

## Eight Village Officials Named to Succeed Themselves

Dozen Citizens Gathered Monday Evening to Select Candidates for Office

A dozen citizens gathered at the council rooms Monday evening to attend the village caucus. Henry Smith presided as chairman, H. P. Lee served as clerk and Alex Tye and Cameron Connell were appointed tellers.

Preceding the balloting for candidates, Chairman Smith read a statement from Village President E. L. Schwaderer in which that official said he was not a candidate for nomination to succeed himself and recommended the naming of Frederick Pinney as a candidate for president, stating that Mr. Pinney was familiar with village affairs and well qualified to fill the office. Mr. Pinney was nominated as suggested by Mr. Schwaderer. Other candidates are:

Clerk, H. P. Lee; treasurer, Ernest Croft; assessor, Everett Rawson; trustee for two years, Robert Keppen, Arthur Kettlewell and Dr. E. C. Fritz; members of the library board, Alice Nettleton and Thelma Schwaderer.

For all offices except two trustees, the nominations were made by acclamation. The name of Arthur Little was proposed as a candidate for trustee two times as an opponent to Arthur Kettlewell and Dr. Fritz. In both instances, he received five of the 11 votes cast.

All nominees are candidates to succeed themselves except Messrs. Pinney and Keppen. Both have served the village as trustees in earlier years.

## Randall to Run for School Commissioner

L. D. Randall, former superintendent of schools in Cass City and for the past eight years editor of the *Norway (Mich.) Current*, has announced his candidacy for the county school commissioner's office in the April election. Randall was named by the Dickinson County Republican committee at a recent meeting.

Randall, who had 19 years of teaching experience prior to his purchase of the *Norway Current* in 1939, is a graduate of the high school at Beaverton, Michigan. He graduated from the Central State Teacher's College with an AB degree in 1922, and from the University of Michigan with a Master's Degree in Education in 1926. While at the University Randall took the major part of his work in the field of elementary school supervision and administration.

## Michigan DHIA Figures Are Like the National Average

The annual report of the Dairy Herd Improvement Association shows that results in Michigan correspond very closely to those of the whole United States.

The Bureau of Dairy Industry of the U. S. Department of Agriculture says that the records of the 400,000 DHIA cows in the nation show 8,592 pounds of milk and 346 pounds of butterfat per cow per year.

Michigan figures are equally impressive. According to L. A. Johnson, dairyman at Michigan State College, the 20,000 DHIA cows in Michigan averaged 8,487 pounds of milk and 344 pounds of butterfat per cow per year.

Improved practices adopted by DHIA members are credited with gradually putting more cows in the higher producing classes. Twenty years ago one half of the herd association cows in the United States produced less than 275 pounds of butterfat each per year. Three-fourths of the cows now produce more than that.

In Michigan, DHIA cows that produced at the rate of 200 pounds of butterfat, yielded a return of only \$78 above feed costs. High producers that gave 400 pounds of butterfat yielded a return above feed cost of \$213. This is \$5 more than the figure for 400 pound producers in the United States. Labor costs are not figured in these calculations.

## Guy Falls Down (?) in Bowling "Spree"

By M. B. Auten.

The whole town was mortified. Last Wednesday night while bowling in the Merchants' League, Guy Landon started off the first game bravely with seven strikes. On-

Grandpappy.

lookers observed that he had a bad rack for the eighth frame and the competing team got great encouragement when he left the 3-6-9 pins standing and followed with a split. But he then started striking again and ended with 254.

The next game was his real failure. In the sixth frame, he left the 6 pin standing. It rocked a little but stayed up and then of all things it still stood after the second ball. Even Grant Ball could get that single pin. However, Grandpappy then proceeded to strike out which gave him 11 strikes in the game for a 267.

The last game was a complete let down for 215. The three games totalled 736 which is a lot of wood in anybody's game and is the highest number ever rolled on our alleys either in or out of league competition. More power to Grandpappy Landon!

S., of Gagetown and of Echo chapter of Cass City, which was to have been given Monday evening at Gagetown, was postponed indefinitely when worthy matrons of both chapters conferred with Mrs. Greta Masten at Clare by telephone. Weather conditions made it seem inadvisable to have the meeting as scheduled.

