# THE GREAT TUSCOLA, HURON & SANILAC DIST. FAIR

#### A Large List of Special Prizes.

A Big Showing in the Agricultural and Live Stock Line,

This year marks the 13th annual fair of the Tuscola, Huron & Sanilac District Fair Association. From present indications, not only will the success of former years be duplicated, but greatly exceeded. The T. H. & S. fair has gradually come to the front until now it is conceded to be the most prosperous association in the Thumb country. It has won out on its own merits. The officials have conducted the affair in a business like way and the people have always received their moneys worth.

Progressive citizens of Cass City secured the location of the present fair grounds and from the time the site was purchased of Robt. G., Orr on the 3rd day of September, 1889, the work of improving the grounds and erecting buildings has been carried forward until now we have one of the finest fair grounds in the Thumb. Cass City is the logical location for a district fair, as it lies in the center of a large and growing country.

Cass City is the gem of the Thumb. Its beautiful location, its wide avenues and general healthful and attractive surroundings make it a good place to come to for a season of enjoyment and recreation.

The officers of the fair association are a hale and hearty lot of farmers and business men. Perfect harmony exists among them and they all are working with a will to make the coming fair the best in the history of the society. Some of the members struggled through the early days of the association and they have a right to feel proud of their achievements.

Tuesday, Wednesday, Thursday and Friday, Sept. 30, Oct. 1, 2 and 3 are the dates of the Tuscola, Huron & Sanilac District Fair at Cass City.

It will be the big event of the year among the farmers of the Thumb.

Village folks will meet their country cousins there. Acquaintances of by gone days can be renewed and a general good time is awaiting all who attend. The P. O. & N. road will sell reduced rate tickets to accommodate all the people from Pontiac to Caseville.

The hotel accommodations at Cass City are the best, and the hungry and thirsty may find plenty to eat and drink in the city and on the fair grounds. Present indications point to the finest live stock exhibition ever seen in this section of the country.

The speed events on the race track will prove exciting. Efforts are being made to have a splendid string of "flyers" on the track.

Make arrangements to bring your whole family and be sure and write your friends to meet you there.

The management has arranged for a series of sensational and novel acts to be seen each day of the fair.

Side shows, merry-go-rounds, peanuts, sweet cider, pink lemonade and taffy will be found in abundance.

### Tri-County Chronicle | CAPITAL TO BE GAY

Washington Preparing For a Brilliant Social Season.

Renovated White House Will Be the Scene of Entertainments.

When the repairs and alterations to the White House, now being made, are completed, that historic mansion will be, even more than before, the focus of Washington social gayety. During the coming winter Mrs. Roosevelt will have at her disposal more room for domestic life and social activities than any other White House mistress ever possessed. Judging from present indications, she will make the greatest possible use of the renovated, stately old mansion, and the social life of the White House during the coming season will be brilliant in the extreme.

For some time it has been believed that the Washington social season would open this year at an unusually early date. The latest report, however, is to the effect that, although Mrs. Roosevelt and her family will return to the executive mansion during the early part of October, there will be no great formal entertainments before the opening of the official season, on the 1st of January. It is authoritatively announced that Mrs. Roosevelt has informed the ladies of the cabinet that their assistance will not be re-Muired before the date of the great New Year's reception.

Although Washington society has lost by death, retirement and other causes some of its most popular leaders, new faces have appeared, and the life of the capital promises to be gayer than ever. For one thing, the gloom cast over last year's season by the death of President McKinley has been removed. Another new cause for social activity is the fact that the invalid wife of the late president has been replaced by Mrs. Roosevelt, who is an energetic, brilliant and exceedingly able social leader. The latter statement may, perhaps, be challenged by those who hold that she has injured her popularity by her limitation of the the papers, the congress will consider entree to the more exclusive of the White House entertainments. Some of

Roosevelt's rulings, especially those drawing a sharp line between what she considers "society" and "officialdom," have caused envy and heartburnings

Mrs. Roosevelt will probably be comwith little assistance from the ladies of the cabinet. Mrs. Hay, whose rank in Washington society is second only to that of the president's wife, is still in mourning. Mrs. Root will probably pass the winter in Europe for the health of her son. Mrs. Payne is an navy is unmarried and without a female head to his household. The only vigorous coadjutors of Mrs. Roosevelt, in all probability, will be Mrs. Shaw

and Mrs. Knox. A number of changes affecting the social season have taken place in Washington, especially in the diplomatic corps. Lady Pauncefote returned to England after the death of her husband, but her place will be ably filled by Mrs. Herbert, the wife of the new embassador, who is an American by birth. Although Mme. Cambon. the consort of the retiring French embassador, has been here but a short time, she has made an agreeable impression, and her departure will be regretted. Mme. Jusserand, who suc-

ceeds her, is an American. In the senatorial set probably the most important change is the retirement of Mrs. McMillan, widow of the senator from Michigan. It is reported that Senator Frye will soon marry. and Senator Clark of Montana is also said to be contemplating matrimony. Their official standing, the influence of the former and the enormous wealth of the latter insure for their wives influence in the social life of the capital should they desire it.

Prominent among the arrivals in

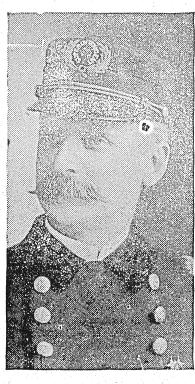

Washington society is the new Mrs. Chauncey M. Depew, the young and charming wife of the junior senator from New York. Mrs. Depew has moved in the highest social circles of America, England and France, and she bit of land shaped like a flatiron, has won her way to the hearts of her husband's American friends. National Prison Congress Soon to Meet In Annual Session.

At the meeting of the National Prison Congress in Philadelphia Sept. 13 to 17 will be discussed a number of questions of the utmost importance to those interested in sociological or penological matters. The programme of the congress covers five day and five evening sessions. Such subjects as 'The Whipping Post," "The Relation and Duty of the Community to the Discharged Prisoner," "The Indeterminate Sentence" and "The Juvenile Delinquent" will be read and discussed, and much good is expected to result from the meeting.

