Undertaker McKenzie has had an unnsually large number of funerals of late. Among the number were those of Mrs. Neil McCallum, of Owendale, and a Nixon child of Gagetown.

The hard tack supper at the G. A. R. hall, Gagetown, on Wednesday evening, was a decided success, both so- and Friday of the last Calendar week cially and financially. Some eighty in September, 1895. I will state farther tickets were sold. The play "Breakers scarcely recovered. The funeral was Ahead," in two acts, was well rendered, some of the Old Vets told their little of September. I wrote him as follows: story and a patriotic speech was given by Rev. Eastlake.

> A dispatch from this place to the Detroit Free Press of Saturday says: Typhoid Fever is very prevelant in the day to save confliction of dates." I township of Greenleaf, Tuscola Co. There are eight cases at the present Thanking you in advance for this space time, and in the family of John Jones and your trouble, I remain, there have been eight afflicted and five have died inside of one month, and three others are now at the point of death. A son-in-law has become slightly deranged from his misfortune, his wife and child being two of the dead.

No man has a right to blame others for his wrongdoings. Character is made up of habits, and habits are formed by repeated actions. The first cigar, clopedia, a poem, a history, a dictionary, then another and another, and the the man obliged to smoke? Not at all. lent and ceased to warn him of his sins. see them! Dorman & Son, Cass City.

An Explanation.

Gentlemen: Please give me space to explain a little in regard to Fair dates for 1895. 1 notice in your last week's issue you say that you see by the Caro Advertiser that our dates are Sept. 26, 27, 28 and 29 of September. It is true that the Advertiser did have it this way, but it is an error. Our dates are Sept. 24, 25, 26 and 27 of September, or the Tuesday, Wednesday, Thursday that I notified the Secretary of the Cass City Fair of our dates on the 29th "The dates for the next Caro Fair were set yesterday. It is to be held Tuesday, Wednesday, Thursday and Friday of the last calendar week in September, 1895. We write you at this early never received any reply to this letter.

> Yours Very Truly, Ad. Moreland, Sec.

Reading Circle.

The next meeting of the Cass City Reading circle will be held in the High School room Sat. Nov. 3, at 1:30 p. m. The first half hour will be devoted to informal discussions of the first months reading. The following is the program.

School Government, Fred Topping. Monthly Report Cards, Miss Belle MacArthur. Busy Work for Primary Grades, Miss Jennie Watson.

HOWARD LUTHER Committee

Mental Arithmetic, N. A. Perry.

FRED TOPPING Any amount of tweeds, light or dark

CHINESE defeats in Corea are said to be due to the lack of harmony between General Yeh and General Neh. Yea and nay never agree anywhere.

DECEASE of a Mexican at 150 seems to throw doubt on the truth of the offcountry that its inhabitants never die of old age.

THE football fever has so far infested the young men in the neighborhood of the university of Chicago that partly by sail and partly by oar. the barbers in that locality are becoming pessimistic.

New York and Brooklyn women, especially of the W. C. T. U., are running yet another crusade, this time on either side the vessel. You would against living pictures and posters of actresses in tights.

NEW YORK is to start a crusade has a scandalized Gould, Astor and Vanderbilt among its top crust ought not to be too particular.

An estimable English spinster, deceased, leaves part of her fortune to Lord Randolph Churchill "in recognition of his commanding political genius" and the rest to her cats!

A PRISONER held by one court went greater the benefit.

piness to possess a gun started hunting. He got no further than the front leg belonging to his wife. This in-

If Japan keeps on at the rate she has been moving in the last few years it will not be long before Uncle Sam will have to raise the salary of his minister extraordinary to that country to \$17,500 per annum. No second rate salary for a first rate mission goes even in Asia among the Mongo-

CANADA's enormous debt of \$300. 000,000 was increased nearly \$4,500,-000 within the past year, the revenue being \$2,000,000 less than the year before while the public expenditures were much greater. This debt the Dominion government talks of increasing to the extent of several millions by constructing a great canal from Georgian bay in Lake Huron to Lake Ontario. Considering the state of the treasury the canal contractors will snow prudence by in advance.

MILLIONAIRE WILLIAM WALDORF ASTOR'S prophecies as to submarine steamships of the future will singularly excite the fancy of voyagers everywhere. He believes that the dream of Jules Verne will be realized. and that vast ships like the Lucania or Campania, driven by electric power, so arranged by the Edison or Tesla of the twentieth century as to rush through the dark green depths of the ocean at terrific speed, will circumnavigate the globe, and will make the mail service between Europe and America a puny matter of forty-eight hours only.

STUDENTS who have tried acquiring the German or French language so as to be able to speak and write it fluently, by a lesson or two a week from some teacher or by an independent use of a book alone, and who have changed to the modern method of instruction in modern languages, by the conversational style, can appreciate the advantage of the change. The study of Greek as French and German are taught by the most advanced teachers would become a pleasure rather than what it is and has been in the various American colleges of the country, irksome and a bore.

A FEW years ago the addresses at the country fairs were usually delivered by the doctors, lawyers and ministers, or by would-be statesmen, who praised the farmers and their work without limit, in the hope of winning votes thereby. But lately a greater proportion of the speakers have been farmers, who have been selected because they were supposed to know something of farming and know how to till the soil. This may be in part a result of the work of the institutes, where the farmer has learned to "speak in meeting" upon farming topics, and in part a result of a more general good education in the agricultural districts. And it is no longer the custom to put "the fool of the family" at work upon the farm, and try to save those who learn their lessons well at school for some "higher calling," like keeping a corner grocery store.

A CHICAGO man not long ago sold his wife for \$10. Shortly after he set upon and thumped the purchaser, on the absurd theory that the price was too small. Probably no more palpable case of adding insult to injury could be cited.

A CHINESE naval officer about to put to sea to fight for his country and sovereign sold his ship's best gun and most of the ammunition. He was too much of a patriot to give Japan a unable to bring them to the shore of chance to get her hands on those val-

BRINGING SOULS TO THE SHORE OF SAFETY.

Sermon from Jonah 1: xiii, xiv: "The Men Rowed Hard to Bring It to the Land, but Could Not, Wherefore They Cried Unto the Lord."

BROOKLYN, Oct. 14.-Rev. Dr. Talject of to-day's sermon, through the press: "The Oarsmen Defeated."

Navigation in the Mediterranean sea always was perilous, especially so in early times. Vessels were propelled When, by reason of great stress of weather, it was necessary to reef the canvas or haul it in, then the vessel was entirely dependent upon the oars, sometimes twenty or thirty of them not venture outside your harbor with such a craft as my text finds Jonah sailing in; but he had not much choice of vessels. He was running away from against living pictures. A town that the Lord; and when a man is running away from the Lord, he has to run

very fast. God had told Jonah to go to Nineveh to preach about the destruction of that city. Jonah disobeyed. That always makes rough water, whether in the Mediterranean or, the Atlantic. or the Pacific, or the Caspian sea. It is a very hard thing to scare sailors. I have seen them, when the brow of the vessel was almost under water, and they were walking the deck knee-deep to another of equal jurisdiction and in the surf, and the small boats by the secured prompt release. Courts, as side of the vessel had been crushed as has often been remarked, seem to small as kindling wood, whistling as be for the benefit of the law-breaker, though nothing had happened; but the and of course the more courts the Bible says that these mariners of whom I speak were frightened. That which sailors call "a lump of a sea" An Oakland man having the unhap- had become a blinding, deafening, swamping fury. How mad the wind can get at the water, and the water door, when he managed to shoot off a can get at the wind, you do not know unless you have been spectators. I terfered with the trip, but doubtless have in my house a piece of a sail of a the man will start out next season ship, no larger than the palm of my

confident as ever. His wife has a leg hand. That piece of canvas was all that was left of the largest sail of the ship Greece that went into the storm 200 miles off Newfoundland. Oh, what a night that was! I suppose it was in some such storm as this that Jonah was caught.

