Junior-Senior Banquet Is Planned For Friday, May 3

Members of the Cass City High School Junior class are busily engaged in junior-senior banquet and prom preparations for Friday evening, May 3, is the date set for the school's big social event of the year. The juniors have chosen the circus motif for decorating the gymnasium. The gym will be transformed into a "big top" with gay circus trimmings in the ceiling and side walls. The banquet tables will be similarly decorated.

The junior class will be pursuing a high school tradition when it plays host to the class of 1946, the honored guests, the grade and high school faculty, and the board of education at a 6:30 banquet and program. The program theme will be based on a circus phrase, "The Show Must Go On." Following the banquet program, the junior prom will be held in the same setting. Joseph Abbenanti's orchestra of Saginaw will furnish the music for dancing from 9:15 to 1:00. Alumni, members of the school community and members of other high schools are welcome at the prom.

Ten Cass City Seniors Elected to National Honor Society

Top row—Betty Tuckey, Helen Warner, Wilbur Silvernail, Marjorie Kettletwell, Isabel Martin. Lower row—Robt. Foy, Albert MacPhail, Donald Anker, Donna Turner, Janice McMahon.

When the seniors of 1946 of Cass City high school receive their diplomas at the commencement exercises on May 31, ten members of the class will find that their certificates bear the added seal of membership in the National Honor Society. Election to this organization, of which chapters were formed in the local school last year, is nationally recognized as the highest honor that can be earned at a secondary school level. Members are elected at the end of each semester, the appointments being made by a faculty council on the four-fold basis of contribution and achievement in the fields of character, scholarship, citizenship and service. Election is limited to 15 per cent of the class membership.

The Honor Society graduates will be given special recognition at the graduating exercises. A brief summary of some of the achievements of members of this group is given below.

Don Anker, by virtue of having completed his high school career with a scholarship rating of 2.617, has earned the honor of being valedictorian of his class.

Robt. Foy has made an outstanding contribution in athletics. He has also been active in student functions including the chairmanship of the newly organized student board. He has been associated with scouting for his entire high school career and has reached the rank of Eagle Scout.

Marjorie Kettletwell, as president of the Student Council during her senior year, has been helpful in developing that organization into one which has served as a model student self-government group for this region. Her activities and abilities have entered into almost every phase of school life.

Janice McMahon has been a leader in all the activities of her class including her recent chairmanship of the Community Club dinner project. She has played her part in community and church functions and in addition has maintained a commendable scholarship record.

Albert MacPhail, as president of the National Honor Society, has guided this new organization through its first year. He has won letters in both football and basketball and is an Eagle Scout. He has taken an active role in many class and school functions and ranks third in his class in scholarship.

Isabel Martin counts among her contributions, participation in varsity debating and declamation, and a variety of other forensic and dramatic events. She has also had a part in the work of the Annual Staff, the Student Board, and the Band Council.

Wilbur Silvernail has the distinction of being voted by his team-mates the most valuable player on last fall's team. He has been active as a debater and is the present commissioner of the hall guides. Outside of school he finds time for important posts of leadership in the young people's groups of his church and the community at large.

Betty Tuckey has served efficiently as student assistant in the principal's office. She has also been a hall guide, student teacher and has held class and home room offices.

Donna Turner will be remembered as editor-in-chief of this year's Annual. She has also been active in the band and has served her class and the school in general in a host of capacities.

Helen Warner was named salutatorian of her class when her record showed a scholarship rating concluded on page 8.

Elta Strickland and Wm. Caverly Married

The dinner table in the home of Mrs. Mary Strickland on Sunday, gaily decorated in pink and green and centered with a lovely white bride's cake, topped with a miniature bride and groom, conveyed the news to part of the group that there had been a wedding in the family. Miss Elta Strickland, daughter of Mrs. Mary Strickland, and Wm. Caverly, of Pontiac, son of Mr. and Mrs. Norman Caverly, of Kingston, were quietly married April 6 in a simple but beautiful ceremony in the Caro Baptist church. Rev. Oluf Jensen, pastor of the Caro church, officiated at the ceremony at 8:30 in the evening.

The bride and her attendant, Mrs. Russell Baer, of Kingston, sister of the groom, wore pink-striped navy blue suits, complemented with halos of white roses and corsages of salmon colored roses.

Russell Baer performed the duties of best man for his brother-in-law.

Following the ceremony, a luncheon was served in the bride's home here.

