The particulars of the death of Wm. Patterson, which was announced in affairs as these the friends should see It appears that about two o'clock in the afternoon of Tuesday, the day of port and that promptly. We extend his death, he asked his wife to go to night was dark in attempting to reach though wondering at him making such a request. After reaching the barn he started to harness the horses and Mrs. Patterson noticed him sliding down the side of the stall. She ran to him asking what was the matter. He faintly answered he did not know. Those were the last words spoken and he fell into a deep sleep. Mrs. Patterson helped him out of the stall and sent one of the sons after his older brother who was working some miles away. While on his way he met Albert Brown who immediately went for the doctor. Dr. McLean was summoned and pronounced it an attack of apoplexy. Mr. Patterson died at 7:30 p. m. the same evening. Deceased was born in Halton county, Ont., in 1843 and moved from Rodney, Ont., to Sheridan sixteen years ago. Five years latter he settled long. Dr. J. M. Truscott dressed the upon the farm two miles north of this place. He leaves a wife, three sons and three daughters, four of whom are living at home. His son William, who visited his home during fair week, had only been away a few days and was unable to return. Mrs. McLean, of Novesta, is a sister of the deceased. Three brothers from Canada arrived in time for the funeral and a brother and sister arrived from Rodney, Ont., on the evening train after the funeral. Jas. Patterson, of this place, a brother of deceased had only recently gone to fill a situation at St. Ignace and could not get here in time for the funeral. The entire community sympathize with the

A Sad Accident.

Robt. Morrison, of Caseville township falls into a culvert.

On Monday morning of last week the body of Robt. Morrison, a farmer who resided one mile east of Hayes post office, was found lying in the culvert just east of the depot at Pigeon. It was learned upon inquiry that Mr. Morrison had attended the Bad Axe fair on Thursday, returning on the evening our last issue, have been handed in. train. By some mistake the old gentleman had evidently left the car while it stood east of the culvert and as the the barn with him, which she did al- the station he fell into the open culvert and must have expired almost immediately, as he struck his forehead on one of the timbers. The funeral took place

on Sunday. Deceased was born in the North of Ireland on July 16, 1819, making him 75 years of age, although he was remarkably smart for his years. He came to Canada in 1844 and to Michigan in 1865. Settled in Caseville township in 1879 where he has since remained. James Curran, of Curran, Flach and Conley, of Caseville, is a son-in-law of the de-

An inquest was held on Monday and jury impanneled. Evidence was aken from a number of railway employees and an adjournment made until Tuesday. Mr. Curran came to Cass City Tuesday morning and got two young men who were on the Thursday evening train to return with him as witnesses. Not until late in the afternoon of Tuesday was a verdict declared. The verdict of the jury was that the railroad was responsible for the death of the deceased.

In what way the road is held responsible we have not yet learned. We take it for granted that the S. T. & H. R. R. is the one held responsible as the culvert is on that track.

The Pivotal Question. Said Sam to Joe, in fierce debate,

When woman goes to cast her vote-

Some miles away it may be— Who then, I ask, will stay at home To rock and tend the baby?"

Said Joe, "I own you've made my case Appear a little breezy; Suppose you put this question by, And ask me something easy. But, since the question seems to turn On this as on its axis,
Just ask the one who rocked it when
She went to pay her taxes,

"Congress protects the American seal, but leaves the American boy to be looked after by the rum sellers."

The defeat of Breckinridge at the Democratic primaries in Kentucky recently is something for the whole country to rejoice over. The defeat was a most emphatic one, and was the result, to a great extent, of the active part taken in the canvass by the women of the district. They organized mass-meetings, issued addresses to the public, held prayer-meeting the night before the primaries, and were present at many of the voting booths on election day. In fact, they did everything but vote, and despite the fact that Breckinridge had behind him the "machine" and all the most skilful politicians of the Democratic Party, and most of the old soldier vote, this protest of the women—with influence but no vote -swept the whole iniquitous combination out of sight. The campaign waged by Breckinridge has been a desperate and audacious one, his "repentence" figuring largely therein. But we have not learned that his repentence has yet taken the form of reparation to the woman he ruined, even to the extent of paying her the damages decreed by the court. True repentance would, it seems to us, have made him the first one to declare that his candidacy was impossible.

DR. PARKHURST continues to harry the feelings of Superintendent Byrnes and calls for the selection of a thoroughly military man as the head of the New York police force.

THERE is a falling off in the number of students entering Princeton college this year, and it is attributed to the fame achieved by hazing in that Institution last year. Not even foot ball has been able to offset this bad eminence.

EXPERIMENTS show that a grain of wheat reproduces forty-fold. Every pound should bring forty. It, therefore, follows that much of our seed wheat is wasted when we sow one and around his heart, just as around each one-fourth bushels an acre, and got from ten to twenty.

A REPRESENTATIVE of the French government has started for Madagascar to have an understanding with the Hova government. The same ambassador had an understanding with the king of Siam, the result being that a French dependency.

THE board of awards of the world's it, examined over 200,000 exhibits and made 23,750 awards, from which left the home where God was woronly five appeals were made. That is certainly a creditable showing. There a palace devoted to pride, idolatry and are ordinarily more appeals than that sensuality! "As a lamb to the slaughover the awards at a county show.

Our country needs to study the system of forest guardianship practiced in Europe and Canada. The protection provided for in Germany, for instance, is almost perfect. The American pioneers have been a vandal people, cutting away forests without rhyme or reason, and paving the way for the very desolation from which their descendants are suffering.

PEREGRINE must be a girl's name in Pittsburg, for the Pittsburg Despatch sands of households, and mothers speaks of Peregrine White, the first wildly pressed their infants to their white child born in New England as breasts as the days of massacre hast-"she." Perhaps the oddest mishap ened on, praying that the same sword that ever befell the name of Peregrine stroke which slew the mother might happened in a London newspaper ac- also slay the child, rosebud and bud count of the funeral of the Wellington, wherein Sir Peregrine Maitland appeared among the mourners as Sir Peregrine Pickle.

THE arrest of Captain Henry Howgata, formerly chief of the weather bureau at Washington, in New York, after a thirteen years' search, conplace is in a metropolis. Howgate, after embezzling \$360,000 of governsecret service agents of the government have been in search for him in Unbearded youths grew every part of the inhabitable globe, but without success.

By mutual agreement this country and Great Britain undertook to protect the Behring sea seal fisheries from poachers and pirates of all nations whatsoever. The United States has maintained a fleet of nine vessels in the service at a cost of \$400,000. while Great Britain has kept but one vessel at a nominal cost. Owing to England's failure to do her part the patrol has been ineffective, nearly every poaching sealer getting away heavily laden with skins.

FRANCE has at least the virtue of perseverance in her colonizing efforts, and the army of 5,000 she is about to send to Madagascar to take possession of that island will be able to hold the capital beyond doubt. Four of the coast towns are now in French possession, and from these a successful advance can be made. But Madagascar in area is equal to four or five American states and is covered with dense ferests. It will be a long time before France can open any large portion of its territory to settlers.

GOVERNOR O'BRIEN of Newfoundland is credited with being in favor of annexing to the United States rather than to Canada. Newfoundland is not, as many suppose, a province of Canada, like New Brunswick, Nova Scotia, Ontario, etc., but is separate and independent save in a certain illdefined allegiance it owes to Great Britain. The shabby treatment received from the home government in the French shore matter has tended to alienate the Newfoundlanders so that it would scarcely require much more than a crook of Uncle Sam's finger to induce the codfishing country to become a part of us.

WITHOUT in the least derogating from the credit due to sanitarians for the great work they have in many ways accomplished for society, it is certainly not out of place to hint that it is just possible they have made some mistakes, and that their science is yet far from having spoken its last word.

When a store is crowded with customers an impression is created that something is being sold there worth the buying. For this reason the crowd attracted to a store by advertising usually attracks another crowd.

HADASSAH, THE LOVELY JEW-ESS OF SHUSHAN

The Most Beautiful Character in the History of Religion-She Cared Nothing for Earthly Joys and Met Martyrdom With Gentle Firmness.

Brooklyn, Oct. 7, 1894.—Rev. Dr. Talmage, who is still absent on his round-the-world tour, has selected as the subject of to-day's sermon, through the press: "Hadassah," the text chosen being Ester II: 7: "And he brought up Hadassah."

capital of Persia. She was an orphan and a captive, her parents having been stolen from their Israelitish home and carried to Shushan, and had died, leaving their daughter poor and in a strange land. But an Israelite who had been carried into the same captivity was attracted by the case of the orphan. He educated her in his holy religion, and under the roof of that good man this adopted child began to develop a sweetness and excellency of character if ever equalled, certainly never surpassed. Beautiful Hadassah! Could that adopted father ever spare her from his household? Her artlessness; her girlish sports; her innocence; her orphanage, had wound themselves thoroughly parent's heart among us there are tendrils climbing, and fastening and blossoming, and growing stronger. I expect he was like others who have loved ones at home-wondering sometimes if sickness will come, and death, and bereavement. Worse than anything that the father expects happens to his adopted child. that country is now little better than Ahasuerus, a princely scoundrel, demands that Hadassah, the fairest one in all the kingdom, become his wife. Worse than death was marriage to fair, or the committees acting under such a monster of iniquity! How great the change when this young woman shipped and religion honored, to enter

Ahasuerus knew not that his wife was a Jewess. At the instigation of the infamous prime minister the king decreed that all the Jews in the land should be slain. Hadassah pleads the cause of her people, breaking through the rules of the court, and presenting herself in the very face of death, crying: "If I perish, I perish."
Oh, it was a sad time among that enslaved people! They had all heard the decree concerning their death. Sorrow, gaunt and ghastly, sat in thou-

duke of perishing in the same blast. hard heart of the king is touched by her story, and although he could not reverse his decree for the slaying of the Jews, he sent forth an order that they should arm themselves for defense. On horseback; on mules; on dromedaries, messengers sped through firms the theory that the safest hiding the land bearing the king's dispatches, and a shout of joy went up from that enslaved people at the faint hope of ment funds, disappeared in 1879. The success. I doubt not many a rusty blade was taken down and sharpened. stout thought of as giants at the defending mothers and sisters. Desperation strung up cowards into heroes, and fragile women grasping their weapons swung them about the cradles impatient for the time to strike the blow in behalf of household and

country. The day of execution dawned. Government officials, armed and drilled, cowed before the battle shout of the oppressed people. The cry of defeat rang back to the palaces, but above the mountains of dead, above 75,000 crushed and mangled corpses sounded the triumph of the delivered Jews, and their enthusiasm was as when the Highlanders came to the relief of Lucknow, and the English army which stood in the very jaws of death, at the sudden hope of assistance and rescue, lifted the shout above belching cannon and the death-groan of hosts, crying, "We are

saved! We are saved!" My subject affords me opportunity of illustrating what Christian character may be under the greatest disadvantages. There is no Christian now exactly what he wants to be. Your thing you have attained unto. If there up as to be throroughly satishas already attained, I have nothing to say to such a one. But to those who are dissatisfied with past attainments, who are toiling under disadvantages which are keeping them from being what they ought to be, I have a message from God. You each of you labor under difficulties. There is something in your temperament; in your worldly circumstances; in your calling, that acts powerfully against you. Admitting all this, I introduce to you Hadassah of the text, a noble Christian, notwithsthnding the most gigantic difficulties. She whom you might have expected to be one of the

illustration of what Christian character may be under orphanage. This Bible line tells a long story about Hadassah. "She had neither father or mother." A nobleman had become her guardian, but there is no one who can take the place of a parent. Who so able at night to hear a child's prayer; or at twilight to chide youthful wanderings; or to soothe youthful sorrows? An individual will go through life bearing the marks of orphanage. It will re-

quire more strength, more persistence, nore grace, to make such an one the right kind of a Christian. He who at 40 years loves a parent must reel under are accustomed to rely upon the counsel, or be powerfully influenced by the advice of parents, if they are still alive. But how much greater the bereavement when it comes in early life, when naturally the heart is unsophisticated and easily tempted.

And yet behold what a nobility of disposition Hadassah exhibited! Though father and mother were gone, grace had triumphed over all disadvantages. Her willingness to self-sacrifice; her control over the king; her humility; ers. You came across the seas. The con was passed. her faithful worship of God, shows her to have been one of the best of the world's Christians.

