CASS CITY WON IT Base Ball Tournament at King- | clean game for Cass City and Knapp ston Last Friday.

TWO VICTORIES IN ONE DAY

The Cass City Base Ball Team Won a \$25 Purse Against Akron and North Branch.

It is doubtful if anything, except ship election, can arouse more Amercan spirit or cause wilder enthusiasm than a hotly contested base ball invincible. game. At a base ball game fat men it in the least; the dyspeptic forgets his troubles, the small boy his errand while the prim young lady gets daintily frantic.

The base ball tournament which was held at Kingston last Friday will wildly enthusiastic base ball contests ever waged in eastern Michigan. Though the day dawned with a drizzling rain which continued spasmodically the greater part of the day, all the teams scheduled for the day, except Sanilac Centre, were early on the

The first game was between Cass City and Akron and was begun about eleven o'clock. It was a fine exhibition of hard playing though the wet condition of the ground made swift ball impossible. Moore held the box for Akron and was in the best possible form. As usual Akron depended entirely upon him, but one man can't play a whole game. He struck out eight men however, gave three men bases on balls, while Cass City pounded bim out for nine hits. Bob Buckley did the twirling for Cass City. He was not in his usual form and pitched slow ball. He passed six men up on strike-outs, and gave two bases on balls. Eleven hits were made feature of the game.

From the start the sympathies of the crowd were against Cass City. North Branch visitors were the only ones, besides our own rooters, to give our boys any encouragement whatever. But it appears our boys were prepared to play the whole agregaion and did it.

The line-up and score of the Akron, Cass City game were:

Akron-Harris, D. McClay, A. Mc-Clay, Kramer, Day, Kellogg, Streeter, Mitchell, Moore.

Cass City-Schwaderer, Seeley, Mcial is moving at the Kenzie, Knapp, Bob Buckley, Herb

> Branch were scheduled to play the first of the afternoon games, but by be played. Kingston decided to withdraw from the contest and leave the final struggle to Cass City and North Branch. North Branch had a strong picked team and lots of confidence. The game was called about 4 p. m. with North Branch at the bat. Cass City held them down for shut-outs the first three innings. In the fourth North Branch tallied 3 runs, and then the fun began. The rooters yelled like mad men but North Branch was inable to score again until the ninth inning when two more scores gave them a total of five. Slaght, of Detroit, pitched the game for North Branch and LaDan caught. Slaght throws a well controlled and swift ball and struck out seven men.

For six long, lonesome innings things looked dubious for Cass City, for during that time our boys were completely shut out. In the seventh Supplies completely shut out. In the seventh inning, however, another chapter was opened and six scores were chalked up opened and six scores were chalked up to delay. Now is the time to act.! for Cass City. During this inning A full line of everything necess- the rooting was deafening. Every ary for school use. We have some batter seemed to consider it his duty special prices to offer on second hand to pound the ball, while North Branch books. Come in before they are all went into the air completely. In the G. Wixson, died at the age of 76 years gone. We have also all the new books eighth inning our boys added another at his home at Lexington, Aug. 21st. that are being introduced at exchange score and the game was won. This prices. Bring in your old books as game was without question one of the for many years was treasurer of Sanearly as possible and we will try to most hotly contested games ever lac county. He was a leader in Remake the school book burden lighter. played in eastern Michigan. The unefforts in coaching. The inimitable certainly a feature of the game, and thusiasm had much to do with the result of the same.

Smith of Marlette and Brumm of neighbor.

Cass City acted as umpires. That they gave general satisfaction is SCHOOLS OPENED years in Marlette, the first year in the primary department and the last its high standard of excellence with proved by the fact that they were not mobbed. Herb Buckley pitched a was simply "Knapp"-he's always the same. The line-up and score were:

Batteries: Cass City Buckley and The Present Staff of Teachers In-Knapp: North Branch-Slaght and KaDan.

Cass City has outplayed every team she has met this season. The fact that our boys defeated North Branch possibly a Maine disaster or a town- after having played a hard game in the morning shows that they have the staying qualities that make a team The twenty-five dollar purse was

lorget their avoirdupois and sizzle awarded our boys as agreed. In a away in the hot sun without minding short time it is expected that we may hold a good tournament in our town, when the teams which suffered at our hands may have an opportunity to redeem themselves. Kingston made very hospitable

preparations for the many visitors long be remembered by all who wit- and did much to give all an enjoyable nessed the event as perhaps the most time. There were about five hundred people in attendance, but had it not rained it is safe to say there would have been a much larger crowd.

WE'LL GET THERE YET.

"To have a factory in Cass City or not to have one" is the question that the Chronicle has been agitating in the affirmative for some time. We have taken the matter seriously in hand and have thoroughly investigated every phase of the factory proposition. We now feel more confident than ever before that the industrial evolution of our town is near at hand. A number of our local capitalists

have intimated their interest in the establishment of a pickling and canning factory for which they have assured us they will liberally subscribe. We do not need outside capital. There can be no hesitancy on the part of local capitalists for there really can be no possible loss in such an investment. The factory site can be secured in Cass City very off him. Knapp caught in his usual cheap, whereas in many towns the form and his throwing was a strong cost of the site is an enormous expense. The formation of a stock company with a capital stock of \$10,000 will equip a first class canning and pickling factory since the machinery is necessarily light and other apparatus comparatively inexpensive.

There are no reasons why farmers should not control shares in the enterprise. It will certainly prove a profitable investment for the men who are wise enough to have a controlling interest in the factory. Such a factory will give the farmer a markcabbage, horseradish, onions, tomatoes, corn, pumpkins, and etc. It will furnish employment to a goodly number of our boys and girls during the greater part of the year, and in-In the afternoon the crowd had consure profitable returns for all invested siderably increased despite the con-interests. We were informed by Mr. tinued showers. Kingston and North | Clark of Manitowac, Wis., that such a factory in his town cleared \$5,000 the very first year, and gives promise reason of the rain only one game could of more than doubling that amount when fully established. Mr. Clark has given our citizens many wise suggestions as how best to establish factbry interests in Cass City. He has observed the practical working of his home factories and has figures to prove his statements.

Albert Landroff, whose brand of canned peas is well known throughout the country, cleared \$90,000 the first year on peas alone. Just think of it! Can we afford not to take active steps at once? There is plenty of outside capital that could easily be secured if the many advantages which our town affords were generally known. It is only a question of time, however, before outside capital will find its way into our town and will reap the benefits that should accrue to our citizens.

Why may we not call a meeting of all interested parties and then take some definite action? It is dangerous ment of Albion college from which

HAS GONE TO HIS REWARD.

Philip Wixson, the honored father of our genial prosecuting attorney W. He was a highly respected citizen and publican circles and at one time was district. The campaign of 1892 will Justin R. Whiting's majority was re-

Offer the Best Possible Educa-

tional Advantages. LIFE SKETCHES OF TEACHERS

cludes three New In-

There is no town in Michigan with the same number of inhabitants that offers any better educational advantages than Cass City. The history of the Cass City Schools is one of gradual growth and development. From a small beginning in the year 1864 the school has progressed until now it. stands forth as a mighty factor of moral and literary culture. Our citizens have every reason to feel proud of it. The school is broad in literary scope and offers excellent advantages to the youth for the acquirement of a practical education. The course of study is planned for the pupil of average ability and every effort is made by the school board and teach-

DAVID H. KYES, B. A. Superintendent of School.

ers to secure the best results.

This week has witnessed the opening of another school year, and as far as the Chronicle is able to judge, the present staff of teachers has started in with the determination and expectation of making it the best in its history. In order that our citizens may become acquainted with these teachers, we give the following brief sketches of their lives:

Miss Mabel A. Joy, B. L., assistant in the high school department, is a sister of Miss Alice Joy (a former preet for his beans, peas, cucumbers, ever been favorably remembered for ceptress of our schools and who has her excellent services), and was born on a farm near Springport, Jackson county, Michigan, where a greater part of her life has been spent. She received her early education in the common schools, and later prepared

MABEL A. JOY, B. L. As'st. Superintendent of School

for college in the preparatory departshe graduated last spring. In the fall of '97 she entered the senior class of the literary department of the University of Michigan, and received her A. B degree in June, 1901. Miss Joy comes to us highly recommended for her scholarship and personal character and we feel assured that our schools will receive valuable service from her. M. Leona Haddrill was born in the

county of Oakland and received much expected change in the run of the the congressional candidate of the of her early school training in the game was largely due to the united Republican party in the seventh country. She graduated from the Pontiac high school and then began "J. D." and "honest George" deserve always be remembered by Mr. Wix- teaching in the rural schools of Oakspecial mention. Their rooting was son's telling stump speeches by which land county. Later she entered the State Normal at Ypsilanti and reit is safe to say that their wild en- duced from 2,000 to less than 500. Mr. ceived a five year certificate from that Wixson was a kind parent, an efficient institution, after which she taught public administrator and a good one year in the primary department of the Escanaba schools, and three

two as preceptress of the high school. Mr. Kyes as superintendent. She then secured a position in the

MATTIE HILL

mal College and secured a life certificate in 1901. We are glad to welcome Miss Haddrill as one of our teachers and sincerely hope that her stay here may be both pleasant and profitable. We are unable to present a photograph of Miss Haddrill, since she found it inconvenient to send us one. While we regret this omission we hope that her face may become familiar to all by personal acquaintance with her.

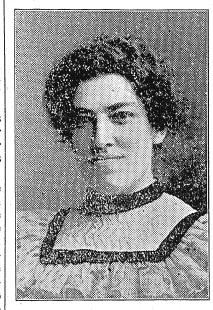

The intermediate department is taught by Miss Mattie B. Hill of graduated from the Mt. Pleasant State Normal since which time she has had three years' experience in teaching. With the excellent training which the Normal school affords

NELLIE PALMER Teacher of Intermediate and Primary Dep ts

together with her three years' exper ience as teacher, give us assurance that Miss Hill will prove a valuable addition to our efficient corps of teachers.

Prof. David H. Kyes, superintendent, Miss Nellie Palmer, instructor in teacher, and Miss Mary L. Elliott, kindergarten teacher, are well known to the patrons of the Cass City schools. his ability as superintendent of our schools. His studious habits, excellent character and his devotion to his educational work have won for Mr. our school will experience a healthy

PAULINA SCHACK Teacher of Primary Department.

Miss Pauline Schack has also reschools of her home town at Pontiae newed her relations with us as teacher where she taught for one year, after in the primary department of our which she entered the Michigan Nor-schools. Miss Schack has given excellent satisfaction in every respect and our board is to be congratulated in having secured her services for an-

other year. Miss Mary L. Elliott says she is a woman without a history or a mystery. She has won many loyal friends however, during the two years she has been engaged as teacher in our kindergarten department, and we might intimate that there's something mysterious about the hold she has gained upon the hearts and minds of the little ones over whom she has charge. We regret that we cannot present our readers with a cut of Miss Elliott. We have been unable to secure a photograph from which to produce a half-tone.

With this efficient staff of teachers Cass City schools give promise of the greatest success for the present year. Every effort is being put forward to secure the very best possible moral and intellectual results, and present indications give us every assurance that this will be an unusually successful year in the history of our schools.

RECEPTION TENDERED OUR SOLDIER BOYS.

The return of our soldier boys was fittingly commemorated at the G. A. R. hall last Tuesday night when a reception was tendered them by the ladies of the Baptist church, assisted by the G. A. R. and citizens of Cass City. A very bountiful supper was served to the many friends of the young men in whose honor they were Plainwell, Michigan, where she was assembled. During the repast the born and where she received her high Cass City band gave the company a school education. Subsequently she pleasing serenade which was highly appreciated by all in attendance.

After the supper a short but impressive program was given in the G. A. R. assembly room. R. J. Brumm gave a short address in which he poke of the object of the service as one of the most cherished privileges of a liberty loving people—the privilege of paying tribute to our heroes in blue, the dead and the living. On such an occasion we feel alike the sentiments of a great sorrow and the gratitude of grateful hearts. We drop a burning tear when we think of the vacant place at the fireside, the desolate homes and aching hearts, and yet we bless the day when these brave men gave their lives that our Union might live. The same patriotism that thrilled the hearts of our heroes in '61 still lives in the breast of our youths today, and our country's call "to arms" will ever meet a learty response from the brave Am erican boy who loves the "stars and stripes" better than life. The four young men whom it has been our good fortune to welcome back to their homes were representative. soldiers and we are proud of them. They have done their honest duty, have followed the flag in foreign service and have returned to live their lives in peace and contentment.

It has been customary for the citizens to present a flag to each soldier upon his return home. The flag is presented as a token of gratitude and the intermediate and primary depart- esteem. On this occasion Dr. Demments, Miss Pauline Schack, primary ing made the presentation speech and in behalf of the citizens of Cass City, gave Aleck Graham and Richard Lazenby the regulation flag. Dick Lan-Prof. Kyes has ably demonstrated don and Sam Geitgey received their flags some time ago having returned sooner than the former.