The association is not one of mere theorists, imbued with fanciful or impracticable ideas as to the treatment of lawbreakers, but is composed of

persons of experience in dealing with the criminal classes. In addition to reports of the standing committees on preventive and reformatory work, criminal law reform, probation work, prison discipline, police work and discharged prisoners and their treatment.

The National Prison Congress has been in existence about thirty years and numbers among its members, past and present, some of the best men and all of the eminent penologists of the country. Rutherford B. Hayes, expresident of the United States, was at one time president of the association. Although among its members are included men who have been familiar for many years with the darker sides of human nature, the majority of them are strong believers in the ultimate reform of humanity and the final abolition of crime. They hold that the true object of punishment for crime is the reformation of the wrongdoer.

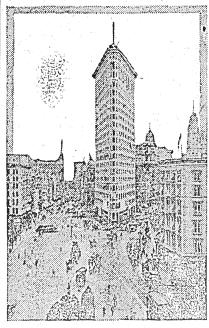

Among the men who will read papers before the coming meeting will be Colonel Richard Sylvester, chief of the police force of Washington; Warden Albert Garvin of the Connecticut state prison, the Rev. Dr. R. H. Conwall of Philadelphia, Judge J. Franklin Fort of Newark, N. J., and Dr. J. T. Gilmour, warden of the prison at Toronto, Canada.

Colonel Richard Sylvester, who will take a prominent part in the deliberations of the congress, is president of the National Association of Police pelled to conduct her social campaign | Chiefs and originator of the national identification bureau.

#### THE SUNDAY SCHOOL

Lesson 12, Third Quarter, International Series, Sept. 21. .

Commentary Prepared by Rev. D. M. Stearns.

[Copyright, 1902, by American Press Association.] 1-3. And the Lord shewed him all the land.

Read with prayer and reliance upon the Holy Spirit the parallel passages in Num. xxvii, 12-17; Deut. iii, 23-29; xxxii, 48-52, and notice Moses' great prayer to God that he might be permitted to do so, God's refusal to allow him, Moses' meek submission and his request that some one be appointed in his stead, so that Israel might not be as sheep which have no shepherd. Observe that it was Moses' sin when he the rock instead of speaking to it and thus failed to sanctify God in the eyes of Israel that kept him from entering the promised land at that time. See Num. xx, 7-13, in connection with the above passages.

4. I have caused thee to see it with thine eyes, but thou shalt not go over thither.

When Moses pleaded to be permitted to go over, the word from the Lord was, "Let it suffice thee, speak no more unto Me of this matter" (Deut. iii, 26), and that was enough. It was Israel's sin in murmuring and rebelling that led Moses to sin, but that did not excuse Moses. How holy is our God, and what holiness He requires in us! And who is equal to it? Failure is seen in Adam, in Noah, in Abraham, Isaac and Jacob, in Moses and Aaron, in David and Elijah, in the apostles and everywhere. There is none good but one. That is God. And Jesus was God manifest in the flesh. It is only as He is manifested in us by His Spirit that our life will be what He desires.

5-7. Moses was an hundred and twenty years old when he died. His eye was not dim nor his natural force abated.

When Aaron died, Moses and Eleazan were with him, but no one was with Moses when he died. He had often been alone with God, on two different occasions for forty days and nights at time, but previous to this occasion he had always come back to continue with the people. Now in health and vigor of body and in the use of all his faculties he went up into the mountain alone and returned to Israel no more. Out from the earthly tabernacle in which he had sojourned for 120 years Moses, the servant of the Lord, went to live with God forever. No sickness, no suffering, as far as we know, but he just closed his eyes to earth and entered into the presence of God and of the redeemed and of the holy angels, absent from the body, present with the Lord, which was very far better for him (Phil. i, 21, 23). He is still there alive and well, and after more than 1,400 years from the time of his departure Peter and the others saw him on the Mount of Transfiguration with Jesus Christ, as he and Elijah spake with our Lord of His approaching decease (Luke ix, 30-32). The body of Moses was buried, but, no man being present, no man knows where, for God has not seen fit to tell. To bury bodies in the earth is Scriptural, to burn with fire is heathenish, though it matters little how the body is disposed of, for God will raise 39, 40, 44, 54),

it up (John v. 28; vi. 8. And the children of Israel wept for Moses in the plains of Moab thirty days.

Although the great enemy death can only bring gain to the believer, yet his work on the body is to be deplored, and our Lord Himself wept at the grave of Lazarus. Death came by sin, but in due time both death and sin shall be found no more on earth, but shall be destroyed (Hos. xiii, 14; I Cor. xv, 26; Rev. xxi, 3, 4).

9. And Joshua the son of Nun was full of the spirit of wisdom, for Moses had laid his hands upon him.

When Moses asked that some one might be appointed to take his place, God designated Joshua as his successor (Num. xxvii, 18, 19), and now the people hearken to him as they had done to Moses. His story will come before us in the next quarter's lessons. Meanwhile let all be looking up the past mention of him and thus getting better acquainted with him.

10-12. And there arose not a prophet since in Israel like unto Moses, whom the

Lord knew face to face. In many respects Moses stands alone; none like him. It is written of him, "And the Lord spake unto Moses face to face as a man speaketh unto his friend" (Ex. xxxiii, 11). But in Heb. iii we see how much greater Christ is than Moses, and in that epistle it is set forth how much higher Christ is than angels, than Moses or Aaron or Joshua or any other, our High Priest forever after the order of Melchisedec. The last two verses of our lesson set forth the way in which Moses was greater than any other prophet in the matter of the signs and wonders which God wrought by him in connection with Israel's deliverance from Egypt. A greater deliverance for Israel is drawing nigh, when with similar but greater wonders she shall be delivered from all nations and placed in her own land forever to the glory of God and the blessing of all nations (Jer. xvi, 17, 18; xxiii, 7, 8; Mic. vii, 15-20). Death may remove from earth a Joseph or a Moses or a Joshua, but the Lord, liveth, and all the promises of God are yea and amen in Christ Jesus. and, like Isaiah when Uzziah died, we may look up into heaven and see a Priest-King who never dies, who said to John. "I am He that liveth and was dead, and, behold, I am alive for evermore, amen, and have the keys of hell and of death" (II Cor. i, 20; Isa. vi, 1;

Rev. i, 18).