A beautiful child was born in the tive of the text, you were an orphan. You had huge sorrows in

> pressure of poverty. The captivity and crushed condition of this orphan girl, and of the kind man who adopted her, suggest a condition of poverty. Yet, from the very first acquaintance we had with Hadassah we find her the same happy and contented Christian. It was only by compulsion she was afterwards taken into a sphere of honor and affluence. In the humble home of Mordecai, her adopted father, she was a light that illumined every privation. In some period in almost every man's life there comes a season of straightened circumstances when the severest calculation and most scraping economy are necessary in order to subsistence and respectability. At the commencement of business, at the entrance few and the world is afraid of you because there is a possibility of failure, many of the noblest hearts have struggled against poverty, and are now struggling. To such I bear a message of good cheer. You say it is a hard

thing for you to be a Christian. This constant anxiety, this unresting calculation, wear out the buoyancy of your spirit, and although you have told perhaps no one about it, can not But Hadassah is busy at court. The I tell that this is the very trouble which keeps you from being what you ought to be? You have no time to think about laying up treasures in heaven when it is a matter of great doubt whether you will be enabled to pay your next quarter's rent. You can not think of striving after a robe of righteousness until vou can get means enough to buy an overcoat to keep out the cold. You want the bread of life, but you think you must get along without that until you can buy another barrel of flour for your wife and children. Sometimes you sit down discouraged and almost wish you were dead. Christians in satin slippers, with their feet on damask ottoman, may scout at such a class of temptations, but those who themselves have been in the struggle and grip of hard misfortune, can appreciate the power of these evils to dissuade the soul away from religious duties. We admit the strength of the temptation, but then we point to Hadassah, her poverty equaled by her piety. Courage down there in the battle! Hurl away your disappointment! Men of half your heart have, through Christ, been more than conquerors. In the name of God, come out of that! The religion

of Christ is just what you want out there among the empty flour barrels and beside the cold hearths. You have never told any one of what a hard time you have had, but God knows it as well as you know it. Your easy times will come after awhile. Do not let your spirits break down mid life. What if your coat is thin? Run fast enough to keep warm. What if you have no luxuries on your table? High expectations will make your blood tingle better not afford to smoke, you can afford spirits are not sufficient; the power of

sepulchres of your dead are far away. There are those who did not can not forget the place of your birth, ularly in summer, for it must be cool enjoy remarkable early privileges. though it may have been lowly and up in the air. Then, of course, when Perhaps, like the beautiful cap- unhonored. You often dream of your youthful days, and in the silent twilight run off to the distant land your little heart. You sometimes wept and seem to see your forsaken times even on the playground. Your you may have hundreds of friends to see what was to be seen. father or mother did not stand in the around you, you often feel that you and you have sometimes offered you in the ship's cabin floundering sailing round over Coney you would like to be. But these a strange shore, and your wanderings And I should think the soap men or excuses are not sufficient. God's grace up and down this land have been under will triumph if you seek it. He knows an eye that never sleeps, and felt by a what obstacles you have fought against heart that always pities. Stranger, far and the more trial the more help. from home, you have a companion in After all, there are no orphans in the the beautiful Hadassah, as good in Suworld, for the great God is the Father | shan as in her native Jerusalem. Indeed, very many of you are distant from Again, our subject is an illustration | the place of your nativity. Some of of what religion may be under the you may be pilgrims from the warm south, or from harder climes than ours, from latitudes of deeper snows and sharper frosts. You have come down in these regions for purposes of thrift and gain. You have brought your tents and pitched them here, and you seldom now go back again except to visit the old village with wide streets and plenty of trees, on some holiday. This is not the climate in which many of you were born. These mothers are not the neighbors who came to the old homestead to greet you into life. These churches are not those under the shadow of which your grandfather was burried. These are not all ministers of Christ who out of the baptismal font sprinkled your baby brow. Far away the kirk! Far away the homestead! Far away the town upon a profession, when friends are Have you formed habits which would not have seemed right in the places and times of which we speak? Have you built an altar in your present abode? Is the religion of olden time once planted in your heart come up in Is your present glorious harvest? home an eulogy upon that from which you were transplanted? Then are ye worthy companions of Hadassah, the stranger as holy in Shushan as in

Jerusalem. EXCHANGED HATS.

A Louisville Man Who Blundered About His Headgear. "Well, sir," said a well-known Louexperience recently. I invariably sleep until the very last moment, and then make a rush for the breakfast table and the car. That morning I had but five minutes to get through eating and catch the car that passed my door. I fairly poked things down the street. As I passed through the hall I snatched a hat that was hanging on the rack, and just reached the corner in time. Then I dropped into a seat and took the morning paper from my pocket. It was not long

"After a while I turned fiercely to one of them and asked what it was that seemed to amuse him so. He trembled and managed to gasp out that I had on my wife's hat. It was high tower. We saw rivers and fields even so, and there was one of these and farm-houses and orchards and long, gaudy, yellow pins that women use to keep their headgear in position, sticking in it. I was so mad that I jerked it off and threw it into the street. Then everybody in the car roared, and I felt truly furious, When I reached a hat store I stepped in and bought me a hat of the mascu line variety. Several hours afterward my wife dropped in at the store, and she was wearing my hat. There was a pin in the back of it, and the little face veil swinging from the front, but it was my hat. I didn't say a word, and that woman is wearing it yet. What bothers me is that everybody found out the joke on me, and nobody has noticed it on her."

TAUGHT HIM THE MANLY ART

How a Thin-Legged, Narrow-Chested Boy Surprised His Assailants. A well-known Philadelphian, who in his youth was given a little to sport, has a particularly fine boy who is very spirited. At school he suffered very much up to a few months ago from bigger boys, who abused and "pounded" him. Enjoining the lad to the strictest secrecy, the father employed a retired pugilist, a little bit of a fellow, and had him give the boy lessons several times week in boxing. At odd moments he practiced with the boy himself. Fininvestment. It is not often that ally the lad, with that assurance and positive beggary, but among those who sense of prowess which comes under such circumstances, wanted to be loose, but the father held him back until he felt perfectly satisfied. Not long ago he told his son to go ahead. An opportunity soon presented itself. and it would be hard to describe the sensation that followed when the young whipper snapper who had been who with strong arm and skillful brain taking thumps for a year or two sailed n and laid out completely two of the biggest bullies and braggarts in the name driving back the seas. Had-

#### BILLY A BALLOONIST.

"One of my most thrilling experiences occurred when I was aballoon-

The clock had just struck 9, and of a city. Heads as strong as hers had | Billy, waking up to the exigencies of in a strange land. Yet in that lonliness she kept the Christian's integrity, time of small boys. Truly, Billy was

So I smiled and yielded. "Is it long Perhaps, I address some who are now since you were a balloonist?" I asked. Billy drew a deep breath. The Rubi-

"A few years," he replied, careless-Whatever may be the comfort and ly. "I always had thought a balloon adornment of your present home, you experience would be pleasant, particyou are high enough to see everything there must be lots of things to see.'

"True, true, my dear Billy!"
"So after thinking over the matter a long while I got another fellow to in the night when you knew not what home, just as it was when your peo- join with me, and we decided to hire a and the wind drew the balloon along was the matter. You felt sad some- ple were all alive. Though balloon and take a ride up in the air

"We got a great big balloon, and we door to welcome you when you came home from a long journey. You still feel the effect of early disadvantages, families were scattered. He watched solve the second was a second with the side of the same paint a soap advertisement on the side, and that reminds me," interpolated families were scattered. He watched Billy, "that I don't see why a balloon them as a reason for your not the stormy seas. He knew the be- wouldn't be a great deal better fun being as thoroughly religious as wilderment of your disembarkation on than a yacht sailing past on the water.

"Now We're Off." the tobacco men would try it for

change. "Well, we got a great big balloon, and we took it out into a field so as to have plenty of room to go up, you know. Then we told all our friends what we were going to do, so they all came in a crowd to bid us good-by, for they said we might be dashed to pieces or come down in the middle of the Atlantic Ocean and be drowned. And lots of men held theb alloon with great big ropes until we got into it, and then we got in, and waved our hats and said

And then the men let go the ropes and the balloon gave a rush and all the people began to cry and said 'Fareisville man, "I had an embarrassing well; Oh, farewell!" and we said; 'Now we're off!'

"Then, the first thing it looked as if the earth and all the people began to fall down, down, down. And every thing got smaller and smaller. It did not seem as if the balloon moved at all, but only as if all the other things did. The houses and the trees and the my throat, and hearing the clang of fences were running away from us, the motorman's bell I made a rush for and we were standing still and looking at them. It's like when you're in a railroad car that's going fast, and it seems all the time as if the trees and houses and people were flying past you and you sat still and looked at

"We had a lot of provisions with us until I heard a gentle tittering from for we thought we might like to sail some dry goods clerks in the seats around in the clouds for a few dayys, behind me. They kept it up and and, of course, we might get hungry. somehow I got an idea into my head that they were laughing at me.

And I asked Harry, the other fellow if he'd have a sandwich. But he said he felt a little weary with the start, and he hadn't got used to sailing around in the clouds yet, so he'd wait. "And by this time we could see all the country, like as if we were up in a

churches and houses and hills and oth-

'We Are Going to be Drowned." er great buildings. We were too far off by that time to see any people the people got to look like little ants, and then they vanished altogether. And I think," meditated Billy, "that if any people ever could live up all the time in the clouds that the people that stayed on this earth would seem very small potatoes to them." "Truly, you are right, my dear," I sighed, "nearer right than you know." "Well, by and by, we thought we would like to sail a little nearer to earth, so we pulled a little string to open the valve that lets the gas out. And we began to sail down a little nearer the earth. We passed a lot of hills, and then a long flat place, and then we began to look down over the ocean. The ocean looked awful big, and flat, too, at first, but after a little while we began to see the waves dashing up on the shore, and we thought | Leader-

we could hear them roaring. And when Harry thought that he began to roar, too, but I wasn't afraid a bit of course.

"He said: 'Oh, we are going to be drowned!' And I said: 'Nonsense: no. we ain't.' For I knew I always got home before, and why shouldn't I do it now? And he said: 'Yes, I will be Billy, waking up to the exigencies of drowned.' And I said: Well, if you the occasion, was ready to spin out one will, I won't, anyhow.' So I showed him how to climb out of the balloon and hold on to the side, so, while we were near the shore, he could jump overboard and be near enough to swim to land. So we climbed out and said: "Now we're off."

"That must have been quite a thrilling moment, Billy."
"It was," responded Billy, solemnly.
"Why, I even felt a little bit uncom-

fortable myself for a minute. I never did like to drop into the water, unless I had my bathing suit on. 'It is best so," I agreed. "Yes, but we didn't drop in, after all the balloon just scouted along over the

water, and then a brisk wind took it, and we saw it was beginning to sail back over the land again. So we concluded to climb back into the car, so near the trees that we thought we had better throw out some sand bags and go up in the air again. So we did. and presently we were sailing around over the hills and past the trees, and the fields, and the churches, and the villages and the farm-houses. " 'It looked like the same country,

Harry said to me.
"I thought it was the same country myself, so we waited awhile and presently we began to see that we were coming back to the same place, so Harry began not to get so frightened. And at last he began to distinguish the same field we had started from. And Harry said: 'Well, I'm glad we got back again and I guess we had better go home now. I think the balloon wobbles about too much for me to like to eat my supper in it!" And I said: 'All right'.

"So when we came to the field there were people all crying and saying: 'Ah, we shall never see them more!' And then we hollered "Here we are" and the people all stopped crying and said.

"So we pulled the string of the valve, and we pulled it so hard that nearly all the gas came out this time, and the balloon came down awful swift-kerplump—I—tell—you! "And it came down so hard that

Harry and I were bounced out on the ground. We didn't have time to call t a jump, but we both hollered out: Now we're off!", and so we were." 'I don't think that experience was quite so thrilling as some of the other tales I've heard you relate, Billy," I

"Well," retorted Billy, "if you was a boy and had your Sunday suit on, and not your bathing suit, and expected to fall into the water every minute, and couldn't tell what your mother would say when you got back, I guess you'd think it was a thrilling moment. too!" "Perhaps, I would, Billy," I said

thoughtfully. Your reproach is just. I have never been placed in exactly that position myself, so of course I can't judge." "And then," pursued Billy, "it's hard FINEST LINE! enough to fall out on land, but if you

you know where you are, but if you fall out on the water, where are you? "True, true, Billy, my dear. My only stronghold is my maternal authority And Billy went.

CYCLIST AND COYOTES.

The Experience of a Wheelman Wh Lost His Way.

Teddy Dolson on Friday night had an experience compared with which Tam O'Shanter's famous ride pales into in significance. Instead of the horse with which Tam was equipped, Teddy had a bicycle; in the places of the witches that pursued and plagued and almost crazed the Scotsman, the Cheyenne man was followed by hungry coyotes. ram, too, had taken a generous libation of usquebaugh, while Dolson's only refreshment was a hearty supper.

Friday evening, according to his habt. Dolson started out for a bicycle run He had intended to go a few miles south, then return, but, being unac quainted with the country, lost his way and in endeavoring to regain his bearings lost himself entirely. He wheeled on in the direction that Cheyenne seemed to him to be, arriving at 8:30 o'clock at Wheeler's ranch, twenty miles from the city.

There he was directed how to get back to town, and started back on the On and on he rode, but in no fixed direction, for in the darkness he had promptly lost his way again on leaving the Wheeler ranch. As he wheeled along in the gloomy night over the untracked prairie, wishing for nothing on earth so much as a comfortable bed, he became aware of the fact that he was being closely followed.