After the program the company departed each feeling a purer sentiment Kyes the highest esteem of all who of patriotism in his heart by reason know him. We are confident that of his attendance at the G. A. R. hall reception. The ladies who so kindly provided the very good supper deserve great credit for their untiring efforts to make the occasion a success.

THE NEW RESTAURANT.

A. A. Brian, whose failing health has compelled him to seek lighter employment, has succeeded in buying the baking and restaurant business in the Wallace building of Mesdames Hatton and Bentley. The place has already a good patronage and there is no doubt but that Mr. and Mrs. Brian will make the business more profitable. Hungry people will find Brian's

lunch room the right place to go to. Good lunches and warm meals are served at right prices. Give him a

An improved farm for sale five miles east of Cass City. House and some out buildings. Enquire of E. K. Davis at the home of S. W. Davis.

Green is recommended for bathing dresses, because it harmonizes with a tanned skin "and the emerald and sapphire of the ocean."

Matilde Weber, who recently died at Tubingen, age seventy-two, was one of the pioneers in south Germany in the movement for securing greater privileges for women.

Nathan Church, a man of scholarly attainments, and a colleague of Blaine in the Maine legislature, is now working as street cleaner in Minneapolis at a salary of \$1.50 a day.

In France the interest charge on the public debt is \$200,000,000 a year, a per capita of over \$5. In the United States the interest charge is less than \$30,000,000 a year, a per capita of 39

Canada's exports of bacon to Britain last year amounted to 135,000,000 pounds, as against 4,000,000 pounds in 1889. This vast increase is, no doubt, greatly due to the preferential trade established.

At a recent college occasion in India, Lord Curzon, the viceroy, told the young people "to be without education in the twentieth century would be as if a knight of the feudal ages had been stripped of helmet, spear and coat of mail."

It is a curious fact that in 1790 the Turkish government prohibited the export of Angora kid skins on the ground that the trade threatened to extinguish the Angora goat: but these animals are now more numerous than ever, and their usefulness is far more widely recognized than was the case a century ago.

The testament of Mrs. Eliza Potter, wife of Bishop Henry C. Potter, who died June 29, was filed at the surrogate's office in New York, a few days ago. It was written by Mrs. Potter on June 20, and is the shortest will ever filed there. It contains but one sentence, bequeathing her entire estate of \$30,000 to her husband.

As a sign of the care with which American officers pay regard to local sentiment, attention is called to the act of Capt. Michael, who had charge of the recent execution of six murderers in Manila. He chose a position where the condemned men faced the east, and before they dropped they had one last look at the morning sun, which is so dear to the Oriental.

On a recent Sunday a thousand members of a Roman Catholic congregation in Wilkesbarre, Pennsylvania, signed a pledge of total abstinence from intoxicating drinks. The priest who preached the sermon of the occasion said: "A blow has this day been struck for temperance that will be heard round the world." The Companion is glad to help on the reverb-

The United States navy continues to increase. A statement by Rear-Admiral Bowles, chief of construction, recently issued, shows that there are now building, or under contract, nine cruisers, four monitors, sixteen torpedo-boat destroyers, ten torpedoboats and seven submarine tornedoboats. At this rate the old song will be the nucleus of the combine, it was soon have to be amended to read: "Britain-and her daughter-rule the waves.'

A professional burglar in Berlin found a new and original way of adding to the ordinary profits of his profession. After each burglary he sent a full account of it to one of the daily newspapers, and for this he received payment in the usual way. But he tried the plan once too often. The editor became suspicious and gave information to the police, who soon found how this amateur reporter was able to beat all rivals in the way of early information.

The improvement in the appearance of railroad grounds during the last few years has been more noticeable this summer than ever before. Cutting the grass around the stations, keeping the borders trimmed, planting flowers and caring for them—these are things which most of the railroads used to permit the station agents to do if they would: but the corporations themselves gave little thought and no money to It. Now the roads themselves are doing the work, on a larger scale and systematically. The improvement is general throughout the east and is making rapid progress in the west to the pleasure of those who travel and the benefit of the towns in which the stations are situated.

A few months ago the Venetian painter Brass bought four pictures for £4 from a Dalmatian peasant named Braidotti, who had picked them up when a neighboring villa was dismantled. Recently Brass found that one of the pictures had been painted over another on the same canvas, and on cleaning off the top one he discovered a Saint Sebastian by Titan. which had been stolen from Italy by one of Napoleon's generals. Brass has sold the Titian to the Count de Castellane for £8,000.

FROM ALL OVER OF MICHIGAN

The Mormon Missionary Work in the State.

TO FORM A SALT COMBINATION.

Resume of Things that Have Been Said, Done and Happened in Various Parts of The Peninsular State Briefly Sketched for Busy Readers.

Mormons in Michigan.

The Mormon elders who are working Michigan have been holding meetings in Detroit. Elder Ludlow said: "The elements of salvation are these: Faith repentance, baptism by immersion for the remission of sin, and the laying on of hands for the reception of the Holy Spirit. This is the essence of the gospel, and if a man preaches anything different, I ask him by what The elders held a business meeting behind closed doors, and President Lyman announced that all would be retained for six months more of service, being assigned as follows: Detroit, Elders Cluff, Brinton, Zundel and Carruth; Battle Creek, Elders Ludlow and Larson; Jackson, Elders Stark and Barber; Pontiac and Mt. Clemens, Elders Bradley and Campbell; Wyandotte, Elders Stevenson and Sorenson. Elders Wood, Brown, Savage and Prestwick have no specific field, and will confer with the "saints" in the northern part of the state. The reports of the elders are stated by Secretary Brinton to indicate that Mormonism is on the increase in Michigan

The Unfortunate Bowmans.

John Bowman and family, of Os coda, were tourists en route to the Pan-American on the D. & C. steamer City of Mackinac Monday afternoon. John had \$160 in his inside coat pocket and not a care in the world. Tuesday someone else had the cash and the Bowmans were on their way back home. Detroit being the nearest they got to the big Buffalo show. They were not able to secure staterooms because of the crowd on the steamer, and when it was time to turn in Mr. Bowman fixed up a bunk on deck. He wore a short serge coat in which he carried his pocketbook, and Mrs. Bowman suggested that it would be a good idea to fold it up for a pillow, thus killing two birds with one stone by providing a safe place for the cash and a rest for his head, but before folding up the coat he decided to take just one look at his cash. It was gone. Search the boat from end to end as they might it could not be found Whether Bowman lost his pocketbook accidentally or it was stolen from him he can't say.

A Leper for Companion. Dr. Louis Knapp, a graduate of the U. of M., and a former Detroit boy, whose mother and sister live in that city, has become a hero by the voluntary acceptance of the charge of a Chinese leper. Dong Gong by name, at St Louis, Mo. The leper was discovered two weeks ago. The municipality is building a three-room quarantine house and accepted the volunteered services of Dr. Knapp to attend the leper and make a scientific study of the disease Dr. Knapp left his family, a wife and four children, and taking his medical library with him, entered upon his association with the leper, with whom he will stay until death comes to the unfortunate patient. Mrs. Dr. Knapp was formerly Miss Annie Striker, of Detroit, whose father, a furniture dealer, came from Buffalo. Dr. Knapp formerly ran a drug store and served in the Spanish war as physician at the Tampa, Fla., camp.

A Great Salt Combine.

The first actual step toward the formation of an international salt combine has been taken in Trenton, where papers have been filed incorporating the International Salt Co. with a capital stock of \$125,000. At the offices of the National Salt Co., which will said that the capital stock would be increased to \$25,000,000 or \$30,000,000, although the organizers had not arrived at any definite conclusion as to the exact amount. The present capital is merely sufficient to guarantee the preservation of the title. Among the companies that will be absorbed are the following: National Salt Co., Canadian Salt Co., Retsof Mining Co., Avery Salt Manufacturing Co. and American Salt Co.

A Foolhardy Trip

The attempt of three St. Joseph boys, Duffy Mason, Joe Mason and Burton Miller to row to Chicago in a small boat, ended in disaster, and the boys were lucky to escape with their lives. They rowed all Wednesday night against a strong wind and current and at 9 o'clock in the morning their boat was washed ashore ten miles north of Michigan City. They reached that place nearly exhausted and took a train for home. They are not discouraged by their failure and say they will try it again next week. Local mariners are much chagrined at the outcome of the foolhardy undertaking as many large wagers had been made on the result.

I. O. O. F. Prizes.

The general executive committee of the Oddfellows of Indiana, preparing for a meeting of the Sovereign Grand lodge, announce a list of entries for a degree contest, Michigan being represented as follows: Initiatory degree. Mt. Pleasant and Bangor; first degree, Bangor; third degree, Mt. Pleasant. Many states will be represented in the

Mrs. E. T. Boden, wife of a West Bay City druggist, narrowly escaped being burned to death by the explosion of gasoline. Her hands were blistered and a portion of the residence des-

troved. Charles Scott, a Muskegon motor man, discharged for being responsible for a collision, sued the Traction company for wages due-\$15.05. The company presented a bill of \$73 for damages done, as an offset, and the court gave a verdict in favor of the company

William J. Bessette and Miss Jessie Jones, of Lapeer, were united in marriage Thursday by Rev. C. W. Stephenson. Miss Jones, it will be remembered, was the young lady who shot and wounded George Brooks, a recreant lover, about two months ago.

Wedding Follows Shooting,

Since then, Mr. Bessette, a well-to-do young farmer, has been paying attention to Miss Jones. The lady is a pretty brunette with a handsome fig-Rev. Stephenson, who tied the knot, also married Brooks, the wounded man, to a Miss Slater. Miss Jones was 17 years old at the time she shot Brooks, the night of June 26 last. She and Brooks were engaged and when she heard that he had jilted her to marry Lillie Slater she mounted her wheel and rode to a hardware store where she purchased a revolver. From there she went to the Brooks home where George and his bride were staying, and shot at him three times. Two bullets passed through his hat, and the third struck his right wrist. She tried to fire another shot but the revolver did not work. She was then disarmed by members of the Brooks family. Miss Jones never expressed any regret for her act, saying that Brooks got what he deserved. There was no complaint made against her.

In the Penitentiary.

James Johnson ex-recorder of Negaunee, who was a defaulter to the amount of \$1,200, has been heard of at Menasha, Wis, where he was sentenced to the Wisconsin state prison for one year for bigamy. Johnson was recorder for six consecutive years up to last year. Bondsmen made good his shortage, but failed to prosecute him out of sympathy. He deserted his wife and family and it was through her that he was arrested. Whisky caused his downfall.

Charged With Arson.

Isaac Wheeler, of Lapeer, was arested Thursday morning charged with burning a house and household goods in Rich township. The property belonged to his wife. Wheeler and his quarreled recently and Mrs. Wheeler went to live with her father, Richard Kelch, while Wheeler boarded with Flam Johnson. Mrs. Wheeler secured a house where she intended to live with her brothers, and moved her household goods into it. Wheeler says he was at Johnson's at the time of the fire, but Johnson says he was not.

MINOR MICHIGAN MATTERS.

Seven carloads of steel rails for the Chicago & Detroit Railway Co. have reached Marshall.

John Slotman, of Mill Grove, lost his barns by fire. Loss, \$4,000; insurance, \$2,500. Lightning. A large Canadian lynx was killed at

Pine lake. The animal was driven from a swamp by dogs. "Charles Meyers," caught stealing diamonds in Detroit, is said to be Her-

man Diehm, a Cincinnati thief. Potatoes are selling in Petoskey at \$1.28 a bushel, the highest price reached in the history of this region.

H. Mareni, of Kalamazoo, says New York is an excellent celery market, particularly from the price standpoint, Dr. D. G. Sutherland, of Saginaw, appointed state veterinary surgeon in March, has notified Gov. Bliss that he

The manufacture of automatic display figures is the latest concern to be idded to the industrial enterprises of Kalamazoo.

Residents of Laurium are greatly annoyed by cattle roaming at large through the streets. The village has no poundmaster. Some disease is killing fish in the

trout fry have died. Henry Ross, one and one-half miles

north of Blissfield, lost barn and cider mill by fire. Insurance of \$1,000 will partially cover loss. States McCoy, charged with the mur-

der of Humphreys Jackman, was Monday night at Grand Haven declared not guilty by a jury. Semut Jacobson, injured by the falling of a hanging wall in Tamarack

mine last week is dead, making the number of fatalities five. Receiver May is advertising the remaining lands of the Central Michigan Savings Bank for sale, an indication of

an early closing of his trust. Edward Manning, a fireman, was fatally injured in a collision between two logging trains on the Ontonagon

branch of the St. Paul road. Mrs. Nancy Campbell, aged 103 years, is the guest of her grandson, James E. Dingwall, of Logan town-

ship. She celebrated her birthday on Aug. 22. Charles White manager of the A. P. Connor farm, near Muskegon, while in a field in his bare feet, was bitten by an adder, and is in a critical con-

dition. Norman Griggs was convicted on the charge of using indecent language in the presence of a woman and fined \$31 or 65 days in the Detroit house of correction.

