## Gallaghers Entertain Methouple Club

Thirty-two were present Friday evening when the Methouple Club of the Methodist Church met at the Albert Gallagher home. Howard Wooley and Grant Hutchinson were in charge of entertainment. Games were played and Carl Schell showed movies. Refreshments were served by Mr. and Mrs. Gallagher and Mr. and Mrs. Delbert Profit.

Mr. and Mrs. John Marshall will entertain the group in February when Mr. and Mrs. Profit will be co-host and hostess.

During the meeting Friday evening, the president asked the members to stand for a moment of silent prayer as a tribute to the memory of a deceased member, the late Mrs. Delbert Rawson.

## McComb Nominated to Succeed Self

### Tuscola Republicans Met Monday to Elect Delegates to State Meet

Ben H. McComb was nominated as a candidate to succeed himself as county school commissioner at a convention of Tuscola County Republicans at Caro Monday. He has

held the office since 1914. In accepting the nomination, Mr. McComb said he was the youngest commissioner in the point of age in 1914 when he was first appointed to office to fill a vacancy and now he is the eldest school commissioner in Michigan in years of service. His name was placed before the convention by Audley Rawson, former state senator, and received the unanimous endorsement of the delegates.

Delegates named to represent Tuscola County Republicans at the state convention were chosen as follows: Chairman, Audley Rawson, of Elkland; Harry Beatenhead, of Akron; Ben B. Reavey, of Almer; Arthur Dehmel, of Columbia; Conrad Mueller, of Denmark; M. C. Ransford, J. A. Gallery, of Indianfields; James Kirk, of Juniata; R. E. Willis, of Millington; Howard Slafter, of Tuscola; and A. W. Atkins, of Vassar City.

Alternates: Fred Mathews, of Dayton; E. B. Schwaderer, of Elkland; Reid Kirk, of Fairgrove; Ralph Freeland, of Fremont; Glen H. Montague, W. H. Gildart, Lee Huston, of Indianfields; James Osburn, of Kingston; Ray Kreisler, of Unionville.  
Concluded on page 4.

## Temple Nominated Huron Commissioner

Ben L. Temple, principal of the Bad Axe Junior High School, was nominated for county school commissioner Monday by delegates to the Republican convention in Huron County.

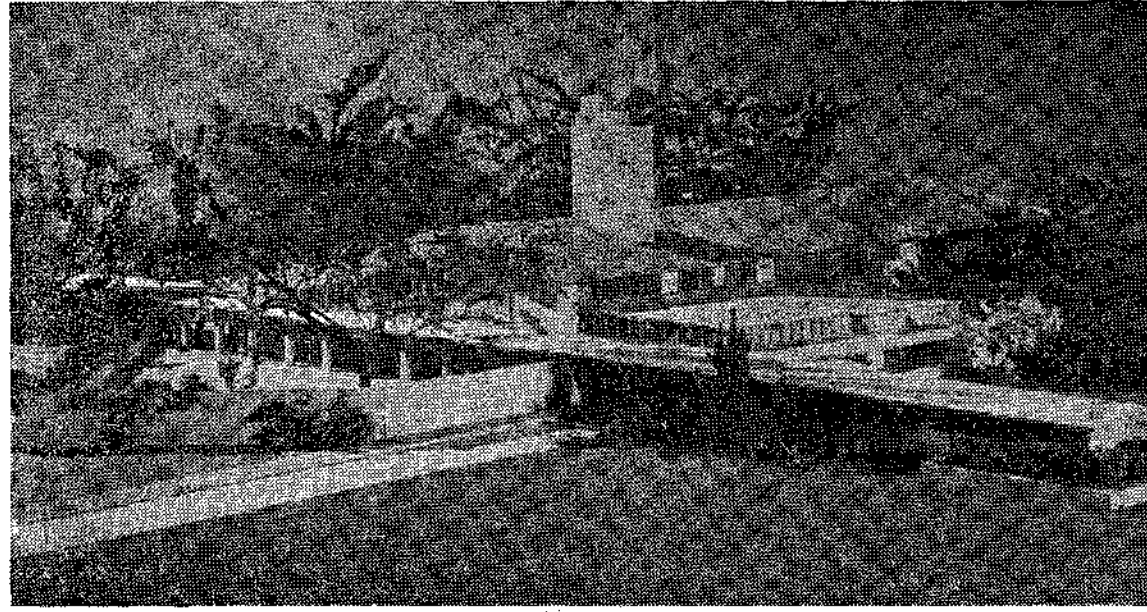

Temple won the nomination on the second ballot with 65 votes to 30 for Orel Champney, Owendale, and 24 for Richard W. Lynch, Bad Axe. A majority of the votes cast was required.

John R. Francis was made the unanimous choice as candidate for school commissioner by Sanilac County Republicans at their convention Monday. He now holds that office.

## SPRING IS HERE?

Saturday afternoon Mrs. Mary Strickland, of 6667 Third street, brought into the Chronicle office a live caterpillar she had picked up from her porch, and which had just emerged from the cocoon. Mr. or Mrs. Caterpillar has a nice new home in a small bottle where he or she will hibernate cozily until becoming a beautiful butterfly.

## Model of Home for Governor at State Capital

Modern as Michigan is the above scale model of the proposed permanent residence at Lansing for the governor of Michigan, as approved by the State Board of Auditors. The model, which is complete even to miniature furniture and pictures on the wall, was displayed for the first time Friday, Jan. 24, to Michigan newspaper

editors at the 79th anniversary convention of the Michigan Press Association, Inc.

Alden B. Dow of Midland, the architect, is world famous for his modern functional style of buildings. The home will combine residential and business needs of Michigan's governor and his family with provisions for state recep-

tions, lodging of visiting dignitaries, offices for the governor and a secretary, an apartment for the governor's bodyguard and family, rooms for servants and other accommodations. According to Governor Kim Sigler, no immediate construction is planned in view of the state's financial problem and the lack of veterans' housing.

