

Harry L. Little to Head Community Club for 1947

Society Heard Address on Outlook for Agriculture in Coming Years

Eight men representing as many churches in the community were elected as members of the board of directors of the Cass City Community Club when that society met for their November meeting at the school auditorium Tuesday evening. They are: Leo Ware of the Baptist Church; Alger Freiburger, Catholic; Claud Peasley, Church of Christ; George Dillman, Evangelical; Dr. Delbert Rawson, Cass City Methodist; Lyle Guinther, Nazarene; Harry Little, Presbyterian, and Emory Lounsbury, Sunshine Methodist. Murray DeFrain was chosen as member at large.

Later in the evening, the board of directors elected the following officers for the coming year: President, Harry Little; vice president, Dr. Delbert Rawson; secretary, Murray DeFrain; treasurer, Alger Freiburger.

The election of directors followed a bountiful dinner served by the Ladies' Aid Society of the Baptist Church.

Frederick Pinney, program chairman for the month, introduced Walter B. Garver, agricultural economist on the staff of the Federal Reserve Bank of Chicago as the evening speaker on the subject "Outlook for Agriculture in 1947." Concluded on page 10.

Missionary to Speak on Africa in the Evangelical Church

The annual thank offering service of the Women's Missionary Society and its affiliated groups of the Evangelical Church will bring to our city, the Rev. R. H. Evans, pastor of the Unionville Methodist Church. He will speak on Africa at the eight o'clock service Sunday evening.

Rev. Evans has had extensive experience in the mission field of the Dark Continent. He will bring a display of objects from that land, and thus, through both the eye and the ear, will make Africa very real to the congregation. Members of the W. M. S., the Youth Fellowship, and the Mission Band are asked to bring their thank offering. The public is cordially invited to share in this service.

R. Bailey Made Life Member of Tyler Lodge Here

Members of Tyler Lodge, F. & A. M., enjoyed a bountiful turkey dinner at the lodge dining hall Friday evening. Following this, the third degree of the order was conferred upon Charles Merchant and Carl Reagh.

Richard Bayley, who joined the order in October, 1906, was presented with a life membership. "Dick" served the local lodge in all its stations and is as well versed in the rituals of the order as any member of Tyler Lodge. The presentation was made by Past Master M. B. Auten.

Comps for Local Milk Distributors

Charles Mortimer, state dairy inspector, said the milk sold by Cass City's two local milk distributors had the lowest bacteria content of any town in the Thumb. This compliment to Clarence Burt and A. Fort & Son, was given at an address at a recent Rotary luncheon at which Mr. Mortimer explained the inspection methods of dairy manufacturing plants by the State Department of Agriculture.

JAMES WALLACE BROKE RIGHT LEG AT BAD AXE

James Wallace, 15, a sophomore, had the misfortune to break his right leg just above the ankle Wednesday evening while practicing football at Bad Axe. He was taken to Hubbard Memorial Hospital and removed to his home here Thursday. Besides breaking the leg, the ankle was badly sprained. With the leg in a cast, he will be able to travel on crutches.

Miss Martinek Has Re-enlisted in Navy

Dagmar Martinek, Ph. M. 1/c, U. S. Women's Naval Reserve, left Monday evening for Detroit to board the New York Central Railroad for Jacksonville, Florida.

Miss Martinek has been in the Navy three and one-half years and has re-enlisted until July, 1947. She will be stationed at the U. S. Naval Hospital, Jacksonville, Florida. She spent a sixty-day leave with her parents, Mr. and Mrs. Frank Martinek, of Gagetown. She was previously stationed at the U. S. Naval Hospital, Norfolk, Virginia.

Local Church Involved in Merger Tomorrow

Evangelicals and the United Brethren to Join in One Church

November 16, 1946, will be historic in the life of the Cass City Evangelical Church, as also for nearly 2,000 other congregations of that denomination, when, on that day, a merger with the 4,700 congregations of the Church of the United Brethren in Christ will take place.

The Caro and Fairgrove Evangelical Churches, and the Gifford United Brethren Church of Tuscola County, will also be a part of the merged denomination. Negotiations beginning deep in the past century, led to the definite adoption of a plan and basis for union in 1942, and the Evangelical United Brethren Church will come into official existence tomorrow (Saturday) as a result of these negotiations and subsequent actions.

The new church will have a

Bride Wore White Velvet at Wedding

From Gagetown Correspondent: Miss Marjorie Fuester, daughter of Mr. and Mrs. Lynn Fuester, of Cass City, was gownned in white velvet with a long train when she became the bride of William Repshinska, son of Mr. and Mrs. Anthony Repshinska, of Gagetown, on Saturday, Nov. 9. Right Rev.

Mrs. Wm. Repshinska

Msgr. John McCullough performed the ceremony at nine o'clock in St. Agatha Church in Gagetown. The bride was given in marriage by her father.

As maid of honor, Miss Marie Repshinska of Gagetown was dressed in aqua nylon taffeta and the bridesmaid, Mrs. Marilyn Crane, of Pontiac, in pink nylon taffeta. Joan Fuester, daughter of Elmer Fuester, was flower girl and wore a dress made identically as the bride's. Richard Walsh of Gagetown was the groom's attendant.

200 Licenses Issued Here to Deer Hunters

Many hunters from Cass City and vicinity left this week to hunt deer in the north woods. William Ball, 80, was the oldest hunter to purchase a license and Gerald Priekorn and Kenneth Klinkman were the youngest hunters licensed. Previous to noon Tuesday, Otto Priekorn had issued hunting licenses to the following:

B. C. Patterson, Ray Fleenor, Earl Douglas, Arthur Craig, Chas. Bond, Merle Hoag, Vernon Birmingham, William McKenzie, Charles

Hospital Fund Auction Reached \$5,780 Thursday

Unsolicited Cash Contributions Added \$1,200 to the Day's Receipts

The auction sale for the benefit of the Cass City Community Hospital fund last Thursday afternoon was most unusual in many respects.

In the first place all animals and articles were contributed for the event and the services of those who solicited the items and those who conducted the sale were free, so the expenses attending the sale were nil.

The receipts totalled \$5,780.00. While no cash contributions were solicited, several persons having the fund brought to their attention by the auction, decided to make cash donations of \$1,200. The hospital fund thus received \$6,980 because of the auction event.

The sale differed largely by fantastic bids offered for various items. Coffee sold as high as \$30 and \$50 a pound, 10 pounds of sugar went for \$15, and a yearling lamb brought \$155.

E. B. Schwaderer contributed a steer for the sale and bought it back for \$790, while Dr. H. T. Donahue gave a baby beef and liked the animal so well he paid \$350 so he might take it home again.

Union Thanksgiving Service is Planned by Three Churches

Music from the Girls' Sextette, newly organized by Lloyd Bartley, of the high school music department, will be a feature of the union Thanksgiving service planned by the Evangelical, Methodist and Presbyterian churches. This service will be held in the Methodist Church, a change from the previous announcement, and on the evening of Nov. 24, at eight o'clock. "The Pale Horseman," a film presenting the human problems of health and disease, left in the wake of the war all over the world, will be one of the films shown. Measures taken by UNRRA against this Pale Horseman will be described. Children and their welfare have a universal appeal to the human heart. A 10-minute film, "Suffer Little Children," will show how they who survived the war, must suffer still because of the aftermath of war.

A true story, "The Sand and the Star," will be another film presented, revealing how refugees from Yugoslavia were taken to a tent city in the Egyptian desert. "Freedom and Famine" will depict the problem of a typical French family.

The evening offering will be used for relief.

Boat Engine Trouble Delays Ocean Trip

Mrs. Gerald Kercher, who left New York City on Oct. 31 to join her husband, Lt. Kercher, at Munich, Germany, has returned to New York. The boat, General Hawze, on which she and a large group of service men's wives and children composed most of the passenger list, developed engine trouble and after being out seven days on the Atlantic, the vessel turned back to the States. Mrs. Kercher has informed her parents, Mr. and Mrs. Lyle Koepfen, that she expects to sail again on Nov. 18, on another boat.

