

How long does it take to stop a car on dry concrete? Say you are an average driver traveling 30 miles per hour when you see a child on the road ahead; your car will travel 33 feet before you react to the danger ahead. It will travel another 47 feet before you can stop it if you have good brakes. If your brakes are only passable, it will travel another 20 feet before it stops. The total, 100 feet!

—National Safety Council

WHEN YOU THINK OF LIFE INSURANCE THINK OF GENERAL

THE GENERAL LIFE INSURANCE COMPANY OF AMERICA offers a complete insurance program for your needs and your income.

GENERAL LIFE INSURANCE offers security for your loved ones when you can no longer provide for them.

GENERAL LIFE INSURANCE offers you freedom from financial worries when you reach retirement age.

GENERAL LIFE INSURANCE combines the benefits of immediate protection with those of sound, long-term investment.

Government Insurance is *Kelehabla*. Retain it!

DEFORD

Members of the W. C. T. U. met at the Chas. Kilgore home and elected officers for the year: President, Harriet Rayl; vice president, Edna Malcolm; secretary, Lillie Bruce; treasurer, Leola Retherford; directors, Mrs. Blanche Kelley, spiritual education; Mrs. Lillie Bruce, alcohol education; Mrs. Edna Warner, Christian citizenship; Mrs. Lulu Roblin, press and publicity; Mrs. Josephine Spencer, soldiers and sailors.

Mrs. Lloyd Cox of Harbor Beach spent Monday and Tuesday with her sister, Mrs. Clarence Cox.

Mr. and Mrs. Wm. Gage spent the week end in Detroit at the Ed Pearson home. Mr. Pearson is seriously ill at a Detroit hospital.

Guests at the Frank Riley home during the week were Mr. and Mrs. A. C. Scott of Bad Axe, Mr. and Mrs. Garrett Reid of Watrousville, Harry Williams of Detroit, and Mrs. Mary McLaughlin of Detroit.

Mr. and Mrs. Kenneth Kelley, daughter, Kathleen, and son, Howard, and Mr. and Mrs. Howard Malcolm spent Saturday and Sunday at the Kelley cottage at Snyder Lake in Montmorency County. Among the scenes of interest visited were the magnificent Hartwick pine forest. The Malcolms attended Sunday morning services in the Lewiston church.

Mrs. Walter Kelley, Mrs. Harley Kelley and Mrs. Earl Rayl attended a district W. S. C. S. meeting at Yale on Thursday.

Mr. and Mrs. Arthur Bruce went to Oxford on Saturday and will stay for awhile, or perhaps for the winter, with their son, Clinton.

Mr. and Mrs. Wm. Campbell of

Ellington were Monday visitors of Mr. and Mrs. John Clark.

Mr. and Mrs. Cyrus Wells entertained on Sunday Mrs. Wells' sister, Mrs. Ida Waterbury, a niece, Miss Dell Waterbury, Mrs. Nina Powers and daughter, Marjorie, all of Lapeer, and Bruce Powers, recently discharged from overseas service. Miss Powers is at home on vacation from Ford Hospital of Detroit, where she is a nurse.

Till We Deliver Your New Ford...

We're doing everything we can to deliver your new Ford car. And when you do get it, you won't mind the wait... because that new Ford will be packed with big advancements that put Ford "out front!"

Look forward to a choice of two great engines, the 100 horsepower Ford V-8 or the 90 horsepower Ford Six! Only Ford gives you that power choice! Count on the smooth comfort of Ford "rest-ride" springs and big "armchair" seats! Depend on Ford "king-sized" brakes... biggest hydraulics in the low-price field, for sure, easy stops on any road! And you'll find a lot more big Ford advances, in the bargain!

Let Us Protect Your Present Car with *Genuine Ford Service!*

UNTIL your new Ford arrives, keep your present car in tiptop shape with Genuine Ford Service. After all, Ford Dealers know your Ford best. Our mechanics are Ford-trained in factory service methods. We use special Ford service tools and equipment, and Genuine Ford Parts... the parts that are made right—fit right—last longer.

What's more, we're ready now to give you the fastest service in a long time. One-day service on everything except major overhauls.

So drive in at the Ford Service Sign for every service need. Come in regularly for lubrication... check-ups... safety tests. Let us keep your present car on the job until the Ford in your future arrives!

Bowling

Bowling standings at close of the third week of schedule, September 23 and 26.

