FROM THE FILES OF THE CHRONICLE

Twenty-five Years Ago.
November 17, 1922.

Miss Satelek Hatchadourian, who spoke to audiences here Sunday, opened the eyes of Cass City people to the terrible conditions in the Near East. Cash and subscriptions amounting to over \$700 were secured from Cass City for the Near East Relief the first of this week.

Both Republican and Democratic candidates in the race for sheriff in Huron County filed petitions for a recount of the ballots in different precincts. The first official returns gave Peter C. Burns, Republican, a majority of 92 votes over Samuel Gwinn, Democratic candidate.

John Barnes has purchased the three-story brick block together with the billiard parlor and restaurant of Wm. Ward. Mr. Ward, in the transaction, acquires Mr. Barnes' interest in the business of the S. Champion Poster Advertising Co., Inc.

The annual report of the Cass City Fair shows all obligations of this year paid, a deficit of 1921 amounting to \$1,182.92 cleared up, and a balance of \$394.94 on hand.

Harry Pinney, who has been spending a few weeks with relatives here, returned to his home in Seattle, Wash., Monday.

John Scriver is moving from his farm in Novesta Township to his residence in town.

A special report furnished by bean growers throughout the state indicates that the average pick is 8.5 per cent and also confirms the estimated yield of 10.5 bushels per acre published last month.

Thirty-five Years Ago.
November 15, 1912.

A. S. Going of Montreal, local engineer of the Grand Trunk, was in Cass City Saturday and in conversation with L. B. Auten stated that trains on the Detroit & Huron R. R. may be running by Feb. 1, 1913. He said with good weather there was a possibility of getting the road finished in 30 days.

The bean crop from a 15-acre plot on the D. E. Turner farm was sold to The Farm Produce Co. the other day for \$1,050.00, an average of \$70 an acre.

Frank Rogers, deputy state road commissioner, inspected the two miles of state road built in Elkland Township this fall and oked the job yesterday morning. This entitles the township to a \$1,000 reward appropriation. The

INTERPRETING THE NEWS

"America will have lost its traditional character if it refuses (fuel and famine) relief under proper auspices," said Senator Arthur H. Vandenberg in an address at the University of Michigan.

The senator's remarks, favoring additional food and coal for Western Europe, were expressed at Ann Arbor in ceremonies commemorating the Dutch settlement of Michigan 100 years ago.

Simultaneously, and by coincidence, Governor Kim Sigler announced the Michigan Citizens' Food Committee led by Prof. Herman J. Wyngarden, head of the Michigan State College economics department.

Senator Vandenberg added an important "if." "We must frankly canvass our own resources lest we impair our own economy and thus vindicate the sinister hopes of those who expect our economic collapse to end all democracy for keeps... We must know the total bill."

Vandenberg declared we should strive for an unpartisan American foreign policy.

Governor Sigler stressed our patriotic obligation. "It is not a question of whether we agree with the President's program. The Pres-

Archie McEachern, who has been ill, is improving.

Mr. and Mrs. Rodney Karr attended the Lion-Cardinal football game at Briggs stadium in Detroit.

A number from Greenleaf attended the silver wedding anniversary of Mr. and Mrs. Elsworth Dunlap of Ubyly Nov. 8. Mrs. Dunlap was formerly Miss Margaret Livingston, and was well known in this vicinity.

Hubert Root called on Mrs. Annie Root at the home of Anson Karr, Saturday evening. Mrs. Root, who has been quite ill, is slowly improving.

Angus McLeod and his sister, Mrs. McIntosh, have been disposing of the furniture in their house at New Greenleaf. The house has been sold.

Magnets Clean Highways
Great strides have been made in the use of magnets, writes Glib Swanson in Capper's Farmer. Some states employ magnetic road sweepers to clear the highways of nails and other scrap. Magnets are used by canners and food processors for screening out pins, wire, basket clips and other foreign particles. Flour and feed mills use magnets to "catch" stray metal. Doctors use small, powerful magnets for removing tacks, pins, etc., from human lungs and stomach.

Curtains May Be Transformed Into Gay Assets for Windows

By Erta Haley

BREATHES there a woman who doesn't, at one time or another, take a look at the tired curtains in a room and sigh to herself that she wishes something could be done about them?

