

Rural Students and Teachers to Attend Games Tonight

Complimentary Tickets Have Been Sent to Rural Schools in This Area

The Cass City High School Athletic department has extended invitations to all rural students and their teachers to attend the Cass City vs. Sebawaing basketball game here on Friday night, Feb. 1. Complimentary tickets have been sent to all rural schools in this area.

The evening's entertainment includes two basketball games beginning at 7:30 plus the high school 60-piece band. Athletic Director Jack London expects a large representation of rural students to witness the contest.

The Cass City Redhaws suffered their first conference loss at the hands of undefeated Caro on Friday night by the close margin of 32-31. The game was played at the county seat.

In a contest which was a "thriller" from the opening whistle, the lead changed hands many times. Cass City's big man for the evening was "Whitey" Strickland with 10 points. Caro's Nowland and Hollitz garnered 13 points apiece.

Score by quarters:

Cass City	7	7	9	8-31
Caro	7	9	10	6-32

Cass City's second team trounced Caro's previously undefeated seconds by a score of 21-14.

Bill Weatherhead and Don Karr of the Redhawk team played outstanding ball for the winners.

Marie Hill Is Bride Of Francis Clara

A pretty wedding took place at the Mennonite parsonage on Thursday, January 24, when Miss Marie Hill, daughter of Mr. and Mrs. Howard Hill, of Cass City, became the bride of Mr. Francis A. Clara, son of Mr. and Mrs. Arthur Clara, of Gagetown.

The bride wore a dress of powder blue, with black accessories and the bridesmaid was dressed in brown and gold, with brown accessories.

The attendants were Mr. Eldon Hill, brother of the bride, and Miss Allene Stuart of Uby, Michigan. The ceremony was performed by Rev. G. C. Guiliat.

After the ceremony, supper was served at the home of the bride's parents. A number of relatives and friends were present. The young couple will leave on a short trip, and after their return will make their home near Gagetown.

The groom spent 18 months in U. S. N. R. of which he spent 8 months overseas. He received his discharge November 12, 1945.

Jason Leitch and Miss Dickinson Marry

At the Presbyterian manse at Cass City on Saturday, Jan. 26, Rev. Melvin R. Vender conducted the ceremony which united in marriage Jason Leitch, son of Mr. and Mrs. Leitch, of Uby, and Miss Dorothy Dickinson, daughter of Harold Dickinson of Cass City. The rites were read at one o'clock.

James D. Leitch of Uby, brother of the groom, and Miss Olive E. Ertel of Cass City were the attendants.

The groom is a veteran of World War II and the bride is a graduate of Cass City high school. They will make their home in Pontiac where Mr. Leitch is employed.

SENIOR SCOUTING PROGRAM EXPLAINED

The third meeting of the Tuscola District Scout Leaders Training course at Cass City Wednesday, January 23, was highlighted by showing the movie and sound film, "The Patrol Method," which brought forth in detail actual operation of a good troop.

The junior officers from several of the troops in Tuscola county were also in attendance.

The course members witnessed group participation games by Troop 194, Cass City.

The Senior Scouting program and how it helps Boy Scouting was explained and demonstrated by Harold Ostley, course instructor.

New members attending were Ellis Karr, Cass City; Gerald Rook and Norman Curtis, Caro; and Mickey Stein, Reese.

Noted Negro Minister To Speak at Two Gatherings Here

Rev. Chas. A. Hill, chairman of the Race Relation Committee of the Detroit Council of Churches, will speak twice in Cass City on Sunday, Feb. 10.

At the morning service, at the Methodist church, his subject will be "No Difference." At three o'clock that afternoon, he will give an address on "Harmonizing Our Practices with Our Professions" at a community mass meeting arranged by the Cass City Council of Churches.

Rev. Mr. Hill was born and reared in Detroit, educated in the Detroit school system, and is a graduate of both the Cleary Business College and the Lincoln University of Pennsylvania, and is president of the National Association for the Advancement of Colored People. He has pastored the Hartford Ave. Baptist church of Detroit for more than a quarter century.

Dr. H. L. Nigg to Be Associated with Dr. H. T. Donahue Here

Dr. Herbert L. Nigg arrived in Cass City on Monday and will be associated with Dr. H. T. Donahue as a partner with offices in the Pleasant Home hospital.

Dr. Nigg returned home late in December from the South Pacific. For four and a half years, he served with the Army, going overseas with the 92nd Hospital Unit, which was stationed in New Guinea, Manila and later in Japan. He was commissioned Lieutenant Colonel.

Dr. Nigg will be remembered as having assisted Dr. Donahue here for two summers. He was graduated from the University of Michigan Medical School and was a resident physician on the surgical staff at Grace Hospital in Detroit at the time he entered the Army.

Mrs. Nigg and their two sons will move to Cass City in the near future.

M. C. Ransford Heads Tuscola Co. Red Cross Chapter

Treasurer Frederick H. Pinney and Mrs. Wigley, Secretary, Were Reelected

At the annual meeting of the Tuscola County Chapter of the American Red Cross held at Caro Wednesday afternoon, Maurice C. Ransford of Caro was elected chairman; J. A. Gallery of Caro, vice chairman; Mrs. Norman Wigley of Vassar, secretary; and Frederick H. Pinney of Cass City, treasurer.

Mrs. Wigley and Mr. Pinney were chosen to succeed themselves. Ben H. McComb of Caro, retiring chairman, was relieved of his responsibilities and Guy W. Landon of Cass City as home service chairman of the chapter, was retired, both at their requests. They have served most faithfully and well during the war period in Red Cross activities as they relate to veterans and their families.