Behind him was a pack of yelping howling coyotes, that were close upon him before he noticed. Their intention was so evident that his waning ener gies were awakened with a thrill He bent over his wheel and pushed it as fast as he could over hill and valley, but always closely followed by the coy

To add to his misfortune, he broke a

pedal in attempting too great speed, and was on the point of giving out and letting the hngry coyotes do their worst when he espied a deserted shack a short distance away. To this he hasttened, and, abandoning his bicycle, quickly climbed upon the roof that slanted up from the ground. Even here the coyotes followed him, but the coign of vantage and place of refuge was found on the top of a chimney All night he remained there, at times driving away his pursuers with fragments of brick, which caused their re treat to a short distance, whence, after a series of lugubrious howls, would return to the attack. At day light they departed with a parting salute of angry howls, and Dolson Wimb ed down and mounted his bicycle soon reaching Pierce Station, on the Denver Pacific, thirty-eight miles from Chey-

enne. He was unable to get breakfast until he reached Carey, and arrived here at 8:30 the next morning. The hardest feature of the whole night's experience, he said, was the fact that he had two cigars in his pocket and not a match to light them. He was badly used up by night's experience.-Cheyenn

UNDER THE MAPLE TREES.

- They parted at night in the maple bower-A soldier clad in the loyal blue.
  The maiden's check, love's wine red flower,
  And the golden hair was a halo fair
  That the branches showered with silver dew,
  A missive tears on the lovers true
- She hears the trum from the distint town
  And leaps as a fawn from her snowy bed:
  Her hair like billows fallin; down—
  "The bugles of morn are over the corn;"
  "My love is going," she, weeping, said,
  Under the maple trees.
- "I see his sword and cap of blue—
  He is waving to me a last farewell:
  (Old as the world, yet our love is new)
  Their buttle hymns are but r quiems;
  My sad heart hears a funeral bell
  On winds that si'n for a soldier's knell,
  Under the maple trees."
- The China leaves have a crimson stain,
  The tide of battle is flowing far:
  Over Chickamauza's clouded plain
  The pine's dark plunies o'er forest rooms,
  Outline the shifting surges of war,
  (Visions reveal love's falling star,)
  Do I dream 'neath the maple trees?
- Love's star is set, and the maple boughs Hold banners of bloo! above my head; I shall list no more to love s low vows, Yet the mournful drum says peace to come. Love and death together are wed, "The victors are conquered," the maiden
- said Under the maple trees. Bow low, ye trees of the Northern land. Weeping with those of the Southern over deep, dark graves, we may clasp the
- of maidens there with the shining hair,
  Love weds with death in their midnight dreams,
  The China tree as Charon gleams,
  Touching the maple tree.

### MY JO, JOHN.

BY HELEN B. MATHERS.

CHAPTER IV. It was two o'clock in the morning, and Mary was standing by the halfopened window, listening to the last echoes of the night traffic dying

She was sorry when it ceased, for, all alone in body and spirit as she was, the hum and movement, the without, insensibly soothed her, and when the last sound had ceased, her ears ached with listening for

There was no sound in the street below, save some steps that at regular intervals passed the house, and seemed to come back again, then again return, and she said to herself idly it must be the policeman on his beat, and she was glad he stayed so

But presently the steps ceased altogether, and not long afterwards Mary heard a movement in the next room, and her heart bounded, for she knew that it was John.

She stood looking at the closed door that suddenly struck her as an offense to herself, for had he not practically ordered Fletcher to shut

Why was it shut? What had she done that it should be closed upon her? Then love conquered pride, and she took one timid step forward -only one-and in the same moment heard the key turn in the lock.

Then indeed Mary forgot to be good, and soared high on a wave of passion and wounded pride, that when it had spent itself in dumb fury left her shocked and ashamed at her own capacity for evil, and yet for all her shame so hardened that no power on earth could have induced her now to take another single step

out of his room, as though she were a guilty creature, a thing accursed, when she had tried with all her strength to put self by and do her

duty.

Cold and calm she extinguished the light, and laid her down to sleep. Morning found her sleepless, but still calm, for now her pride had so entirely encased her heart that it was beyond the possibility of pain to wound it.

#### CHAPTER V.

Martha Fletcher was brushing out her mistress' hair before the mirror, and glancing from time to time at the pale, composed face before her. She had returned early in the day. and to her astonishment found Mrs. Anderson not yet down, though that lady had long ago taken her breakfast in bed, and was moving about the room putting things together here and there, either as if she meant to rearrange them, or to take a journey.

Fletcher had not condescended to enlighten his wife as to the state of Between this pair had waged ever

since their marriage (Martha had been maid to Mary for twenty years, Fletcher valet to his master for about the same time, and they had married from sheer propinquity) a never failing duel as to which should be master, and after ten steady years of quietly vigorous efforts on both sides, they were wary combatants still-and stood even. Mary, secure in her own happiness,

had watched with varying emotions the tactics of the opposing parties, but concern had at last given place to an intense amusement that she often shared with Tom, whispering into his car any particularly diverting skirmish between the pair reported to her by Martha. True, Fletcher had the great ad-

vantage of being a man, and therefore superior to nerves, and a thousand feminine weaknesses, but on the other hand Martha was much sharper of wit and more agile of tongue, naturally, so that often she got the advantage of him, though his impenetrable front did not suffer her to fully enjoy the fruits of

Martha did not flirt, did not live to dress, and consequently had plenty of spare time in which to walk about, and talk-talk to a man who seldom or never answered her. There lay the sting—if only he would

A woman of Martha's class usually good." talks about a man before she is married, and at him afterwards, and if she was looking at a row of minia- and thirtz-two in France.

she pens all her grievances up in her tures that she had unhooked from NOTES throat, they eat inwards to her heart like a moral cancer that in time will kill her, but a man does not recognize the healthfulness of such a safety-valve; he curses only her garrulousness, and does not feel enough think enough to do himself an inthat for his part he considered he and master got on much better as bachelors while she and her mistress

Mary had laughed, and always took about him, knowing that the little woman really adored him with all her heart.

were away, than when they were

Only she would not be mastered. Martha was resolved on that point. Why should she? every bit as good as he out of your bed and carried you to was—and better. Certainly she her side that you might lay the never bore any malice, and you can always trust a woman who bangs a door in a rage, but beware of the one who goes out quietly and squeezes the door handle.

"I don't understand the men," Martha would say, rolling her nice round arms up in her pink cotton sleeves, "I can't make them out, ma'am, and that's the truth."

And she would adduce such a long list of men who made their wives lives a misery to them, till Mary would come to the conclusion that it must be true, only she had the one exception to the rule.

Martha's bosom was this morning evidently bursting with a grievance, and presently out it came.

"What do you think, ma'am?" she said, as she began to pile Mary's hair up, "I'd hardly got into the house, when Fletcher told me that life that beat in such full current he knew me by my waddle right from the other end of the street. As if such a scare-crow of a man oughtn't to be thankful to have married something comfortable. Dear me, how these tall, thin people do fancy themselves!"

Mary smiled faintly as she looked at the two reflections in the glass. Mistress and maid were both brown-haired, blue-eyed, beautifully complexioned, both were round and soft and cozey-looking, but Mary was the taller by at least three inches. Both were domesticated women, with no interests whatever save home ones, and each had an only child whom she adored, and was a mother

to the heart's core. Tom was nearly always away, and little Molly lived in the country with her grand-parents, but mistress and maid often talked of their children together, and were thoroughly good friends at all points. "Martha," she said, suddenly,

would you mind being away from Fletcher for—for a time?" Martha started, and looked appre-

hensively in the glass. "You're not going to send him away Ma'am, are you?" she said, the corners of her mouth falling, "he's

got his faults I know, but he is a good servant, and serves you and master faithfully."
"Especially his master," said Mary, grave and pale. "No, I have no idea of his leaving his master.

Locked out of his heart, locked But I am going to Pigeonwick, Martha, for an indefinite time" (her blue eyes met the other astonished blue ones in the glass), "and I should want to take you with me, and of course your master could not do without Fletcher." Martha went on mechanically and

blunderingly putting in hairpins. Her mind was in a whirl, her thoughts were chaos-it was natural enough to her to live with Fletcher on the terms she did, but a quarrel between her master and mistressone that entailed a division of household and dwelling place—she thought she must be dreaming till her eyes fastened on the sternness of Marv's face, and then real concern moved

"Ma'am," she said, "you're not angry with master, are you? And him so helpless and almost as if he was a baby, looking to you and depending on you for everything! Why, he's just lost without you, and goodness knows where he'd wander corps is that a member of that auif he hadn't got you to come home

"He has wandered far enough while I am here," thought Mary, bitterly, but aloud she said, 'and I am going as soon as possible. Indeed, I have set my heart on going | given at one of the private houses within three days; so you must work on the same evening of the presihard, Martha, and I will help you to dential reception to the diplomatic

round the pretty room, then sighed ing were obliged to first change the hopelessly, as if Mary had talked of court costume worn at the White packing up and removing the world. house. Inquiry on the part of curiand said, "You mean, ma'am, just ous friends developed the reason just linen and clothes as usual?"

"No-I mean everything-everything that is mine, but nothing, remember, Martha, nothing, not a stick or atom of anything belonging to Colonel Anderson."

She had risen, and as she turned. faced that shut door, which mutely proclaimed her disgrace (but the key of which was now on her own side) and her soft mouth hardened as she looked at it.

"Of course, Martha," vou can remain here if you can't bear to leave Fletcher—but if so, you would have to cook for your master. In that case I should take the cook and Polly with me.

"As if I should leave you, ma'am," said Martha, indignantly and thinking that, after all, this would probably blow over in no time, and everything be comfortable as before; 'and the place will be looking lovely now; and you haven't been well lately, ma'am, and the change will do you

the wall, and that now lay on a table

near. Those little golden heads, all gone, how she had longed once to put weights on them to keep them down, because she thought they would as a rule, to want to talk about it, or grow up too fast, and slip away from her, and God had decreed that they jury. And Fletcher profoundly de- should never grow up or sin, or spised women. He had gone so far suffer, but be always her own little as to tell his wife on one occasion children clinging to her with little warm loving ways that now she must forever go cold without.

Only Tom was left. Tom, whom year after year she watched, reckonng each day as one more in which he was granted to her, yet seeing Fletcher's part when Martha railed always his dead face lying in the Martha came near and looked over

> er mistress' shoulder. "Do you remember, ma'am," she said, "how when Miss Dolly lay in She was her little coffin, master lifted you flowers about her pretty face?"

Mary did not stir. "And how Master Duckie, when he the fever-put out his hand, and engines to pull up the heavy grades. pushed one of your hairpins back The tunnel is 9,400 feet long, and is

over him?" Mary turned abruptly away, her hands clenched, and a spasm of mortal agony convulsing her features. Did she not remember? Oh God! And she would not remember . . She had work to do, and it must be done quickly, or not at all

"And now, Martha," she said quietly, "we will begin to pack." CHAPTER VI.

"What is the meaning of it all?" said Martha, as she shut herself smartly into that temple devoted to silver, glass, and such like, which Fletcher looked upon as his special sanctum, and in which he hated to be disturbed.

"Matter?" said Fletcher, with a snarl, as he lifted his bald head and tall thin person from over the silver spoons he was rubbing furiouslyit means that missus has just worn master's patience out at last, and he's made up his mind to live by hisself-small blame to him."

This was only a guess, and he ooked keenly at Martha to see it he were correct.

"Pooh!" said Martha, taking a seat with an air that meant aggravation. "It's missus won't stay with him, you mean. A nice poor stick he'd be without her to bolster him up! But what's he been doing, I wonder? I shouldn't have thought he'd got spirit enough to get into a scrape!

Fletcher snorted violently, nodding his head up and down, and at the same time contriving to shake it, in a peculiarly irritating manner. "You needn't look like a fool, if ou are one." said Martha, comfortably, "and if you think you'll be able to do anything with master, keep him tidy, or happy when missus is gone, you're mistaken. You'll just to prop each other up, and both coming to the ground.

Fletcher laughed shortly, and flew at a silver tankard, expending upon an enormous amount of superfluous elbow grease.

"Those baggages in the kitchen don't know anything about it," said Martha, with a sudden change of "Who's to tell 'em?" said Fletcher.

scornfully, "unless it's you or me? And can't missus go to her country house on a visit without folks talking? Our family ain't none of those wretched fashionable folk as lives for society and that rot-and you had better take cook and leave Polly. Polly and me can manage quite comfortable for master.

"Can you?" said Martha, fiercely, and growing extremely red. She would never admit it, but she was really intensely jealous of Fletcher. and greatly overrated the charms of his elegant manners (upstairs) and decidedly distinguished appearance. [TO BE CONTINUED.]

The Diplomatic Corps. An interesting fact not generally known in regard to the diplomatic gust body cannot, under the penalty of of cial reprimand and danger of recan, appear at a fancy ball in the national court costume. This fact was developed during the past winter when a large fancy ball was corps. Those of the diplomats who Martha rolled a bewildered eye attended the ball later in the evenstated.

Bathing Suit Laws in New Zealand. By way of showing how Mrs. Grunlyism flourishes wherever the British flag flies, a reader at Napier, New Zealand, sends Labouchere's Truth a copy of the new bathing bylaw which has been promulgated there. One provision is as follows: "Every person bathing in the sea, or in any river or other water within, or within one mile of, the boundaries of the borough of Napier, shall be attired in a decent and proper bathing dress, extending from the shoulders to the knees, no white or flesh color or net garments to be worn."