There's no reason for putting up with weary windows if your remodeling bag is bulging with gay pieces of material or while the remnant counters flaunt their bright pieces of fabric at you. A few time-tried decorator's tricks, a brief session at the sewing machine plus the makings for the curtains can give you a new look for those windows and add cheer to the whole house.

Throw out the old curtains? No indeed, unless they're simply worn beyond repair! But if they're short and shrunken from laundering, add a ruffle or a false hem made from a yard or two of contrasting color pattern. If they're faded, perhaps a bit of dye or tint will do the trick, or perhaps you can remove the old color entirely with color remover and then sew sprightly tiebacks and add a bit of color around the edges for trim.

Then, too, you may have old curtains—too large or too small—from another place in which you lived. Bring these out, too, and chances are in your favor that something can be done to make them useful again. There are all sorts of ideas buzzing about that will make curtain sewing a pleasure rather than a chore, and the sewing is easy because most of it's plain stitching.

Use Sash Type or Picture Frame for Kitchen

If your cast-off curtains are too large for the windows you now have, then the sash or "hourglass" type is the perfect solution to your

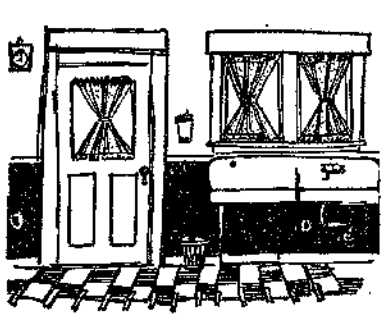

Use decorator's tricks

problem. You can work some simple salvage magic by cutting them down to fit your windows. You may also use large-sized curtains that have worn or shrunk.

Cut the old curtains to fit the windows to cover, and plan to have them run through rods at the top and bottom of the window. You can add color by drawing and gathering them tight at the middle of the window and tying with a bow to match the rest of the kitchen color scheme.

If you like a bit more frill and fancy work at the window, it will take only a minimum of fabric to make a ruffled border—of the same fabric as the bow—to run as a

For tired windows.

frame around the window. This is called a picture frame treatment.

The picture frame type can also be used alone on many types of windows and will use only a bit of fabric. You can probably find enough of this at a remnant counter to cover several windows in one room, and it can be of the most inexpensive cotton.

Sewing is easy, too, on both of these types as they need only hem-

Be Smart!

Here's a sure hit of the coming season, in almost any fabric you like—particularly effective in taffeta. The bias folds at the top and the swinging ballet length skirt plays magic with the waistline of the close-fitting bodice.

Drop Shoulders

Slim waisted, full hipped, that's the fashion word for this season. Fabric such as the velvet pictured in deep red or plush black with rows of tiny sequins lining the drop shoulder neckline can be fashioned at home even by the beginning seamstress with help from the local sewing center.

Tucked under the skirt at the hip are small panniers of crinoline to give the padded hip effect.

ming. The picture frame type can easily be ruffled with this particular attachment on the sewing machine. The local sewing center will gladly give you details on its use.

Tieback Curtains Suitable For Any of the Rooms

When considering styles for individual windows, you'll find tieback curtains ideal for practically every room in the house. Old curtain panels can easily be converted into something gay and new looking with contrasting colored ruffles around the inside edges and across the bottom. This technique will also give you extra length and width, if that is necessary.

If you've decided that the living or dining room, or bedroom or breakfast nook is just a bit too dark and cheerless for the winter months, then plan to use plenty of white or gay colored material. Introduce this by way of ruffling or valances, and try to have a rather sheer window curtain when possible so you can catch what bit of sunlight there is available.

Afraid of making ruffles? The ruffier time saving attachment to use on the sewing machine is now available and the sewing experts at the local sewing center will show you how easily it converts straight strips of fabric into rows of frilly trimming.

Swag curtain and valance make a dining room alcove combination and you can use the same combination in the kitchen. Salvaged fabric can be used for the sash curtain. If extra length is needed decorate it with a false hem made of a straight strip of the contrasting fabric. The contrasting fabric can be carried out further for a smart effect by using it for either a ruffle or swag type valance.