> He knew that the tempest was on his account, and he asked the sailors to throw him overboard. Sailors are a generous hearted race, and they resolved to make their escape, if possible, without resorting to such extreme measures. The sails are of no use, and so they lay hold on their oars. I see the long bank of shining blades on either side of the vessel. Oh! how they did pull, the bronzed seamen, as they laid back into the oars. But rowing on the sea is very different from rowing upon a river; and as the vessel hoists, the oars skip the wave and miss the stroke, and the tempest laughs to scorn the flying paddles. It is of no use, no use. There comes a wave that crashes the last mast, and sweeps the oarsmen from their places, and tumbles everything in the confusion of impending shipwreck, or, as my text has it, "The men rowed hard to bring it to the land; but they could not; wherefore they cried unto the Lord."

This scene is very suggestive to me, and I pray God I may have grace and strength enough to represent it intelligently to you. Years ago I preached a ermon on another phase of this very subject, and I got a letter from Houston, Texas, the writer saying that the reading of that sermon in London had led him to God. And I received another letter from South Australia, saying that the reading of that sermon in Australia had brought several souls to Christ. And then, I thought, why not take another phase of the same subject, for perhaps that God who can raise in ower that which is sown in weakness may now, through another phase of the same subject, bring salvation to the people who shall hear and salvation to the people who shall read. Men and women, who know how to pray, lay hold of the Lord God Almighty and

wrestle for the blessing. Bishop Latimer would stop sometimes in the midst of his argument, and say, "Now, I will tell you a fable;" and to-day I would like to bring the scene of the text as an illustration of a most important religious truth. As those Mediterranean oarsmen trying to bring Jonah ashore, were discomfited, I have to tell you that they were not the only men who have broken down on their paddles, and have been obliged to call on the Lord for help. I want to say that the unavailing efforts of those Mediterranean oarsmen have a counterpart in the efforts we are making to bring souls to the shore of safety and set their feet on the Rock of Ages. You have a father, or mother, or husband, or wife, or child, or near friend, who is not a Christian. There have been times when you have been in agony about their salvation. A minister of Christ, whose wife was dying without any hope in Jesus, walked the floor, wrung his hands, cried biterly, and said, "I believe I shall go nsane, for I know she is not prepared to meet God." And there may have been days of sickness in your houseold, when you feared it would be a fatal sickness; and how closely you examined the face of the doctor as he came in and scrutinized the patient. and left the pulse, and you followed him into the next room, and said. There isn't any danger, is there, doctor?" And the hesitation and the uncertainty of the reply made two eternities flash before your vision. And then you went and talked to the sick one about the great future. Oh, there are those here who have tried to bring their friends to God. They have been

safety. They are no nearer that

TABERNACLE PULPIT; ago. You think you have got them allrobe of Christ. Ye who are swamped most to the shore, when you are swept down the oar? Oh, no! I do not advise that God to whom the Mediteranean oarsmen appealed—the God who could silence the tempest and bring the ship friends. that there has got to be a good deal of praying before our families are | ing sunk, no effort was made to raise brought to Christ. Ah! it is an awful thing to have half a household on one Two vessels part on the ocean of then they are lost to sight forever!

> ing efforts of these Mediterranean oarsmen have a counterpart in the efforts | At that time the whole world rejoiced some of us are making to bring our over what was called the luck of these children to the shore of safety. There | adventurers. Oh, ye who have been never were so many temptations for literary and the social influence seem to be against their spiritual interests. Christ seems to be driven almost entirely from the school and the pleasur- that never fail, and crowns that never able concourse, yet God knows how anxious we are of our children. We and seek them? Who will dive for the can not think of going into heaven without them. We do not want to leave this life while they are tossing on the waves of temptation and away from God. From which of them could we consent to be eternally separated? that labor and are heavy laden, and I Would it be the son? Would it be the daughter? Would it be the eldest? Would it be the youngest? Would it be the one that is well and stout, or the one that is sick? Oh, I

I have to tell you that the unavail-

hear some parent saying to-night, "I have tried my best to bring my children to Christ, I have laid hold of the oars until they bent in my grasp, and I have braced myself against the ribs of the boat, and I have pulled for their eternal rescue; but I can't get them to Christ." Then I ask you to imitate the men of the text, and cry mightily unto God. We want more importune praying for children, such as the father indulged in when he had tried to bring his six sons to Christ, and they had wandered off into dissipation. Then he got down in his prayers, and said, "O, God! take away my life, if through that means my sons may repent and be brought to Christ;" and the Lord startlingly answered the prayer, and in a few weeks the father was taken away, and through the solemnity the six sons fled unto God. Oh, that father could afford to die for the eternal welfare of his children! He rowed hard to bring them to the land, but could not, and then he cried unto

the Lord. I wish I could put before my unpardoned readers, their own helplessness. No human arm was ever strong enough to unlock the door of heaven. No foot was ever mighty enough to break the shackles of sin. No oarsman swarthy enough to row himself into God's harbor. The wind is against you. The tide is against you. The law is against you. Ten thousand corpting influences are against you. Helpless and undone. Not so helpless a sailor on his plank, mid-Atlantic. Not so helpless a traveler girded by twenty miles of prairie on fire. Prove it you say. I will prove it. John vi: "No man can come to me, except the Father which hath sent me draw

But while I have shown your helplessness, I want to put by the side of it the power and willingness of Christ to save you. I think it was in 1686 a vessel was bound for Portugal, but it was driven to pieces on an unfriendly coast The captain had his son with him, and with the crew they wandered up the beach, and started on the long journey to find relief. After awhile the son fainted by reason of hunger and the length of the way. The captain said to the crew, "Carry my boy for me on your shoulders." They carried him on; but the journey was long, that after awhile the crew fainted from hunger and from weariness, and could carry him no longer. Then the father rallied his almost wasted energy, and took up his own boy, and him on his shoulder, and carried him on mile after mile, mile after mile, until, overcome himself by hunger and weariness, he too fainted by the way. The boy lay down and died, and the father, just at the time rescue came to him, also perished, living only long enough to tell the story-sad story, indeed! But glory be to God that Jesus Christ is able to take us up out of our shipwrecked and dying condition, and put us on the shoulder of his strength, and by the omnipotence of his gospel bear us on through all the journey of this life, and at last through the opening gates of heaven! He is mighty to save. Though your sin be long and black, and inexcusaand outrageous, the very moment you believe I will proclaim pardon-quick, full, grand, unconditional, uncompromising, illimitable, infinite. Oh, the grace of God! I am overwhelmed when I come to think of it. Give me a thousand ladders, lashed fast to each other, that I may scale the height. Let the line run out with the anchor until all the cables of the earth are exhausted, that we may touch the depth. Let the arcangel fly in circuit of eternal ages, in trying to sweep around this theme. Oh, the grace of God! It is so high. It is so broad. It is so deep. Glory be to my God, that where man's oar gives out, God's arm begins! Why will ye carry your sins and your sorrows any longer when Christ offers to take them? Why will you wrestle down your fears when this moment you might give up and be saved. Do you not know that everything is ready?

