

Detroit Woman Is Killed in Auto Accident Here

Mrs. Margie Renny Met Death Wednesday When Driver Lost Control of Car

Mrs. Margie Renny, 32, of Detroit was instantly killed in an automobile accident Wednesday afternoon at four o'clock, one mile west and a quarter mile north of Cass City, when the driver, Mrs. Katherine M. Creguer, of Cass City, lost control of her car. Deputy Sheriff John Zinnecker, who investigated, said the automobile coming from the north on the Koefgen Road at a high rate of speed, zigzagged from one side of the gravel road to the other, finally turning completely around and landing on its side. Dr. H. T. Donahue, county coroner, was called in the investigation.

Mrs. Renny and ten year old daughter, Margaret, had come to the home of Mrs. Creguer, aunt of the former, on Wednesday for a visit. When the accident occurred the two women and little girl were on their way to Cass City. Also in the car were two little boys, Frank Bzich and Donald McNeil, of Detroit and both ten years old, who are boarding at the Creguer home. A mile west and a mile north of Cass City, Mrs. Creguer and the three children escaped injury.

Mrs. Creguer was ordered to appear in Justice St. Mary's court to answer to a charge of reckless driving. A coroner's inquest will be held here Monday at 1:30 p. m.

Mrs. Shadko Finds St. Louis Interesting

Jeannette Bond Shadko of J. L. Hudson's, Detroit, a former resident here, spent several days last week in St. Louis, Missouri. She attended the national convention of Home Economists in Business and of the American Home Economics Association.

In addition to the convention meetings the women visited some of St. Louis' interesting spots. At the beautiful Shaw Botanical Gardens plants from all over the world are grown either outdoors or in greenhouses. The St. Louis Zoo is one of the most photographed zoos in the world because their animals are trained to do many cute tricks.

The city is also noted for its famous outdoor opera in its natural setting in Forest Park. This park is one of the two largest city parks in the United States.

A short trip down the Mississippi was also included in the tour on the last day of their stay in the city.

Two Brothers Drown in Lake Near Pontiac

Ralph and Ernest Stone Were Victims Sunday in Fishing Mishap

Two brothers, Ernest Stone, 25, of Hickory Grove Road, Pontiac, and Ralph Stone, 30, of 955 Beardslee Road, Route 1, Lake Orion, drowned when they fell from their fishing boat in Commerce Lake, near Pontiac, about 10:30 a. m. on Sunday. Both formerly lived at Cass City.

They went to the lake with Herman Siewert of Hickory Grove Road. As they decided to use two boats, Siewert was fishing alone. Whether one of the pair fell and the other went to his rescue could not be established as none of those who witnessed the accident were close enough to be certain. Sheriff's Detectives Elmer McQuern and Delos Anderson and Deputy Robert Gordon recovered the bodies.

Ralph Stone was born in Michigan Oct. 11, 1916. Ernest was born in New York July 6, 1922. They were the sons of Amos H. and Gladys Snell Crouch Stone.

Ralph was a private in the medical corps, 838 Aviation engineers, and was honorably discharged on Oct. 3, 1945. He was last employed in the power house at the Fisher Body plant in Pontiac. Ernest had been employed as a farm hand for four years at Fairfield Farms, Bloomfield Hills. Both came to Orion Township two years ago from Cass City and were members of the Maccabees at Deford.

Surviving besides the parents are a brother, Thomas Atfield, of Caro, and a sister, Mrs. Bessie Schroeder of Utica.

Funeral services were held on Thursday, July 3, at the Purseley Funeral Home in Pontiac by Rev. A. H. Meyer of the Bethel Evangelical Church officiating. Burial was at Square Lake cemetery.

Gilford W. S. W. S. Guests of Local Group Friday

Seventeen members of the Gilford Women's Society of World Service of the Evangelical United Brethren Church were guests of the Cass City group of the same organization Friday afternoon in the dining room of the church. Mrs. John Sovey, president of the local society, welcomed the visitors.

"Missions in the Philippines" was the subject of the study and the program centered around this topic. Mrs. Wehrman of Gilford gave an interesting historical sketch of the work accomplished among the natives of these islands. Mrs. Maurice Joos and Mrs. John Zinnecker added much to the program by singing a duet.