RAISING PHEASANTS.

A Lover of Birds Who Says the Business Is Pleasing and Profitable. The pheasant industry in the United States has become very popular of late vears on account of its great demand in the markets at \$4, to \$8 per pair, taxidermists paying as high as \$15 for the skin and plumage: also being prominently introduced as one of our game birds in park reserves, and again held very frequently in captivity as a lawn beautifier. The pheasant is of most noble and

beautiful form, attractive head, stout

bill, short wing, elegant long tail,

adorned with beautiful golden plumdesire to go over into the land, his age. There is no breed more beautiful. I handle a large flock of pheasants and generally mate in pairs in the early spring and keep them in small parks 10 by 15 feet, with wire inclosure cage, sides and top. I use parks because pheasants do not require any housing; for protection and shade I plant a lot of evergreens or disobeyed God at Kadesh in striking most any brush in the park. These birds, being of very hardy constitution, will stand almost any kind of weather and will not take shelter at any time and will stand any climate. Diseases so common among chickens, as roup, etc., have never yet occurred in my flock. In July I change cock birds which have not been used in the breeding pens that season with the hens, causing every egg to be fertile to the last one laid. Pheasants are very tame and intelligent with their keeper and always ready to be called. A pheasant hen lays about sixty to sixty-five eggs in a season, commencing in May, till September. They make their nests on the ground. Their feed should be principally cut clover, ground feed and heavy white oats. They are very poor mothers at best in confinement. They do not seem to have much maternal love for their young. Therefore to raise these birds I use common chicken hens. Pheasants hatch within twenty-two days, excepting silver, which hatch in twenty-eight days. Now, the most important point in raising pheasants is to rid the sitting hen of lice and red mites while hatching, for which I use a lice powder which is very effective. The first three or four weeks I feed

hard boiled eggs, dry breadcrumbs and patent game food, about one egg to eight young daily, and give them free range. I never touch them with my hands, always using fork or spoon, and place their coop near lawn or clover patch or lettuce garden. Greens and grass are as much the staff for young pheasants as is bread for man. I use large, airy dry goods boxes for coops and place them in shady spots or plant fresh cut brush about for the first three days. I place a yard three feet square around the coop in order for them to get used to their mother's call and not wander off. Pheasants when hatched are very strong and lively and ready to eat at once. I feed principally dry breadcrumbs the first day. I claim nothing but lice kills young pheasants. They are easy to raise and stand any kind of climate. I raised 75 per cent last year, and most of the birds were raised in August. When five weeks old, I feed a variety of grain. Pheasants are very small feeders. Feed for ten head of fowl is enough for thirty pheasants. They grow and feather very fast, size of quail when four weeks old, and have their full plumage and long tail when five months old, which changes every year more brilliant and beautiful. An important point is to give lots of brush to roost on and shelter from the north. They cannot stand roosting on damp grounds. When eight to ten weeks old, I cage them in two inch mesh poultry wire, and all danger is past. They are as hardy as geese.

If you are a lover of birds, try to raise pheasants. You will find it a great pleasure, besides being a very profitable industry. I had the pleasure of hearing Patti sing "Home, Sweet Home," and Olga Nethersole play "Carmen," I have seen a great many sights all over the world, but none has afforded me the pleasure I get from looking at my beautiful pheasants, the most beautiful birds in the world and which become more beautiful every year.—Fred Sudow in Inland Poultry Journal.

Beware of Fermented Food. Food that has fermented has no place in the poultry yard, or should have none, and this includes both house and city swill. It is true that hens will eat it, and often greedly, if they lack for meat and vegetables, for the hen seems to lack in organs of taste or smell, but the soured food not only causes loss from diarrhea in chickens and in older birds, often fatal to the chickens, but it causes early decay of both meat and eggs from those that have been fed on it. This is one objection to the green cut bone so much recommended by many. It is not always easy in a country town to get bone and meat fresh from the market every day in which the meat has not been spoiled by too long keeping, and the same is true of fish. Both impart a disagreeable flavor to eggs and meat if not sweet when fed, which grows worse rapidly after they have been kept a few days. The dried beef scraps or desiccated fish are better, but they should have a bright look and a greasy feeling, as those treated with naphtha to get out the grease are not as good.

No Cocksure Plan.

There are no ironclad rules in poultry keeping. One person succeeds best one way and another person in another way. Pens from good laying strains lay remarkably well one season and another season, under the same or better treatment, do not pay expenses. But the idea is to keep right on, and you will find that lots of good comes with the bad. Success does not come without an effort.

Mrs. Bowser and the cat retired, and Mr. Bowser brought out the brush and paint and began work. He had a steady audience of fifty as he worked. Even the umbrella mender and the old woman who peddled horseradish stopped to gaze and to comment. It was the consensus of opinion that Mr. Bower was making no mistake in opening an art gallery in that locality. There were a few boys who thought that a stone dog standing up, with his tail elevated and his teeth showing, was a little ahead of a dog lying down and half asleep, but the old horseradish woman man watchin' a live dog or a live man

"I dare you to do it!" There was a row that woke Mr. Bowser up, and he got out of bed and looked out of the window to see the two men fighting over his stone dog As he yelled out at them they broke away and went off in different directions, but not before one of them had heaved the dog over on his back. Mr. Bowser hurriedly dressed and ran down, but the only thing he could do was to renew the pose of his work of art. He determined to be on hand, however, in case of any more trouble, and he took his seat on the front steps to wait for the next comer. He hadn't

"You go on!" replied Mr. Bowser. "You can't fool me, old cock. Zhat ain't no live dog. I'm a little drunk, I am, but I know a live dog from a dead one. What you got a dead dog around here for?"

"I tell you to go on!" "What I go on for? Can't I stop and see a dead dog?"