Using Curtains For Camouflage

Sheer bedroom or living room curtains may be salvaged if they are cut down for further service in the kitchen or the breakfast room. Don't worry too much if the curtains show signs of wear in the center if you use the "hourglass" treatment, since the "drawn-to-the-center" device hides the worn spots.

If you are not too proud of your windows, curtains can hide their defects, too, if they are attractive enough. Criss-cross them to cover a double window and then join them into one unit with a valance that extends across both windows. The valance gives extra length since the curtains can be hung from just underneath the bottom edge of the valance.

The criss-cross treatment will help give your room more spacious measurements and enable it to look more luxurious. If you want to add length on one wall, for example, use the valance treatment on double windows as this will give length to the proportions of the room.

If you want to make a room look smaller use large, busy looking prints or large designs for the fabric you use as valance or picture frame. Plaids are good for this purpose, and enable you to add a lot of color to an otherwise drab room. You don't have to give up the light, sheer touch altogether, either, for plaids, prints and other fabrics may be easily combined with sheer curtain material.

New Operations in Tuberculosis Told

Surgeons Now Remove Small Pieces of Lungs.

NEW YORK. — Dr. Richard H. Overholt of Tufts medical school, Medford, Mass., has described to American College of Surgeons, some new operations for tuberculosis.

This surgery not only removes entire lungs, which is not new, but lobes of lungs and even parts of lobes. This ability to take out small pieces of lung is one new development.

There are five lobes in lungs, three in the right lung, two in the left. Each is a virtually independent section with its own air and artery blood supply.

Overholt said the surgery is useful in cases where all other forms of tuberculosis treatment fail. He said the risk of removing either a lobe or an entire lung has been reduced by surgical progress of recent years that the dangers in the operations for tuberculosis are only a fraction of the perils of the disease itself. He said enough cases have been done to show that health can be restored.

Entire lungs were removed for the first time a few years ago for cancer.

A prediction that the number of surgical operations will decrease soon in a variety of diseases was made by Dr. Jacob J. Golub of New York.

He said those will be the diseases that can be better cured by preventive medicine, and by remedies from atomic ovens, from radioactive rays, hormones and antibiotics. The latter is a new name in medicine describing remedies such as penicillin and streptomycin that come from germs and molds.

Golub, however, said the total number of surgical operations is likely to increase, as there will be more of the accidents and other ills that surgery helps.

Vets Are Best Students, College Survey Indicates

EVANSTON, ILL. — Veterans who were freshmen last year at Northwestern university made slightly, though significantly, higher grades than non-veterans in the class, according to a study recently completed.

The research was done by E. L. Clark, associate professor of psychology. He selected 562 ex-servicemen and 272 non-veterans having equal potentialities as students. His work disclosed that veterans were a little better motivated but worked harder to succeed. Their grades averaged .81 per cent over men who were not in service.

Non-veterans were better prepared to succeed in college. They entered with more academic credits and were 34 months younger.

Harold Parsell, 26, of Caro, died Sunday morning in St. Mary's Hospital, Saginaw, following a major operation Friday. He had been ill a short time. Funeral services were held in the Methodist Church at Caro Wednesday afternoon, with Dr. E. Ray Wilson of Bay City and the Rev. S. Closson officiating. Tuscola County Memorial Post, V. F. W., were in charge of the military rites at the funeral.

Mr. Parsell was born in Almer township July 5, 1921, and was graduated from Caro High School in 1940. Last Aug. 2 he married Jean Tait of Cass City, who survives. He also leaves a sister, Mrs. Harold O'Neill, of Detroit; and two brothers, Chas. Parsell of Mio and his twin, Gerald Parsell, of Battle Creek.

Mr. Parsell served three years in the Marine Corps and participated in the Georgian Islands and other campaigns in the South Pacific with two years of overseas duty. He was discharged in September, 1945.

Sacred Tree of Japan

The ginkgo tree comes from Japan and China. It is the sacred tree of Japan. In a pyramidal form, it grows to the height of 50 feet. Its deciduous leaves are very different from the leaves of most American trees. In form, they resemble fans with unbranching, fern-like veins. This tree bears a plum-like fruit with a most unpleasant odor. In America it grows best in the region of Washington, D. C. The Chinese sometimes plant several male and female trees close together, so that male and female flowers appear to arise on the same tree.