## Capt. Wm. Spencer Safe After Forced Landing in Luzon

Considerable anxiety was felt by relatives and friends of William N. Spencer on Monday after his name was mentioned in a news broadcast Sunday evening in connection with the plane crash at Hong Kong on Saturday when Capt. Ted Weymouth, pilot, and all crew members lost their lives. The plane was loaded with gold bullion.

According to news dispatches Monday, William Spencer, who holds a captaincy with the Philippine National Air Lines, had embarked on just such a trip on Jan. 18, and after being lost for some four hours, returned to Northern Luzon where he was able to make a forced landing.

Capt. Weymouth, with his wife and baby, lived in an apartment in the same house in Manila occupied by Capt. William Spencer, his wife and little son. The two men, who had served in the Air Corps, together during the war went to the Philippines together, arriving in February of 1946. Spencer has a three-year contract with the Air Lines by which he is employed.

The plane which Bill flies is a C-47, which carries both passengers and freight. He makes trips to locations in China and to many islands in the Philippines. Some trips take him away from home for a week and others for only a day or two.

## Dr. Pelczar Will Go to Unionville

Dr. Walter Pelczar, who has been associated with Dr. H. T. Donahue since September, will leave Cass City to practice his profession in Unionville. Dr. and Mrs. Pelczar and two children expect to go to Unionville early in March when the residence they purchased in that village, will be available.

## Grahams and Horners Make 7,922 Mile Trip Through the Southwest

Mr. and Mrs. Kenneth Graham, accompanied by Mrs. Graham's parents, Mr. and Mrs. Robert Horners, recently returned from a trip through the southwestern states. A member of the group gives the following description of the trip:

We started from Caro on Dec. 4, and reached Lafayette, Ind., where we spent the night with friends, Mr. and Mrs. Robert Bonnet.

Throughout Indiana and Illinois the farmers were still busy combining soy beans and picking corn. We crossed the Mississippi River on the Chain of Rocks Bridge at St. Louis. There we began traveling on Highway No. 66.

Near Stanton, Mo., we went through the Merrimac Caverns and at Leasburg, Mo., we saw the Onondaga Cave. Although both caves were small in comparison to other caves which we later saw, the formations were beautifully colored, due to the minerals in the rock.

In Oklahoma oil fields were in operation on either side of the highway. The creeks and river beds were dry. As we crossed the

## Saginaw Doctor Speaks on A. A.

### Tells Rotarians About Alcoholics Anonymous Society's Accomplishments

In speaking on "Alcoholics Anonymous" at the Rotary Club on Tuesday, Dr. Berberobich of Saginaw said that alcoholism is a disease, that alcohol is not a stimulant as so commonly thought but a depressant, and that intoxicating drink closes man's highest faculties.

Alcoholics Anonymous, commonly known as A. A., is a national, voluntary, non-profit association of some 30,000, everyone of whom is an alcoholic. A. A. members are men and women who have drunk excessively, to the end that they could no longer "handle liquor." Their drinking had become uncontrollable, and their lives as a result of their drinking had become unmanageable for the most part, and all their desperate attempts to "cure" themselves had failed. These so-called "hopeless cases," 30,000 of them, have through A. A. found a way back to normal, sober, happy lives. While not successful in every case, nevertheless the record shows that a large percentage of those who come to A. A. for help remain as active members and recover their normal lives without the necessity of resorting to the use of alcohol.

Dr. Berberobich was a most interesting speaker. He was introduced by Program Chairman Otto Preskorn.

G. W. Landon was named chairman to arrange for bowling contests with Caro Rotarians.

Luncheon guests included Dr. Willard W. Dickerson, Clarence Bougher, and Bates Willis, all of Caro; Earl Timm of Saginaw, Rev. Herbert E. Ryan of Sebawaing, Rev. P. R. Wurtz of Snover, Rev. S. P. Kirm, Rev. John Safran, R. S. McCullough, James McTavish and Herbert Watkins of Cass City.

## Open Meeting on Monday for Veterans

All veterans with any problems concerning their relation with the government's Veterans Administration are invited to attend an open meeting of the Cass City Memorial Post, No. 6389, of the Veterans of Foreign Wars to be held Monday, Feb. 3, at 8:00 p. m. in the Cass City Township Hall. At that time A. E. Greene of Lansing, who is the field representative of the State V. F. W., will be on hand to advise any veteran on how to handle his own particular problems.

## Baby Uninjured When Car Rolls Over

### Eighteen-Months-Old Child Found Safe in Basket After Collision

An 18-months-old baby was uninjured in its basket, although the car in which the infant was riding, driven by the child's father, Charles James Guest, 41, of Inkster, turned completely over and landed on the wheels. The car collided with one driven by Walter Lewandowski, 54, of Detroit, at the corner of M-63 and Argyle road, at 2:30 a. m. Sunday. The Guest car was driving north and Lewandowski, driving south, attempted to make a left hand turn and turned into the path of the Guest car. Riding with Lewandowski was his wife, Helen, 49, and with Guest was his wife, Hannah, 31. Both women were treated at Pleasant Home Hospital for facial cuts.

Lewandowski was ticketed for reckless driving by State Police from the Bad Axe Post who investigated the accident.

Mrs. Charles J. Guest is a sister of Mrs. Kenneth Cumper and Mrs. Pete DeBlois of Cass City.

## Rita Carries Banner for Month of January

Rita, a registered Guernsey, owned by Ellwood Eastman of Cass City, was high cow in North Tuscola County Testing Association for the month of January. She produced 1,261 pounds of milk with a 6.2 per cent test, which is equal to 78.1 pounds of butterfat. Mr. Eastman has a herd of 16 cows.