W. Emerson Scott, war veteran, who was secured a few months ago as executive secretary of the chapter, was engaged to continue in that position for the coming year. He devotes his full time and the chapter will undertake more Red Cross activities this year because it will not be obliged to depend entirely on volunteer help as has been necessary in past years.

Reports were presented at the annual meeting by Mrs. Geib of Caro, production chairman; Mrs. Schmidt of Unionville, chairman of the Junior Red Cross; and Treasurer Frederick H. Pinney.

W. C. T. U. Completes Lap Robes for Percy Jones Hospital

The meeting of the Woman's Christian Temperance Union, which was held Friday afternoon with Mrs. Arthur Steward, was largely attended. Mrs. Walter Schell conducted the devotions, using Habakkuk 2:12. The program was the reading of legislative laws by Mrs. Mary Strickland and a round table discussion of Sunday school and church attendance. The organization is stressing the raising of funds for educational work.

Tuesday of this week the local group met with Mrs. B. A. Elliott to work on lap robes which will be donated to Percy Jones hospital. Five robes have already been completed.

The February meeting of the W. C. T. U. will be held with Miss Gladys Tuckey.

WEEKLY NEWS ANALYSIS

Truman Faces Fight on Liberal Legislative Program; Russ Hit British Diplomacy at UNO Meet

Released by Western Newspaper Union.
EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

One of 75,000 steel workers to walk out of Chicago area plants, Hugh R. Patterson leaves picket line to warm up near stove.

STATE OF UNION:

Bickering Ahead

Yielding no ground to conservatives in and out of his own party, President Truman proposed a sweeping liberal legislative program for congressional enactment during the present session.

Despite Mr. Truman's brave show, however, immediate congressional reaction indicated that he faced a fight every inch of the way on measures embracing labor, housing, social security and public health insurance, international loans, public works, military conscription, farm loan programs and broadened crop insurance.

Of all the President's major proposals, retention of price control machinery to head off postwar inflation and extension of the second war powers act to continue emergency authority, were conceded comparatively smooth sailing.

A lively fight loomed over the President's labor proposals, including creation of fact-finding machinery to establish the basis for settlements of disputes; increase of the minimum wage to 65 cents an hour, and prohibition of discrimination in employment.

Also foreshadowing a struggle were Mr. Truman's requests for establishing price control for old and new houses, creation of a permanent national housing agency, and continuation of subsidies for low-rent dwellings.

The President's appeal for compulsory health and disability insurance was another proposal that promised to stir up a congressional tempest, what with the additional taxation that such a program entailed and the medical profession's strong resistance on grounds that it represents a step toward state socialism.

In the field of international relations, Mr. Truman's recommendation for the granting of a 4 billion 400 million dollar loan to Britain was due to come under the fire of critics deploring the liberal terms offered. Congress also remained cold to his plea for military conscription, if volunteering fails, to preserve the might of the U. S. and influence post-war diplomacy for peace.

UNO:

Feelings Ruffled

Long suppressed, ill feeling between Britain and Russia flared into the open at the first meeting of the United Nations organization in London over the question of occupying smaller nations in the middle and far east.

The trouble started with Iran's appeal to UNO's security council to look into Russian activities in the northern sector of the country where the Reds reportedly have been encouraging separatist movements and blocking government efforts to stamp out the uprisings. Though Britain did not actively figure in Iran's action, Russia felt that the empire, with vast oil interests at stake, had inspired the plea.

Retaliating, Russia asked the security council to investigate and take action on British occupation of Greece and the East Indies, where Tommies have been retained to restore order. Declaring that Britain's presence in those countries was designed to influence internal politics, the Reds said that such intervention by reactionary elements were not uncommon.

Retaining their traditional diplomatic aplomb, the British were quick to answer the irate Russians, asserting that while they were in both Greece and the Indies at the request of the respective govern-

ments, the Reds had been asked to leave by Iran.
British occupation of Greece has long irked Moscow, the Tommies' presence there serving to maintain a balance between leftist and rightist forces and also assure the empire of a friendly government in the peninsular country lying above the strategic Suez canal.

Prior to British occupation, the left-wing Elias forces, which had waged an underground battle against the Axis, constituted a major force and stood on the threshold of attaining internal control despite violent opposition from rightist elements.

WAGES—PRICES:

Tug Behind Scenes

As federal seizure of packing plants loomed, government officials shuffled behind the scenes over the question of increasing prices to offset wage advances, with OPA Administrator Bowles opposing the move and Secretary of Agriculture Anderson advocating it.

While Bowles fought tenaciously against price increases in an effort to "hold the line" against inflation, Anderson vehemently deplored the waste of both meat and feed during the strike of 263,000 CIO and AFL packing house workers at major plants.

With the big operators asserting that they faced a Chester Bowles squeeze in submitting to union demands without compensatory ceiling hikes, the situation was of unusual interest to livestock producers, since the possibility existed that buyers would bid down cattle if no other means prevailed to relieve the cost pressure.

Following the rejection of an original government offer of increasing the price on meat purchased by the U. S. because of no assurance of volume, Mr. Truman and aides sought to overcome the objection by guaranteeing to buy a certain quantity. The administration also weighed an increase in civilian prices.

Stubbornly leading a stabilization fight, Bowles had also bucked the administration's consideration of substantial price increases to the steel industry in the government's efforts to settle a strike which threatened to cripple the entire reconversion program, already 90 per cent complete.

While the government refused to concede that steel had been promised substantial ceiling boosts to offset higher wages to the CIO-United Steel workers, it was understood that Mr. Truman was ready to grant the industry a \$4 a ton hike, \$7 a ton having been asked. Bowles had held out for a \$2.50 a ton raise in the attempt to limit prices on items vital to the manufacture of numerous civilian products.