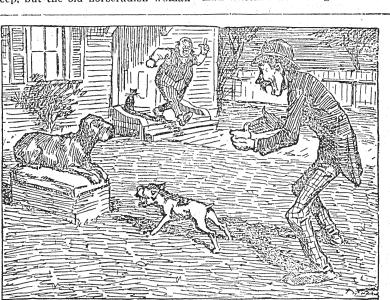

Mr. Bowser chased him away, and half an hour elapsed before any one else came along to make him trouble. He was beginning to nod with sleep when a man and a dog turned the coryard, and he had no sooner caught sight of the work of art than he squared off for a life and death struggle.

"Stuboy! Chaw him up! Go in and kill him!" cried his owner as he clapped his hards, and the live dog went in and rubbec all the paint off the dead

Mr. Bowser couldn't save the paint, but he bore down on man and dog in a way to scare them half to death and put them to flight, and Mrs. Bowser's appeals for him to come to bed were met with the determined reply:

"Never in this world! I'm going to sit right here till I get my hands on some one's 'hroat and choke the life out of him!"

Fifteen minutes later another drunken man came along, but he didn't have much curiosity. He peered at the stone dog for awhile, and then he turned his attention to Mr. Bowser, and he finally shook his head in despair and muttered as he moved on: "Too much for me. It's either a stone

#### "STARS SHALL FALL FROM HEAVEN."

No doubt a considerable number of people thought the end of the world was near at hand when they saw a huge meteor shooting across from the southern to the northern heavens early Monday morning. Solomon Striffler, a farmer east and north of the city, describes the scene as follows: "I was about my morning chores when my attention was attracted by a bright light and as I looked up I was astonished to see a big ball of fire sailing along just above the tops of the trees. In another instant it was gone for that place to-day. its fiery trail lasting for some time and finally appeared to break up into small bunches. Rev. L. Brumm, who was in Ekton, witnessed the same spectacle as well as many early risers here and all over the state.

The Detroit Free Press says; "Local astronomers declare the display was occasioned by the passage of a meteor that struck the atmosphere of the earth just above the city, in its downward flight and being unable to stand for the change was consumed by the friction thus engendered."

## LEADERS OF LABOR MEET

Federation of Labor in Session At Owosso.

COAL STRIKE IS NECESSARY resentative, John J. Perkins.

A Law Wanted to Compel Arbitration of Law Disoutes-Affairs Were Never More Prosperous.

Owosso, Mich., Sept. 17 .- The thirteenth annual session of the Michigan Federation of Labor is being held at the Light Infantry armory in this city. Thirty-five delegates were present at the opening session and more are expected. The convention will last until Friday afternoon, when officers will be elected and a meeting place chosen for 1903. Saginaw, Port Huron and Zanistee want it.

The following committees were appointed: Rules-W. B. Wilson, Grand Rapids; E. J. Heathfield, Detroit; Gustave Dihle, Detroit; A. B. Kimmerly, Saginaw; C. A. Bwerly, Owosso. Credentials-G. W. Duncan, Detroit: J. C. Brown, Muskegon; George Johnson, Grand Rapids; B. R. Cushman, Saginaw: G. W. Willis, Grand Rapids.

Mayor V. M. White of Owosso, who is a carpenter by trade and a prominent union man, welcomed the delegates in "behalf of the Central Labor union, the local unions, and the business men of Owosso, who have always been favorable to unionism and who helped to make the recent Labor day celebration an entire success."

President D. G. Boyd of Detroit re-

sponded briefly, and presented his an nual report, in which he declared the present strike in the coal mining regions emphasized the necessity for a law compelling arbitration of disputes between capital and labor, and their settlement on an equitable basis. He declared for the initiative and referendum, direct legislation, and the reenactment of a Chinese exclusion act He recommended the appointment of a legislative committee of three to form ulate a practical method of arbitra

During the year closing Sept. 1, 1902, there have been two withdrawals from the federation, one organization has disbanded, and fourteen have been ad mitted. Fourteen trades councils and 85 local unions are affiliated with the federation, only about one-tenth of the total union strength in the state. Plans will be formulated at this session to do some missionary work among the other 900 unions to secure new members.

Prosperity Didn't Strike Spencer. Dowagiac, Mich., Sept. 17.—Ex Rep. resentative E. R. Spencer has filed a petition in bankruptcy. Ten years ago Mr. Spencer had a fine 160-acre farm in Silver Creek, and was out of debt. Injudicious investments got him into debt, and he ultimately lost all his possessions. He is now an employe at the Round Oak stove factory.

Suit For False Imprisonment.

Charlotte, Mich., Sept. 17.—Suit for \$10,000 has been commenced in the circuit court here against Charles E. Chappel, the head of the Law and Order league, by O. P. Shuler, a druggist, who seeks damages in redress for al leged false imprisonment. Shuler, among others, had been charged with violation of the liquor law.

Co-operative Village Proposed. Battle Creek, Mich., Sept. 17 .-- A movement is on foot among operatives in the factories here to buy a farm near the city limits and plat it, mak ing a co-operative village. The land comprises forty acres, and it is in tended that forty families shall occupy one acre each.

To Talk Sugar Beet Factory. Ypsilanti, Mich., Sept. 17.—President Ainsworth of the Business Men's association will call a meeting this week to consider a proposition for the erection of a beet sugar factory, which the pro moters say will represent an investment of at least \$600,000.

#### Out For Ferry.

Kalamazoo, Mich., Sept. 17.-The Kalamazoo Telegraph, of which Hon. E. N. Dingley is the editor, has declared for Ferry for United States sen ator. In an editorial taking this stand, the Telegraph compliments Alger, but states that as a matter of expediency the election of Ferry is the part of wisdom. His business qualifications are the chief argument in his favor according to the Telegraph, which closes its editorial with the significant statement that "Men who talk most are apt to have the least influence. Saginaw, Mich., Sept. 17.-Hon. H M. Youmans of Bridgeport is the Democratic candidate for congressional nonors in the Eighth district. He was nominated at a largely attended convention held here yesterday afternoon. The selection of his name was made by a conference committee, composed of representatives of each county in the district, and the committee's report was unanimously indorsed by the convention.

