Food Locker Plant Plans to Start to Operate on Oct. 28

Equipment, Including 700 Lockers, Has Been Installed in New Building

A strike in the cork industry delayed the arrival of cork for insulation in the Cass Frozen Food Lockers from June 15 until last week. This and other delays in the arrival of materials has hindered the completion of this project, yet in spite of these impediments to progress the building has advanced rapidly considering these unforeseen delays and is now equipped with the necessary machinery and the operation of the plant will start Oct. 28. Open house will be held at the plant on Saturday, Oct. 26, from 2 to 8 p. m.

The building, constructed of cement blocks, is 96 by 51 feet in size. It is located on West Church St., just east of the plant of the Nestle's Milk Products, Inc. It is so situated that there is plenty of parking space in the front, back and along the side of the build-

Two 5 h. p. compressors are used for the quick freeze and locker rooms and a 3 h. p. compressor for the chill and aging rooms. The pre-chill temperature is kept at 34 degrees and in the aging room where meat is kept from a week to 10 days before it is cut up and processed, the temperature will be

On Monday evening, Oct. 7, a 6:30 dinner was enjoyed in the parlors of the Methodist Church by the Women's Society of Christian Service by group 4 in charge. Mrs. Audley Rawson was chairman and Mrs. Chas. Bigelow, hostess. A note of thanks was read by

Mrs. John Marshall, Jr., corresponding secretary, for the society's donation to Bronson Hospital and another "thank you" note for clothing to a minister in Arkansas who had lost all in a fire.

Mrs. Ed Baker, secertary of supplies, reported on the needs of Esther Hall. A fund was voted for them, also a Christmas box.

The following nominating committee was named for next year: Mrs. Don Lorentzen, chairman, Mrs. Walter Schell, Mrs. Wm. Profit, Miss Laura Maier and Mrs. Grant Patterson. This group will submit a report at the November meeting.

Mrs. E. Douglas was devotional leader. She read a short story from "Sermons in Stones" by Stiger and Mrs. Howard Wooley read

Unless Citizen Re-registers on or Before Oct. 16 He Will Be Ballotless on Nov. 5

In a message from Paris, Senator Vandenberg expressed his grave concern over the low percentage of re-registrations in some sections of Michigan.

"I am afraid that many yeople do not understand that they will lose their right to vote in November if they do not register," the Senator said. "They will disfranchise themselves. One of the things we are struggling for over here in post-war Europe is to get FREE BALLOTS into the hands of FREE ELECTORS. Upon our success in this regard may well depend the fate of several European countries. In our own democracy it is no less true that the fate of the nation depends upon FREE BALLOTS in the hands of FREE ELECTORS. But they are of no use unless the ELECTORS do their part.

"It would be tragic if our good people at home were to ignore this priceless privilege which we are fighting to make available to free men abroad. I am sure every American values his ballot as he does his life.

" I earnestly urge that every possible effort be made to acquaint all our Michigan voters, regardless of Party, with this new re-registration requirement so that no citizen will be unaware of the fact that unless he re-registers at once he will be as ballotless on November 5th as if he lived in one of these enslaved European minorities."

Woman's Study Club **Hears Timely Talks**

The Woman's Study Club met Tuesday afternoon, Oct. 8, at the home of Mrs. Henry McLellan. Mrs. Grant Patterson gave talk from her hobby book on the origin of this and that. Mrs. Harry Young presented an up to the minute discussion on our legislature and its activities, followed by the history of Cass City by Mrs. Ella Vance. This was made interesting by roll call which were reminiscences which dated back to the fire of '81.

The next gathering of the club is an evening meeting at eight o'clock on Oct. 22 at the home of Mrs. Fred Maier.

ORCHARDS Thrive on Legumes

A good legume or grass-legume cover crop in the orchard does three things: 1-Prevents erosion, 2-Supplies organic matter, 3-Grows nitrogen. Legumes are heavy feeders on potash. Make sure in fertilizing your cover crop that you apply enough of this plant food to provide for a heavy stand and vigorous growth of legumes. In this way the trees will get potash, which they use in amounts about equal to nitrogen.

Consult your agricultural adviser about the fertility of your soils. Then see your dealer about a fertilizer that will supply enough potash to supplement what your soil will make available.

Eat With Relish If You Put Up Own Pickles, Chili

After you wash jars for canning, sterilize them by pouring hot water to fill, then empty water from them and set the jars inverted on a clean towel until ready to use.