Make Artificial Pearls

Artificial pearls are usually solid spheres of "alabaster" glass coated with lacquers containing pearl essence, obtained in this country from the scales of herring. Each scale contains tiny crystals of "guanine," which appear like thin transparent blades. When several coats of lacquer containing the essence are skillfully applied, the reflection of light in various directions gives the lustrous appearance associated with real pearls.

Rediscovered Chiropractic

Lost for centuries, the principles of chiropractic were rediscovered by Dr. Daniel David Palmer in 1895, and named chiropractic—a composite of the Greek word *cheir* and *praktikos*, meaning "done by hand."

VETERANNEWS

From the OFFICE OF VETERANS' AFFAIRS LANSING

Government Positions Open to Veterans.

Veterans will receive appointments to between 350,000 and 400,000 permanent Federal government positions within the next two years.
Civil Service recently announced that nearly 600,000 U. S. jobs are now held on the basis of war-service and temporary-indefinite appointments. Latest available figures show that veterans are receiving about 61 per cent of Civil Service appointments now being made. Most of the jobs now held on a war-service or temporary-indefinite basis will be refilled on a permanent basis within the next two years. Turnover will also create thousands of permanent job opportunities with Uncle Sam.

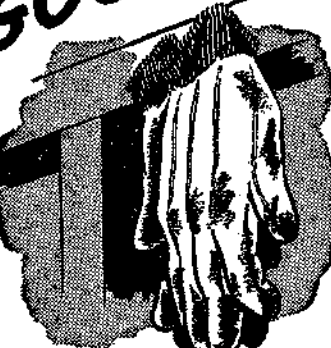

Disabled Veterans.

List of 70 nationwide Civil Service examinations, open to disabled veterans but not the general public, may be obtained by writing to the Civil Service Commission, Washington 25, D. C. Among the examinations so listed are those for guard, patrolman, accountants engineer, food and drug inspector, painter, personnel assistant, plumber, plate printer, property and supply clerk and officer, engineering and scientific aide, typist. Bulk of the job openings filled through these tests are in Washington, D. C., area. Regional offices of the Civil Service Commission throughout the country publish similar lists of examinations for jobs in their areas. Civil Service Secretary at the nearest first or second-class post office will usually have such a list for veterans to inspect.

GOOD-BYE

to those old white gloves

Those old white gloves that used to hang at the top of the cellar stairs are passing out of the picture.
They are a symbol of the labor, dirt and inconvenience of old-fashioned, hand-fired heating systems. In hundreds of thousands of homes, Timken Silent Automatic Oil Heat has ended furnace tending. A trim Timken thermostat is the furnace man—on duty 24 hours a day. With a Timken there is no dust and dirt—no work or worry. You enjoy an even, healthful indoor temperature, regardless of the weather outside.
You, too, can enjoy the comfort, convenience and cleanliness of modern Timken Oil Heat. So, say good-bye to your old white gloves.
Call us today for a free heating survey and cost estimate. You'll be pleasantly surprised to find how easy it is to own a Timken!

Anti-Dumping Tariffs

The practice of selling goods in other countries at prices lower than those charged at home is called "dumping." U. S. law provides for anti-dumping tariffs to discourage foreign countries from "dumping" their goods in the United States.

California Leads

Five counties of California led all others in value of farm products, according to latest census of agriculture. Yakima, Wash., placed in sixth standing among all counties of the United States, followed by three more California counties.

Whitewashing Coal

Spraying the top of a carload of coal with whitewash to enable dealers to detect thievery during transit is a practice being followed by a number of coal companies. It is reported that coal thieves have helped themselves to as much as several tons of coal while the cars were in the yards, with the result that dealers were certain the gondolas' cargoes were not of the contents stated in the way bill. The spraying method is simple and economical. The coal is given a top coat of lime whitewash after loading and weighing and the dealer notified to this effect.

Clearing House for Asteroids

Nobody likes to do dishes EXCEPT.