Varieties of Potatoes.

The potato, so long a staple food, has developed almost innumerable varieties. Forty are easily distinguishable, but there are many others with slight and almost imperceptible differences. There are nineteen varieties of the white potato in America, eighteen in Ger-Mary did not seem to hear her; many, twenty-six in Great Britain

OF SCIENCE.

LATE DEVELOPMENTS IN IN-DUSTRIAL FIELDS.

The Ivanhoe Tunnel the Third Longest in America-A Musical Paper Knife-Some Chemical Discoveries-Notes and

HE IVANHOE tunnel, the third longest in Ameri. ca, is cut straight through the back-bone of the Rocky Mountains from Busk, a small ham-let fifteen miles west of Leadville, Col., to Ivanhoe, another little village on the western side of the main

range. The tunnel was designed to save the Colorado Midland Railway a steep climb to the summit of Hager man Pass, and over seven miles wasted was dying-so strong he was for all in the curves necessary to enable the nto place, when you were leaning only surpassed in this country by the famous Hoosac tunnel and the Bowlder tunnel, in Montana, the latter of which is only 300 feet longer than the Ivanhoe. Where the Ivanhoe enters the mountain at Busk, the altitude is 10,800 feet. This is a much greater altitude that that of St. Gothard, which at Goeschenen enters the ground at a height of 3,640 feet above the sea level and emerges at Airolo, on the Italian side, at a height of 3,756 feet. The road over the St. Gothard Pass is 22 miles, and the tunnel, with its length of 91/4 miles, thus saves 12% miles. The Ivanhoe saves much more in proportion, lessening the distance between Busk and Ivanoe by over 7 miles in its length of less than 2 miles.

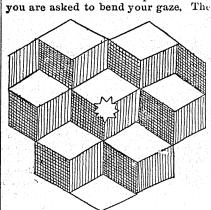

Will We Ever Fly.

According to some recent discoveries many of the navigators of the air have been working upon altogether mistaken premises. They have failed to take into account the action of cur rents of air a given distance above the earth's surface. The first important point to decide in the construction of flying-machines is the relation between power and weight. It is held by those who have given much time and thought to experiments in this line, that fifty to one hundred pounds is the limit of weight that any machine built on recognized theories can lift from the ground. But this idea may be very far from right, especially in machines constructed so as to move with great rapidity. A water-wagon might be constructed, provided it had instead of the usual tire a series of hands or paddles that could be brought down with a sharp blow upon the surface of the water and as quickly raised. Before it could sink, the water must be displaced; but before this takes place the paddle be two doddering old fools, trying for another blow. So with flying. The is up in the air again and ready aeroplane will gain power and consequent speed just in proportion as it can use a body of air as a steppingstone before displacing it. The more forcible, quick and elastic the blow the more power can be accumulated before the air gives way u der the stroke. The blade of the aeroplane gets into position by cutting the air with its thin edge, then instantly takes a horizontal position and lifts by what may be called a slap upon the air. If the flying-machine ever becomes a success, it will undoubtedly be made upon these lines. There must be extreme strength and lightness of machinery, and extreme rapidity of motion in order to acquire lifting power. This must b obtained by aeroplanes that move so quickly that they get their purchase pefore the air has time to move out of the way. Fine steel is the aerial navigator's metal, as it is, withou

> than aluminium or any of its alloys. Look at the Star.

doubt, stronger weight for weight

Neat little cards, printed upon which are six cubebs, are now all the rage. There is a little star in the cen ter of these cubes and upon this star

effect is magical. The cubes are ar ranged, as in the accompanying cut with three blocks on the bottom row two on the next and one at the top. Look steadily at the cubes a min

You will notice a sudden change Keep on looking and there will be an other. First there will be two cube at the top, three in the middle an two on the bottom row. The star you will find in an entirely differen place than in the picture. No one seems able to explain it, and

all who have seen it are in a dee quandary as to what causes the pecu liar change.

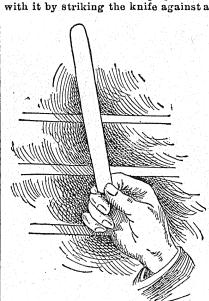

Utilizing Waste Matter.

A few years ago there was an enor mous waste of material of blast fur naces and the various smelting estab lishments, as well as about glassworks Recently the suggestion has been made that some of this waste l utilized. Experiments have bee.

made with glass by forming it into building bricks. These are specially recommended for building hot houses. They are said to be of equal value for refrigerating establishments, bath houses, hospitals and other places where sanitary conditions must be observed, and where a maximum of cleanliness must be secured at a manimum of labor and expense. The glass bricks are laid up in fine cement mortar, which incorporates itself with the glass and forms an impervious and perfectly smooth surface. Walls of this sort are said to be excellent insulators of moisture and noise, and are susceptible of a high degree of ornamentation, and, as they are made hollow, are good for keeping out the heat in summer and the cold in winter. There is a great field for any inventor who can make good use of waste material. The advantage is two-fold. There is a new material to work with, and something which it heretofore has been necessary to remove, often at considerable expense. is eagerly sought after.

Musical Paper Knife. An ingenius boy, with any musical nstinct, can produce the most marvelous tones with an ordinary paper

knife. In fact, one can play tunes

be produced. By looking at the cut you will observe that the index finger shows the manner in which this is accomplished. Various airs can be played after some practice with this primitive instru-

A Dustless World. If there were no dust, we would have no blue sky, no clouds, rain, snow or beautiful sunsets. furnishes the groundwork for all of these. The smallest particles of dust reflect blue light, hence the distant sky, where the lightest atoms float, appear blue. The smoke from the burning end of a cigar is of a bluish color, that drawn through and blown from the mouth is white, because the particles are larger and can reflect more white light. The sky in cities tmosphere. But the most important office of dust is that of a rain producer As the particles float about they gather moisture, which is precipitated in rain. It is said that "of all the water evaporated by the sun from the surface of the sea and land not one drop returns that has not condensed upon a particle of dust as a nucleus." But for dust the air would be full of vapor, which would conlense upon everything it reached. It would enter our dwellings, saturate garments and trickle over our walls and furniture. Therefore, while we should be much more inconvenienced by the absence of it.

A Case of Transfusion.

The legal possibilities of transfusion were brought out in a recent suit in in English court. A man who was ery ill was treated by transfusion of blood as a last resort. He recovered. and after a time his gardener from whose veins the vital fluid was taken, dell ill. Some suggested that his conribution to his employer might have caused his illness, whereupon he brought suit, claiming sixty thousand rancs damages. After a good deal of egal investigation experts were appointed to examine and report on the ase. This took so long that the man lied before the report was finished. The widow, however, continued the mit even though the post-mortem exmination demonstrated that death was caused by cancer of the stomach. The courts decided in favor of the deendant, on the ground that even though the man's vitality might have been impaired by the loss of blood his coluntary offer for the benefit of another individual released the recipient rom all financial liability that might be claimed on account of the transac-

Do You Wish the Finest Bread and Cake?

It is conceded that the Royal Baking Powder is the purest and strongest of all the baking powders.

The purest baking powder makes the finest, sweetest, most delicious food.

The strongest baking powder makes the lightest food. That baking powder which is both purest and strongest makes the most digestible and wholesome food.

Why should not every housekeeper avail herself of the baking powder which will give her the best food with the least trouble?

Dr. Haines, of Rush Medical College, Consulting Chemist of the Chicago Board of Health, says: "Royal is not only the purest, but the strongest baking powder with which I am acquainted."

HERE AND THERE.

A Spaniard recently arrived in Amaca, Mexico, and secured permission to search for the buried treasure of an old band of brigands. He found an iron box full of coins near the foundation of the cathedral. Rumor puts the contents at \$500,000.

A schooner went ashore off the coast of Maine recently and the captain and crew abandoned her to get aid. In the meantime the schooner worked off the sandbank and sailed away, going several hundred miles before being picked up by a steamer. A doctor who was passionately fond of cards was called to the bedside of a patient. He pulled out his watch, felt the sick man's pulse and began to count. "seven, eight, nine, ten, jack, queen, king, acc." The patient immediately burst out laughing and

got well again. A custom that has existed for several centuries is still maintained in some towns on the lower Rhine. On Easter Monday - auction day - the town crier or clerk calls all the young people together and to the highest bidder sells the privilege of dancing with the chosen girl, and her only during the entire year. The fees flow into the public poor-box.

Burglars lately broke into the house of an old gentleman in Paris, and after helping themselves to the silver and valuables gave him a lecture on his wickedness in hoarding up capital which belongs to society in general. The papers in telling of the robbery spoke of a bundle of securities worth 20,000 francs which the thieves had overlooked, and that night they called again at the house, demanded the securities and carried them off.

accepted by the well informed.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials Address, F. J. INTERESTING STATE NEWS OF ALL SORTS.

Six Lives Lost in the Burning of Keenar & Jahn's Big Furniture Store in De. troit-Five Firemen and One Spectato -Other Michigan News.

Fire destroyed Keenan & Jahn's big furniture store at 213-217 Woodward avenue, Detroit, and after the big four-story building was gutted the front and rear walls fell, killing six people, five of whom were firemen and injuring at least ten.

The fire was discovered in the shipping room in the basement at the back of the furniture store by Shipping Clerk James Tewsley. An alarm was promptly turned in, but by the time the engines arrived the fire had gained considerable headway, having run up the elevator shaft, and the entire upper floor was a mass of smoke and me when the first stream was thrown.

In less than three-quarters of an hour from the start the roof of the building was completely licked up by the flames. At this time the interior of the building was a vast roaring furnace, the highly combustible material seeming to defy all efforts of the firemen. The flames licked up the solid streams of water almost in mid-air. The floors began to give way, taking the bracing from the walls, but the firemen did not yield an inch. Suddenly, without a moment of warning, there was a shock and then with a thunderous crash the front of the building fell. Almost at the same instant the wall at the rear buckled and fell into the alley burying a dozen men. Panic prevailed for a moment, and then brave men rushed to the rescue and with bleeding and blistered hands dragged some of the unfortu-nate victims from a fiery death, and as carefully as possible lifted from the huge mass of debris the battered and mangled bodies of their unfortunate comrades. Both front and rear walls found their victims.

The dead are: Fred Bussey, died at Grace hospital; Michael H. Donoghue, lieutenant of chemical No. 1, was taken out dead; J. R. Dely, pipeman No. 9; John W. Pagel, pipeman No. 9; Julius Cummings, No. 2; Martin Ball.

There were about 65 people working in the furniture factory all of whom escaped unhurt by way of the front. The loss on the stock is \$60,000; building, \$35,000; well insured.

Increased Attendance at the University. A conservative estimate places the increase in attendance in the various departments of the University at Ann Arbor as follows: Literary, 125; law, 100; medical, 40; pharmaceutical, 30. The attendence in the dental department promises to be about the same this year as last. According to these estimates the attendance for the coming year will be very nearly 3,000.

#### Embezzler Lindholm Brought Back

Ex-Deputy Secretary of State Lindholm, who is charged with embezzling \$2,000 of state funds, arrived at Lansing from Sweden in charge of Deputy Sheriff Wright and Chief of Police Sanford. The officers say that the only bit of excitement experienced during the journey was the trouble with the Swedish authorities over Lindholm's release.

#### To the City's Shame, be it Said.

West Bay City's Salvation Army violated an ordinance which prohibits the use of the streets for crowds. Finally a climax was reached when the entire police force swooped down upon the army and bore away to jail Capt. Lin-strum and five soldiers, with their cymbals, bass drum, cornet, and flag. All the soldiers were locked up in the police station.

The American Express office at North Star was robbed and \$106 and several other things were taken.

Even with the high rate of wage offered in the lumber woods of the up per peninsula this season the supply of men is not equal to the demand.

The executive council of the Boston unions of clothing makers decided that the strike was ended as nearly every contractor had signed the union's nine hour day agreement.

Hackley Park, Muskegon, will hereafter be the headquarters of the Chau tauqua system in Michigan, displacing View, where the assemblies have been held for some years.

Allegan sporting men are creating a fund with which to buy wild rice seed to sow in the river bottom. It will grow, create a swamp, and attract ducks and there you are.

The first regular session of the twenty-ninth annual reunion of the Army of the Tennessee convened at Council Bluffs, Ia. Gen. Dodge presided and addressed the 110 delegates.

John R. Blakefield, of Plainwell township, Kent county, has left his wife and eloped with his mother-inlaw. Mrs. Blakefield has caused a warrant to be issued for his arrest on the charge of non-support.

Adam Lindstrum, captain of the Salwation Army of West Bay City, who was found guilty of violating an ordinance prohibiting the blockading of the streets, was taken to the county jail at Bay City to serve 25 days.

The Michigan Sunday School association will hold its thirty-fourth annual convention at Grand Rapids Nov. 13, 14 and 15. Maj.-Gen. O. O. Howard will address the first meeting. Two thousand delegates are expected and free entertainment is promised.