Monroe County Democrats.

Monroe, Mich., Sept. 17.—The Dem ocrats nominated the following ticket at Dundee: Circuit judge, Willis Baldwin, Monroe; sheriff, W. L. Hause Ash; clerk, C. A. Maurer, Monroe; register, L. A. Harschman, Summerfield; treasurer, J. S. Knapp, Ida; prosecuting attorney, John J. Kiley, Mon-roe. Charles B. French of Petersburg was nominated for the legislature.

#### Quarantined For Smallpox.

Grand Rapids, Mich., Sept. 17.-H. McCormick, a traveling man of city, went to the office of Health Officer Lupinski Tuesday to find out what was the matter with him. Upon examination the doctor pronounced it a case of smallpox, and ordered him to the city hospital. McCormick had just returned from a trip on the road and had circulated freely among friends.

Will Not Raise. Ann Arbor, Mich., Sept. 17.-The coal dealers here, after a stormy meet ing, decided not to raise the price-\$7.50 a ton, at which it is now being The rule of only to sell two tons to each customer was also abrogated. It is said there are only 500 tons o hard coal in the city that has not been sold.

Abuse of State Ward Charged.

Kalamazoo, Mich., Sept. 17.-Israel Delano and Roland Hill have been ar rested, charged with statutory assault the victim being Lea, the thirteen-year old daughter of David B. Horton, with whom both men have boarded. The girl was an inmate of the reformatory at Adrian for a couple of years, hav ing returned here in April.

#### Will Increase Capital Stock.

Pontiac, Mich., Sept. 17.-The Bacon Manufacturing Co., which was in corporated for \$15,000 about 1880, is about to increase its capital stock to \$60,000. The firm manufactures the Bacon bean packer, and their business has enjoyed a steady growth. It is un derstood that the firm will erect as up-to-date factory building.

#### Would Not Testify.

Pittsfield, Mass., Sept. 17.-It was announced that the motorman, Euclid Madden, and Conductor Kelly would not testify during the Craig inquest. An opportunity was given the men some days ago to appear on the wit ness stand if they so desired. They were offered the privilege of having their counsel present, who could de cide for them what questions should be answered. It is understood Mayor England's testimony yesterday was about the arrangements made with the representatives of the Pittsfield Car company with reference to the request that cars be stopped during President Roosevelt's visit to the city.

A natural phenomena resembling an aerial meteor was seen by several of our people on Monday morning shortly after 5 o'clock. It passed from south to north and caused a bright reflection. It seemed to be quite large and the shape of a funnel with the small end ahead, and seemed to be a little east of this place. Those living east of here claimed it was west from them. It traveled quite rapidly and seemed to revolve a few times leaving loops in the streak of fire or smoke of its path which at first resembled a loop of blue ribbon and gradually spread and became invisible after about 20 minutes. About five minutes after the illumination there was a very loud sound which sounded at first like an explosion or the report of a cannon and was followed by a rumbling noise like thunder which was accompanied by a hissing noise; this noise seemed to have lasted several minutes and became fainter towards the last. Many people who heard the noise and had not seen the light believed it to be thunder. The meteor is described by some as resembling a large sky rocket and as having ended in a similar explosion.

The new Democratic organization has changed its mind. Two months ago they did not intend to carry the legislature. All they proposed to do was to elect a governor, perhaps a few state officers, a supreme judge and maybe several congressmen. But now they want everything in sight. Why? Because the calamity howlers want the offices.

The Democrat state platform so far as it deals with state issues is spineless, principless and useless. The idea of conducting a campaign ipon "state issues" when there is really and practically nothing at issue, is supremely ridiculous. It is simply a catch cry to hold voters together, and it will be as barren of practical

#### DEMOCRATIC CONVENTION.

The democratic congressional convention for the 8th district convened Dr. D. P. Deming, Health officer, re- in Saginaw last Tuesday and nominated Henry M. Youmans of Bridgeport for Congress. The convention was called to order by Geo. B. Mcbuilt in front of W. A. Commissioner Straube was same good sense in nominating a coninstructed to purchase 300 feet of hose gressional candidate, in which case, he said, there would be a fine chance of electing the entire ticket.

Mayor Wm. B. Baum was named as To the honorable Village Council of the temporary chairman. The democrats, he said, had a fighting chance to elect their congressional candidate. The state convention made a good nomination for governor and the same policy followed by the convention might land its candidate. The mayor referred to the so-called ripperism, and was sure voters would reprimand the legislature. He also believed voters were disgusted with machine politics. The man with the purse, he claimed, does what he pleases, and instead of being the servants are masters of the people. This, the mayor insisted, was a bad state of affairs, which could only be rectified by electing a democratic congressman.

M. L. Lanpheare of Tascola was made temporary secretary. After the usual committees had been appointed Mr. Youmans moved that a committee of two be appointed from each county to confer as to the best candidate for congress. The motion was carried. After much delay this committee reported that they had selected Henry M. Youmans to be the congressional standard bearer. The convention went through the motion and ratified the committee's selection.

CHAPTER XX.

think of and some difficult ward to the unforeseen turn ous reappearance of my lady.

How would I break the news to my laird? It would of a verity be a startling thing to say to my master: "The dead has come to life! The grave has

My master had brooded long, and his mind was set upon one sore subject, had dwelt for long months, a man holdand which did also, I thought, account for his night wanderings thereafter.

The more I thought over these mat ters the greater thought I had that such a revelation as this resurrection from the dead, as it were, would be to my master a thing most serious in its direct effects and consequences. I remembered well what Dr. Smille had said to me after we had nursed him back from death's door. Had he not said to me that his mind might not suffer another shock? Following the doctor's caution, I had ever maintained a studied silence touching my lady, and now here was my lady knocking, so to speak, at our door and crying to my laird.

