The feeling against him at Next Sunday evening the topic at Bad Axe is so strong lynching has the Epworth League will be "The been threatened. His wife has been family of children including several grown sons.

> The mining company which was organized at Owosso, some time ago Two fairly good veins of fuel have been struck, one at a depth of forty feet and the other at eighty-five feet. The company have leased 400 acres of land, and expect to put about fifty men at work immediately. The coal is said to be of a superior quality.—[Detroit Tribune.

Philo Morse who lives near Reese ound his wife and William Cox, of Gifford, in a room together. He applied an offensive epithet to Cox and then shot him near the center of the forehead. The wounded mam ran two miles and a half to Reese. He will probably pull through, unless something unforseen sets in. Morse gave himself up to Sheriff Messner Monday morning and was locked up in jail.

Geo. Eckfeld, who has been working seven years, met with a serious accitation will not be necessary and that CASS CITY. - - MICHIGAN.

THE usefulness of detectives has been demonstrated again. After relentless pursuit of clews they have shown that a recent murder horror at Los Angeles was based upon an encounter between a butcher and a calf, and serious only when viewed from the standpoint of the calf. But for this discovery Los Angeles would be indulging in uncomfortable shudders yet.

HENS, horrible shadow! unreal mockery, hens! Judge Pettingili of Malden, decides that a man has the right to kill weeds with salt, and that it is not his fault if a neighbor's hens get into his yard and gobble up the salt, with fatal results. This is good law and good sense, but it may nevertheless produce an inordinate demand for salt from suburbans with gardens and with neighbors afflicted with the hen fever.

Now that about two bushels of wheat can be bought for a dollar in the Chicago market, which means about forty cents a bushel for the farmer, why not feed the wheat to the stock? A bushel of wheat will go farther than a bushel of oats for Dobbin, and do him more good. A quart of wheat soaked well answers for a meal for a horse and there are thirty-two quarts in a bushel. Hogs will fatten better on wheat than on corn. Hens lay better when kept on a wheat diet than on corn or oats; ergo, there is a better mission for wheat than selling it at forty cents a

FULLER accounts of the treatment of the Yale athletes in England show very plainly that the much talked of British spirit of fair play must have gone out with knee breeches and cocked hats. if it ever existed at all. The American athletes were insulted and jeered in a fashion that would elry on his hand. Christ wore of "tough sports" at an impromptu prize fight. The only redeeming feature of the occasion was the courtesy shown the visitors by. their Oxonian competitors, who may be sure of equally courteous treatment should they return the visit of the Yale representatives.

Down in New England, where all great reforms originate, a movement is being made to stop the wholesale defacement of nature by advertisements of liver pads, \$3 pants and patent medicines. The legislatures are to be asked to pass laws forbidding this vandalism, and the effort will probably prove successful. Such a movement might well be inaugurated in the west, where the pirate of the paint pot works his will on rocks, trees and cliffs, and action should be taken quickly, lest our landscapes should be made up exclusively of staring signs, alleged pictures, and invitations to buy.

Dr. DEPEW has missed another vacation because of the late tie-up. This calls attention to the fact that Mr. Depew seems to enjoy more vacations than any other man in America. He is always heard of either as going upon or returning from a va-He turns up in London or Paris and a cable carries to us his breezy comments on current events. He is interviewed coming up the bay, or on the Pacific coast, or in Texas somewhere—always "on a brief vacation." The vacation habit seems permanently fixed upon him. Perhaps he utilizes his vacations in the preparation of his after-dinner speeches.

Oxford's victory over the Yale athletes should fill the Briton's cup of joy to overflowing. The successive defeats of the Vigilant by the Britannia were inexpressibly soothing to British pride, wounded by a long series of defeats on land and water, and the triumph of the Eng- ion. In London, not long ago, a man lish university men is all that is needed to put John Bull into a condition of entire satisfaction with himself. No one in this country will begrudge him the victory honestly won, and even the vicarious squawks of Canada can be borne with equanimity. Brother Jonathan takes a licking bravely, as he celebrates a victory modestly.

An arrangement is said to have been made by which Admiral Skerrett will go on the retired list at once, so as to enable Commodore Erben to be promoted to the rank of an admiral before it becomes necessary for him to retire. The commodore is to reimburse the admiral for the loss he will suffer in pay by anticipating the regular time of retirement, and pay his expenses in coming home with his country good service, but it hardly comports with the idea of the dignity of the service to find them entering into a deal by which to secure be as free from any suggestions of a dicker as the judicial bench.

Now that the royal heir has been named Albert Edward George Nicholas, the poets appear to be shut off in the language of the surrogate's ofcompletely, unless they can find it in fice, shall "share and share alike." As their hearts to work in the words | God may help me, I shall show you "tickle us."

GEN. EZETA of San Salvador is treasury to the extent of \$10,000,000 in one fiscal year or thereabouts. Such successes as this are calculated to make ex-Treasurer Tate of Kentucky thoroughly ashamed of his little financial achievements.

TABERNACLE PULPIT.

DR. TALMAGE ON THE TRAGEDY OF DRESS

Crimes Innumerable Have Their Origin in the Cravings of Men and Women for Fine Dress-Arnold Betrayed His Country for His Wife's Attire.

BROOKLYN, Aug. 5.-Rev. Dr. Talmage, who is now in Melbourne, Australia on his round-the-world tour. has chosen as the subject of his sermon for to-day through the press: "The Tragedy of Dress," the text selected being I. Pet., iii; 3-4: "Whose adorning let it not be that outward adorning of plaiting the hair, and the wearing of gold. or of putting on of apparel; but let it be the hidden man of the heart." That we should all be clad is proved

by the opening of the first wardrobe in Paradise, with its apparel of dark green. That we should all, as far as our means allow us, be beautifully and gracefully appareled, is proved by the fact that God never made a wave but he gilded it with golden sunbeams, or a tree but he garlanded it with blossoms, or a sky but he studded it with stars, or -11 owed even the smoke of a furnace to ascend but columned and turreted and domed and scrolled it into outlines of indescribable gracefulness. When I see the apple orchards of the spring and the pageantry of the autumnal forests I come to the conclusion that if nature ever does join the church, while she may be a Quaker in the silence of her worship, she never will be a Quaker in the style of her dress. Why the notches of a fern leaf, or the stamen of a water lily? Why, when the day departs, does it let the folding doors of heaven stay open so long, when it might go in so quickly? One summer morning I saw an army of a million spears, each one adorned with a diamond of the first water-I mean the grass with the dew on it. When the prodigal came home his father not a beard. Paul, the bachelor apostle, not afflicted with any sentimentality, admired , the arrangement of a woman's hair when he said, in his epistle, "If a woman have long hair, it is a glory unto her." There will be a fashion in heaven as on earth, but it will be a different kind of fashion. It will decide the color of the dress; and the population of that country, by a beautiful law, will wear white. I say these things as a background to my sermon, to

show you that I have no prim, precise, prudish or cast iron theories on the subject of human apparel. But the goddess of fashion has set up her throne in this world, and at the sound of the timbrels we are all expected to fall down and worship. The old and new testament of her Bible are the fashion plates. Her altars smoke with the sacrifice of the bodies, minds and souls of ten thousand victims. In her temple four people stand in the organ loft, and from them there comes organ loft, and from the down a cold drizzle of music, freezing who were called poor relations. O! of you, the wives and mothers and on the ears of her worshipers. This for some new Shakespeare to arise and sisters and daughters of the present goddess of fashion has become a rival of the Lord of heaven and earth, and

t is high time that we unlimbered our batteries against this idolatry. When I come to count the victims of fashion, I find as many masculine as feminine. Men make an easy tirade against woman, as though she were the chief worshiper at this idolatrous shrine, and no doubt some men in the more conspicuous part of the pew have already cast glances at the more retired part of the pew, their look a prophecy of a generous distribution. My sermon shall be as appropriate for one end of the pew as for the other.

Men are as much the idolators of fashion as women, but they sacrifice on a different part of the altar. With men the fashion goes to cigars and club rooms and yachting parties and wine suppers. In the United States the men chew up and smoke one hunared millions of dollars' worth of tobacco every year. That is their fashdied who started in life with seven hundred and fifty thousand dollars, but he ate it all up in gluttonies, sending his agents to all parts of the earth for some rare delicacy for the palate, sometimes one plate of food costing him three or four hundred dollars. He ate up his whole fortune, and only one guinea left; with that he bought a woodcock, and had it dressed in the very best style, ate it, gave two hours for digestion, then walked out on Westminster bridge and threw himself into the Thames, and died, doing on a large scale what you and I have often seen done on a small scale. But men do not abstain from millinery and elaboration of skirt through any superiority of humility. It is only because such apendages would be a blockade to business. What would sashes and trains three and a half yards long do in a stock family from the Chinese station market? And yet men are the discinow. Both officers have done the ples of fashion just as much as women. Some of them wear boots so tight they can hardly walk in the paths of righteousness. And there are men who buy expensive suits of promotion. The quarter-deck should | clothes and never pay for them, and who go through the streets in great stripes of color like animated checkerboards. I say these things because I want to show you that I am impartial cent for God. in my discourse, and that both sexes. what are the destroying and deathful

influences of inordinate fashion. The first baleful influence I notice charged with looting the public is in fraud, illimitable and ghastly. Do not satisfied with 90 cents of a dollar, you know that Arnold of the revolution proposed to sell this country in order to get money to support his wife's wardrobe? I declare here before God and this people that the church to-day is the fact that men exeffort to keep up expensive establish- | pend so much money on their table, | folk down here, I tell ye."

ments in this country is sending more and women so much on their dress, you and I know scores of men who are put to their wits' end, and are the attempt. Our politicians may theorize until the expiration of their terms of office as to the best way of mproving our monetary condition in this country; it will be of no use, and things will be no better until we learn feet, and hands no more than we can

tempt to keep the wardrobe of their extraordinary brightness, it will be hearing, rushed across a room to say found out that the undertaker is cheated out of his legitimate expenses! Do not send me to preach a funeral blurt out the whole truth, and tell that he was strangled to death by his wife's ribbons! Our countries are dressed to death. You are not surprised to find that the putting up of millions of dollars more than it ought to have cost, when you find that the man who gave out the contracts paid more than \$500,000 for his daughter's wedding dress. Cashmeres of \$1,000 estimated that there are 10,000 women in these two cities who have expended on their personal array \$4,000 a year!

temptation comes in this way: A man superior wardrobe of the family across the street, that they can not bear the sight of, the man is thrown on his gallantry and on his pride of family, and, without translating his feelings into plain language, he goes into extortion and issuing of false stock, and skillful penmanship in writing somebody else's name at the foot of a promissory note; and they all go down at the temple; and Grandmother Lois, tunes control. Miss Vanderbilt will at the temple; and Grandmother Lois, write the tragedy of human clothes.

Act the first of the tragedy. -A tribulation are entering into plain but beautiful home. Enter, the newly-married pair. Enter, simplicity of manner and behavior. Enter, as much happiness as is ever found in

Act the second .- Discontent with the humble home. Enter, envy. Enter, jealousy. Enter, desire of dis-

Act the third. - Enlargement of expenses. Enter all the queenly dressmakers. Enter, the French milliners. Act the fourth. -The tip-top of society. Enter, princes and princesses of high life. Enter, magnificent plate and equipage. Enter, everything splendid.

Act the fifth, and last. - Winding up of the scene. Enter, the assignee. Enter, the sheriff. Enter, the creditors. Enter, humiliation. Enter, the wrath of God. Enter, the contempt of society. Enter, death. Now, let the silk curtain drop on the stage. The United States? Tommy-Oh, I don't farce is ended and the lights are out. Will you forgive me if I say in tersest shape possible that some of the men have to forge and to perjure and to swindle to pay for their wives'

dresses? I will say it, whether you forgive me or not. Again, inordinate fashion is the foe of all Christian alms-giving. Men and women put so much in personal display that they often have nothing for God and the cause of suffering humanity. A Christian man cracking his Palais Royal glove across the back by shutting up his hand to hide the 1 cent he puts into the poor-box! A Christian woman, at the story of the Hottentots, crying copious tears into a \$25 handkerchief, and then giving a 2 cent piece to the collection, thrusting it down under the bills so people will not know but it was a \$10 gold piece! One hundred dollars for incense to fashion; 2 cents for God. God gives us 90 cents out of every dollar. The other 10 cents by command of his Bible belong to him. Is not God liberal according to this tithing system laid down in the Old Testamen-is not God liberal in giving us 90 cents out of \$1, when he takes but ten? We do not like that. We want to have 99 cents for ourselves and 1

Now, I would a great deal rather steal 10 cents from you than from God, I think one reason why a great many people do not get along in worldly accumulation faster is because they do not observe this divine rule. God says: "Well, if that man is then I will take the whole dollar, and I will give it to the man or woman who is honest with me." The greatest obstacle to charity in the Christian

It was the only time style and expensive wardrobe, when in my life when I had nothing to say! Insatiate fashion also belittles the intellect. Our minds are enlarged or lashed from January to December in they dwindle just in proportion to the importance of the subject on which we constantly dwell. Can you imagine anything more dwarfing to the human intellect than the study of fashion? I see men on the street who, judging from their elaboration, I think must to put on our heads, and backs, and have taken two hours to arrange their apparel. AMUSING FRIVOLITIES.