The nearly 90 acres of Detroit potato patches, if present conditions hold, will give the families who cultivate them under the Pingree plan 25 oushels each.

While fooling with a shotgun Samnel Vergo, the Michigan Central night operator at Mattawau accidentally shot his wife. Her injuries are likely to prove fatal.

James Cummings, of Baldwin, accused of the murder of his brother Percy, has been held for trial in the circuit court for manslaughter and bail fixed at \$1,000.

The state crossing board has approved the map of the Camden Southern railway in Hillsdale county, showng a crossing with the Lake Shore & Michigan Southern. The Saginaw Clay Manufacturing

Co., which makes all kinds of brick and tiling, proposes to move its plant to Flushing, Genesee county, where the clay used is procured.

The strike in the east is causing trouble in the steel industry in Flint, The large Armstrong steel works is already feeling the effects, being unable to secure steel for the plant, which may have to be closed until the strike Allegan will vote on a new pumping

station. Ira Monk, of Port Huron, bought carbolic acid at a drug store, remarking as he left the store that he was going to end his life. The police were notified and locked him up.

A committee has been appointed from the Amalgamated Association to canvass Muskegon, and particularly the business men, to raise money to help those that are striking. Mrs. Jas. Barrell, wife of a member

of the firm of J. Finley Barrell & Co., stock brokers of Chicago, died sudden ly at her Harbor Point residence. Heart failure was the cause. Miss Maggie Culp. of Three Rivers. wanted by Three Rivers and Center-

ville parties for not returning livery rigs, was arrested in Leonidus Friday night and taken to Centerville by the

The Charleston hotel, in Mason, was closed Wednesday. C. A. Cadwell, the is said to have lost money in the venture, and will retire from the hotel business.

Three Petoskey Indians were killed on the G. R. & I. and Pere Marquette railroads. They were John Kobegish, Michael Nango and John Mitchell, the latter meeting death on the Pere Marquette.

A man supposed to be Edward Ma kin, of Loomis Mich., was literally ground to pieces near Traverse City by a Pere Marquette train. The remains were gathered in fragments with a shovel. A great furore has been created in

Niles by the actions of an anonymous letter fiend, who has been writing the commissioner of schools for the county, reflecting on the characters of local lady school teachers. There was an open air wedding on

Mackinac Island Tuesday, when Miss Mary Hull and Gerard Swope were married in the woods near Sugar Loaf. A wedding dinner followed at the Old Mission house. Adolph Gustafson, Gust Makki and

Frank Koberg, miners, of Champion, were blown to pieces by the premature explosion of giant powder in a mine shaft. Koberg was a single man, but the others have families. Elbridge H. Morse, a resident of Al-

pena for the past 34 years, died Monday of blood poisoning, at the age of 64. He was a brother to H. R. Morse, the Alpena lumberman, and Mrs. Diana Richardson, of Detroit.

William Turgeon, a miner from Cornwall, England, has not slept a moment since he came to Quinnesec six weeks ago. Drugs have no effect in producing slumber, although he feels dent Shaffer made the statement totired and sleepy all the time.

The miners at the Owosso Coal Co.'s mine claim they have not been paid for several weeks. The new manager, J. C. Edsall, says he has pacified all who quit work a week ago and that the mine will start up at once.

Henry A. Wolff, deputy oil inspector under Gov. Pingree, is under arrest charged with selling liquor on Sunday. He has a resort at Mona lake, and the people of Muskegon Hights are trying to stop Sunday traffic.

The beets being grown in Holland for the sugar factory are in fine condition and a heavy yield is anticipated. The campaign will be longer by 20 days than last year, as 1,000 acres more of beets are to be used up.

Dr. James H. Brogan, of Mackinaw, has been arrested for failing to report case of smallpox. It is said he admits the charge, and excuses it on the ground that the case was isolated and of the czar of Russia which may have report would affect resort business. Word has been received of the death

of Alpheus Gustin, of Detroit, at Hu-Northville hatchery and a U. S. expert is investigating. About 7,000 brook trout fry have died.

Northville hatchery and a U. S. expert is investigating. About 7,000 brook trout fry have died.

Ton City, Mich., where he was visiting his niece. Mr. Gustin was the originator of the Hackley National Bank of Muskegon in 1870, and built several | clared, according to this club gossipprominent blocks there. Jack the hugger was caught assault-

ing a decoy woman in Alma. Several prominent citizens were watching and gave chase, capturing him. He was nearly lynched, but officers got him into jail. He gave the name of Orris Pattis. He had been working on a farm nearby.

E. E. Myers, of Detroit, architect of the state capitol, has made an inspection of the building and will report to the auditors that it is in a bad condition. He says the ventilating system is badly out of order, and some of the walls of the sub-basement are said to be in bad shape. Mr. Myers urges that the building be repaired.

Emanuel Stover, fruit grower of Royalton township, was arrested for shipping peaches diseased with 'vellows" to points in Indiana. Stover pleaded ignorance of a law prohibiting the sale of diseased peaches to parties in another state. When arrested Stover pleaded guilty and after promising to dig out his orchard, was given a small

fine. It is very likely that Gen. R. A. Alger will be summoned as a witness in the Schley court of inquiry case. While secretary of war he knew of certain information obtained concerning the presence of the Cervera fleet in Saniago harbor. Hence he is thought to be the most satisfactory person to get this testimony from. It is understood that he treats of the incident fully in the street

his book. When children, years ago, Eddie Kline and Carrie Novess were sweethearts in Owosso. They were laughed at then, and when they left home for stations far apart nobody thought they would ever realize their childhood hopes. But Edward and Mrs. Kline sued directing that no obstacle be ogare spending the first days of their honeymoon in Owosso. He came from Pine Bluff, Ark., and she from Chicago the concession. The settlement of to fulfill their youthful pledges.

The Olds & Hough gas engine works at Albion have been purchased by the Alama Manufacturing Co., of Hills. lale, and will be removed to that place. The last of the machinery of the Morrill & Morley big tin plant at Benton Harbor, bought up last spring by the billion dollar trust, has been shipped to Chicago. The fine strueture, erected by a local stock company at a cost of \$40,000, is now vacant.

with an empty bottle that had conhad been in ill health for some time. threatens,

FIERGE WIND AND RAIN.

NEW JERSEY SUFFERS HEAVILY

Death and Destruction in the Keystone State From Heavy Rains-Jersey City Heavily Visited-Churches and Business Buildings Wrecked.

Disastrous Rains.

Reports state that the heavy rains which have fallen almost incessantly during the past week throughout Pennsylvania have resulted in the most disastrous flood experienced in many former proprietor, is moving out. He years. At Mauch Chunk the storm was attended by four fatalities. Jesse Struthers, a prominent citizen of Mauch Chunk, and three boys named McClaffery, McGinley and Johnson, vere standing on a bridge spanning Mauch Chunk creek when the supports collapsed and the four were precipitated into the water and drowned. At Wilkesbarre a landslide occurred along the Lehigh Valley railroad at the eastern approach of the Vosburg tunnel, and traffic was suspended for several hours. A washout on the Sunbury branch of the Pennsylvania railroad delayed traffic several hours. In Shamokin, Tamaqua, Pittston and other mining towns, many collieries have been fleoded and work has been suspended. The Schuylkill river and the Panther and Wabash creeks at Tama qua are overflowing their banks and many bridges have been washed away. All the colleries in the Panther creek valley are flooded. Crops in the Catawissa valley, a farming section, are practically ruined. The storm will cost Bedford county thousands of dollars to replace bridges washed away and damage done to roads. In some townships it will be necessary to lay special tax to meet the expenses. one of the heaviest losers was the Bedford Springs property, which was much damaged by high water. Some farms are almost ruined, the top soil being almost entirely washed away.

tinues in spite of the denials that there is prospect of it by the officials of the United States steel corporation and the Amalgamated Association. Presinight that there was nothing probable in this line so far as he knew. He denied positively that the conference with the four visitors on Friday had any significance and said that the situation was unchanged. Nevertheless it is believed there are powerful influences at work to bring the warring parties together with a view of ending the warfare. It is said that the civic federation will undertake to bring about a settlement of the strike, and that John Mitchell, national president of the miners' union, will be the mouthpiece. It is known that Mr. Mitchell has declined to encourage a sympathetic strike of the miners, but he has offered every other aid possible to the Amalgamated Association.

One piece of gossip of the London clubs is startling and interesting. It a far-reaching effect. It is well known that the czar is bitterly disappointed because no son has been born to succeed him on the throne, this disappointment being softened only by his devotion to the czarina. It is now departicipated in by well known diplomats—that the czarina is altogether unlikely to give birth to a son, and if she could do so, such son would certainly be a weakling. This statement is said to have been made by physiclans near to the court. It has excited the Russian cabinet, members of which believe that the czar should adopt one of two alternatives-divorce the ezarina and remarry, or declare the present czarewitch heir to throne and hasten his marriage to the Princess Margaret, one of the daughters of the Duke of Connaught.

The Sultan Frightened. other matters is considered imminent!

Rioting at the Sterling silk mill in union girls in Thursday night's riot took refuge in these houses and es-Arthur Kilpatrick, of Jackson, at caped from the striker crowd. There one time in the saloon and grocery was a clash with the Italians. Later business, was found dead at his home, when the non-union workers arrived a volley of stones met them. The mill tained carbolic acid by his side. He is in operation, but serious trouble

probable within a few days.

The Steel Workers. Talk of peace in the steel world con-

A Jersey Wind Blast. A most violent and protracted rain storm accompanied by wind which at times in some sections approached the proportions of a hurricane, swept over New York city, Westchester county, and the northeastern portion of New Jersey this afternoon. The most damage reported was at Jersey City, where buildings were wrecked, including a church and a theater. It was about 3 o'clock that this city began to have the worst storm experienced in its history. Blasts of wind carried widespread destruction. Two wind storms seemingly met, working havoe, the steeple of St. Mary's Roman Catholic church was blown over, crashing through the roof and wrecking the interior. The roofs of 12, three-story huildings were ripped off. Great pieces of tin fell in the streets, show windows crashed and the glass littered

An irade says: "In consequence of the declaration made to the porte by the French ambassador, acting on instructions from the ministry of foreign affairs, an imperial irade has been isposed to the free exercise by the quays company of the rights resulting from

The Pittston Labor Riots.

Pittston, Pa., continued Friday, When the strikers arrived at the mill long before daylight they were provided with stones and other weapons. The first object of attack was a small Italian settlement near the mill. The nonThe Cleyeland Disaster.

Kest and Eugene Vaughn, two of a dozen workmen, who were trapped in the Cleveland water works tunnel a couple of hundred feet below the surface of Lake Erie, by the burning of crib No. 2 on Wednesday, the 14th, were rescued from their horrible position late Monday afternoon, According to the story of these men the first intimation Eugene and Kest had on the fatal Wednesday morning which saw the crib burned, was the shutting off of lights. The two men were working far in advance of the gang, and when the latter made their rush for safety Kest and Eugene were sitting down behind the air lock waiting for the lights to be turned on again. They did not hear the shouts and cries of their fellow prisoners. Both men are resting comfortably and complete restoration to normal health is thought to be very

Another Cleveland Horror, Six men were drowned Tuesday night as the result of an explosion of gas in the tunnel leading from the Cleveland water works crib No. 3, two miles from crib No. 2, where the fatal accident of last Wednesday occurred. The work of sinking the shaft at crib No. 3, which is three miles from shore, was completed yesterday. Six men were at once put to work digging a tunnel toward crib No. 2. These men had not been working but a short time when a terrific explosion of gas occurred. The casing of the tunnel was crushed and a torrent of water from the lake rushed into the opening. Six men who were in the cunnel had not the slightest opportunity to escape, but perished before as sistance could reach them. Their odies have not yet been recovered.

A Fierce Oil Fire. A fire started by an explosion in the works of the Atlantic Refining Co. at Point Breeze, near Philadelphia, Monday night, destroyed over six hundred and fifty thousand barrels of oil and benzine by morning, which means a loss of \$1,300,000. Besides this, propery worth \$500,000 has been destroyed. Five firemen are known to be killed, 50 are injured and 26 who are missing are believed to be buried in the ruins. Sixteen of the missing men are employes, ten are firemen.

They were trapped by the explosion of the big tanks and caught in rivers of blazing oil. In their awful agony many of the men jumped into the river, from which they were rescued by the heroic efforts of their comrades. Terrible explosions have shaken all that part of the city, as one after another of the big tanks blew up.

The Islander Wreck.