Plenty of room at the feast. Jesus has the ring of his love all ready to put upon your hand. Come now and sit down, ve hungry ones, at the banquet.

by the breakers around you, cry to back again. What shall you do? Put | Christ to pilot you into smooth, still waters. On account of the peculiar that; but I do advise that you appeal to | phase of the subject, I have drawn my present illustrations, you see, chiefly, from the water. I remember that a vessel went to pieces on the Bermudas in safety to the port. I tell you, my a great many years ago. It had a vast treasure on board. But the vessel be-

it. After many years had passed, a company of adventurers went out from side the line, and the other part the England, and after a long voyage they household on the other side of the line! reached the place where the vessel was said to have sunk. They got into a eternity, one going to the right and small boat and hovered over the place. the other to the left-farther apart, Then the divers went down, and farther apart—until the signals and they broke through what looked cease to be recognized, and there are like a limestone covering, and only two specks on the horizon, and the treasures rolled out-what was found afterward to be, in American money, worth \$1,500,000, and the foundation of a great business house. rowing toward the shore, and have not young people as there are now. The been able to reach it, I want to tell you to-night that your boat hovers over infinite treasure! All the riches of God are at your feet. Treasures grow dim. Who will go down now pearl of great price? Who will be prepared for life, for death, for judgment. for the long eternity? See two hands of blood stretched out toward thy soul. as Jesus says, "Come unto me, all ve will give you rest."

REMNANTS AND RAVELINGS.

J. D. Laveago, who died recently at Santa Cruz, Cal., left \$1,000,000 to be used in building a hospital for the deaf and blind.

The great game fish of America are the Canadian muskallonge, California bass. Florida tarpon, Labrador salmon and Adirondack lake trout.

A King's Daughters' circle in San Francisco is composed of eight Chinese women, two Japanese, two Syrians and their two American teachers.

A Georgia colored woman decided to commit suicide by drowning, but by the time she had waded in up to her waist, her courage forsook her and she returned to land.

A New York girl, in passing through the hall of her house recently, encountered a burglar. She grappled with him and, catching hold of his hair, held on until help arrived, when he was turned over to the police.

A Chicago criminal owes his escape from the penitentiary to the cleverness and devotion of his sister. She managed to administer to him, unknown to the prison officials, a drug which gave him every appearance of a violent attack of inflammatory rheumatism. The woman then went to the judge and by telling him the condition of the prisoner secured a suspension of the sentence.

A vender of patent churns told Lewiston woman his churn would make two more pounds of butter than her old one. He left the churn and promised to be around in the morning to test it. Before he came she did her churning in her old churn and put the buttermilk in the new one. The agent came and churned and surrendered with the exclamation, "There is no butter in this cream." "I know it," said the lady, "for I've churned it in my churn, but I wanted to see you get that other two pounds." There was no sale.

Sandwich Soldiers. An ingenious Belgian has con-

structed a double bullet-proof cuirass to protect both front and back, and his idea is that in times of peace it should be employed as a pair of sandwich boards and worn by the soldiers. In this way much revenue would come to the army, and the States are trespassing in Hudson bay, point than they were twenty years Ye who are in rags of sin, take the forces would be kept out of mischief.

HORSES HAVE IDEAS.

THEY ARE ALMOST AS SUPER STITIOUS AS MEN.

The Horses on Great California Ranches and Their Dread of Mounted Men-Training Horses by Treating Them as Intelligent Beings.

"Horses are almost as superstitious as men, but, unlike men, they can be reasoned with and made broad-minded, liberal, free-thinking philosophers. The horse is the noblest animal that walks the earth. He has most of the good traits of the human race with some of the bad ones."

It was Professor Bartholomew who spoke to a Chicago Times man in this exalted strain about the horse.

"Take, for instance," said he. 'those horses raised on the big ranches in California, where I got my first training. There are a lot of parallel valleys, each of which may be the property of a separate ranchero, but the horses have free access among them all. Thus horses of different brands get mixed and once a year all the rancheros club together and have a gigantic roundup. "Several thousand animals of a

dozen different brands may be rounded into one herd. The cowboys ride round and round them continuously to prevent any breaking away, and thus the whole herd is kept in constant motion. When a creature tries to break out he is pursued and whipped back, till he realizes that his only escape from punishment is in remaining with the herd. All this time cowboys are riding about in the herd cutting out the different brands. Every mayerick is roped and branded with the mark of the older horse it is following. The branding is cruel work, and the horses never forget it.

"They seldom if ever see a man afoot; but they associate the idea of the pain with that of a mounted man and brood over it till it grows stronger and stronger. The sight of a horseman is to them frightful, and they are desperate in their attempts to escape from his presence. The older they grow the stronger is their dread of mounted men, and it is inherited by the colts till it has all the features of the Ramabai association, whose pur- a superstition. Still it can be educated out of them.

"Then again there may be individual superstitions. Say, for instance, a horse falls off a cliff and is badly pher of no mean skill. In his travels bruised. He may be fearless at any other pass, but he will carefully avoid a camera, which he uses on any bit of this particular place where he was injured. One horse may fear one thing and another another. Untamed ranch reward. James Haysman, a New horses may have different supersti-York expressman, who found on the tions from those of the real wild street a check for \$20,000, payable animals that have never been disto Russell Sage, took it to his office turbed by man. Among these there and received a \$1 bill for his honesty. is a pronounced fear of rattlesnakes

> tamed in an hour so that he will follow his rider about and let himself be ridden without a struggle. I have tamed hundreds of horses fresh from again they say as plain as if they used words, 'Why yes, I can do that,' and

"In selecting horses for exhibition I ignore the usual rule which is that an intelligent horse is broad between the eyes, with a small nose, broad between the ears and with small ears. Horses are like men. You can't tell by the shape of a man's head whether he is a philosopher or a fool. You will find heads in congress as awkwardly shaped as in a lunatic asylum, and in the latter place will be seen faces apparently as intelligent as the

wisest in congress. "I train my horses in classes. take a dozen and ask each to do a tea 99 were short weight to the extent certain thing. Some will stare blindly, while others will step up briskly and say: 'Yes, I can do that.' Then I ask them to do something else, and then those who were quickest at the first act will halt, while those who made no response before are anxious to do the thing. Thus I soon learn the class of work each is especially fitted for, and develop them along their special lines. In this way they are just like men. Now, I have tried numerous ways of making a living outside of horses, but always fail and drift back to my hobby.