Lady-How is this insect powder to be applied? Assistant, absent-minded -Give 'em a teaspoonful after each meal, madam.

"Dah ain' much practical use," said Uncle Eben, "in de kind ob penitance dat comes after a man's done et de chicken what he gathered the night before."

Hicks - Look at Sniggs flirting with the girls over there. I thought you said he was a womon hater. Wicks-So he is, but the woman he hates is not here.

Visitor-Well, Tommy, do you think you will ever be president of the know. Mebbe I'll try for it after I get too old to be a pitcher.

"Burglars robbed me last night of \$250 worth of jewelry, but they didn't get my cash." "How was that?" "The jewelry was in the burglarproof safe, and my money was in my wife's pocket."

"Can any little boy here," asked the visitor, "give me an example of the expansion of substance by heat?" "I can," said Tommy. "Our dog's tongue is twicet as long now as it was last winter."

"Dearest," said she. "suppose a bull should attack us as we are crossing the pasture, what would you do?" 'That's an awful queer question, Mabel. You forget I was the greatest sprinter Yale ever had." "You seem to be in splendid health,"

said his friend. "I thought you were suffering from dyspepsia." "So I was," replied Swintles, "but I got hold of the recipes my wife got at a fashionable cooking school and burnt 'em." In one of the Glasgow schools a young boy came himself for admittance. The head master asked his name. The boy in reply said his name was Jock. "But what is your father's name?" "My fayther's ca'ed

efter me." A gentleman who had been allured by the announcement of a quiet country hotel in the North of England came down the morning after his arrival complaining that his boots had been outside his door all night and until 8 o'clock that morning and nobody had touched them. The landlord, who, in his shirt sleeves, was tipped back in a chair, beamingly remarked: "Law bless ye, sir, ye might, left yer purse out there all night; nobody would have touched it. Honest

RICH AND RARE GIRLS

THE BIGGEST FINANCIAL PLUMS IN THE LOTTERY.

Pretty American Heiresses-All Are Heart Whole and None Are Seeking Titles-Fair and Free Are

Atlantic and Pacific coasts there are at least nine young ladies who may be regarded as the primest matrimonial catches in this or any other country-the belle ideals of the whole wor d.

ETWEEN THE

These young ladies, to go over them hastily, are Miss Gertrude Vanderbilt,

So the distribution across the country

Let no one suppose that the posses to a sensible wo an, "You are as sion of millions makes all women alike, sweet as peaches?" The fools of and levels them or raises them to the fashion are myriad. Fashion not only rank of society puppets, mere buttersermon of a man who dies like that I destroys the body, but it makes idiotic flies to feed upon the sweets of life and die when day is done, without The most ghastly death beds on earth having accomplished anything more knowledged heiress to \$60,000,000. are the one where a man dies of de- than being beautiful. Far is this lirium tremens and the other where a from being the case with those nine woman dies after having sacrificed all rich girls, who are all as different as one public building in New York cost her faculties of body, mind and soul possible, and who all are possessed of

> Miss Vanderbilt is considered the richest of the lot. Perhaps she is, and

who on account of the daily fluctuations of

The resemblance of Miss Gertrude to her father, Cornelius Vanderbilt, is very marked. She has his low forehead, his benevolent expression, and the same low, half shy manner of talking. She has gone out little. Her of heaven when he said, "Whosoever friends are Miss Gerry and Miss doeth the will of God, the same is my Paulina Whitney. Her debut in sofriends are Miss Gerry and Miss ciety is a thing of the future. She will probably be presented this summer at Newport, but as she is not quite 18 this may be postponed until the fall, when the grand city house will have its ball room thrown open. Miss Vanderbilt is a quiet girl with o fads at all.

Miss Emily Vanderbilt Sloane, a cousin of Miss Gertrude, is another very rich young woman. She has an older sister in society, but this sister, it is said, has already mortgaged her affections, leaving the debutante, Miss Emily, with an open field.

The two girls that come next on the list of belle ideal catchers are the Misses Alta and Edith Rockefeller. These are the daughters of John D. Rockefeller and the heiress to-Well Their father swore upon the witness stand that he could not tell within twelve millions what his real wealth might be. So form an estimate your self.

These young ladies are the best in the world, so far as real, true worth goes. They are highly accomplished. Miss Alta, the eldest, plays the piano, Miss Edith is an expert on the violin. their father plays the second violin in this home orchestra, while their brother, John D., Jr., and their mother take their respective parts. Their home life is ideal.

Miss Alta is about 25 years old and Miss Edith is a little younger, but neither of these girls have ever entered society, and neither has even had a Paris dress. A home dressmaker makes their clothes, and one maid suffices to preside over their toilets. Their time is devoted to visiting the sick at St. Luke's hospital, to study, to music and to outdoor sports. Both of these girls will probably marry ministers or missionaries.

In the same category as these girls -too shv for society—is Miss Sylvia Howland Green, the only daughter of Hettie Green, and the heiress of \$100,. 000,000, may be more. Miss Green had \$3,000,000 left her by her grandmother, the interest of which she has never touched, and she gets, besides, a large amount from certain investments made for her long ago by her father, when the latter was the rich member of the family.

Her friends say that Miss Green will marry; and that the man will be any one who will be kind to her and will take the trouble to penetrate the reserve which is wrapped about her and to overcome the shyness which she can not control. She is said to be like her father, and that she will make a good wife and a pleasant home, with products.

her straightforward, honest nature and her millions, there can be no doubt.

Very different from these are the wo California heiresses, Miss Virginia Fair and Miss Maude Alice Burke. Both are beautiful, dashing girls. Both revel in society. Both are "showy" girls, and both have brilliant, effervescent manner-sometimes criticised in New York-but characteristic of the fine open air life they have led.

Miss Burke is the prettier of the

with pearly teeth, peaches and cream complexion and eyes usually called "hazel." She laughs a great deal; and is the idol of her uncle, old Gen. Horace W. Carpenter, who made his mill ions on the Oakland Sea Front. Miss Burke has no fortune herself, but she has always lived with her unclesince the marriage of her mother the second time-and is his ac-

Miss Fair has a sister, Mrs. Hermann Oelrich of New York, with whom she lives part of the year, and from whose Fifth avenue mansion she was introduced into New York society. But she always claims California as her real home. Miss Fair is less beautiful than her sister, having less regular features. Her hair, eyes, and eyelashes are black and as beautifully regular as those of a madonna, but her nose is retrousse-vulgarly styled a "pug"-and although a very pretty girl, she can not lay claim to the great classic beauty which made Miss Tessie Fair, now Mrs. Oelrichs, so very celebrated. Miss Fair lives a life of great gayety. Her father, ex-Senator Fair, has about \$50,000,000 invested in coast line, but just how much Miss Virginia will get is not known. She has frequently said that she must marry an intelligent man-one of whom she would not tire, and that she would care little for money, so long as he were agreeable to her personally.

Brooklyn's greatest heiress is Miss Helen Post, the daughter of Stephen Post, and the owner of \$4,000,000 in her own name, besides an income for life of \$10,000 a year. Miss Post is a debutante, with many attractions to recommend her. She is a blonde, is very pretty and an expert in outdoo sports. She is a leader in the Algonvuin Riding club and an active member of the Civitas club, an organization to purify the government of Brooklyn. Miss Post is a little inclined to be strongminded. She is a typical intellectual society woman of the century, or as the next century woman will be and combines the qualities of knowing how to dance and how to think in a most remarkable and charming way. Miss Post's matrimonial choice will be a Brooklyn man, so she says. None of these rich girls have any conspicuous faults-unpleasant fads

GERTRUDE VANDERBILT. or unreasonable peculiarities. all are so lovely in mind, as well as desirable in person, that it may be said that the men who capture these nine virgins will have done wisely-

not counting the hundred millions they will get.

Tin for Filling Teeth.

A dental specialist has made a discovery that is likely to have a decided influence upon the future of dentistry. This practitioner declares that in ordinary cases tin is quite equal to gold for filling teeth. Chemically pure tin is run into a mold of proper shape, and when cold is cut by a lathe into very thin shavings. These are used in the same way as gold. They are said to be more adaptable and cohesive than gold, and while not as durable will answer every purpose. It is a well-understood fact that gold fillings really last but a few years. The tooth decays or breaks away around the metal, which must be taken out and the cavity reprepared. This is expensive, and while some of the present day dentists will adhere to the gold filling and high charges, there are

A number of shopkeepers in various parts of England have lately been heavily fined for marketing and selling American beef and bacon as English

others who will fall into the popular

line and use tin and make out their

bills accordingly.

Cardinal Richelieu

Founded on the Play of "Richelleu," by Lord Lytton.

CHAPTER IX. Brave Dog Not to Leave His Bone. Into the same prison where our hero was taken and lodged, by more or less kind attention of the governor, in the cell of his former residence, Captain Huguet had been dragged, resisting with all his strength, like a mastiff in a leash

be conducting the groom. Huguet chafed and vociferated in his bass voice as they forced him under the St. Antoine gate of the gloomy emblem of despotism. His captors having delivered him to the deputy-governor, who did not judge him of the quality to be put in the turret chamber, where Adrien Mauprat was incarcerated, consigned him to "the dark, deep place," six yards under ground, beside the stagnant water in the intervalation

Huguet hammered with his fist on the wall, which was a half dozen feet thick; butted at the door till even his head ached and kicked the floor of sodden sweepings over a bed of masonry, till he churned up a stench which nearly choked him; and flinging himself in a corner in the Egyptian darkness, he resumed his invectives against the minion who had

tricked him so cleverly.
"Oh, that I ever confided in a man with a baby mouth and a hand like a dwarf's!" ejaculated he, clinching his own fist, which would have given Gargantua no desire to shake it twice. "Such a thing is no man at all. I may rot in a stone pit, but thank the God of my fathers that I am not of the same dough as he! Now he'll be the king's right hand man, and be dispensing stars and garters, and, mayhap, death to me, if he does not forget me. No, not death, when I let him know that I clutched the letter to the count of Soissons—the letter which damnifies them all, and will cost Prince Gaston his neck if placed before his blindfolded brother."

So he fumed and halloed till even his giant lungs were weakened, and after some hours fell off into sleep as sound as that of the governor overhead in a less obscure and noisome chamber, with all the latter's twenty-five hundred pounds a year, not to mention what the extortionist squeezed out of such wretches as the ex-captain of the guards.

To that governor had come a visitor whom no one dreamt to delay in his passage. For whilst in the town beyond, the dread of the gray monk | stacle to the royal valet. Joseph was the deepest fear men knew, for his political power, in the Bastile the awa of the officers arose from another cause; Joseph's brother, Du Tremblay, was the keeper of the keys. If ever an Abel walked trustfully up to Cain, it was the Capuchin, not generally credited with confidence, for fraternity apart, which went for little in those days of intrigue, the governor owed his post to the prime minister.

"Huguet," so mused the monk. "has the letter to the treacherous commander. Now, if I can but gain one moment's access to this prisoner, all is ours! The cardinal, after his repulse by the king, trembles between life and death. His life is power, and to smite one, slays both! No Aesculapian drugs ever bore the healing which that scrap of parchment will medicine to ambition's flagging heart. France shall be

his brother, whose features, on the had to descend the tower stairs, the contrary, were twitching with varied official to inspect the preparations sentiments. Baradas had anticipated for the execution and Beringhen the monk, and of the two prisoners whom he sought to see, one was already beyond him and the other on the verge of a perhaps more fatal. vovage.