## ROBERT REED KARR ENLISTS IN ARMY

Robert Reed Karr, 17-year-old son of Mrs. William McKinley, enlisted in the Army for an 18 months' period and left Detroit Jan. 9 for Fort Knox, Ky., where he is stationed. Robert was a sophomore in high school.

## MISS STIRTON IS GRADUATE OF WAYNE

Included in the list of 503 candidates for degrees conferred at Wayne University's midyear commencement exercises Tuesday, Jan. 21, in the Masonic Temple auditorium, Detroit, was Isabelle Gertrude Stirton, graduate of Cass City High School, candidate for the degree of Bachelor of Science in Medical Technology.

## Study and Tea at G. Patterson Home

In accordance with the plans of the Methodist Church that there should be encouraged among local societies studies of matters on which church women, as well as other women, should be informed so that they may have intelligent opinions on these topics, the local Methodist W. S. C. S. is sponsoring a discussion of the Michigan child labor laws. Since petitions are being circulated in this community for the modernization of the child labor laws it was thought essential that study be given this matter so that signers would understand for what they were petitioning.

The discussion is to be held at the home of Mrs. Grant Patterson on Saturday, Feb. 1, at two o'clock. Rev. John Safran and Maryann Gallagher will present the main features of the child labor laws with contributions by members who have had experience in this field.

The discussion will be followed by a tea. All women of the community are invited.

## Building Program Starts This Month

### Detroit Edison to Spend \$96,000,000 in Construction in Four-Year Period

The Detroit Edison Company this month began a four-year construction program which calls for the expenditure of \$96,000,000 and which will increase the power-producing capacity of the system by 22.4 per cent. Expenditures for 1947 will approximate \$20,000,000. Out of the \$20,000,000 will come the final payment on a 100,000 horsepower turbo-generator at the Marysville plant which will be put into operation on March 1. Out of that sum also will come the first payment on the installation of two 138,000 horsepower turbo-generators at the Trenton Channel Plant. The first of these two turbo-generators is scheduled to go into service in 1949, the second later. Their total cost, with housing, boilers, stacks and other necessary equipment will be from \$26,000,000 to \$30,000,000.

Costs of the 1947 program are divided approximately as follows: Power plants, \$3,000,000; substations, \$4,000,000; overhead and underground transmission lines, \$2,500,000; feeder lines, transformers, new meters, \$4,500,000; buildings, steam heating and gas extensions, \$3,000,000; land, \$2,000,000; construction and automotive equipment, \$1,000,000.

Here is why the job must be done: Detroit Edison's total power output in 1946 was 2 1/2 per cent over 1945 production. Twice in December the output hit an all-time high. That includes, of course, the heaviest demands of the war days when the great industrial plants were running in eight-hour shifts around the clock. Production in 1946 surpassed that in 1945 because of the steadily increasing demand from residential, farm and commercial customers. Company officials expect that the increased use of electricity by these three classes of customers will be continuing and consistent.

Use by industrial customers was retarded in the early months of 1946, but rose steadily later in the year and is expected to increase sharply early this year.

## John Deere Day To Be Held at Cass City

Ryan & Cooklin, local John Deere dealers, plan a John Deere day on Feb. 5, the program commencing at 10 a. m. at the Cass Theater. At noon, a free lunch will be served at the John Deere store. Following lunch, movies will again be shown at the Cass Theater.

The movies will consist of a main feature starring Bob Burns in "The Windjammer," also several short subjects demonstrating John Deere farm equipment and an announcement of their new 1947 model John Deere tractor.

This program is free to everyone. Plan to spend the day and bring your friends.—Advertisement.

## Warren Wood Is Partner with Father in Business Block

Warren Wood has purchased Dr. P. A. Schenck's interest in the Wood & Schenck three-story business block at the corner of Main and Seeger streets and is a partner with his father, L. I. Wood, in the ownership of this property. The building was originally erected by M. Sheridan for a hotel and was purchased by Wood & Schenck in 1917. They remodeled the first floor for a drug store, the second story for dental parlors and other offices, and the third floor as quarters for the Odd Fellow Lodge.

When Warren Wood was tall enough to peek over the store's counters, he expressed his desire for a job after school hours. "For whom do you want to work?" his father inquired. "Why, you, of course," came the answer. And so he got a job. After finishing high school, he attended the pharmacy school of Ferris Institute at Big Rapids. With the exception of his stay in Big Rapids and a few times as relief man for other druggists off on vacation, Warren Wood has been "on the job" on the main corners here continuously since high school days.

## Mr. and Mrs. Waldie Leave for Minneapolis to Attend Show

Harold W. Waldie turned the supervision of the local Gamble store over to its clerks; and he and Mrs. Waldie have left for Minneapolis to attend the Planorama merchandise mart and sales show sponsored by Gamble-Skogmo, Inc., who supply merchandise to the local store.

For several weeks Mr. Waldie has been receiving information concerning the Planorama and outlining the features that have made it a national event. More than 200 manufacturers and suppliers representing most sections of the country will fill the huge Minneapolis Auditorium with displays and exhibits. Speakers and business leaders of national prominence are scheduled to attend. The daily program runs from 9:00 a. m. through the evening.

Mr. Waldie will be joined in Minneapolis by retail store representatives from most states, Canada and Hawaii. The total is expected to pass 3,000 persons. The Planorama will bring to Minneapolis one of the largest delegations ever to convene in that city.