Three Dairymen's Meetings in Tuscola

Dairymen of the county may attend one of the three "Mastitis Control Meetings" scheduled as follows, for next week:

Vassar High School, 8 p. m., Tuesday, Nov. 19.
Court House, Caro, 2 p. m., Wednesday, Nov. 20.
Kingston High School, 8 p. m., Wednesday, Nov. 20.

Dr. George Weaver, extension specialist in animal disease control, will present information dealing with the latest discoveries in the field of mastitis prevention and control in dairy herds.

It is estimated that nearly one-fourth of dairy cattle in Michigan are infected. That means about 6500 head in Tuscola County.

Three Generations of Dickinsons Employed by Telephone Co.

Courtesy, Huron News.

John A. Dickinson (right) of Bad Axe is the proud head of a three-generation team of Michigan Bell Telephone Company employees. His son, Ivan G. (left), and granddaughter, Gemarice (center), are with the company at Mt. Clemens.

John A. Dickinson, formerly of Cass City, combinationman at Bad Axe for the Michigan Bell Telephone Co., is the father of Ivan G. Dickinson, exchange repair foreman at Mt. Clemens. He also is the grandfather of Miss Gemarice Dickinson, switchroom helper, also of Mt. Clemens.

John Dickinson has been in the telephone business 28 years, including some 19 with Michigan Bell. He started with the former Consolidated Telephone Company in Bad Axe in 1918 and transferred to Michigan Bell when it purchased the Consolidated's properties in 1927. He had charge of

both maintenance and installation of subscribers' telephones in Bad Axe. Dickinson is a member of the Telephone Pioneers of America.

Son Ivan has been with Michigan Bell since 1927 and has worked in Rochester, Pontiac, and Mt. Clemens. He was promoted to his present post at Mt. Clemens last August.

Gemarice went with Michigan Bell last June at Mt. Clemens on the relatively-new job of switchroom helper, created at the height of the manpower shortage. Switchroom helpers wear slacks and perform certain mechanical duties on central office equipment.

Tax Problem to Be Headache to Administration

State Legislature to Wrestle with Question in 1947 General Session

Governor-Elect Kim Sigler and his all-Republican state administration at Lansing are going to have a financial headache of preposterous proportions after January 1.

All because of Michigan's Nov. 5 atomic bomb — the voters' thumping approval of the sales tax amendment and the \$270,000,000 veterans' bonus.

How to solve the problem of operating state public services on revenue shorn of two-thirds of the state sale tax — the traditional Michigan goose that lays the golden eggs — is sure to give Governor-Elect Sigler and his advisors plenty of worry. The state legislature will have to wrestle with the problem in the 1947 general session, certain to be convened early in January.

Legislators will be confronted with two tough alternatives.

First, should state services be drastically curtailed or eliminated in order that the expenditures of the next fiscal year (starting July 1, 1947) may be brought into balance with the state's shrinking revenues?

And if so, what services should be lopped off or dropped?

Should the state educational institutions — University of Michigan, Michigan State College and all the others — be granted additional funds for housing of veterans, completion of needed classroom buildings and other improvements long deferred since advent of the Great Depression in 1932?

How about hospital additions? Twenty more guards are needed at the state prison at Jackson? Well, the list is long. Someone must make a decision; someone must make a priority. We sympathize with the legislature trying to work this one out. It's not going to be easy.

Second, should the State of Michigan enact new taxes? The \$270,000,000 veterans' bonus, Turn to Mich. Mirror, page 7.

Pvt. Wilbur Silvernail, stationed at the Aberdeen Proving Grounds, Maryland, came to spend Sunday with his parents, Mr. and Mrs. Ray Silvernail.

Virgil Champagne, Miss Schenk Wed

Miss Arlene Schenk, daughter of Mr. and Mrs. William Schenk of Ubyly, became the bride of Virgil Champagne, son of Mr. and Mrs. Peter Champagne, of Bad Axe, in the Presbyterian Church here Saturday evening at seven o'clock. Rev. M. R. Vender officiated at the quiet ceremony read before the church altar.

Attendants were Miss Charlotte McLean of Bad Axe and James Champagne, brother of the groom. The newlyweds will make their home in Bad Axe where the groom is employed.

Motorists Given Driving Warning for Winter Season

State Police Commissioner Urges Auto Owners to Be Ready for Dangerous Days

With the approach of cold weather, Oscar G. Olander, commissioner of state police, urged automobile and truck owners to prepare their vehicles now for the dangerous wintry days ahead.

"Traffic accidents go up as temperatures go down," the commissioner said.

He cited figures to prove the statement. Last winter traffic accidents were 79 per cent higher and death and injury rates were up 40 per cent, compared with last summer.

The figures, Olander said, were on the basis of 100-million miles of travel.

Principal causes of increased accidents are poor traction and poor visibility. Visibility is reduced by frost or snow on windshields, side and rear view windows, and longer hours of darkness. Inadequate traction comes from snow and ice and either new tires or worn treads.

According to state police studies, half of last winter's fatal accidents occurred on wet, snowy or icy roads, and three out of four took place during the hours of dusk and darkness.

The commissioner urges a check of all safety parts, particularly brakes, tires, windshield wipers, defrosters, lights, tire chains and the exhaust system.

While highway crews do an excellent job in reducing hazards it is not possible to reduce snow and ice at all times and from all roads.

For that reason automobile drivers should assume a greater preparedness.

Advanced Speech Class to Present Annual Play

If you are seeking an evening of merry entertainment you will enjoy the comedy, "Faith, Hope and Flarity," to be presented by the advanced speech class on Friday, Nov. 22, at eight o'clock at the Cass City High School.

Mr. Crabbe, rich and fiery tempered, has promised one of his daughters in marriage to his old war buddy's son. The girls and young Flarity, however, are not in accord with the plan, and a series of hilarious events follow.

The parts are played by the following:

Sally Parsons the maid
Mary Ann Bishop the butler
Henry Blodgett the butler
Don Partridge the cook
Mrs. Orkney Erma Nagy
Mamie McCorkle the cook
Beatrice McIntosh the maid
Faith Crabbe Edith Butler
Monty VanTwiller Gene Sickler
Reggie VanTwiller Doug Partridge
Quandlander Crabbe the maid
Duane Kettilewell Ken Weatherhead
Jack Quinlan Fred Maciejewski
Ivy Lane an actress

70 AT HOME-COMING OF NOVESTA CHURCH OF CHRIST

The Novesta Church of Christ observed the annual home-coming day on Sunday. More than 70 attended the morning service and enjoyed the potluck dinner in the church basement. Services were also held in the afternoon and evening. Former residents here came from Flint, Pontiac and Caro for the occasion.

Breeders Make Plans for Fat Steer Sale in September

Name of New Organization Is Cass City Beef Feeders' Show and Sale

Several breeders of beef cattle of the Cass City vicinity met at the high school Monday evening, Nov. 11, and made plans for a fat steer sale to be held in Cass City in the fall of 1947.

The name of the association will be known as the Cass City Beef Feeders' Show and Sale. The purpose of this organization will be to promote the raising and feeding of better livestock for home consumption. The qualifications for entry are: The steer must be sired by a registered beef bull and the dam must be purebred or grade beef cow. The feeder must be a farmer in the vicinity of Cass City. The show and sale will be held some time in September, 1947.

There will be a \$5.00 entry fee for any steer entered in this show, the money to be used for prizes and sale advertising.

Any farmer wishing to enter a steer may make his entry with Alfred Goodall, secretary-treasurer of this organization.

Marlette Entertained W. C. T. U. Convention

A good attendance is reported at the sixty-sixth annual convention of the Woman's Christian Temperance Union of the seventh district at Marlette last Thursday and Friday. Six counties were represented.

Outstanding features of the meeting were an address by Mrs. Dora B. Whitney of Benton Harbor, state president; a panel discussion, led by Rev. John Saf of Cass City; and a children's hour conducted by Mrs. Bertha McGunagle of Marlette. The music, offered by local talent of Marlette, was of a very fine character.