"The knight of Mauprat, removed to the Louvre by summons of Count Baradas!" reiterated Joseph, amazed for once out of his marble aspect. "And our late captain going away

"Well, brother, you may better divine that if you were his confessor whilst in your household, for he is doomed to die at noon."

"By whose order?" "The king's as a matter of course. We obey only his majesty here in his

own fort of the town's end." The accent made Joseph shrink into his cowl. Another who kicked

at the goad! "At noon he dies!" cried he, turn- and saiding into another track with the quickmess of experienced duplicity. "No moment to delay the pious rites which fit the soul for death. Quick, quick—admit me to Huguet."

"You cannot enter, brother! My orders are imperative." "Orders! royal orders! vain! the

cardinal still is minister. His orders crush all others." "I'll not be menaced, Joseph! 'tis, mot brotherly," returned the other,

in an irritated voice. "Besides, the cardinal was reported dead and now is surely dying! I do not wonderwho would care to live under the disgrace of our noble Louis!" he said. with the unction of a courtier.

The tolling of a bell denoted that some solemnity was commencing; and the priest guessed that it concerned the ex-captain.

"Brother to brother, hear me,"

feeling which would have removed once for all the doubts of his superior, "by my gray hairs which, when ours both were golden intermingled in the same cradle, by all my toil in meshes most inextricable, by my hard days and sleepless nights on monastery stones to which your cell-floors seemed paved with feathers, by more than you will ever know of slights, denials, losses borne in your country's service, let me see the prisoner!"

The governor, with hanging head, hook it in negation. "He has secrets of state-papers

in which—' "I know," interrupted Du Tremblay, hoarsely, "such was his message to Count Baradas, which earned

him his death sentence." The other wrung his hands in his distraction; opposed to this obstinate denial, thought, nerve and mental strength seemed useless.

"Dare you refuse the church her which at times threatens rather to holiest rights?" said he at length, speaking in desperation not to hear that knelling bell.

"I refuse nothing-I obey my or-

"And sell your country to paricides! Oh, tremble, then, brother! since nothing will soften your obdurate heart. I forgive you! although the hands of those who encourage themselves in mischief."

He pulled his cowl down to his eyes, folded his hands in the robe, and slowly left the room, the corridor, the tower, crossing the courtyard where the block and headsman were awaiting, and never spoke word or showed by a glance that he was living, feeling humanity, and not one of the statues impelled by mechanism from the facade of St. Antoine church without, till he had crossed the ditch.

The sound of the bell had just reached the ears of Huguet, but he was not downcast when he awak-

On the opposite hand, he laughed to himself, with the fierce glee of a waylayer who thinks he sees the vic-

tim approaching. "They will know I have the paper. They will trust no mean hand-peradventure that arch-villain, the Count Baradas himself, will do me came with a full score armored Baythe earth and spread him on the stone like an archer caught against the bastion by the battering-ram!"

whatever the anxiety of the count to dispatched Beringhen to the prisoner in the Bastile.

The first gentleman of the royal bed-chamber had not found the difficulty in obtaining leave to vist Huguet experienced by the confidant of Richelieu. Quite otherwise; for M. du Tremblay, whose ambitious aspirations may have soared as high as his brother's in a less ecclesiastical line of flight, smoothed every ob-

"Oh, by the way," uttered the latconfess by the governor's amiability, for the Cerberus of the state prison was pictured at court in the same colors as the monastic artist painted Satan and his compeers, "there is a little chubby-cheeked boy in the gate who was whimpering to see his father, that is, this Huguet, before they dissevered his head and body. After I leave the captain, you might let him say goodby to his father, before that very long, unpleasant jour-

ney his father is about to take." "The count's commands are strict," grumbled Du Tremblay. "No one must visit Huguet without his pass-

port. "Here! Pshaw! nonsense! I'll be your surety," cried Beringhen. "The filial little fellow is no Hercules like his parent."

Still the governor was on his guard. He insisted on seeing the With his impassive face he met youth in question; and as they both with a smelling bottle drawn to comfort the captive, they met the boy, for whom a warder had run over to the entrance, in the tower doorway. If the governor had often sauntered about Paris, and, particularly

had been in the Rue Richelieu what time the page who had baffled Baradas' spies had provokingly trotted past the Louvre and Delorme house into the cardinal's residence, he must have discovered a strong likeness between that personage and the youth whose face was half hidden by the corner of the mantle industriously plied to wipe away over-flowing tears. The dainty thing was so slight and graceful, so swaving with weakness from untold grief, and so winsome withal, that the stern man who had withstood a brother's ap-

peal muttered something about pity, "Well, if your lordship is responsible, he may e'en go to the cell, and slip in after your business is over." With a "Thank you exceedingly. my lord." which was almost unintelligible through renewed sobs, the lad

hastily followed the king's valet and the turnkey. The pestilential atmosphere in the dogs' holes to which they proceeded prevented any mouth so fastidious as Beringhen's from opening, and they

reached the door desired in perfect silence. Beringhen was seen to smile by the vague glimmer of the lantern

which hardly more than burnt in the fetidity. "There's no fear here," he said,

tapping his breast with his vinegar gestions ter make ter a feller wat bottle; "but ere you throw open the | ain't able ter raise a dime ter git | you? He-I'm afraid I can't. You door, cry through the wicket that it shaved with? Grumple, passing on see, the lady who will marry me will is a messenger from Count Baradas. -Yes; raise whiskers. - Buffalo very likely object to that sort of said Joseph, with an outburst of As for thee, youngster," he contin- Courier.

ued to the stripling, who had begun to wail worse than ever, "have no further concern. My shriving will

be a short one.' In truth the announcement acted as a soporific. In quite a gentle tone the giant guardsman was heard to respond:

"Let my lord enter." "It's the air," remarked the jailer, with a grin, as he handed the lantern by its ring to the royal valet. 'Lor'! I've known it to tame perfect tigers of war in four and twenty

hours. There being no more money to expect, he leisurely ascended the greasy stairs with a familiarity which easily dispensed with the light, and humming so jocund an air that it must have seemed mockery to his immured subjects.

In the meantime the door had swiftly and violently closed. The page had dropped the cloak from his eyes as dry as a bone.

"A sweet resort of the abhorrence of my sex, ye rats and mice, whom I implore not to scamper hither, have I brought myself to. Ah, Marion, if you venture so much for the gentleman whom you once adored, what would you do for him always your idol? But how is our scent vial getting on with my papa? It sounds as you have delivered my beloved into if their conversation was interspersed with raps on the wall. So far so well. Alas! what then? this wretch was sent to Baradas in order to sell the scroll to ransom life. O heaven, on what a thread hangs hope! If Father Joseph had succeeded, I should not be the slender thread I speak of. Hark! their chatter is growing warm—that was a tap on the wall like the smacks of the giant's mace upon the log which figured for the giant-killer's body. believe they are fighting. Why not?

for the letter, of course. Marion-for the reader has long since divined who was this valiant little body-was struck by the idea that though the gloom prevented any ray of the lantern from entering the passage, there must be some hole in the wall by which the sounds met her ear. At length, by rising on tip-toe and feeling the slimy stones, she found a sort of concial hole, the smaller end leading into the cell. and the larger, though too little for the honor of a visit. And though he a man's egress, barred thickly. She leaped up, caught this grating, and ards at his back-Bayards in his drew herself up to the air hole; her company, for sooth!—I'li bear him to | fine feet tound a hold where no man's foot could have been inserted.

The lantern was burning within, and she could scarcely more than It was just as well, therefore, that, discern two shadows grappling and finally falling. Both rose, and the repossess the traitorous missive, he much larger shape seemed to melt into the other, then both fell and the larger rose alone. But in the next division of time it sank half its height, and she heard distinctly the cry in Huguet's voice-

"Curses on the minion! with their Italian tricks with the dagger, he has ruined me. Oh, to die thus miserably!"

Then she lost sight of him; he was out of her visual ray, stumbling to us that it was erected by the Abbe the door. Her impulse was to fly, but conquering her terror and her the year 1896, and over the door of ter, charmed more than he liked to repugnance, Marion pushed the door, and between them it opened.

Huguet was on his knees holding his side. "What's this," he ejaculated, in

surprise. "Huguet, you know me, Marion Delorme! You are hurt-mortally, perhaps! As you have a soul to be saved-and I will give half my fortune in masses-redeem it of the sin of selling our great master, by handing me that letter of the con-

spirators. You see, I know all!" He fell back, but raised himself again; then he drew himself to the wall and leaned against it.

[TO BE CONTINUED.]

A Little Darling's Discovery. Professor-Some of the grandest inventions of the age have been the result of accidental discoveries. Young Lady—I can readily believe

it. Why, I made an important discovery myself, and it was the purest accident too. "I should much like to hear it."

"Why, I found that by keeping a bottle of ink handy, a fountain pen can be used just the same as any other pen-without any of the bother and muss of filling it."

"Yes; the first two or three commissions he executed were so true I haven't heard her sing yet, but to life that the sitters refused to take the pictures."

Grumple's Advice.

Ragged Richard, insinuatingly-Say, mister, have yer got eny sugTHE CHAPEL OAK.

A Magnificent Old Tree in the Cometery

Old trees often become objects of veneration, and sometimes when old age begins to show plainly its destructive effects upon their trunks and branches the devotees of these grand works of nature resort to various means to prolong their lives. which are frequently connected with memories of events related to the neighboring inhabitants, or events of state, says Vick's Magazine. The love of nature and the admiration for trees is growing among our people, and with the increase of these sentiments the ax will be more judiciously and less indiscriminately used. Here is an account of an ancient oak in the burial ground of Allonville, France: Above the roots it measures up-

ward of thirty-five feet around, and

the leaves, like an antique hermitous parts of the tree are, like the fracture from which the steeple springs, closely covered with slates, which by replacing the bark, doubtless contribute to its preservation. Over the entrance to the chapel there is an inscription, which tells

dedicating the leafy sanctuary to "Our Lady of Peace."

Willie Has Quit. the suburbs has quit using tobacco. Let us call him Willie. Willie, was have an idea that it is lucky to have riding a few days ago on a load of a red in the car. I don't know why, hay belonging to his father, when he began to feel as if he needed a smoke. So he took out his alligator cigarette case and silver-plated comes our way we freeze on to it and match box and touched one of the try to keep it handy. little cylinders. Incidentally he shame-facedly, "it seems like a queer touched the hay, and never did load grow smaller and beautifully less of that sort around, but it's all in with greater rapidity. The horse began to run with all his might, for the hay had set his tail on fire. He lots of things just as foolish that the maker, the delicious fluid can be nothing made for an adjacent cemetery in order to deposit his ashes. A funeral procession was wending its way toward an open grave when the mourners locked up and saw a wall of fire sweeping down upon them. The procession was halted and all blaze by tipping over the cart. The horse's face wears an injured expression, while Willie wears several

of Allonville.

six feet from the ground, twenty-six feet. A little higher up it extends to a greater size, and at eight feet from the ground enormous branches spring from the side and spread outward so that they cover with their shade a vast extent. The height of the tree does not answer to its circumference. The trunk, from the roots to tne top, forms a complete cone, and the inside of this cone is hollow throughout the whole of its height. Several openings, the largest of which is at the bottom, form the entrance to this cavity. All the inside parts have long been destroyed; it is only by the outer layers of the alburnum, and by the bark that this venerable tree is supported, vet it is still full of life and covered with leaves and acorns. The hand of man has endeavored to impress on it a character still more interesting than it was in its natural state by adding a religious feeling to the respect which its age naturally inspires. The lower part of this hollow trunk has been transformed into a chapel six or seven feet in diameter carefully wainscoted and paved, and with an iron gate to guard the humble sanctuary. Above and close to the chapel is a small chamber containing a bed, and leading to it there is a staircase which twists around the trunk of the tree. At certain seasons of the year divine service is performed at this chapel. The summit has been broken off many years, but there is a surface at the top of the trunk of the diameter of a very large tree, and from it rises a pointed roof covered with slates, in the form of a steeple, which is surmounted by an iron cross that raises itself in a very picturesque manner from the middle of age, above the surrounding wood. The cracks which occur in the vari-

"One of the most peculiar of stone formations is the 'devil's lookingglass,' on Nolafihucky river," said a Tennessean. "It is a palisade which hands joined in extinguishing the blaze by tipping over the cart. The height of about 200 feet. It is perfectly smooth and about 100 feet wide. When the sun is at a certain stage it throws a shadow over the water and reflects the sunbeams as a mirror would, dazzling the eyes of the beholder, sometimes almost blinding him with its brightness. To go upon the river in a skiff and look down into the water is to see an image reflected but always distorted. It is this which gave the name to the formation, and there are several interesting legends connected with it, some of which are devoutly believed by the mountaineers. One of these is, that every night at midnight, when the moon shines, the devil goes down there to bathe and make up his toilet, using the rock with the reflection of the moonlight, as a looking-glass."—St Louis Globe-Democrat.