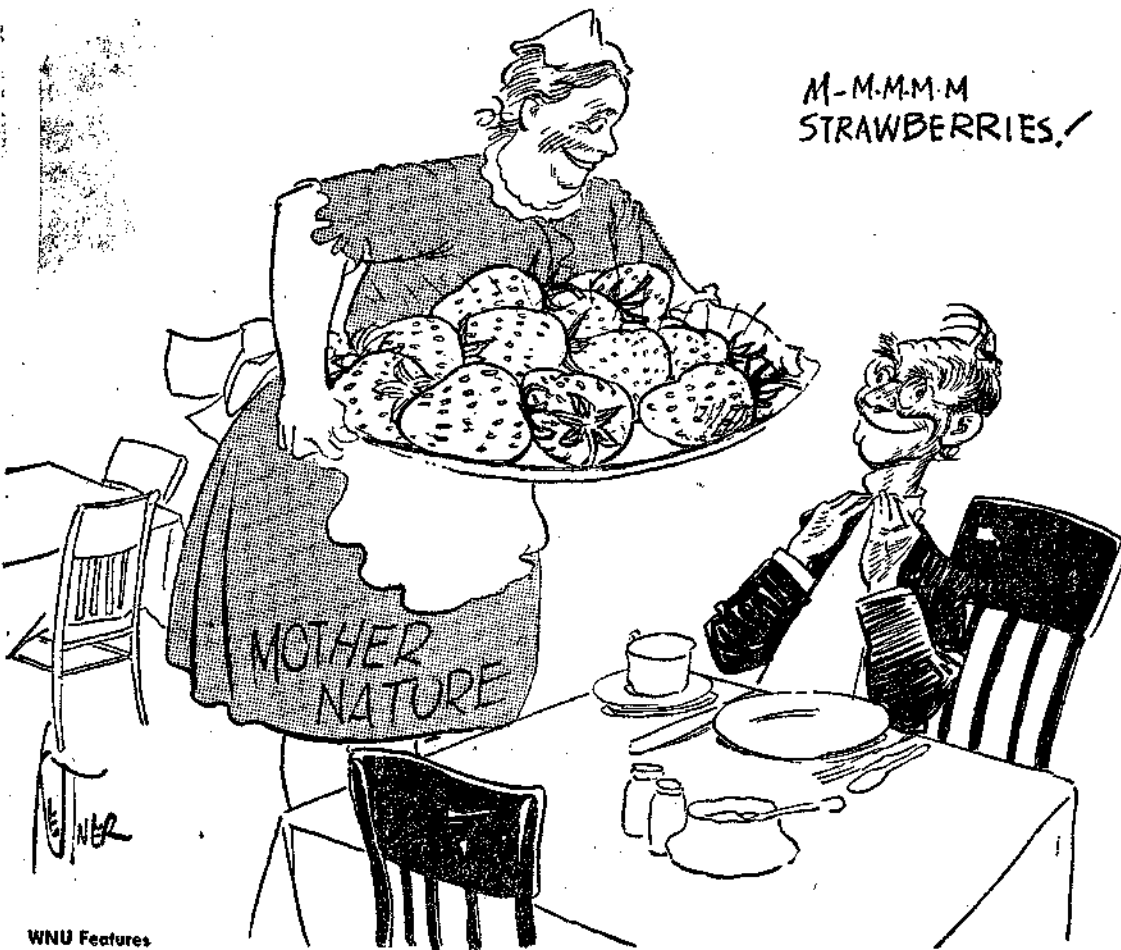

During the business meeting, Mrs. Sovey was elected the delegate of the local W. S. W. S. to the state convention to be held at Bay Shore Park near Sebawing. Three new members—Mrs. Harry Young, Mrs. Geo. Dillman and Mrs. Arnold Copeland—were received into the local society.

At the close of the afternoon open face sandwiches, cookies and tea were served from a lace covered table, centered with a bowl of lavender-colored asters and lighted candles. Mrs. Joos and Mrs. Zinnecker poured.

Oak Bluff Breezes

This season has been an unusually late one but the past two weeks have been perfect for fishermen and all water sports so that the cottages are slowly filling with familiar faces.

