SUCCESS NO. 4.

Such is This Year's Tuscola, Huron
and Sanilac Fair.

The Attendance Large, the Races and Exhib-
its Good and the Weather Quite Aus-
picious.

The managers of the Tuscola, Huron
and Sanilac Fair Association in closing
up the business for this year can con-
sistently pigeon-hole the fourth an-
nual and label it "Success No. 4."

The weather the fore part of the
week was well calculated to bring dis-
couragement to the management of the
Fair, but that the weather clerk is on
our side is now beyond question.

Both on Thursday and Friday fore-
noons the prospects for pleasant weath-
er were exceedingly doubtful, but by
noon a happy combination of sun and
wind dried the grounds and rendered
the conditions for out-door enjoyment
more pleasant than they would other-
wise have been.

The attendance throughout the Fair
was large, and all seemed to enjoy
themselves very much.

The display in Floral Hall and Agri-
cultural Hall far surpassed last year.
The display in the latter hall, particu-
larly, was surprisingly good, as the
past season has been anything but fa-
vorable for farm products.

The exhibit of horses was fine and
large--probably ahead of last year--
but the showing of cattle, sheep and
swine was not as complete as on former
occasions. Their deficiency is attrib-
utable to the severe drought of the
past few months drying up the pastur-
age and rendering it impossible for
farmers to get their stock in good con-
dition.

The exhibit of poultry was excellent,
being larger and more various than a
year ago.

The races, which are reported in full
elsewhere in this issue, were, with few
exceptions, closely contested, although
the entries were hardly as large as ex-
pected. Every race was filled, how-
ever, and carried out according to pro-
gram.

Nothing occurred to mar the pleas-
antness of the occasion, and, we be-
lieve, all went home in good spirits,
and feeling that their time had been
pleasantly and profitably spent.

The officers and directors, who have
been so untiring in their efforts to
make the fair a success, can well say
that they have scored another victory.

WEDNESDAY'S RACES.

The weather on this, the first day of
the races, was perfect, and the track
was very fast. The first race called
was the Farmers' Race. In this there
were seven entries. Only two heats
were necessary to decide the race, Wm.
G. reaching the wire first time though
hard pushed by Peat. Fast time was
made for this race. Summary:

FARMERS' RACE--\$30.

Wm. G. Wm. Gunn	1 1 1
Peat, L. Hile, Watrousville	2 2 2
Almont Lebo, H. Sheldon	3 3 3
Surprise, J. Sutherland	4 4 4
Lady B. D. Freeman, Rescue	5 5 5
Jumbo, Wm. Blair, Greenleaf	6 6 6
Fanny G. Jacob Greenleaf	7 7 7
Time--1:29, 1:30.	

TWO-YEAR-OLD--\$50.

The second race called was the Two-
Year-Old. In this there were three
entries, viz: Atlantic, Wm. Morris,
Gagetown; Maggie F., D. Freeman,
Rescue; Directivo, M. E. Hess, Bay
City. The colts started at the third
score with Directivo directing the way.
He won this heat with Maggie an easy
second. Before the second heat,
Maggie's driver was instructed to drive
faster, or as the judges said "a half
better than two minutes." Consider-
able time was occupied in attending to
the numerous protests that were made,
but no horses were drawn on that ac-
count as all the protests were answered
and the required deposit of five dollars
made. The drivers were not backward
in taking their oath that their animals
were eligible. The second heat of the
two-year-old race resulted the same as
the first, which ended the race.

It was an easy victory for Directivo,
whose driver held the ribbons with one
hand most of the way. Summary:

Directivo	1 1 1
Maggie F.	2 2 2
Atlantic	3 3 3
Time--1:50, 1:31.	

GREEN RACE--\$30.

From this race, after considerable

protesting, three horses were barred,
which reduced the number of starters
to five. The horses were given the
word at the third score. This heat was
a good race between Decider and Sirock-
well, Major Alenon and Rollie D., to
the home stretch when Jumbo, the big
plow horse, strode by Rollie D., while
his driver plied the binder. After this
heat Jumbo was sent to the barn for
foul driving. Two more heats were
necessary to finish the race. Summary:

GREEN RACE--\$30.	
Lady Decider, J. Sutherland	1 1 1
Sirockwell, John March, Rescue	2 2 2
Major Alenon, Thos. Nichol, Wick- ware	3 3 3
Rollie D., W. H. Farr, Pt. Huron	4 4 4
Jumbo, Wm. Blair, Greenleaf	5 5 5
Time--3:10, 3:05, 3:04.	