After much thinking on this theme at last I came to the conclusion that in the startling revelation I had in store lay my master's fate, either fair or foul, and as the responsibility of it was greater than I could cope with it would be wisdom in me to keep silence and seek at once the advice of Dr. Smilie, whose skill and circumspection would direct me in such a delicate

That being the conclusion I arrived at, another question pressed itself upon me touching the meeting of my lady with her wee Marion. My heart had an eloquent tongue in the consideration of this question, and, while misgivings and doubts were in my mind, yet the appeal of a mother to see her child was like to cry down all the reason and circumspection I had.

It was little sleep I got that night, and early I was abroad, with a new load of responsibility upon me. When I could get the ear of the wee lass, I told her in a way fitted to her understanding the story of her mother's return, but first I had soberly entoined upon her a most sacred promise that she would keep faith with me and never lisp a word of the secret I had

till such time as I gave her leave. Let it suffice for me to say that a firm promise of secrecy and obedience, and that same hour I slipped off with Marion and saw her ere long in her mother's arms, smoothing her mother's cheek with her little hands and fondling her with childish caresses in such a touching and sweet affection that I could not be a witness of it, but must e'en turn my back and give way to the tender feeling that overmastered

With a promise to bring Marion on the morrow, again and again giving my lady the explanation that I feared to be too sudden in breaking the news to my master, but would do my utmost for the good and comfort of all, I took my leave, and back to Glenhaugh 1 went with Marion, spending the most of my time on the read in counseling and cautioning her to betray no part of the secret of her mother's return by word or act or look until such time as I told her would be proper and placing before her the jeopardy in which her father stood should the matter be brought to him without my knowledge and consent.

How truly she realized the impor tance of my commands I cannot say, for she was but a child of seven; but. indeed, she gave me a promise to obey me in all I asked, and chatted with the sweetest words of the joys to come when her father and mother would be

When I had left her safe at Glenhaugh, the first thing I did was to saddle a horse and post to Abbeyfont town, where I sought Dr. Smille and laid the whole matter before him. He listened with great interest to all I had to tell, and when I had done gave me a very prompt opinion that was in keeping with my fears, urging me to keep the matter from my master till such time had elapsed in which his mind would be prepared to receive such a startling surprise, and even then he feared consequences most serious and disastrous.

So it was that homeward I started my mind harassed with misgivings of a woeful end to the whole affair if the most circumspect means were not used and great judgment and delicacy exercised in bringing these two together.

When I had got back from Abbevfont, the first person I met was Esther Ricalton, and when I asked her where my master was she told me he was off with Marion.

There was naught uncommon in that.

but the information gave me a new anxiety, for now I feared the compan-U may be sure I had much to ionship of these two might be the very means of bringing upon my master the problems to solve looking for- evils that Dr. Smile had predicted should my master suffer at this time affairs would now take in the marvel any severe or sudden shock to his mind.

I knew Marion to be a shrewd child, and I had solemnly charged her to speak no word to the laird of what she had learned. I knew her love for her given up the body of her you sent to father to be both deep and solicitous beyond the common in children of her years, and I had a great faith in her promise of secrecy, for she was ever a and that was the death of my lady. He lass both earnest and truthful, but still, notwithstanding all these assuring communion with the spirit of the ances, my mind was ill at ease, for I dead. Had he not gone so far as to feared that the art of dissembling in a aver that the spiritual essence had a matter of such essential interest to voice that spoke to the sensual ear-a, both father and child was not like to matter which I would now account for be maintained under the pressure of in the declaration made by my lady circumstances and that Marion, for all that she had called to him in the glen her childish promises, might readily tell her father all in her childish affection and confidence.

When I asked Esther what road the

pair had taken, she said: "I'm thinking it was the Pinlawn way they went, and 'deed I'd no' wonder if it was up the glen to auld Tibbie Jamieson's, for no' an hour syne it was she, the auld witch, that was wandering about Glenhaugh and telling some lang story to the lass Marion, and hardly had she gone hirpling aff when the laird and Marion just took

the road thegether.' When I had heard this, I had a great misgiving, and no other thing was in my mind but a thought to follow them and, if need be, come up with them and forestall whatever might tend to let my lady's secret come to my master.

Off I started, then, and I had Tibbie's cot in my mind, and when I had got to the glen foot, where it met the Abbeyfont road, there who should I meet but Tibbie resting at the side of the road.

"Hae ye set een on the laird travel ing this gate?" I asked.

She blinked at me, mumping with her toothless gums, and, getting to her feet, leaned on her staff, while her palsied body shook.

"Ave." said she. "I hae seen him, but 'deed ve'll no' find him this road." "And what road will I find him?" 1

asked. "On the road to Abbeyfont," she said, pointing her trembling staff back

toward Glenhaugh. "Ye're telling me lees," said I, "ye auld besom," and I knew she was deceiving me; but though she brough down a curse upon me and reasserted her words with vehemence. I paid no more heed to her, but began to ascend the path to the glen that I knew would

take me to the cottage. When I had come in sight of the thatched roof and could get a peep at the cot among the trees, there I saw child in another moment with a dazed heavy laden with the pains and sormy master and Marion, hand in hand not three paces from the door.

I could have fallen where I stood for all my fears were realized, and my master was on the brink of a precipice, and I was powerless to help him I was on the point of calling aloud to him in my desperation, with a vague thought that I might lure him away without arousing his shrewd suspfcions, but the next moment he and Marion had entered, and I hastened or with a throbbing heart and came to the door, still open and unlatched, and, never pausing, in I went.

As I stepped over the threshold, closing the door behind me, I heard my master's voice speaking, "And what errand had ye in bringing yer faither to auld Tibbie's cot, Marion, my lass?"

"Ye'll no' guess," said she, with child-

ish glee and a merry laugh. "'Deed, no'," said he in a kindly humor, and as he said it he turned toward me with a smile on his face, for he had heard the click of the latch as the door swung to behind me.

"I' faith," he went on, nodding toward me, "there's my guid Gillicuddy

and I'll get an answer frae him when he gets his breath back again."

She turned to me, surprised at my entrance, and gave me a shy glance. being a bit abashed at being found breaking her faith with me, and, seeing me knit my brows with the displeasure I felt at the disobedience she had been guilty of, she ran over to me and, putting her arms about me, whis-

"Dinna be angry wi' me, my Gillicuddy. It was she that made me bring him here."