Meanwhile, both industry and CIO girded for an all-out battle over the wage question, with the union hammering the companies for refusal to accept President Truman's compromise offer of an 18 1/2 cents an hour raise to maintain high take-home pay, and the corporations insisting that their proposal for 15 cents an hour would boost wages to over \$50 per week.

FRANCE:

Old Game

Long known for its turbulent political history, France has shown no signs of reformation in the postwar world, with Gen. Charles de Gaulle's resignation as president of the provisional government pointing up the situation.

Between World Wars I and II, French premiers, who held the strings of government, came and went with the seasons, falling out whenever the chamber of deputies refused to support their policies. Though it was planned to avoid similar distresses in the new republic, an all-powerful congress stripping the chief executive of his chief authority has been favored, leaving control open to the representatives.

De Gaulle's resignation was said to have partly stemmed from protest against the proposed arrangement, and, in emphasizing the possibilities of such a setup, against the Communists and Socialists combining to curtail his military program.

JAPAN:

To Try Big-Shots

With Allied trials of Japanese war criminals scheduled for March, General MacArthur took steps to assure the quick and speedy judgment of suspects, capitalizing on experiences drawn from previous cases conducted in the Philippines and Yokohama.

In an effort to circumvent the destruction of records and the reluctance of many witnesses to testify against defendants, MacArthur ordered the admittance of such evidence as letters, diaries, sworn or unsworn statements and reports issued by individuals possessing personal knowledge of incidents.

To be made up of nine members, representing the Allied powers, the tribunal will judge crimes against peace, including the plotting and conduct of wars of aggression; crimes against humanity, ranging from murder to deportation of civilians, and finally conventional war crimes, including violations of the customs of combat.

Because of the general campaign to make him the scapegoat of the war, Hideki Tojo, who failed to take his life when first apprehended by American troops, will rank as the star defendant of the approaching trials.

Vets Rap Costly Attack

Despite the vehemence of their demand, congress remained cool to the resolution of vets of the 36th division calling for an investigation of the tragic Rapido river operation in Italy in January, 1944, which resulted in 2,900 casualties.

In asserting that the Germans held all high ground before the river and had every inch of the terrain covered with fire, the resolution condemned Gen. Mark Clark for ordering an attack against the advice of his subordinates, and called for the correction of a system that permitted "inefficient and inexperienced officers to attain high command."

Quick to spring to Clark's defense, the war department declared that the Rapido operation was ordered by Gen. Sir Harold Alexander of the 15th army group as a diversionary measure to cover the Anzio landing on January 22. Though admitting the rout of the U. S. troops after severe fighting, officials said that the attack succeeded in pinning substantial German forces down and deflecting heavy pressure on Anzio.

NAVY:

Speed Releases

Contrasting with the army demobilization slowdown, the navy disclosed that it would speed-up releases to make an additional 191,000 enlisted men and officers eligible for discharge in March and April.

With the additional releases, the navy will have separated two-thirds of its personnel by April, it was said. By early February, the total demobilized will have reached one and one-half million men.

Effective March 15, point requirements for enlisted men will be cut to 32 and to 31 on April 2, for commissioned officers to 38 and 37 respectively; for enlisted women to 21 and 20, and women officers to 27 and 26. In addition, point requirements will be pared for specialists who were given higher discharge scores because of their essential services.

Under the navy's system, points are accumulated at the rate of a half point for each month of service and each year of age, and one-fourth point for each month of overseas duty. Ten points are credited individuals with one or more dependents.

Briefs...

An increase in grain shipments to prevent immediate widespread starvation, and materials loaded now to help the planting of spring crops, are two of the most urgent needs of the European countries receiving UNRRA aid.

Employment on farms on January 1 was the lowest in the 21 years of record. The number of family workers was down 2 per cent and hired workers 8 per cent.

New Pasteurization

Milk companies have found that they can pasteurize milk in a few seconds by passing supersonic vibrations through it. The bacteria are slain (beaten to death by vibration) in a few seconds as effectively as they are slain in the conventional method of heat pasteurization, which takes 30 to 40 minutes. Milk can also be homogenized by supersonic vibration, the fat globules are broken up and the resultant fluid is of a single, uniform consistency.

Fowl Fare

Muskrat meal, fed to baby chicks in Louisiana, gave results superior to ordinary meat scraps, shrimp and fish meals. On a chemical basis, 8 pounds of muskrat meal has the same amount of crude protein as 10 pounds of meat meal and it gave greater gains per chick up to 8 weeks old. Broilers fed rations containing dried muskrat were served to 26 families who found no objectionable flavors in the meat.

U. S. Meat Production Tops 22 Billion Lbs.

More than 22 1/2 billion pounds of meat were produced in the United States in 1945, with about 400 federally inspected plants furnishing 5 billion, 50 million pounds of meat for the army, lend-lease, other relief needs and about 10 1/2 billion pounds for the domestic civilian trade.

About 83 million meat animals were dressed in federally inspected

meat packing plants during the year. Compared with operations in 1944, meat animals coming to market in 1945 were fewer by 30 million hogs, 700,000 fewer sheep and lambs and 800,000 fewer calves. However, there were 700,000 more cattle dressed. Meat packers and other slaughterers paid out more than five billion dollars to farmers and ranchers for live animals.

MICHIGAN AND THE OLD NORTHWEST

By Luke Scheer. Edited by Milo M. Quaife.

On May 18, 1675, beside the blue inland sea, an historic apostleship was ended.

The approximate death site has been marked and receives many visitors.

In 1677—two years later—Indians removed Marquette's remains to St. Ignace.