THURSDAY'S RACES.

The weather on this day was quite
threatening, but aside from a light
shower early in the forenoon the day
was quite pleasant.

The three events on this day were
the 2:30, 3:00 and the Three-Year-Old
races.

The 2:30 race was called first. In
this there were four entries, viz, Carl
G. John Gunn; Barney C. A. Frutchey,
Cass City; Mascott, M. Bean, Port
Huron; Dr. Hardwood, J. C. Willis,
Imlay City. The racers were let off at
the first score with Mascott in the air
after leaving the wire. Carl G. led to
home stretch the first time around, but
he and Mascott passed the half neck-
to-neck. The horses then strung out
somewhat with Mascott at the head of
the procession, but Barney C. soon
closed up on the leader, and succeeded
in reaching the wire half a neck ahead.
Carl G. was a pretty good third and Dr.
Hardwood a tardy fourth. A splendid
start was made the second heat and
the go was given at the first score. At
the first turn the sulky wheels of
Carl G. and the Doctor looked but got
apart without damage. Barney led in
this heat, with Mascott pushing hard.
At the quarter pole Mascott went in
the clouds, and Carl G. traveled by
him. He was not long, however, in re-
turning to earthly things, and at the
half had regained his old position next
to Barney. This order of things was
maintained until the finish of the heat,
Barney reaching home slightly ahead.
The third heat was started at the third
score with Barney showing the way.
The audience were really treated to
two races in this heat. Barney and
Mascott drove like a team as did Carl
G. and the Doctor. This heat was a
finished as before. This ended the race
which was a beautiful one between the
two leaders. Summary:

Barney C.	1 1 1
Mascott	2 2 2
Carl G.	3 3 3
Dr. Hardwood	4 4 4
Time--2:30, 2:34, 2:34.	

The 3:00 race was called and five
horses appeared before the wire, viz,
Almont, J. S. Little, Elmer City; Mys-
tic, W. H. Farr, Pt. Huron; Twilight-
Reigndeer, J. M. Smith, Vassar; Bud-
wiser, J. C. Willis, Imlay City; Alton,
W. A. Calbac, Caro. The driver of
Budwiser announced his horse as "out
of sorts," but did not ask to withdraw.
The scores numbered four before a
start was given. Alton was in a hurry
and took the lead, with Mystic a good
follower. Alton turned his mile first,
Mystic second, Twilight-Reigndeer
third, Budwiser fourth and Almont
chewed the dust. In the second heat
Mystic felt spry and led to the quarter,
when Alton contradicted him and
passed by. Budwiser got on his ear
this heat, passed Mystic and caught
Alton's scalp, but the Caro horse was
too fast and reached the wire first.
The Reigndeer and Almont still held
their own. The racers left the judges'
stand at the fourth score in the third
and last heat. Alton led to the quarter
hard pressed by Budwiser and Mystic.
Twilight and Almont were good trailers.
In finishing this heat Alton arrived
first with Mystic and Budwiser close
behind and their drivers feeding long
oats. Summary:

Alton	1 1 1
Budwiser	2 2 2
Mystic	3 3 3
Twilight-Reigndeer	4 4 4
Almont	5 5 5
Time--2:45, 2:35, 2:36.	

THREE-YEAR-OLD--\$75.

The three-year-old race, the third on
Thursday's program was called at
4:30 o'clock. The colts were anxious to
be off, in fact so anxious that they came
in strings to the wire, and Starter
Leonard could not let them go until
they had scored five times. The first
heat proved to be a good race between
Directivo and Lady Decider, the former
moving the faster. The others were
somewhat strung out but went along
in good time. In this heat Colored
Boy was set back for foul driving. The
other heat terminated nearly the same.
Summary:

Directivo	1 1 1
Maggie F.	2 2 2
Atlantic	3 3 3
Time--1:50, 1:31.

OUR MOTTO:

PLUCK, PERSEVERANCE AND PATRIOTISM.

French Leaders.