Walter B. Dixon, aged 45, married, was run down by a country huckster's wagon at Grand Rapids. To save himself he caught hold of the thills, when the horse plunged and collided with another wagon. The end of one of the thills caught Dixon under the jaw and penetrated to the brain. He died an hour later.

During the progress of the funeral of the late Richard Doyle at Hastings a serious runaway accident occurred in which Prof. W. W. Sterling was badly injured about the head. His right leg was smashed at the ankle. His wife and little son were also thrown from the buggy, but were uninjured. MICHIGAN HAPPENINGS.

Newberry wants a gold cure asylum. The postoffice at Bellevue was

proken into and robbed of \$225. Daniel Stines' sawmill was destroyed by fire at Lake Odessa. Loss \$2,500. Joseph Cully drove from Nebraska,

,800 miles, to visit his father at Min-The Ranny refrigerator works at Greenville started up with a force of nearly 150 men.

Kelly & Coville's store at Slight's, near Traverse City, burned; total loss \$5,000, insurance \$3,200.

The first snow of the season fell at Hancock on the 8th for about one hour, but it did not stay.

Mrs. Sarah Way, residing south of Jackson, fell down stairs and broke her neck, dying instantly.

Loud's new railroad is at last finshed, and trains are now running between Au Sable and Lewiston. Joseph Knauf, a trammer, aged 31,

was struck by a falling rock at Calumet. He died a half hour later. Ionia was closed up Sunday; that is,

candy stores and eigar stands were; saloon back doors were open, however. Reports to the state board of health show that diphtheria is prevelant at 33 places in Michigan and smallpox at 2. John O'Neil was run over by a Northwestern passenger between Daggett and Talbot. He died in a few

Isaac Cantrall fell off a ladder on his farm in White Lake township, Oakland county, and injured his spine so

that he died Cadillac will be blessed on October 9, 10 and 11, for the Christian Endeavor convention for 14 counties will be as-

sembled there. Clyde, the 19-year-old son of S. A. Watt, of Saranae, lost his right arm by the accidental discharge of his gun,

while duck hunting. The South Haven & Eastern railroad is building a new round house and repair shops at Lawton, having abandoned those at Paw Paw.

Henry J. Downey, proprietor of the well-known Hotel Downey at Lansing, died of typhoid fever after an illness of 10 days. He was 56 years old. Ernest Dubois, of Olivet, while oper-

ating a corncutter, fell under the knives and his right leg was so badly cut that it had to be amoutated. Instead of chapel exercises, which have been practically abolished at the

University at Ann Arbor, devotional exercises will be held twice a week in University hall. Louis Van Zant, of Muskegon, aged 14, while hunting, was tipped out of his boat. The shot gun at the same

time was discharged, inflicting injuries from which the boy died. Prof. Harry B. Hutchins, associate dean of Cornell law school, has accepted the deanship of the Ann Arbor

school, but will remain at Cornell till the close of the fiscal year. Mrs. Charles Chambers, a popular lady of Webberville, was driving a pair of fractious horses, when they became

unmanageable, throwing her out and breaking her neck. She died instantly. W. J. Peters, city ticket agent for the L. S. & M. S. railroad at Jackson, has resigned to take the position of Michigan passenger agent for the Ohio Central. His headquarters will be at

Jav Forbes was caught in a pulley in W. A. Forbes & Co.'s planing mill at Caro. His clothing gave way and saved his life, but his right leg from the hip to the ankle was nearly denuded of skin, and he was badly crushed and

bruised. Cyrus Weaver, of Watervliet, struck match while pouring hot cider into a barrel. Something exploded, the hot cider depriving Mr. Weaver of his eyebrows, part of his hair and most of the skin on his face. The cause of the explosion is a mystery.

The Tamarack mine officials at Calamet are getting rid of the Austrians in their employ and hiring Cornishmen. Most of the men made idle by the closing down of the Central mine have been taken in by the Tamarack and Calumet & Hecla

The Michigan Trust company, receiver, asks the supreme court to eliminate O. M. Barnes as a defendant in the Lansing Lumber company's affairs and to dismiss Mr. Barnes' appeal. If this is done the company will take

possession of the plant at once. George Coleman, five miles southwest of Howell, fell from his wagon when on his way home from town and broke his back. Mr. Coleman was representive in the state legislature from 1882 to 1886, and was treasurer of Liv-

ingston county from 1888 to 1892. George Shepherd, of Homer, was seriously injured while fish spearing by the explosion of his fishing "jack" as he was filling it with gasoline. burning fluid was thrown over him, and he was badly burned before he could jump into the water and extin-

guish the flames. Pitts & Co., of Bay City, have sold to Piggott & Co., of Windsor, Ont., 1,000,-000 feet of pine lumber. The lumber was cut from Canadian logs. and brought in rafts from the Georgian bay district. This sale is the first one on record of Michigan lumber going

into the Canadian market. While Fred George and his mother were attending the play at Ypsilanti, some one stole his watch and chain, two suits of clothes and an overcoat, Moreland Cook, a normal graduate. and principal of the Cassopolis schools was arrested, charged with the theft. The missing goods were found in his

Because of their violations of the local option law at Eaton county, Adam Homer and George Mascho, of Grand Ledge, dropped \$100 each into the slot at the session of the circuit court; Ed. Dalton and "Tug' Wilson, of Charlotte, each \$100, and Ed. O'Neil. of Charlotte, against whom five cases were pending, \$535.

Many of the men working about the mines about Ishpeming are going into the woods, the high wages, from \$25 to \$30 a month, being an inducement. An advance of over 50 per cent over last year is offered wood choppers, the price per cord being as large now as at any time within the past five years.

The first snow of the season fell at fronwood on the 8th, to the depth of two inches.

Schoolcraft is having a survey made to Sugar Loaf Lake with a view to drawing the supply of water from there.

The coal kilns of the Spring Lake Iron Co., at Shelby, which have been closed down for some time, will re-

sume operations. Oxford held a special election to decide the question of putting in a water works system. There was a majority of 56 for them.

Warden Van Evera, cf the branch state prison at Marquette, demanded the resignation of Deputy Warden Albert Foubert for drunkenness. The Alaska Refrigerator works, at Muskegon, shut down in July, have

The sawmill of the Saginaw Salt & Lumber Co., at Crow Island, has closed for the season, throwing 175 men out

of employment. The docks are full of

lumber. Rev. Wm. Walker, of Ann Arbor, who has just returned from a twoyears' European trip, has accepted a call to the congregational church at Chelsea.

Two electric cars collided in front of the Dental building at Ann Arbor with terrific force. Henry Allmand, motorman, was fatally injured. The blame

Edmund Hall is contemplating the building of a branch of the Flint & Gilmore township, Isabella county, to start from Farwell.

Pauline Schlitz and her five children, vho live near Grand Haven, have had black diphtheria in its worst form. Three children are already dead, and it is feared others will die. W. H. Thacker, the convicted wife-

poisoner in Jackson prison, relieves the monotony of prison life by teaching a Sunday school class, an occupation with which he was familiar in former days.

Albert, the 13-year-old son of Michael Herbst, of Saginaw, fell 30 feet from an electric tower and struck upon his head, sustaining concussion of the spine and terrible bruises. He is in a critical condition. When the saw mill of Hackley &

Hume at Muskegon, shuts down this

fall the company's business will be neded so far as lumbering at this point s concerned. There is no more tim ber on Muskegon River. By an explosion caused by the clogging of fire under the engine at Slagh & Smith's planing mill at Holland, Mr. Smith, of the firm, was badly burned

about the head, losing all his hair and whiskers. He may recover. The Oakland county fair has sunk \$600 further in debt, making \$8,000 altogether. It is proposed to sell the fair grounds, now in the heart of the

city, for \$25,000, pay off debts and start anew in some other locality. The creditors of the Lansing Iron and Engine works have decided to ask Hon. O. M. Barnes to foreclose the trust mortgage of \$277,000 upon the

property of the company. Mr. Barnes expressed his willingness to comply. J. W. Simson, a Lake City hermit, has been missing for several days, and as his boat containing clothes and some fish and a trolling line came ashore it is thought that the man has

been drowned. He gained his lively hood by fishing. Incendiaries forced open the grocery store in the Starkweather block at lower Plymouth, and after obtaining a quantity of kerosene, proceeded to build a bon-fire with the intention of burning up that part of the town. The fire was discovered and extinguished before any serious damage was done.

Kate Dusseau, of Monroe, was confined in the Dearborn retreat. Her parents took her out, thinking that she was all right. The next morning the girl caught sight of her brother's razor, and she grabbed it and cut her throat, just missing the windnine. So much blood was lost that it is doubtful if she can recover.

Harry Cottrell, a well-dressed young man, from Chicago, who has spent several months in Port Huron made a desperate attempt at suicide. He cut a horrible gash in his throat with an old jackknife, and when discovered was unconscious and nearly dead from loss of blood. Despondency caused by a long spree the cause.

Hon, E. S. Woodman, of Northville, died from heart failure. Deceased was 84 years old. Mr. Woodman was a member of the legislative committee that drafted the constitution of Michigan, and was a member of the legislature one term. He was one of the originators of the Oakland County Pioneer association, and was well known throughout Michigan.

The work on buildings for the new Upper Peninsula insane asylum at Newberry is progressing finely, and they will be completed within the contract time. They will have to remain vacant until the next legislature appropriates money to furnish them, as the last legislature's appropriation covered only the cost of the buildings and did not provide for furnishing them.

While Joseph Wells and family were absent from their home near North Adams, a tramp entered and stole \$100 in money, then took off his own clothes, put on young Wells' best suit, piled chairs, clothing and bedding on the floor, saturated them with oil, set them on fire and left. The fire was discovered by neighbors and extinguished. Officers landed a young man named McCabe in jail. McCabe had been working for Wells, and when captured had on a gray suit alleged to belong to young Wells.

Since the South Haven & Eastern railroad have moved their roundhouse and repair shops from Paw Paw to Lawton, Paw Paw people have boy-cotted the road, and have ordered all goods consigned to them from foreign ports put off at Lawton, and have put teams to work hauling their freight. In H. England, general manager of the road, says he will erect a mail crane, and when no freight or passengers are aboard for that point will throw off and catch mail on the fly, thus making Paw Paw but a flag station.

Fire started in the carding room the Centerville knitting factory. About \$2,000 damage was done; fully insured.

NEWS OF ALL KINDS.

GLEANINGS FROM IMPORTANT PRESS DISPATCHES.

The Victorious Japanese Occupied the Capital of Manchurla-Seventy Jap

Japs Occupy One Capital.

Shanghai: Telegrams from Moukden report that thousands of Chinese soldiers are passing through that city in wild retreat. The Japanese army is believed to have arrived there now. aided by 10,000 armed Koreans.

Tien Tsin: The Japanese are pur been enlarged. The works will start suing the campaign toward Moukden, up again soon with 200 more men, 500 cautiously and are avoiding any dashing enterprises. Their cruisers are closely watching the Chinese fleet in the gulf of Pe Chi Li. Fugitives from Ping Yang describe the Japanese tactics as most scientific while their weapons are perfect. On the other hand the Chinese operations are said to be conducted in an antiquated fashion, and there is considerable disagreement among the Chinese generals. The Japanese are gaining the sympathy of the Korean population by paying for their supplies and main-

paying to the unitarity taining strict discipline.

Prince Kong, the uncle of the emperor of China, who was recently called from retirement to take th position of president of the Tung Li Yamen and the presidency of the admiralty, and to whom was entrusted Pere Marquette railroad to his pine in the conduct of the war with Japan, remains in Pekin, where he is occupied with providing defences for the capital. He is, however, in telephonic communication with Viceroy Li Hung Chang, who is at Tien Tsin.

Li Hung Chang has sent another pody of 8,000 men well armed and passably well drilled to Pekin. His best regiments remain at Tien Tsin.

London: A dispatch from Shanghai says that the masters of several Chinese junks which arrived at Che Foo report having sighted a large fleet of Japanese transports escorted by warships. This Japanese fleet was then entering the gulf of Pe Chi Li. In all the Japanese fleet, warships and transports included, numbered 70 ships. Their presence in the gulf of Pe Chi Li as caused the greatest excitement at Shanghai and elsewhere. In London it is believed that the Japanese fleet referred to as having been sighted is the expeditionary force consisting of 30,000 men, which left Hiroshima, the Sapanese headquarters, on Sept. 25, inder sealed orders.

The Japanese Covernment has instructed Field Marshal Yamaga to inform the diplomats at Seoul that he will not allow the Japanese army to plunder Pekin in case that city is alcen.

Oliver Wendell Holmes Dead. Oliver Wendell Holmes, famous poet and author, died at his residence on Beacon street, Boston, from a complication of diseases. Dr. Holmes has peen in feeble health for a long time, and although his iron constitution had long baffled disease, was at last shattered. The last hours of Dr. Holmes were passed quietly with his family by his bedside.