Mr. and Mrs. Waldie will return to Cass City about Feb. 1. Come To Nazarene Young People's Society, Nazarene Church, Cass City, Feb. 2, Time, 7:30. Chalk artist and special music. Both young and old are invited.—Advertisement 11

## CASS CITY BOWLING LEAGUE.

Standings at close of third week of second schedule, Jan. 20 and 23:

TEAM	W	L	Pts.
Reid	7	2	10
McCullough	7	2	9
Kolb	6	3	8
Gremel	6	3	8
Auten	6	3	7
Juhasz	5	4	7
Parsch	5	4	6
DeFrain	5	4	6
Gross	4	5	6
Dillman	4	5	6
Larkin	4	5	5
Mzyk	4	5	5
Krug	3	6	5
McCloyey	3	6	3
Wallace	2	7	3
Landon	1	8	1

**Ten High Average Bowlers.**  
Larkin, 179; McCullough, 174; Landon, 171; Parsch, 170; Gross, 169; DeFrain, 168; Dillman, 167; Wallace, 167; Gremel, 166; Krug, 166.

Reid's team continues to keep their grip on the top rung of the league ladder and now holds a slim one point lead over MacCullough's team who have salvaged an equal number of games as the leading team. The Gremel and Kolb teams, however, were the only ones to pick up four points each during the week and by so doing have increased their standings considerably.

Captain Gross registered the biggest pin totals as an individual and his count of 582 came from games of 179-200-203. Frank Reid also sparked his team along with good totals of 559 and was the big factor in keeping his team on top. Carl Kolb was the third and last of the league's bowlers to collect enough pins to get honorable mention and his count of 553 did the trick. Our 200 games were rolled by Reid, 213; Wooley, 212; Parsch, 211; Kinnsaid, 210; Larkin, 207; Krug, 205; Kolb, 203; Gross, 203-200.

**Starchy Iron**  
To remove excess starch from the iron, put salt on a newspaper and rub the hot iron over it.

**Re-hem Dresses**  
Hems on ready made dresses are usually sewed very loosely. It pays to re-hem with secure stitches before wearing a "store bought" dress in most cases.

**Costly Transport**  
Studies show that it costs approximately one to three cents more a mile to haul over roads that lack an all-weather surface.

**Cook With Skins**  
When sweet potatoes are to be used in vegetable dishes or desserts, they should always be cooked with their skins on to save vitamins and minerals.

**Eliminates Dead Spots**  
A new method eliminates dead spots in radio communications, such as in railroad tunnels.

## PEOPLE ARE ASKING THESE QUESTIONS ABOUT ARMY ENLISTMENT

**Q. What educational benefits do I get under the GI Bill of Rights?**  
A. If you serve honorably on active duty for a period of 90 days, one day of which is served between September 16, 1940, and the date of termination of the present war, or you are discharged because of an actual service-incurred injury or disability incurred within that first 90-day period of service, you are, upon discharge, entitled to one year of education in the college, trade or business school of your choice for which you can qualify. In addition, each month of active duty, including the first three, prior to the termination of the war, entitles you to another month of post-service education, up to 48 months.  
Your tuition, laboratory fees, etc., up to \$500 per ordinary school year will be paid by the government. Also, you will receive \$65 a month living allowance; \$90 a month if you have dependents.

**Q. What about family allowances?**  
A. For men enlisting or reenlisting now, family allowances will continue until six months after the war is officially ended.  
**Q. What are my chances of going overseas?**  
A. If you enlist for 3 years, you may select to serve in any overseas theater which has openings, especially Japan or Korea.  
**Q. Can I still choose the branch of service I want to serve in?**  
A. Yes. You can pick any branch which has quotas to be filled, if you enlist for 3 years.  
**Q. Is there any way I can reenlist in my old grade?**  
A. Yes, you can, if you reenlist for a 3-year term within 20 days after your honorable discharge.  
**Q. Is there any other way I can reenlist in grade?**  
A. Yes, if you held one of certain military occupational specialties, and were discharged on or after May 12, 1945, you can reenlist in a grade depending on the length of time you held the desired M. O. S.