## Happenings in Thumb Towns and Villages

Items Gleaned from Reading Columns of the Chronicle's Exchanges

Sam Fry of Croswell saved all of his pennies for one year and on Wednesday took them to the bank and exchanged them for paper money — two twenties and a ten! The 5,000 pennies filled two cigar boxes and weighed 37½ pounds.

Two sisters, Mrs. Robert Meharg (June Monaghan) Brockway township, and Mrs. Leo Gleason (Marie Monaghan) Speaker township, gave birth to babies within a few hours at Yale Hospital. Mrs. Gleason's family was increased by two when she gave birth to twin girls. What is more unusual, Mrs. Meharg's baby, a boy, had one bright shiny tooth, squarely in the front of his lower jaw.

Over 500 school electors of Millington Township signed the petition requesting an election to vote on formation of a single school district in Millington Township. While 25 per cent of the voters had to sign to bring the issue to a vote, well over 50 per cent of the total voters have signed the petitions, and the total may reach considerably higher. The petitions have been turned over to William F. Brandt, Millington Township clerk, whose duty it is to call a meeting of the township board to check the petitions within five days after the filing of such petitions.

Sanilac County's first dairy day will be held Friday, Feb. 21, at the Sandusky High School. It will be an all day event, the program beginning at 10 a. m. and ending at 3:30 p. m. Specialists from Michigan State College and the State Department of Agriculture will lead discussions on the latest developments on the dairyman's problems.

## Cass City Schools Plan to Reorganize

School Building at Cass City.

The Cass City Board of Education feels that school district planning must keep abreast with social and economic changes, if the education of children is to be the major factor and function of school districts. They feel that the time has come to reorganize this area into a larger unit as has been done in many rural communities of Michigan. Marlette, Owendale and Unionville all have recently been organized and are operating under similar plans.

Three members of the local board of education and the superintendent of schools spent a day in Lansing recently conferring with Department of Public Instruction officials in regard to reorganization plans. At that time, it was felt that a Rural Agricultural District was the plan most suited to the Cass City area. Under this plan individual school districts have an opportunity to express their own feelings about future educational plans for the boys and girls in their area.

"The Cass City district is one of the 27 best areas in the state for reorganization," Dorris Stack of the Michigan Department of Public Instruction, in charge of reorganization transportation, told members of the local board of education. He referred to the wide area surrounding Cass City without high school facilities.

The first step in this new reorganization is to circulate in the districts an advisory petition. (See below). Fifty per cent of the qualified voters in a given district must signify their intentions of reorganizing with the Cass City unit.

This is a sample of the advisory petition which will be circulated in each district giving voters the opportunity of signifying that they would like to cooperate with the Cass City district in planning the future of the school in the community.

### Advisory Petition

We, the undersigned qualified voters of district number \_\_\_\_\_, township of \_\_\_\_\_, county of \_\_\_\_\_, Michigan, hereby request that there be submitted to our district petitions calling for a vote on the question of whether or not the district named above shall reorganize with Cass City (Elkland No. 5, Tuscola County), and several primary districts in a Rural Agricultural School District under the \_\_\_\_\_

Concluded on page 8.

She was a member of the Presbyterian Church.

Surviving are her husband, a patient in the nursing home also; two daughters and two sons, Nicole Hitchcock of Merton, Wis., Mrs. Gladys Merion, Lyle Hitchcock and Mrs. Berniece Templeton, all of Detroit; five grandchildren; a sister, Mrs. Ella Tanner, of LaGrande, Ore., and a brother, Chas. Harbor Beach 6 5 13 7-31  
Cass City 6 11 5 8-30  
Cass City reserves were victorious, 49-30.

## Triplet Heifer Calves Make Big Hit in Sanilac

Triplet heifer calves—a 1 in 40,000 chance—were born last fall to a seven-year-old Holstein cow belonging to William Moore, Snover, Sanilac county.

But the mere fact they are a 1 in 40,000 chance is not the whole story. The animals brought to 60 the number of direct descendants Moore has accumulated from his original 4-H club calf, which won him honors in club work back in 1930 and 1931.