SPEND YOUR OUTING ON THE GREAT

Visit picturesque Mackinae Island. It will only cost you about \$12.50 from Detroit; \$15 from Toledo; \$18 from Cleveland for the round trip, including meals and berths. Avoid the heat and dust by travel-ing on the D. & C. floating palaces. The attractions of a trip to the Mackinae region are unsurpassed. The island itself is a grand romantic spot, its climate most invigorating. Two new steel passenger steamers have just been built for the upper lake route, costing \$300,000 each. They are equipped with every modern convenience, annunciators, bath-rooms, etc., illuminated throughout by electricity, and are guaranteed to be the grandest, largest and safest steamers on fresh water These steamers favorably compare with the great ocean liners in construction and the great ocean liners in construction and speed. Four trips per week between Toledo, Detroit, Alpena, Mackinae, St. Ignace, Petoskey, Chicago, "Soo," Marquette and Duluth. Daily between Cleveland and Detroit. Daily between Cleveland and Put-in-Bay. The cabins, parlors and staterooms of these steamers are designed for the complete entertainment of humanity under home conditions; the palatial equipment, the luxury of the apatial equipment, the luxury of the appointments, makes traveling on these steamers thoroughly enjoyable. Send for illustrated descriptive pamphlet. Address A. A. Schantz, G. P. & T. A. D. & C. Detroit, Mich.

do South at Half Bates. On May 8th and 29th, tickets can be purchased at all stations in the North to any point in Eeastern Mississippi or Southern Alabama, on the Mobile and Ohio R. R., at one fare for the round trip. You will find more free Government land, cheaper railroad lands, and more improved farms at a less price than any where else in America. The country along the Mobile & Ohio is free from swamps has the lowest death rates in America has the purest of soft water, and the pleasantest climate all the year. You can raise three crops each year on the same land, and make more money on each crop than you can in the North. Now is the time to secure a home where it only cost half as much to live, and you can make twice as much money, have better health, and live with more comfort all the year than in the North. Full particulars sent by E. E. Posey, General Passenger Agent M. & O. R. R., Mobile, Ala.

TEACHERS EXAMINATION. Will be held during 1894 and 1895 as follows:

ELLINGTEN.

It is getting dryer continually. Corn, beans, buckwheat and potaoes will be short without rain soon. Some of the berry pickers are charged with setting fires and doing lots of

Rev. Traver preached his farewell sermon at the Beach school house last Sunday afternoon.

Fires have run over a large part of sections 27 and 28 and are still at work doing a large amount of damage.

Silas Brumley and Erastus Acklay had the forest fires burn out the south part of their farms Monday afternoon.

George Hand, with his wife and children and Miss Grace Hunt, of Fairgrove, were at Amzy Clays's Sunday and Monday.

On Friday, the 3rd, in the afternoon Wm. A. Bailey went over to the bay below Sebewaing to prepare for more company at their summer resort this week all of whom will join in the grand excursion to Bay Port the 9th.

Elmwood tent of K. O. T. M. met on the evening of Aug. 2nd, at G. H. May's hall, having rented it for the ensuing year. There was a large attendance several from Caro lodge being present. After initiation took place ice cream and cake were served and all enjoyed themselves during the evening. Sir Knight Wilson, Deputy Great Commander, will be present at the next meeting, Aug. 16th, in the evening and will try and boom the tent to fifty members during the next two weeks if possible.

Last week Thursday there arrived at John Deitz', from Flint, Genesee Co., Mrs. Sarah L. Retherford, Frank Retherford and family, and little Ruth (Miller) Retherford to visit for a few days. Little Ruth is the child that was shipped from Grand Island on the Cass last fall of whom we read in the papers. She had just lost her father her mother dying some time before, and an orphan she was consigned to her aunt, Mrs. Retherford, at Flint, and came safely through with a card on a cord around her neck telling where to deliver her. After two days and a night on the train she arrived safely to her aunts.

WAR GOVERNOR OF MICHIGAN DIED AT JACKSON.

Drifted Calmly From This Life into the Great Eternity-A Brief Sketch of Michigan's Grand Old Man-Village of Lakeview in Ruins From Fire.

Ex-Governor Austin Blair, died at his home in Jackson. Like a tired child sinking to rest on his mother's breast the distinguished orator, lawyer, scholar and statesman entered his eternal sleep, after being ill several days. His last hours were painless. Only the family were present when the ex-governor died.

Austin Blair was born in a log cabin at Caro-Austin Blair was born in a log cabin at Caroline, Tompkins county, N. Y., Jan. 4, 1818. The first 17 years of his life was spent upon the farm. Upon graduating from Union college Mr. Blair read law for two years in the office of Sweet & Davis, at Oswego, N. Y., and was admitted to the bar in 1841. In June of that year he came to Michigan, settling in Jackson, but soon afterward removed to Eaton county, where he was the same year elected. Jackson, but soon afterward removed to Eaton county, where he was the same year elected county clerk. He served only a part of the term, returning to Jackson early in 1844, where he has since resided. Mr. Blair was a natural orator, and his love for public speaking led him to take an active part in politics, his first efforts in this line being during the campaign of 1844, when he espoused the cause of Henry Clay, the great leader of the Whig party, and during which he gained a state reputation as an orator.

ation as an orator. In 1845 he was elected a member of the state legislature, at which session he assisted in re-vising the general statutes. He also made an able report in favor of abolishing the color dis-tinction in relation to the elective franchise, stinction in relation to the elective franchise, thus becoming one of the first to advance Negrosuffrage. He also assisted in the work of abolishing capital punishment. In 148 he left the Whig party on account of its refusal to indorse the anti-slavery sentiment and affiliated with the free soil movement, in which he was an earnest and indefatigable worker. In 1852 he was elected prosecuting attorney of Jackson county. When the Republican party was formed under the oaks at Jackson. Mr. Blair was one of the most prominent participants, and in November of that year he was elected to the state senate on the Republican ticket. While in the senate he was the acknowledged leader. In 1858 he was a candidate for congress, but was defeated by William O. Howard. At the Republican national convention in 1860. which nominated Lincoln, Mr. Blair was chairman of the Michigan delegation, and gave his support to William H. Seward, who was the choice of the Republicans of Michigan that year.

Mr. Blair was chosen governor of Michigan Mr. Blair was chosen.

choice of the Republicans of Michigan that year.

Mr. Blair was chosen governor of Michigan in 1860, and was re-elected in 1862, faithfully and honorably discharging the arduous duties of the office during that most momentous and stormy period. Retiring from the office of governor in 1865, poorer by many thousands of dollars than when he entered it. but with an untarnished record, he was in 1866 elected a representative in congress and was re-elected twice, serving six years during the trying times of the reconstruction and restoration of the urion. In 1872 he left the Republican times of the reconstruction and restoration of the urion. In 1872 he left the Republican party and again became a candidate for governor on the Liberal Republican and Democratic ticket. but was defeated. This practically ended his political career, and since that time as long as his health permitted he attended strictly to his law practice.

The people of Michigan are proud of the record made by Gov. Blair during the trying times of the civil war. In selecting officers for the regiments, history shows that he acted wisely, and a number of the officers appointed by him gained a world-wide fame by their bravery and devotion to duty. Among those appointed by Gov. Blair was Phil Sheridan.

During the past three or four years Gov. Blair had suffered a great deal from ill-health, but up to two years ago he gave his attention to his law practice.

to his law practice. Ex-Gov. Blair leaves a widow, for whom also there is a warm spot in the hearts of old soldiers, on account of her untiring devotion and aid in time of war; also four sons, Charles A. and George H., attorneys in Jackson, Fred J. Blair, a department clerk in Washington and Austin T. Blair. His religion was of the broad type. He believed emphatically in the golden rule, and followed its precepts to the letter.

Democrats of Two States Meet. Gov. Pattison, Hon. W. F. Harrity, chairman of the Democratic national committee: Attorney-General Hensel. Capt. Wm. P. Hendrie, of the Lehigh Valley system; Thomas Bradley and David Brodhead, all of Pennsylvania and all Democrats, were aboard the steamer Saranac from Chicago when they were met in Lake St. Clair by three yachts loaded with Michigan Democrats, headed by Hon. Don M. Dickinson, Hon. Spencer O. Fisher, Assistant Secretary of State Edwin F Uhl, ex-Lieut, Gov. Strong, and James O'Hara, Democratic candidate for attorney-general. The Pennsylvanians were taken aboard the yachts and conveyed to the Old Club house at St. Clair flats, where a reception was tendered with a big dinner on the Speeches were made by the guests and their entertainers, and the former were then taken to Detroit and seen safely on board the Saranac again.

Town of Lakeview Destroyed.

The entire business portion of Lake view was destroyed by fire at an early morning hour. Thirty-five buildings are in ruins, and the loss will aggregate between \$150,000 and \$200,000. The fire started at 11 p.m. in the building south of the Montcalm house, burning all the buildings on both sides of Main street as far south as Read's blacksmith shop. Both hotels, the postoffice, Macomber & Bale's large dry goods store, C. M. Northrop's general store, two drug stores, the Enterprise office and many other stores were destroyed. The village fire department could make but little headway against the furious flames, which licked up everything as they rushed

through the streets.

Farmer's Fatal Quarrel. Henry Hill, a farmer, about 10 miles from Oscoda, was probably fatally stabbed by another farmer, Thoma Paul. Hill's horse got into Paul's premises. Paul put the horse in his stable and sent word to Hill to come and get it. Hill's wife came, but Paul wouldn't let the horse go without the payment of \$2. Hill then went after the horse himself, but Paul followed and stabbed him twice.

Berrypickers Narrowly Escape Cremation Hundreds of people who were pick ing blackberries in the swamp of over 4,000 acres northeast of St. Louis, were obliged to fly for their lives, on accounof fire. Otto Mey, of Forest Hill, and his party with difficulty escaped with their lives. While running their horses one fell down. They obliged to leave the animal and flee.

The Michigan Gold company opened its mine at Ishpeming after lying idle two years. This is the property from which \$17,000 in gold was secured in one small pocket. There is vigorous prospecting on the gold range and several explorations give promise of a renewal of the gold excitement of

five years ago. The 12th national convention of the Women's Relief Corps will be held in Pittsburg the second week in September. The Michigan department of the W. R. C. will accompany Commanderin-Chief Kanitz's train, under the auspices of the G. A. R. committee on transportation.

CONFLAGRATIONS AT DETROIT.

Three Big Fires Cause the Loss of One

Life and Property Valued at \$125,000. Detroit was visited by three destructive fires in one day, entailing a total damage of more than \$125,000. The saddest feature of the day, how ever, was the death of one fireman and the serious injury of five others from falling walls. The dead man's head was crushed in by bricks, and he expired five minutes after being rescued from beneath the debris which covered

him. The first fire consumed the Michigan Central flour sheds at noon. The second and largest fire, which was attended by fatal results, took place at 3 o'clock, when the E. G. Richards & Co.'s planing mill, on Franklin street, and the lumber in the yard of Hunton, Hyles & Weeks adjoining it were totally destroyed. The third fire, which originated from the previous one, was the four-story building of the American Fibre Belting company at 371 Atwater street. It started at 6 o'clock, and that building and several smaller structures were destroyed.