Oliver Wendell Holmes was born in Cambridge, Mass., in 1809. He graduated from Harvard in 1829. His first reputation as a literateur was gained by publishing a lyrical poem protesting against the destruction of the old frigate Constitution. For a year he studied law at Cambridge, and during that time produced some of his best known humorous pieces. He then studied the profession of medicine and spent three years at Paris remainder. duced some of his best known humorous pieces. He then studied the profession of medicine, and spent three years at Paris, receiving his degree in 1835. In this year he published his irrst volume of poems, which contained 45 pieces. In 1839 Holmes was chosen professor of anatomy and physiology at Dartmouth. The chair of anatomy and physiology at Harvard was filled by him in 1847. He gained great renown here for his masterly dissertations upon medical subjects. From his prolific pen emanated many scientific works. Dr. Holmes became one of the first contributors to the Atlantic Monthly in 1857. His first contributors were in the form of a series of conversational papers entitled, "The Autocrat of the Breakfast Table:" Some of his finest poems are included in this volume. From this time on the doctor was busy with his pen, and between 1860 and 1887 the best of his works appeared. A series of genial papers from his pen, entitled "Over the Tea Cups," appeared in the Atlantic Monthly during 1890.

Dr. Holmes was a man of broad views and generous disposition. He was one of those rare individuals who made firm and lasting friendship wherever he went. He was beloved by all with whom he came in contact and the news of his death will bring sorrow and regret into the hearts and households of his countless admirers.

Pennsylvania's War Governor Dead. Ex-Governor Andrew G. Curtin died at his home at Bellefonte, Pa. His end was peaceful, he having been unconscious during the last twelve hours of his life. Death was caused by old age-the ex-governor being in his eightieth year-combined with nerv

ous trouble.

Andrew Gregg Curtis was born in Bellefonte, Centre county, Pa., April 22, 1815. He was admitted to the bar in 1839. After serving his state in various capacities was in 1860 elected governor and his administration and interest in the war made him a national figure. He advocated the forcible suppression of secession, and was one of the war governors who were most earnest in the support of the national government. Governor Curtin was untiring in his efforts for the comfort of the soldiers, and originated the system of care and instruction of the children of those slain in battle, making them wards of the state. He thus became known in the ranks as the "Soldier's Friend." In 1869 he was appointed minister to Russia by Grant, and his three terms in congress—1881 to 1887—inished his political career, as his health was falling. ous trouble. was failing.

In Honor to Parnell's Memory. The procession held in Dublin in commemoration of the death of Charles Stewart Parnell was the largest ever seen there. In the line were political societies from all parts of the country, every county in Ireland being represented. Over 50 bands were in the line and the streets were so crowded with spectators that it was difficult for the procession to move. After marching through the principal streets the route was taken to Glasnevin cemetery where the paraders deposited hundreds of beautiful wreaths on Parnell's grave.

The Whole Train Burned. Train No. 5 from New York on the Southern railway jumped the track about three miles south of Bristol, The engine fell across the track and the express and mail cars jumped over it, and falling on their sides, were soon a prey to the flames which consumed all of the train—eight coaches—with the exception of the last Pullman, which was cut loose and backed from the train. Several persons were injured, but all miraculously escaped with their lives.

D. L. Palmer, of Charlevoix, has been missing since September 28.

MORE WAR TALK.

England to Send Troops to China. -Th

Situation Becoming Complicated. London: Six thousand troops will be end from India by England to protect the treaty ports in China. The first rifle brigade will leave Calcutta on Oct. 16 for Hong Kong. It is stated that the second-class cruiser Aeolus, from the Mediterranean squadron, and the gunboats Red Breast and Pigeon, from the East India station, have been ordered to join Admiral Freemantle's squadron in Chinese waters. The British consuls at Hankow and Ningpo sent alarming dispatches to he government reporting disturbances in those places and stating that the European residents were in peril.

Washington: In Japanese official circles here the cable reports that China has asked England, France and Russia to send troops and vessels to China to protect their respective inerests, are construed to be a public confession on China's part of the panic and demoralization of her people, and her inability to afford the usual protection to foreigners. Secretary Herbert has been forehanded in taking steps for the protection of the lives and property of American residents in China believed now to be endangered by rebellious and unrestrained troops. There are now five United States warships in the east, the Charleston, Baltimore, Monocacy, Concord and Petrel, and this force will be increased to eight vessels by the addition of the Detroit, Machias and Yorktown as soon as they can be made ready. And these will co-operare with the warships of the other powers to mutally

protect foreigners. Yokohoma: The applications for the Japanese war bonds have exceeded 0,000,000 yen, more than double the amount called for. The Japanese government has decided to prohibit the export of coal from the empire. The Chinese man-of-war Isao-Kiang, captured by the Japanese July 25, has been added to the mikado's navy and is to be known as the Toyoshima, the name of the island off which she was taken. The standing committee of the six poitical parties in opposition to the Jupa have passed resolunese government, tions that during the war the ministry shall be cordially supported, without regard to domestic differences of opinion.

The Wonders of Irrigation.

The eleventh census makes some startling revelations regarding the in crease in value of irrigated lands in the west. Tracts which a few years ago were not worth the government pric of \$1.25 an acre, are now worth all the way from \$100 to \$300 an acre, and some command even higher figures. Immense crops and no failures justify these semingly extravagant prices. Though irrigation in the United States is still in its infancy, the value in 1890 of the irrigated areas, with their water rights, was about three-quarters that of all the gold and silver mines in the United States, with their railroads and

other improvements. The New York Sun recently contained a very interesting article on the great work of reclamation now going on in the Pecos valley of New Mexico. This is the largest irrigation enter-prise in America and will eventually eclaim over 400,000 acres. The Pecos valley is a wonderful fruit country. such high authority as Parker Earle, president of the American Horticultural society, stating that its apples, in particular, surpass those grown anywhere else in the world. It is said that lands can now be bought in the Pecos valley at first prices, sure to double and quadruple within the next few years. In the Stock Exchange building, in Chieago, is a display of fruits from the valley which is well worth going a long distance to see by any one in irrigation and its possibilities.

200 People Drowned in Cuba. The steamer Saratoga, from Tampico and Havana, arrived at New York. | Cattle-Good to prime. ...... Capt. Boyle says that at Havana it was reported that the little village of Dagua, about 120 miles to the eastward. had been almost entirely demolished and that 200 souls had perished. The report was very meager, and no esti mate of the damages done to property could be ascertained. Of the reported destruction of more than half of the

town of San Domingo, Capt. Boyle said he had heard nothing. NEWS IN BRIEF.

Premier Gladstone's eyesight has

peen completely restored. James Anthony Froude, the his orian, is dying at his home in London. Sir Joseph Renels, the senior alderman representing the Aldersgate ward has been elected lord mayor of London.

Postmaster David S. Smythe, of East Palestine, O., was attacked by footpads and received injuries which will probably prove fatal. Two passenger trains on Cleveland,

Lorain & Wheeling road collided at Pauls Station, near Massillon, O., and several passengers were injured. The Camden, Pa., weavers have re-

a return to their old wages. Some time ago they suffered a cut of 25 per cent. Three men were buried by the cave in of a sewer at Rochester, N. Y. Ferdinand Pitz and Charles H. Oldwall were killed. John Klick was rescued

surned to work, having failed to secure

The monument erected to the memory of Maj. Stephenson, founder of the Frand Army of the Republic, was dedieated at Petersburg, Ill., with appro priate ceremonies in the presence of fully 5,000 veterans and civilians. Mr. W. S. Harsha, clerk of the U. S

ircuit court of appeals at Cincinnati, has retired from that office by resign ing. He retains his office of clerk of the U. S. circuit court. Mr. Frank O. Loveland, of Cincimnati, has been appointed his successor. The decision of Judge Ricks, impos ng a fine of \$50 for contempt of court on Engineer James Lannon, of the Ann

Arbor road, has been affirmed. When

the A. R. U. strike was ordered Lan-

non left his engine on the main line and refused to bring it in. rful nitro-glycerine bomb in

eral large buildings adjoining.

Great excitement was caused a Elyria, O., by the discovery of a pow-L. S. & M. S. elevator. A workman ound the bomb with fuse attache aidden in the building. It contained sufficient nitro-glycerine and dynamit o have wrecked the elevator and sev

France and England at War-In Papers. London: There is great excitement n the city. The cabinet ministers who are away on their holidays have

been hastily summoned home. special cabinet council has been called Such a proceeding in time of peace is most unusual. It is understood that relations with France are likely to be come strained and that question is probably the occasion of the meeting.

The London papers in discussing this meeting made some awful war preparations because of alleged differ ences between England and France in Madagascar and various African colonies. The papers said the French had blockaded Madagascar and was crowding the British at every available point and that the latter were making great preparations to wipe France off the face of the earth. Then to spoil it all particular-denied the whole thing and said their meeting was to discuss the China-Japan war and British interests therein. It is not likely that London or Paris will be bombarded before next week.

Prof. David Swing is Dead. Prof. David Swing died at Chicago

of acute blood poisoning brought on by or acute blood poisoning brought on by an attack of jaundice.

David Swing was born in Cincinnati, August 23, 1830. At the age of 18 he entered Miami university, at Oxford, O., and graduated in 1852. In 1866 he accepted the pastorate of the Westminster Presbyterian church of Chicago, which was later united with the North Presbyterian church, the two forming the Fourth Presbyterian church, one of the wealthiest and most influential institutions of its kind in Chicago. Shortly after the great Chicago fire of 1871 occurred the most important event in the great minister's career—nis trial before the Chicago presbytery on a charge of heresy preferred by Rev. Dr. Francis L. Patton, now president of Princeton college. These charges were not sustained. But the subsequent feeling was so bitter that Proc. Swing brought matters to a close by resigning his pastorate, a large number of his friends going with him and forming the Central church, in which Prof. Swing has since labored with great success. For two years services were held in McVicker's theater, a permanent home being then secured in Central Music hall. an attack of jaundice.

Hypnotism as Mrs. Meyer's Defense. When the mysterious woman nov confined in the Tombs, in New York City, known to the public as the wife of Dr. Henry C. F. Meyer, the poisoner, vho was arrested in Detroit, is brought to trial hypnotism is to be set up a the burden of her defense. It will be claimed that she has been under the doctor's absolute control through this power since their marriage.

There are premonitions of trouble between Mexico and Guatemala growng out of a dispute over the boundary between the two countries. Guatemals has undertaken to assert sovereignty over a considerable piece of territory

	state, which the latter states.	a . troi	Me: igl	X1 Y	r

Ducks......Turkey..... WEEKLY REVIEW OF TRADE.

NEW YORK.—Dun's weekly review says: With the chief money crops of the west and south sinking in value, it is not strange that purchases of manufactured products are smaller than was expected. Wheat has touched the lowest point ever known for options and cotton the lowest ever known in any form with the present classification, and the accumulation of stocks in both products is discouraging to purchasers for an advance. Producers are compelled to sell at prices below the ordinary cost of raising crops, and in some western states there is also a lamentable failure of the corn crop. Under the circumstances, it would be very strange if the demand for manufactured products should be quite as large as in other years. Wheat suffers most from accumulation of stocks in sight, which are far beyond what is usually expected for the season and the exports in September were unsually small. Corn receipts at the west have been only a third as large as they were last year, with exports amounting to nothing, but the price has not further declined after the heavy fall during the previous fortnight. Pork products are weak in tone. The condition of the industries is in some respects more satisfactory. The failures for the past week have been 219 in the United States, against 320 last year, and 39 in Canada, against 45 last year.

New York.—Bradstreet's review says: While no radical change has appeared there are features of the situation pointing to continued progress in the direction of improvement. This is true of the country at large. The price movement has improved little. Wheat, corn and oats have advanced slightly from previous lowest levels. Some varieties of lumber, naval stores, tin plate and a few other staples have remained steady in price, but refined sugar is lower for reasons which may or may not be similar to those governing prices in other lines. Concessions in prices have also been made for pig iron, steel billets, lumber, lard, coffee, cotton print cloths and live hogs.

The Baacke's Wire Nail company, of Cleveland, the largest concern of the kind in the world, has closed down for an indefinite period.

#### OLD DAYS IN GEORGIA

THEY ARE COMMENTED ON BY MAUM JINCY ANN.