The sire of the calves is by a double grandson of Reformatory Century Aggie, unofficial lifetime champion milk producer. Their dam is eligible for registration and is one of the nine daughters of Moore's 4-H club heifer. His foundation cow lived to be 13 years old and produced nine heifer and two bull calves.

With 25 head of his present

milking herd of 30 cows direct descendants of his original 4-H club calf, Moore admits that 4-H club work put him in the dairy business. Today, dairying is his chief farm enterprise.

This year, Moore is looking forward to the day his oldest boy reaches ten-years of age and is eligible for 4-H club work. And it's quite probable that "Dad" Moore will see that his young son gets a good start with a 4-H club calf if the youth so desires.

Harold R. Clark, assistant agricultural agent in Sanilac county, says the chance of triplets in cattle is one in 10,000 births. The chance of triplet heifers, then, would occur only once in 40,000 births.

The animals are a healthy, thrifty trio and many in Sanilac county have shown considerable interest in their development.

## Poor Visibility In Storm Blamed For Three Collisions

Five Persons Injured in Tuscola County Sunday in Head-on Crashes

Poor visibility during the snowstorm Sunday was responsible for three automobile crashes in Tuscola County and five persons being injured in the accidents.

Cars driven by Robt. Warner and Lee Smith met head-on near the Lloyd Reagh home, Novesta Township, Sunday forenoon while Mr. and Mrs. Warner and their grandson, Robt. Warner, were driving to services at the Church of Christ. Mr. Warner was hospitalized for minor injuries.

Paul Kreager, engineer of the county road commission, is in the Caro Community Hospital with a severe chest injury. Mrs. Andrew Greenfield of Unionville suffered a fractured skull and Mrs. Greenfield fractured ribs and lacerations about the face. The three were injured when cars driven by Mr. Kreager and Mr. Greenfield crashed head-on about noon Sunday near Caro. Earlier that day a Tuscola County Road Commission snow-plow and a car driven by Carl Sieland of Caro collided on a highway eight miles north of the county seat. Mrs. Sieland received a shoulder injury.

## 400 Farmers at the John Deere Day Program at Cass City

Drifted roads were responsible in keeping several farmers from the John Deere day program on Feb. 5, but Ryan & Cooklin, local implement dealers, didn't expect as many farmers to their party as were present, owing to weather conditions. Approximately 300 attended the movies at the Cass Theatre in the morning, about the same number were guests at a free lunch at the company's store at noon, and 400 saw Bob Barns in "The Windjammer" and several short subjects demonstrating farm equipment and an announcement of the 1947 John Deere tractor, at the afternoon movie program.

A. A. Spriggs, field man for the John Deere Co., assisted local dealers with the day's activities.

## Farmers Cautioned to Check Insurance on Farm Buildings

The building on many Michigan farms could not be replaced or repaired with the amount of money for which they are insured. Higher costs of labor and material to rebuild make any fire or wind losses greater today than before the war.

N. L. Smith, extension specialist in farm management at Michigan State college, advises farmers to get their insurance policies out and do a little figuring. Preventative measures alone will not eliminate fire or wind and a well planned insurance program will reduce financial loss if disaster should strike.

A recent study of 187 Michigan farms shows that three-fourths of the farm owners have increased the insurance of their buildings since 1939 by about 35 per cent. Although the insurance has been increased by 35 per cent, building costs have increased 70 per cent in the same period. This wide difference in increased building costs and insurance shows the additional risk that most farm owners have.

Smith says the study shows that, on the average, the fire insurance carried at present would pay about 43 per cent of the farmer's estimated cost (1946) or replacing the buildings. Wind insurance would cover about 38 per cent of the 1946 replacement costs. Farmers in either case would have to bear about 60 per cent of the loss themselves.

A careful study of present coverage and a conference with the insurance representative will help farm owners to lessen the risk of great financial loss.

## MICHIGAN'S MOST FAMOUS STUDENT...

OF THE hundreds of thousands of boys and girls who have studied in Michigan, Thomas Alva Edison is the most famous. Yet the man who did so much for humanity never had more than a few years of formal education.