Latest reports received from Vicoria, B. C., of the disaster to the steamer Islander place the loss of life at 42. Purser Bishop has gone to Skagway to get a full list of those who took passage on the steamer, and until he arrives on the steamer Hating in a few days nothing more can be given. Pilot eblane and all of the officers deny the report that either he or the captain were intoxicated, and assert that the Islander was well provided with lifebelts. The death of the captain was very pathetic. He remained on the bridge until the boat was foundering. When the boat commenced to sink, and it was seen nothing could be done, the captain, it is said, jumped into the life raft, which was already taxed for accommodations. Realizing that his weight would work havor there, he exclaimed: "I see there are too many here, so goodby, boys," and he sank.

The Deadly Dynamite. The Mohawk and Malone round house at Herkimer, N. Y., was discovered to be on fire Monday night. Watchman Gilbert and an engineer named John Dock, assisted by residents of the vicinity and members of the bridge building gang attempted to extinguish the flames. While they were battling with the fire a large quantity of dynamite stored in the building exploded with terrific force, killing Gilbert and Dock and four

The bodies of the four last mentioned are unrecognizable.

The round house was wrecked and burned. It is feared there are other bodies in the ruins. The roundhouse is owned by the New York Central & Hudson River railroad.

Bogus Notes.

The arrest of Frank J. Perry, Wm. Hogan and E. W. Smith at San Francisco on the charge of passing notes printed from the original plates of the State Bank of New Brunswick, N. J., which went out of business several years prior to the civil war, disclosed the fact that their source of supply was Jacob Weigel, at New Brunswick, N. J., The officials at New York were notified and to-day Weigel was arrested and \$17,300 in the notes were secured, together with several copper plates of different denominations.

Lost on a River Steamer.

The steamer City of Golconda, plyng between Paducah, Ky., and Elizabethtown, Ill., was struck by a squall during a storm about 7 o'clock Monday as she was en route to Paducah, She turned over in 10 feet of water, six miles above the city, as she was going into Crowell's landing. Sixteen persons are reported drowned. The disaster occurred as supper was served, and many of the 75 passengers were in the cabin. The wind struck the boat without warning and there was no time for those on the inside to escape. Sixteen ives were lost.

Rear Admiral Schley will retire Oct. 10, and two captains will become rear admirals. They are Frank Wildes and Henry Glass.

At the dinner of the American Bar Association at Denver, Judge William K. Townsend, of the United States Disriet Court, New Haven, Conn., deended the decision of the United States Supreme Court in the insular ases. George P. Wanty, of Michigan, was elected a vice-president of the association, and it was voted to hold the next meeting at Saratoga.

The party of Cuban teachers, 54 vomen and 24 men, who have been students at Harvard University Summer School since July 18, having come to the United States upon the invitation of the Harvard authorities, have Most of the customs houses show subreturned home.

Horrors of a Lunatic Asylum;

Investigation of conditions: in the New Jersey State Hospital for the insane in Trenton, based upon charges: made by former and present employesof the institution, has brought out therecital of a chapter of horrors similar to those perpetrated at the Bellevuc-Hospital in New York. Dr. Jones, for eleven years one of the hospital physi-

cians, makes these charges: That William Funk, an inmate, was killed by Frank Lischer, a hospital attendant, on June 26, 1900, because he refused to take a dose of medicine. That Dr. John W. Ward, the medical director of the hospital, refused, when requested by Dr. Jones, to go

to Funk's bedside to view the case, although he was informed that the patient was dying. That Patrick McGowan, a tinker at the hospital, threw muriatic acid or

John Foran, another employe, burning That insufficient and putrid food has

been supplied for the consumption of employes and patients. That pigs that have died from chol-

era and pleuro-pneumonia, as has been proved by examinations, have been sold for human food to butchers in Trenton and Philadelphia, and that funds of the institution have been misappropriated.

Gen. Horace W. Carpenter, of New York city, is the hitherto unknown donor of \$100,000 for the endowment of a chair of Chinese at Columbia University.

General MacArthur, who has just | ing generally aided by the natives. presses great satisfaction over his work in the islands. He says:

"While the condition is not perfect, it is gratifying. A few groups of armed insurgents are still at large, but they must surrender, as their

The Life of a Locomotive. The English engine, built in 1870, has run 4,000,000 miles and is still in thrown into the fire. If the adminisservice. The managers of the road to which it belongs are proud of this record. In the United States a first-class passenger engine makes from 100,000 to 110,000 miles a year, and at the end of twenty years is supposed to be ready for the scrap heap. Seemingly, Amerscans are more extravagant than British railway managers, but the former do not think they are. They believe their policy is the more economical one. As soon as a locomotive is put in service in this country it is pushed as hard as is possible in doing profitable work on the assumption that by the time it has been driven to death there will be so many improvements in locomotives that it will be uneconomical to keep the old one in service even if it can be rebuilt. Thus when slaves were cheap a Cuban planter would reason that it was more economic to work a slave to death and on the ground that the testator pracbuy a new one than to exact less labor | tically left it to the bank to determine from a slave and thus have his services for a longer time. In England an | not care to do that, it can set the will | idence, R. I., a collection of corals and engine is taken great care of. It is aside because the testator was not of polished agates valued at \$15,000. rested occasionally. Its life is prolonged as much as possible. Hence it is that an engine can be kept in service for thirty years. The men at the head of American railways contend that so old an engine must be an expensive one because it cannot do the cheaper work a modern engine is capable of. The American policy is vindicated by its results. Freight rates on American roads have gone down because of the fearless use of mechanical improvements by their managers. Freight rates in England are high, and do not come down. One reason is that the managers of English roads have false ideas of economy.

As Man to Man.

President John Mitchell of the Mine Workers argues cogently in the current Independent in favor of the frank recognition by employers of the trades' union as the agent of their employes. Into the details of Mr. Mitchell's argument it is needless to go farther than to cite one striking fact: In the bituminous coal industry, where the union is recognized, there has been peace for three and one-half years. In the anthracite branch, where the union is not recognized, there are frequent strikes and constant uncertainty.

More interesting to those who seek to find general principles upon which the relations of capital and labor may equitably and easily be adjusted is a remark near the close of Mr. Mitchell's article. "I have never known an instance," he says, "where the representatives of capital and labor have failed to agree when the two sat down together, put their feet under the table and told one another the absolute truth. I am confident that every great strike which has taken place in our country could have been avoided if each side had been reasonable and hon-.est with the other."

Burning Up Paper Money.

A cranky old-man in Minnesota has directed in his will that his administrators shall gather up all his cash in bank and burn it till nothing is left but ashes. He wished to spite his heirs -a brother, sister, and nephew. His heirs do not wish to be spited, and they are going to fight the will. They are going to contend, among other things, that an administrator has no more right to destroy money by fire

burning up of buildings is a destruction of values. It takes something from the wealth of the community, ican traction magnate who is about to gowns unless the whole original lot When paper money is burned there is start an electric underground railway were delivered to her immediately. no destruction of values. A unique excursion was recently ar-

ranged by the Union Pacific Railroad

company. About sixty newspaper men, representing the leading metro-

vate cars, three Pullman palace sleepers, a dining car, drawn by one of the new compound engines, with an observation car-constructed on the same

No more striking example is afforded of the progress of today than the gigantic undertaking of the Union

Pacific. One hundred and fifty-eight and four-tenths miles of new track laid, reducing the mileage between Omaha and Ogden by 30.47 miles, and reducing gradients which varied from 45.4 to 97.68 feet to the mile to a maximum of 43.3 feet, and curves from 6 curvature has been eliminated entirely.

A mountain removed and lost into chasm; huge holes bored hundreds of feet through solid granite; an underground river encountered and overcome; an army of men, with all sorts of mechanical aids, engaged in the work for nearly a year; the great Union Pacific track between Omaha and Ogden made shorter, heavy grades oliminated, old scenery changed for new, and the business of the great Cverland route flowing through a new channel, without the slightest interruption.

Millions of money have been spent to reduce the grades and shorten the distance.

This reduction is the result of straightening unnecessary curves, and the construction of several cutoffs between Buford and Bear river. Utah. Buford is on the eastern slope of the Black Hills, 545 miles west of Counconstruction of 158 miles, of which 29.63 miles are between Buford and Laramie, 15.34 miles between Howell escort, and conducted to the home of miles on the Laramie plains between Cooper's Lake and Lookout, saving .38 cut and Medicine Bow, still further west, saving 12.03 miles; 815 miles president and his family during their stay in Buffalo.

The exposition will be at its best at Bryan, saving .45 of a mile, and this time, and the climate of Buffalo in early September is usually ideal. River, saving 9.56 miles.

The curvature saved is about onehalf, the grading about the same, while the angles are reduced nearly two-thirds.

The superiority of these changes is apparent to the practical railroad engineer. It is also apparent to the operating department in the reduction in operating expenses, and to the traveler in the increased speed the trains alo. can make. The change in alignment of the line is marked. West of Butime, and there will be encamped here the Ames monument, near Sherman, various detachments of United States and then took a sharp turn to the forces in the divisions of artillery, in- southwest over Dale creek, crossing fantry, hospital corps, etc. All these it by a bridge 135 feet high-an elethence due north to Laramie. new line runs due west from Buford, Ohio, Henry C. CHAUTAUQUA -- ITS CHAR-ACTER AND PURPOSE. (By Miss Pinney.)

The spirit of rest cannot be said to have existence at Chautauqua, tho' Subscription Rates—One year, \$1.00; six the bracing climate surely infuses one months, 50 cents; three months, 25 cents. own enervating heat can bring. A feeling of ineffable content, a sense that this is a foretaste of Paradise, steals over one with the first look at Chautauqua lake—Chautauqua, a veritable gem in the midst of these hills, whose retreating slopes and luxuriant verdure invite most alluringly to undisturbed repose. False claim they make, however, for thousands of people flock annually to the villages about this little lake. "The inevitable woman! you cannot escape her!'

sighed a baffled seeker after solitude. Yet Chautauqua gives what is far dearer than solitude—contact with thousands of souls all so evidently imbued with one idea, so earnestly maintaining one purpose—elevation, not, indeed, of self alone, but of the common-weal—that here is harmony scarcely conceivable as existing in any community of men and women. It is marvelous to know that so many people can come together for two months of the year, and so agreeably adjust themselves to the conditions of life at Chautauqua (in many instances with no previous knowledge of what Chautauqua really is) that one is compelled, awe-stricken, to pause and wonder if heaven holds much greater joy. That is why Chautauqua is such an inspiration; it epitomizes so much that is divine. There exists a spirit of mutual helpfulness, kindliness, and good-will; the life breathed forth is uplifting, lofty, inspiring—a thing apart from

the sordid life everywhere about us. Chautauqua is primarily a religious institution, and the most profound respect and veneration are cherished in the hearts of all its adherents for the founder, Bishop Vincent, whose loving message, sent from Germany to the class of 1901, was read on August 14th before the audience assembled in the amphitheatre to hear the class address given by Dr. Benjamin E.

Dr. Talmage, in his lecture, "The Science of Good Cheer," said in his vehement way: "Soon after Bishop Vincent organized Chautauqua, some one asked me what Chautauqua was, and I told him, 'Put into a caldron a generous quantity of Wesleyan hymns, add plenty of Presbyterian catechisms and Congregational doctrine, and when you have poured in sufficient Baptismal water to dilute the whole, you have a Chautauqua." And that was true at the time to dergoing a slow evolution, and, although Bible study still comprises a part of the work, yet the Normal iversities, have largely superseded it. In other respects, too, conditions have changed. While it is true that of purpose which makes it an important factor in our nation's life, and while it represents the highest de-

However, it is not these, but the schools which draw the earnest, eager young life of our country to Chautauqua. Dr. Vincent, introducing one of the professors of literature to a large audience in the amphitheatre one night, said of him: "We have stood by helplessly and beheld crowds turn- inferior positions where there is no ing from the amphitheatre, all flock- chance for advancement, and at saling to the other end of the grounds to aries of from two to five dollars a antidote capable of neutralizing and Professor Burton's classes." This, week. The International Business eradicating this poison, and destroy then is the obvious reason for Chau- College of Saginaw, Mich. is able to tauqua's existence. Teachers come place its students in the very best here each year to enlarge their capac- positions where they will receive enity for instruction—come in such viable salaries. numbers and with such demand for the best, that the best is provided. Because of this, men and women from priyate walks of life also, find they cannot dispense with so unequaled opportunities, and it is generally assum ed that all at Chautauqua are pursi ng some course of study.

Here stand men who have taste the bitterness of life, who have known sorrow's heavy hand, and wh such lasting help as can proceed onl from life abundant as is theirs-life nearest its completeness, nearest th "Fount of all life."

HAS PASSED AWAY. Henry Jackson of Greenleaf township, who in a despondent moment attempted to take his own life a few weeks ago, died last Friday after a with a vigor which no rest during our protracted illness of several years' duration. The interment took place on Sunday in Elkland cemetery, Pas

tor Rushbrook, Pt. Huron officiating. Henry Jackson was born in England in 1836, and came to this country with his parents in 1847. In the year 1865, he moved to Canada, and two years later he entered holy wedlock with Selma Morrish. About twenty years ago he took up his abode in Greenleaf township where he has since resided up to the time of his death.