Team Standings		
	W	L Pts.
McCullough	7	2 9
Willy	6	3 8
Parsch	5	4 8
Wallace	5	4 8
Landon	5	4 7
Reid	5	4 6
Kirton	5	4 6
Ludlow	4	5 6
Larkin	4	5 5
Kolb	4	5 5
Wooley	4	5 4
Auten	3	6 4
Gross	3	6 4
Fritz	3	6 4

Ten High Average Bowlers	
Ludlow	177
DeFraim	176
Larkin	176
Gross	172
McCullough	172
Mann	171
Parsch	170
Reid	170
Nnoble	169
J. Novak	168
Retherford, sub.	197

Mac, McCullough's team managed to retain their position as leaders of the league when they received an ever break for points against the Wallace squad Thursday night. The Kirton five came through as the only team to capture the four full points and this was done at the expense of the Kolb pinsters. Bennie supplied the spark to his team to win the match, with a great count of 609 pins, while his No. 1 man, Johnnie Juhasz, came in with totals of 553 which helped considerably. The clean sweep for the Kirtonites advanced them from 13th spot in the standings to 7th place.

Individual honors for the week went to Kirton, whose count of 609 pins was high. This jumped Bennie's average considerably but not enough to land him among the ten high. Herb Ludlow's 562 pin contribution upped his average to 177 and he now finds himself leading the league. Retherford, who started the season in the capacity of a substitute, has rolled only three games and while his average is

197 he has not bowled the nine games as the regulars have, yet he may remain a threat to the leaders if he continues to bowl and keeps up his form of opening night.

Johnnie Juhasz was the third and last bowler to hit the honor list of the week when he accounted for 553 pins. Clarence Wright's single game of 236 was high and Kirton was second with a count of 223. Herb Ludlow with a game of 222 was third. Other games of 200 or over were bowled by J. Novak 204, Kirton 202, Corpron 201, Wallace 200.

Guy W. Landon, Sec.
Have you registered?

Concluded from page 1. town communities, has been a subject of considerable concern with administrative officials at Lansing.

Democratic nominee Van Wagoner has referred recently to the likelihood of the two proposals being approved by the voters on November 5. This likelihood, he warns, increases the need of Michigan having an experienced state administrator in the governor's chair who knows how to handle the new problem.

State Treasurer D. Hale Brake, who is a nominee for the same office on the G. O. P. ticket, has sharpened his pencils recently and arrived at an estimate that the \$270,000,000 veterans bonus would require the additional expenditure from the state general fund of approximately \$17,500,000 a year for many years to come. This amount, significantly enough, is a little more than the surplus accrued in the general fund during the 1945-46 fiscal year after all disbursements had been made.

Latest figures from the office of John D. Morrison, State Auditor General, indicate a year's surplus of approximately \$16,300,000. Had the veterans' bonus been in effect during the past year there would

have been no surplus at all!

It is generally conceded that the veterans' bonus (Ballot Proposal No. 3) has a much better chance of being approved by the voters than the sales tax diversion amendment (Ballot Proposal No. 2).

We have noted little if any attack on the bonus proposal. We have noted considerable controversy — pro and con — about the projected school aid and big city amendment to secure state money.

Therefore, when the latter issue is being considered on its merits it seems logical to take for granted that the bonus will be approved. Personally, we believe that such is the case.

If such is done, you arrive automatically at a point where the much talked about surplus becomes non-existent, as the above reasoning indicates. Retail department store sales are currently running about 50 per cent over the same period one year ago — an astonishing fact, but nevertheless quite true. How much longer the post-war inflation boom will continue is anybody's guess, although government economists have been warning in consistent unison that a readjustment or recession is due sometime in 1947 and that we should get ready to see supply and demand more in normal balance.

It was actually not so long ago — during the Frank Murphy administration in fact — when the auditor general's office was buying red ink by the gallon. A treasury deficit grew into the millions. Welfare demands were high, and people could not be left to starve. A deficiency was created by the welfare load, and Republican politicians began to make political capital of the fact that the Democrats were running the state into debt and that it was high time the voters turned to Republicans to do something about it. Sure, it's right on the record.

While state payrolls have increased steadily administration after administration, the record also shows unmistakably that state aid to local governments has gone up steadily. It is not easy to paint the other fellow's kettle black. For example,

State payments returned to and benefiting local governments grew from \$89,000,000 in 1937 to \$178,000,000 in 1946 — a ten-year period. The total of operating expenditures and reserves (for all purposes) climbed from \$160,000,-

000 to \$281,000,000. Read this paragraph again. Who's taking advantage of whom?

Republican Nominee Sigler has declared repeatedly that legislators should get more money; that legislators, as well as school teachers, are "underpaid." Democratic nominee Van Wagoner has his own proposals calling for more state financing, one of them being for veteran homes at low interest rate and at a nominal down payment of around \$500.00 each.