"Horses are like men in the amount of courage they can muster up. If I | years of service. There is no differwant a horse to do extra long jumps I ence in the design, except that the select a creature that is finely built and has all the physical qualities, but | brilliants. perhaps he is a coward and is afraid to leap. Some little half-developed creature possessed with a dare-devil spirit may outdo him in every respect.

Bartholomew is severe on such alleged horse trainers as do not really train the horses, but simply scare them into subjection. Such fakirs give a show that, as a show, is no loubt worth the price of admission, but the horses are ruined, and the moment a fractious horse has passed out of the realm of straps and clubs he is worse than ever. He fears men more than before, and usually he is ruined for life. Bartholomew, on the other hand, goes about the work in a gentle manner that turns all horses feelings into affection for man, and, not fearing him, they do his bidding cheerfully. Kindness is the real secret of the wonderful success of the horse magician.

Saiting Whalers. Apropos of the Canadian complaint that whalers owned in the United

two whaling barks from New Bedford were reported last year in Hudson strait bound for Hudson bay, and a great many were reported from various parts of the north Atlantic. Many of these latter were in pursuit of sperm whales. The sailing whalers are more and more confined to the Atlantic and its tributary bays now that steam whalers are so successful

in the North Pacific and the Arctic. A WOMAN'S VOCATION.

Comfortable Livings Earned by Girls Who Act as Secretaries.

A distinct and curious branch of

voman's industry, in which women's talents can be employed, is that of reader, confidential secretary and correspondence clerk. Women of wealth and extensive social connections, whose multifarious duties preclude the possibility of their reading and answering all the letters which they receive and keeping track of the news of the world as chronicled in the daily newspapers, employ women to do this for them. Some of them, like Mrs. Vanderbilt and Mrs. Astor, employ regular private secretaries. Others, however, engage the services of bright young women for an hour or two hours daily. These young women have other clients whose work occupies the rest of their time. Investigation has shown that nearly a score of New York young women, who are daily visitors in the fashionable houses in Fifth and Madison avenues, are earning a handsome livelihood in this manner. Some of them are talented women of splendid education, whose services are considered particularly valuable because of their ability to convey the news of the day in a terse, gossipy manner without reading from the newspapers.

Miss Fannie Danton is one of this corps, and when a reporter for the New York Journal met her the other day she had finished a two hours task in the home of a well-known society leader.

"I have come to regard myself, not as a plain amanuensis," said Miss Denton, smilingly, "but rather as a special reporter of news happenings, who has taken the additional literary labor of writing a few letters put on her shoulders. I think the work is lovely, for it enables me to put my own construction upon what is going on all over the world. While the Pollard-Breckinridge suit was being tried I regretted more than once that my clients were so numerous, for I assure you it was no easy task to satisfy them with the ordinary statement of the proceedings that I would give of an ordinary lawsuit. They wanted to know all about it—even the minutist details—and sometimes I had to read the reports of more than two papers to them before they were satisfied. I could not help thinking that it was curious that

women should take such an absorbing interest in such a case, but the fact remains that they did, and I had to suffer accordingly. Why, one old woman was going to dismiss me because I omitted to read Miss Pollard's carriage with Colonel Breckinridge! Now, how in the world did that dowager know I skipped the incident?" A Trick of the Trade.

One of the tricks of trade is for the shopkeepers in London to include the weight of the paper in which articles sold are enveloped. It has been shown that a huge profit is made in this way. For instance, the report of the public control department of the county council states that in a recent case it was shown that a firm of tea dealers sold as quarter-pounds of tea packets which contained four drachms weight of paper, and that on this the firm profited to the extent of some thousands a year. The result of the investigation in London was that out of 585 bags of flour weighed ready for delivery 427 were found of deficient weight, the deficiency amounting to over 2 per cent; in 409 packages of sugar 377 were found to be short weight, while out of 232 packages of of over 2 per cent. In addition to the loss by weight of the wrapper, it was found that in a number of cases the

gross weight of the packets was short. The Guardsman's Medal. The national guardsmen of New York will hereafter be presented by the state with a handsome medal for long service. These medals are to be presented for a service of thirty, twenty-five, twenty, fifteen and ten years, and are designed to be manufactured of eighteen karat solid gold, gold and silver, silver and bronze, and bronze according to the increased medal for thirty years is set with

The lady witness had become quite picturesque in her testimony and the attorney had called her down in a way that had made her mad all

"Confine yourself to facts, if you clease, madam," he said in conclusion. "Very well," she replied tartly; you are no gentleman. How does that strike you?"

He Repented. Sunday School Teacher-Do you nderstand what repentance means? Little Johnny, with deep feelinges, indeed. "Give me an illustration."

"Once I took a whole lot of fruit cake without asking, and I repented awfully-till mamma gave me some ginger."-Chicago Record.

Conductor or Company. Car Conductor-Did I get your fare,

Passenger-I don't know. I wasn't looking at the register.

THE FISHER-BOY.

Little Jack lives close by the stormy sea:

Little Jack with his mother stays at home. But he loves on the sandy shore to roum, And be the first to catch a sight Of his father's boat coming back at night.

And be the first, when it comes to land, To offer a ready helping hand: And there's notein the town a lad so spry In spreadin; the lon; net where 'twill dry

And he helps the men who have worked all day Unload the fish in the merriest way. And when the carzo is all ashore. He runs ahead to the cottage door. There the mother waits, with the supper spread But stoops to pat fondly the curly head; For fond and proud of her bov is she, The lad who a fisherman brave will be.

And then he lies down to slumbers light, He dreams of a bout with sails so white, And he sails in dreams far over the sea: And who so happy and gay as he?

Ah, the day be distant when from the shore He may watch for the boat that returns n more!
When he turns to the cottage with weary tread
And the mother weeps for the father dead!
—Harper's Young People.

MY JO, JOHN.

BY HELEN B. MATHERS.

CHAPTER VI-CONTINUED. And Polly was one of those jades to whom providence gives dimples. and nothing else-and uncommonly well do they seem to thrive on them! "Missus will have to decide that," she said, after a considerable pause, "and I shouldn't be surprised if she takes Polly as housemaid, engages a new to go to the Wick. haven't even asked how Molly is?" she added in an aggrieved voice. "How is she?" said Fletcher, in whom the paternal feelings were not

at all strongly developed. "As pretty as paint." "That's all you women think about.

How's her temper? That's more to

"Well," said Martha judiciously. "her temper ain't up to her looks, and that's a fact. But girls always take after their fathers. But she sleeps well and eats well-like you -she hasn't got brain enough for it to give her much trouble. Now, there's Master Tom, see how bright and lively he is-just like his mother! He don't want dry-nursing, and when he does get a wife I believe he'll know how to behave to

"That'll depend on who he marries," said Fletcher, still wrestling with his chamois leather.

"But come now," said Martha, who was as really anxious to get at the rights of the matter as Fletcher was secretly anxious to know what Mrs. Anderson had been doing up- day life. She objected to neither stairs all day, "everything was all town nor country, and so long as right when I went down to Molly the | she was comfortable, ignored the day before yesterday, what has hap- surrounding landscape, so Martha pened since?'