"She!" said I. "What she mean ye?" "Auld Tibbie," she answered. "Dinna be angry wi' me." Then she laid her finger on her lips and, shaking her head at me, ran back to her father before I could speak and, taking the

laird's hands in hers, looked back at me, crying with a child's playfulness: "Noo, guid Gillicuddy; dinna tell;

dinna tell him a word." The laird, with a smile on his face, looked at me, and little he thought but that the whole matter was a simple bit of childish sport. My mind was ill at rest, yet I fain would have made a light matter of it, if such a thing could have been. But a dreadful misgiving was upon me, and I spoke out as I thought.

"Ah, my laird," I said solemnly, "1 canna tell, but I would to God ye hadna wandered to this door, and, oh, Marion, lass, I fear ye hae done a foolish and a wrang thing this day!"

Up spoke my master: "Hoots, man: hoots! Dinna be ower crusty wi' the bairn, Gillicuddy; it's but some lassie's prank. I fear baith you and I, Gillicuddy, are but sorry playfellows for the bairn. What recks it to gie the wean a bit sport wi' me?"

I felt such a fear upon me that I dared not trust my lips to make answer, so I spoke no word, but walked over to the stool beside the fireplace and sat down and looked at the floor.

As I sat I trembled with a great fear upon me, wondering what destiny had in store for us in this awful hour, for there stood my master not a pace distant from the half open door behind which was the wife he had lost and whom he believed dead-aye, killed with his own hand. Sitting there, the suspense which I felt was like to destroy my reason, and it was in my mind to drop on my knees and cry to God for mercy upon us. My master never heeded me, but stood with his face partly turned to the door of the inner room and looking down upon his wee lass, who held him by both hands and was smiling up in his face.

"And could ye never mak' a guess?" she was asking, swinging at my master's arms.

"I was never guid at riddles," said he, smiling down upon her.
"They say auld Tibble is a witch,"

the child went on. "Ah," said he, "ye rogue, is it a spell

o' her witchcraft ye wad pit on yer faither here?" "Stoop doon," she said, "and let me

whisper to ye. But just answer me this first: What wad ye think if Tibbie could bring my ain lost mither back to Glenhaugh?

At that my heart gave a thump and seemed to stop its beating. I looked at the laird, and, oh, such a start he made and raised his arms with a startled gesture, as though a thrill of exquisite pain had passed over him. I saw his face flush and then in an instant turn pale, like death, and an expression of the most terrible anguish was written on his features. He turned toward the and puzzled face, as if he doubted he he sighed, and like a groan of piteous despair it sounded, and, lifting his hand wearily, he passed it over his brow as though he would brush away some painful thought that lay heavy on his mind.

After a dreadful pause he spoke, and his face was rigid and pale, like cold marble, and his words were unspeakably gentle and solemn, and he seemed rather to speak to himself than to the

"And what was that ye said, Marion? Did ye speak o' yer mither? My God, lass, ye maunna speak o' her! Her name is a sacred name, and, oh, but she has suffered sair, sair wrang! Wad that she were back again that this weary, weary heart o' mine micht fa' at her feet and tell her o' a' its love and cry for pardon and for peace! But, oh, that canna be! She can ne'er come back again. The grave holds her fast, and her sweet spirit has ta'en its flight to the company o' angels, and there it waits and ca's me."

As he spoke he lifted his eyes as if looking far away beyond the sphere of earth, and I saw his lips quiver with the most piteous emotion, so that my eves filled with tears and the pain of my sorrow for him was past all utterance of words.

Still standing before him, with a childish awe at the sadness of his words and the solemnity of his bearing, the wee lass listened to him with a sober, intent face, but soon a pleased saved lives on the one hand and made smile lighted her features as her inno- victims on the other are a part of hucent young heart throbbed with the man history. sweet secret it held for him. I saw which would be the very secret of des in a change to imprisonment for life. tiny to him.

At that moment as I bent forward, like the voice of an unseen spirit wailing in our midst.

"My husband, oh, my husband!" were the words I heard, and, ah, but there innocence of the crime charged to him. was the language of a sore, weary heart in the cry, and there was the speech of a tender love and the ecstasy of a soul exultant passion of devotion, intense and sweet, in it.

opened from within, and there before tury had suffered for another. Rutter cago News,

the eves of my master was my lady standing in the flesh before him, her face like alabaster, her eyes large and lustrous, a beautiful apparition of saintlike loveliness made spiritual by the touch of overwhelming sorrow and newborn joy.

Reaching forth her arms to her husband and pleading in silence with a tender yearning of love, I saw her smile upon him, and it was as if I had looked upon the face of one of God's own seraphim radiant with the light

of heaven's beauty and grace. I looked to my master, and in a moment I was at his side, and to my dying day never can I shut out the mem-

ory of what I saw. Ah, but his face was a thing to remember, for in it I saw the very reflection of his heart and soul. There was amazement, terror, pity, love, joy, flashed upon his face in a moment, and it was but for a moment, for the next instant he raised his hands outstretched above him and then clasped them to his head, crying:

"My God, it is my wife! Oh, forgive me for the wrong I did ye!"

For a moment longer he stood wavering, with his hands clasped to his head and his eyes fastened intently on the face before him, and then, with a cry that died away in a tremulous moan, unutterably plaintive, he fell upon his knees at my lady's feet, with his arms about her, trembling and mouning like a child that in trouble finds a mother's soothing breast.

Then it was I knew that peace had come to him for with his tears there came the breaking up of that long spell of grief in which his soul had been held in bondage. Softening and healing were his tears, and in them I knew that all fears for his reason were washed away.

As he knelt in an agony of mingled grief and rapture I saw my lady bend overshim fondly and tenderly, and I saw her white hands resting upon him. I saw my master arise and fold her in his arms, looking with enraptured gaze into the lovely face that lay pressing close to his heart, and then I could hold back my feelings no longer, but sobbed aloud, letting the tears fall unchecked as I turned away. It was then that Marion came to me, and I put out my arms and drew her close to me, and she laid her head upon my shoulder, and the twain of us wept to-

Little need have I to relate those things which may be guessed or to dwell longer upon those matters through which, in the inscrutable providence of God, ever mysterious to all of his creatures, came blessing and peace out of sorrow and sin.