Ohio and Michigan Governors Travel, It may have been a pure coincidence but at any rate it is an interesting fact that when Gov. Rich, of Michigan, boarded the big steamer Northwest at Detroit for a trip to the "Soo," Gov. McKinley and a party of Buckeyes were already on board bound for Du-luth. Gen. Alger and Maj. Hopkins greeted Gov. McKinley in the few minutes the boat stopped at Detroit and the famous Ohioan promised to speak in Detroit this fall. Both of the governors were accompanied by their wives. Sault Ste Marie: Govs. McKinley and Rich arrived in the city on the steamer Northwest. They were met at the boat landing by the Soo City brass band and a delegation of citizens and escorted to the Park hotel, where they were given a reception. speeches were made by each of the disinguished gentlemen. Harvey Earl was locked up at Marshall, under suspicion of having made away with Henry Elliott, a blacksmith in the employ of J. H. McNames. Elliott slept in McNames livery, where Earl was employed. Mrs. Earl called for her husband, and Elliott told her that Earl was out with a woman of bad repute. A few minutes later Earl put in an appearance and accompanied his wife home. She told him what Elliott had said, and then Earl, it is alleged, threatened to kill him. The next morning Elliott was missing, part of his clothing being found in the livery barn. The officers have learned that Earl called at the barn swearing vengeance against Elliott. Earl atempted to leave town and the officers nabbed him. The missing man is about bout 47 years old and hails from Clevland.

Farmer Shot by a Lawyer.

Mark S. Wolcott, a Jackson lawyer, shot and badly wounded Henry Howe, at Onondaga. Wolcott was employed in a case where Bert Skinner, a young farmer, was a witness. He aroused Skinner's ire by asking if he had ever been arrested for larceny. The men met on the street, hot words ensued, and it is alleged that Skinner struck Wolcott in the face. Wolcott drew his revolver and retreated, when another ung farmer, Henry Howe, came to Skinner's rescue, dealing the lawyer a blow in the neck. Wolcott then fired. the ball striking Howe over the left hip bone and lodging in the lining of the stomach. How is very weak, but is able to sit up.

Woman's Perfldy Man's Ruin.

Philo Morse, of Reese, found his wife and William Cox, of Gifford, in a room together. He applied an offensive epi-thet to Cox and then shot him near the center of the forehead. The wounded man ran two miles and a half to Reese. He will probably pull through, unless

something unforeseen sets in.
Both Cox and Mrs. Morse attended a public dance the night before, and Morse, who was away from home, did not return until morning, when the shooting took place. Morse gave himself up to Sheriff Messner and was locked up in jail.

Uncle Sam After the G. R. & I. Suit has been begun in behalf of the U. S. government against the Grand Rapids & Indiana railroad company to procure the cancellation of a land patent of 23,000 acres in Emmett and Charlevoix counties. The interior department claims that while the lands were granted under an act of congress of 1856 they came within the limits of an Indian reservation withdrawal of 1855, and were therefore excepted from the grant. About half the land is now owned by farmers and other innocent

purchasers. Thrashing Engine Exploded.

While Ira Palen was thrashing at the farm of John Franklin, near Jackson, his engine exploded, scattering fire in all directions. The barn, wagon, she's, tools, hay and grain and three horses were burned. The fire spread so rapidly that the men on the straw stack could only get down by rushing through fire. The loss will reach through fire. The loss will reach \$2,000. Mr. Franklin was badly injured about the legs and side by being struck by pieces of boiler. The cause of the explosion is not known.

Brakeman Killed While As'eep. William Jones, a Michigan Central freight brakeman, was run over and nstantly killed at a siding three miles west of Kalamazoo, by the accommodation going west. He was sent back to flag the train and must have fallen asleep, overcome by fatigue or some

All but \$12,000 of the \$60,000 required as a bonus toward the building of the Port Huron & Lexington railroad has been subscribed. Hog cholera is getting in its work

sudden attack. Engineer Freeman, of

The dry weather has so dried up the water in the St. Joseph river that the river steamer can only go up about six miles instead of 24 as usual. Farmers are compelled to haul their fruit from upper points of the river down on vagons. It is the lowest it has been for several years.

Moorland, Muskegon county, is in great furore over the discovery of natural gas. A well-digger discovered something of that kind at a depth of 115 feet. A steady current flows at high pressure. Property for acres around has been eagerly gobbled up at big prices, and a stock company will make the best of the flow.

Miss Isabella Lorimer, aged 19 years, of Cass City, started out with a horse and buggy to pick huckleberries. When a mile from town the buggy broke down and she attempted to return on horseback. In some unexplainable way the girl fell off, catching her foot in the harness and was dragged a considerable distance and when found was unconscious. One leg was broken close to the trunk and a lot of her teeth was knocked out. She was also badly bruised, but the physicians think she

will live. Bessie McNeal, aged 13, of Howard City, slipped and fell out off a swing Miles Lindley, of Hamilton, furnished striking on her head, dying instantly. bail.

JAPS DECLARE WAR.

SURE TO BE A STRUGGLE NOW IN THE EAST.

Japan Takes the First Decisive Step in Notifying the World that a State of War Exists with China-Japan Makes Apology to Great Britain-War News.

Tokio, Japan: The Japanese government has informed the representatives of the foreign powers here that a state of war exists between Japan and China. This is regarded as equivalent to a declaration of war.

Washington: There is surprising lack of information of an official nature regarding the events in the China-Japan trouble and the surmise

THE EMPEROR OF CHINA.

that official dispatches have been obstructed is now a conviction. The notice given by Japan that a state of war exists is regarded here as equivalent to a declaration of war, or at least it imposes the same obligation upon neutral nations. The United States, for instance, can sell to either China or Japan arms and munitions of war and supplies, but they must be delivered at the risk of the purchaser, and any vessel carrying them is liable to seizure. So by this stroke Japan doubtless has seriously embarrassed China in her efforts to supply herself with warlike equipment in other countries.

Just what the effect will be on the Chinese treaty ports cannot be foretold Japan has taken the ground that they are practically foreign set-tlements and therefore has disclaimed any intention to interfere with them regarding them as outside the zone of

hostile operations. China, however, has persistently claimed the right, under the treaties opening the ports, to close them in the time of war and will now proceed immediately to close important, beginning with Shanghai, perhaps, by obstructing the

entrances. Japan's Apo'ogy to England. Tokio: The Japanese government has instructed its minister in London to apologize to Great Britain for the firing upon and sinking the Kow Shing while she was flying the British The Japanese minister has been instructed to inform Great Britain that the commander of the Japanese cruiser did not know that the Kow Shing was a British vessel until after the fight.

Capt. Galsworthy, of the Kow Shing, and a number of others of that trans port were rescued by the boats of the

Japanese warship Naniwa. England Will Remain Neutral. London: The earl of Kimberly, upon receiving from the envoy of the Tokio government, the official notification that Japan had formally declared war against China, declared that Great Britain remained neutral in the matter, although the British government would immediately take steps to safeguard British interests in the

far east. So far as the sinking of the transport Kow Shing, flying the British flag, is concerned, the envoy was informed Great Britian awaits the statement of the English captain of that steamer before making any reply to the apology offered by Japan.

The Feeling in Russia. St. Petersburg: The Russian newspapers are unanimous in saying that whatever the result of the war between China and Japan Russia will not tolerate any diminishment of Korean territory or alienation of Korean independence. Russia, it is added, will not permit any interference upon the part of Great Britain or any other power, if such interference endangers Russian interests.

Pullman Works Have Started.

Pullman works were started at Chicago quietly and without demonstration on the part of the ex-employes But 250 reported for work, although the company expected 800. About 1,000 strikers gathered about the building and good-naturedly chaffed the returning workmen, but no attempt at violence was made. A heavy detail of police was on hand.

Family of Five Burned to Death. The farm house of S. O. Ostenson, of the the town of Dover, about eight miles north of Wilmar, Minn., burned to the ground at 2 o'clock a. m. Mr. Ostenson and four children lost their lives in the flames. Mrs. Ostenson narrowly escaped cremation, but is crazed

McCue, Keefe and Groesbach, leading strikers, were bound over at Cincinnati to the federal grand jury in \$1,000 each for attempting to an excursion train at Hamilton July 4

over the awful event.

CONGRESSIONAL NEWS.

4SENATE. - 191st day. - The main question before the Senate was the sundry civil bill before the Senate was the sundry civil bill which was discussed nearly all day but was not acted upon. The House bill to exempt the articles of foreign exhibitors at the inter-state fair at Tacoma, Wash., from tariff duties, was passed. The report of the conference committee on the agricultural bill in which the Senate conferees agreed to recede from the amendment appropriating \$1,000,000 for the extermination of the Russian thistle was agreed to. House.—The House spent the whole day debating the Moore-Funston contested election case of the Second district of Kansas, but no decision was reached.

tion bill-the deficiency-remains to be on by the Senate, the sundry civil bill having been passed after a three days' discussion. The most important amendments adopted were the increase of the quarantine fund from \$624,000 to \$1,000,000, and donating 1,000,000 acres the increase of the quarantine fund from \$624.000 to \$1,000,000, and donating 1,000,000 acres of desert lands to the states to which the desert land laws apply, as well as to Nebraska, Kansas, Utah, Arizona, New Mexico and Oklahoma. Among the petitions presented was one from members of the 'United States industrial army,'' now encamped near Washington, which Mr. Peffer presented. It was referred to the committee on immigration and labor. The report of the conferees on the District of Columbia appropriation bill was agreed to. The Hatch anti-option bill was reported to the Senate by Mr. Washburn from the committee on agriculture, and placed on the calendar. Mr. George objected to the bill because he considered it inadequate to accomplish the desired reform. House.—There was not much of general interest in the House. The conference report on the District of Columbia appropriation bill was agreed to. Mr. Brown, from the committee on elections, then called up the contested election case of Moore vs. Funston, and a resolution was adopted declaring Mr. Moore (Dem.-Pop.) entitled to the seat. Mr. Holman (Dem., Ind.), chairman of the committee on Indian affairs, then called up the conference report on the Indian appropriation bill. The report was agreed to and another conference was ordered on the remaining points of difference between the two houses.

Senate—193d day.—The last of the appro-

SENATE .- 193d day .- The last of the appro priation bills was disposed of when the defi-ciency bill was passed. No other business of particular importance. The conference report on the river and harbor bill was agreed to with-out division. priation bills was disposed of when the defi-

SENATE.-194th day.-A short session. The conference report on the river and harbor bill for the consideration of which the Senate met for the consideration of which the Senate met, having been temporarily withdrawn private pension bills were considered and 37 were passed, including one granting a pension to the widow of the Arctic explorer, Lieut. Frederick Schwatka. Several other bills were passed, the two prominent being a Senate bill to amend the quarantine regulations so far as they apply to vessels plying between United States ports on or near the frontier, and a House bill to subject to state toward on patients. ect to state taxation national bank notes and United States treasury notes. The bill for the exclusion and deportation of anarchists was taken up and discussed and then went over. HOUSE.—No business of particular general importance.

2,000 JAPS KILLED.

Land Battle at Yashan Results in Defeat of the Japanese.

Shanghi: An official telegram reeived from Tien Tsin says that two battles were fought July 27 and July 28, at Yashan, and the Japanese were epulsed with a loss of over 2,000 men. The Japs retreated to Seoul. Twenty thousand Manchurian Chinese troops have crossed the Korean frontier and are marching on Seoul.

London: A dispatch from Tien Tsin says that the emperor of China has issued an edict accepting the war which he says Japan has thrust upon him and ordering his viceroys and commanders to root out the pestilential Japanese from their lairs.

A correspondent from Tokio savs that the Japanese fleet is concentrating its strength at Kanghwa, an island at the mouth of the Seoul river, and that a great naval fight is expected shortly. The whole Chinese fleet is assembled near there and a decisive naval battle is imminent.

"It is A dispatch from Berlin says: reported that China has made several fresh concessions to Russia with regard to the Pamirs as an inducement or Russian assistance in the conflict

More Bloodshed in Korea, Berlin: The Chinese minister here claims to have received an official dispatch stating that the Chinese ironclad warship Ting-Yuen rammed and sunk a Japanese warship off Jerome Gulf on July 29. The Ting-Yuen is an armored steel battleship, the exact duplicate of the Chen-Yuen which it was at first reported had been sunk by the Japanese, but which, as it after-ward turned out, escaped from the naval battle badly damaged.

Canadian Town Burned.