Mrs. Genie Martin
All district officers were re-elected. Mrs. Genie Martin of Cass City was chosen president for the fourteenth consecutive year. Other

Past Matrons of Gifford Chapter Install Officers

Tall baskets of fall flowers and candles formed a beautiful setting for the impressive installation when Miss Jean Wallace was installed worthy matron of Gifford Chapter, No. 369, at Gagetown. Mrs. Chris Roth presided as installing officer, assisted by Mrs. Joseph Crawford as marshal, Mrs. Olin Thompson as chaplain, Mrs. Ralph Clara as soloist and organist.

Echo Chapter, Cass City, formed a beautiful escort for the new worthy matron, who was escorted to the East by her mother and her aunt, Mrs. Roy Stafford, who presented her with a beautiful gift from Echo Chapter.

Other officers installed were: William Profit, worthy patron; Mrs. Leslie Beach, associate matron; Leslie Beach, associate patron; Mrs. George Wallace, secretary.

WONDER DOG

Joe Purdy, an ex-soldier living out South Dakota way, adopted a former army pal, a dog who served with him in the signal corps. The observant animal had watched Joe for many hours while he wigwagged messages with flags.

One day Joe took his dog out to look for birds. They were in a broken, hilly portion of the state, in a section sparsely covered with patches of underbrush and small pine trees. The dog was about 800 feet in front of his master, up on the brow of a small hillock, when suddenly he stopped and stuck his tail straight up in the air. Then his tail began to jerk first one way and then the other. It was transmitting a message! Joe watched breathlessly, while the sagacious animal wigwagged:

"Joe — have you — got — any — heavy — ammunition? Unless — you — have — got — the — heck — out — of — here. Big — brown — bear — up — here — coming — your — way — Vamoose!"

Raw Cabbage Best
Air, water and heat are the thieves that rob cabbage of its vitamin C. So the less you cut, cook or have to store cabbage the more vitamin value you receive for your money. Young green cabbage fresh from the garden, washed and eaten raw is the ideal way to get the most flavor and food value that cabbage can give.

Beeswax Has Many Uses
Beeswax is used in making candles, insulation, modeling clay, textile art work, cosmetics, floor and furniture polishes.

Drowning Victims
Nearly half of each year's drowning victims live in rural areas, and the majority of these could have been prevented, the National Safety Council says. The council also found that nearly 80 per cent of farm residents who drown are non-swimmers and that the majority of all infant drownings probably occur on farms.

Ancient Green
Watercress is one of the most ancient of all greens. It was used by Persians, Greeks and Romans for its healthful qualities. It is rich in vitamins A and C, calcium and iron.

Weed Flavors
Damage from weed flavors in milk and cream becomes worse as the hot weather in late June and July causes pastures to dry up. This forces cows to eat more weeds.

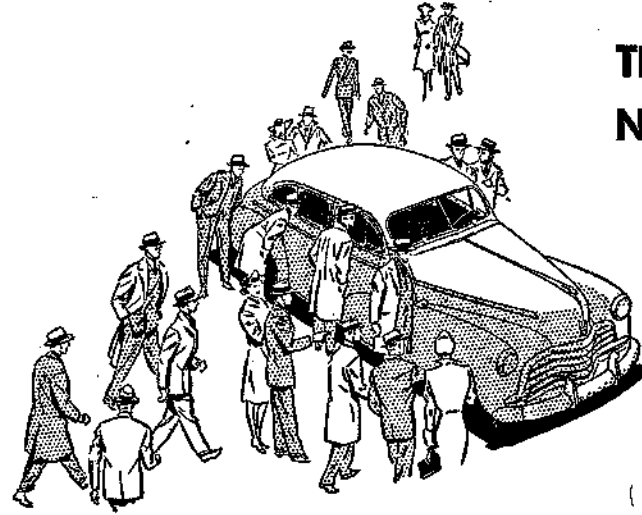

Peaches Nutritive
While the flavor of peaches is reason enough for eating them, on the nutritive side, peaches offer a fair amount of vitamin C, and the yellow fleshed varieties are a good source of vitamin A.

Ice Yachts Speedy
Ice yachts can travel three to four times as fast as the wind pushing them. Speeds of 140, 124 and 119 miles per hour have been recorded on isolated dashes.

Imported Bees
Bees are not native to America but have been imported chiefly from Europe. German and Italian are the most common.

Old Hog Culture
Reynolds Scott in England published a "treatise on the culture of hogs" in 1574.

THERE SIMPLY ARE NOT ENOUGH NEW CHEVROLETS TO GO AROUND

We are getting our fair share of the current production of new Chevrolet passenger cars and trucks. And as strikes and shortages decrease, as the Chevrolet plants are able to produce more and more new passenger cars and trucks, we'll get more and more of them to deliver to our customers.

Meanwhile, as long as shortages do exist, it is our purpose to apportion our share of the new Chevrolets available fairly and justly among the many customers, new and old, whose continued friendship and patronage are the keystone of our business.

So that you may have no doubt as to our method of distribution of new Chevrolet passenger cars and trucks, we make the following—

DECLARATION OF POLICY

1. PRIORITY OF DELIVERY—New Chevrolet cars and trucks will be apportioned on the basis of: (1) essential public services, (2) veterans' occupational requirements, (3) priority of date in placing orders.

2. PRICES—All new Chevrolet cars and trucks will be sold at the authorized prices current at time of delivery.

3. TRADE-INS—No trade-in will be required from any customer who does not have a car to dispose of at the time of the transaction. Customers who do have cars will be given allowances based on honest appraisal and fair value at the time of delivery.

4. ACCESSORIES—No customer will be asked to purchase accessories as a condition of securing delivery.

5. STATUS OF ORDERS—Customers will be informed, upon request, of the true status of their orders in our files.

6. NEW ORDERS—We welcome your order for a new Chevrolet at any time.

WE THANK YOU FOR
YOUR PATIENCE AND LOYALTY

Officers for the Church of Christ were elected Thursday at the annual meeting as follows: Mack Little, chairman of the board; Mrs. Mack Little, clerk; Mrs. Neil McLarty, treasurer, and Mrs. Carl Stoner, assistant treasurer. Robert Neil McLarty was elected trustee for a three-year term.

Ten members of the Adult Bible class of the Methodist church were present last Wednesday afternoon when Mrs. Anna Patterson was the hostess. A program of readings and a Bible quiz were enjoyed. The hostess, assisted by Mrs. Walter Schell, served refreshments. The December meeting will be a Christmas party.

Kenneth Higgins, a student at General Motors School of Engineering in Flint, has been named a member of the conference committee which is composed of three faculty members and three student members. The committee is an advisory board for G. M. T. E. council and has the responsibility of interpreting the constitution and by-laws.

The Verdict

"This," said the late Al Smith, "actually happened in Tammany hall."

There was a certain prominent politician familiarly known around the hall as "Harry," who occasionally favored the members of that democratic body with a speech of the flamboyant, spread-eagle variety.

One day this scintillating statesman arose before an assemblage in the auditorium and proclaimed: "God is my witness, and you, my fellow citizens, are the gentlemen of the jury!"

A dramatic pause. Then, from out of the darkened gallery came the resounding reply: "You're guilty, Harry!"

No Mind Needed

For years, Grandpa Tubbs had been stubborn and crabbed. No one in the village could please him. Then, overnight, he changed. Gentleness and optimism twinkled about him.

The villagers were amazed. "Grandpa," he was asked, "what caused you to change so suddenly?"

"Well, sir," Grandpa Tubbs replied, "I've been striving all my life for a contented mind. It's done me no good, so I've just decided to be contented without it."

Expensive Fireplace

Sitting in the house of commons when news was brought to him that his Drury Lane theater was on fire, Richard Brinsley Sheridan excused himself and hastened to the scene of the conflagration.

A huge crowd blocked his approach to the fire. He elbowed his way to the front and crawled under the ropes. A burly policeman blocked his way.

"I say," protested Sheridan, pleasantly, "surely a man may warm himself by his own fire."

Call Out Armor In Food Riots

Cars Form Mobile Squads to Guard Convoys and Put Down Violence.

HAMBURG, GERMANY. — British occupation officials announced that mobile armored squads have been organized to put down food riots and root out sabotage groups taking advantage of tension resulting from the general hunger, says the United Press.