I have told the story of my laird as far as I have had the skill to tell it, and if the manner of it and the method of it are not like to win honor for me there is still one merit I may yet claim, and that is the merit of sincerity, for I have written with a tender love in my heart for my master, and I have suffered again in these pages all that I suffered long years since when I helped to bear his burdens.

As I have dwelt over all the events of that long gone time many a tear have I dropped over these pages, and as I close them my heart is still sad with the memory of them and in its sadness is softened with compassionate tenderness to all men, and so I may say that if the heart be touched with the suffering of one it may the likelier learn a wider and deeper sympathy for all of God's creatures who are weary and rows of the heart.

THE END.

Symbols of the Thunderbolt. The different nations of the world, both ancient and modern, have employed various symbols to represent the fires that flash from the thundercloud. The Chaldean symbolized it with a trident; the learned Babylonians used a human arm for the same purpose. The bas-reliefs of Nimrod and Malthia, the work of later and more refined Assyrian artists, show the trident doubled or transformed into a trifid fascicle. This triumph of the classic art secured for the ancient Mesopotamian symbol the advantage over all other representations of the thunderbolt.

The Greeks represented the storm fire with the features of a bird of prey. Later on, when they had begun the use of the Asiatic form of the symbol, they put it in the claws of an eagle and made it the scepter of Zeus. Gaul received the symbol from Italy, but soon altered it to the familiar two headed hammer seen on the Gallo-Roman monuments. The same symbol is seen on amulets found in Germany, Scandinavia and Brittany.

Not one but many lives were saved at Savannah, Ga., some years ago when the man who beat cymbals in the orchestra of Haverly's minstrels jump ed before the footlights and told a ready lie in all earnestness and com posure.

The fire was in the wings, and the whole company had rushed from the stage. Smoke had not invaded the auditorium, however, and the cymbal player, seeing what would happen with the rush of the minstrels, jumped to the stage and clanged his cymbals for attention.

"There is a fire across the street," he said clearly and calmly, "but it would be well enough for us to leave the theater. Will those at the back pass out first? There is plenty of time.'

But even as he spoke he could feel the rush of hot air in his face, and ten seconds later a dash of flame and smoke swept on to the stage. However, all the exits were open by that time, and the spectators, reassured by the liar's composure, were filing out with such a semblance of order that no one was injured.

One wild night in October, 1894, the fishing smack Highland Mary was running before a gale such as seldom thunders against the Welsh coast, even with the Irish sea white with fury. Skipper McEwan, with set teeth, had lost hope and, grim and silent, was holding to the shattered rigging as the boat floundered shoreward. Near him his son, Hugh, clung to a battered rail, and the one hand, named McAllister. also had made himself secure. Mc-Allister and the skipper each had a life belt. In the dark the father called to the son: "You've got a belt, Hughle?"

"Oh, aye," replied the lad cheerily. "We can't last another five minutes lads," said the skipper. "Look out for yourselves, lads, and God be wi' you.' Then a great wave rose under them.

nging the smack upon the reefs three men headed for the rocks. Aided by the belt, the skipper landed first. followed in a moment by McAllister. But it was daylight when the body of Hugh McEwan came ashore, and it had no belt round it.

At the funeral of Falateux, the famous French lawyer so well known as the bitter enemy of the republic, the quick wit of a French enthusiast saved his life.

The funeral was held last summer. and in the height of it a French republican who was so thoroughly out of harmony with it all jumped upon a platform and shouted in French: "Long live Loubet!"

In a moment a dash was made for the speaker. He was seized, dragged down from his stand, and just as his captors were preparing to strike he burst into a ringing laugh, so natural and infectious that his assailants stopped in astonishment.

"Who are you?" some one demanded. "I am Vigneux, the hatter from Blanc street," he said.

Oddly enough, the day was the anniversity of the bonneting of President Loubet at the Auteuil race track. At that demonstration a riot had crushed so many hats that the crowd caught at the offender's story, and, remembering how good the riots had been for trade, he was released at once.-Chicago Tribune.

## MARK FORRINTOOK **CHLOROFORM**

After Drinking Heavily For Several Days He Takes The Fatal Dose and Dies.

# **CORONER MORRIS**

Thinks the Victim Burdened With Trouble and Pain Committed Suicide.

**MAKES INVESTIGATION** 

On Wednesday afternoon our village was startled when it was an nounced that Mark Forrin, a well known carpenter in our midst had committed suicide by taking chloroform. During the past summer up to last week Thursday, Mr. Forrin had been working for T. H. Ahr. On Thursday evening he informed Mr. Ahr that he had to go home as business made it necessary for him to go o Caro the following day. Mr. Ahr paid him his wages and Forrin left for Cass City but did not arrive here

intil Friday morning. He immediately commenced to fill up on whiskey. On Saturday he went to Caro, accompanied by his wife, for the purpose of bringing home his thirteen year old daughter, Alma, who had left home a few weeks ago. It seems the girl refused to come back with them and this greatly angered the father, and he continued to imbibe freely up to the time when he took the fatal dose Wednesday afternoon. About noon on the above day he came to Fritz's drug store and asked for chloroform. He was asked what he wanted to do with the drug and answered by saying that he had pains in his head and stomach and thought chloroform would ease the pain. The druggist told him that the drug was poisonous and should not be used internally. Mr. Forrin then said he would rub it on his stomach and try and get relief that way.

As near as can be learned, Forrin went home immediately and took about one-half ounce of the poison. As soon as his wife and daughter discovered what he had done, they helped him to a couch in the dining room expecting that he would recover from the effects of the drug in a short time. Although he vomited he gradually kept growing worse and about two o'clock his wife became frightened and sent for Dr. Treadgold. When the doctor arrived the patient was in an unconscious condition. After two he kept growing worse and the follow- years and was highly respected by all