The village of Harrow, Ont., 25 miles from Windsor, was nearly wiped out of existence by fire. Just after the dinner hour the villagers were aroused from their usual calmness by the alarm and before it could be realized flames were seen shooting from the engine-room of Sinasac's three-story grist mill. Like the majority of villages the only fire protection was a bucket brigade, but this was powerless, and even had it been at all efficient the drought had dried up the majority of the wells. In less time than it takes to tell it the fire jumped across the street to Ford's store and it was soon gone. The hungry flames sped on from one building to another until two thirds of the town was in ashes. The osses will foot up in the neighborhood of \$28,000, with an insurance of \$12,000

An Ohio Town Burned.

Over 40 Acres of the Lumber District

Burned,-Four Lives Lost. The lumber district of Chicago was risited by one of the most disastrous | Fourth street, says the Louisville ires in its history, and the loss will probably foot up \$2,000,000. Eleven arge establishments were entirely ourned out. The burned district is about six blocks square from east to west and three from north to south. SENATE.-192d day.-But one more appropriacoln street, the river and Ashland ave-

field of embers. During the fire the wind suddenly changed and the flames caught several engine companies unprepared and the men were compelled to run for their ives. The fireboats Yosemite and Geyser had close calls but ran through the flames which leaped out over the 'Because Adam never read the newsslip, and escaped unharmed. The total number of men thrown out of employment by the fire is 2,200, and the destruction was so complete that t will be many weeks before most of them can be given work by the firms which suffered.

sons being injured. The dead are: Lieut, John McGinn, of the fireboat Geyser, burned; died at county hospital. William Wollenfell, struck by cap blown from Engine 35; knocked into river and drowned; body recovered. Unknown man, knocked into river and drowned. Unknown boy, 17 years old; burned to death. More Blazes.

Chicago: The lumber district was visited by a second fire which for a cal meeting, hurrahing for some cantime threatened to rival in destructive-didate, and then scolding because ness that of the previous day. Before two was sitting up and crying it was subdued it had wiped out the inside the gates. He rever played yards of the John Spry Lumber Co., A. J. McBean, cedar posts, and P. Far-rell, cedar posts. In addition to the lumber yards, the wooden bridge over the Chicago river at Ashland avenue was totally destroyed. The fire was on a piece of land 250 feet long and cradle at home. In short, he didn't half as wide lying between two loading slips for vessels. It is directly the purpose of waiting on him, and east of where first the fire was checked. The total loss is \$100,000.

A large eight-story building at No. 158 West Vanburen street was cleaned out by fire while the lumber vards were blazing. The building was occupied by a number of small concerns and a loss of \$80,000 was sustained. Lieut. Cunningham, of hook and ladder company No. 16, was fatally injured by a falling wall, and Capt. Sullivan, of engine company No. 34, seriously wounded by falling glass.

The striking employes of the Chicago Stock Yards company decided to return to work.

WEEKLY REVIEW OF TRADE.

An Ohlo Town Burned.

Oak Harbor, a village of 2,000 inhabitants, about 25 miles east of Toledo, was in a state of terror. Within 24 hours three incendiary fires were kindled, entailing a loss of about \$35,000. It originated shortly after midnight, in the stave yard of H. H. Milander, spreading from that point until it had burned over a space of about 12 acres. An engine was sent from Toledo, but when it arrived the fire had practically burned itself out. Later in the day two other fires were started by incendiaries, but did little damage.

A Pan Handle freight was wrecked at Crestonville, O., by running over a cow. Fireman M. Neil was killed and Engineer Egan was slightly injured. Fifteen cars and the engine were derailed. Loss \$10,000.

David Wilson and Henry Wright, residents of Attica, were attacked by a crowd of men at the Brazil, Ind. crossing of the C. & E. I., and horribly stamped and beated. Wilson will deand Wright is seriously injured.

The discovery on Mineral Hill at Cripple Creek, Colo, of lead carboritate, the ore which gave Leadville its great boom, is regarded by mining men as the most remarkable and important made in Cripple Creek district. The vein is four feet in width and it is all pay. An assay returned \$40 in gold 250 ounces silver and 33 per cent lead.

Fire at Marion, Ind., did \$75,000 damage.

\$2,000,000 FIRE IN CHICAGO. DIDN'T NEED A HIRED GIRL Plucky Little Woman's Snappy Reply to the Crusty Old Bachelor.

There is a crusty old bachelor on

Post, who is a confirmed woman hater and who never misses an opportunity for saying something sarcastic and disagreeable about the fair sex. But he met more than his The greatest portion of the district match the other day in a plucky litbounded by Blue Island avenue, Lin-tle woman who, metaphorically speaking, wiped up the earth with nue was burned over, and 40 acres him, much to the delight of his of lumber yards were left as a big friends, who were greatly amused at his discomfiture. The old bachelor inquired why, when Eve was manufactured spare rib, a servant wasn't made at the same time to wait on her. The little woman responded promptly: papers until the sun got down behind the palm trees, and then, stretching, yawned out: 'Isn't supper most ready, my dear? Not he. He made the fire and hung the kettle over it himself, I'll venture, and Later reports show that four deaths | pulled the radishes, peeled the powere caused beside a number of per- tatoes and did everything else he ought to do. He chopped the kindling, brought in the coal and did the chores himself, and he never brought home half a dozen friends to dinner when Eve hadn't any fresh pome-

granates." The little woman stopped a moment for breath and went on with renewed vigor: "And Adam never stayed out till 12 o'clock at a politiinside the gates. He never played billiards, rolled tennins and drove fast horses, nor choked Eve with cigar smoke. He never loafed around corner groceries and saloons cradle at home. In short, he didn't think she was specially created for wasn't under the impression that it disgraced a man to lighten a wife's cares a little. That's the reason that Eve didn't need a hired girl, and with it is the reason that her descendants do."

She drew another breath and was about to continue, when the bachelor pulled his hat down over his eyes and sneaked away.

They Wanted Fire.

While Thomas Campbell was prosecuting his studies at the university of Glasgow, he occupied apartments with an elder brother, who, though no poet himself, was a most admirable critic, but a severe one. Mr. Campbell had gone down to the breakfast-room one morning, leaving the poet to follow at his leisure. He had nearly finished breakfast when his brother entered with a copy of verses in his hand, which he laid on the table as an excuse for his delay, at the same time requesting Mr. Campbell's opinion of their merit. "Your lines are admirable, Tom, my boy," said the elder Campbell, after calmly perusing the verses; "but they appear to me to want fire," and the merciless critic committed the aper to the flames. The nost l succeeded in rescuing his effusion; but after a little reflection he threw it into the fire for the second time, acknowledging the justice of his brother's bon-mot. - Argonaut.

An Unfortunate | emembrance.

A lady who has attained considerable wealth was calling on a new neighbor. She is much given to bragging, and was going far beyond any previous effort. The neighbor seemed to be taking it all in seriously, but you can never tell much about a woman. Finally Mrs. Swell said: "Oh, Mrs. Cool, you have such a pretty, little home! You ought to be very proud of your home. Why, I can remember when I didn't have much better than this myself." Mrs. Cool responded: "Yes, I think it was when you worked in my aunt's kitchen." The call was perceptibly shortened. - Indianapolis

Platinum.

Sentinel.

The supply of platinum, owing to its free use in electrical enterprise. is becoming, it is said, unequal to the constantly increasing demand. The principal source of supply is the Ural mountain deposit. These some years ago were said to be inexhaustible, but the statement was made with no cognizance of the future heavy demand in electrical service. These mines are at present being worked to their fullest capacity, with orders and contracts to years ahead of delivery.

Men of All Nations.

A visitor was shown the pay roll of the Mount Carmel. Pa., collieries the other day. He discovered that the superintendent was an American, the bookkeeper a Canadian, one of the assistant bookkeepers a Frenchman, the outside foreman are Englishman, the breaker boss a Dutchman and the shipper a Welshman. The miners were Irish, English, Dutch, Polish, Hungarian, Italian, French, African, Russian, Swedish, Norwegian and Austrian.

As to Advertising.

Merchant-Do you think advertising pays? Book Agent-No, I don't. Merchant-Why not?

Book Agent-Why not? Because takes all the people to your store to buy goods, and I can't find anybody at home to sell a book to; that's why not.

Comparing Notes. "Yes, we had a frightful experlence, said the returned traveler. Have you any idea how it feels to be

hemmed in by icebergs?" "I think I have," replied the other. "I once attended a five-o'clock tea in Boston."

SOME REMINISCENCES FROM THE VETERANS.

When the Last Man's Mustered Out-The Strange Thing That Happened at Pithole the Night Lincoln Was Shot-Lee's Christmas Dinner.

Was It a Coincidence?

"I may forget all of the numerous remarkable and startling incidents that were a part of the pioneer development of the Pensylvania oil regions -and I have forgotten many of them, but there is one that is indelibly impressed upon my mind as it no doubt is on the mind of every surviving participant in the doings of those lively days," said one of those old-timers. "The famous old Homestead well, where oil was struck in the early part of 1865, was the gusher that started the rush to Pithole creek and brought into existence in the wilderness a city of 20,000 inhabitants almost as quickly as it could have been done by the magic of Aladdin's lamp. John Wilkes Booth was on a visit to the oil country about that time looking for investments, and he paid \$15,000 for a one-thirteenth interest in the Homestead well. Oil was selling for \$4 a barrel then, and the Homestead was gushing hundreds of barrels a day.

"When the news came in April that Lee had surrendered and that the war was over, among the hundreds of flags that were floated in Pithole as evidence of the joy that was felt over the great event was one from the top of the derrick at the Homestead well. When, quickly following these glad tidings, the terrible news was received of the assassination of President Lincoln, every one of these flags except one was lowered to half-mast as a mark of the people's mourning for the martyred chief. That one flag was the one that had been raised over the Homestead well in rejoicing for the triumph of our arms-the well of which the president's assassin was part owner. Why was that flag unlowered? Because on the evening of April 14, 1865, at the very minute that Booth fired his fatal shot at the president, an explosion as of a clap of thunder shook Pithole City and angry flames instantly wrapped the Homestead well from base to summit. When the sad news was received at Pithole of the death of President Lincoln, the town was overhung with a pall as black as night from the smoke that rose from the ruins of the well that had poured money into the assassin's hands; money, no doubt, which he used in laying out and perfecting his murderous plans. The flag that had floated from the derrick was consumed with the rest of the property.

"Of course, matter-of-fact poople at Pithole and elsewhere in the region said that the explosion that made a consuming pillar of fire and a pall of smoke of the Homestead well would have occurred just the same if the president had not been assassinated, but they were few compared with those who declared that the coincidence was too startling and appalling to have been other than a visitation of the wrath of Providence against the wretched Booth. And there are a good many hard-headed folks who hold to that opinion still."

Lec's Christmas Dinner.

As the fortune of war had favored his larder, through some skillful foraging of Ephraim, a negro, who was his faithful cook, body servant and waiter, General Lee invited several officers to dine with him on Christmas day, 1864, says the Courier- Journal. The lucky recipients of the timely invitation were five in number, all officers of distinction, among them Generals Longstreet, Gordon and Kershaw. They were all on time when the dinner was called. It was served on a rough pine table, without a cover, in General Lee's weatherbeaten tent. It consisted of boiled cabbage and eight or ten boiled sweet pototoes and a dish of rice cooked dry. The piece de resistance, which indeed the guests found it hard to resist, was a small bit of fat bacon, about three inches square, that lay on top of the large cabbage. Now, bacon was as rare in the Confederate camp as are roses on the northern hilltops in December. You can imagine, therefore, the self-restraint exercised by each guest as he declined in turn slice of the delectable meat proffered by his host, who held the carving knife and fork ready to cut and help.

It was observed that when the general, after helping to the cabbage, said to the guest whose plate Ephraim held out, "Allow me to help you to a blice of the bacon?" the devoted old servitor's hand trembled greatly. In fact, he seemed to be in a state of decided fright. The high military rank of the guests would not account for his trepidation, for he daily served near a master who outranked them all. There was no splendor left in the tracery of faded gold lace on their battle-stained uniforms to dazzle his eyes and cause them to roll about and glance from bacon to guest, and from guest to bacon, as each answered the half-question with the words, "No, thank you, general." The discomposure of the serving man was all the more striking from its contrast with the serene, self-poised dignity of his master.

Dinner over, the general and his guests retired from the tent, but as they passed out, General Lee turned and said in a low tone, "Ephraim, we have another cabbage, have we not?" "The answer was, "Yes, sir, Mass Bob, we's got anudder cabbage, sah.'