Armored cars will join military forces protecting food convoys if additional "difficulty" occurs, the announcement said.

Rations Devoiced.

Severe restrictions are to be placed upon the Germans to prevent them from buying and devouring their entire month's ration in a "few days," authorities said. German officials said that had happened on a large scale in Hamburg recently.

The British expressed doubt that 70 per cent of Hamburg's population was without bread because of this practice, as German civilian officials claimed.

Flour Supply Adequate.

"Checks show that bakers' shops still have adequate supplies of flour," one British official said. "We believe the looting recently was due to a highly vociferous minority."

Meanwhile, authorities scoured Scandinavia and the empire for new food supplies. An announcement said a British control commission was seeking fish and canned vegetables to substitute for the meat ration.

Seek Supplies.

Supplies are being sought in the United States, Britain, South Africa, Australia, New Zealand, Denmark and Norway. The search has uncovered quantities of white cabbage, carrots and Swedish turnips in Denmark which have been bought for immediate shipment to Hamburg, according to reports from Copenhagen. The vegetables were valued at 1,500,000 kroner (\$300,000 at the 1939 rate of exchange).

First consignments of other foreign food shipments are en route to the British zone, and all should arrive in the next few months, commission officials said. However, they foresaw only a 10 days' supply of flour and insufficient quantities of all other foods except fish.

Additional supplies will be needed, it was announced, to maintain even the "Belsen" ration of 800 calories a day introduced in the British zone on April 1.

"If rations are not increased we shall begin to see its effect on the population in the British zone in a short time," said a high British medical officer. "What happens after that is anybody's guess."

United States Navy Sinks 24 Japanese Submarines

ABOARD U.S.S. GOODRICH OFF SASEBO, JAPAN. — Twenty-four Japanese submarines, including the I-58 which sank the cruiser Indianapolis just before V-J Day, were sunk by the U. S. navy recently with demolition charges and gunfire.

The submarines, deemed unfit for salvage, sank in 900 feet of water off the once-great naval base of Sasebo.

Navy crews enthusiastically completed within three hours the job which they had dubbed "operation road's end."

The Japanese crews as a farewell gesture lashed cherry blossoms to the periscopes of their vessels just before they moved out of Sasebo at dawn under their own power.

Fat of Wildcats Adds to Contributions in Oregon

ST. HELENS, ORE. — Mrs. Stella Soderstrom of Cedar Grove added up her contributions to the waste fat drive during the past year and found she had given 200 pounds which she rendered from 38 wildcats, 5 coyotes, 10 bears—and a few skunks.

Mrs. Soderstrom got the idea when she killed a fat wildcat which invaded her hen house. She skinned it, rendered it and traded the fat to a butcher for four cents a pound.

Four Century Lapse Overcome by Yanks

SEOUL, KOREA. — Three stories of a dismantled Buddhist pagoda rested on the ground in a park here for 434 years, but Yank engineers put them together in three days.

Thousands of Koreans watched as the 1778th engineer construction bn. restored the treasure, dismantled in 1512.

Columbia Job

NEW YORK. — Appointment of Paul H. Davis, general secretary of Stanford university, as assistant to the president of Columbia university was announced recently.

Assets Unfrozen

LOS ANGELES. — The \$1,200 that Lucille Bassolo had on ice vanished. A thief found the money later in the refrigerator, but missed \$800 which was hidden in a pepper box.

FARMERS FAVOR THE ADVERTISING OF PRODUCTS

The West Grant Farm Bureau group met at the home of Mr. and Mrs. Nick Alexander, Nov. 4, with 20 members responding to roll call.

In a very interesting discussion on "Shall Michigan Farmers Advertise to Develop and Maintain Their Markets?" it was agreed that all were in favor of advertising all farm products.

"Bob" Osborn read and explained the three amendments to be voted upon Nov. 5. Two songs were sung by the group and contest games played with prizes awarded.

Potluck lunch was served. Next meeting to be held with Mr. and Mrs. Clayton Gimmell.

HOLBROOK

Delayed Letter

Mr. and Mrs. Arthur Schneider entertained the Holbrook Farm Bureau in their home on the evening of Tuesday, Nov. 5, with Chairman Charles Simkins presiding. Arthur Schneider led a very interesting discussion on "Advertising Farm Produce." The conclusion was reached that more money should be furnished for the purpose by the producers, and that uniform grading laws should be better enforced to make the product more desirable. Entertainment was furnished by Robert Hall, a guest for the evening, and a potluck lunch was served by the hostess. The hosts for the next meeting on Dec. 3 will be announced later.

Mrs. Donald Becker entertained about 20 ladies at a shower, honoring Mrs. Werner Shuttles of Elkton on Wednesday. Games were played and a lunch was served by the hostess.

Caro Pedestrian Met Death When Hit by Automobile

John Wolosynck, 57, of near Caro, was hit by a car driven by Carleton Blasius, 25, of Caro, and died in Caro Community Hospital at three o'clock Sunday morning, about three hours after the accident, which occurred one-half mile southwest of the county seat, on M-31. He received a fractured skull, a broken leg and internal injuries.

No inquest will be held, said County Coroner Lee Huston. Mr. Huston found that Wolosynck was walking on the wrong side of the pavement and Blasius, the driver of the car, was exonerated from blame in the accident.

Blasius told Deputy Sheriff Vernon Everett, investigating officer, that he did not see Wolosynck until an instant before hitting him, because of lights from an approaching car, which blinded him. At that moment, Blasius said, Wolosynck was walking on the pavement three feet from its edge, in the path of the Blasius car going southwest.

Mr. Wolosynck is survived by his widow, two daughters and a son.

John J. McCallum Died in Detroit

Funeral services for John J. McCallum, 52, a former resident of Sheridan Township, were held Monday at 1 p. m. in the Little funeral home. Mr. McCallum was found dead in his bed in the Dixie Hotel in Detroit, having died of a heart attack. For the past 25 years, he had been employed with the D. & C. Steamship Lines on the Great Lakes and left the lakes Nov. 1. Rev. M. R. Vender officiated at the service and burial was in Erskine Cemetery.

Son of the late Alexander and Mary Patterson McCallum, he was born at Houghton, Mich., and was never married. He is survived by two brothers, Alex L. McCallum of Dallas, Texas, and William R. McCallum of Detroit and an uncle, Colin McCallum of Uby. He was a member of a Detroit Presbyterian church.

Mrs. Maier Shows Pictures at Club Meeting Thursday

As a diversion from the usual procedure, Mrs. Fred Maier showed pictures in color projected on a screen at the meeting of the Home Extension Group No. 1, in the social rooms of the Methodist Church Thursday evening. Views included local scenery, the beautiful Maier gardens, the Cass River, nearby woods and places of interest in Caseville, Bay Port, Pte. Aux Barques and Port Austin.

The lesson on mending was concluded by Mrs. Doris Benkelman when she gave helpful suggestions for repairing woolen goods. Mrs. Berkley Patterson presented part of the lesson on "Correlation of Color in the Home." The second part will be given at the Christmas meeting which is being planned for Dec. 10. The committee for this gathering will be Mrs. Albert Gallagher, Mrs. D. A. Krug, Mrs. Herman Doerr and Mrs. C. L. Graham.

The meeting Thursday evening was preceded by a six o'clock luncheon, served by Mrs. A. H. Kinnaird, Mrs. John West, Mrs. F. L. Morris and Mrs. Herb Ludlow.

New Crops for Ireland
In 1586, on his return to Ireland from Virginia, Sir Walter Raleigh introduced potatoes and tobacco.

Storing Honey
Liquid honey should be stored in a warm, dry place.

Gathering Eggs
Eggs should be gathered two or three times a day and cooled quickly during the hot summer season.

Concluded from page 1.

For example, will be financed chiefly by state bonds. These bonds, if sold at 1½ per cent interest and retired in 20 annual installments, will cost well over \$300,000,000. The interest cost alone would be \$42,000,000.

While the amendment limits a bond issue to \$270,000,000, it also provides that any person who served in the armed forces between Sept. 1, 1940, and June 30, 1946, and who was a resident of Michigan at least six months prior to entering the services and who served for more than 60 days shall receive a bonus. This bonus will be computed at the rate of \$10 for each month of domestic service and \$15 for each month of foreign service. The maximum payment is to be \$500.