"Things have come to a pint," tress that Sarah was the very persaid Fletcher oracularly. "It's been son to see after "master's" comforts nag, nag, grumble, grumble, worrit, at Harley street. worrit, at that blessed man for "Only we want some one to cook She crossed the room and unlocked weeks, and yesterday morning at for us," said Mary, wearily who was the dressing room door. Bare and or why, she right down upsets the servant hunting, and not until the applecart, and tells him as how she

is going!" "You heard?" said Martha, with a sniffing air, peculiarly offensive. "I ain't deaf," said Fletcher, with dignity, "and I don't carry wax in my pocket to stop my ears with when individuals talk high, and I was inform Polly she was to be withbrushing master's coat and hat outside. When he came out he was all tradesmen's young men, thereby trembling, and looked as white and weary as if he'd been a brute fit of weeping, and an ardent long-'stead of her, and he went down the ing to be "even" with Mrs. Fletcher. street hardly looking where he put his feet down. Poor thing!" added Fletcher, with a tremble in his voice in confidence to the cook. "Jealous that a wrathful thought soon steadied.

"And would you believe it?" he said, holding out a silver fish-slice as if it were a musket. "that when he never came home to dinner she had the face to wonder where he was. and ackshally waited for him! Then she had the owdacity to me to ask the cook if she hadn't better keep some daly signed and carried away again. thing hot for him! Hot! as if she Hitherto, only their own hearts had hadn't made everything hot enough for him for one day! I didn't even answer her, Martha, I just walked out with indignity!"

And so saying, with an air of nobility that would have done credit to an Italian prince, Fletcher resumed his plebian occupation.

CHAPTER VII. The division of household goods, of property/that had hitherto been supposed to be common to both husband and wife, had begun, and as the work went on, the division too of memories, of interests and blended lives was with fell and almost breathless rapidity made complete.

Not one iota of anything belonging to her husband might Mary take with her-such was the edict promulgated by his solicitors, and no scrap of anything belonging to Mary might she leave behind her, or anything belonging to Tom, who was henceforth to be practically fatherless so far as the finality of all present arrangements went. All that was her own, or had been given her whose resolute eyes burned steadily by her husband (and her pride rebelled vigorously at the taking of had the authoritative ring of comthese last) or had belonged to her children Mary took, also her own ment had been accustomed, and portrait painted when she was a girl with bright eyes, filled full of hap-

piness for her by "My Jo, John." Mary felt like a stranger in her own house as she moved to and fro, or as if she had died and come back unrecognized to haunt the place in which she had been so happy, but was now forgotten, and perhaps the unreality of it all helped to keep her calm, and prevented her proud

heart from giving way. How hard, how inflexible she had grown, only Martha Fletcher knew. Martha, who was going through a

dared not display, and the dignity that she felt it due to herself to display under the trying circumstances overwhelmed. in which she found herself so unexpectedly placed.

for granted, and as a perfect matter of course, that she should accompany her mistress to Pigeonwick; his duty was to his master, and hers door. to Mrs. Anderson, such duties having been entered upon years before there was any question of their duty to one another, if indeed there were any, as marriage, to Fletcher. was but a trifling episode in his and then, too really overcome to career.

To break such bonds would only be another. and indeed it was on record that after an especially rousing exchange of personalities, Fletcher had put on his hat with the up with packages ready for deintention of leaving her, and Martha | parture, the impedimenta of a wife had promptly put on her bonnet going forth from the home to which also with the intention of leaving him, but they had ended by divesting themselves of their head-gear with a solemnity befitting the abdi-

cation of a crown.

And now for Martha to have conenemy would have been to confess herself beaten in the long matri- | Fletcher, downstairs, in what was monial duel she and Fletcher had really the da kest hour of his life, played, so Martha resolutely re- heard the door shut, and by inupper lip, and a tongue in admirable working order, and worked like one possessed at the packing which Mary was so resolute to have completed within the stipulated time.

If Fletcher felt any secret qualms, if he occasionally glanced at the prospect of an empty place hitherto occupied by a little sharp-voiced, comely woman, and thought with a man's dismay of possible buttonless shirts and unmended socks, he gave himself at all as to whether Polly or this matter lay on Martha's mind night and day. Polly's dimples had never been more aggravatingly in evidence than during these last days, and as she professed moreover a wholesome hatred of the country, where areas are unknown, she was heard openly enough to declare she hoped she would be left in town to

look after "master." Martha longed to slap those saucy cheeks, and give the girl a on her gloves. "Is the carriage plain piece of her mind. The cook, here?" a middle-aged woman, was one of those persons who right through life are strictly neuter in all things -a condition of mind severely condemned by one of the sages, but useful enough for the purposes of everywas careful to impress on her mis-

ing, did she rouse herself to say

then Martha went off in triumph to be at least a year. drawn from the admiring eyes of the throwing that young woman into a "She's jealous of him, that's what she is." wept poor Polly afterwards of a bally old image like him! You'd better look out for p'ison or dynamite if you are going to stop here." But Sarah, who was slow of speech, and had a hearty contempt for the whole race of man, thought

she would be able to take care of herself anywhere. The lawyers brought the deed of separation hot-foot, and it had been divided the pair, but now the law, or something very like it, had sundered them, yet it was John Anderson's hand, not Mary's, that faltered

on writing the necessary signature. Had she wavered once, would the ssue have been the same? But no tremor or shadow of regret. showed in Mary's calm face as she wrote the words that set a seal upon

the abdication of all a woman's dearest most cherished rights. CHAPTER VIII.

"You will go with your mistress, Fletcher."

"Sir! Sir!" "You heard me. Your wife and Polly will accompany Mrs. Anderson to Pigeonwick, the cook will remain here to look after me. I shall only require breakfast.'

Master and man looked at each other, seeming to have changed places.

It was the man who was pale, timid, appealing. John Anderson, in his composed face, while his voice mand to which, for years, his regiwhich his men would no more have dared to disobey than did Fletcher

now. "But, sir," he pleaded, almost in tears, "who will valet you and look after your clothes and comforts? I've waited on you these twenty years, and-"

"Now your duty is to your mistress-and your wife," added John ing? Anderson, as an afterthought. "And remember that I place Mrs. Anderson in your care, and shall most certainly exact an account of your stewardship. By serving her worth. Papa was up nearly all great crisis in her own life also, and faithfully you serve me better than night arguin' about infant baptism who was torn between the grief she you have ever done before, and be- with the minister.

lieve me, I shall not be ungrateful." The man stood with bent head

"And Fletcher, do not return to this house on any pretext whatever, For Fletcher had taken it entirely unless I send for you. What you want can be sent after you."

He turned away, and the man moved like one blind towards the

"Fletcher! He came back and lifted his head. John Anderson looked at him earnestly, then he stretched his hand, the man silently wrung it,

speak, retired from the room. Colonel Anderson went out into the hall and fetched his hat and stick. How desolate, how unutterably dreary looked the silent hall, heaped she had come with such high hopes

MATTERS OF INTEREST TO AGRICULTURALISTS.