Mrs. E. R. Wilson has her nephew, John Howlett, with her for a week. John has been well entertained with picnics, fishing and trying his hand with the Wilson motor boat.

And speaking of motor boats, there are several new ones on the beach this season. Myrtle Holmes and Mrs. Wuhm have purchased one and we understand Dr. McIntyre too.

Dr. and Mrs. P. A. Schenck, Mrs. Holt, Dr. Delbert Rawson and Master Jimmie were callers Friday evening at the Burke cottage.

Mr. and Mrs. Karl Ketchum and son, Thad, of Birmingham are entertaining the Green family also of Birmingham over the week end.

Mrs. Grieg spent a week at her cottage recuperating with a broken arm.

Excitement was at high pitch when an accidental fire did considerable damage to the Walton cottage. However, repairs are already under way.

Miss Mary McWebb of Cass City spent Friday as the guest of Mrs. Ivan Vader.

E. R. Wilson came last week end and his father accompanied him from Lansing.

Mrs. J. D. Brooker and Mrs. Levi Bardwell of Cass City were guests of the Burkes Friday. Mrs. Bardwell remained for a few days' visit with her daughter, Mrs. E. R. Wilson. The Misses Nina and Gertrude McWebb brought the ladies up and made a short call at the Burkes.

The Fourth promises to see most of the cottages open. Many members are looking forward to golf this season on the new course about four miles south of here on the Scenic Highway.

The annual stockholders' meeting will be held July 5 at the Alex Maxwell cottage.

The Caro office of the Michigan Unemployment Compensation Commission paid unemployment compensation to 241 unemployed people in Tuscola County for the week ending June 28, 1947, according to W. H. Baughman, principal claims examiner.

This figure includes 129 unemployed veterans paid readjustment allowances and 112 industrial claimants paid from the Michigan unemployment trust fund. Included among the industrial claimants were 30 women.

School Meeting. The annual meeting of electors of School District No. 2, Novesta township, will be held at the Paul School, on the evening of Monday, July 7, at eight o'clock for the purpose of electing a secretary for three years and for transacting any other business which may properly come before such meeting. Times are going to be better on Michigan farms.

That is — despite the 1947 wet spring.

Cupid is getting along pretty well, for one thing. Only one divorce has been recorded out of 600 marriages among members of the Michigan Junior Farm Bureau, according to Ruth Parsons, president. That's better by far than the one-out-of-six record for the nation today.

Farmers' checks are bigger and fatter. Mortgages are being paid off. New equipment and buildings are being added in a program of mechanized agriculture. Farmer income, on a per capita basis, has finally exceeded the normal relationship to wage and salary income.

This prosperity has been long overdue. For the past decade or so, farmers and small-town dwellers have comprised a fifth of the nation's population. Yet they have received only about one-tenth of the national income.

Our 1947 boom is riding into the second half of the year at a high level. Income payments are now at a record rate of \$177 billions a year. This rate is just concluded on page 2.

Both of these sales are advertised on page 7 in the Chronicle this week.

SANILAC SHERIFF TO HAVE MOBILE TELEPHONES

Sanilac supervisors voted last week to install mobile telephones in the county sheriff's cars as soon as the Bell Telephone Co. completes the installation of their receiving channel in Port Huron which will probably be in August. This service is the latest in communication.

For sheriffs or local law enforcement agencies where the volume of calls is not large it has distinct advantages over the radio service now in use. No dispatcher is required and calls may be completed with or from any telephone having connection with the Bell system. A call coming through to the car not only rings a bell but flashes a light which remains on until the telephone is removed from the hook. Thus if the driver is away from the car at the time he knows on returning that a call is waiting for him.

The equipment placed in the car weighs about 80 pounds and costs the Bell Co. about \$1,000. It is installed for \$25 and the rental is \$22 a month which includes six dollars' worth of calls. All service costs and replacements are at the company's expense.

This service will also be available to a limited number of individuals but preference is being given at first to public officials.

HOADLEY REUNION HELD AT IMLAY CITY ON JUNE 29

On June 29, at their farm home near Imlay City, Mr. and Mrs. Howard Hoadley held a family picnic. A bounteous dinner and visiting were enjoyed by all. This is the first time in nearly 14 years that the entire Hoadley family have been together. Only one grandson, William Watkins, was absent. He is serving with the army in Japan.

