### Not Worth Much

The customer at the filling station asked for a change of oil.  
 "What do you want—in bulk or sealed cans?" the attendant asked.  
 "What's the difference?"  
 "No difference in oil," the attendant explained. "The bulk is for people who take my word for the quality and the cans for those who question my word."  
 "Your word is as good as mine," the customer said thoughtfully. As the attendant started to procure the oil from the bulk supply, the customer spoke up quickly. "I said your word is just as good as mine. Give me that can oil."

### SUNKEN COURSE

The visitor paid his greens' fee and went out to the first tee. Taking his stance he made a wild swing and missed completely.  
 "By jove," he said to his opponent. "It's a good thing I found out early in the game that this golf course is at least two inches lower than the one I've been playing on."

Smooth your legs as a background for your nylon! Warm oil, used to massage your legs, gives a satin finish. Scrub your knees and heels with sudsy suds, then use oil. You may not have dimpled knees but they'll be mighty nice!

work. In the past the U. P. has been a two-industry region, logging and mining. Communities are asked to take an inventory of their resources and then to invite industrial concerns to open branches in the Upper Peninsula. In the opinion of newspaper publishers who attended a two-day conference at Ontonagon last July, this economic program is one of the best bets for the future growth of the region. It is now being handled by Ben Clark, formerly of South Haven, and it is sure to be continued by the new state department of economic development soon to be set up by Governor Kim Sigler.

Don't believe any reports that the U. P. will soon be a "ghost area" of abandoned mining towns. Facts are quite to the contrary.

Recent explorations in the U. P. indicate a mass of low grade copper ore at least six miles long and two and one-half miles wide. It holds enough copper ore to permit mining at the rate of 7,500 tons daily for 50 years. The ore is probably the largest known copper reserve in the United States. How to utilize this low grade ore is a technical problem yet to be solved.

We have been told by good authority that huge reserves of valuable high grade iron ore still exist in the U. P.; that the Gogebic range is good for at least 25 years at the present rate of production. This region also possesses millions of tons of low grade iron ore, and eventually a way will be found whereby this wealth can be tapped profitably.

Any mention of the U. P. self-improvement efforts must include George Bishop's Upper Peninsula Development Bureau which promotes both the tourist and agricultural industries there. Success of the Keweenaw county park hotel at Copper Harbor has won over many private resort owners to support a move for a state-owned, privately operated chalet at the Porcupine Mountain State Park and perhaps a similar facility at the Tahquamenon Falls State Park. These parks now lack facilities to attract and serve tourists.

Perhaps the only unexploited natural resources of the U. P. is its marvelous climate. You sleep under blankets both summer and winter. The air is cleansed and cooled by the Great Lakes. When you are in the U. P., you are in the North.

As we see it, the U. P. needs better access through highways, airports and perhaps ultimately a

Bridge over the Straits. It sorely needs modern tourist facilities at the two key state parks, Porcupine Mountains and Tahquamenon Falls. It deserves a chance whereby its people, ever resourceful, can solve their own problems in an American way.