Some Up to Date Hints About Cultivation of the Soil and Yields Thereof-Horticulture Viticulture and Flori-

Kind of Horse to Breed. M. Butterworth, speaking at a Misouri convention, said: The question of the day is what kind of horse to breed. So long as American farmers find stock raising the chief reliance draft horse reeding must be the most profitable and substantial branch of griculture. So long as the cities and factories continue to grow, so long will the demand for good draft horses continue, and good prices be maintained in all the leading markets of the world. While many farmers content themselves with using small scrub horses on the farm, it does not pay to raise them; better raise a big highgrade colt that will at maturity sell for enough to buy two little horses. The farmer that will content himself with only small horses to do the farm work generally breeds to a cheap horse and raises a cheap colt, while the more enterprising farmer breeds intensely relieved her, kept a stiff gone, and would not return again to the best imported horse available, and raises a colt to be proud of, that Mary, tying her bonnet-strings for grows rapidly, and when 2 years the last time in her dismantled room, old is so well matured that he can also heard the door close, and though work enough to pay his board, and, she was still firm, still mistress of when 3 years old, drive to town herself, since the hurry had been so with a load, and he can take a load great, and the time for reflection so that is a load. The horse buyers are short, felt herself quiver at the continually asking your price for that horse, while the farmer driving the She know that he had been in the little scrub never is asked such questions. But it pays to keep these big when she was in, though they never grades until they are 4 or 5 years old to thoroughly mature and harden paths, or made a single inquiry them for the city work. The dealers who are eager to buy our young draft grades have them matured further east and double their profit. It pays our western farmers to keep them to maturity. Few farmers can afford the luxury of a non-producing team of geldings or mules that can not breed. Many of our western far-

mers find the draft mares the most profitable and the most practical farm team for heavy plowing with a big plow, for hauling all our heavy farm machinery, for taking large loads of grain to market and large loads of manure to the fields, and when once we use them on the farm we will never do without them. Some here may say they are too big and clumsy and too slow for them. The model draft horse is not clumsy or slow; the American draft horse is not bred on that line; as to size, we want all the size we can efforts, too many small horses. We must have better mares to raise the better class of extra heavy draft and coach horses for the city markets. She crossed the room and unlocked Grade up as fast as possible, keep all the good mares and they will breed better with each additional cross; breed to the best of sires and you will take better care of them, and best of all, get the best prices. You will not have to hunt a buver or sell on time. If France, with her 3,000,000 horses, has increased her exportation from 10,000 in 1880 to 36,000 in 1889, what might we do in ten years with our 14 .-000,000 horses if they were only the right kind, if they only had the size for the foreign markets. Our export of horses last year was less than four thousand head; let the good work of improvement go on until American horses are the equal of the horses of enough to suit the best markets of the

It has been stated that blindness is more prevalent among horses in America than among those of other countries. If this is the case the causes of the evil should be investigated and removed if possible without delay. It is the fact that blindness is more prevalent among horses in Ohio than those of any other section of the country, says the New York World. The cases of blindness are attributed Sheldrake, of Kentucky, related in a great measure to over-feeding, the these singular stories: "There was | Ohio horses being notoriously fat. It a member of the Kentucky presby- is a common practice to force the fat tery, whom I knew very well, who upon horses intended for sale by stufffrequently went into a sort of walk- ing them principally with Indian corn. ing sleep. While in this condition and keeping them without service in he would preach most eloquent ser- warm close stables. This method of mons, but when he came out he feeding soon fattens a horse, but at could not remember a word that he the same time its digestive functions had said. On one occasion a copy of are injured by the treatment. It is the French testament was handed to now believed that blindness can be him to conduct family worship at traced to a sympathetic relation bethe house of a well-known citizen of tween disorder of the digestive organs Frankfort Although utterly ignorant and the brain, and that through of the French language, he read a the latter the optic nerve chapter and then commented there- becomes diseased and ends in destroyon at length in English. On another ing the vision. Blindness is also fre occasion, while in this condition, he quently transmitted to the offspring, and thus an evil, first originating in tain minister in Nebraska was in disease, also becomes a defect by hetrouble, and that he had just written reditary descent. Errors in feeding a letter to Kentucky detailing the horses, as is well known, also produce blind staggers and organic disto give the contents of the letter, eases of the brain, therefore the greatest care should be exercised in feeding them. In order to prevent the spread of horse blindness it is recand it was identical, word for word, ommended that whenever the animal shows the least symptoms of the disease it should be kept on a light diet The speaker cited these instances to of hay and oats. A horse may be show the life of the soul independent maintained in good condition on of the body, and argued therefrom twelve pounds of hay and five pounds of oats for daily food. In breeding horses it is also recommended that all animals showing the least symptoms of organic disease be rejected. One of the first symptoms incident to blindness, which any person may readily notice, is the disposition of the animal to raise his forelegs unnec-

essarily high, while, at the same time,

the ears were drawn back and forth in

advanced by most veterinarians respecting the cause of prevalent horse blindness in our country and a mode of arresting the spread of the evil. There are some other causes of this disease which appear more evident, any of which are perfectly capable of removal. Blind horses are more common in cities than in the rural districts. This is principally caused by bad stables. Many of them are underground cellars, and with few exceptions all stables are too small. They do not admit a sufficient quantity of fresh air for ventilation and respiration, and this always tends to injure the health of the animals. Light is as essential to the health of horses as that of men, and vet most stables are nearly as dark as dungeons. It would be far better for most of the horses in our cities to be kept in open sheds than in the stables commonly provided for them. I am also positive that eyeblinds on the harness tend to injure the eyes of horses, and as they are totally useless and unsightly append-

ages they should be abandoned entirely. The open bridle has become more common, but it should be universal. Tight, close collars, which squeeze the eyes of horses in putting them on, are also very injurious to the eyes of the animals. I have known one case of permanent injury to the eyes of an excellent horse from this cause. Carriage and draft horses should be provided with divided collars, secured either at the top or bottom, so that they are not required to be forced over the heads of the animals.

In the fall of the year the deciduous trees shed their leaves, the organs by which they derive nutrition from the atmosphere in the form of carbonic acid. During the period of growth each leaf is an active chemical laboratory, drinking in carbonic acid, decomposing it, assimilating the carbon and giving off the superfluous oxygen. This decomposition of the carbonic acid takes place only during the day. Light is essential to the process, and our short winter days do not furnish it in sufficient quantity; moreover, leaves are delicate structures, affording very little protection from cold to the sap circulating through them, and would, consequently, if they remained on the tree, be killed by the first frost, causing a sudden arrest of all the functions of life, and a consequent shock to the system which would almost certainly be destructive of life. The transpiration of plants is a very active process; the water taken up by the roots carries small quantities of nutritive matter in solution, this is assimilated by the plant, and the water given off by the leaves. An idea of the activity of the process will be gathered from the statement that a sunflower three feet high requires double its own weight of water every twenty-four hours. With a fall of temperature, the roots cease to take up water. The pores of a pumpkin root close at a temperature of 45 detinue to transpire, and the plant gradually dies; the leaves wither for want of moisture and are no longer capable of performing their functions. The fall of the leaves at the beginning of winter is thus necessary to the plant's protection. If they were killed off suddenly by the frost while in the active exercise of their functions the congelation of the large quantity of valuable to us?" water circulating through the plant would rupture the tissues and cause death: but the water in circulation having been gradually evaporated at an earlier stage, the plant is in no