Those present at the family gathering were Mrs. Guy Hoadley of Greenleaf, Mr. and Mrs. Robt. Hoadley and daughter, Patricia, Mr. and Mrs. Orville Hoadley, Mr. and Mrs. M. V. Hoadley of Kalamazoo, Mr. and Mrs. Robt. Bratton of Howell, Mr. and Mrs. Anson Karr, Mr. and Mrs. James Mudge, Mr. and Mrs. Rodney Karr and two children, Mr. and Mrs. Keith Karr and two children of Grosse Pointe Woods, Miss Margaret MacRae, Mr. and Mrs. Wm. Watkins and son, Robert, Mr. and Mrs. J. L. Felmk of Clawson and four children, and Mrs. Eleanor Morris of Camarillo, California.

CORRECTION.

The Chronicle was misinformed when it was stated in the June 20 number that the Cass City board of education recommends that each child must have reached his fifth birthday before Jan. 1, 1947, if he is to be enrolled in the September, 1947, kindergarten class. The date should have read "Jan. 1, 1948."

Jarmans Find Living Up in Price and Homes Expensive at Fairbanks

Mrs. Mack Little has received a most interesting letter from her friend, Mrs. Isabel Burgess, who went recently to spend the summer with Mr. and Mrs. Ali Jarman at Fairbanks, Alaska. Following are some of the highlights of the letter, written a week after her arrival.

Mrs. Burgess went by plane to Anchorage where she was met by the Jarman, former residents of Novesta Township. Her plane arrived on time at 11 a. m. which is 5 p. m. our time on Tuesday. The group travelled by auto to Fairbanks and arrived at the Jarman home Friday night. The roads are curves, steep grades, made of gravel and very dusty.

Sunset and sunrise at Fairbanks now merge into one and Mrs. Burgess writes of being able to read after retiring without lights.

A home such as the Jarman have, a log bungalow which consists of two bedrooms, sitting room, kitchen and bath, costs \$8,000.00 and wainigans in which many people live and which are portable one-room homes, cost \$2,000.00.

Butter is \$1.00 a pound; eggs are \$1.25 a dozen; oranges, 49 cents a pound; cucumbers are 65 cents each; a dozen breakfast rolls are \$1.00; a pie is \$1.00; milk when you can get it is 45 cents a quart; bread 30 cents a loaf, and gasoline varies from 40 to 50 cents a gallon.

On the way from Anchorage to Fairbanks, Mrs. Burgess reports seeing much snow and that some of the lakes are still covered with ice.

Mother of Mrs. Price Passed Away June 26

The remains of Mrs. Anna C. Holmberg, 84, were taken from the Douglas Funeral Home Friday to Iron Mountain where on Saturday at 2 p. m. in the J. B. Price, here where she had been confined to her bed for the past two weeks.

She was born Sept. 28, 1862, in Sweden and Mar. 1, 1884, went to Iron Mountain. There on June 28 of the same year she married Karl G. Holmberg. Mr. Holmberg passed away several years ago.

Surviving besides her daughter, are two sons, John G. Holmberg of Ann Arbor and Elmer Holmberg of Chicago; also seven grandchildren and six great grandchildren.

about \$100 billions more than the pre-war level. Giddap, we're going to town!

More hospitals for Michigan rural areas are on the way, too. Governor Kim Sigler announces that Michigan is going to put its house to order. The state seeks to be eligible for \$10 millions of federal funds available during the next five years for construction of rural hospitals in Michigan.

Uncle Sam is to pay one-third or more of such cost; local communities two-thirds. The federal law permits a higher priority to rural areas in allotment of funds.

The 1946 state survey of the W. K. Kellogg Foundation proposes "one or more hospitals or medical service centers for each county". The foundation recommends establishment of 181 public health and medical centers.

The Michigan State Medical Society is sponsoring a Michigan rural health conference at Michigan State College early in September. Cooperating agencies include the State Grange and Farm Bureau.

and religious education, the University of Michigan is currently sponsoring a "workshop" June 27 to July 7 under the able leadership of Dr. Edward W. Blakeman, university research consultant in religious education.