However, additional payments are also authorized.

Surviving dependent relatives (husband, wife, children, mother, father, brothers and sisters) of a service man or woman who died or who shall die hereafter from service-connected causes incurred between Sept. 16, 1940, and June 30, 1946, shall be paid a sum equal to the difference between what he has received and \$500.

How much will all of this cost the Michigan taxpayer?

The Michigan Public Expenditure Survey estimates the bill at \$348,000,000. It believes that the general fund will be called upon to supply \$31,500,000 as an ADDED amount to the \$270,000,000 bond issue. The \$42,000,000 interest cost rounds out the all-over sum.

In presenting this information, we wish to remind our readers that this column predicted Nov. 5 adoption of the veterans' bonus. We have presented the pros and cons of the sales tax diversion amendment; the "pros" consisting of a statement from the Michigan Education Association and the "cons" consisting of views of Sigler, Van Wagener, and practically all state officials from Governor Kelly down. Lansing state officials were near unanimous in their opposition to the amendment.

Citizens of the capital city, where substantial building is proposed to house the state's many departments and services, voted two to one against the amendment. The state building program must be radically reduced.

While it may be early to arrive at conclusions, all signs at present point to the likelihood that the state legislature will enact NEW taxes or will INCREASE present taxes in its 1947 general session.

It is agreed at the capital that the financial pinch may not come immediately in 1947. The state could get along fairly well for a while, utilizing reserves and balances now available in the state treasury.

For example, one of these reserves is a \$50,000,000 veterans' fund which was created by the legislature, back in 1943, "for the purpose of liquidating Michigan's obligations, after the termination of the war, to its returning servicemen, their widows or dependents." This fund was made possible by state surplus of revenues over expenditures during the war boom.

It was the original thinking of state legislators, back in 1943, that this reserve fund would take care of the needs of veterans in the immediate post-war years and that the question of a state bonus could be postponed until Congress arrived at a decision of whether a federal bonus was going to be paid. Congress has already authorized more than \$12.5 BILLIONS in federal expenditures for GI benefits; a federal bonus is certain to be considered in the near future.

If the imposition of NEW or INCREASED taxes collides with the promised 1947 "recession," the problem will become more acute than ever.

Instead of reducing the state sales tax from 3 to 2½ per cent, as Sigler suggested during the fall campaign, he may have to ask for an increase in this or other taxes at a time when pocketbooks are already badly pinched to cover the rising cost of living.

Of course, a legal way out would be for the state supreme court to hold the new amendment invalid. A suit is sure to be filed by some one.

One thing is sure. Lansing is going to have quite a show!

World's Wealthiest Man Has Big Plans

Engineer Tells of Projects Under Way in India.

HYDERABAD, INDIA. — Initial steps have been taken for a \$125,000,000 industrial development in this princely state, which encompasses 16,000,000 persons under an absolute monarch who is also the world's richest man.

From this fabulous city of glittering minarets will be directed the construction of a vast project as modern in conception as the Tennessee Valley project in America.

The project will start with an entirely new industrial town costing \$5,000,000.

The Godavari river valley development will require five to seven years to complete, says Col. E. W. Slaughter, British engineer, who drafted the plan with experts of the Nizam's government.

Slaughter estimated that approximately half the \$125,000,000 will go toward capital works, including power plants, railways and the new industrial city. This expense would be borne by the Nizam's government.

Of the remainder, the government expects to invest half the amount in industries with private investors putting up the balance.

Colonel Slaughter estimated that at its peak the Godavari development will employ another half million persons in industry, and bring under more intensive cultivation nearly 2,000,000 acres of land.

A 40,000-kilowatt thermal power plant to supply electricity in the model city area is expected to arrive shortly.

The first of the three dams planned for the Godavari should provide 150,000 kilowatts, Slaughter said. Two other dams will be chiefly for irrigating a 2,000,000-acre area.

New steelworks are expected to produce 500,000 tons of high grade steel annually at the end of seven years. Smelting will be done electrically.

The plan also calls for 650 miles of new railway, a paper pulp mill, textile mills for cotton and rayon, and factories for heavy engineering equipment, plastics, furniture—and eventually electric gadgets.

6-Month-Old Prefers

Dad's Plane to Auto
PORTLAND, ORE. — Little Helen Lind can't walk yet—but she's learned to fly.

The six-month-old daughter of Mr. and Mrs. Jim Lind, Portland, has flown more than 1,500 miles in the piloted baggage compartment of her father's plane.

Helen started flying when she was seven weeks old, and she hasn't cried about it yet.

When her father takes her to the field, she starts waving and crowing at the plane.

"She'd almost rather fly than eat," her parents say.

The only trouble is—it's spoiling her for more plebian transportation. She fusses like fury in an automobile.

Opium Paid Japs' Way; China Flooded With Dope

TOKYO.—Jap guns and bayonets in China were advance agents for hypodermic needles and opium pipes. Tokyo's war crimes tribunal was told by an American professor and a British police official.

Dr. Miner S. Bates of Newark, Ohio, a history professor at the University of Nanking, and Peter J. Lawless, an official with the British at Tientsin and Peiping, said the Jap invaders depended on revenue from sale of dope to finance puppet governments.

Bates said that before the Jap occupation, Nanking's dope traffic was negligible. But less than a year after the Japs arrived, 6,000 ounces of opium were being sold daily, he claimed. Sales of heroin were netting dope merchants the equivalent of three million dollars monthly, Bates said.

He testified that a Jap narcotic expert told him "there is no better source of revenue for a puppet government."

Fix Time for Removal of U. S. Troops From Italy

WASHINGTON. — Secretary of State James F. Byrnes said that United States troops would be withdrawn from Italy 90 days after the effective date of the Italian peace treaty.

Presumably his statement also contemplated the simultaneous withdrawal of British troops from Italy.

MEXICO CITY. — The Mexican Book association recently presented the federal district 35,000 books to be distributed in public libraries and among various civic organizations.

Parsch	9	18	13

of the league with the Ludlow and Willy teams with 23 points each. Willy's team, with two members high enough to place on the high ten list, were the only team to gain four points and easily bowled over the Wallace team to go into a 3-way tie for first place. Willy's individual 556 totals was the big factor in their victory.

The Landon team who last week shared top honors, were set back sharply by the fast moving Auten squad. Landon's easily took the first game, but they apparently had spent their fury as they melted away rapidly as the Autenites continued to improve as the match progressed and so were dropped a couple places in the standings. Captain Auten's average slipped slightly as he tried desperately to assist his team with his own personal pin spilling but his accumulation of pins at the close of the match were only enough to keep him from falling entirely out of the high ten list and his name will be found sharing a 3-way tie for tenth place.

Ludlow's and Larkin's teams came out of a hotly contested series when both teams spilled the best total pins during the week, but when the final wood was counted the Ludlow boys had collected three big points to keep them on an even keel with the best the league had to offer at the moment. Ludlow's individual totals of 562 along with his teammate, Nelson Gremel's 551, spelled victory for them, yet their opposition also furnished some lively bowling when Captain Larkin hit for 555 and Douglas Krug slapped 547 pins to rest, but their efforts were wasted.

Six bowlers were in good bowling form and their grand totals were sufficient to get them placed on the honor list for the week. The No. 1 man was like Parsch who came along with 582 pins, Maxie McCullough erased 579 maples, Herb Ludlow 562, Nelson Willy 556, Cecil Larkin 555, and Nelson Gremel 551. Eleven 200 scores were picked up with Gremel's 233 counter being high. Ludlow donated a 223 game, Wallace 211, Krug 210, Reid 204, Parsch 203, Willy 203, Larkin 203, Schenck 202, Ed. Fritz 201, Landon 201.

MOTORISTS GIVEN DRIVING WARNING FOR WINTER SEASON

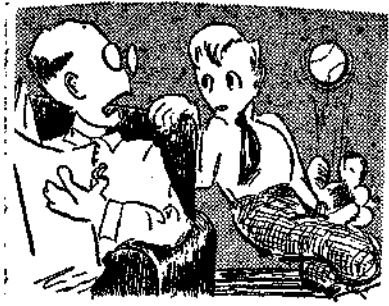

Concluded from page 1.
sonal responsibility for their own safety.