M. C. LATTA in a report to the Whatcom Horticultural society of Washington state, says of propagating and training the currant: In order to obtain the most satisfactory and profitable returns we take cuttings for propagation from bushes that produce the largest amount of good-sized berries, marking them at the time of picking the fruit for that purpose, and our largest yields are invariably obtained in this way, in some instances picking thirteen pounds of fruit from a single stock, as trained in tree form. while under the same conditions it would take an average of three or four of the cherry variety to yield an equal amount. While the current will bear as much or more neglect than any other of the edible fruits, yet none of them respond so generously to high and thorough cultivation, nor pay a greater percentage on care and labor. The plant is a gross feeder and will assimilate readily any of the coarse, of the barnyard or other manures; it is easily propagated from cuttings of about eight inches in length, of the new wood taken the bush at any time from the falling of the leaves in late summer until the buds are fairly out in the spring; we take cuttings n the fall and heel them in the ground during the winter, covering them lightly with mulch or rough litter, and plant them out as early as the ground can be properly worked in the spring; if heeled in the fall, during the winter the callus for the development of the roots is formed at the base of the cutting, and they make a much better growth the following season than if taken from the bush and planted out in the spring. In planting out cuttings we rub off all buds excepting the two nearest the top; we place them in the ground with the top bud about on a level with the surface and tramp or press the soil very firmly around them; if these methods are carefully observed there will be no difficulty in getting a large proportion of the cuttings to grow.

danger from this cause.

Pigeon and Blacksmith.

A pigeon, prouder and handsomer than its fellows, once formed a sincere attachment for a blacksmith, whom it followed about like a dog. the bird was a jealous guardian of The smithy, and even pecked at the hoofs of horses as they were being shod. One day it tried to turn out a hen that had ventured to perch upon the edge of a pot of pitch, and n the struggle both fell in. Mrs. Hinkson, who told the story of his curious career, rescued him and cleaned his feathers as well as she could. But one night, after he had got the better of the pitch bath, she missed him from off the kitchen fender, where he was last seen dozing in front of the kitchen fire. There was reason to believe that he had fallen a prey to either the house cat or to a stray pussy that could not resist the temptation of a pigeon supper.

He Only Wanted to Know. "Papa," said an inquisitive boy, 'don't fishes have legs?"

"They do not," answered papa. "Why don't they, papa?" "Because fishes swim and don't

equire legs." The small boy was silent for a few minutes, and papa forgot about his questions. Then he asked, "Papa, ducks have legs, don't they?"

"Why, yes, ducks have legs." "Well, ducks swim, don't they?"

"Then why don't fishes have legs if ducks do? or why don't ducks not have any legs if fishes don't?" Papa gave it up.

Veterinary College of that place. The following list of letters are advertized as uncalled for in the post office at Elmwood, Oct. 1st, 1894: Frank M. Allard, Conrad Carlson. J. H. D. Evrett, Wm. A. Hutchinson, Chas. A. Judd, Jos. Jem, Ross Martin, O. B. truth and beautv.

KINGSTON

Asa Durkee made a business trip to Cass City last week,

Mrs. Joseph Annet and son, Roy, vere in town Monday.

Walt Nedry and Ezra Roberts are plastering J. Annet's house this week. Martin Hunter shipped four deck oads of stock from this point last Sat-

Geo. Meidlien and John G. Veit nave returned from their visit to New York City.

Mrs. L. A. Maynard's mother, who has been visiting her for the past two weeks, returned home Tuesday.

Solomon Mathews has bought the dray of H. S. Mitchell and is now husting for the trade on his own account. Joe. Coan has moved into the H. C. Peltons' house, just back of the meat market and is now working in the

Ben Tilk has bought the two lots owned by Mr. Baker, of East Dayton and is now preparing to have his hous noved on them.

Mr. Clark, who has been living in part of Mrs. Thornton's house for some time past, moved his family to Detroit the first of the week.

Several of the farmers around Kingston are doing a good deal of complaning because they have to pay notes given one year ago for fanningmills. The most complaint seems to be because the agent sold the mills at different prices. It seems rather strange that the farmers do not learn that it is much more to their interest to buy their goods of the home dealer than to be taken in by some slick-tongued stranger whose sole aim is to get their money for his goods whether the farmer needs them or not.

DEFORD.

"There is a calm for those who weep— A rest for weary pilgrims found— They softly lie and sweetly sleep Low in the mouldering ground.

Wm. Cooper spent Sunday last at Howard Retherford's. James Valentine, Jr., has closed for

Frank Terry at present. Some parties unknown to us moved

west of this place last week. Goldie Martin, daughter of George

Martin, section 35, Novesta, suffers with whooping cough. Fall work progresses slowly for some

reason, although there is not more bad weather than usual. D. O. Ramsey nurses a sore wrist. He

attempted to trim it down with a chizel but failed to do a good job. Norm Retherford's potatoes give a yield of two hundred bushels to the

acre. Best we have heard of. Ray Valentine has suffered with a lame arm for the past week. He

wrenched it in the crevis of a building. The Birmingham Eccentric contains Silas Brumley about the twentieth of an advertisement "School ma'am wanted." We could spare a few from the "Thumb" and more than a sufficincy

> The auction sales of Rawson and Stoles on the 9th inst. went well, considering the close times for the "filthy." Because we are a ventursome people explains it all.

We expect to see Mr. Berney answer to Secretary Moreland in regard to the "Fair question" this week. The public in this locality have thought that Cass City set her fair dates first.

cate in Kingston. If such proves true we will wager a small territory that the present M. D's. will have but a

light practice among the "gentler sex". Numerous have been the wrecks that sink into insignificance when compared with the coming storm of November that will strew the land with the shattered hopes of aspiring politicians.

We notice Miss Madaline Pollard's appeal for "a more honest mode of life." Now if these good thoughts would have struck Madaline about two decades ago before the rose of beauty had faded from her cheek she would have been better off morally and "Bill" would have been much better "hooked up" financially.

"There is two sides to every ques tion." The above is a true quotation, for example: The farmer is cussing Scotland's tiller of the soil to the "ragged edge" for competing with him in the potato market. But the poor editor who can't get his subscription money is saying "Bless the cany Scot" for how could he buy potatoes at "war

Wm. Harrington, an invalid, died on section 11, Kingston, on the 11 inst-His remains were interred in the Moshier cemetery, township of Lamotte. A. A. McKenzie, of Cass City, had charge of the funeral. Deceased formerly resided near Imlay City and has lived in this locality but a few years. The glimpses of sun shine that touched his heart in old age were but few and no doubt oft prompted before his mental vision the following lines of

prayer meeting, when they see how little cash they put in the basket.

Now Ho Advertises.

A tinware peddler called one day On Mrs. Blank of Dallas And introduced himself, they say, As Raphael Gonzales.

He showed a patent coffee-pot Which took her eye completely; It boiled the coffee strong and hot The "grounds" it settled neatly. "How much for this new fangled not, think I'd like to try it "As it's the last one of the lot, Two dollars ma-am will buy it."

* * * When Mr. Blank at home that night Sat by the stove a yawning
His good wife brought into the light
Her purchase of the morning.