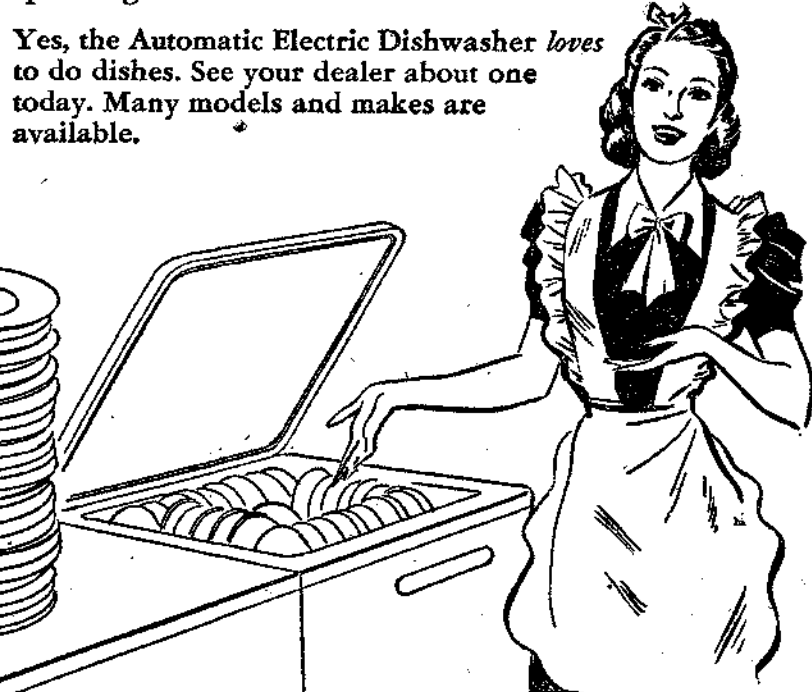

THE AUTOMATIC ELECTRIC DISHWASHER

If you're the average housewife, you struggle through six tons of dirty, greasy pots and dishes in a year.

If you are, then this is just what you've been waiting for. This push-button marvel floods your cutlery and crockery with water far too hot for human hands. The average electric dishwasher will hold up to 95 pieces, wash, and rinse them without attention, leaving every pot, dish and glass gleaming . . . bone-dry and safe in its rack.

The Automatic Dishwasher uses a special soapless cleaning agent. No film is left on glass or china. When it has finished its chore, every drop of water vanishes and everything is sparkling clean.

Yes, the Automatic Electric Dishwasher loves to do dishes. See your dealer about one today. Many models and makes are available.

Boom or Depression?
Figure it out for Yourself

GOOD OMENS

1. Employment at all-time high. More than 60,000,000 Americans working for "pay or profit." Fully 1,000,000 women have gone back to jobs since Jan. 1—many to help husbands "make ends meet." Skilled workers still scarce.
2. Income payments to individuals more than double prewar in first half although purchasing power of dollar sadly shrunk.
3. First-half retail sales (in dollars) 2 1/2 times as large as in 1929. Unit sales drag.
4. No signs of decline in demand for "durables" (hard goods) such as motor vehicles, refrigerators, railroad equipment and machinery, although machinery orders have been slipping.
5. Record-breaking agricultural income has made farmers rich. Total estimated assets of \$100,000,000,000 four times prewar.
6. Exports zoomed to annual rate of \$18,000,000,000—six times 1939—but overseas dollar supply is drying up fast and June exports fell off 15 per cent. Import controls already imposed by Mexico, Argentina, Brazil and India. Most countries awaiting U. S. loans. Exports crumbled in 1921 for lack of foreign cash.
7. Retail stores have started cautious rebuilding of stocks but policy of purchasing agents is mainly hand-to-mouth or 60 days.
8. Production per factory employe rising gradually in most industries.
9. Volume of necessitous repair work—residential and non-residential—has expanded substantially, calling for use of more materials.