In France it is the custom to have elections on Sunday, so as to save time for the workman. The custom would break up this republic speedily if an attempt were made to introduce it here. Sunday or no Sunday, however, the French republic has been placed by the recent August parliamentary elections on a firmer basis than any republic in France ever was before. Royalism is dead, imperialism is dead, forever, and there are not enough mourners left for either to give them a funeral. The imperialists only elected three members.

The principal parties in the coming chamber of deputies will be three—Moderate Republicans, Radical Republicans and Socialists. With the Moderate Republicans will act a large number of so called "Rallied Conservatives," original royalists who have given up the error of their ways and accepted the republic because a majority of their fellow countrymen pronounce for it. That they have done this must be attributed to no small measure to the influence of brave Pope Leo.

The Moderate Republican party will have an overwhelming majority. Under its wing will gather all the former factions of Republicans except the Radicals. Its leader will be Constans—"white haired and leonine Constans," a picturesque writer calls him. He is the most powerful and determined public man in the Moderate Republican party, but not so popular as the polished, politic and even tempered President Carnot. Constans was minister of the interior under President Grevy. He is the one rival for the presidency that Carnot has to fear. If Carnot should be elected president for another six years, with Constans for his prime minister, the triumphant success of the French republic at home and abroad would be assured. The other leaders under Constans of the Moderate Republicans will be the ex-cabinet ministers De Freycinet, Rouvier, Ribot and Leon Say. Say is of Jewish descent. Ribot, as minister of foreign affairs, conducted the interchange of communication with the pope, which resulted in bringing the Catholic royalists to the support of the republic.

The leader of the Radical Republicans is of course Clemenceau, fearless, fighting Clemenceau, who by mere force of his personality beat down the enemies that howled forth to the world his compromising connection with Dr. Herz of Panama scandal notoriety. With Clemenceau in the Radical party are Goblet and Floquet. In case of Goblet, Floquet and Clemenceau, all three, reballets are necessary to make them secure of election.

The Radical Republicans, as they call themselves, are more socialistic in their ideas than the Moderate Republicans, and the three leaders, Clemenceau, Floquet and Goblet, are endeavoring to entice to their support the votes of the and out Socialist party, whose chief

strength lies in the manufacturing cities and mining districts of France. The small farmers are almost to a man with the Moderate Republicans.

One fact which shows the utter deadness of imperialism is that the Bonapartist braggadocio, Paul de Cassagnac, who has represented one district in the chamber since 1876, failed of election on the first ballot. As to the Panama scandal, except in the memory of the poor peasants who lost their money, it is a hollow phantom—nothing more. It seemed to have even a contrary influence in the elections. Delahaye, who made the accusation in the chamber of deputies, is beaten. So has fallen dead the last great bomb of the enemies of France, the republic.

The greatest speed on record attained by a projectile was that made by a shell from the Brown segmental wire gun at Sandy Hook recently. Twenty pounds of smokeless powder sent an elongated projectile weighing 60 pounds from the mouth of the wire gun at a velocity, when first fired, of 2,865 feet per second. If the rate did not diminish, the projectile would thus travel more than a mile in two seconds.

Imagine how galling it is to the New York newspapers that have been scoffing at the financial ideas of the wild, weird west to have two carloads of potatoes and two carloads of flour sent from a silver state to feed the hungry of New York city. The wild, weird west has sweet revenge.

Over twelve years I was afflicted with a very serious female difficulty and for the last sixteen months was under treatment of the very best physicians that money could employ. Under their skillful treatment I gradually grew worse until they decided they could render me no permanent help. One of my friends persuaded me to try a bottle of Dullam's Great German Uterine Tonic, and after taking three bottles, can say I am in better health than I have been for twenty years and am now sixty years old, but feel as young as at thirty.—\$1 a bottle. June 2, 1890. Mrs. Thos. Tandy, Flint Mich.

For sale by T. H. Fritz.

Most grown persons in America are familiar with the fact that there was a premium on gold during the war and for 13 years after. Many also remember when there was a premium on silver, but when in the experience of people was ever a premium on paper money in America before the month of August, 1893?

Ex-President Harrison continues to desire the public to understand that he has no cousin named William Harrison or anything else in the poorhouse at Denver or in any other poorhouse.