With the veterans' bonus added to the state expenditures, it seems unlikely that the state government will reduce its spending in the next administration. In fact, the chances are that new taxes will be imposed — especially if the sales tax amendment is added to the bonus as additional drains on public funds.

The above facts do not take into consideration other interesting factors. The University of Michigan and Michigan State College, by legislative authorization, have already run up overdrafts (deficiencies, if you please) of around \$6,400,000 to cover cost of veteran educational demands. The state welfare department has a deficiency at present of around \$3,500,000.00, due to higher living costs. On top of this there are other operating deficiencies in sight.

The much talked about surplus at Lansing is largely an illusion, if prudent citizens take into consideration an impending veterans' bonus and existing deficiencies in state funds. The discouraging thing about the entire problem is the indifference of many people. "Lansing has too much money," they say. "Here's a chance to get some of it back home!" We wonder.

Watch your profits go UP!

... with a portable **ELECTRIC GRAIN ELEVATOR**

Portable electric-powered grain elevators are on the market now! They will save any farmer time . . . money . . . and muscle. They will cut out back-breaking shoveling for him and his hired hands. They will give him instead an efficient, tireless "wired hand" who will toss grain into granary or corn crib quickly and economically.

Talk to your Edison Farm Service Advisor about the grain elevator best suited to your particular job. Ask him to arrange for you to see one of these rugged profit-builders in actual operation on a farm. There you can talk dollars-and-cents facts to its owner. You'll find that one of these elevators can be practically custom built to your individual needs. You'll also discover that there are many ways an electric elevator can serve you. Your Edison Farm Service Advisor will be glad to give you sound, conservative, impartial advice—see him today.

One of the small grain elevators can store five hundred bushels of ear corn an hour—for a penny's worth of electricity!

More Power to Michigan's Farmers . . . **ELECTRICALLY!**

TAKE MY WORD FOR IT!

By FRANK COLBY
Bell Syndicate.—WNU Features.

HANDBOOK OF PRACTICAL ENGLISH

Pretty Miss Corona Remington, peering at her shorthand notes in despair, walls, "Oh, why did they ever have to invent such fiendish words as 'affect' and 'effect'? I never know which one to use!"
Why doesn't she ask her employer whether he dictated "affect" or "effect"? Sh-b-h! He's more in the dark than she is. But cheer up; here's your Uncle Pancho with a simple key by means of which you may select the proper word instantly. The key lies in the initial letters "a" and "e" of affect and effect, thus:
Affect is a verb only. It means: to Act on to Ape to Assume
Effect is both noun and verb. The verb means: to Execute (to bring about)
The noun means: an Execution (that which is brought about) an End (result) an Eventuality (consequence)
Key: When any "a" word makes sense, use affect; when any "e" word makes sense, use effect. Now watch the key unlock the door:
How did the news . . . you? Execute you? No. Act on you? Yes. Therefore: How did the news affect you?
The withdrawal was . . . quickly. Acted on? Ape'd? Assumed? No. Executed? Yes. Therefore: The withdrawal was effected quickly.
What was the . . . of the new rule? Act on? Ape; assume? No. End (result)? Yes. Therefore: What was the effect of the new rule?
She . . . a British accent. Executes? No. Ape's? Assumes? Yes. Therefore: She affects a British accent.
His act will have a serious . . .

Eventuality (consequence)? Yes. Therefore: His act will have a serious effect.
Again we see how easily a difficult problem may be solved by using a little logic, instead of trying to unravel the Shrdlu-vian ambiguity of the grammar books.
Fresno: We're having an argument about the correct pronunciation of St. Helena's name. Does the accent fall on the second syllable?—R.
Answer: Helena is the Latin name from which come Helen, Helene, Elena, Ellen, Elaine and Nelly. Accent Helena on the first syllable only. Thus: HEL-en-uh.
Los Angeles: Under a sentence in which the word "surplus" occurs twice, which form is correct: "There are two (surpluses-surplus's) in the above sentence?"—M. K.
Answer: The form with the apostrophe, is customary, as . . . two surplus's; learning one's ABC's; do not use too many and's in a sentence.
Wichita: Throughout a recent Radio Theater broadcast, the word nephew was pronounced "NEV-yoo." Why?—L. T.
Answer: The pronunciation "NEV-yoo" is a Britishism which was once somewhat popular in America. It is now obsolete in U. S. usage, although still listed as second choice in some dictionaries. Best American usage is: NEF-yoo.
Nashville: Our Spanish class would like to know how "learn by heart" originated.—H. P.
Answer: The heart was once supposed to be the seat of the conscious spirit or soul; hence, the intellect; the mind.