"Then, Ephraim," said the general, "save the piece of bacon to cook with that cabbage."

The prompt and decisive reply was, "No, sah, Mass Bob, I can't do dat. I that. Somebody owes me money."

jis borrow dat piece of bacon for sea- BULLET PROOF COAT. sonin' from a friend ober dar in Richmon', and I don' gib up my parole of honor dat I'll gib him back dat same bacon what I borrow."

The general consented at once to the return of the bacon.

The Veteran Saw It All. An old man with silver hair was led into the cyclorama of Gettysburg, in New York, by a bright-faced little miss in a jaunty gipsy hat and dress, and sat down while she described to him the features of the picture in detail, occasionally asking her a question or shaking his head slowly, as if in doubt as to the accuracy of her account. She had described to him in her own way the on-rush of Pickett's men and the hand-to-hand conflict at the stone fence where the Pennsylvania veterans met the charge of the Southerners, when he asked,

'But where's the artillery, Mag?" "Oh, you mean the big guns. They are over there on the hill in a row." "All in a row?" he asked.

"Yes," she replied. He shook his head. "Look round," said he. "There must be some more that are not in line." "Yes," she said. "There are some

In a sandy or porous soil the drip may run into the earth, or it may be caught in a pan set under the ERR DOWE'S drainage pipe. A double cover of new bullet - proof | wood will be required for the chest | gin with, she was, as the first officer If built with the house, this arrangement need cost but the merest trifle. One recently made by that useful person the Jack-at-all-trades cost less than \$4, and was voted far superior to the ordinary high-class refrigerator.

A Nebraska Artesian Well. The artesian well at Niobrara, Neb., of which we give an illustration, has a depth of 650 feet, and is utilized in connection with a system of waterworks, electric light; and motor powers, and a large flouring-mill. The well has a flow of twenty-five hundred gallons per minute through an

NIOBRARA'S ARTESIAN WELL. eight-inch pipe, and with a pressur of ninety-five pounds to the square inch the water rises to an elevation of eighty feet. The spectacle as the jet shoots upward and breaks and falls in masses of spray is one of great beauty. The water has a temperature of seventy degrees. The well is owned by the milling company of the enterprising town.

TEST OF THE BULLET-PROOF COAT.

A previous test was made in Berlin by the war department. A good marksman fired at a horse having the paris bust was also placed in the coat Dowe himself. The results justified

other tests. The cuirass employed at this test weighed sixteen pounds, but the incomotive, two cars for the men and a ventor promises to reduce it eventually to half that weight. Very little known vet of the composition truck, upon which a forty-pound of the coat. Dowe will only explain its manufacture to the military authorities. It is of felt and in its present form is about two inches thick. bersome, but its adoption appears to it would be able to destroy, with little loss on its own side, an army of soldiers not having the coat. It is easy many ways, resume its mediaeval While the gun is in action the character, when men encased in steel extra cars and the engine will re- hacked at one another with weapons weapons will, perhaps, resemble sursary to seek out the felt-encased man's A combat between two men attired in tween two oysters to get one another for a shot from one of these, even if it does not penetrate the coat, will surely disable the wearer. The bullets of small, and they apparently are destined

to become useless.

A New Ice Box. There is a new idea in ice boxes that is well worth the attention of housekeepers and house builders. It is often well worth while to have a large reserve ice chest, in which to put a stock of ice to draw from as occasion requires. This is built in the cellar, or in any convenient place in a shed or areaway. A suitably sized box is built either of cement and gravel or of a single course of brick properly laid in cement mortar. Cross pieces, either of wood or iron, are put in to support the necessary shelves. At one end of the box an upper-story receptacle for ice may be arranged in the form of a box set over the end of the first box, empire.

The susceptibility of certain persons to ivy poison is one of the curious eccloth round its body. A plaster of centricities of the human system that the medical profession frequently has and fired at. Finally it was tried on to encounter. Many persons are not in the least affected by it, while othsubject of recent experiments on a the inventor's claims, as they have in ers can not go anywhere in its vicinity without feeling the injurious effects. One instance of extreme susceptibility is given where a brushpile was burning when a stranger, passing by, was poisoned by the floating smoke and broke out in rash with violent itching all over the face and hands. In another case some old stakes and rubbish that had been left on a bright eyes rested there was happiness brushpile for years were removed, when the laborer was severely attacked with this difficulty. the eyes being almost closed from the swelling of the face. This poison is somewhat eccentric in its action, and its victims never know just what course it may take. It sometimes makes its appearance on one arm or one ankle, and may appear in several succeeding years at about the same date. Sometimes it is a permanent tenant, breaking out all over the body awe-inspiring sight—a storm in midwhenever the system has been overheated. Again, it will form tiny specks just under the skin, and after a few days showing a small, red middle and a slightly raised rim, which comes off and brings the little hard speck with it. The itching is almost intolerable, and nothing yet invented or discovered by medical science is able to afford relief.

> Eye Treatment in Nervous Diseases. There have been of late many suggestions as to the probability that diseases of the eyes have much to do with many of the more common nervous afflictions. Among the symptoms of her way to the saloon. The place was eye troubles are persistent headache and nausea, gastric irritation, vertigo, spinal pains and aches, chills, fever, loss of memory and the power of concentration, irritability of temper and distressing insomnia. All of these conditions vanished as soon as an experienced oculist got control of the case. There are many persons who go to any ordinary shop or to an optician and are, as they suppose, fitted to glasses. It is quite as likely that there is some organic trouble that only an experienced practitioner with all necessary apparatus can discover. While the ordinary optican is useful as far as he goes, neither he nor his patron is in the right when he tampers with the sense that is by most people prized above all others.

INTERESTING MATTERS FOR LIT-TLE FOLKS.

How the Prompt Deed of a Little Girl Saved the Ship From Fire-One Day With the Children-Doctor and Parson.

Annie Rollins had not been aboard the great ocean steamship bound for England more than half a day before she became a decided favorite. To beproper as well as the ice compartment. | said, pretty enough to eat; then again, she did not suffer from seasickness, and better than both other reasons, she so conducted herself that she was never in the way, and only asked reasonable questions.

It was a good thing for Annie that she had a happy disposition and pleasant manners, for her mother had succumbed to the heavy sea and remained moaning in her berth, leaving the little girl entirely alone. There were but very few passengers aboard, for the weather was extremely bad and the oyagers were poor sea-going folks.

Annie wandered about the lumbering vessel, looking with open-eyed wonderment at the many strange sights that met her ever shifting gaze. In this, her very first tour of inspection, she met gruff Captain Bard.
"Hello!" exclaimed the Captain;

'whom have we here?" "I'm Annie Rollins, and my mamma is sick.'

"And what are you doing, Miss Annie?" asked the captain. "I'm just looking around. You know

I never was on a vessel before, except Uncle Will's skiff at home." Then the big captain, who had a couple of little girls at home in a snug harbor in old England, brushed his stiff beard against Annie's cheek, and taking her by the hand said:

"You come with me; I'll show you the ship. You shall be my chief officer on this voyage. With a little fairy like you aboard we should have fine weather and a quick trip." Hand in hand the captain and Annie

first visited the steward. This guardian of all delicacies and sweets of catering to the wants of the small pas-

How Annie Fought the Fire. and promptly showing her where she could always find a quantity of luscious fruit.

After awhile the captain took Annie upon the bridge, holding her as carefully as if she were a child of his own, and then he carried her to the helmsman's room.

The little girl was greatly astonished when she saw the simple means by which the great vessel was guided, and although the captain tried to explain to her just how the machinery worked she had but confused ideas of the ar-

rangement. By and by dinner was announced and the captain and Annie went down into the big saloon together, and the little maid was placed at the captain's right, the place of honor, and ate so heartily of the good things set before her that the kind captain's heart was filled with

Thus it came to pass that Annie became the bright ray of sunshine aboard the ocean liner, and wherever her and at least temporary flight of grief and trouble. No matter how hard the wind blew or the seas raised, the lossie's bright smile would lift all dull care from the breast of Captain Bard.

After the voyage from New York to Liverpool had been about one-half accomplished the vessel ran into a storm. The black clouds rolled up from the northwest and with them came wind in fearful gusts and rain in sheets. The roar of thunder and blinding streaks of lightning helped to make that most

Annie had such confidence in the cap tain and vessel that she did not feel one bit frightened, but thought the storm and the plunges of the ship were necessary parts of a voyage over the Atlantic. Not so, however, with her mamma, confined in her berth below; she firmly believed that the vessel was about to go to the bottom, and after the miserable way of seasick people, rather relished the idea. She thought that on the bottom at least, she would

find land. Annie grew weary as little girls will, of her mamma's moanings and slipped out of the stateroom and cautiously felt deserted, for the fearful tossing of the vessel had driven to bay even those voyagers for whom the sea in moderately bad weather had no terrors.

Annie knew she should not venture on deck in search of her friend the captain, so decided that she would make the steward a call. The rocking was so great at this time that she had to alnost crawl along the passage way.

Finally she reached the door of the steward's den, and after some effort caught hold of the knob and gave it a quick turn. She saw more than she expected, for from the open door there wept out a cloud of smoke and a long

ongue of flame. "Did Annie scream and fall in a faint? No, indeed; she was not that kind of a girl. Of course, she was badly frightened, for she knew that to summon help would consume more valuable time than she could spare.

Suddenly the thought of the fire ex-

tinguishers that hung in racks along the wall. She jumped upon a lounge and reached one, tore it from its rack ran back through the clouds of smoke and dashed it aimlessly into the stew-

ard's room. Quickly she got another and another and another, until her little arms and legs were ready to give away from exhaustion, and her lungs threatened to revolt because of the smoke she in-

haled. The fire had been partnally subdued, but it was far from being out, and the danger was still great when the harsh who take Hood's Sarsaparilla are almost always voice of Captain Bard sounded down the passage. He quickly realized the situation, caught a glimpse of Annie as he hurled her last extinguisher into the blaze; ran forward and caught the little girl, and quickly bore her to a

place of safety.

It was a stubborn battle between firefighters and flames, but the former finally conquered.

That is the way that Annie Rollins gained the great cluster of diamonds that she is allowed to wear once a year, the anniversary of her fight with a mid-ocean fire.

Court Jesters and Dwarfs.

About the time little Richard Gibto draw, Nikito Moiseivitch Zotof, the 'Muscovite court fool and dwarf," was appointed tutor to his Russian majesty, the young czar, Peter the Great.

Zotof is said to have enjoyed a great reputation for learning and goodness, according to the Russian standard of that time. As late as the year 1682, when Louis XIV. and Charles II. were holding their brilliant courts, and the good William Penn was making treaties with the Indians of America, Russia was so far behind the other Euro pean nations that even a royal prince seldom learned anything more than a little reading, writing and arithmetic, with perhaps a smattering of geogra-

phy and history.

There were then no great writers or teemed. Learning did not count for much except among the clergy; but the great empire, we are told, was remarkble for her "fools" of high degree, for natural springs and cisterns hewn in even princes were proud to hold the

As for dwarfs, the country was really alive with them. One old author says there was scarcely a nobleman in the land who did not possess one or more all state dinners, if these pygmies were a coveted supply of water. fortunate enough to escape being served in a pie, it was their duty to stand behind their lord's chair holding his snuff-box or awaiting his command. They were usually gaily dressed in a uniform or livery of very costly materials.

In 1708 Prince Menshikof sent to his wife in Russia two dwarfs whom he had made prisoners-of-war in Poland Accompanying the gift were the following lines: "I send you a present of two girls, one of whom is very small and can serve as a parrot. She is more talkative that is usual among such lit tle people, and can make you much gayer that if she was a real parrot." One of these dwarfs was still living fartile fields. in 1794. After the disgrace of her

noble master she came under the care of the princess of Hesse-Homburg, and when she died, Gen. Betskoy, the princess heir, took the dwarfs as part of his inheritance. Nearly a century old, she is still brisk and lively, with a babyish voice when she cried, as she often did, at the recollection of her an cient court dress, which she had prized exceedingly.—Mary Roberts, in St. Nicholas.

Doctor and Parson.

It is not an altogether unheard of thing for a clergyman, in parts of the country where clergymen always have horses, to like to drive at least as swift and spirited a horse as comports with the dignity of his office. On one oc casion such a clergyman, driving through the town, overtook a doctor of his acquaintance on foot. "Jump in doctor," said the minister

pulling up; "I've got a horse here that

goes pretty well." The doctor "jumped in" and the minister drove off. The horse did "go' well, in the sense of speed, but in a little while it began to behave badly and ended by tipping over the carriage, and spilling out both the occupants.