The bride, who received her high school diploma from the University hospital school in Ann Arbor, has been employed as a filing clerk in the Wilson foundry in Pontiac. Mr. Caverly is also employed there. They will make their home in Pontiac.

Dr. Schenck Takes Dr. D. E. Rawson As Partner

Dental Office Alterations Planned to Provide Room for New Equipment

Dr. P. A. Schenck, whose dental offices are in the Sheridan Bldg., has announced that he has formed a partnership with Dr. D. E. Rawson, recently of the Navy and a son of State Senator and Mrs. Audley Rawson. Several alterations are planned in the present office space to provide room for newly purchased equipment.

After his graduation from Cass City High School in 1937, Dr. Rawson attended Central Michigan College at Mt. Pleasant for his two years of pre-dental training. He entered the University of Michigan Dental School in 1939. He joined the Delta Sigma Delta professional fraternity and later became its president. The war accelerated his training and he was graduated from the university Jan. 12, 1943, where he stayed as a clinical instructor until he was called to active duty in the Navy.

The first five months were spent at Great Lakes, Ill., performing routine dental work. He was then called to California to work under Admiral Mack of the Dental Corps, but was soon assigned to his own ship, the U. S. S. A. B. S. D. No. 4. The ship was a floating dry-dock designed to completely remove large battle ships and aircraft carriers from the ocean for overhaul and repair in advanced theatres of action. His duties involved all recreational and welfare work with the crew as well as his professional duties.

After 19 months with the U. S. S. A. B. S. D. No. 4, Dr. Rawson was returned to the States and was joined by his wife, the former Helen Holt, of Ironwood, Michigan, and their year old son, James. He was then assigned to duty at the Camp Lejeune Marine Base in North Carolina and is now on terminal leave. He will begin practicing with Dr. Schenck May 1.

Cass City Defeated Vassar on Thursday

Cass City's baseball team won its second conference tilt by a score of 5-3 over Vassar at the local diamond on Thursday of last week.

The Redhaws jumped to an early lead when Ashcroft, lead-off batter, slammed a triple between the outfielders and scored later on Hoag's long fly to right field. Ashcroft again circled the bases in the third inning after he reached second base on an error and then went home on Hillaker's single.

In Vassar's top of the fourth inning, Gruber and VanWingen reached base through Cass City errors, after which Bower and Brnder got to Strickland for a single and double to score three runs and thus take a one-run advantage. Harry Hartwick replaced Strickland on the mound for the locals and retired the side without further scoring. During Cass City's half of the same inning, Hartwick singled sharply to right, then Strickland hit a hard double which Newton, Vassar's right fielder, let go by and Strickland continued home behind Hartwick for two runs which put Cass City ahead again, 4-3. The last half of the sixth resulted in the final tally for the Redhaws when Hartwick pitched.

When Will I Get My Refund Check?

"When will I get my refund check?" is a common and natural question being asked these days by many Detroit Edison customers. Since the first of February, refund checks have been going out at the rate of 11,000 a day. However, they are not being mailed according to your name or street address, but are being sent out according to our meter reading schedule. Thus it is entirely possible that some of your friends may already have received their checks, while others who live on the same street, or have the same initial, may not have received theirs.

The only thing you have to do to assure receipt of your refund check is to make sure that the Company has your forwarding address if you have moved since January 1, 1944, or expect to move before June 20, 1946. If you have used service at two or more locations during the refund period, these checks will be mailed at different times. Separate checks are issued for each address. Every effort is being made to assure the earliest possible delivery of all the 1,150,000 refund checks. The last group of checks are scheduled to be mailed June 19 and should be delivered shortly after June 20.

Cash your refund checks promptly. They become void 60 days after date of issue.

What is your GUESS? on our profits...

SOMETIMES, although an idea is wrong, it does no harm. Like the idea that a square jaw is the sign of will power. That winters aren't as severe as they used to be, or that red hair denotes quick temper.

But there are other wrong ideas, which are definitely harmful to public confidence in and understanding of industry. One such idea is the current "guessing" about profits made by large business organizations.

Many people are apt to grossly exaggerate the money made by business. So Opinion Research Corporation (an independent organization) made a survey to learn just what the public thinks about profits. Compare these guesses and yours with the International Harvester profit figures given below.

Public guess on war profits... 30.0%
I H four war year average profit... 4.9%

In this survey, the average of the guesses by the public of the war-time profits made by industry was... thirty per cent (30%).

But in the four war years of 1942, 1943, 1944, and 1945, the profits of International Harvester Company averaged only... 4.9% on sales. Less than one sixth of what the general public "guessed" for all industry.