Along with other states, Michigan is now experiencing a post-war moral slump. Crime is rising rapidly. Apparently unaware of the moral law, "Thou Shalt Not Kill", 16-year-old Oliver Terpening, Jr., Lapeer county farm boy, slew four children "because I always wanted to know what it would feel like to kill somebody". We could write a column on this subject — our lagging morals and our need for more religious education. Maybe we'll do it some week.

Better rural life in Michigan is the aim of a course in rural leadership at Michigan State College July 7 to 18.

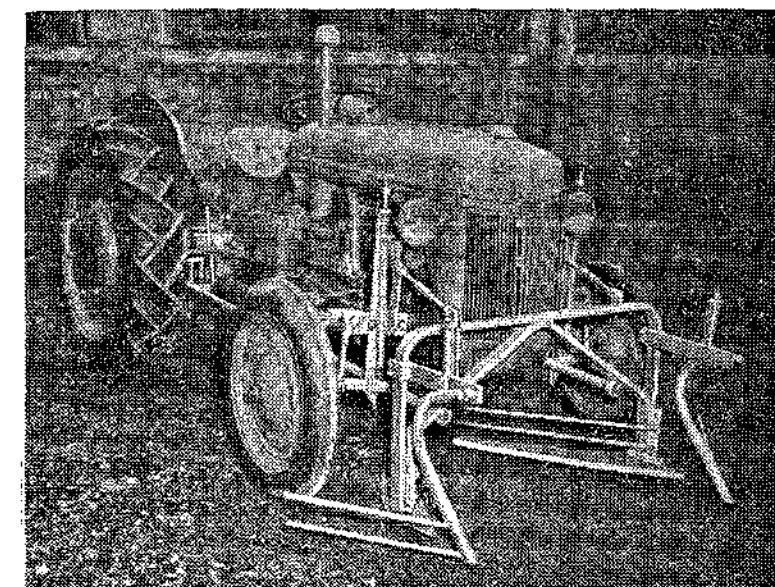

A Michigan rural safety council has been formed to do something about the causes of 169 fatal accidents on Michigan farms last year. Burns and explosions accounted for one out of every three mishaps; machinery, one out of four; the bull, one out of four.

And so it goes. One important thing is this, Michigan farm folk are trying to help themselves. And from the current signs, they're doing pretty well, thank you.

Chinese Writing
The Chinese encyclopedia says the Chinese first wrote on thin strips of bark or bamboo board. Then for 300 years before and after Christ silk waste was used. T'sai Lun, famous Chinese statesman, was the inventor of paper made of vegetable fiber. In 105 A. D. he made paper of bark, hemp, rags and old fish nets. It is a far cry from the primitive equipment used by the Chinese consisting of a screen made from horsehair lashed to bamboo frames to the great modern machinery used today by the papermaking industry. Instead of horsehair copper alloy wire is used.

Gas Warning
Carbon monoxide, widely and unfavorably known for its deadliness anywhere, may be even more serious high in a plane, where oxygen is scarce, than it is on the ground. Quick detection and speedy remedy of the cause are needed. A sensitive detector was developed by the bureau of standards during the war.

ABNORMAL COLON

A "Trite," perhaps "Slang" expression, of course, but a "True" fact in many, many cases! Your entire well-being depends on the proper functioning of your stomach and alimentary canal, which together digest and filter out the food values you must have for a normal healthy life. Everything you eat can't be changed to blood, calciums, vitamins, etc., without creating waste material, poisonous substances, that must leave the system within a normal period of time, or they in turn are carried through the blood stream as an actual toxic poisoning, attacking the liver, kidneys, spleen, gall bladder and more especially the heart. Technically, this is called auto-intoxication—but I call it "poison" to yourself.

Constipation : Rheumatism : Liver Trouble
are directly traceable to a distorted, sluggish, or diseased colon—a condition that affects almost every part of your body and which ONLY a colon X-ray can definitely and positively prove. If you are ill, if you have been doctoring for this or that, without achieving any practical relief, I invite you to come to my office and discuss your case with me. If I feel I cannot help you, I will tell you so, and you will be under no obligation of any kind. Let us all help to protect this game bird.