To meet the driving hazards of winter Olander recommends observance of the following traffic rules:

1. Adapt your driving to prevailing road and weather conditions. On icy or snow surfaces, the car is always near the skidding point and even 20 miles per hour is often too fast in winter.
2. Follow other cars at a safe distance. It takes three to 11 times as far to stop on snowy or icy pavements.
3. On slippery pavements, apply brakes with light pressure until point of skidding is impending—then release and apply over in like manner. If the skid starts, turn front wheels in the direction the rear is skidding.
4. Slow down far in advance of intersections, curves and hills.
5. Give signals for intended stops or turns, even farther in advance than in other seasons.
6. Keep windshield and windows clear and clean. Remember—you must see danger to avoid it.
7. Slow down after sundown. Use lower headlight beam in snow, sleet, rain or fog.
8. Remember the dangers of carbon-monoxide, and always provide some fresh air within the car.
9. Give pedestrians plenty of

room and be especially alert for the unpredictable actions of children and the handicaps of elderly persons. More hours of darkness greatly increase pedestrian hazards.

10. Use anti-skid chains when necessary. They reduce braking distance 40 to 50 per cent on ice or packed snow.

Father—When I was a boy your age, I thought nothing of a five mile walk.
Son—Well, I don't think so much of it, myself.

Horseless Carriage
A grizzled mountaineer came down from the hills one day to see an automobile for his first time. As it whizzed past, he said, "Well, sir, them hosses must'a bin goin' at a goodly speed when they broke loose from that thing."

Too Long Ago
"It's 4 a. m. I can't go home now."
"Have you lost your reason?"
"Exactly—I can't recall the one I had for staying out tonight."

The Army Ground Forces offers you A NEW LIFE OUT THERE

Look toward Korea and Japan! A thrilling new job and a new life—with interesting work, sports, entertainment and travel opportunities—can be had for the asking by qualified young men who volunteer for the 1st Cavalry, 11th Airborne, 6th, 7th, 24th or 25th Infantry Divisions.

What an opportunity... what a job! Training in one of these crack units will stand you in good stead wherever you go. Study a foreign language. Learn the fascinating details of Military Government—so vital to future peace and prosperity.

Japan's "Isles of Pines" are but a sample of the attractions of an Army career in the Far East. The Army has reopened comfortable hotels, theaters, swimming pools, tennis clubs, golf courses, ball parks. These—familiar haunts of pre-war tourists—and many new developments—provide a broad choice of recreation.

Not everyone can measure up to this job. Only 3-year enlistees who meet prescribed physical and mental standards can enjoy the benefits of such a job. High overseas pay, good food and lodging and a generous retirement plan make your future in the Army Ground Forces too good to miss! See your nearest Army Recruiting Officer for full details.

Worth Waiting For—This Great New Ford!

It's difficult to wait for your new car... when it's the Ford in your future. But you'll be glad you waited. Take your choice of two great engines—the V-8 or the Six. With the lowest engine speeds in the low-price field, they "loaf" while

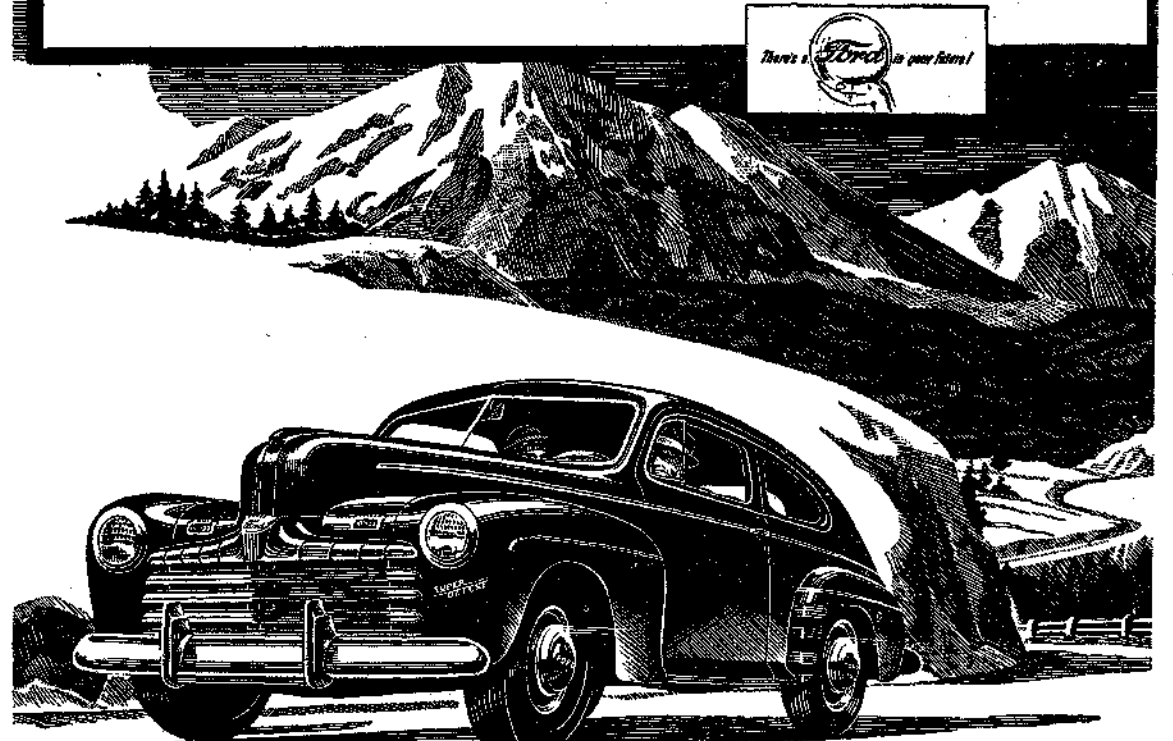

the car "hustles." And only Ford gives you the added safety of the rustproofed "Lifeguard" welded steel body... oversized, self-centering hydraulic brakes... rugged X-type frame... multi-leaf "Rest-ride" springs.

Meanwhile, Protect Your Present Car With

Genuine Ford Service!

WE KNOW your Ford best—that's our business. Our mechanics are trained in factory methods... we use only Genuine Ford Parts when replacements are necessary... our shops are equipped with factory-approved machines and tools. Today, we have more mechanics... more parts... to serve you better, faster. That means one-day service on almost every job except major overhauls. Make it a point to protect your present car investment with regular Ford Service check-ups. You'll gain miles of safer, happier motoring. Why not drive in today? Bring your Ford "home" for every service need.

Mr. and Mrs. Leo Quinn and son, Don, spent Sunday in Detroit.

"Heck" McKay is planning on going deer hunting this week.

Mr. and Mrs. Archie McEachern, Mrs. Archie Gillies, Mrs. Archie McLachlan and Mrs. Henry McLachlan visited at the home of Mr. and Mrs. Kenneth Hoff in Detroit last week.

Hugh McColl and Charles Roblin were in Clarkston last Wednesday. Mrs. McColl accompanied them, and remained to visit her sister, Mrs. Jones, for a few days.

Mike Keenoy of Lansing called on friends and old neighbors in this community last week.

Angus Sweeney, Orb Wilkins and Winton Roblin, and another friend from Pontiac enjoyed a few days

hunting pheasants in South Dakota last week.

Raymond Nicholas was in Pleasant Home Hospital last week where he underwent an operation for appendicitis. He is better and returned home this week.

Elmwood Center

George Evans of Ellington spent Thursday afternoon at the A. S. and LeRoy Evans home.

Mr. and Mrs. Lewis Livingston and son, David, and Mr. and Mrs. Dean Tuckey were Sunday dinner guests of Mr. and Mrs. Forrest Veder.

Miss Lois Ann Thane spent the week end visiting Miss Patty Evans.

George Seelye and William Parrott left the first of the week on

their deer hunting trip. Clifford Seelye left later in the week to spend a few days hunting deer.

George Evans was a dinner guest on Sunday at the Harold Evans home.