T/5 John Lorentzen, son of Mr. and Mrs. Ernest Lorentzen, of Marquette, received his discharge Jan. 30. He had been trained at Camp Crowder, Mo., and was in the service one and a half years. Mr. and Mrs. G. W. Landon attended a meeting of Rural Letter Carriers of Saginaw, Bay and Midland counties Saturday evening in the Evangelical Church in Saginaw. The gathering was to honor several retired carriers from the three counties. On Tuesday evening, Feb. 4, Mr. and Mrs. Lloyd Karr will entertain the Gagetown Grange in the Bird schoolhouse. Fifteen new members will receive the first and second degree. The January meeting was cancelled because of the bad condition of the roads. Mrs. Andrew Carnegie and Mrs. Rinehart of Grosse Pointe Park were visitors last Friday at the A. J. Knapp home. Another visitor on Friday was Harry Knapp of Grand Rapids, a cousin of Mr. Knapp, and a former shoe salesman in this territory. Mr. and Mrs. G. W. Landon and daughter, Mrs. Thomas Drake, were week-end guests at the J. A. Ippel home in Saginaw. Sunday dinner, served by Mrs. Ippel, was to honor the birthday of Mrs. Landon. Mrs. Ippel is Mrs. Landon's niece and Mrs. E. F. Kreiman, sister of Mrs. Landon, makes her home with her daughter, Mrs. Ippel. Rev. and Mrs. F. Houghtaling and children, Barbara and Milton, were in Grand Haven over the week end where Mr. Houghtaling officiated at the marriage of their daughter and sister, Ruth Houghtaling, and Donald Neuvil, both of Grand Haven, in the Grand Haven Nazarene Church on Saturday evening at eight o'clock. Another son and his wife, Mr. and Mrs. Edward Houghtaling, of Plymouth, Mich., also attended the wedding. The bride had been a student at the Olivet Nazarene College at Kankakee, Ill. Kuchta-Haney Wedding in Detroit Joseph Kuchta, Jr., son of Mr. and Mrs. Joseph Kuchta, of Gagetown, and Miss Audrey Haney of Detroit were united in marriage Saturday, Jan. 18, at five o'clock in the rectory of St. Hedwig's Church, Detroit. Miss Marion Proulx and Paul Kuchta, brother of the groom, formerly of Gagetown, were the bridesmaid and best man. The bride was lovely in a navy blue dress with white accessories. She wore a beautiful corsage of white roses. The bridesmaid, Miss Marion Proulx, wore a grey ensemble with blue accessories and a corsage of red roses. A chicken dinner was served to immediate friends and relatives at the home of Mr. and Mrs. C. L. Vignary. The wedding party was held at the Club Vern Way where 75 friends and relatives were present. The bride and groom left Sunday morning for a week's honeymoon trip to Chicago. The couple will reside on Lafayette boulevard. Winter Wedding in Presbyterian Church A lovely double ring ceremony was performed by the Rev. Melvin R. Vender in the Presbyterian Church at 11 a. m. Jan. 25, which united in marriage Lillian Rose Webster, daughter of Mr. and Mrs. Orville D. Webster, of Cass City, and Harold Sorenson, son of Mrs. William Wakefield, of Detroit. The bride, who was given in marriage by her father, chose an embroidered white satin gown, made along princess lines. The sweetheart neckline was caught by two rhinestone clips, the gift of the groom. Long sleeves and a long train completed the costume. She wore a fingertip veil, edged with wide lace and a bridal blush veil of illusion fastened to a halo of tiny seed pearls. Her flowers were gardenias and lilies of the valley, combined in an arm bouquet. Betty McGorman of East Detroit, maid of honor, was dressed in pastel blue net with a full skirt. Her arm bouquet was of peach colored gladioli with wide net bow and streamers. Ann Johnson of Van Dyke and Rose Kraft of Detroit, aunts of the bride, and Mildred Erwin of Roseville, cousin of the bride, were bridesmaids. Mrs. Kraft's gown was made with a pink taffeta top and full net skirt; Mrs. Erwin's was of pink taffeta and Mrs. Johnson's of pastel blue net. All wore matching wreaths of flowers in their hair and contrasting shoulder corsages and carried white satin evening bags, trimmed with sequins, gifts of the bride. Joann and Carol Mae Johnson, cousins of the bride, were flower girls, wearing party dresses. The former was in pink satin and the latter in yellow. They wore white pearls, gifts of the bride, and carried miniature bouquets of baby blue chrysanthemums. Edward Gaps of Detroit, uncle of the bride, was best man and Raymond Johnson, Adam Kraft and Bob Erwin of Roseville, cousins of the bride, seated the guests. Mrs. Webster chose an aqua pin-striped dress with a corsage of yellow roses. After the ceremony, a chicken dinner was served on a beautifully appointed table, centered by a three-tiered wedding cake, topped with a miniature bride and groom, at the home of the bride's parents. Among the guests were the Rev. and Mrs. Melvin R. Vender. The reception was held at eight o'clock in the town hall in Cass City and was attended by about 250 guests from Cass City, Owendale, Detroit, Roseville, East Detroit, Van Dyke and Reese. After a month's honeymoon trip to Florida, the young couple will make their home at the farm of the bride's parents near Wickware. Peanuts Rich Peanut butter and peanuts are important sources of thiamin, riboflavin and niacin. The peanuts' richness in quality protein and food energy, plus the generous amounts of the three vitamins, give this legume a leading role in group five of the basic seven foods. Farm Electricity A 20th Century Fund report estimates that 40 to 50 per cent of farm electric power is used for irrigation, 30 per cent for household appliances and 20 to 30 per cent for lighting barns and operating such small equipment as pumps and milking machines. Engagement Told "Keeping Fit" Lesson of Extension Groups Mrs. Garfield Leishman was hostess last Thursday at an all-day meeting of the Elmwood Extension Group. The hostess, assisted by Mrs. William Jackson, Mrs. Leslie Lounsbury, Mrs. Merritt Allen and Mrs. Kenneth Russell, served the dinner at noon. Mrs. Ernest Beardsley, substituting for Mrs. Leishman, presented the lesson on "Keeping Fit." The next regular meeting will be in April with Mrs. Vincent Wald and Miss Mary Wald. The Cass City Extension Group No. 2 met Monday evening in the home economics room at the schoolhouse. Mrs. James Milligan, Mrs. Harold Perry, Mrs. H. H. Koffman, Mrs. James Gross, Mrs. Harry Youngs and Miss Lura Bigelow served dinner, nutritionally balanced, preceding the lesson on "Keeping Fit," which was presented by Mrs. Alex Tyo and Mrs. Fowler Hutchinson. The Cass City Extension Group No. 1 met Tuesday evening in the social rooms of the Methodist Church. Dinner was served by Mrs. E. A. Corpron, Mrs. S. P. Kim, Mrs. R. A. McNamee and Mrs. Keith McConkey at a table centered with a bouquet of pink snapdragons. Following the repast, Mrs. R. D. Keating, president, conducted the business meeting during which a contribution was voted to the March of Dimes fund. Mrs. Ralph Young and Mrs. Ben Kirton were appointed as a nominating committee. The lesson on "Keeping Fit" was presented by Miss Lura DeWitt, leader. Affect Optic Nerve Liquor and tobacco, either singly or combined, affect the optic nerve and sometimes seriously impair sight. Rural Progress Caravan in Tuscola Co. February 6
All is in readiness for the showing of the Michigan State College Rural Progress Caravan in Tuscola County, next Thursday, Feb. 6, Norris W. Wilber, county agricultural agent, reminded rural and urban people that the exhibits from the extension service at the state college would be open from 10 a. m. to 3:30 p. m., in Caro.
More than just a display of ideas for the farm and home, the 1947 Michigan State College Rural Progress caravan will specialize in personal assistance on the individual problems of farmers and homemakers.
Learning from last year's experience when the greatest criticism was "not enough specialists," the 1947 caravan committee decided that the coming exposition-type show would include the presence of from 10 to 20 people. Although the caravan theme stresses the farm home, specialists will be available to answer questions on any other phase of agriculture and home economics as well as to explain exhibits.
Displays by the departments of soils, farm crops, dairy, agricultural engineering, entomology, botany, animal husbandry, horticulture, agricultural economics, farm management, forestry, poultry, veterinary, science and home economics will all be supplemented by the words of a specialist. At the present time many departments in the extension service plan to have a specialist with the caravan every day to be available for short discussions and personal consultations.
With the addition of this "clinic" for farmers and homemakers, "jaw-action" is expected to take the lead in caravan activities. Nevertheless, the clatter of machinery and colorful displays on new and timely farm and home practices that characterized last year's performance will be back to provide points of interest for the entire farm family.