The Game Division of the Michigan Conservation Department has planted some 45,000 trees and shrubs in state-owned game areas in Tuscola county, principally in the Deford and Vassar areas. Harold Tubbs is the officer in charge locally.

In addition, for further food for game, food patches of lespedeza, sweet clover, soy beans and buckwheat have been sown.

Mr. Tubbs said that he would be glad to work at any time with groups who wanted to know more about the subject.

"One thing that farmers can do to help in game preservation is to see that their cats and dogs are confined or tied up at night and in the early morning," Mr. Tubbs said. Game can be protected for hunters if these pets are confined more closely.

Better Service

If you're trying to decide between a loosely woven high-pile rug and a short but dense pile, choose the short pile by all means. It will give better service because its compactness means it's closely woven.

First in Cuba

First American troops to land in Cuba during the Spanish American war were marines, who established a beachhead at Guantanamo bay in June, 1898.

Around Globe

If all the five-cent pieces coined in the United States since 1886 were laid flat side by side in a single row, they would reach around the earth at the equator with a good many miles to spare.

The real low-down on the Midwest gasoline situation!

More motor cars and trucks are on the road in the Midwest today than in 1941 and the per car consumption of gasoline is higher.

Twice the volume of gasoline is being consumed by tractors on Midwest farms as in 1941.

The railroads have four times as many Diesel locomotive units today as they had in 1941. Diesels burn lots of fuel oil.

Additional hundreds of thousands of homes, old and new alike, are depending on fuel oil for clean, economical, efficient heat.

More planes arrive and depart from Midwest airfields. Every plane has a hungry maw that must be filled with high octane gasoline.

It takes a lot of tank cars, pipe lines, and barges to bring crude oil to the refineries to produce the needed gasoline and oil.

Steps taken to increase supplies

Thousands of new wells have been drilled and are producing additional supplies of crude oil. Hundreds of miles of new pipe lines are in service. Our refineries are producing as never before—operating at new high levels.

Standard Oil's expansion program was blue-printed long before there was any break in the war clouds. It has been driving ahead ever since V-J Day.

Refinery projects already completed have added 13% to our crude-running capacity and other projects now under way, although behind schedule because of shortages of materials, will increase this figure to 27% by next spring.

Great progress has been made. But all this is not enough.

Why the Midwest feels the pinch

Last winter's heavy demand for heating oil caused Standard Oil to make large increases in fuel oil yields at the expense of gasoline. As the result of this and heavy gasoline demands this spring, Standard's available inventories of gasoline at refineries and terminals are 30% below a year ago.

Also, in the Midwest transportation is a serious bottleneck. At present there just aren't enough

pipe lines and available tank cars to carry to the Midwest the extra load of crude oil and finished products from distant producing and refining areas. Here again, projects which will help the situation by next spring are under way.

How Standard Oil is handling the situation

In the interest of fair treatment of all our customers, we are putting into effect at once an allocation system for the distribution of our gasoline during June, July and August. Throughout these months the total amount to be supplied Standard Oil Agents and Dealers in the Midwest will be approximately equal to what they received in 1946 during the same period. Since gasoline sales are running millions of gallons ahead of last year's, Standard Oil Agents and Dealers, in turn, will be unable to meet an unlimited demand. This temporary allocation system is adopted for your protection.

We frankly do not know how long this situation will last. We are laying our plans on the belief that it will continue through August—perhaps longer.

We do not believe the situation is serious enough to justify the introduction of formal rationing.

How you may be affected by this situation

There may be times when your service station dealer will be out of gasoline temporarily. Even if you are not always able to buy all the gasoline you want, there should be no need for real hardship. Although this is vacation time—if folks will take it easy, will reduce unnecessary driving, and not drive at high speeds that consume a lot of gasoline—everybody should be able to stay on a fairly normal basis. Nobody needs to become panicky. Hoarding, which is dangerous, would only aggravate the situation.

Standard Oil Dealers are cooperating wholeheartedly in this temporary emergency, which there is every reason to believe will not be of too long duration.

We earnestly bespeak your cooperation with your favorite Standard Oil Dealer. Both he and we want to see you often—and for a long time to come.
