerine, a new orange-red called "frivolity" -wonderful under a brown fur coat or with a brown velveteen suit. Watch for the new black cherry color, for mossy greens, smoky grays, flaming reds and coppery browns. Watch for contrasting linings as found in high fashion coats and suits. Watch, too, for contrasting yokes or sleeves and contrasting tops in two-piece dresses.

Watch for the matching fabric hat. Especially be on the "qui vive" to observe the daring fur hats that are so original and extreme they often provoke a smile. Be that as it may, you will be seeing an endless procession of unique and dramatic fur headgear this season.

#### Glamour Belts

Add a glamour belt to the dress is a workable formula that is bringing the perfect answer this season in terms of chic and charm. From Criterion, eminent belt designer. of which tunes to costumes as pictured here. The patriotic belt at the top with its gold-encased miniature flag done in jeweled American stars and stripes makes handsome accompaniment to a dress tailored

with classic simplicity. Centered in the group, a slim sheathlike belt of smooth gold kid with leaf-shaped buckle adds eloquent accent to an evening frock of | black moire. At important dates and functions you can appear wearing a high-necked velveteen dress with a wide crushable suede belt that has a buckle in glittering gold and suede such as pictured below in the group.