MRS. HOMEMAKER

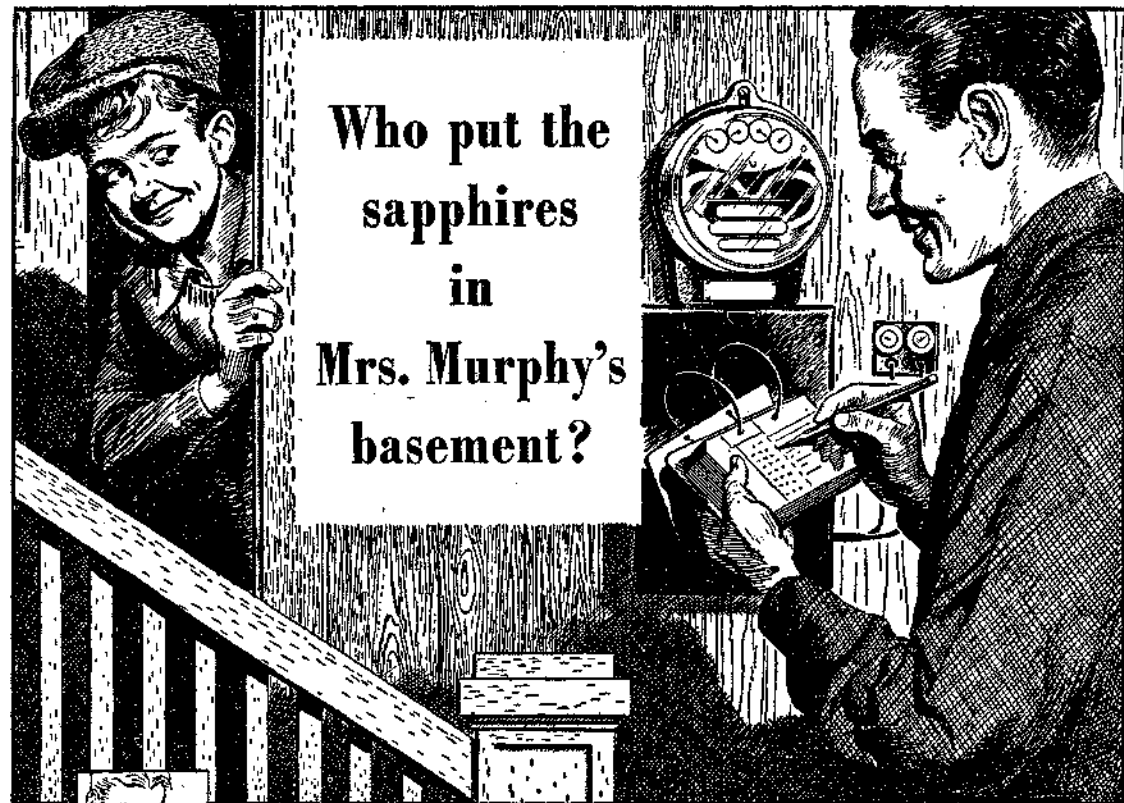

Too often the appreciation we feel for the wonderful virtues and attributes of the American Housewife has gone unexpressed. What a truly marvelous person she is! Were it not for her untiring industry and love, the rest of us would be in a sorry way. Her every waking moment is consumed with the passionate urge to make life "just a little brighter, just a little sweeter" for those she loves. Her brave smiles in time of distress and the cheering praises in time of triumph make life more livable for both men and children.

Who put the sapphires in Mrs. Murphy's basement?

Tommy Murphy was incredulous. "G'wan, how can there be sapphires in our basement?" he demanded. "Where are they, anyhow?"  
 "Right in this little black box, son," grinned the Edison man, tapping the Murphys' meter. "In there you'll find tiny sapphire-jeweled bearings, made with the same skill and precision that go into your dad's watch."

The careful workmanship in your meter is reflected in its absolute accuracy, whether it be in your basement or outside your home. And the man who checks that meter is so well-trained that he reads its figures as quickly and accurately as you tell time.  
 This emphasis on accuracy is part of the Edison way of doing business... it contributes to the uniformity and the year-round reliability of your electrical service.

Improves Herd  
 Better producing dairy herds can be achieved by breeding all milk cows to good dairy bulls, and then saving and raising the heifers as herd replacements.  
 Ideal Hog Size  
 Moderately fat hogs, weighing between 180 and 240 pounds alive, produce hams, shoulders and sides of the most desirable size for curing.

### Death of Frank Generous—

Complications following an operation caused the death of Frank Generous at Mercy Hospital, Bay City, on September 6. He had been ill for two years.

The body was brought to the Hunter Funeral Home here where it remained until Monday morning when funeral services were conducted by Rt. Rev. Msgr. John McCullough at St. Agatha's Church. Interment was made in the parish cemetery.

Frank Generous was born November 28, 1878, at Puce, Ont. He came here from Belleville, Ont., to engage in farming. In 1912, he was united in marriage with Margaret Bedore. Mr. Generous was a member of St. Agatha Church and the Holy Name Society.

He is survived by his widow; a son, Elger Generous, of Gagetown; and three sisters, Mrs. J. W. Mack, Miss Louise Generous and Mrs. Mabel Kelly of Detroit.

Out of town relatives and friends who came to attend the funeral included Mrs. Albine Richards, Utica; Mr. and Mrs. J. W. Mack, Miss Louise Generous, Mrs. Mabel Kelly, Miss Lillian Berthiaume, Mr. and Mrs. George Fiedler, Ervin Rabideau, Miss Helen Rabideau and Mr. and Mrs. Fred Rabideau, all of Detroit; and Alex Langlois of Flint.

Mr. and Mrs. Louis Creguer and two daughters of Vancouver Island, B. C., arrived at the home of Mr. Creguer's parents, Mr. and Mrs. Antheine Creguer, Friday afternoon. They were held in Windsor for five weeks before being allowed to cross into Michigan. Mr. Creguer left Michigan 25 years ago, locating at Spiritwood, Sask., and later residing at Vancouver Island. He now intends to make his home in Michigan. A reunion of the Creguer families was held Sunday at the Antheine Creguer and Clarence King homes. Those present were Mr. and Mrs. Cecil Creguer and Harold Creguer of Detroit, Mr. and Mrs. Peter Creguer of Clare, Mr. and Mrs. Ralph Fischler of Utica, Mr. and Mrs. William O'Donnell of Detroit, Mrs. Marcella Olts of Hammond, Ind., Mrs. James McNeil and son, John, of Detroit, Miss Helene Creguer of Cass City, Mr. and Mrs. Doris Morell, Mr. and Mrs. James Morell, Mr. and Mrs. Stanley Morell and Mr. and Mrs. Wilfred Morell of Uby and Argyle. A potluck dinner was served at the King home.