Idle Acreage No Longer Recommended

Cultivation Needed For Tired Acres
The "rest cure" treatment for worn-out farm land is rapidly becoming a thing of the past, as farmers are learning that "acres on vacation" are likely to deteriorate rather than increase in fertility level, according to J. C. Hackleman, professor of crops extension at the University of Illinois college of agriculture.
"Farmers formerly thought that if they put their 'tired acres' into pasture, the land could be rested two or three years and would come back as productive and vigorous as ever," Professor Hackleman pointed out.
"The fact is that every ton of beef, pork or mutton or milk produced on these pastures removes nitrogen, phosphorus, potash and calcium or lime just as surely as does a crop of corn, oats, wheat or hay.
"In addition, as these permanent pastures become less productive they provide less cover and the result is more loss through erosion. But these weary pastures are not hopeless cases, Professor Hackleman declares. The response of
A 5-10-5 fertilizer contains 20 per cent of actual available plant food. The first figure in the fertilizer analysis indicates the percentage of nitrogen (N), the second phosphoric acid (P, O₂) and the third available potash (K₂).
most of them to proper soil treatment is almost miraculous.
Five simple steps, he says, will transform the average worn out pasture into a productive acreage in one or, at most, two years. These steps are to test the soil and treat it with the necessary plant food mineral elements, disc these minerals thoroughly while preparing a reasonably good seedbed, reseed with a mixture of legumes and grasses, control grazing for at least a year and clip weeds, giving the legumes and grasses a chance.
Professor Hackleman said that because of an increase of cultivated acreages during the war, a greater acreage is now ready for legumes than in prewar days.
Pasturing of Turkeys Saves in Grain Feeds
Not only will the pasturing of turkeys and poultry, if properly conducted, result in soil conservation, but considerable saving in grain will result.
Orchard grass and ladino clover has been proven an effective pasture for range turkeys and chickens. Tests at regional laboratory, Pennsylvania, have shown that the number of birds to be pastured can be doubled by proper stand and management.

Better Off There
A shipwrecked sailor, who spent three years on a desert island, was overjoyed one day to see a ship. A small boat came ashore and an officer handed the sailor a batch of newspapers: "The captain suggests that you read what's going on in the world and then let us know if you still want to be rescued."
Guilty!
Two women were taking a stroll near Hollywood boulevard when a man with a red flag rushed out and waved them away.
"Don't go there," he shouted. "A movie is being shot."
"Well," retorted one of the women, "if it's the one I saw last night it deserves to be shot."

ACCOMPANIMENT
Sailor—Please, sir, I'd like next week off, if it's convenient.
CO—Oh, you would—what's up?
Sailor—Well, my girl's going on her honeymoon, and I'd like to go with her.
Some Miscellanea
A churchworker approached the town skiffint soliciting funds for foreign missions. "Huh, I never give a dime to them!" exclaimed the miser. The worker held out the bag with which she was collecting money and said, "Well, in that case, help yourself to some of this money! It's for the heathen, you know!"

Good Combustion
The bright yellow color of a luminous flame is self-evident proof of good combustion and no fuel waste, say engineers. Just the right mixture of fuel and air prevents the sluggish smoking flame of an air-starved fire, as well as the blow-torch flame which indicates an excess of air and waste of fuel.

Use Peaches in Salad
Fresh peaches, as well as canned, are excellent for use in salads. Cottage or cream cheese or chopped fruit served in the hollow of a peach-half makes an eye-appealing and appetizing salad. A cooked salad dressing made with fruit juice instead of vinegar gives the right finishing touch.

Omelet Ingredients
Flat omelets, fluffy omelets, whichever you like, the ingredients are the same. One or two eggs for each person, 1 tablespoon of milk for each egg, and salt and pepper to taste. To make omelets fluffy, beat the egg yolks and whites separately. For a flat omelet, beat all ingredients together.

WHEN DID YOU FIRST PLANT THIS WHEAT?
ABOUT TEN YEARS AGO.
PERFECT WHEAT. A RUSSIAN SCIENTIST HAS DEVELOPED A WHEAT THAT THRIVES IN WINTER OR SUMMER, IN WET OR DRY CLIMATE AND NEVER NEEDS RESEEDING.

Drying Agents Little Use to Uncured Hay
Preparations containing sodium bicarbonate, drying agents or mixtures of the two, offer little promise as a practical solution of problems involved in the storage of uncured hay, recent studies at Massachusetts state college reveal. The tests showed that prohibitive quantities would be necessary for effectiveness on stored moist hay. Other drying chemicals also have proven prohibitively high.

Auction Sale!
To settle the estate, we will sell the following at our farm 6 miles east, 2 1/2 miles north and 1 mile east of Cass City on
Thursday, Oct. 10
Commencing at 12:30 o'clock