The Chatter of an Old-Fashloned Darky. Whose Masters Were Good Enough to Her in the Times Before the War, hen Work Was Easy.

aum Jincy Ann is tall and slim. Her tallness is chiefly noticeable in her length of arm, while her slimness is most conspicuous in those portions of the female form usually full and rounded. Her feet have an uncomfortable way of seeming to the authorities—the cabinet officials in hit each other when she walks. Maum Jiney Ann is fond of talking about herself, says the Philadelphia Times. One morning while chopping out the cotton in the newly cleared patch near her cabin door she delivered herself to me in this fashion "Yes, I was born in Georgie. 'Cindy and 'Nerva dey aint no true nuff sister to me, kase Cindy, she born when my mammie had she happy up here on de True Blue plantation: den 'Nerva she cum long, arter de colonel done fetch my mammie back into Souf Carlina, You see! my daddie he done b'long cross de Georgie line, and he livin' dar right now if he am't done dead. please God! My old mistis yere on de ole state road, she tek a 'tack (became attached) to me when I was leetle gal an' tek me away from my mammie and I always staid right by her-a fannin' of her, when she'd tek her rest in de hot arternoon, a gittin' her a cool drink an' sich like. She never could eat nuthin' 'tall lest I stan' right behind her chair; and she larn me to piece de quilt patch! Look a here! but dat was a stirrin' oman! an' she larn dem gels to work, too, she not like some ob de udder buckra. "When dem two girls o' hern

gwine marry I 'low dey had as much as twenty quilt apiece, an' some on em real fine, same like bought quilt right out de sto'. I tell you dem was no half-cut people; dey know what was what! When I wuz done growed I tok de keys, same like mistis, when she'd go off to two an' three days' meetin'. An' de crowd o' people what wud set round dat big table on Sundays and big meetin' days! Look here! Sometimes mos' de whole settlement would come home long o' my mistis, 'kase der knowed she had sech a good hand wid eberyting. She an' Miss Shooler, dey could mek de best bread on dat road up an' down, an' when dare was comp'ny I teli you dere was movin' round an' fixin' things ebery whicha-way, sho' as you born. We was feed in slave time better dan any ob de colored people 'bout here. Dev say de folks on de nex' place to us usen to be sent to de peach tree for dere breakfas', but dat man what owned dem people was one ob dese reg'lar ole mousers! (misers). He didn't b'leeve in spendin' no money 'tall! and when de Yankees come he put all de money underneath the old woman, 'cause she was sick an' der

save it ebery bit. "In de Christmas times we all had louf an' more dan 'nouf trow 'way. We war 'lowed to raise our own turkeys an' tings, and' een de hog killin' time what a fine 'to do' we had wid de cracklins an de chittlins an' all de trimmins! I tell you dem was times! An' we raise lem big calabash gourd an' sto' 'way de sausage jist as sweet, wid de lard a-coolin' on de top. Young mauser he always usen to come to my house to eat de 'possum sarve up with de sweet tater all 'round, a swimmin' in de gravy so rich like; 'nouf to make your mouf water right now. Den a'ter all was done he usen to drap a quarter een my han' an' say 'Tank you, maumer,' so perlite an' gentleman like. De slave time was good 'nouf for me; but now I hab for jump in de cotton patch an' hoe an' chop from 'fo' day till de sun clean gone down; and de flour bread cum scarce an' high, an' my leg ache till I fair fit to fall down, jes' a stirrin' an' a stirrin' till I bout to git de spring halt. I'se lookin' for de Lord to call me any day, an' I'se glad I'se born to die, an' I'se jes' goin' to keep on a watchin' an' a prayin', for dere's no knowin' when de Savior will repair. I 'low not to be a nappin' when he come, scusin' he come in de night time.

"Here, Jimbo!" (to her youngest hopeful) 'cum mind de guinea an' keep dem young turkey from trailin' off! Ain't you know dem young ting mighty quick to catch der deff Dat boy is a smart chile," she continued, "scusin' he so love to play an' fool. Dey low he done lick out every boy what goes to mill. He done beat Uncle Jake's boy, Boston; an' dat Boston kin but, same like a ram. All o'dat Johnson fam'bly kin butt more'n any niggers I eber see dis side o' kingdom come!

"Well, de sun mus' be mos' git to twelve. Time to knock off and fix de stir-a-bout for cem chillun's dinner."

He Will Begin Anew. Most of the states have had a system of commutation for good behavior of prisoners. Massachusetts is just putting that kind of a ticketof leave in force. The first subject for clemency is a man now in the 30's, a splendid specimen physically, who fourteen years ago was given an eighteen year sentence for burglary. He has been a model prisoner

#### MEANEST OF ALL.

The Tale of a Peculiar Boy.

"That old house has a history," said

Ut cle Bob. As they came around a bend in the road that had before shut out their sight the Louse in question, Urcle Bob storped and gazed musingly at the gloomy and seemingly deserted struc-"It looks haunted," ventured Nephew

Dick. "It is," answered Uncle Bob. "Real ghosts?" demanded Nephew

Tom. Uncle Bob finished his long look, and then went on: "No; it is haunted by the memory of

the meanest boy who ever lived.' "He must have been a terror, then!" exclaimed Dick. 'He was.

"What did he do that was mean?" questioned Tom.

'He never did anything that wasn't mean," replied Uncle Bob. He seated himself on the grass and the two boys followed his example.

If His Mother Wanted to Be III It Was None of His Affair. and Uncle Bob always told stories that

were worth hearing. "That chap was so mean," resumed Uncle Bob, "that he couldn't possibly do an act that wasn't mean. More than than each act had to be meaner

than the one that went before it."

"Who was he?" "His name was James Hogg. He and I were schoolmates in this very town. We weren't playmates, though—thank heaven! I am afraid I haven't always been as careful of my companions as I might have been, but I never had anything to do with Hogg simply because I couldn't bear the sight of the fellow. If you've ever had a live snake in your hand, you can imagine what it felt like to feel the touch of

Hogg. "His folks were as poor as could be. They were always behindhand in their rent, and all they had in the house vasn't worth a \$50 bill.

"When the Hogg boy was nine years old, his father died. There was only one thing Mrs. Hogg could do, and she

did it—took in washing. "It was a hard way to make a living, but like a good woman she kept at it and endeavored to make both ends meet, for she believed she had one of the firest sons in the world, and she was determined to keep him in school a number of years, if she wore herself

into the grave accomplishing it. "James Hogg wasn't a bright boy in the usual sense of the word. The e was orly one study in school that he took to at all-arithmetic. He was always ahead of the rest of the boys at figuring

cut any problem given him. "When he reached the study of compound interest, that boy became almost delirious from study. He would stay in at recess and figure out on his slate such sums as 'How much will \$1,479,-632 amount to in six years, three months and four days at 6 per cent interest, compounded semi-annually?

"We boys used to laugh about it and predict that he would soon become a mathematical maniac. Then we heard that James had gone down to Squire Thompson's office and was poring over title deeds, mortgages, foreclosures, writs of ejectment and a lot of other similar things.

"By this time he was fourteen years old, and, as soon as he had mastered compound interest he decided not to go to school any more. His mother wanted him to study a couple of years more,

but he wouldn't do it. "He made up his mind to work, and the best thing he could get to do was hiring out to a farmer. He was a big, healthy boy who could do almost a man's work, and so he got \$12 a month In a year this amounted to \$144. He had spent just \$4 of it in buying two second-hand suits of clothes from another boy. That left \$140 in the bank, to which a little interest money was added.

"About this time, Mrs. Hogg, who was worn out, became ill. Finally she sent a neighbor over to the farm where James worked. She begged her son to let her have \$10 for doctor and medi-

"'Does she think I'm a fool?' James demanded, when the neighbor made his mission known. I have to work for my money, and I have to keep in good health to be able to work. she wants to get sick, let her do it, but she must foot all her own bills.'

"And James stuck to that decision. "He got more pay the second year, and at the end of that time he had over \$300 in the bank-besides, of course, the interest. He never lost sight of that part of his money, and always had his interest figured down to a cent before dividend day came aro ind.

"But the bank rate of interest was now too small to suit him, and he began to look about for an investment that would pay him 6 per cent. He found the chance. A farmer wanted to borrow \$300 for a year. James made careful inquiries, and found that there was very little chance of the farmer being able to repay the money. Then he loaned it and hugged his first mortgage to his breast. Of course, as he was a minor, the mortgage wasn't made out in his name, but the bank president,

as his guardian. "The next day after the signing of the mortgage, the same neighbor made another pilgrimage to James. Mrs. Hogg was ill again, with slight prospect of ever recovering her health. She must go to the poorhouse if James

didn't send her some money.

"Did he do it?" queried Nephew

"That isn't the kind of a boy I'm telling you about," rejoined Uncle Bob, who then continued his narrative: "James could have realized on his mortgage and made his mother comfortable, but he didn't do it. She went to the poorhouse, still unwilling to believe that her son was as mean as others tried to paint him.

"Well, that mortgage ran along for the year, and the farmer couldn't pay. James foreclosed and the farm was put up for sale. Nobody seemed to want it just then, so James had to take it n exchange for the mortgage." "And then he took his mother out of

the poorhouse and gave her a home on the farm?" Nephew Tom eagerly interposed.

"That isn't the kind of boy I'm telling you about," retorted Uncle Rob rather sternly. "After getting his third year's wages in the bank and figuring up the interest, James threw up his job and hustled around until he found a man who would ta ke the farm at monthly rental. Then James managed to induce a city bank to loan him \$800 on his farm. That was his way at all times. He wanted to make a double profit out of everything.

"With is \$800 he went to the city. He was gone four years—or until he was of age. What he did during that time was never clearly known in this town. But the bank president, who still acted as his guardian made not a few trips to New York. When James came back to us at the age of twentyone he was reputed to be worth \$25,-000, and that was very likely an under-

"He had changed a great deal. He was no longer surly, but on the contrary was as pleasant to every one as could be. He had plenty of money to lend everybody who could give a good

"Did he take his mother out of the poorhouse?" interposed Nephew Tom.
"That isn't the kind of a boy Uncle Bob is telling us about," flashed from Nephey Dick.
"Well, we found the James Hogg had

changed in other ways besides smiling. He no longer wanted double profit out of his investments-he wanted at least four profits on anything he undertook. And, before long, his victims saw that he was getting it, too.

"Such sorrow as came to this poor place, and all through the greed and hatred of this meanest young fellow who ever lived! Let me give you one instance, boys, of his grasping ways. A young doctor came to town to start a practice. He had some money, but not enough to buy a house outright. In an evil hour he got the balance from James Hogg. Hogg, a little while after was taken ill. He sent for the young doctor. It was a long illness. The bill amounted to \$70, but when the young doctor presented it, Hogg looked sharply at the young man and said: 'Let me see, do you expect to meet

your mortgage when it falls due?" "Why-why, I hope to." "'But you're not sure, eh? Now see here, doctor; the best thing you can do is to receipt this bill and make me a present of it. If you don't and you're not prompt in your payments of inter-

hard with you.' "The doctor, did as he was ordered. so far as I know, who ever did get even with James Hogg. He called the attention of the poorhouse authorities to the fact that Hogg could be legally made to pay for his mother's support. Hogg was accordingly ordered to pay \$4 a week. That almost broke his heart, but after a couple of weeks it occurred to him to take his mother out as his housekeeper. He worked her almost to death, and never a cent of

wages did she get.
"Then he entered upon a whole reer of mean things. "He contrived to oust his former guardian from the presidency of the bank and took possession himself. "He got the farm of every debtor

who didn't pay up. "He wrecked the bank but kept with in the law and escaped punishment. He got a mortgage on the little church and made the congregation pay

double the amount loaned. He heard in advance that a new railroad was coming through this section, bought up a lot of farms from ignorant farmers and sold the land to the railroad for several times what he had to

pay for it.
"He got a share in the railroad and managed to drive most of the other stockholders out of it. "He got control of all the stores for

His First Piece of Property. miles around by freezing out his rivals and then made the people pay the high est price for everything they got. "He got control of the undertaking business, so that his victims found it a costly thing to even lie down and die "He-but I could go on all day telling you all the mean things he did. I can't remember a single good action

of his. 'He kept a gre'at deal of money in the house, but was too mean to hire a watchman or even buy a dog. One night, a burglar got into the house, and in the struggle that followed James was killed."

"And what became of all his fortune?" demanded Nephew Dick, who always kept his eye on main points. "Oh! his mother got all that, but poor soul, she was so broken-hearted and feeble that she couldn't enjoy it, who was a mean man himself, acted and died two years after her There was no more heirs then, and so

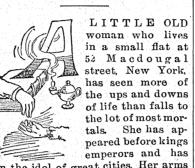

the state got the money."
"Then the money finally did somebody good, didn't it?" persisted Nephew Dick.

"I don't know, my boy. I don't know what kind of a legislature we had that

#### YOUTH AND OLD AGE.

TOUCHING STORY OF ONE WOMAN'S WOES.

In Youth She Danced Before the Crowned Heads of Europe-In Old Age She Seeks Charity and Lives in a Hovel-Life of Mrs. Ceruti.

emperors and has been the idol of great cities. Her arms and neck have been covered with diamonds and precious stones, the gifts of admirers, and now in her old age, with a sick husband, far older than herself, dependent upon her, she earns a living for both in such a menial fashion that it is a wonder that her brave heart has not long since given way beneath the burden.

The name of the woman is Amalie Ceruti, and she was born in Breslau, Silesia, fifty years ago. Her father was a lawyer, a man of position, but poor, horribly poor, knowing such heartbreaking poverty as can only be found among German officials. Amalie Vosler was the eldest child of a large family. In those days the only way for a woman to earn a living honestly was on the stage, and on the stage she went. She was small, with a pretty, graceful figure and a fine, intelligent face. She made her first appearance in her native city, and her success was instantaneous. Those were the days when the ballet was a matter of first, not of secondary importance, and the gifted young dancer speedily made her way to the ranks of her profession. She went from city to city in Germany and Austria and was everywhere triumphantly re-

ceived. In an evil hour, she says, she was induced to come to this country. That was in 1871, when the Kiralfys first came over from Hungary to startle the United States with their unique productions. "Humpty Dumpty" was first produced and the young German dancer made a hit in pantomime.