Today the site highlights a visit to modern St. Ignace, named for the mission.

9% REFUND

and

New Lower Rates

TO ALL EDISON ELECTRIC CUSTOMERS

The Detroit Edison Company announces, with the approval of the Michigan Public Service Commission, a refund of more than \$16,000,000. This refund is to be distributed to all of its electric service customers on the basis of approximately 9% of their net bills for electric services during 1944 and 1945.

And in January 1946, new electric rate reductions became effective.

THE REFUND

During 1944 and 1945 The Detroit Edison Company paid more than \$16,000,000 into a fund impounded in the custody of the Court. Most of this money (about six-sevenths) would have been required to pay Federal Wartime Taxes. But the Court has now ruled that this money is to be returned to all electric customers on a uniform basis, as directed by the Michigan Public Service Commission. The refund will be made by a Trustee appointed by the Court.

More than 12,000,000 separate calculations will be required to determine the exact refund for 1,150,000

customers. Refund checks will be mailed starting in February.

All refunds will be figured according to electric service bills. All types of customers—residence, farm, commercial, industrial and municipal will receive their proportionate share.

TYPICAL RESIDENTIAL EXAMPLES

Average Two Months' Bill	Approximate Amount of Refund For Two-Year Period
\$ 2.00	\$ 2.18
5.00	5.46
7.50	8.19
10.00	10.92
20.00	21.84

LOWER RATES

The Company also announces new and lower electric service rates, made possible by lower Federal taxes and by an expected increase in the use of electricity.

These lower rate schedules, bringing savings to many farm, residence, commercial and industrial users, began to take effect in January of this year. Future advertisements will tell about them.

QUESTIONS AND ANSWERS as to how REFUNDS will be made

Q. Is it necessary to apply to The Detroit Edison Company for this refund?

A. No. A complete record of all customers' bills is in our files.

Q. Who is entitled to a refund?

A. All customers including residential, farm, water heating, commercial, industrial, and municipal, who have received electric service from The Detroit Edison Company for any period between Jan. 1, 1944 and Dec. 31, 1945.

Q. What should I do to insure my receiving my refund check?

A. If you do not have our electric service in your own name now, or should move before June, 1946, be sure the Company has your correct forwarding address. Please leave this address at any customer office or mail your new address to The Detroit Edison Company, 2000 Second Avenue, Detroit 26, Michigan. Otherwise, there is nothing you need to do about it.

Q. How much refund will I get?

A. The exact percentage cannot be determined until the Trustee appointed by the Court has approved the details of the plan. As a general guide, your refund will be about equal to

your average bill for two months' electric service, provided you have had service for the entire two-year period.

Q. How is The Detroit Edison Company able to make this refund?

A. This money comes from a fund set aside by the Edison Company and impounded by the Court. About six-sevenths of it was collected to pay Federal Wartime Taxes. About one-seventh was taken from the Company's earnings during 1944 and 1945.

Q. When will I receive this refund?

A. Sometime after February, 1946 and before June, 1946. It requires individual processing of 12 million electric bills to issue more than 1,150,000 refund checks. So the first refund checks cannot be issued before Feb. 1, 1946. They will be mailed out at the rate of 1 a day.

Q. If I have received service at more than one address during this period, will I receive one check covering all addresses?

A. No. A separate check will be issued for each address at which you received service. These checks will be mailed at different times.

Q. To what address will a refund check be mailed?

A. All refund checks will be mailed to the address at which electric service was supplied, unless you have given the Company your forwarding address.

Q. Can my refund be credited to my current electric bill?

A. No. All refund money is being paid by the Trustee. To apply the refund against your current bill would require a larger staff and additional bookkeeping which would increase the cost of making the refund.

Q. Can I call The Detroit Edison Company and find out the amount of refund I will receive?

A. Sorry, no. Because of the millions of records involved, it will be impossible to discuss individual accounts until after your refund check has been mailed.

Q. What should I do if I do not receive my refund check by June 1946?

A. At that time call The Detroit Edison Company, and ask for the "Refund Department." This Department will investigate your case and get the refund to you.

Gala Social Season Calls for 'Dress-Up'

Rich Fabrics, Furs, Jewels
Give 'That Opulent Look.'

By CHERIE NICHOLAS

Not for years have women been in such high mood to dress up and go places as they are this winter. Now that the holiday festivities are on and as brilliant a social season as we have seen for years is in full swing, the call for rich and beautiful apparel resounds throughout the length and breadth of the fashion realm.

One of the signs of the times that a new era of elegance is upon us is the return of the long evening dress. It is here in all its glory, made of rich fabric and styled in great-lady manner.

Then there are the beautiful furs which are simply fabulous this year. This applies to daytime coats as well as evening wraps. Outstanding in luxury furs is the long cape stole of white ermine. To wear with unfurled daytime costumes milliners are turning out ravishing fur hats with matching fur bags, belts and halos. New is the detachable peplum of fur that gives the effect of a large fur pocket at each hip. You can even get fur buttons, bows and hatpins.

The new evening blouses are sumptuous. Truly exquisite is a blouse of white crepe, hand-painted with a richly colored Persian patterning that scintillates with the glitter of multi-color sequins scattered throughout the design. There's enchantment, too, in the beautiful blouses done in pastel satins. These have the inevitable glitter accent, and for above-table glamour they are matchless.

When it comes to jewelry, a gold rush is on. The opulent look is seen in necklaces that range from chokers and necklets to most elaborate many-strand effects. They are designed to be worn with the simple close-fitting necklines which are so new and so chic in the daytime mode. These range from chokers and necklets to elaborate many-strand effects. Much attention is given to sleeve jewelry. The swank gesture is to adorn the forearm from wrist to near elbow with a series of bracelets or else to wear a single important bracelet.