BAD OMENS

1. Broadening of inflation spiral, checked temporarily, restarted by steel-coal settlement and virtual certainty of higher costs, higher prices, for most consumers' goods.
2. Administration's program to "stop Russia" in western Europe, Asia, Africa, threatens U. S. with impoverishment if carried through.
3. Congress extended government controls over exports and imports. This included petroleum. Exports to Russia will continue.
4. Savings by individuals fell in first quarter to lowest level since 1940. Cash and deposits dropped \$1,800,000,000 but holdings of U. S. bonds rose \$2,900,000,000. This was caution signal.
5. Manufacturers' inventories of finished goods of numerous types increased somewhat alarmingly in the first half.
6. Residential, business and industrial construction has fallen far below expectations because of fantastic costs.
7. Some commodities shipping as pipelines fill. Despite sheet dearth all steel companies have surpluses of some products. Hardest hit are rubber and copper. In Akron there is considerable unemployment.
8. Production of non-durables, particularly textiles, dropped slowly but steadily throughout first half.
9. High prices, fear of future, have led many families to defer buying.

MENNONITE BRETHREN IN CHRIST CHURCH HAS CHANGED ITS NAME

At the quadrennial session of the general conference of the Mennonite Brethren in Christ Church, recently concluded at Potsdam, Ohio, it was decided to change the general name of the church body to that of the "United Missionary Church."
The reason assigned for the change of the church name was the conviction that the work of the church could be more successfully carried on in the home and foreign fields under the newly-adopted name. One annual conference, Pennsylvania, did not concur in the necessity for the present change in the church name, but was voted full and unqualified relationship to the general conference of the body, while it continues under the former name.
The doctrines of the church will remain the same as formerly. The only major addition to the discipline is the inclusion in the articles of faith. A supplement will be included in the present discipline until a new discipline is written four years hence.
The new name, "United Missionary Church," will be in effect immediately while the legal aspect of this change will take some time.

Mr. and Mrs. Geo. Seeley and Mrs. Alma Streeter spent Tuesday afternoon in Bad Axe.
Mr. and Mrs. Chas. Barriger of Caro were Friday supper guests of Mr. and Mrs. Geo. Seeley.
Geo. Seeley and Wm. Parrott left Monday morning for Seney to hunt deer.
Mrs. Lewis Livingston and son, David, have been on the sick list for a few days.
Mr. and Mrs. Forrest Vadez spent the week end at the Lewis Livingston home.
Mr. and Mrs. Perry Livingston and Mrs. James Peddie visited Saturday evening with Mrs. Emory Lounsbury, who has been suffering from a slight stroke.
Mr. and Mrs. LeRoy Evans and sons and Mrs. Harold Evans went Friday afternoon to the home of Mr. and Mrs. Ezra Kelly in Detroit. Mrs. H. Evans returned home Saturday with her husband but the others remained until Sunday and enjoyed a short trip into Canada.
Lorne Evans and Ray Seeley returned on Friday from a two weeks' camping trip near Seney in the Upper Peninsula.
Mr. and Mrs. Sherwell Kelly went to Detroit Tuesday night. Mrs. Kelly and family will visit with Mrs. Ezra Kelly while Sherwell and Ezra are north hunting deer.
Mr. and Mrs. Dean Tuckey entertained the Sunshine Sunday School with a tin can supper on Thursday night. Leslie brought dog food—who ate it? George Seeley lost half his uppers in an apple, and with deer season at hand, it was a real calamity. I hope he took lots of soup along.

The group was in the mood for jovial visiting and discussion, leisurely and reluctantly bringing it to a close at 11:00 p. m. with no time for games. "Such fellowship and contacts are greatly stimulating, making for goodwill and better understanding of national and international problems as experiences and views are shared," commented the Rev. M. R. Vender.
Said Miss Addison, "I shall count this evening as one of the cherished memories of my visit to Cass City, together with the highly interesting meeting spent with your young people two weeks ago."