The young people of the Sunshine Sunday School enjoyed a hay ride party behind Clifford Seelye's new tractor on Friday night, ending at the home of their teacher, Mrs. Lewis Livingston, where they were served a lovely lunch.

A Million Children Have Ear Defects

Aid Can Be Given Half of Cases, Says Authority.

CHICAGO.—One million children exclusive of the totally deaf are suffering from some form of hearing deficiency, it was reported.

About 50 per cent of impaired hearing cases in children can be improved, according to Bonna M. Bequette's article in the April issue of Hygeia, health magazine of the American Medical association.

The hard-of-hearing child is not on a par with other children in the classroom, she pointed out, because he receives only partial benefits of oral instruction.

"A doctor should be consulted to determine if the hearing impairment is caused by a physical defect or disease which can be corrected or cured, such as tonsils, adenoids or sinusitis," she wrote.

Miss Bequette suggested that children whose hearing impairment occurred at birth or in infancy will usually profit from special classes in lip reading.

She advised a special hearing aid for those mature enough to care for it, especially those whose hearing losses are nearer 40 than 20 per cent.

"Since hearing impairment is a defect affecting the language processes, the child should be encouraged to take an active interest in language activities," she said.

"He should be watched so that he does not withdraw from groups or undergo a personality change as the direct result of his impaired hearing."

"Favorable results are obtained if the special considerations that are shown the hearing impaired child are done without calling attention to the defect."

Victory Medal Ordered; Filipinos Are Eligible

WASHINGTON.—The war department recently ordered procurement of the World War II victory medal.

It may be awarded to all members of the armed forces of the United States or of the government of the Philippines who served honorably on active duty at any time between December 7, 1941, and V-J Day.

Pending manufacture of the medal, the service ribbon is being issued as soon as available. The first supply will go to stations at which soldiers are being discharged.

Americans Battle 5,971

Cases of Typhus in Japan
TOKYO.—American infantrymen were fighting a typhus epidemic in the Osaka area described as the "largest typhus epidemic among civilians to confront the army during the war emergency."

Cases reported in Osaka reached 5,971 and 7,113 cases were recorded in the 12 prefects in the 25th division jurisdiction. The death rate was set at 8 per cent.

The number of typhus cases among troops since the occupation was three, none of which was fatal, 8th army medical officers said.

Returned Serviceman Finds Little Difference

LONG PRAIRIE, MINN.—Herbert Lemke has returned to civilian life as a butcher after three years in war, but he talks of the safety of a foxhole. Here's what happened since he's been a butcher: He cut his hand and an infection developed; a knife slipped and six stitches were required to close the wound, and after the wound healed, an ax slipped and knocked him on the head.

Sweden Decides to Cut Ration as Aid to Hungry

STOCKHOLM.—The Swedish government has decided to cut bread and flour rations by about 6 per cent, in order to save grain much needed by war-ravaged countries in Europe. This will save 22,000 tons of rye and 50,000 tons of wheat which already have been purchased in America. Grain to be used for relief in Europe is at the disposal of U. S. authorities.

No Accounting for Tastes; Here's Proof

WEST PALM BEACH.—Really it can be said now, with conviction, that there is no accounting for tastes. Witness E. T. Sarman, who arrived in West Palm Beach in a hearse. He had put a bed in it, he said, in case he could not find a hotel room, and sure enough he was right. He said the bed was very comfortable.

Five-Acre Farm Drops Clean Out of Sight

BRAZIL, IND.—A five-acre lake on a farm near here qualified for the here-today-gone-tomorrow class.

The lake was there the other day, but not even a mirage remained—just mud.

Coal mining engineers said the lake probably had broken through into deep-shaft workings.

POULTRY PROFITS SOAR
with an **ELECTRIC BROODER**

CHICKS get off to a flying start when you use an electric brooder. It's safer... easier... more economical. Heat is thermostatically controlled—evenly distributed to prevent chicks from dangerous crowding. Air is circulated scientifically to keep litter dry and healthful. There's no soot, no smoke, no worry about fire or temperature variations.

Dozens of durable, reliable electric brooders are on the market now—scaled to fit every farmer's budget. All of them can cut down on slow growth, poor feathering and a high death rate. Ask your Edison Farm Service Advisor to show you an electric brooder in operation on a nearby farm—let you talk costs-and-profits to its owner. You'll find that electric brooding pays for itself!

CHECK-LIST FOR PROGRESSIVE POULTRYMEN

Electricity can streamline your poultry program in many other ways. How many of them do you need on your farm?

- ✓ Germicidal Lamps.....to kill germs, check airborne disease
- ✓ Electric Water Pumps.....to save back-breaking labor
- ✓ Water Warmers.....keeps chicks' water at the right temperature
- ✓ Ventilators.....to eliminate dangerous drafts
- ✓ De-beaklers.....to check danger of cannibalism
- ✓ Sun Lamps.....for increased health and hatchability
- ✓ Electric Lights.....increase hens' work-hours and production
- ✓ Egg Graders and Candler.....fast, accurate and automatic

Soil Conservation District Hearing Was Well Attended

Referendum Will Be Held in Each of the 17 Townships

Farmers from nearly every township were present at the public hearing held Wednesday, Nov. 6, in the court house in Caro, on inclusion of the 17 townships which now lie outside of the Tuscola Soil Conservation District into said district.

Several people spoke from the floor and explained their interest in soil conservation work and stated reasons why they thought the county would benefit from the organization of a soil conservation district. There was no opposition to the proposal.

The state committee indicated that the third and last official step in setting up a soil conservation district will be taken in form of a referendum. The date for this referendum will probably be on Dec. 5, 1946. Polling places will be open in each of the 17 townships involved. All land owners and occupiers may vote and a majority of the votes cast are necessary for the proposal to carry.

HOSPITAL FUND AUCTION REACHED \$5,780 THURSDAY

Concluded from page 1.

There were disappointments as at other auctions, too, as some machinery sold at very low prices. Household goods did not sell at unusual prices and most live stock items brought average figures.

A drizzly rain kept the crowd under cover most of the afternoon. The warehouse of the John Deere Sales and Service offered excellent quarters for the sale.

On the sidelines were a hot dog concession which cleared \$100 for the fund and a football kicking contest which cost players a dollar a kick.

The hospital fund's total at the present time is \$20,500.00, according to M. B. Auten, secretary-treasurer of the hospital committee.

HARRY L. LITTLE HEADS COMMUNITY CLUB FOR 1947

Concluded from page 1.

of "The Outlook for Agriculture in Troubled Times." Mr. Garver spoke on the prospects faced by farmers in the Middle West.

Agriculture has found itself in fairly prosperous conditions in recent years. For this there are three explanations. The first two are increased demands because of the needs of the military and our Allies and the rising consumer incomes. The third, less generally recognized, according to Mr. Garver, is that normal outlets for consumer incomes by way of automobiles, refrigerators, etc., were closed and so more and better food was purchased. When consumer demands are more easily met, the buyers will begin to trim their food bills.

Population figures in the United States have increased seven per cent since 1940 and similar gains are probable in the next 10 years. This will naturally create a demand for agricultural products. There will also be a decided increase in the demand for milk products.

Granted "average weather," increases in productivity, farm technology, more productive seed, and increased production per acre will bring the farmer to face a surplus period within a few years, said Mr. Garver.

BRIDE WORE WHITE VELVET AT WEDDING

Concluded from page 1.

Both the church and the bride's parental home were decorated with bouquets of dahlias and chrysanthemums. Following the marriage rites a chicken dinner was served in the Fueter home, and at nine o'clock a reception was held in the Gagetown High School gymnasium. Many guests were from Detroit and Canada.

Shortly after midnight the bride and groom left on a short honeymoon trip. They will establish their home in Detroit where Mr. Repshinska is employed by the Lincoln Motor Co., and his bride at J. L. Hudson's.

Kathleen Norris Says: Moratorium on Divorce

"Poor Roy! He wants sympathy, petting and understanding. He has had a pretty tough time."

By KATHLEEN NORRIS

ALL the time he is away, and for six months after he gets home, it ought to be made illegal for a soldier's wife to ask for a divorce.