Then came the great spectacular pieces like the "Black Crook," and the "White Fawn." She became a member of the "Black Crook" company playing at the Academy of Music. In the same company were Bonfanti, the beautiful, who afterwards married the son of Gov. John T. Hoffman and retired from the stage, and est and principal on the mortgages. I Emily and Betty Rigl, though in those may feel inclined to make things go days they spelled their names "Regal.

There was another member of the But he got even; he was the only man, company, the ballet master, in fact— Baptistin Ceruti, known on the stage as Baptistin, and between him and the fair haired dancer a strong attachment arose. They were not contented with being happy, they wished to be happier, 'and so they were married" in 1873. Everything went well for a while. Her husband's services of the poor-house and make her act were in demand, and they had no troubles. He was nearly twenty years older than she, and had been married before, but there was no cloud on their married life. She was as fond of her little stepson. Louis, as if he had been her own child. Whenever she wanted an engagement she found one with Strakosch or the doughty Col. Mapleson, and on one occasien she took part in Adelaide Neilson's production of

> Then the clouds began to gather. Her husband became desperately ill. Managers suddenly discovered that Ceruti and his wife were not so young as they once were. Engagements were hard to get, and, like all people of their class, bohemians to the core, they had saved but little money.

"Much Ado About Nothing."

AMELIE CERUTI.

After their savings were gone, what was the nearest refuge? Why, the mont de plete, as she calls it-the pawnshop, of course. So the pretty baubles went, one by one, to buy food and clothes and to keep the wolf from the door. Occasionally they would get a few weeks' engagement, she as a ballet mistress and he as ballet master. But they had felt hunger and want and their spirit was gone. Perhaps they were not made of the stuff that heroes and heroines are made of, able to conquer fate. Anyhow, things went from bad to worse.

The last engagement Ceruti has was with Pain, five years ago, and her last appearance was in the German opera at the Metropolitan opera house, nearly as long ago. How have they lived since? It is always hard to tell how the other half lives, and no one but themselves can tell the story of their struggles. He is a free mason, and his brothers have not forgotten him.

Louis has grown up and is a skilled etcher and photographer. But he has found it hard to get employment, and there are four mouths to feed, for he married a girl as poor as themselves.

Mme. Ceruti's troubles had made her a little flighty. Managers shut their doors on her. Her husband was growing old and feeble every day, until finally it seemed as if there was nothing between them and hopeless poverty.

A few weeks ago Mme. Ceruti went to a lawyer and told him an odd story of how she had been robbed of the very last of her jewels nearly five years ago. Necessary proofs were lacking; she had no friends. It seemed impossible to convince the authorities that a woman so poor as she could have been robbed,. But the lawyer is investigating the matter, and perhaps after all the necessary evidence may be got that will bring comfort and ease to her for a time at least. Mme. Ceruti is still erect and alert. She talks French as well as German and English, and speaks with keen regret of the lost glories of the ballet, of the Vestris, the Ellslers and Taglioni. She is still proud of her slender feet, with arched insteps, which she showed with a touch of old coquetry. With all her troubles she has not lost hope, and looks forward to the future with a faith that is almost pitiful.

\$1,000,000 BRIDEGROOM.

Young Mr. Weglid, Who Wedded a New York Lady Aged 73. Franklyn Reglid, the youth who has

MR. WEGLID. 000 fortune and aged bride tagged to the money, has taken the part of a young aristocrat in one of Mr. Daly's farces. Mr. Reglid is a pale wraith, not particularly sensitive and surcharged with a priceless belief in himself and destiny. He is enthusiastic, dramatic in a mild way and suggests in manner and personal appearance a singuyouthfulness and exaltation of spirit. He is effeminate to a degree occasionally laughable and quite intelligent and not without a certain adaptation for the stage. Mr. Reglid was married in New York, the other day to a lady aged 73 and worth a

The Oldest Book. The oldest book in the world, according to a writer in the London Literary World, is the "Prisse" Papyrus, now at the Bibliotheque Nationale in Paris. The title is "Precepts of Ptahhotep, Viceroy of Assa, King of the 20,000 South and North." This work was written about 3350 B. C., comprises sixteen pages, and is divided into forty-four chapters. It consists of rules how to govern wisely. Ptahhotep uses sixteen times the name of "God" in his work, and always in the singular. His concluding words are: "I am now one hundred and ten years old, and have written this book myself from beginning to end." An English translation has been made by Professor Osgood. Together with this papyrus a few leaves of a still older work have been found, which is supposed to have been written by Kakimni, Viceroy of the King Senefru, of the third dynasty. These leaves are older than the pyramids, and go back to the year 3760 B. C.

Congress and Seeds.

Secretary Morton has tried to reform the government distribution of agricultural seeds. After the passage of a bill by the present congress allowing each member a clerk, the secretary notified members that the seeds would be furnished them for distribution by their clerks, thus saving the salaries of clerks employed to mail seeds to addresses given by congressmen. The house agricultural appropriation bill has had many reform features changed by the senate, and as reported from the conference will compel the secretary to send out \$160, -000 worth of seeds directly from the department to addresses furnished. and to notify the receivers. For this work eight clerks will be required. The provision that seeds should be of rare varieties only, has been struck out.

Pollination of the Pear. The department at Washington has issued a pamphlet of nearly 200 pages on the influences and changes wrought tension, Although in the flowers and fruit of the pear, and more particularly in the Bartlett, by dusting them with pollen from other varieties, such as Anjou, Angouleme, Winter Nells and Clapp. These changes are occasionally considerable, but some credit must be ascribed to season and to skill in pruning and culture. The influence of the ten in the United States,"and read Sidstock is sometimes important. The subject is interesting, and changes ridiculed the claims of Longfellow may be obtained by future experi- and Lowell to respect as poets, sayments: but it must be remembered that results are only the changes of varieties, and that none of them are specific; one variety does not hop across the line through this agency.

The heart ordinarily beats abouf seventy times a minute and throws about two ounces of blood at each contraction.

The must be remembered that here is all y and there is all y and that none of them are gate open." It is told of him that he used to say things like this to Lowell himself.

The world's total gold yield last year was \$26,228,600, an increase of about \$2,500,000 over the previous year.

A MIRAGE AT BUFFALO.

The City of Toronto, Fifty-six Miles Dis tant. Visible in the Air.

The citizens of Buffalo, N. Y., were

treated to a remarkable mirage between 10 and 11 o'clock on the morning of Aug. 16. It was the city of Toronto, with its harbor and small island to the south of the city. Toronto is fifty-six miles from Buffalo, but the church spires could be counted with the greatest ease. The mirage took in the whole breadth of Lake Ontario, Charlotte, the suburb of Rochester, being recognized as a projection east of Toronto. A sidewheel steamer could be seen traveling in a line from Charlotte to Toronto bay. Two dark objects were at last found to be the steamers have, dad, I'd not smoke at all. of the New York Central plying between Lewiston and Toronto. A sailboat was also visible and disappeared suddenly. Slowly the mirage began to fade away, to the disappointment of thousands who crowded the roofs of houses and office buildings. A bank of clouds was the cause of the disappearance of the mirage. A close examination of the map showed that the mirage did not cause the slightest distortion, the gradual rise of the city from the water being rendered perfectly. It is estimated that at least spectacle.

spectators saw the novel This mirage is what is known as a mirage of the third order. That is, the object looms up far above the real level and not inverted, as is the case in the English language. with mirages of the first and second class, but appearing like a perfect landscape far away in the sky.

LONGEVITY ON THE INCREASE. Mon Attain to Greater Age Than Forms erly, Especially in America.

The number of deceased persons who had attained an exceptional the last three or four months of the year the general public became familiar, through a perusal of the daily papers, with the remarkable obituaries of those who had departed having lived to a great old age. A month or so since we read of a life that had reached the extraordinary limit of 195 years. We have since read of the death of a woman at Hartford. Conn., who was old enough to give warning of the approach of the British fleet in 1812, and so saved the New England coast from threatened for friends, upon devastation. And still later we have been apprised of the death at Terre she overanxious to Haut, Ind., of a man 104 years old who attended the funeral of Washincrease for many years, particularly in America. But it may be remarked with a jerk, and right on the top, upon that the constitutions that carried a dainty confection fresh from the these persons up to the centennial mark or beyond were formed very living at the present rate, and that With a bang the inspector slammed the best part of most of these old

ness worlds. To have a good chance for longevity it is almost unnecessary to say of Miss Carlisle's trunks without to this primary excellence cheerfulness in the art of living must be added. The secret of long life is that intellectual activity and success have been no barriers to long life. proved a help rather than a hindrance to men of literary pursuits. Volatire, who at birth was put into a quart pot, could never have attained his 84th year had he not followed the strict, sober, active life which he chose.

Tarring and feathering was once a legal punishment for theft. It is said much in earnest to be found in the statutes of both about it indeed. To | England and France about the time of

BUDS, Society buds, young wo-men just entering the doors of society or woman-hood, require the wisest care. To be beautiful and charming they must have perfect health, with all it health, with all it implies—a clear skin, rosy cheeks, bright eyes and good spirits. At this period the young woman is especially sensi-tive, and many nervous troubles, which continue

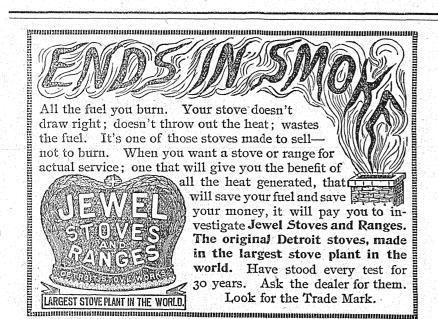

through life, have their origin at this time. If there be pain, headache, backache, and nervous dispain, headache, backache, and nervous disturbances, or the general health not good, the judicious use of medicine should be employed. Dr. Pierce's Favorite Prescription is the best restorative tonic and nervine at this time. The best bodily condition results from its use. It's a remedy specially indicated for those delicate weaknesses and derangements that afflict womenkind at one period or another. You'll find that the woman who has faithfully find that the woman who has faithfully used the "Prescription" is the picture of health, she looks well and she feels well.

In catarrhal inflammation, in chronic dis-placements common to women, where there are symptoms of backache, dizziness or fainting, bearing down sensations. disorare symptoms of backache, dizzness or fainting, bearing down sensations, disordered stomach, moodiness, fatigue, etc., the trouble is surely dispelled and the sufferer brought back to health and good

"WOMAN'S ILLS." Mrs. W. R. Bates, of Dilworth, Trumbull Co., o Ohio, writes:

MR". BATES.

Right Arm Paralyzed!

Saved from St. Vitus Dance.

"Our daughter, Blanche, now fif-teen years of age, had been terribly afflicted with nervousness, and had

lost the entire use of her right arm. We feared St. Vitus dance, and tried the best physicians, with no benefit.

She has taken three bottles of Dr. Miles' Nervine and has gained 31 pounds. Her nervousness and symptoms of St. Vitus dance are entirely gone, she attends school regularly,

her arm, her appetite is splendid."

State Sunday School Convention

To the Sunday School Workers of

Michigan: We take pleasure in announcing that the 34th Annual Convention of the Michigan S. S. Association will [D. V.] be held in the City of Grand Rapids, Nov. 13, 14, 15. The first meeting, on Tuesday evening, will be held in Lock\_ erby Hall, and addressed by Major General O. O. Howard, U. S. A. The subsequent sessions will be held in the tre. First Baptist Church. The indications are that this will be the most largely attended and enthusiastic meeting of the kind ever held in Michigan. We would remind you that this Convention represents the unified Christian forces of the State in aggressive S. S. work; this place. that it is thoroughly interdenominational, therefore promotive of abiding social and spiritual fellowship; also that it will be highly stimulative, educative and helpful to all S. S. workers.

The program will be rich and varied. and ably sustained by representative talent both in and out of the State. We ask you to note the growing popularity of our State Conventions. The attendance at the Lansing Convention. in 1890, was about 500; at Muskegon, in 1891, 736; at Bay City, in 1892, 820; at Hillsdale, in 1893, 1,050. The representations in our State Conventions heretofore have excelled those of Ohio. At their last Convention they enrolled 1. 521 delegates. At our forthcoming meeting we want to register 2,000 delgates. We can do it.

Our Grand Rapids friends guarantee ree entertainment to all accredited lelegates whose name is sent to Elmer E. Stanton, 151 Ottawa street, on or pefore Nov. 10th. Programs with full particulars will soon be out. Note the ollowing: The honorable Secretaries of the London S. S. Union, have designated Sunday and Monday, Oct. 21 and 22, as Days of Universal Prayer for Sunday Schools. All Christians everywhere, are urged during those days requently, in private and public ways, to pray for Sunday Schools, and S. S. Missions throughout the world, and for all S. S. teachers, officers and scholars, and especially for a speedy and great outpouring of the Holy Spirit, and the conversion of many souls.

By order of the State Executive Com mittee. E. A. Hough, Jackson, Chairman. George Parsons, Watervliet, President.

P. S.-The books of W. L. C. Reid, Jackson, ou reasurer, must close Nov. 10th. All Counties and arties pledged for State work are requested to unts with him before that date.