The doctor jumped to his feet, feel ing himself all over to see if he was injured. The parson also got on his feet.: "Look here!" exclaimed the doctor,

"what do you mean by inviting me to ride behind a horse like that?" "Well, you see," gasped the minister, "luckily this time, I guess, there are no bones broken, but on such occasions I like to have a doctor along.

Only Snow. Not a few well authenticated anecdotes go to show that even the people who enjoy the adventures of travel are

often sadly enlightened. A lady who has recently returned rom a mediterranean trip says that as the ship was leaving the harbor of Athens a well-dressed lady passenger approached the captain, who was pac ing the deck, and pointing to the dis tant hills covered with snow, asked What is that white stuff on the hills captain?

"That is snow, madam," answered the captain. "Now is it really?" remarked the lady. "I thought so but a gentleman just told me it was Greece.

A Wise Scare Crow. "I say," said the tramp to the scarecrow, "let's swap clothes."

"Not I," said the scarecrow. "Fac s. it would never do.' Why not?" said the tramp.

"Well, the crows, seeing me, are scared. They think I'll run after 'em. But if they thought I was like you they'd know I'd rather fall asleep. tell you, old man, crows know a thing or two. They judge by appearances.

A Slight Chance. Tom-I told my fat uncle he was like whale, because he puffed and blow ed so, and he whipped me, so I chang my mind. Dick-Did you take it back?

Circuit Court Commissioner in and for Tuscola County, Michigan.

Circuit Court Commissioner County, Michigan. F. S. WHEAT, Solicitor for the Complainant.

State of Michigan, County of Tuscola, ss.
At a session of the Probate Court for said county, held at the Probate office in the Village of Caro on the seventeenth day of July in the year one thousand eight hundred and ninety-four.
Present, John C. Laing, Judge of Probate. In the matter of the estate of Sylvester Ale, deceased; On reading and filing the petition, duly verified; of John H. McLean and A. H. Ale, executors of said estate come into court and represent that they are now prepared to render final account as such executors, and having filed therewith their petition praying that the residue of said estate be assigned to the persons entitled thereto; thereupon it is ordered, that Monday, the 27th day of August next, at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs-at-law of said deceased, and all other persons interested in said estate, are required to appear at a session of said court, then to be holden in the Probate office, in the Village of Caro, and show cause, if any there be, why the prayer of the petitioner should not be granted; and it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in the Cass City. Enterprise, a newspaper printed and circulated in said county, three successive weeks previous to said day of hearing.

[SEAL]. 7-20-4 Judge of Probate. Order of Hearing.

FRANKLIN HOUSE

DETROIT, MICH.

[SEAL]. 7-20-4

It is well before leaving home, whether for business or pleasure, to decide upon a hotel and thereby avoid confusion.

When you visit Detroit we would be pleased to have you stop at the old "Franklin House," cor. Larnet and Bates Sts., where you will have a good meal and a clean bed at moderate rates. The house has been renovated from top to bottom, and is now in first-class condition.

Respectfully,

H. H. JAMES. Meals, 35c. Lodgings, 50.

F. M. Thornthwaite left last week for Mrs. B. F. Parkers's father, Mr. Mc-Intyre, of Cass City, is visiting her this

L. A. Hildie, Miss A. Hildie and Mr. Muntz from near Cass City, attended the

Endeavor meeting Sunday evening. Truly, ye brother scribe, 'tis as ye say the meanness of some people is amazing. When people will enter a berry patch and not finding to suit them will set the patch on fire, they also need to have some "medicine" given them.

Miss Emery completed a successful term of school last Monday, making three years she has taught here. She intends teaching elsewhere next term. We are sorrry to have her leave but wish her success wherever she may go.

GAGETOWN.

P. Fahrenkopf was in Columbia on ousiness, Thursday.

Sam. Ramsey and family took in the show at Caro Tuesday. Joseph Bildstine has returned home

from his visit to Canada Patrick Toohey, Jr., is the proud father of an infant son since Sunday. Bills are out for the 11th, annual Catholic Festival to be held Sept. 5th.

from a business trip to Peck, Sanilac Austin Moden is home from taking nis first course at the University at

The next regular services at the Episcopal Church will be held Sunday A. M. Ang., 18.

George Gage was some better Wedesday, but Joseph Gage's condition

As dry as the season has been, there has been a few bushels of blackberries

shipped from here. The fires that have been raging dur ing the week, give things somewhat the appearance of 1881.

H. Fullerr who has been home for ten days, has returned to Toledo, Ohio, to take up his trowel again. Eugene Palmer, wife and daughter

of Columbia, were the guests of A. J Palmer and wife on Tuesday. N. A. Wilson, a jeweler, of Galesburg

Mich., was the guest of his cousin, Mrs Amanda A. Young, the past week. John McDougall, of Sheridan, a vic tim of consumption, was laid at rest

in the Catholic cemetery Wednesday. Miss Ninie Mesacer of Lewiston, Mich. and Miss Alice Hall, of Saginaw, are the guests of Mrs. H. J. Comstock this

The grocery stock of Geo. Gage has been sold to Wm. Gage, who takes it to Linkville, George's severe sickness ecessitating the change.

Joseph Gage, who has been ill for the past two years, has been getting very much worse during the past week

and his case has become a critical one. The Gagetown Methodist Sunday School which will have a picnic at Mark's grove 2 miles east of here, Aug 15 th, has invited the Sunday Schools (Methodist) of Cass City and Bethel

Chuches to participate. The members of the M. P. Church and the choir, gave Miss Lizzie Donpierce, their organist, a surprise Wednesday night and presented her with a half dozen fruit knives as a token of their appreciation of her services.

Chunks of Wisdom.

Hope is the chief blessing of man. The law is the measure of civil right. No man can be happy in total

It is better to suffer wrong than to

The first step to greatness is to be \mathbf{honest}

To excite love we must impart pleas-No man hates a worm as he hates a riper.

He that is never idle will not often be vicious

Very near to admiration is the wish to admire. The excesses of hope must be ex-

piated by pain. Nothing so evidently proves esteem

s imitation. Fancy is always to act in subordination to reason. A man should keep his friendship in

constant repair. The brightest sunshine of success is not without a cloud.

If there were no cowardice there would be little insolence. We must snatch the present moment, and employ it well.

Every hand adds to the happiness or misery of mankind. Nothing which has life for its basis

can boast much stability. Life has no pleasure higher or nobler than that of friendship.

Stanislaus Franciscus Kozeminski. whom the Russian government has sent to Siberia, is a genuine naturalized citizen of the United States. The Russian government will have to release him and make reparation for the injury done him, or Uncle Sam will find out the rea-

W. C. T. U. Column.

Monsignor Satolli's decision respectng those engaged in the liquor traffic emphasizes the opposition to that traffic expressed by the third Plenary Council at Baltimore in 1885, and carries it somewhat further. Bishop Watries it somewhat further. Bishop Watterson, of Columbus, Ohio, who is an Wheat, No. 2 white. Wheat, No. 2 red wheat, No. 3 red Wheat, No. 3 red Lenten season addressed a letter to the clergy of his diocese dealing with the temperance problem. In this letter he withdrew his approbation "from any and every Catholic society or branch or division thereof in this diocese that has a liquor-dealer or a saloonkeeper at its head, or anywhere among its officers," and refused every such soeiety recognition until it ceased to be so offered. He also required his Clergy to refuse absolution to any saloonkeepers who carried on their business in violation to the civil law as by selling on Sundays and the like. An appeal was taken to Monsignor Satolli, and to this appeal he gave an answer upholding the bishop. Dissatisfaction with this decision having been expressed, with the approval of the Bishop a second appeal was taken. The answer of Monsignor Satolli to this second appeal confirms the right of the Bishop to render such a decision and confirms it. What to the general public is more

mportant is the Apostolic Delegate's moral approval of the decision: The J. B. Nichelson returned Monday liquor traffic, and especially as conducted here in the United States, is the source of much evil; hence the Bishop was acting within his rights to restrict it. We doubt whether any act of either Church or State within the last ten years has had in it more promise of power to restrict the liquor traffic and bring it under obloquy in that section of the community in which it is most desireable that it should be brought into obloquy. In this country public opinion is more potent than law. If Bishop Watterson and Monsignor Satolli represent the public sentiment of the Roman Catholic hierarchy on the subject of the liquor traffic, and the hierarchy general ly will take courage from this utterance and follow the precedent which it sets, the Roman Catholic Church can exercan influence against the saloon equaled only by the influence exerted by the conjoined exertions of the christian wives and mothers through the various temperance organizations in which they are co-operating. - Out-

For Advertisers to Consider.

The recoil of ads, loaded with lame logic often breaks the backbone of business.

It takes two to make a bargain, but one persuasive ad, well often make a market.

An appetizing ad. leaves a taste in the reader's mouth which often ripens into a hunger for the thing advertised. A peculiar verbal twist to an ad.

often helps it to draw the cork of pentup prejudice. A business boom loaded with convincing logic and shot through the columns of a mighty medium will

knock piggish prejudice higher than Gilroy's kite.-[Ex.

Wanted-Good Housekeeping.

Young women make a big blunder if they do not learn to take care of home It is a grievous social and moral wrong when girls are brought up helpless in household life. How often do we see mothers busily engaged in domestic duties like a slave, in order that the girl may enjoy every luxury and do nothing; indeed many hardly let their daughter soil their hands. No woman ought to marry who cannot look we'l to the ways of the household. In case fhe may not herself be required to work she ought to be able to see whether the work is done in a proper manner. A woman is out 2f her element unless she is aquainted to a certain extent with the siences of bakeology, boilology, stitchology, makeology, and mendology. There never was a greater blunder than to substitute good looks for good qualities.

The reason why so many men do not make homes for themselves in these days is because they cannot afford. The women are too much averse to working, and too extravagant in all their tastes. We want more frugality, industry and system. If we could introduce these virtues in our highest society we should diminish the envy. jealousy and suicides of the single and the wretchedness, bickering and divorces of the married. Every girl ought to be brought up to have regular domestic duties. Idleness should be forbidden her. The only dignified life is a useful life.—[Labor Tribune.

Two of our best known and popular young people were this week united in matrimony. Will M. Rorick, who for the past six years has been an editor of the Democrat and Miss Minnie Spear in, accompanied by a few intimat friends went to Ubly Thursday afternoon and were there united in the holy bonds of wedlock, by Rev. Nixon, pastor of the M. E. Church. The happy couple returned to this place on the couple returned to this place on the evening train and have taken up their residence at the Morrow House.—[Bad Axe Democrat.

A verbal "wiggle" to a "business bait"

a very cautious "fish."

MORTGAGE SALE.—Default having been made in the payment of money due for interest on a mortgage dated the first day of January, 1890, made and executed by John Hawkins to Edward C. Turner and recorded in the Register of Deeds' office for Tuscola County, Michigan, on the 17th day of February, 1890, in liber 53 of mortgages on page 408, upon which mortgage there is now claimed to be due the sum of Twenty-four Dollars and ninety-one cents (\$24.91). Now therefore, by reason of said default, notice is hereby given that said mortgage will be foreclosed by a sale of the mortgaged premises at public vendue to the highest bidder, on Monday, the 17th day of September, 1894, at one o'clock in the afternoon, at the westerly front door of the Court House in the Village of Caro, Tuscola County, Michigan, that being the place wherein the circuit court for the County of Tuscola is held. The said mortgaged premises are described in said mortgage substantially as follows, to-wit: The northwest quarter premises are described in said mortgage substantially as follows, to-wit: The northwest quarter of the southwest quarter of section eleven, township number thirteen north, range eleven east, being in the County of Tuscola and State of Michigan. Said premises will be sold as aforesaid to satisfy the amount due on said mortgage, the costs of foreclosure and the interest that may account the process of the costs of the c costs of foreclosure and the interest that may accrue thereon between the date of this notice and
the day of sale above mentioned, and subject to
two other payments yet to become due on said
mortgage, one being the principal note of \$500.60,
the other being an interest coupon of \$24.00, both
of which will be due January first, 1895.

Dated June 22nd, 1894.