Miss Karen Cummings, daughter of Mr. and Mrs. Larry Cummings, on September 3, fell from a swing at the public school grounds and broke her arm at the elbow. She will be absent from school for two weeks.

Allen McDonald, son of Mr. and Mrs. Richard McDonald, enlisted in the army last week Tuesday, and Wednesday left for Maryland and later expects to go to Japan.

Mr. and Mrs. Floyd Werdeman and daughter, Theresa Ann, spent Saturday and Sunday in Detroit, guests of Mr. and Mrs. Fabian Eccles.

Miss Mary Phelan of Detroit is visiting friends and relatives in this vicinity this week.

Mr. and Mrs. Walter Dickenson of Detroit visited over the week end at the McDermid home.

Mrs. Conrad Mosack and Mrs. Agnes O'Rourke attended the wedding and reception and Mr. and Mrs. Archie Marks of Cass City and Mr. and Mrs. Edward Kehoe attended the reception in Detroit Saturday of Miss Roberta Davis and Kenneth McKinnon, son of Mr. and Mrs. Daniel McKinnon, and grandson of Mr. and Mrs. Neil J. McKinnon. The marriage ceremony service was read at 11:00 a. m. in St. John Berchmann Catholic Church, Detroit. The reception was at the home of the groom's parents.

Miss Rebecca Leyva, who has been visiting at the home of her brother, Paul Leyva, left Tuesday for Kansas City, Kansas.

Mr. and Mrs. Luther Murray and son, Luther, are spending the week at Otsego Lake with Mr. and Mrs. L. C. Purdy.

Miss Catherine Freeman arrived in Detroit Sunday night after spending the past month in Hollywood, California, with her sister, Mrs. James Snoddy. She came home Monday with Mr. and Mrs. Harry Comment, who met her in Detroit.

Mr. and Mrs. Clinton Vader spent the week end and Labor Day visiting relatives and friends in Flint. They also attended two

large birthday parties in honor of Clinton (Buddy) and Don Douglas, Sr. They returned home Tuesday.

Mr. and Mrs. George Yarmuth and daughter, Dorothy, of Saginaw spent from Friday until Sunday with Mrs. Yarmuth's sister and husband, Mr. and Mrs. Clinton Vader.

### Farm Electricity

Some 200 years ago, when Benjamin Franklin sent his famous kite into the clouds, electricity was only a toy for experimenters to play with. Today it is an essential part of our daily lives. Rural Electrification administration has made a tally of uses that farmers alone are making of energy coming over their cooperatively-owned lines and has arrived at the astonishing total of 400. So varied is the listing that there's a farm use for practically every letter of the alphabet.

### Named by Columbus

The Virgin islands were discovered by Christopher Columbus on his second voyage in 1493 and named Las Virgenes, in honor of St. Ursula and her companions.

### Women Stockholders

Of 468,200 individuals holding stock in steel companies, 232,500 are women.

### Ships Apples

Australia shipped more than two million bushels of apples overseas during 1946.

## Big engines... long trains

## mean lower cost to you!

But union leaders want "half-trains"—double crews!

Big locomotives are built to do a big job in the big country which is America—a big job in peacetime as in wartime. They are built to pull long trains.

Long freight trains can handle more goods at less cost—to you—than short trains.

Long trains mean fewer trains—fewer chances for accidents—fewer interruptions to traffic.

But a few railroad union leaders oppose long trains—among their current 44 demands for changes in rules is one limiting the length of freight trains to 57 average cars. Why do they demand this?

For "safety," they say. But is it? Government figures show definitely that long trains mean greater safety to railroad employes and public alike.

Then, if safety is not the real reason—what is the reason behind this demand?

It is to make more jobs which are not needed—to get more pay! This "made work" would be sheer waste. Think of big, modern locomotives using only half their power.

For this waste, you—the public—would have to pay. Higher costs mean a lower standard of living for everybody. Nobody wants that!

## Here's the record...

In the quarter century... 1921-1946...

Average length of freight trains has gone up.....	39%
Average speed of freight trains has gone up..	39%
The rate of injuries to railroad employes has gone down.....	60%
Average wages paid railroad workers have gone up.....	84%
Price of railroad materials and supplies has gone up.....	58%
Railroad taxes have gone up.....	76%
But the average charge by railroads for hauling a ton of freight one mile has gone down.....	23%