Few people realize that the nervous system has more to do with health of the body than the stomach, liver and all the organs of the body which are so much doctored. They forget that the nerves reach and control all parts of the body. Hence many cases are misunderstood and wrongly treated. Dr. Wheeler's Nerve Vitalizer is a nerve remedy of recent discovery by an eminent specialist, which acts directly and correctly on the nervous system to cure any nerve disorder. Is backed with an offer of \$50 for an incurable case. \$1.00 bottles or trial samples free at

A Contractor Advice. Messrs. Dullam Bros.—Gentlemen:—I take great pleasure in testifying in behalf of Dullam's Great German Blood Liver, Stomach, and Kidney cure. I can say that I never took such medicine as that to cleanse the liver, stomach, and kidneys. I was suffering for years with biliousness, indigestion, and loss appetite and sleep. One bottle did me more good than six months' other treatment and feel it my duty to testify in its behalf, so others may try it and get cured. Yours truly, Warren E. Russell, contractor and builder. Flint Mich. Sold by T. H. Fritz.

Many do know and all should know the merits of Brant's Balsam for Coughs, Colds, Asthma, all Throat and Lung troubles, and all kinds of Bronchitis. The cost of knowing its value is so slight, (large 25 and 50 cent bottles), you will be wise to test it, for its prompt use may save spasmodic or Membranous Croup, which need quick attention or the child may die. It relaxes the contracted muscles or loosens the false membrane, causing the child to throw it off, giving quick relief. Sold by T. H. Fritz.

Another American Poet.

A small volume of poems, called "The Flaming Meteor," recently published, stamps its author, Will Hubbard-Kernan, as a poet of rare genius. One writer has likened him to Edgar Allan Poe, whom perhaps he most resembles in the type of his poetic inspiration and somewhat in character as well. Mr. Kernan's book is fitly named, for it is all fire and flame and passion. Some of the strange themes that inspire his muse are classified under headings like the following: "Poems of Pessimism," "Melodies of Misogamy," "Poems of Passing Moods" and "Agnostic Arguments." From these headings can be gathered the thoughts that occupy the poet's mind. He is not a hater of women apparently, but he seems to have somehow an unquenchable spite against matrimony. He blames it with bringing untold evils upon the world. He writes:

The King Curse of curses that walk through the world:
Is wedlock!

In this collection we find "Kenneth, My King" an exquisite piece of verse that drifted through the newspapers several years ago. A poem of weird, terrible intensity is entitled "In the Jungle." It begins:

Tiger! tiger, in thy lair,
Thou hast torn his limbs apart;
Oh, the white bones lying there!
Oh, the red half eaten heart!
Oh, the yellow locks beside thee
That I often kissed and curled—
Yet no hell fire will betide thee
In the waste beyond the world.

In some of his verses Mr. Kernan shows a power and fire not excelled by any living poet who writes in the English language on either side of the water, and as time goes on this will become more and more manifest to the public. A passionate love of liberty, a mournful consciousness that things are out of joint both with the world and himself, are the motive of many of the poems, but at times the writer bursts into a grand swinging march of music that fills all the air and inspires the soul. Some of the poems of this sort would make admirable elocutionary recitations. Such a rhythmic melody is "Progress of the Peoples," from which we extract a few stanzas:

Upward, upward press the peoples to that pure, exalted plane,
Where no throne shall cast a shadow and no slave shall wear a chain.

They have trampled on the fagots, on the crucifix and wheel,
Banished block and thong and hemlock and the headsman's bloody steel.

They are lighting lamps of freedom on a million altars,
With torches they have kindled at the blaze of burning thrones.

And this light will sweep and circle to the very ends of earth,
Touching with immortal beauty every heart and every hearth.

What Constitutes a Journalist?

In an address not long since an English editor gave it as his opinion that the real test of a good journalist was the extent to which he was interested in reading newspapers. A man who desired to be a journalist should be universal in his desire for knowledge. Further, the purposes of the modern newspaper would best be served if the young man should fit himself for duty in one particular branch or department of journalism and then learn all he could about all the other departments.

The editor was right in both suggestions. The person who is fit to be a journalist will toil enthusiastically to lay up a great store of knowledge on all subjects. Then he will gradually single out one or two departments in which he will make himself an expert, for specialization is the order of the day in journalism as elsewhere. The journalist cannot possibly know too much.

One other suggestion the British editor should have added. It is that nobody is fit to be a journalist unless he can write so clearly that he can make the most abstruse subject plain to the understanding of the average laborer. That may be said to be another test of a good journalist.