Cranberry Center Two-thirds of the nation's cranberry crop comes from the Cape Cod district. The 1946 harvest, now virtually complete, runs true to the two-thirds rule.

Michigan Mirror Former Lieutenant Governor Vernon J. Brown, now enjoying retirement at a modest country home near Mason, advances a simple solution for the state's staggering financial problem: "Put all educational eggs in one basket." Preempt three mills of the property tax to finance the veteran bonus.

"Financial chaos and eventual bankruptcy" would be averted by state government. "Adequate support for all proper functions of government, state and local" would be assured.

Furthermore, "no added tax or new taxes" would be required and "no necessity for again amending the state constitution."

In company with George A. Osborn, publisher of the Sault Ste. Marie Evening News, we visited Mr. Brown at his ancestral farm four miles east of Mason on Diamond road. The former state official appeared to be in excellent health and hearty spirits; he lit up a cigar with relish and talked freely about state affairs. "I believe I have a simple solution for the state problem," he said.

"You'll have to hurry," he added, "if you want to get this interview into your column. It's going to appear Thursday (Jan. 23) in the Ingham County News."

And so we quote from Mr. Brown's own signed article: "I propose that the legislature by statute adopt a plan similar to that in vogue in the state of New York, specifically putting all our educational eggs in one basket by placing all education under one general administrative control—all the way from kindergarten to post-graduate courses in the university. This would be accomplished by the mere process of declaring all a part of the public school system and by enumerating each and all as a part thereof."

During the past fiscal year, Mr. Brown points out, the state paid out more than \$30,000,000 for educational needs in addition to the actual amount of state aid to the

### NOT ON YOUR TINTYPE!

Grandma looks calm and collected as she poses for posterity, but she wasn't—not on your tintype! Getting her family ready for this picture was a long, weary business.

The day this photo was snapped, Grandma was up at dawn, wrestling with the old wood stove, coaxing the kettle to boil, cooking breakfast. And the day before, she ironed the mountain of clothes that had needed such hard scrubbing. The day before that—

But that was Grandma's life. She didn't know any other kind. Her way of housekeeping took lots of time, lots of elbow grease. In Grandma's gayest dreams she never imagined the time would come when a woman would have dozens of electric servants daily for the cost of a bar of soap.

Electric service—ready and willing around the clock and calendar—is a modern miracle Grandma missed by being born too soon. But electrical dependability (and cheapness, too) didn't happen by accident. Not on your tintype! They're the result of plenty of hard work and practical experience on the part of your neighbors who operate this company.

point of interest. That is truly a marvelous engineering project. When we were traveling from Boulder Dam to Barstow, Calif., we enjoyed our first sunset in the mountains.  
We crossed the Mohave Desert and the Sierra Nevada mountain range before reaching Bakersfield, Calif. From that city we traveled on Highway No. 99, north to Tulare. On either side of the highway we saw huge vineyards. However, the grapes had already been harvested. We also saw hundreds of acres of head lettuce and other garden stuff growing. The orange and lemon groves laden with ripe fruit was an unusual sight for us, too. Pickers were busy in the orchards.

From Tulare we went up into the Sequoia National Park. I say "up" for we were over 6,000 feet when we reached the top. Other elevations over which we traveled were nearly that high, but at this point we drove over 16 miles of such crooked roads to gain that height. At one place we parked the car and counted 12 roads below us. We weren't nearly to the top then. In the park we saw the largest and oldest living tree in the world. The General Sherman is as tall as the average 16-story building and its diameter at the base exceeds the width of many city streets. The wood contained in the trunk of General Sherman, 600,120 board feet, would build 40 five-room houses.

In the valley below they were picking oranges and lemons, while on the mountain top was snow and freezing weather.

We again left the main highway at Madera, Calif., and went back into the mountains to the Yosemite National Park. The Maricopa Grove of giant redwoods was very interesting. The Bridal Veil Falls, though smaller than Niagara Falls, are a beautiful sight.

We traveled as far north in California as Sacramento where we visited Mrs. Horner's sister and her family. After viewing the points of interest in the city we took Highway No. 40 to San Francisco. We stopped at the home of Mr. and Mrs. Carlton Keilitz in Berkeley.

We crossed the Bay Bridge into San Francisco in the evening when the amber lights were burning. It was a very impressive sight. We spent an evening with Robert Adams, an Army buddy of Romney Horner. We visited Fisherman's Wharf where we saw many fishing boats coming in. Alcatraz, the federal prison, was plainly seen from shore. From the Coit Tower we had a splendid view of the whole city. As we crossed the Golden Gate Bridge we had our first glimpse of the Pacific Ocean.

We followed Highway No. 101 along the coast to Los Angeles. We encountered very little fog along this route, but half of the highway was blocked in one place by a landslide, due to the recent heavy rains.

We visited Mr. Horner's nephew and family, Mr. and Mrs. Orla Horner and two daughters, in Los Angeles during the holidays. They showed us many places of interest in the city. Among the places we saw were Hollywood, the motion picture studios, Grauman's Chinese Theater, Chinatown, Clifton's unique restaurant, and the Forest Lawn Cemetery, which is not just an ordinary cemetery. On Christmas Day it rained continuously and by nightfall the streets were flooded over the curbs.