Mr. Jackson was an Englishman of the Saxon type and possessed the general characteristics of that sturdy race. He was a good neighbor and possessed the push and general qualities that make the successful business man. His demise has created a general feeling of sympathy in the community where he has been so long and favorably known.

THE COMING FAIR. Reports have reached this office from various parts of the Thumb during the past few days which indicate that the prospects for the coming fair are very flattering. Tuscola, Huron and Sanilac counties are interested in the coming fair which will be held here Oct. 1, 2, 3 and 4, and everyone should commence to make preparations now for a week's recreation and amusement. Everything is being done to make this the most successful fair ever held in Cass City. One of the features already arranged is that of horse races as follows:

Wednesday, Oct. 2nd—2:40 pace or trot, purse \$120; Two-year-old trot or pace' 1-2 mile heats, purse \$50.

Thursday, Oct. 3rd-3:00 trot or pace, purse \$100; Three-year-old pace or trot, 1-2 mile heat, purse \$50; 1-2 mile run, purse \$50. Friday, Oct. 4th—2:28 trot or 2:30

pace, purse, \$100; Free-for-all trot or pace, purse \$150; 1-2 mile run, purse Secretary Ale informs us that other

star attractions are being booked and will be announced in the near future. Watch the Chronicle.

WILL BE RETURNED. At the last quarterly conference of the local M. E. church which was recently held the excellent work accomplished by the pastor, Rev. Morgan, during the past year, was duly recognized by the conference passing which Dr. Talmage referred, but siding elder to use all influence vested in his office to secure Mr. Morgan's return. One Horse... Bean Harvester

A Cheap and Useful Tool to Harvest Beans

You can harvest beans as cheap as you can go through them with the one horse cultivator, viz: If you can cultivate four or five acres per day, you can harvest the same amount with our One Horse Bean Puller. It takes one row at a time and

Costs Less than 1-3 of what a Two Horse Bean Machine Costs.

We guarantee this One Horse Bean Harvester to do as good work as any two horse machine, and where you have not got any more than 10 or 15 acres of beans you do not have to invest \$28.00 or \$30.00, nor fool around with an attachment. Call and see us.

We put them out on trial and strictly on their merits

Try one and if it suits you, buy.

Sold and Manufactured by Ratz & Balch,

THE HOME GOLD CURE.

An Ingenious Treatment by which Drunkard are Being Cured Dally in Spite of Themselves

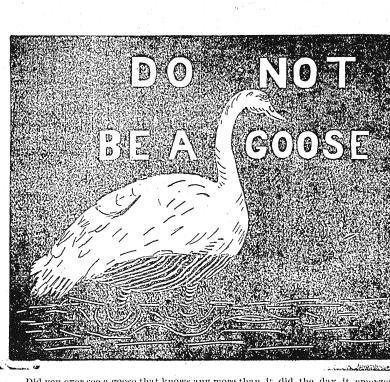

No Noxious Doses, No Weakening of the Nerves. A Pleasant and Positive Cure for the Liquor Habit.

It is now generally known and understood that Drunkenness is a disease and not weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an ing the craving for intoxicants. Suff erers may now cure themselves at home without publicity or loss of time from business by this wonderful
"HOME GOLD CURE" which has
been perfected after many years of
close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, indus;

trious and upright men.

WIVES CURE YOUR HUSBANDS! CHILDREN CURE YOUR FATHERS!!
This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and pre-pared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "CURE" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. DO NOT WAIT. Do not be deluded by apparent and misleading "improvement." Drive out the dis ease at once and for all time. The "HOME GOLD CURE" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effectual than others costing \$25 to \$50. Full directions accompany each package. Special advice by skilled physicians when requested, without extra charge. Sent prepaid to any part of the world on reployment department in conjunction with it. The service of this department costs students of the college of fancy cakes on hand and made to order.

The best in town. We serve lunches and ceipt of One Dollar. Address Dept. 1 EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadel-A. A. BRIAN, Prop. phia. All correspondence strictly confidential. E363

Did you ever see a goose that knows any more than it did the day it emerged from the shell and struck out for the first mud puddle? It has the same meaningless quack and awkward waddle; secured its living from the same mud hole until fate in the shape of a butcher's ax ended its career.

A goose is alright in its place, but dear young friends you need not be one. Do not be content in not knowing more this year than you did last.

things that will make you what God intended you should be

Do not live the same life as those before you have lived. Do not be foolish enough to think that you can be successful in this commercial age with the same education that your grandfather possessed. You must be energetic, ambitious, determined, and reach out and grasp the

Do not think that all business colleges are alike. Do not think that you can do as well in a cheap school as in a good one. Do not be a goose and .hink that the world owes you a living when you are not prepared to earn it, for you must give something in return for what you receive.

Do not be a goose and think there is plenty of time for you yet; you must improve every opportunity-act in the living present. Do not attend a college unless it is prepared to give you a thorough first-class

Do not throw your money away. The International is the best equipped school in the state, giving the most thorough and practical courses. It has a greater per cent of successful students than any other school.

It has more demands for its graduates than it can supply. It has several teachers for each department. Remember the Opening, Sept. 3, 1901.

International Business College

SAGINAW, MICHIGAN. F. H. Harper, President. E. I. Fish, Secretary.

We have opportunities for two or three young ladies to aid in very light housekeeping in return for their board and room while they are attending college. This is an exceptional opportunity for any young lady who desires to educate herself for usefulness. Any one desiring such a position should write to the college at once, for such opportunities will not go begging. Some of our very best young people are working for their board.

Tri-County Chronicle

SUPPLEMENT.

Cass City, Mich., August 30, 1901.

Up-to-date Mail Service.

Thanks to Postmaster Wickware, Cass City now has four mails a day. Through his influence with Congressmen Fordney and Smith the postoffice department has finally granted of the P.O. & N. road. Mr. Wickware received the following notices from the chief clerk of the railway service last Saturday:

"Additional railway postoffice service has been allowed in P. O. & N. trains 3 and 4, and will commence in train 3 Monday next. You will discontinue pouching to Detroit and Grand Haven train 12 on train 4 and instead exchange mails with trains 3 and 4 same as you do with trains 1 and 2, there being a postal and clerk in trains 3 and 4 commencing on above

This order went into effect last Monday. A Chronicle representative boarded the train for the purpose of inspecting the new postoffice on wheels. Of course the mail cars uo not afford as much room or as fine accommodations as Cass City's postoffice over which Postmaster Wickware pre sides. However the arrangements answer the purpose and the mail is handled with despatch and care. Your scribe boarded the four o'clock train for the south and through the courtesy of Conductor Wickware was in troduced to mail clerk. Whitney who is a very accommodating gentleman. Mr. Whitney is the man who was buried by the mail bags during the recent wreck near Leonard. On the following day the Detroit Free Press circulated the report that Mr. Whitney was killed in a wreck near Pigeon. It is stated that this report was manufactured by a mail clerk on the S. T. & H. road. The P. O. & N. officials took notice of the matter and reported the malicious statement to the postoffice department. It is not known what action the postoffice authorities have taken in the matter. Undoubtedly the gay youngster on the Saginaw road will get the bounce. Mr. Whitney was somewhat reticent in answering questions. He gave the contented. In fact I felt quite lone-Chronicle reporter to understand that Uncle Sam's servants were not allowed to divulge secrets. The reporter heeded the broad bint given by mail clerk Whitney and ventured only a few questions. Among other things, Mr. Whitney stated that the average with our three-minute roadsters, and salary paid the mail clerks was about \$1,000 per year. There are from 6,000 to 7,000 employed in the railway postal service. They are a bright lot of from one place to another quickly and correctly. Mr. Whitney also stated that Cass City received more mail matter than any other station along the P. O. & N. road.

At this juncture of the conversation the Chronicle man was compelled to change cars in order to board train No. 4 which is now a full-fledged mail train since Monday. On this train he wheels. A ride on an automobile di-bad the pleasure of meeting that old rected by a man like W. J. Moore is a had the pleasure of meeting that old war horse, E. C. Shearer, who for the to run to Caro? We rode, we slipped past twelve years has served with the and plunged. There now. Come utmost fidelity as postal clerk on this again. [ED.] route, and who has made for himself a host of friends. Mr. Shearer has been placed in charge of the new run this week. He is assisted by a young man who has been sent by the department to supplement the present working force. Mr. Shearer feels confident that the new mail train will be a opy top buggy. great benefit to the people all along

the P. O. & N. road. "The service is excellent now," said he. "Especially wili it prove a blessing to places like Wickware and Greenleaf for they will get their mail from 12 to 15 hours earlier." Mr. Shearer thinks there is additional mail service along the line no place like Cass City and expressed the wish of some day making his home in our midst. Now we have good mail facilities and if the powers that be will give us daily freight service we will try to be satisfied.

From An Inquisitive Farmer.

Dear Editor:

I've always held that horseless carriages were no go. That is, I thought they were not until I saw you make a flying trip to Caro in W. J. Moore's automobile after a heavy rain-storm, but now I think differently. The "auto" will go alright-it's only a question of where it won't go. I almost believe it could be coaxed up a more or less damaged. Miss Harttree or run on the top rail of a fence.

Well, I heard the machine coming down the road and the noise wasn't exactly soothing. Not being an editor nor a politician, I'm not rash in demonstrating my courage. I blush when I say that I climbed a friendly sycamore when I saw that crazy looking machine come "scooting" down the pike. You see I did not wish to take any chances. I had a brother Bill once—but that's another story. Besides I have a wife and some good children. Say, the way-you came past that tree caused the wind to whistle through the branches and the sight was awe inspiring.

I was just making up my mind to sell the farm and invest in an auto when your machine seemed to hesitate. On closer inspection I discovered that you had come to a comfortable halt right in the middle of a generous sized mud puddle. Then when I saw two sorry looking men climb out of the trap and pick their way daintily out of six inches of rich mud, I concluded to keep my farm. I rather enjoyed watching you repair the machine while paddling around in the water-you appeared so happy and some when you had repaired the break and were again fading away in the distance with every living thing in sight scurrying out of your range.

That trip of yours, Mr. Editor, may cause us farmers to grow discontented our sons will want some such trap to get the cows with. But then you

didn't mean any harm. For the enlightenment of one who men. They must be acquainted with is deeply and seriously interested will boys will give them a "Waterloo." all the postoffices in the country so as you kindly inform me how long it to enable them to handle the mail took to make the run from Cass City

> Yours up a sycamore. Note-A man who will climb a syca

STRUCK BY LIGHTNING.

Lightning struck the house of Edward Hartwick, who resides five miles east of the city, last Monday noon. Mr. Hartwick was absent from home at the time. The only occupant of the house, a daughter, who was lying upon a bed in one of the bedrooms, was startled by a terrific noise. She hastened through the house and found that an electric bolt had struck the chimney, the current passing through three different wires which were fastened to the chimney. One of the currents passed down the west side of the house shattering the clap-boards, and then passed along the stone wall into the bedroom where Miss Hartwick was at the time the house was struck. The current passed in under her bed into another bedroom where it shattered the bedstead and dresser into kindling wood. The entire house is wick had a miraculous escape and does not seem any the worse for her

POULTRY CLUB ORGANIZED.

On Tuesday evening several poultry enthusiasts met at Sam'l Champion's barber shop to organize a local poultry club. Mr. Champion was chosen temporary chairman and Walter Saigeon, secretary pro tem. The chairman announced the purpose of the gathering after which a general discussion took place by all the gentlemen present.

The temporary chairman was requested to formulate by-laws, and report the same at the next meeting on Monday evening, which will be held at the office of A. A. P. McDowell. It is believed that a strong poultry club can be organized, which will not only benefit the fancy poultry breeders but all who are interested in the raising of chickens. All such are cordially invited to attend the next meeting Monday evening, Sept. 2nd.

IT WILL BE A ROUSER.

The local base ball management have made arrangements for a rousing ball game to be played here on Tuesday, Sept. 10th, between the local team and the so-called "Royal Tiger Giants" of Adrian. This famous team was organized in 1895 and were known for several years as the "Page Fence Giants." The team is composed of colored men and every one is an expert at the business. The Tigers have defeated National and American league teams, however we expect our

THE OLD FASHIONED TEA.

The old fashioned tea which was held in the M. E. church last Wednesday evening from 6 to 8 p. m., and the literary and musical program which followed, furnished delightful entertainment to all who were in attendance. The audience was greatly disappointed, however, when the chairman announced that Herbert Leon Cope, who had been placed on the program and advertised on the bills. would not be in attendance. Those who had come simply because they expected to hear Mr. Cope were not utterly disappointed for that portion of the program which was carried out was good.

Miss Cecil Fritz sang a solo in a pleasing manner, while the reading by Miss Joy, our new preceptress, entitled "When the heart beats young" was highly appreciated by the audience. The piano solo by Miss Nellie Bigelow was finely executed, though the piano used is none of the best.