The sunlight and skies of America, where they have not been dimmed by soft coal smoke, are the clearest and brightest on the globe. Professor E. E. Barnard of Lick observatory, California, says so. He has been making the tour of the great observatories of the world. In Italy, where he expected to find "perfection in atmosphere," Schiaparelli told him there was great difficulty in taking observations on account of the hazy air. Talk no more of Italian skies and sunsets.

Suspend silver coinage altogether for the present and make gold even harder to get than it is now, and thus squeeze other nations into adopting the double standard, is the advice some of the bi-metalists in congress give after thinking about the question carefully.

"Spiritualistic phenomena are not extraneous," remarks a learned writer. "When perspicuously elucidated, they will be found to fit in nature like the component and homogeneous molecules of an apple." So glad to know it!

A western paper casts confusion upon one of its enemies in the following vigorous language, "A billygoat's knowledge of astronomy is scientific and accurate compared with Blank's knowledge of the national banking system."

The silver scare has invaded Russia. After Sept. 13 no foreign silver coins are to be allowed to enter the empire. The United States is frightening European nations by the talk that she may drop silver anyhow.

Twenty-three Years a Republic.

Sept. 4, 1870, imperialism failed France in her hour of direst need, and she shook its imbecile remnants off and proclaimed herself a republic. The fact that France's twenty-third anniversary as a republic falls on our own Labor day this year should make that day in America doubly cheering and interesting, especially to American citizens of French birth.

It will be a day doubly cheering and interesting to the patriots of France With hearts swelling with thankfulness they may well sing triumphant republican psalms, for their country has escaped this year from the deadliest peril that has menaced her since German cannon boomed around the very walls of the beautiful city. The republic of France has survived Boulangerism and destroyed it. She has survived and destroyed monarchy, imperialism, and finally the most grievous danger of all, the Panama scandal, which has shaken her to the center, yet not overthrown her.

One of the leaders of the Radical Republican party today, Charles Floquet, is the man who first raised the cry of the republic 23 years ago and kindled the flame that burned down forever the throne of kings in France. He has stood by the republic ever since, and France has stood by him even through the blackness of the Panama accusations. France has been purified as by fire, and her public men have learned their lesson. It will not need to be repeated.

America stretches out her hand in loving greeting to her beautiful sister of France, but bids her not to be too hot tempered and aggressive in dealing with other nations, especially those weaker than herself.

According to reports, there are now more than 50 abandoned vessels floating wild and stray over the great lines of ocean travel in the Atlantic. At any time they might come in collision with a sailing vessel or passenger steamer and send it to the bottom of the sea. Thus it may have been that the Naronic was lost, by having one of the derelicts drive down upon her in a storm. The commercial nations of Europe and our own government should mutually take in hand the task of finding these half sunken wrecks and destroying them. Sometimes they ride so low in the water as scarcely to be discernible. The Philadelphia Telegraph suggests that this would be a fitting service for our navy in the present time of peace to "sink, burn and blow up the floating hulks before the stormy season sets in."

At last, it has really been found, according to a patent office chemist—the method of extracting aluminum cheaply and thoroughly from its native clay. The man who invented the new process lives in Duluth, and he has succeeded in making chemical combinations hitherto pronounced impossible by the most expert professors. One would think by this time professors would have learned better than to say anything is impossible, but they have not, and the Duluth man has given them one more surprise. The method is a chemical one, quite dissociated from electricity, and by its application we are promised that aluminum will become cheaper than copper. Then we may indeed look for revolutions in metallic manufacturing.

A Gentleman

Who formerly resided in Connecticut, but who now resides in Honolulu, writes: "For 29 years past, my wife and I have used Ayer's Hair Vigor, and we attribute to it the dark hair which she and I now have, while hundreds of our acquaintances, ten or a dozen years younger than we, are either gray-headed, white, or bald. When asked how our hair has retained its color and fullness, we reply, 'By the use of Ayer's Hair Vigor—nothing else.'"

Ayer's Hair Vigor, and very soon, it not only checked any further loss of hair, but produced an entirely new growth, which has remained luxuriant and glossy to this day. I can recommend this preparation to all in need of a genuine hair-restorer. It is all that it is claimed to be."—Antonio Allarun, Bastrop, Tex.