If we had had a law like that for the last four years, hundreds of American homes would have been saved. And as the saving of the American home is as important as the saving of America, this would have been a wise law.

Soldiers are subject to hundreds of laws, some good, some petty; they must obey them all or suffer humiliating and painful penalties. A man doesn't ask to get into the service, he is drafted; it may mean the loss of an arm or a leg, or of his eyes, but he has no choice.

It may mean that he comes back from years of service to discover that the sweet and gentle woman of whose love he has been dreaming has taken on another lover, that she wants a divorce, that the babies whose little crumpled snap-shots he has been treasuring through many an hour of danger and loneliness, are to be his babies no longer; he has lost home, wife, children at one blow.

But he has lost much more than that. His morale receives a deadly stroke. He is tired, disillusioned, perhaps embittered, perhaps sickened and saddened by the long bout with death, by the sight of crushed bodies and torn limbs. Of course he doesn't come home the sunny, unanalytical, easy-going young fellow who went away. Of course he needs great doses of affection and silence and patience, if he is to be cured.

Decision in Two Days.

He doesn't get them. "Roy had only been home two days," writes a Seattle wife, "when we knew it was no go."

Two days! After 31 months in the inferno of the South Pacific, after risking his life over and over and over, Roy comes home to his dream woman, and finds she isn't a dream at all, but a quite human, faulty, aggrieved young thing who believes that she has had just as hard a time as he has. His children are grown out of recognition; finances are in an unstable condition; Anna knows he ought to go back and finish his law course, but good gracious, she can't live on a government allowance all that time — and what on earth are the Bakers to do?

Poor Roy! He wants sympathy, petting and understanding, he wants the appreciative attention of all his old friends he has had a pretty tough time. Instead, no one takes any particular notice of him, and Anna poses a new problem every other day.

"Roy had only been home two days when we decided it was no go," Anna writes. "All our friends agreed that he was simply impossible."

In 48 hours she had time to discuss him with all their friends, apparently. Roy knew he was unpopular, and that didn't help.

Roy Married Again.

But there's another half to this story. All this was a year ago. Anna

PATIENCE AND AFFECTION

Naturally it is difficult for a returned veteran to slip right back into familiar civilian life again. He has had all sorts of hardships and painful experiences. His nerves are raw from danger and discipline, or perhaps a siege in the hospital. When he comes back, expecting his wife to be ready to soothe him and make up for all the misery, he is frequently disappointed.

She probably has had a hard time of it, trying to manage on a small allotment, or working part time, housing shortages, food rationing and other homefront problems had worn her down. There may be children to care for after a tiring day at work. No wonder she is not quite as sweet and young as he anticipated.

All too often these disillusioning homecomings end in divorce. Quick tempers and frayed nerves bring on quarrels of various sorts. The only remedy seems to be in separation. Hasty action quite often causes lifelong heartbreaks, where a little patience and affection would soon solve the problem, says Miss Norris.

got her divorce and the care of two small girls. Roy married a woman who has quite a little property out in the country and is having a good time managing it. Miraculously, he finds himself loved and useful; Anna is out in the cold.

"I've always loved Roy," her letter finishes, "and is it fair that I should be left to raise the children, with no help from him—because he has no money — while he has a glorious time running three ranches?"

Thousands of wives have demanded divorces from servicemen during these years. And almost equal thousands have wished they were back with the original mate. A few months of patience, a genuine desire to understand what a man is feeling, a careful preparing of the children's minds, and before you know it, the strangeness of the readjustment wears away, and the man and woman find that they still want to be companions in the adventure of life.

If you are one of those wives who met your man with good news, with a hopeful plan, with a heroic facing of the unavoidable changes and difficulties, then you have done your job for America as well as he did his.

If you are not, you may be among the thousands who leaped into wartime or postwar time divorce, you may already be feeling, as I feel, that a wartime moratorium on divorce would save a great deal of heartbreak. Among other fundamental stupidities, we humans very often don't know what we want.

New German Churn

A novel German continuous buttermaking machine, which may be more efficient than American churns, has been brought to the United States for testing. Results of the test will be made available to American industry after research is completed, in about three to six months. Continuous buttermaking machines have not been used commercially in the United States. The German machine is reported to produce 1,500 pounds of butter per hour.

X-Ray Device Aids Fight Against TB

Designed to Speed Clinical Chest Examinations.

NEW YORK. — A new x-ray device, designed to speed up clinical chest examinations on an economical basis, has been announced.

Termed a definite aid in the nation's fight to curb tuberculosis and other chest defects, the new device was developed by Powers X-Ray products of Glen Cove, N. Y., in cooperation with the New York City department of health.

Early models of the roll paper magazine cassette, as the device is known, have been used in New York City clinics over an experimental period of two years.

Commenting on the new unit, Dr. Herbert R. Edwards, director of tuberculosis of New York City's health department, and Aaron Siegel, chief technician, jointly said: "There finally has been developed a model that incorporates several unique features that provide a roentgenogram superior in quality to previous methods, speed of action, increased volume of service, and definite savings both in capital outlay and in day-by-day operation. The diagnostic quality of the film is excellent."

The magazine cassette, as now developed, is a smaller portable version of the original cassette developed by the Powers company. But this new compact unit also features a full-sized x-ray taken on a perforated paper roll of 50 "exposures," and it is geared to accommodate as many as 300 or more radiographs in a single day, depending upon technical and clerical personnel.

Pacific Island Ruler Wants to Join the U. S.

PEARL HARBOR. — Sixty-eight thousand dark-skinned dwellers on four million square miles of tiny, primitive Pacific islands have eaten U. S. navy chow, have fanned as Uncle Sam instructed, have got acquainted with American-established schools.

So now King John Sighra, ruler of Kusaie in the sprawling Carolines, has written to President Truman asking that the United States formally annex his coconuted kingdom and his 2,300 subjects.

Another group of Central Pacific folk staged an informal sit-down strike on their airfield jobs until the navy agreed to teach them English in their off-duty hours.

Their reactions are those of many other islanders across the Pacific whose livelihood was smashed by the hungry Japs but is being restored by American civil government units.

Marshall Islanders months ago loosed a barrage of sketchily written appeals to the Americans to stay.

The navy can handle farming and school teaching, but annexation requests, says fleet headquarters, definitely will have to await U. S. and United Nations determination of future policy.

Most of the islands are former Jap mandates.

Rich Uranium Deposit Is Discovered in Australia

SYDNEY, AUSTRALIA. — T. Dougherty, general secretary of the Australian Workers union, said recently at an A.W.U. conference that the richest uranium deposits in the world have been found in southeastern Queensland.

Dougherty said the deposits were found near the small town of Stanthorpe.

Uranium is an essential element in atomic energy research.

Dougherty said the Stanthorpe deposits "contain the highest percentage of uranium of any deposit in the world," adding that "samples sent to Britain yielded up to 3 per cent uranium."

In Canada, a deposit containing .018 per cent uranium is being exploited, Dougherty said.

Liner Queen Mary Now Is Floating Nursery

SOUTHAMPTON, ENGLAND. — Britain's Queen Mary was transformed into an 81,000-ton floating nursery for G.I. Joe juniors who are sailing for America with their English war-bride mothers.

Complete with a baby carriage "garage" near the promenade deck and rows of diaper driers along the drained swimming pool, the vessel sailed February 3 with 2,400 brides and babies.

Special baby lifebelts hang from every cot in the first class luxury cabins which the mothers occupy. Eight bunks and two cots now fill the suite once used by Winston Churchill.

962,800 Veterans Are Getting Jobless Pay

WASHINGTON. — The number of veterans receiving unemployment payments under the G.I. Bill of Rights swept upward to 962,800 for the week ending February 2. The previous week the number was 840,743.

The amount paid reached \$23,833,635, up from \$20,826,262.

Near Perfect Food

Milk is not a perfect food but it is the most nearly perfect one we have. Milk contains all the nutrients known to be essential in the diet but does not contain enough of some vitamins and minerals to supply body needs fully.

'Hand in Cap'

The term "handicap" comes from the expression "hand in cap," referring to drawing lots, another method of equalizing chances.