DETROIT EDISON TO COMPLETE FARM ELECTRIFICATION IN '48

Concluded from page 1.
dition, the mobile demonstrator incorporated an electric water system, a small burr and hammermill feed grinder, a two horsepower portable motor, a pipe line and portable-type milking machine, deep and shallow well pressure water systems, poultry water heaters and automatic controls for poultry house lighting. Farmers immediately saw by these demonstrations, that electricity is an important farm servant, saving many manhours and dollars. Some of the farmers have been unable to go ahead with their plans for the installation of electrical farming equipment because of the present high cost of this equipment. However, as a result of greater use, more efficient production and scientific advancement it is felt that manufacturers of this equipment will bring it within the means of all farmers.
"Completing the extension of electric power lines to all farms in the territory at the middle of 1948 will not mark an end to the company's activities in the farm field but rather the beginning of an intensive program to expand the use of electricity on the farm. Farmers are assisted in selecting economical application of electricity for their operations by a staff of experienced and specially trained Detroit Edison farm representatives who work with and assist the farmer without charge. Increased use of electricity on farms will mean increased efficiency, more profits and more leisure for the farmer and his helpers," Mr. Bougher added.

well, George Dillman, Don Borg, and Fritz Neitzel, who delighted the audience with four a cappella numbers, "Mamie, Riley," "Kentucky Babe," "Bull Frog in the Pool," and "Corn Field Medley."
Dr. Hans Leonhardt, associate professor of history and political science at Michigan State College, was the speaker of the evening with the subject, "Report from Europe."
Dr. and Mrs. Leonhardt left last June on a trip through Europe and returned very recently after having visited England, Holland, Germany and Russia.
He told of the dire need of peoples in the stricken countries, the annoyance of currency restrictions to travelers, the rationing of necessities of life in England and Holland, and the seriousness of the economic structure in European countries caused by imports exceeding exports. Europe is a declining continent, said the speaker, and he emphasized the thought that it would be expedient for the United States to extend aid to save civilization in Europe.
Mr. Leonhardt's informative and interesting talk was followed by a short question and answer period during which he presented his views on other phases of the conditions in Europe.

Church of Christ Parsonage Scene of Wedding Saturday

Herbert Watkins, minister of the Church of Christ, was the officiating clergyman Saturday at 10 a. m. when Miss Donna Zapfe, daughter of Mr. and Mrs. Lyle Zapfe, became the bride of Charles Holm, son of Mr. and Mrs. Fred Holm. The quiet ceremony took place in the parsonage of the Church of Christ. Attendants were Miss Pauline Wright and Richard Holcomb.
The bride was attractive in a purple suit dress of gabardine and her bridesmaid wore a dress of dusty rose. Both had corsages of white roses.
Following a very short wedding trip the newlyweds returned to the home of the bride's parents, where 35 guests attended a reception on Sunday from 4 to 7 p. m., in their honor. Guests were from Detroit, Bay City, Flint, Mayville, Caro, Sebawaing, Owendale and Cass City.
After the young people opened their lovely gifts, ice cream and cake were served. One pretty wedding cake was four-tiered and topped with a miniature bride and groom, made by the bride's sister, Mrs. Chas. Peasley.
Mr. and Mrs. Holm expect to make their home in Bay City in the near future where the groom is employed.

Young Couple Will Live in Saginaw

Rev. John J. Bozek officiated at the nuptial mass Saturday at 9 a. m. in St. Pancratius church here when Stever Windy of Saginaw, son of Mr. and Mrs. Joseph Windy, Sr., of Cass City, and Miss Aloha Yancer, daughter of Mr. and Mrs. Norman Yancer, of Saginaw, were united in marriage.
Attendants were Jos. Windy, Jr., and Mrs. Jas. Goetgeuck of Saginaw, brother and sister of the groom.
Mr. and Mrs. Windy will live in Saginaw where the former is employed.

Bride Is Dressed in Green Crepe

In a ceremony performed in the Methodist parsonage here Saturday at 1:30 p. m., Miss Geraldine Cannell, daughter of Mr. and Mrs. Frank Cannell of Pontiac, became the bride of Orville Healey, son of Mr. and Mrs. Clarence Healey, of Cass City. Rev. John Safran officiated. Guests at the ceremony were the groom's parents, the bride's father and her brother, Ronald, of Pontiac. The bride's mother, who came to Cass City, became ill and was unable to attend.
Attendants were Mr. and Mrs. Delbert Healey of Cass City, brother and sister-in-law of the groom.
The bride wore a green dress of crepe and with it a wine colored hat and other accessories of black. Her matron of honor was attired in a wool dress of teal blue with black accessories. Both had corsages of pink carnations.
Mr. and Mrs. Healey will make their home in Pontiac where the groom has been employed.