You may have read that Edison, the boy, was banished from the Port Huron schools for dreaminess in class—that his teacher called him "addled"—and that he learned the three R's from his mother. Later, when in his teens, he worked on the Grand Trunk railroad. Fortunately for every one of us, his train had a daily lay-over of nearly five hours in Detroit.

For Thomas A. Edison, high school and college were an ancient building, the Young Men's Society Library, on Jefferson Avenue, just a few doors east of Woodward. Between runs, he buried himself in its

books, devouring them, not by subject or author, but by shelf and section.

Throughout his life, this thoroughness was characteristic with him. It was the quality that carried him through three thousand unsuccessful theories before he invented the incandescent lamp—fifty thousand abortive experiments before he created the storage battery. "Genius," he was fond of saying, "is one per cent inspiration, ninety-nine per cent perspiration."

Few of us have Mr. Edison's thoroughness, his patience, his capacity for concentration. But we at Detroit Edison realize that our heritage from him is both an inspiration and an obligation—an obligation to continue his efforts to make life more comfortable. That is why we are constantly trying to develop new and better ways for electricity to serve you.

## THE DETROIT EDISON CO.

IN HONOR OF MR. EDISON...

You are cordially invited to these exhibits Feb. 10 through Feb. 15: the Edison Institute Museum at Greenfield Village, 9 a.m. to 4 p.m. daily, admission 25c; and the

J. L. Hudson Co.'s special display. Bring your friends to see electricity in the making at any Detroit Edison power plant, 12 noon to 9 p.m.—Saturday, 10 a.m. to 4 p.m.

## DENNIS ROBINSON DIED

IN MERCY HOSPITAL

Funeral services for Dennis Elwood Robinson, 4 months old son of Mr. and Mrs. Clifford Robinson, were held Thursday at 3 p. m., in the Little Funeral Home. Rev. M. R. Vender officiated and interment was in Elkland cemetery. The baby died Tuesday in Mercy Hospital in Bay City where he had been a patient for a week. Dennis was born in Pleasant Home Hospital Sept. 26. Surviving are his parents; three brothers, Philip, Larry and Danny; grandparents, Harold Dickinson of Cass City and Mr. and Mrs. Ira Robinson of Uby; and great grandparents, Mr. and Mrs. Lee Dickinson, of Cass City, Mr. and Mrs. Robt. Albrant of Caro and Mr. and Mrs. John Robinson of Uby.

The writer's personal comment: Constitutional salaries of state officials and legislators are wholly inadequate in 1947 on the basis

of present-day living costs. The present system of paying the governor a \$5,000 salary and then giving him an additional fee of \$2,500 and an expense account of \$10,000 is simple moral circumvention of the constitution, although we concede its practical needs.

Attempts to increase legislators' salaries by constitutional amendment have been unsuccessful. As late as Nov. 7, 1944, the voters of Michigan rejected a proposal.

A happy solution to this problem—and other problems including the strangling sales tax amendment which ear-marks 76 per cent of revenue for non-state public services—is a constitutional convention for revision of the constitution.

The answer of big-town mayors to Governor Sigler's request for a solution to the state financial dilemma was as follows: Grab the veterans' \$50,000,000 trust, dip into the present surplus, and count on an increase in sales tax returns. Thus the prospective \$83,000,000 deficit could be averted. The mayors' solution was a one-year answer at the best. It pointed the way anew to the need for revision of the state constitution rather than imposition of new and higher taxes.

According to the state constitution, the legislature must adopt any bill, so initiated by petitions, within 40 days or it automatically goes on the ballot at the next general election. The legislature's deadline is February 17. Senator Bonine, labor committee chairman, has announced his belief that the bill should be voted upon by the people. Hence the certainty, at the moment, that the voters will decide it in April.

New York, New Jersey, and Massachusetts have adopted a similar law. California voters rejected it in a referendum last November by a margin three to one.

What would the law do? The New York commission has ruled the following practices to be illegal: Requirement of a photograph from a job applicant, requirement of information regarding the applicant's religious affiliations, place of birth, naturalization papers, racial ancestry or nationality.