Rev. Frank Fitchett, of Bay Port, took as a text to fit his subject, "Fractions," a quotation from Emerson-"Lessen/ your denominators." His talk was practical and well arranged. He represented "truth" as the definite base line running through life, and all that is good and noble is above this line, while below we have all the baseness of our natures. He touched the keynote when he said, "Remove purposelessness and indifference from your lives." The saloon exists because of indifference. Examine your life and see where its fractional. To neglect the religious side is to live a fractional life.

Rev. Geo. Jackson sang a solo and later gave a very short but interesting talk. Rev. Crosby of North Branch spoke from the theme, "How to make the best of life." Mr. Crosby made some happy hits throughout his most excellent address. He emphasized the importance of high ideals, of a life ennobled by high purpose and holy. No life is at its best until the physical, mental and spiritual natures are developed. The speaker pointed to the life of William Gladstone as ideal in this respect.

The address was followed by a quartette selection which was heartily encored. Mr. Smith of Grant gave the closing address though he had no aswell rendered and highly enjoyed by

A WORTHY SUCCESSOR.

"Something New Under The Sun."

All Doctors have tried to cure CA-TARRH by the use of powders, acid gasses, inhalers and drugs in paste form. Their powders dry up the mucuous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and ex-perience practioner who has for many years made a close study and specialty of CATARRH, has at last perfected a Treatment which when faithfully a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stoping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES the GUARAN TEED CATARRAH CURE" and is TEED CATARRAH CURE" and is sold at the extremely low price of One Dollar each package containing internal and external medicine sufficient for a full month's treatment and every

thing necessary to its perfect use. "SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflamation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLD in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFF-LES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in and form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the "GUARANof "SNUFFLES" the "GUARAN-TEED CATARRH CURE."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. 1, EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia.

and Strictly Private in Every Case.

It makes no difference how difficult, or what your case may be, nor how many have failed to cure you, there is always hope for you, until you have consulted the Detroit Clinic, and been told that your case is incurable. The reputation of this Clinic has been made by curing cases that were supposed to

After examination, if your case is not curable, you will be so informed, and it costs you nothing.

FACTS FOR SICK PEOPLE.

I was suffering from general paraly sis as a result of diphtheria. I had treated with the best physicians of Tuscola Co., with no benefit; in fact I grew worse under their treatment. I was entirely incapacitated for work, when I consulted the Detroit Clinic at Vassar, on March 13th; two months' treatment has completedly cured me. and I am able to do my work. I advise any one suffering from chronic diseases to consult this clinic.

JOHN F. ALLEN, (Signed)

Mrs. Grant McConnell, of Cass City, Mich., had a large growth of a cancerous nature growing on the inside of the mouth. It had been removed several times, but always returned. She had it removed by the surgeon of the Detroit Clinic, and without the use of a knife and with no pain, it was permanently removed in less than 30 days.

I have been growing deaf in both ears for the past six years as a result of La Grippe. I consulted the Detroit Clinic during their monthly visit to Cass City in January, and one month's treatment restored my hearing so that I could hear a watch tick five inches

(Signed) Novesta, Mich.

For 10 years I was a terrible sufferer from chronic rheumatism. I did everything possible, but found no relief until I commenced treatment with the Detroit Clinic. Three months of their

treatment cured me. C. C. JONES. Rochester, Mich.

Mrs. C. M., of Birmingham, Mich., was cured of Bronchitis and Catarrh after she had been given up by several physicians, who said she had consump-

Mrs. L. C. Smith, of Detroit, was cured of Epilepsy (or fits) after having had this terrible disease for seven

The great success with which the Clinic treats all kinds of diseases is the wonder and admiration of all scientific men. The specialist in charge is noted for his skill, and the care with which every case is treated. No case that is not curable will be treated, but curable cases are treated with the latest scientific methods, and in no case does it interfere with the work of the

patient. Remember, it costs you nothing to consult this specialist, such an opportunity does not offer itself very often to people outside of large cities, and our citizens will certainly do well to take advantage of this one. It is best to consult the specialist personally, but question blanks will be sent on applieation, and all communications will receive prompt attention, if they are ad-

MORTGAGE SALE.

Default having been made in the payment of money due on and secured by a certain mortgage bearing date the J8th day of November, 1896, made and executed by Jessie L. Osborn to Lemuel C. Blair and recorded in the Register of Deeds Office for the County of Tuscola, Michigan, on the 24th day of November, 1896, in Liber 91 of Mortgages on page 254, which mortgage was duly assigned by Isaac B. Auten, administrator of the estate of Lemuel C. Blair, deceased, to Herbert Bowen, guardian of Benjamin Blair and Zina Blair, minors, by a written assignment bearing date the 5th day of February, 1900, and recorded on 11th day of April, 1900, in the Register of Deeds' Office aforesaid in Liber 97 of Mortgages on page 183, said mortgage was again duly assigned by a written assignment bearing date the 13th day of March, 1901, made and executed by the said Herbert Bowen, guardian as aforesaid, to Isaac B. Auten. Said last assignment was on the 25th day of May, 1901, recorded in the Register of Deeds' Office aforesaid in Liber 94 of Mortgages on page 442, and upon said mortgage there is claimed to be due at the date of this notice the sum of one hundred forty-four and fifty-two hundredths dollars (8144.52). Now, therefore, notice is hereby given that by reason of said default the said mortgage will be foreclosed by sale of the mortgaged premises at public vendue, to the highest bidder, at the front door of the Court House in the Village of Caro, (that being the place where the Circuit Court for the County of Tuscola is holden) on the 9th day of September, 1901, at one o'clock in the afternoon, the said mortgaged premises being situated in the Township of Novesta, County of Tuscola and State of Michigan and are described in said mortgage gustantally as follows, to-wit: The South half (3) of the North-east quarter (4) of the N

Proprietor—You should take something for your appetite.

Mr. Slopay-To improve it, you mean?

how Celeste Was Wooed.

The peaks in that range of the White mountains which lies in the county of Carroll, in the state of New Hampshire, are heavily wooded. The lone exception is Chocorna mountain. Passaconnaway, one of the most impressive of the group of giant hills, is thick with huge hemlocks, pines and firs, and here and there a broad ribbon of uprooted and dead timber marks where the tornadoes have rushed down the mountainside, uprooting the tallest trees and carrying death in their hol-

Life there in the hills still clings to some of its old-time ways, and the twowheeled cart and the spinning wheel are not yet relegated to the shades of the past. The tall yankee clock is still to be seen in many households, and now and then a spinnet gives out a quaver, like the cracked voice of an old man, vainly reminiscent of the days of his youth. On the lower foothills, or shelving ledges, of Black mountain, Sandwich Dome, Ossipee, Chocorna, Whiteface and Pangus are many thousands of acres covered with heavy timber. Spruce, birch, hemlock and other trees, and in many places there is a dense undergrowth, and under the ledges and shelves of rock, and in numerous caves high up on the rockier of the elevations, are still to be found Pierre's cabin, where he was received lynxes and wildcats. Lower down with ill-disguised hospitality by Pierre. foxes and sable are found, and deer are But his knowledge of Pierre's native yet fairly numerous on the mountains. tongue, his gifts as a fiddler, his skill

rocks of that gaunt land. Chenaud did not take kindly to the rude husbandry of his neighbors, which wrung ing soil. He was a rover, a trapper, a deer across the mountains and the carabounded, and the shy, silent, awkward brown hares that passed, shadow-like, through the thickets. In the spring and summer the brook trout were everywhere in the mountain streams. And then, too, in the mountain lakes was a famous fowler. There were pike, too, in these lakes.

And, too, his traps. The sable, fox, marten, even wildcats, that he overcame! Very seldom was he obliged to actually labor as did his neighbors. He enjoyed life. He was 47 years old, straight as a pine, tough and wiry as a deer sinew. His little cabin, his guns, traps, fishing tackle and flddle comprised his possessions. If the neighbors liked to farm, let them farm. "Mais-oui," said Pierre.,"I care non." Canaille they were, according to him, with an indescribably expressive shrug of the shoulders. But first and foremost of his treasures-more than all else to this lone man-was Celeste-"ma chere Celeste."

She was brown and burnished as an autumn oak leaf in the sunlight. Quick and graceful in her movements, daring and light-hearted, singing quaint bits of Provencal love lilts that Pierre had taught her, keeping the cabin floor swept of every scrap of dirt, decking herself with bright feathers and beautiful skins, half savage and yet all woman. And as flery-hearted as Papa Pierre. To say that the farmer boys of the vicinity were crazy over Celeste is simply putting it mildly. No one could sing and dance like Celeste. And Pierre ground his teeth and made frantic Gaelic gesticulations at the mere Rural Editor-"Why, she can't bring | thought of anyone of them capturing in her egg and cabbage subscription her affections.

Chief among Celeste's admirers were Alonzo Edwards, the oldest son of the richest man in the region round about. But he was so evidently in love that Celeste played with his passion with true French coquetry. Day in and day out he sought her wherever she appeared at the dances or at her father's cabin. Pierre looked on, sometimes amused, sometimes glowering. night after Edwards had put on his snow shoes and gone down the mountain Pierre put his hands on Celeste's shoulders, looked deeply and steadily into her eyes, and said, questioningly "You love him?"

The girl smiled, half thoughtfully: "Not yet," she said. Pierre shrugged his shoulders.

"N'importe," was his only reply. One summer day Celeste started for Bearcamp pond to fish for perch and pickerel. She saddled her father's bony old Rosenante and in about an hour's ride reached the pond. Dark hemlocks and spruce grew to the water's edge on most of the shores and Ossipee's colossal shadow swept over the emerald waters. Cardinal flowers flashed up among the gray bowlders at the pond's edge like flashes of fire. All among the lily pods lie great spotless water lilies, and beyond stood Red Hill's steep battlements.

The girl tied the ancient steed to a hemlock tree and getting into a rude bateau paddled out into deep water. Here she stopped, and taking some angleworms from a birch bark box filled with moist earth, which she had brought along, baited two hooks attached to coarse-spun linen threads and dropped them overboard, holding a line in each hand. Very soon a sharp tug at one line was followed by her lifting in a lusty perch weighing about half a pound. Presently another bite came, and then another. She had found a school of these fast-biting, voracious fish, and in a little while she had over sixty of them.

Then she stopped fishing for perch and rowing the bateau over to where May-Neither. They're engaged to a little stream flowed into the pond stocked, and the sweet, sharp notes of she halted again. Here she took two the fiddle danced in and out among the templation.

larger hooks and stouter lines, fastened | flying shadows on the broad granite to poles, and baiting these hooks with | hearthstone. fresh pieces of perch meat, began to

largest weighing over six pounds. lay at his feet. His horse stood a lit- rival. tle way from Pierre's beast, cropping at the branches of the tree to which it had been tied.

The young fellow lifted a rough cap not assist mademoiselle?" The mention of the only other French resident of the settlement was a fortunate thing open palm against the door. And then for him, and very soon the two were talking verp rapidly and eagerly together. He helped her string her fish pressionless as a granite bowlder. and mount the steed ancient of the house of Chenaud, and rode by her side till their pathways separated. Fergusson asked her as she ambled away if he said. The hearth was light with she fished often at the Bearcamp waters and Celeste smiled and said "sometimes."

Occasionally they met after this, and Celeste found that Fergusson spoke French quite well. He soon drifted to In a little cleared space on a slope as a hunter and fisher slowly crept inof Passaconnaway mountain was the to the heart of the recluse and warmed cabin of Pierre Chenaud, a strange bit it. A homely man was Fergusson, exof human wreckage lodged among the cept for his eyes, and a gayer man had not yet lived.

He was a roamer, as he told the Frenchman, yet a rich one. And what a scanty subsistence from the unwill- gave Pierre's best confidence to him, and what piqued Celeste most bitterly, hunter. In the winter he tracked the was that Fergusson did not bow before her as the rest of mankind. True, casses he brought back proved his un- he taught her the waltz step and erring aim. In the autumn he snared | danced it with her to the agony of her and shot the ruffed grouse, which swains, but as these rude suitors saw his apparently absolute indifference to her they took heart of grace.

Seemingly he was happiest when in the woods or by the lakes and streams with Pierre. Always the pleasant word it was with the Scotchman, the ready the black ducks descended, and Pierre | wit, the calm displacement of self when any of her beaux came while he was at the cabin. And flerce and furious came Alonzo Edwards, anxious at once about the newcomer, but first awed by his education and knowledge and next gladdened by the open relinquishment of the girl to her adorers by the smiling Fergusson.

So the summer shone out in successive sunlit days, and September brought a darker gleam to the waters and a more glorious blue to the skies. The barberry bushes along the old stone walls threw out a maze of bright colors, and gray squirrels and chipmunks ran along these same stony parriers. on the hillsides the woodchucks, grave as wooden Hindu deities, looked motionlessly into the brown landscape. Only the cedars and pines kept their dark green shades and the cardinals and lilies had vanished.