Headwear has gone dramatic. Fabulous fur hats vie with gorgeous feather creations. Hairdress fantasies include sequin embroidered headbands and the latest is made of fur. Belts have become a real glamour theme. The jewel-embroidered ones are that glamorous they dramatize the entire costume.

Chic Accessories

With beautiful clothes such as the present brilliant social season calls for, there must be beautiful accessories. For the 'lovely lady' look choose a handsome ribbon choker with an exquisitely wrought pendant, as here shown. You will treasure this pendant for it is distinctive and can be worn as a brooch. It is designed in gold and sparkles with jewels. Elegant black suede gloves will look more elegant if you group several handsome jewel scatter-pins up the forearm as pictured. In this instance, each pin is a bronze green beetle with glittering jewel eyes and other inset colored stones.

Fads and Fancies

Wide soft sashes tie about the hips of siren-slim gowns with huge bow at side.

Newest jewelry dramatizes gorgeous sunburst motif in pendants, pins and earrings.

Jet beads with gold metal links and all-jet earrings make an effective ensemble. There is quite a flair on this winter for black with gold. Men carried out for the entire costume.

WORTH TALKING ABOUT

In a town in the wild and woolly West a boy reached the age of 14 without ever having spoken a word. One day he was loafing around the corral where they were branding calves, and getting in the way of the man who was handling the branding iron, he got burned pretty badly on the seat of his pants.

As he felt the hot iron, the dumb lad shouted: "Ouch!" There was terrific excitement, and the man who had burned him cried: "A miracle! Dummy talked!" But the lad spoke again. "Miracle nothing!" he said. "I just never had nothin' to say before."

Easily Fixed

Harry—Ouch! I bumped my crazy bone!
Carry—Oh, just comb your hair over it, and the bump won't show!

Clear Thinking

Jill—Bill, what makes a man give a woman a diamond ring for an engagement present?
Bill—The woman, my lass!

CHANGE THE LETTERS

Harry—Waiter, I've found a needle in my soup!
Waiter—Sorry, sir. It's just a typographical error. It should have been a noodle.

Not So Big

Mrs.—My engagement ring has always reminded me of a certain state capital.
Mr.—What state capital?
Mrs.—Little Rock.

On His Last Legs

Jill—How do you feel now?
Phil—Terrible; I feel as if I was going to die.
Jill—You can't die in here, this is the living room.

Man of Courage

Harry—Will you marry me?
Holly—You'll have to see my mother first.
Harry—I've seen your mother, and I still want to marry you.

Bad Memory

Mr. (leaving for work)—Dear, have you seen my hat? I've looked all over for it.
Mrs.—Why it's on your head!
Mr.—So it is. It's a good thing you saw it or I'd have left the house without it.

Quick Change of Mind

Wife (on phone)—Will you stop at the store on your way home? You know which one I mean?
Hubby—Yes, where they have that pretty blonde?
Wife—Never mind, I'll get it myself!

FREAK OF NATURE

Mrs. (reading from paper)—They've found an old hen with two hearts.
Mr.—I played bridge with her last night.

Thorough Reader

Jill—Mercy, are you still looking at those comics?
Bill—Sure, Jill, how else can I get my Funnies' worth?

Careful Phrasing

Bill—Can you lend me a dollar?
Phil—When I get back from town.
Bill—When are you coming back?
Phil—I'm not going.

Always Truthful

Boss—I don't quite get it, Jones. You had yesterday off for your mother-in-law's funeral, and I met her down town today, looking very healthy.

Jones—But I didn't say she was dead, sir. I just said I'd like to go to her funeral.

Said With Feeling

Ted—These modern girls certainly dress fit to kill!
Ned—Yes, and they cook the same way!

Maps Policy to Restore Reich

U. S. Hopes to Put Germany
Back on Its Feet Two
Years Hence.

WASHINGTON.—If this country has its way, beaten Germany will be back on its economic feet two years hence, able to pay its own way and to raise the living standards of its people.

This is the long-range objective of American policy toward the Reich as laid down by the state department. It comprises a middle ground between "hard" and "soft" peace proposals.

To carry it out, however, the United States and the other Allies will have to provide funds — perhaps hundreds of millions — to permit Germany to import her necessities over the next two years.

The state department made public the U. S. policy by releasing the text of a statement prepared at the request of the war department for guidance of American occupation authorities.

Interprets Potsdam.

The statement, which also was sent to the governments of Russia, Britain and France, constituted the first detailed interpretation by any power of the general policy for Germany produced at the Potsdam Big Three meeting in August. American officials were unwilling to predict how the other three powers might receive the declaration.

They said, however, that the American plan was based on the assumption that Germany would retain its present boundaries, including the industrial Ruhr and Rhineland.

This assured opposition from France, which has insisted that those two zones be stripped from Germany.

In a supplementary statement on the policy declaration, Secretary of State Byrnes said three stages would be involved in Germany's return to "normal."

Four Allied Aims.

In the first of these, lasting until sometime next spring, Byrnes listed four Allied aims:

1.—To prevent mass starvation in Germany—when necessary, by increased imports from the United States.

2.—To increase "to the greatest possible extent" the exports of German coal to countries formerly overrun by Germany.

3.—To complete the four-power reparations agreement by February 2, 1946, and start the machinery for carrying it out.

4.—To establish German administrative agencies in finance, transport, communications, foreign trade and industry.

In the second period, lasting from the spring of 1946 to February 2, 1948, a gradual German recovery is envisaged.