At Oceanside, Calif., we walked along the beach and washed our hands in the mighty Pacific. In San Diego we saw huge ships in dry dock. We entered Old Mexico at Tijuana. There the shops were open and many vendors were on the streets eager to sell their wares.

From San Diego we drove on Highway No. 80 to Yuma, Ariz. Mrs. Horner noticed a great difference in the desert in the nine years since she had last seen it. Much of the land is being improved through irrigation. On one side of the highway would be nothing but tumble weeds and cactus, while on the opposite side would be irrigated crops of alfalfa and cotton. Between Yuma and Tucson, Ariz., we saw cotton pickers busy in the fields and we also saw the cotton ginning machines in operation.

We arrived in El Paso, Tex., on Dec. 29. That night it snowed and then turned cold. By morning we were told that the Guadalupe Pass over which we were to travel was blocked with snow. On New Year's Day we left El Paso and crossed the peak to White's City. Because they lack road equipment to cope with such unusual weather, driving through the mountains was hazardous.

The following forenoon we walked the four-mile trip through the Carlsbad Caverns. It is certainly an unbelievable sight to view the giant stalactites and stalagmites. Underground 750 feet in the caverns is a modern lunch

room where box lunches are served.

We traveled through Fort Worth and Dallas, Tex., to Texarkana. We came through Little Rock, the capital of Arkansas, and recrossed the Mississippi at Memphis, Tenn. The lowlands were flooded and much of the cotton in Arkansas and Tennessee was not picked due to the wet weather.

In Tennessee near Nashville, we visited Andrew Jackson's Hermitage. We saw the dining room in which seven presidents of the United States had eaten. The number included the late President Roosevelt.

We made a tour through the Mammoth Cave in Kentucky. Because we had seen the various formations in the Carlsbad Caverns, we chose the historic route through the cave. It proved to be extremely interesting.

Near Hodgenville, Ky., we visited Lincoln's birthplace. Inside of the Memorial Building is the cabin where Abraham Lincoln is supposed to have been born.

Through Tennessee and Kentucky we saw many small fields of tobacco and truck loads on the way to the tobacco markets.

We stayed with Mr. Horner's nephew and family, Mr. and Mrs. Kenneth Horner and son, in Toledo, Ohio, the last night and completed our trip on Jan. 9. We had traveled 7,922 miles through 15 states. The highways were excellent except for two days' travel in Texas. Until we reached El Paso, Tex., we had enjoyed warm, sunny weather on nearly the entire trip. We did not travel in rain at all and only drove in a light fog about 100 miles in California. Motor courts and motels were excellent throughout the trip.

### "BAZOOKA" BOB BURNS NEW PICTURE "THE WINDJAMMER"

### TO BE SHOWN HERE AS PART OF BIG JOHN DEERE DAY PROGRAM!

"Bazooka" Bob Burns, famous radio and screen comedian, leads the cast of "The Windjammer," feature picture to be shown in the Cass Theater on Feb. 5. This movie headlines the John Deere Day entertainment and educational program for farmers to be sponsored by Ryan & Cooklin. Admission will be free of charge.

"The Windjammer" is a "rib-tickling" story of a windy character, Bob Newton by name, who claims to be able to make animals talk. His experiences, and those of his charming daughter, in making a talking animal picture in Hollywood

will provide an hour of top-notch entertainment every farmer and his family will long remember.

In the supporting cast are such other well-known artists as Gale Robbins, Sept El-Bott, Kenneth MacDonald, Ida Moore, Eddie Kane, Dan Duncan, and Sam Flint.

In addition to "The Windjammer," four other new, all-talking pictures will be shown. They include "Headliners in Tractor Value"—the story of the new John Deere Models "A" and "B" Tractors for 1947... "New Power for the Smaller Farm"—an important announcement of a new small

tractor with a complete line of integral equipment for the small acreage farmer...

"Conservation Farming with Regular Equipment"—an educational picture on how to keep your soil "at home" with the equipment you have on your own farm... and "New Pages in John Deere Progress"—a newsreel on newly developed John Deere integral and drawn machines for 1947.

Ryan & Cooklin are extending a cordial invitation to all farm readers of this newspaper—and their neighbors—to be their guests on John Deere Day, Feb. 5.

INTERPRETING THE NEWS

Concluded from page 1. schools direct. These needs in- cluded day schools for the deaf, blind, epileptic, crippled; state schools for the blind and deaf; behavior clinics for delinquents, for county normal teacher training schools, for adult education and for vocational education. The state spent more than \$20 millions for the university and colleges; teacher retirement cost the state about a million dollars.

generation are on short pasture; in fact, almost turned out to browse on the desert. "It would not be necessary to disturb either the Board of Regents or the State Board of Agriculture now by constitutional mandate in control of the University and Michigan State College. Neither would I disturb the present state board of education in control of the four state teachers' colleges nor the board in control of the College of Mining and Technology. I would, however, strengthen the state board of education and provide for the appointment of the superintendent of public instruction by that body rather than electing him by popular state-wide vote as at present. "I would then proceed under the exact terms of the sales tax diversion amendment adopted last fall to divide the revenues. First, I would provide for all the colleges and the universities — adequately but with consideration for actual, not fancied, needs. I would also take in Wayne university and I would provide for junior colleges in the more populous centers. It is cheaper for the state and