With fall came more of a stir at Pierre's cabin; the overhauling of snowshoes, the hunts for ruffed grouse, the minding of the traps, the gathering of firewood for the winter. Fergusson ers sharply, but of a sudden she seemed to recollect herself and resumed, outwith them. To Pierre, apparently, the Scotchman's departure mattered not a whit. The coming season of adventure was to him the primal thought and primate pleasure.

At last, on the evening of a wonderdoor of the cabin looking down the mountain she saw Fergusson approaching. A great and unconquerable joy strong-knit figure and resolute stride. should never know, if, indeed, he did not already know, if he had not fathomed it all with those gray eyes. "Well, then, after all," as she said

to herself, 'let it be as Papa Fierre so often said. N'importe."

Their former guest brought Pierre great store of tobacco and what he, Pierre, had often longed for, a massive steel beartrap. And for Celeste-nothher a great marvel which, he said, she had seen perhaps one or two, but only the plain gold article. Here, now, was this wonderful pebble, smooth and creamy, which under the blaze gave back so many beautiful lights. Fiery glowing depths that sparkled and glinted but which at dawn were hardly even hinted at in the recesses of the stone. Like Fergusson's face, the girl thought, pale and impressive when she searched its outlines in repose, but when the fire of expression came into his eyes, all color and light seemed to leap from his features.

Pierre glowered at the ring at first, but the soothing aroma of the tobacco brought him, softened his suspicions, "A stone; a bauble, Eh! bien! N'importe." And he smoked on. A fragment of hard pine above the knotted back-log fell forward into the flames and blazed up where Celeste stretched her hand toward the blaze. The opal threw off its answering sparks. "Eh! bien! a pretty stone!" That was all.

Long trips were now taken and much game taken. The larder was well

And now Alonzo Edwards came daily fish for pickerel, or pike, as Pierre to the cabin, and at last brought his called them. It was a long time be- father, who talked long and earnestly tween bites, but Celeste was patient with Papa Pierre, smoothing his pride and skillful, and in about two hours by praising Celeste, and urging his ever Christian people assemble to offer she had secured seven fine fish, the consent to a marriage. Neither of the praise to their Creator greatly deep-

Pierre swore feroclously in French at the situation. "These Edwards', Mon Dieu'." "Here, Celeste, what you say, ch!" (Ferguson looked at the girl as politely and said: "I have come to fish if his eyes could find her very heart's here from the Parrandin farm. May I thought. She shrugged her shoulders and left the room. Pierre muttered "diablo! dam, dam," and struck his he looked once keenly, searchingly, at Ferguson. The latter's face was as ex-

The next day Pierre set out to look after his traps and Ferguson stayed at the cabin to make a pair of snowshoes. great logs, and Celeste's ring, which she wore only before her father and the Scotsman, sparkled on her finger. She sat on one of the heavy splint-bottom chairs and watched the progress of the work. Finally Ferguson threw down the strips of deer hide and said: "You are not going to marry this Edwards, Celeste?"

"Why not, monsieur?' replied the girl, proudly, though with her cheeks ablaze at the question. "Because I say not, Celeste," he an-

swered. "What right-you-" the girl brok-

age she laughed, looked him full in the mockingly repeated Pierre's old remark, "Eh! Bien! N'importe." Ferguson took one step across the

hearth and caught her to him. the knowledge of his adoration of her own, the incident seemed to him a in an amazed joy.

"We will go down to the village tomorrow afternoon, Celeste, get mar- of My Soul." ried and come back and surprise Papa Pierre in the evening. You shall take your place as my wife in the city and we will live in the woods here half the year with Pierre."

The girl's heart was well-nigh breakng with sheer happiness. The long night seemed to her as a kind mother, shading with its dusky palm the one light of her life from a too blinding brilliancy.

In the morning a strange warmth was in the air. An uncanny mildness for that time of year. And Pierre shook his grizzled head. "Storm, I think," he said. He and Ferguson went to the traps together, shot a brace of ruffled grouse and returned for dinner. After dinner Ferguson and Celeste went down the mountain side together, the light of what had happened still radiant on the girl's face. "How warm it is," she said.

"I'm afraid there is going to be a torm," said her companion. At the hereafter the forecastles of their village they met the minister, who was steamers will be governed by men who a white-haired, kindly old man, and will not send forth a stream of prowere man and wife ere the girl could fanity. which had been of a dark green color, is of the "non-cussin" kind. The rule had gone away for a month and it turned suddenly light, then to an inky says: "Thou shalt not cuss; nay, verseemed to Celeste that never had time black. A hollow, roaring sound came lly, even should a stage plank or cask been so heavy on her hands. At first over the mountain and the storm was upon them. Ferguson caught his wife by the wrist and darted under the bridge and into a hollow under the wardly at least, her old-time manner embankment, a space amply sufficient to shelter half a dozen people. A wild Foot-Ease, a powder. It makes tight gust scattered water into their retreat and another volleying roll of crackling winds swept away the log bridge like shoe stores, 25c. Trial package FREE a heap of straw. For hours, as it seemed to them, the fierce storm raged ful October day, as Celeste stood at the of wind and electicity, and afterward a heavy rain fell. They remained in the hollow until daybreak, and then, heavy-hearted with forebodings of disleaped to her heart at sight of his aster, they hurried on to the fort at Passaconnaway. A perfectly appalling ne was different from the rest, but he sight confronted them here. Vast pines uprooted and flung aside like wheat stalks by the cradler's motion. Hemlocks, hardy and tall, prone on the rocky soil, stripped and scourged by the tornado's might. The very ground itself scooped and gullied by the cleaving share of the indomitable winds. Higher and higher they crept, and at last, after many hours, as it seemed, of toiling through barriers of tangled ing-that is, at first it seemed so, but | limbs and tree trunks, they came to the in the light of the great fireplace the spot where the evening before had been same evening he had brought out for the little home of Papa Pierre. And under a vast chaos of uprooted pines was an opal. It was a ring, of which and hemlocks, buried in an interlocked mass of gigantic timber, hidden from sight by the roots of century-old for-

est altars, it rested. The darkness had circled, poised, descended. The wild winds had sprung out from the hollows of heaven, and, gathering strength as a rolling snowball gathers weight and solidity, they had fallen upon the trembling land Sphered in electric currents, they had torn up, as with a mighty hand, the rock-rooted and majestic trees and hurled them missile-like through the thunderous spaces of the night.

And, battered and bombarded by these resistless messengers, blotted out by a myriad flight of huge timbers, thick as the arrow flight of the English archers at Cressy and Poictiers, the Frenchman's cabin lay.—Ernest Mc-Gaffey in Chicago Chronicle.

Orders have been given the engineering department of the Illinois Central road to prepare plans for the construction of an elevator of 1,500,000 bushels' capacity at Harahan yards near New Orleans and for the building of wharves and docks which are in conORIGIN OF FAMOUS HYMNS.

Rock of Ages, sympathy, that confers deathless fame Cleft for Me." This greatest of hymns was written in 1776 by Rev. Augustus Toplady, a very learned English divine who died at the early age of 38. The hymn has the rare, wondrous spiritual ecstacy he revealed in his daily life. In his last illness he said: "I cannot tell the comforts that I feel in my soul; they are past expression. It will not be long before God takes me, for no mortal man can live after the glories which God has manifested to my soul." The marble tablet over his grave says: "He wrote 'Rock of Ages, Cleft for Me.'" Mrs. Vanalstyne, better known as Fanny Crosby, the blind poet, wrote the hymn "Safe in the Arms of Jesus" for music in twenty minutes, but into it was put the essence of her whole life of faith. Miss Crosby, after a day's jostling through the city streets, guided by some loving hand, returns to her little room and pours forth her soul in song. Of the many hymns written by Mrs. Sarah Flower Adams, the only one that has survived is the hymn, "Nearer, My God, to Thee," based on the bible story of Jacob's vision at Bethel, the imagery of which narrative it follows most faithfully. One day Charles Wesley was sitting by an open window, looking over the beautiful fields, when enly cried; then with a splendid cour- he saw a little bird pursued by a hawk. The poor think, weak and frightened, face, shrugged her shoulders, and in seeking to escape from its enemy, flew into the room and found refuge in Wesley's bosom. As the poet was then in great trouble and needed the safety of a refuge, the consolation of She struggled at first, but came to help from a higher power than his divine messsage, and, thus inspired, he wrote the famous hymn, "Jesus, Lover

CHAPTER XIII. "Salvarez Must Be Saved!" "This plan of yours—to have the execution of Salvarez postponed until

sion. Is there any game in it?"

It was Gomez who spoke. He and Francisco were in the Council Room. Philip was away in another part of the castle with Don Juan.

"Game?" replied Francisco. "What game could there be? What do you mean, Gomez? Explain your insinua-

"It is strange that a true lover of the king and a hater of the Republic should seek to delay the execution of one of Crespo's most dangerous generals. Rather, to my mind, should he hasten the death of the entire horde." Francisco smiled.

"General Gomez," he said, "there are other hearts than yours. You are not the only friend the king has in Venezuela. Have I not led my sol-

"Your soldiers? Oh, yes, your soldiers. Of course, my dear Pedro, your valor is beyond dispute. But in this case of Salvarez-the delay of his execution as demanded by you and yielded by Philip-is, to say the least, inexplicable. There must be a motive in it."

"Yes," replied Francisco, after pause, "there is a motive in it. There is a reason why I have asked to have the execution of Salvarez postponed. I have explained this reason to the king. It satisfied him. It must satisfy

Gomez laughed.

"Which is your way of informing me that it is none of my business," he

"Not so. You are general of the army. You-'

"Oh, well, let it drop. If Philip is satisfied, I am sure I ought to be. There are matters to be thought of that are more important than this rebel general. It is time we moved toward the Orinoco."

"I thought it had been decided that our safest plan was to wait here for Crespo's army to attack us. He will, undoubtedly, send only small detachments at a time. We can destroy them as they come.'

"Nonsense," said Gomez, shrugging his shoulders. 'Are we to sit here inactive while Crespo fires the enthusiasm of the mobs north of the Orinoco? What would Godoy, Hernandez and the | would not cast a shadow. others say to that? Remember, we to cross the Orinoco as soon as pos- | tion possible. sible, picking up reinforcements on the | She loathed and despised Francisco, many followers as Crespo by the time and brutal tastes, a small, mean we meet him.'

"But will the king leave the castle as long as Garza's daughter is ill?" "He must. Is the cause to be lost ihrough his infatuation?"

When Francisco had gone, Gomez tent for a certain captain upon whom he felt that he could rely.

"General, you sent for me," said the

captain, as he entered. Yes, I sent for you, because I trust you more than I do any other officer

of the king, and I have something for you to do.' 'Thank you, general. I will en-

deavor to deserve your high regard." "Captain, what do you think of Francisco?

"Francisco? What do I think of him? That is a strange question, gentral.'

"I know it is, but strange circumstances cause it. You were probably surprised when you learned that the execution of Salvarez was postponed ill midnight.'

"Yes, I was surprised at that." "You would no doubt be more surprised if you knew that this was done at the solicitation of Francisco him-

"Francisco! He was to give the tommand to fire."

"Just so. Now, captain, you have lived near enough to Francisco to tnow something about him. What have been the relations existing between Francisco and the family of Sal-

varez? Is there anything there?" "Oh, Francisco has long wanted to marry the daughter of Salvarez. Everybody knew that."

"Do you think his love for the girl is sincere?"

"Sincere? It is strong enough." "You don't like the word sincere" "It hardly applies to ordinary cases of love on the Orinoco. I think Fran-

tisco wants her for his own happiness. I don't think he considers hers." 'Still, his passion for her is such that he would resort to any means to

compel her to marry him." "I think so." "So do I. Now I will tell you why I

sent for you. I believe Francisco is a traitor.' "Traitor! Caramba! I like such traitors. He was in the thickest of

the fight." "That is all true enough, but does aot alter my opinion. There is some- wife?'

` thing in this request of his to have the execution of Salvarez delayed till midnight that makes me doubt him. The change from daylight to darkness was significant. With this suspicion in my midnight—is beyond my comprehenmind, I took the trouble to learn whom he had chosen to form the firing squad. They are, to a man, picked friends of his. There is some treachery afoot, you may be sure. Could it be possible

that he has promised to let Salvarez escape, to gain the girl's love?" "It could be done if Francisco wished to do it."

"But he must not be allowed to do it. It must be your work to take a dozen of your men-men who are not friendly to Francisco—and watch, without being watched. That is, secrete yourselves some time before midnight where you can see the execution. Give Francisco plenty of time to prove his treachery. If he allows Salvarez to escape, see that the rebel general is at once killed and arrest Francisco and

bring him before the king." "That is easily done." "Then do it."

"I will."

"And keep your own counsel. Do not allow Francisco to know that we suspect him."

"You may trust me," said the captain, as he went out.