As plants are removed for reparations, others will be earmarked for permanent retention by the Germans; German industry will revive.

10,000 Russians Enslaved

Daily, Crimes Court Told

MUENBERG, GERMANY.—Conquered Russians were shipped into slavery in Germany at the rate of 10,000 a day, American prosecutors disclosed at the war crimes trial of 21 leading Nazis.

Official German documents filed with the international military tribunal named Alfred Rosenberg, official Nazi "philosopher," and Fritz Sauckel, SS general and Reich labor commissaries, as the leaders designated by Adolf Hitler to carry out a ruthless forced labor program.

Hitler ordered forced labor for 2,000,000 Russians and Poles in October, 1942, and as additional 1,000,000 in March, 1943, the evidence disclosed.

With other documents, Thomas J. Dodd, assistant U. S. prosecutor, implicated another defendant, Albert Speer, German munitions minister, as aiding Rosenberg, Sauckel and Frank in the German slave labor program.

Throne's nine stars for campaigns in Algeria, Tunisia, Sicily, Naples, Foggia, Rome-Arno, Normandy, northern France, the Rhineland and Central Europe, are believed to be a record number for any one operations theater.

He enlisted in 1936, served 50 months overseas with the 3rd division, was wounded and captured at Cisterna, Italy, in February, 1944.

Intruder Clears Out

This House in Hurry

SPRINGFIELD, ILL.—Although an intruder broke in and chased the family out, windows and doors remained wide open for several hours at the home of T. P. Sullivan, Illinois director of public safety.

The unwelcome visitor, killed and removed by state police, was a skunk.

Big Show-Off

Della—Is Tom conceited?
Bella—Conceited? Say, he joined the navy to let the world see him!

WATER EVERYWHERE

Mrs. Venice—How did you like Venice?
Mrs. Jones—We only stayed there a few days. The place was flooded.

Looking Ahead

City Boy—Some day I'm going to be rich.
Farm Boy—Money isn't everything.

C. B.—Well, I'm not selfish. I don't want everything.

Hard Up

Sonny—That couple next door must be very poor.
Mother—Why do you say that?
Sonny—Because they make such a fuss over their baby swallowing a quarter.

IN LOVING memory of our beloved husband and father, Benjamin W. Loomis, who passed away 11 years ago today, Feb. 1.

When evening shades are falling
To our hearts there comes a longing
If he only could come home.
Friends may think we have forgotten
When at times they see us smile,
But they little know the heartache
Our smiles hide all the while.
His loving wife and children.
2-1-1

IN MEMORY of our dear husband and father, who passed away seven years ago, Feb. 3.

God calls,
And may not be denied
With him our loved ones go away
To live in Heaven by His side
While we must linger here to pray.
So we must watch and bide the day
Counting not the pain nor cost
Until God calls us on our way
To meet the ones we think we lost.
Some day, till then we hope and pray,
Some day, till then we watch and wait,
Until God ushers in the day
For us to enter Heaven's gate.

North is South
Magnetically speaking, mariners throughout the centuries who have set a northward course by heading where the compass needle points have really been traveling "south," according to Ships magazine. The compass needle is a magnet; so is the earth. In magnetic forces, opposite poles attract. Thus the earth's pole which attracts the north-seeking end of the needle is actually a south pole. We started calling it the north magnetic pole simply because it happened to be near the globe's geographic north.

Another Reason Why!

Another reason why the United Dairy Farmers was created instead of supporting some other farm organization already in existence, was the ever pressing need for a militant farm organization. That the other farm organizations are unable to serve their membership in this capacity, is best set forth in the following testimony given in behalf of other farm organizations by Mr. C. B. Smith, Chief Officer of Cooperative Extension Work in Agriculture and Home Economics of the Department of Agriculture of the State of Michigan, before the investigating committee, in which he says:

"All other farm organizations differ in many respects. They are not created to meet any special emergency or to correct any injustice."

The United Dairy Farmers is a militant farmers' organization, standing ready to all times to use every honorable means to correct any injustice to the farmer.

After the second week of bowling, there are five teams fighting it out for first place and it appears that this schedule is going to produce some very good teams as they are evenly matched. Frank Novak's squad registered the highest three game totals for the week when they rang up 2640. They rolled a single game of 981 which

is big league stuff. Larkin's team also slipped in a 920 game which helped them to a three game total of 2552 which was second high for the week. A couple of individuals came up with 600 series when Frank (Hook Ball) Novak posted games of 236, 200, 188 for 624 and Buzz (Lefty) Wallace bowled games of 197, 225, 193, for 615 pins. Other bowlers who hit the honor roll were Eddie Fritz 584, McClorey 576, Larkin 568, Downing 566, F. Fritz 563, and Knoblet 559.

Jim (Slim) Milligan made his debut into the league last week, having missed bowling in the first schedule but he came up with pre-season form to help his (Fritz) team win a couple games and get himself an average of 177 to place second in the list for the high 10 bowlers. We want to mention a few who have done exceptionally well since the New Year came in. Frank Novak has six game totals of 1199 for 200 average, Glen McClorey 1172 for 195, Eddie Fritz 1127 for 188, Fred Knoblet 1125 for 187, and Wes Downing 1114 for 186. Games of 200 and better were rolled by F. Novak, 236-200, F. Fritz 235, Hoffman 229, Wallace 225, DeFrain 214, E. Fritz 213, Downing 211, A. Freiburger 208, McClorey 204,

or increase its aid to local governments. The state's tax study commission has recommended reduction of the 3 per cent sales tax 3 to 2½ per cent, permitting municipalities if they choose to levy ½ of 1 per cent on local retail sales.