Your family won't go without those tasty pickles, chili sauces and catsup if you put up your own sup-plies this sumplies this summer and fall. We don't know what market conditions will be for these products

during the next year, but if you have your own you won't be a slave to market conditions.

Most canning budgets will permit putting up some relishes because as a general rule, they do not require too much in the way of sweetening. If these recipes prove too generous in quantity, cut them in halves or quarters and follow instructions.

I'm including old favorites in pickles and relishes which I'm sure will add much to your personal eating pleasure during the winter. It's easy to make pickles because they have enough vinegar and spices so that you will not have to worry too much about spoilage.

Now, let's get the jars ready and make plans for canning on the next fairly cool day that comes along. I know you'll want a good supply of these two favorite pickles for next

vitamai Component

One important component of the vitamin B complex is calcium pantothenate, the widely advertised anti-gray-hair vitamin. Although the results with humans have not been proved conclusively, experiments on animals have shown that scientists are on the right track. The medical profession as a whole, however, does not give its unqualified approval to the 100 per cent success of calcium pantothenate as related to gray hair; statistics indicate that only 2 cases out of 19 under observation were benefited by injections.

Busy State Manufacturing, much of it directly related to agriculture, gives Iowa an industrial income nearly equal to that derived from its farms. Meat-packing and food-processing plants, canneries, tractor factories, and other farm implement plants reflect the state's agricultural character. But Iowa also has one of the largest fountain pen factories, washing machine factories and button-making industries in the country.

Spraying Pays Off In a test last summer with range cattle, use every two weeks of an insecticide spray containing 0.2 per cent DDT for control of horn flies and cattle lice resulted in an average increase of weight of 50 to 75 pounds per steer in a season. On dairy farms, spraying of cows with an effective repellent is said to result in increased milk proSafe Laundering

Fine fabrics require a neutral soap for safe laundering. Neutral means that the scap has very little residue of alkali in it. Flake scaps and scap beads are usually this type. They have another advantage, too: their form makes them dissolve readily in water. Soaps containing water softeners are not neutral, so extreme care should be taken if they must be used on fibers affected by alkali. Even cotton and linen are "tendered" somewhat by the use of such soans.

Don't be surprised if the old recommendation to reduce the state sales tax from 3 to 2½ per cent is dusted off during the 1947 state legislative session. We understand that the proposal, once rejected by the state tax study commission, is being seriously reconsidered. Reason: Cities would be given the right to levy a onehalf cent local tax.

Retherford, sub. .. Each week finds different teams making bowling news in the city league and so we have the Ludlow and Wooley squads coming up for a share of publicity as they were the only teams to romp through for clean sweeps against their opponents to add another four points

to their records.

The Wooley five, led by their No. 1 bowler, Ernie Croft, with a count of 552 pins to his credit, gave the best exhibition of bowling as the team gave the Wallace squad a good going over. The Mc-Cullough team continues to top the league and now holds a one point advantage over the second place Parsch pinsters. Frank Novak, acting as substitute and having bowled every week since the schedule opened, came in with the highest totals for the week when he slammed the maples about for a real 588 count. He was followed by Capt. Reid's 559 and Croft's 552 to land these three bowlers on the weekly honor list. A few games over 200 were rolled and Fred Maier's 214 was Other 200 games were high. credited to Reid 213, Mzyk 205, Wilson 205, Croft 203, F. Novak 203 and Gremel 202.

and Mrs. John Parrott and was born May 25, 1860, in Essex County, Canada. At the age of 21 he accompanied his parents to the Shabbona community. In July, 1887, at Cass City he married Arta Keyworth. Following their marriage, they lived at Shabbona and Holbrook for six years and in 1893 bought a farm in Novesta Township, southwest of town. Mr. Parrott operated saw mills for many years and devoted the later years Oct. 15-17 to farming from which he retired eight years ago. For many years he attended both Mennonite and Methodist churches,

"GIVE A SCOUT A JOB WEEK" FROM OCT. 13 TO 19

The Valley Trails Council, Boy Scouts of America, has designated the week of Oct. 13 to 19 as "Give a Scout a Job Week." The purpose of this activity is to create an opportunity for Boy Scouts to earn money to put into camp savings. Scouts earn their way, and there are many jobs that home owners can make available. Scouts have been instructed to get out and find these jobs during "Give a Scout a Job Week." The scout office is not an employment office. Scouts are