While all this had been going on, wo forms were crouching close to the sliding panel that separated them from the council room, and every word uttered by Gomez and his associates had been heard by Medworth and Tem-

When the captain had gone, one of the crouching figures made a sign and crept noiselessly away. The other followed him. In a moment they hat descended the stone stairs to the caverns under the castle.

"Well," said Tempest, "the thing gets hotter and hotter. But we have something to do."

"What is it?" "Salvarez must be saved!"

"Salvarez! He ought to be, but

"I do not know yet. We know what oom he is in. In some way he must be told of this scheme of Gomez's. Come what may, Salvarez must be saved!'

I understand our peo- strangely are women constituted, even ple well enough to know that their as she rejoiced in the fact that her loyalty to our cause can be depended father's life was to be saved, she beupon only as long as we show them gan to rebel against the fulfillment of we are succeeding. Our best move is the promise that had made his salva-

way. We shall have easily twice as whom she knew to be a man of low and her heart grew sick when she thought of the future that must now be hers-bound to a man upon whom she would look only with loathing and contempt.

And as her mind dwelt on the shortcomings and evil character of the man who was destined to be her husband. there rose before her the picture of the handsome young American who had rescued her from Francisco's evil hands.

There was a man she could have oved.

"He loves another," she said to herself. "And that other is to be married to the hateful conqueror. Ah! if I were free, why might not the American love me?'

She cast aside her gloomy thoughts and went to the window, where, pressing her tear-stained face against the bars, she peered out into the starless night. A slight rustling sound beneath the window startled her. Sne took a step backward in sudden fear.

She listened intently. What was that A whisper! She listened again. This time there could be no doubt. A voice came out of the darkness, whispering, almost whistling the name.

"Are you the daughter of General Salvarez?" came the voice. "Yes, yes," she replied.

prisoners. I thought you were also taken." "So we were," replied Medworth. "but Tempest and I escaped."

"You will be captured," said Jacinta, really alarmed for him. "Why do you not remain hidden?" "I came to warn your father-to

save him," was the reply. Jacinta's breath came hard. She strained her eyes, and by the aid of what little light escaped through the

window she saw the handsome face of the American upturned to hers. "To save my father!" she exclaimed. "Brave friend! But he is already

"No, he is not," said Medworth. "I know what you mean. You promised

to marry Francisco-"I loathe-hate-despise him," whispered Jacinta.

"Perhaps you do," said Medworth, in reply to her remark about Francisco. 'You ought to. Did he promise to save your father if you consented to be his

"Yes, yes," panted Jacinta. "Is the retch false?' "No. I think he means to carry out

his contract, but it is impossible for him to succeed. By crouching at the sliding panel we can hear all that is said in the council room. Gomez was there with Francisco. Gomez seemed talked or other matters. But Francisco men and lie hidden near the spot where father is not shot by Francisco he is to be shot by the others."

"Oh!" sobbed Jacinta. "Then there is no hope for my poor father!" "I want to help him escape," said the secret passage?"

emy were there, and drove our men who were to blow up the castle from

"No; that was Tempest and myself. We alone know the secret."

"Is it so? Ah, but what good is it to know that? An armed guard is just outside our door, and no other room connects with the secret passage but the library. Even if my father made a dash for liberty, they would discover his retreat, and all would be lost." "Can these bars be wrenched out?"

asked Medworth, placing his hand on "No,' 'replied Jacinta; and as if to test their strength with them, she

At the contact another thrill set her young heart to fluttering. "Then in some way he must be as-

sisted," said Medworth. "The secret passage must be reached." "I can suggest nothing," said the girl. "Francisco was my only hope." "How many guards are there?" he

"One." she replied. "Listen. You are not far from the library."

asked.

"To. The distance from that door to this is not great." "Then I will go back, creep up to the

the library. If there is no one, I will

"Yes. We always kept the key hanging near the door-on the right."

"Good. If it is there still, I will lock the door and bring the key to you. That will keep others out, and your father will know the coast is clear. Of course, if they come and find it locked there will be an uproar, and we shall be defeated, but so we should be if any one went into the room unknown

"Not if my father was armed." said Jacinta. "If there was only one."

"No, that is true enough. Better take the chance then with the door open. But I must go to see if there is any one there, and to get a pistol for your father. My own is in the secret passage. Your father must be informed of the plan while I am gone. When I return, he must in some way attract the attention of the guard, get him inside the room and silence him before he has time to give the alarm. Then you can all three escape to the secret passage. I will meet you there. When you are safe in the caverns we can plan further," and Medworth was gone.

The trembling girl lost no time in acquainting her father with the details of Medworth's plan. While he listened to her a grim smile played around the

old warrior's mouth. "A brave youtn!" he said. "We will

(To be continued.)

work.'

ITALY GIVES US A HINT.

What Her Five Fast Battleships Could Do to This Country.

We are not accustomed to consider Italy very much of a naval power; yet the five battleships of 20 knots and better that she has built or building might make us endless trouble if we were so unfortunate as to have them against us. They could range our whole coast, destroying everything goat is now securing a foothold in the afloat except our battleships and our west and the southwest the time is not fastest cruisers, and remaining them- far distant when the goat industry selves in absolute obscurity. The Cudahys of Chicago have a packing house in Los Angeles, and thousands of acres of land in one body, some thirty miles from that city, which are planted to alfalfa and into which hogs | ly resistant to drouth and resist the placed her hand above his, touching it. are turned and allowed to help themselves to the green fodder. It is supposed to be a profitable enterprise, for otherwise the Cudahys would not pursue it. But southern California is already under excensive irrigation, and strong objection to them, however, for all the crops that are raised anywhere grow finely there. It is mainly of the semiarid west, which includes both the Dakotas, three-quarters of Nebraska, two-thirds of Kansas, all of in late autumn." He adds: "In seek-Oklahoma and western Texas that the | ing for crops suitable for semiarid disagricultural department has offered its tricts we usually have especially in latest contribution to the agriculture | mind the benefit of the region and not of the ernormous region. This con- the crop itself. In the case of macatribution is of macaroni wheat, which the department believes to be quite true that they can be grown in dry sliding panel, and see if any one is in as important as the other mentioned and which may be profitably grown in there in order to produce the best endeavor to fasten the door. Is there a the plains region of the United States far beyond the hundredth meridian, and only less profitably in all the states and territories west of the falls in the proper time and the soil hundredth meridian to the Pacific is of the right kind."-Chicago Chron-

Macaroni Wheat, the Latest Suggestion for

the cities, while in Italy it is a universal food. It is a paste or dough prepared originally and chiefly in Italy from the Glutinous flour of hard varieties of wheat pressed into long tubes or pipes through the perforated bottom of a vessel furnished with spindals and afterward dried in the of the nature of macaroni wheats: "Macaroni wheats differ radically from the ordinary bread wheats and wheat. The heads are flat, compressed black; the chaff is usually golden yelquality sometimes translucent. There are also occasionally velvet chaff varie-The grain is much harder than that of the hardest bread wheats, and in the best varieties contain an unusual amount of nitrogen and a correspondingly small amount of starch. The quantity and quality of the gluten make them extremely valuable for making macaroni. They are extremeattacks of leaf rust and smuts to an unusual degree. On the other hand they will not withstand the hard winters and are usually grown as spring wheats. This fact should not be a they will behave very differently from the ordinary spring wheats grown in Kansas and Nebraska. South of the thirty-fifth parallel they may be sown roni wheats, however, it is not only districts, but they must be grown quality of grain and up to a minimum of about ten inches annual rainfall, the drier the better, provided the rain

Goats in the Far West

Time Coming When They Will Supersede Cattle and Sheep.

1849, when the first Angora goats were brought to this country by Dr. James

B. Davis, of South Carolina, who received them as a present from the Sultan of Turkey, the goat has slowly but surely gained a standing among the industries of the west, until there tre now many more than a million goats in Arizona, New Mexico, Texas, California, Idaho Utah and Oregon.

Stockmen are awakening to the litions which are conducive to the nighest development of the goat, in

flesh and fleece. So great is the confidence in the fuure of the goat industry that a large amount of capital is being put into goats by northern sheep growers. Several companies have been formed for ters, and not one true friend.

At the rate at which the Angora the establishment of immense herds on the mountain ranges, and in several instances in which sheep have been excluded by the department of the interior from the forest reserves goats will be turned out to pasture.

Fremskridtskvinde.

The new woman in Denmark calls herself fremskridtskvinde, or woman of progress, and if we are to believe a writer in the Boston Transcript, who seems to know about her, she maintains her claim to the title only by sacrificing her best womanly instincts. She is, in other words, rather too advanced to be of any real benefit to society. We are informed that she apparently despises the homely arts of her grandmother and by way of demonstrating her originality fills her house with tobacco smoke and politics. She is prone, says the writer, to regard the rearing of a family as a rather irksome and ungrateful task imposed upon her sex, and she is becoming even more jealous of the seeming freedom and independence of man in professional pursuits.—Chicago Inter

SE CUTICURA SOAP, assisted by Cuticura Ointment, the great skin cure, for preserving, purifying, and beautifying the skin of infants and children, for rashes, itchings, and chafings, for cleansing the scalp of crusts, scales, and damdruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, and for all the purposes of the toilet, bath, and nursery. Millions of Women use Cuticura Soap in the form of baths for annoying irritations, inflammations. and excoriations, for too free or offensive perspiration, in the form. of washes for ulcerative weaknesses, and for many sanative, antiseptic purposes which readily suggest themselves to women, especially mothers. No amount of persuasion can induce those who have once used these great skin purifiers and beautifiers to use any others, especially for preserving and purifying the skin. scalp, and hair of infants and children. Cuticura Soap combines delicate emollient properties derived from Cuticura, the great skin. cure. with the purest of cleansing ingredients and the most refreshing of flower odours. No other medicated soap is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in ONE SOAP at ONE PRICE, the BEST skin and complexion soap, the BEST toilet and baby soap in the world.

Complete External and Internal Treatment for Every Humour. Consisting of Cuttcura Soar, to cleanse the skin of crusts and scales and soften the thickened cuticle; Cuttcura Ontmern, to instantly allay itching, inflammation, and irritation, and soothe and heal, and Cuttcura Resolvent, to cool and cleanse the blood. A Sinole Set is often sufficient to cure the most torturing, disfigor of hair, when all else fails. Sold throughout the world. British Depot: F. Newberry & Sons, 27 and 28, Charterhouse Sq., London. Potter Drug and Chem. Corp., Solc Props., Boston, U.S.A.

their parents a brief visit Wednesday. Mr. and Mrs. M. A. Smith, Kingston, were the guests of Lottie Usher Sunday.

Mrs. Jacob Striffler, accompanied Mrs. Wm. Clark to Manitowoc last Wednesday where she will visit her brother, Leonard.

Henry Ball, accompanied by his son, Henry, left for his former home at Akron, N. Y., on Wednesday for a brief visit with old neighbors and The One Horse Bean Harvester,

which is manufactured and sold by Ratz & Balch, is a tool of high merit and will prove invaluable to the farmer. It costs but one-third as much as a two-horse bean machine and will do the work equally as well. With this

machine as many acres can be harvested in a day as one man can cultivate in the same time. It is cheap, durable and practical. See ad. in this

TRAVIS FAMILY RE-UNION.

We clipped the following article from the North Jasper News, which will be of more than ordinary interest to many of our readers:

The descendants of Amasa Travis and Phoebe Baker held their second annual family reunion in the form of a picnic in the grove of Albert Dennis at North Jasper, on Wednesday, Aug.

15. The day was all that could be desired. The air being invigorating, the sun shone brilliant and the temperature delightful. About seven joyed a corn roast at the south end of o'clock a.m. the teams began to appear at the entrance to the grove and soon the tables were filled with bas-Coon, was called to Croswell last week kets and boxes of substantial refreshments, and the grove was a scene of festivity.

> With glad voices and hearty hand clasps the cousins exchanged greetings. (The word "cousins" is made to include the entire family, whatever their individual relationship). The smiling faces and sound of happy aughter gave evidence that good cheer had come to be King for the day. Cares were forgotten and all seemed determined to secure the full measure of gladness which the occasion could afford.

At length the dinner call was heard and responded to with alacrity by old nome of its own. The Recorder is and young. The menu included every thing pleasant to the eye and delightful to the taste. For a time conversation was "swallowed up" (or more properly down) with sandwiches and

> When all had done justice to the refreshments and the baskets and boxes had been filled with empty dishes the people were seated and a brief program was rendered from the platform. Everything in this intellectual menu was also good. Particular mention will only be made of the fact that an interesting letter from cousin N. C. Hatch, of Ellington, Mich., was read by Mrs. Albert Den-At the conclusion of the program a business session was called when the following officers were elected: President, John Travis, of Canisteo; vice-president, James Travis, South Canisteo; secretary, Almond K. Dennis, North Jasper. It was voted to hold the next reunion in the same place, during the month of August, 1902, at such time as the secretary

should determine. The company was then gathered son exposed his camera in their pres-