Second, Governor Kelly is adamant to pressure of local governments, insisting that the needs of the state — schools, hospitals, welfare, for example — should have the right of way over increased state aid to local governments.

One cause for the predicament the administration now finds itself in is the fact that the legislature has never established a depreciation fund for public buildings. Once a hospital or school building is constructed, no provision is made for its ultimate replacement.

Corporation practice of providing a depreciation reserve for needed construction is not followed by the State of Michigan. It has been estimated that approximately \$5,000,000 annually is needed for public work construction by the state. During the depression the state treasury was running in the red and no public works could be undertaken; now when it is in the black, materials are not available and costs are sky high.

If the state does not set aside money now for these postponed and delayed public works, how can it be expected to do so later on when welfare needs may absorb any surplus in the state treasury and the

auditor general may be mournfully proclaiming a deficit instead of the present surplus?

Louis M. Nims, commissioner of revenue, reports that property taxes pay 50.9 per cent of the state and local tax dollar, computed for the year 1944-45, with the retail sales and use tax bringing in 26.2 per cent. Other sources of revenue include gasoline tax, motor weight tax, railroad and public utility taxes, alcoholic beverage taxes, corporation tax and inheritance tax.

The fact that 7,903 units of local government — 83 counties, 1,265 townships, 173 cities, 303 incorporated villages and 6,076 school districts — all receive financial support from the State of Michigan is not news to taxpayers.

The entire proceeds of local property taxes are retained for expenditures of local governments. No state tax on property is now levied, the sales tax replacing this form of taxation.

Quoting the statistically-minded Mr. Nims of the department of revenue: "When Michigan consumers dig down into their pockets for their sales tax pennies and contribute a total revenue of nearly one hundred million dollars as they did last year, they should ask—and they ought to know — what happens to all this money. Who spends it? For what purpose is it spent?"

"The Department of Revenue, of course, is charged only with the duty of collecting taxes. The responsibility of determining how the proceeds shall be expended rests upon the chosen representatives of the people — the Legislature. The

sales tax revenue is deposited daily in the state treasury where it becomes a part of the state general fund. The money can be withdrawn and spent only as authorized by the Legislature in appropriation acts. The sales tax money is not earmarked or dedicated to expenditures for any particular purpose as is true of many of the other state collected taxes.

"Since all of the sales tax goes into the state general fund, it may be assumed that eventually this money is spent for the same purposes as general fund receipts which are not earmarked for specific expenditures. About ¾ of the total free and undedicated general fund revenue is required to meet appropriations for education, social welfare and health services, including state grants-in-aid and other payments for these purposes to local units of government. Consequently most of the sales tax money goes to meet expenditures and state payments for these functions. It should be noted that the strongest and most insistent demands for increased expenditures have been those for larger state appropriations for education, old age assistance, the care of children, more hospitals and other desirable social services."

In addition to the Michigan Educational association's appeal for increased state aid, running into many millions, the Detroit Board of Education has dumped into the legislature's lap the fate of Wayne university.

Here is the thirteenth largest

university in the Nation; an institution with 10,500 students currently enrolled, of which around 9,800 reside in Wayne county. Financially unable to maintain the university, the Detroit school board has offered to turn it over to the state. It is estimated that at least \$3,000,000 will be needed in legislative appropriation to assure continuation of Wayne university.

Here is the setting for the legislative session. If educational, hospital and welfare needs are to be met first by the State of Michigan, the \$27,000,000 surplus will be more than absorbed. Actually, this fund won't go far enough to meet 1946 actual needs. If the local governments succeed in diverting part of the surplus to their local needs, they will do so at the expense of the state's own program. It's a squeeze play, to use an old phrase. State legislators must make the decision.

Durable Blanket

For a durable blanket that will hold its shape when laundered, look for a close, even weave. Hold a single thickness up to the light—you should see tiny, even holes the size of a pinpoint. Gently pull a small bit of the nap between your fingers. If the nap pulls out easily you may know the surface is overnapped and the fiber weak. For the most warmth, the nap should be thick and firm. Winterweight blankets vary from three to five pounds; but weight doesn't necessarily indicate warmth or quality, since poor, shoddy wool sometimes weighs more than good wool.

She's looking for potash because it takes potash to make succulent legume pastures high in minerals—the kind that livestock prefer. Clovers and all other legumes are heavy feeders on potash. When seeding or top-dressing legumes for hay, pasture, or cover crops, make sure that there is enough potash in your soil and fertilizer to balance the other plant foods and insure heavy growth of high feeding value. HOUSEHOLD MEMOS... by Lynn Chambers

Follow Rules for Melt-in-Your-Mouth Muffins

(See Recipes Below)

Quick Hot Breads

Taste-tempting hot breads add a flavorful touch to any meal. Golden-crusted muffins or fluffy biscuits are the perfect accompaniment to meat and salads and go equally well with a glass of milk for a snack or with coffee or tea for breakfast.

Don't shy away from making muffins because you fear only fast results. Quick breads are the most easily mixed of all baked goods and you need to bear in mind only a few simple rules to have success.

The most important point to remember is not to "over-mix." Muffin batter, for example, should be "bumpy" — stirred only until the dry ingredients are dampened by the liquid. Biscuits should not be worked to death—they will be far more flaky and tender if the cook is not too ambitious.

Quick hot breads are an easy way to put appetite appeal into the simplest meal. Served with butter and jam, they will really give the family something to look forward to even if the main dish is hash from left-over roast or soup and salad from an accumulation of dabs of food in the refrigerator.