For this period, the year by year per cent of profits on sales was: 1942—7.34, 1943—5.59, 1944—3.95, 1945—3.93.

Public guess on peace profits 18.0%
I H four pre-war year average profit... 7.17%

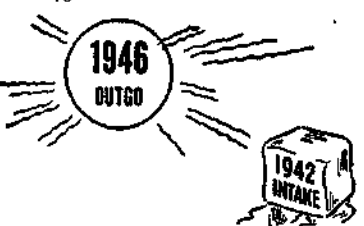

In the four peace years of 1938, 1939, 1940, and 1941, the profits of International Harvester Company averaged... 7.17%. This is well under half of what the public "guessed" for all industry.

Majority think fair profit in normal times is... 10%

I H ten-year average is less than 7%

The survey indicates the public knows that in our economy profits are indispensable. And the majority regard 10% as a fair

Wages and materials consume nearly all of every dollar Harvester takes in from sales. A Government board has recommended and the Company has agreed to pay a general wage increase of 18 cents per hour for Harvester factory employees. The Government has also allowed price increases on raw materials which we purchase in large quantities. Steel has had an average increase of 8.2%.

There has been no general increase in our prices since they were frozen by the Government early in 1942.

So our situation today is that what we BUY costs us 1946 prices. We will be paying average hourly wages 56% above 1941. For what we SELL we get only 1942 prices. This condition cannot long be met out of our present low rate of profit.

Future Prices on I H Products

It is plain that price relief will be needed to meet the increased wage and material costs which we must carry.

We regret this necessity. We prefer to lower prices, when possible, rather than raise them and we know our customers prefer to have us do that. We had hoped to be able to "hold the line," at least.

But we do not see how we can avoid operating at a loss if our prices continue to remain at their present frozen levels. We will NOT "cut corners" on any of our products, because QUALITY IS THE FOUNDATION OF OUR BUSINESS.

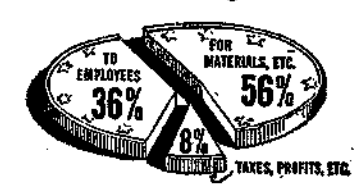

Our customers can be certain that we will seek no more than a moderate profit, both because of our policies and because we have approximately 300 competitors fighting us vigorously for your business. Our request for price relief will be no more than is necessary to insure continued service to our customers, continued work for our employees, and a reasonable return for our stockholders.

rate of profit in normal times. Many large businesses, including ourselves, would consider it a banner year if we could reach this figure. Our average profit for the last ten years—four war and six peace—was 6.43%—more than a third less than what the public considers fair.

All these figures show that our profits are not high. As a matter of fact, the entire farm machinery industry is a low profit industry. In 1944, the Federal Trade Commission published a list of 76 industries ranked in order of their ratio of profits to sales. The farm machinery industry was 57th on the list.

What About Current I H Prices?

When the War ended and we planned our peace-time production, we had hoped to be able to serve our farmer customers at the same level which has held since 1942, regardless of war-time increases in costs of wages and ma-

terials up to that time. But recent developments have forced a change in our plans.

goal could be met successfully without resort to a mandatory 25 per cent cut in wheat stocks processed by flour millers.

Chas. Figy, director of the state department of agriculture, recently pointed out in this column that the milling order would not adversely affect the average Michigan farmer. We quote again: "Most Michigan farmers have general farms whereby grains are grown for feeding livestock and chickens. They are going to see that their livestock and chickens are fed."

agency committee has recommended that grain prices should be increased to discourage the feeding of grain to livestock and poultry. The president asks Americans to go voluntarily on a European diet (one-half what we ordinarily eat) two days a week to save food that most Americans eat too much anyway and we waste too much food.

But is the food situation in Europe so critical?

Here are some facts as vouched for by reliable persons. Judge for yourself.

"Unless I get 300,000 tons of wheat within the next few days, hundreds of thousands of people will starve to death."—Fiorello H. LaGuardia, director general of the United Nations Relief and Rehabilitation Administration.

"There is not enough food within the borders of the American zone in Germany from German sources to sustain life even at starvation levels."—Gen. Jos. T. McNarney, commander of the United States Forces in the European theatre in a statement to Herbert Hoover.

A fact-finding committee of American newspaper editors recently visited Germany to get information first-hand for their newspaper readers. Here are a few shockers:

"The American people do not want to see anyone starve whether enemies or friends. Now that the war is over, we must convince the American farmer that he must get his food out, the same as during the war."—Robert Reed, associate editor of the Kansas City Star.