The Michigan bill would impose a fine, not more than \$1,000 or imprisonment for not more than six months, or both, for any violations.

Should each member of the Michigan legislature get a \$750 per diem expense account while at Lansing on state business?

That's the question now before the House of Representatives. The senate thinks so. Governor Sigler has advocated higher pay as a way to lessen temptation for graft to cover living costs at the capital.

Here are some facts. The \$3 per diem, as set by the constitution, is paid for every day in the calendar year, Sundays included. A legislator's compensation is \$1,005. The average legislative session runs five months. A legislator is subject to duty throughout the year.

The constitution specifically states that legislators "shall receive no further compensation than as specified in this section for service when the legislature is convened in special session." All attorney generals prior to 1947 have ruled that it would be illegal to pay an expense account; Attorney General Black has ruled it would be legal.

Attorney General Black also announced he is going to turn in his own expense account for \$2,500 a year, as provided by a 90-year-old statute enacted back in 1857. Mr. Black's home is in Port Huron.

State Treasurer Samuel Odell, who served from 1917 to 1920 (two terms), collected \$2,500 a year in addition to his salary. The present treasurer, D. Hale Brake, has not done so.

The governor's constitutional salary is \$5,000, although he receives an additional \$2,500 as a member of the administrative board. Combining constitutional salaries and legislatively-enacted fees or compensation, all state officials except the lieutenant governor now get \$7,500 a year. The lieutenant governor receives \$3,500 plus \$3 per diem as a legislator, or \$4,595 in all.

Until 1945 the governor's expense account was \$5,000 a year. In 1945 the legislature doubled it to \$10,000. Even the \$5,000 expenditure is a fairly recent innovation, so we were told.

The constitution says that "it shall not be competent for the legislature to increase the salaries herein provided"—said salaries being those of state officials.

If Attorney General Black insists on collecting his \$2,500 expense account or if the legislature approves the \$750 per diem expense account allowance, it is conceivable that the state supreme court may be asked by someone, at some time, to decide the entire matter.

The writer's personal comment: Constitutional salaries of state officials and legislators are wholly inadequate in 1947 on the basis

**BOWLING**

A new team was jumped into first place the past week. Gremel's squad, the only one of the top teams to come through with four points, now are leading the pack by two full points. Outside of their first game which they won by two pins, they had no difficulty in holding back the Larkin team for a clean sweep of their series. The McCullough and Reid teams who were tied for first place last week, both fell by the wayside and failed to register a single point and are now farther down in the league standings but still have a good chance for a come-back. The Auten and Parsch squads, increased their standings by overwhelming their opposition and are both contenders for the top team honors.

Frank Reid came back again to gain a place on the weekly honor roll after doing so last week. This time his individual offering of 604 pins on games of 207-198-199 brought him into a place on the high ten list. Only one other bowler, Paul Dewey, made the honor list. His high game of 236 was tops for the week and gave him totals of 578. He is a member of the Kolb team.

**LADY THROWS CANE AWAY AFTER TAKING NEW RHU-AID FORMULA**  
One lady who was unable to walk 6 weeks ago, due to rheumatic pains, says she is enjoying a normal life once again since she took RHU-AID. In fact, she says she has thrown her cane away. This lady had to stay in the house for weeks at a time, unable to get out much. Rheumatic pains centered in the joints of her knees and ankles. She says she felt stiff all over. But in less than a week's time, when she started taking RHU-AID, the awful rheumatic pains disappeared from her legs and ankles. She is well and happy today and says she wouldn't take a fortune for the relief RHU-AID has given her.

RHU-AID is the new liquid formula containing three valuable medical ingredients. These Three Great Medicines, all blended into one, go right to the very cause of rheumatic and neuritic aches and pains. Miserable people soon feel different all over. So don't go on suffering! Get RHU-AID. McCullough's Drug Store.—AdvertisementF.

5. That an operating budget be prepared after the number of districts interested in this reorganization is determined.

6. That no legal vote be taken until the operating budgets are complete and all figures made available to voters.

A map of the reorganization area as suggested by the Michigan Department of Public Instruction will be published soon in the Chronicle.