Cheese adds flavor as well as protein to a meal when made with muffins like the following:

***Cheese Muffins.**
(Makes 12 medium-sized muffins)
2½ cups sifted all-purpose flour
3 teaspoons baking powder
¼ teaspoon salt
¼ cup grated American cheese
1 egg
1 cup milk
¼ cup melted butter

Sift flour once, measure; sift into mixing bowl with baking powder and salt. Add grated cheese and mix thoroughly. Beat egg, add milk and melted butter, and pour into the center of the dry ingredients. Stir quickly until dry ingredients are just dampened. Batter should not be smooth. Fill greased muffin pans about ¾ full. Bake in a moderately hot oven (425 degrees) for 15 or 20 minutes until golden brown. Serve hot with butter and jam.

If you want to do other unusual things with muffins you might like them with a prune or a spice flavor. Both of these will add extra enjoyment to meals.

Prime Muffins.
¾ cups flour
¾ teaspoon salt
4 teaspoons baking powder
¼ teaspoon nutmeg
½ cup shortening
1 cup brown sugar
2 eggs
1½ cup milk
¾ cup cut, cooked prunes, well drained
Prunes and nuts for decoration
Sift together first four ingredients. Cream shortening and add sugar

Lynn Says:

Here are tips on egg cookery: Beads on a meringue come from too much sugar. Frothy meringue comes from too little sugar. Two tablespoons of sugar to one egg white is a good rule to follow.

Eggs keep better if they are not washed before refrigerating. Never place meringue on a hot pie filling. It will form syrup between filling and meringue and "skid." Pile the meringue in the center of the pie and anchor to the crust on the edges after spreading.

To open eggs evenly without breaking the shell, crack with a knife that is not too sharp. The volume of the egg white may be increased slightly when 1½ teaspoons of water are added to white before whipping. This applies particularly if the eggs are not as fresh as possible.

gradually. Then add beaten eggs and milk. Add dry ingredients and mix thoroughly. Mix in prunes. Turn into greased muffin pans and decorate each muffin with a half a prune and nut. Bake in a moderately hot (400 to 425 degrees) oven for 25 to 30 minutes.

Spice Muffins.
2 cups sifted flour
1 egg
¾ cup sugar
1 cup milk
¼ cup melted shortening
1 teaspoon ginger
1 teaspoon nutmeg
1 teaspoon cinnamon
3 teaspoons baking powder
1 teaspoon salt

Sift together all dry ingredients. Combine egg, sugar, shortening and milk. Add dry ingredients and stir until smooth. Fill greased muffin pans ¾ full and bake in a moderately hot (400 to 425 degrees) oven until done, 25 to 30 minutes.

What are our standards for making biscuits? Perfect biscuits are light and fluffed, fairly straight and even on the sides, level on top, well shaped and regular. Their tender crust is golden brown and rather smooth. When broken open, they show a creamy white, fluffy crumb which is even and fine-grained.

Over-mixing, or too long kneading of the dough makes biscuits tough with a pale crust. Speed and light handling are essential for flakiness. Under-mixing, on the other hand, causes lack of flakiness in biscuits. These biscuits also lack in volume. The fat needs to be well distributed for a flaky texture.

The proportions for plain biscuit are as follows: 2 cups of flour, 2 teaspoons baking powder, ¼ teaspoon salt, ¾ tablespoons shortening and ¾ cup milk. The dry ingredients are mixed; the fat cut in, and enough milk added to make the dough. Knead the dough for about 30 seconds, then roll and cut. Use a hot oven (450 degrees) and bake biscuits for 12 to 15 minutes.

Apple Sauce Biscuits.
2 cups flour
3 teaspoons baking powder
¼ teaspoon soda
1 teaspoon salt
3 tablespoons fat
1 egg
½ cup tart apple sauce
½ cup thick sour cream

Sift dry ingredients. Cut in fat. Beat egg and add to apple sauce and sour cream. Add to first mixture. Turn on a floured board and knead for 20 seconds. Roll to ½ inch thickness and cut into 2-inch biscuits. Place on an oiled cookie sheet, sprinkle with grated cheese and bake.

Buttermilk Biscuits.
2 cups pastry flour
1 teaspoon salt
4 teaspoons baking powder
¼ teaspoon baking soda
4 tablespoons shortening
¾ cup buttermilk

Sift dry ingredients and cut in shortening. Add buttermilk and quickly mix to a soft dough. Turn out on floured board and knead for 30 seconds. Pat to desired thickness and cut with a small cutter. Place on oiled sheet and bake in a hot (425 to 450 degrees) oven for 10 to 12 minutes.

were established, she grasped the possibilities of air transport and incorporated it into her study of world affairs and politics. As soon as the early airplanes would accept passengers, she started traveling by air and was the first American girl to visit Yucatan, Mexico, by air.

As air transport has evolved, she has continued her travels by air and her study of air transportation. She has also continued her interest in languages, literature and world politics.

She is a contributor to magazines and is the author of the novel, "She Came to the Valley," which is the story of her mother's life in the Lower Valley of the Rio Grande.

Dried Herbs

Dried herbs must be steeped in cold liquid for several hours or overnight to bring out the volatile oils which give them their flavor. Or, if for a last minute affair, they can be heated slightly in the liquid. Using a measurement of one-half teaspoon salad herbs to every cup of vinegar, let stand in the refrigerator overnight. Strain off the herb particles in the morning and the vinegar is ready whenever you want it for your regular salad dressing recipe.

Meat Rack

A rack under the meat keeps it from cooking in its own juices and permits heat to circulate around the meat as it cooks.

Fatty Acids

It has long been known that there are marked differences in the composition of various food fats. Some contain a large variety of fatty acids and others contain comparatively few types. When extracted from fat some of these fatty acids are solid, some are liquid and some are volatile.