"If we do not feed the Germans adequately, it is inevitable that a great deal of chaos will result and there will be a tendency to swing Germany toward the Soviets which I consider unfortunate."—Garner Cowles, Jr., Des Moines Register-Tribune.

"We have to feed the Germans or throw Central Europe into the hands of Communists."—Paul Belamy, Cleveland Plain Dealer.

"If we do not provide adequate food for the people of Europe, anything may happen over here. In the United States zone in Germany, people are getting 1,600 calories a day. Democracy cannot successfully compete with communism when such a situation prevails. The American people must be made to realize our great responsibility in this disturbing situation."—Frank Gannett, president of the Gannett newspapers.

"We had better either give the Germans enough food or get out. We cannot democratize the Germans on 1,200 calories a day when communism is being taught on 1,600 calories in the Russian zone."—Edward T. Leach, Pittsburgh Post.

After years of war strain, Americans in 1946 are in a mood for a holiday. We shun post-war responsibilities of winning the peace; we rush madly into demobilization of our military strength;

we hasten to Florida and other resort spots; we spend money furiously in gambling, entertainment and luxuries.

On top of this, Washington's attempts to compromise reality with the holiday mood of the voters and yet to fulfill our national obligations overseas have resulted only in vacillation and confusion.

It is difficult to believe that Americans, once informed of the emergency abroad, will pursue the path of selfish pleasures and will disregard the Christian call to be their brother's keeper.

A decision of historic importance is now in the making.

Blue-Black Ink
The commonly used blue-black ink is an iron ink. That is, it contains iron and a tannin compound as well as some dyestuff. In use, the dyestuff colors the paper blue, and after standing for some time the writing turns black because of the chemical formed by the iron reacting with the tannin substance.

Hang Brushes
Brushes keep their shape and wear longer if they are hung by the handles after they are used.

Oriental City
Cairo, capital of Egypt and largest city in Africa, is situated on the right bank of the Nile. Although greatly modernized, the city is distinctly oriental. An important Moslem educational center, Cairo has many mosques whose minarets and towers enhance the zigzag of the skyline.

Nut Fat
Fats for meals can be obtained from nuts. Most nuts are at least half fat, and some are even richer.

Sweet Fruit
Persimmons are used in making puddings, cakes and sweet spreads. This fruit is one of the sweetest grown in this country. In sugar count it is second only to the date, since it is nearly one-third sugar.

Living Cornerstones
Living human victims were formerly placed in cornerstones as a sacrifice to the gods, in the belief that they would ensure the stability of the building.

City League.

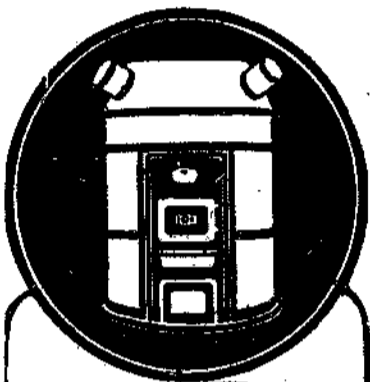

Bowling standings at close of 14th week:

Ten High Average Bowlers.

Yes, just one more week of bowling before the close of another successful season of tenpins for our City League, but we can now announce the Wooley team as winners of this schedule. They have established several records in clinching their title and the 31 games which they have already won is tops for several seasons back. They can still add three more games to their total if they sweep their series against the Kolb cellar team this week. Wooley's team has taken advantage of every opportunity offered them, and the

fact that they have received a pin spot by every team they bowled but one, is a record no other winning team in the past can boast.

Their big test comes on Monday, April 29, at 8:00 p. m., when they take the lanes to meet their biggest threat, the Landon team, winners of the first schedule. This match to decide the City League championship for 1945-46 will climax the season's bowling. Should the Wooleyites retain their luck of the past, they may be able to capture two games from this three-game series against the Landon squad to give them the city championship but they are meeting a team their equal. In fact the Landon team average is some higher so a small pin spot will go to the Wooley team.

The Wilson team has dropped but one of their nine games bowled to slip into a tie for second place with the Larkin squad. Both are too far back to challenge the leading Wooley Five with only three games yet to roll.

A couple of bowlers managed to bowl 600 series. Cecil Larkin, a team captain, linked together games of 214-183-204 for 601 while Clarence Wright, No. 4 man on the Landon team, added up an even 600 on games of 206-201-193. He picked up a number of difficult spares and did everything right through the entire match. Frank Novak's high game of 241 helped to give him a total of 590 and these three were the only ones to register on the weekly honor list.