cheaper for the parents to educate these young folks close at home than to send them away in droves to clutter up campus and class room facilities at our colleges and the university. Inasmuch as all school districts are to share in this new money, I would shift the cost of high school tuition from the state to the local school districts, but make it mandatory that it be paid for every boy or girl from the rural schools who could qualify for high school education. "It is my considered opinion that all this can be done well within the limits of current revenues plus the primary school interest money and such federal aid as is now available and is now being received. "As for the soldiers' bonus I would preempt three mills of the property tax to provide for the payment of interest and the liquidation of the debt. Not many veterans have large real estate holdings, but all would share, directly or indirectly, in the taxes required to pay them. Bonds resting in real estate taxes are most desirable from the investor angle and can be sold at the lowest interest rate, much lower than when supported by so-called nuisance taxes of doubtful stability. This would permit retirement of the debt within a 15-year period. "The state should then recover for itself some or all of the intangible tax and the liquor revenues presently being collected and presently being handed over to municipalities. Retail liquor license revenues now going to townships and cities should be retained

in part by the counties with consideration given to cities maintaining adequate police departments and promising full police supervision of licensees. "Simple, isn't it? Adequate support for all proper functions of government, state and local, no added tax or new taxes, no necessity for again amending the state constitution. "Probably too simple to hope for adoption." Pickle Fruit Pickle fruit or vegetable slices of uniform size, not merely for neat appearance, but because the pickling liquid will season them more evenly. Bulgarian Cities There are few big cities in Bulgaria. Sofia, the capital, had an estimated population in 1942 of little more than 400,000. Plovdiv (Philippopolis) was about 100,000. Rail Tonnage The weight of steel rail in this nation's vast network of railroad tracks was four times the total tonnage of the navy at the close of the war.

## MSC Schedules Conference on Farm Building

The second annual farm building conference will be held at Michigan State College on March 12 and 13, 1947, according to A. W. Farrall, head of the agricultural engineering department at MSC.

The conference is sponsored by the department of agricultural engineering and the Michigan farm building advisory committee. Farrall will preside at the Wednesday morning session. An address of welcome by E. L. Anthony, dean of agriculture at MSC; talks on the present status of farm buildings and how a home economist views farm home planning will be heard.

C. M. Meredith, former county agricultural agent for Arenac County and now field representative for the Portland Cement Association, is chairman for Monday afternoon. The program will feature talks on financing, designing, electrification, and sanitation for farm buildings.

The second morning George Amundson, extension project leader, will be chairman and James S. Boyd, agricultural engineer at MSC, will preside in the afternoon. The day's talks will feature safety programs, planning and the outlook for farm building construction.

The conference will be held in the music building on the Michigan State College campus. All farmers and their wives, county agricultural agents, rural builders, and anyone concerned with farm building is urged to attend the conference.

## COLD NO'S

No, lady—you slick chicks will soon be in a fix, because ice is ice, whether walking or driving. The stuff is just plain slippery. So reduce your speed to conform to the condition of the road, and keep your mind on the business at hand. Think ahead, and be ready for that emergency around the next corner.

## Expect 500 Dairymen for Dairy Day at MSC

More than 500 members of Michigan's dairy breed associations are expected on the Michigan State College campus at East Lansing Thursday, Feb. 5, for Dairy Day.

When announcement was made that Farmers' Week was an impossibility due to heavy enrollment at the college, dairy department officials started making arrangements for the five breed associations to meet and plan their events for 1947.

Dr. Earl Weaver, head of the dairy department at MSC, will preside at the opening session at 10:30 a. m. in Fairchild Theater. A. C. Baltzer, extension dairyman, will speak briefly to this session which will include the members of all the breed associations. Charles Figy, director of the Michigan department of agriculture, and Dr. C. F. Clark, state veterinarian, will report on the progress of the Bang's disease testing program.

Awards to outstanding lifetime dairymen will be made by Miss Sarah VanHoesen Jones, member of the State Board of Agriculture and vice-president of the Holstein-Friesian Association of America.

The afternoon will be occupied by annual meetings of the individual breed associations in Peoples Church. The Guernsey breeders, however, will hold their meetings at Hotel Olds, Lansing.

The Michigan dairy herd improvement association supervisors will meet with dairymen and have a program of their own in Peoples Church during the afternoon. Various breed associations will elect officers.

Farmers, dairymen, and members of the breed associations will find that many interesting features have been planned for the 1947 Dairy Day.

## Cleanliness Among Best Disease Control Methods

A new extension folder prepared by B. J. Killham, extension specialist in animal pathology at Michigan State College, stresses cleanliness as a way to control animal diseases.

Killham points out that too many farmers view sanitation from the standpoint of disinfectants. These agents are useful in many cases but cannot destroy disease germs unless they come in actual contact with the germs.

Nature, on the other hand, provides cheap, effective and easily used germ killers. Fire, sunlight,

The folder lists ways of cleaning places where germs may lurk. A formula for a good lye solution is also given.

Farmers may obtain this folder from their county agricultural agent or by ordering from the Bulletin Office, Department of Public Relations, Michigan State College, East Lansing, Michigan. Ask for extension folder F-106, "Controlling Animal Diseases Through Sanitation."

## Laundering Nylon

The usual precautions for washing fine fabrics should be observed in laundering nylon. Wash them in lukewarm water and mild soap. Squeeze the suds through the fabric and rinse well without wringing or twisting. Nylon woven fabrics should be rolled in a turkish towel to absorb moisture and then smoothed out and hung on a hanger to dry. Nylon fabric does not wrinkle badly and should require only slight smoothing with an iron. Some garments will require no ironing.

## Sheep-Parasite Control

Reports received by the department of agriculture from specialists in 19 states show that improved methods of controlling sheep parasites are paying good dividends in the form of plumper market lambs and better condition of breeding stock. Much of the improvement is credited to the use of phenothiazine, which has been used more and more by sheep men since department research men discovered several years ago that the chemical is unusually effective against a number of injurious internal parasites of sheep and other farm animals.

**Snow Melters**  
 Electrical snow melters have been developed to keep railroad or street railway switches operating under severest blizzard conditions.