Our 200 or better games were rolled by Novak 241, Landon 216, Larkin 214-204, Hoffman 209, Wright 206-201, Krug 205, Kirton 205, McClorey 203.

Our city tournament gets underway Tuesday night, Apr. 30. Events for teams, doubles and singles will be rolled and a 60 per cent handicap will be used to equalize the averages so every member has a chance and should enter to make the tournament a rousing success.

Set aside the evening of May 9, for that's the banquet date and annual get-together.

G. W. Landon, Secretary.

STONEY CENTER CLUB.

The Stoney Center Extension club held an all-day meeting at the home of Mrs. B. Bailey with pot-luck lunch at noon.

The election of officers for the coming year was held. The lesson, "Make Moments Count," was given by Mrs. Merle Shagena and Mrs. Chas. Simkins.

Many beautiful toys, made by Mrs. Bailey, were examined. Achievement day will be held in Sandusky high school on May 1.

SHERIDAN COMMUNITY FARM BUREAU

Mr. and Mrs. John Ramseyer entertained members of the Sheridan Community Farm Bureau at their home on Monday night, April 15, with 20 members in attendance. President Ernest Willis was in charge and group singing was led by Mrs. Ramseyer. Roll call was answered with a current event. A short business meeting was held and several suggestions were offered to be presented to the county board members at their next meeting.

Mrs. O. H. Blair, chairman of the women's division, introduced the subject of a health program for the county. After much discussion, the members decided the project should be presented to the people.

Emmett Raven, guest speaker, talked an D. D. T., the most publicized, the most misrepresented, yet the most effective insecticide against the greatest variety of insects. The consumer will find it best to purchase prepared formulations for the home and farm use. He should consider the reliability of the manufacturer; the label should indicate the percentage of D. D. T.; insects for which it is recommended; how used and an adequate warning statement. A demonstration will be held later on in the fly season.

For recreation, Mrs. Ernest Willis conducted a quiz.

Mr. Raven asked several questions on "Know Your Huron County."

A potluck lunch was served. Mr. and Mrs. Robert Henderson will entertain the next gathering in May.

Cholera Virus

A millionth part of a cubic centimeter of hog cholera virus will kill a hog, and there are only about 15 drops of liquid in a cubic centimeter. The deadliness of the virus is the reason the disease is so highly contagious.

EVERGREEN

On Friday, April 19, the Evergreen W. C. T. U. met with Mrs. Arthur Bunker. Mrs. Burk was elected secretary to fill the vacancy caused by the passing of the union's much esteemed member, Mrs. LePla. Mrs. Patch was appointed delegate to the county convention at Marlette in May. The society was pleased to welcome a new member to the local union. An interesting program was given, stressing the evils and waste

caused by the use of alcohol and tobacco. The next meeting will be with Mrs. Lena Patch on June 21.

Cabbage Nutritious

Cabbage is well stocked in food values. Vitamin C is there in abundance, especially in raw cabbage. Then there's thiamin, riboflavin and niacin. In minerals, it has calcium, iron and phosphorus.

Cover Dairy Products

Since milk, cream and butter absorb flavors from other foods in the refrigerator, they should never be left uncovered.

Stinking Water River

The name Stinking Water was given by the Indians and early settlers to a Wyoming river because of the odor from the mineral springs to be found along its banks in certain sections. In 1901 its name was changed officially to Shoshone river by the state legislature.

Good Posture

Good posture throughout the day's housework helps the homemaker to prevent backache, tired feet and a general run-down feeling at the end of the day.

Mr. and Mrs. Calvin J. Striffler were Easter Day guests of Mrs. Striffler's cousin, Mrs. Nora Howell, in Grosse Pointe.

John A. Sandham was made happy early yesterday (Thursday) morning when he was informed that he was grandfather to a little miss born about one o'clock that morning. The parents are Capt. and Mrs. Archie Vallier of Lansing and the baby girl was born in the Lawrence hospital in that city. Mrs. Vallier was Miss Johanna Sandham before her marriage.

The spring meeting of the Thumb Association, Order of Eastern Star, will be held this (Friday) evening, April 26, at Bad Axe with Huronia chapter No. 81 as hosts. Invitations have been sent to the 27 chapters in Huron, Sanilac and Tuscola counties. This is an open meeting at which friends of members of the order are welcome. A social evening and short program are planned.