Now Mr. Blank, the story goes, Sold hardware—stoves, tin dippers, Spades, shovels, axes, weeding hoes, And also coffee drippers. So when his good wife told him how Don Raphael Gonzales Had sold at price extremely low Throughout Oak Cliff and Dallas.

"These coffee-pots so neat and cute""Stop, madam!" Blank did holler,
"Your statement I right now refute—
I sell these for one dollar!"

"Great land of rest!" the lady cries,
"Are these kept in your store, sir?
Why do you fail to advestise
And let the people know, sir? "How will they ever find out, pray, To bring the patronage your way, As does the advertiser?"

"You're right, my dear." Blank made reply
"I know you're not surmising,
I'd just as soon attempt to fly
As sell 'thout advertising."

* * * And now Blank's trade is growing fast, Way up in wealth he's rising, Since through his wife he found at last The good of advertising.

Stub Ends of Thought. "What is love?" is no more unanswerable than "Why is love."

Man is a little lower than the angels and a good deal more unreliable. Necesity is the great-grandmother of ndustry.

It is much easier for a rich man to enter the church than it is for him to enter the kingdom of heaven. Sleep is hardly an excuse for a man

Some women find that the bread and neat of marriage is a poor substitute for the candy and flowers of courtship. Life is worth the living only when

you go at it right. Charity is warranted not to rip, tear ravel or run down at the heel.

Bucklens' Arnica Salve

THE BEST SALVE in the world for Cuts Bruises, Sores, Ulcers, Salt Rheum, Fev er Sores, Tetter, Chapped Hands, Chil blains, Corns and all Skin Eruptions, and positively cures Piles, or no pay required

As a remedy for all forms of Headache Electric Bitters has proved to be the very best. It effects a permanent cure and the most dreaded habitual sick headaches yield to its influence. We urge al have strewn the sea shores this past who are afflicted to procure a bottle, and spring and summer. But they will give this remedy a fair trial. In cases of habitual constipation Electric Bitters cures by giving the needed tone to the bowels, and few cases long resist the use of this medicine. Try it once. Large bottles only Fifty cents at T. H. Fritzs.

to use the suit that's all welt. This s especially true as to the butter maker. You recognize a difference in butter. We can point you out a difference in saft. You strive for the best milk, why not search for the best saft? Test, compare, ask questions.

A "CHRIST'S HEAD."

An Ohio Photographer and His Model Mave Created a Sensation.

The good, bad and indifferent people of New London, O., are alike greatly exercised over the display of a series of fear. Our appeal is to conscience, to 'Christ's Head' photographs just copyrighted by Photographer H. W. Minns of this city, for which a somewhat eccentric schoolteacher named Elmer Ellsworth Masterman posed. Some of

the more sensitive and piously inclined declare themselves as inexpressibly social evil; but beyond all, it is a great shocked that any human being, especially one of their own neighbors, should have posed for so sacred a subject. Others defend the photographer and his model on the broad and liberal ground of art and artistic effect.

Masterman, the subject, is a Mason and an Odd Fellow and has a striking personality. He is tall, spare, angular and awkward in his movements. His long red, shaggy, flowing hair and red unkempt whiskers, beard and mustache give him a leonine appearance. He is 32 years old, single and lives upon his father's farm on the outskirts of New London. His father is a German and the World's fair Masterman had charge of the waterfowl exhibit and contracted a severe cold. By the advice of his physician last September he let his short hair and beard grow in order to avoid pulmonary troubles.

"Had you any scruples or compuncthe Saviour?" Masterman was asked.

"No. Why should I? What is the difference between posing for a photograph and posing for a painting? The paintings of the great masters are looked upon with admiration and pleasure, and no questions are asked as to who posed. Why should I be so criticised and persecuted because I chose to pose as Christ in the pictures which have raised this storm? I felt perfectly free in doing so more. The battle the Prohibition and care nothing for the criticisms of party has to wage to-day is the battle men. I feel that if the act was sacrile. of conscience against partizanship. Is men. I feel that if the act was sacriled it conscience against partizaismip. Is gious Christ and the Almighty would not have led me to such success. I was urged by Protestants and Catholics to preaching supremacy of conscience will, in a great crisis like this, give the lie to pose for the subject, but the first sug- all their teaching and, stifling the gestion came from a Jew. If it was such voice of conscience, walk to the polls an awful thing to do, I think that the to vote the same ticket the saloon

the individual communion cup services at North Baptist church. The fourth church of Philadelphia is one of the oldest in the Quaker City, and when the news of the innovation in church cusit was such a good thing as reported even begin to do its work until it ac-

it. Dr. Andrews, a prominent member phia, made an analysis of the dregs in the communion cups and discovered microbes and disease germs to be plentiful. He was convinced that a change from the old system was necessary and saloon in the land. We are in the field in a conversation with Mr. Davis said:

excellent one, and it is surprising to we might stay in the field four hundred me that the Christian church has not taken it up before. Since the innovation has been introduced it will become in-ternational in its scope, and hardly a citizens of America, we must have your has been introduced it will become incivilized nation in the world will be without it. It is a wonder to me that work. We are going to stay in the field the physicians of the country did not till we get them-and so will the saloons. recommend this before to the people, for Why not end the agony now? Why the old system is an evil that should be corrected."

not end the heart-aches, the miseries, the sins and sorrows that are sweeping

The Fourth Baptist church is not The Fourth Baptist church is not only the first church to take up the legalized drunkard factories of our nation, and end them now? As surely as movement in Philadelphia, but also in God reigns, one million of votes for our Pennsylvania. A paper which is publicket at the next general election, lished in the church has contained sev- means the triumph of a Prohibition eral columns on the subject, including party and the eternal death of the liall that was in the Rochester, New quor traffic. Shall we have them? With York and other papers. Many of the you lies the decision. people in the congregation have grown enthusiastic on the subject, and the feeling became so strong in favor of it that early in the summer they decided to have one of the deacons come to this city to investigate the system. Deacon Davis was selected because he was one of the most conservative members of the church and had not been carried away with the reports of the innovation. He came here to criticise the matter, but he is highly pleased with what he saw yesterday morning.—Rochester Herald.

Plates Made Out of Stamps.

The writer had heard of stamp plates, but had never seen any before yesterday. There were six on exhibition at the fair-white porcelain plates, with scalloped, lacelike edges. Stamps had been dissected and applied to these in all sorts of ingenious devices. Sometimes the heads of 2 cent stamps were placed in a circle around the center, with little flourishes between made of stamps made spraylike decorations. Stamps of all denominations were used and of all colors, but so cleverly were they managed that considerable examination was necessary to recognize the component parts of the familiar stamps. These plates must be a great deal of work to do, and they look as if water and pretty. - Worcester Spy.

Cigarettes Well Placed. The keeper of the monkey house in the Jardin des Plantes, at Paris, has for

some days past been puzzled by seeing his monkeys smoking cigarettes. The wits of Paris declare that some learned professors were just about to issue an exhaustive paper on the subject of monkeys and tobacco from the earliest times, when the keeper solved the mystery. He lay in wait near the cage and at last caught some boys, who had taught the monkeys to smoke and came every day to give them lighted cigarettes. The boys have been taken to the police station, and the professors' studies have been relegated to the waste paper

basket.—London Globe.

W. C. T. U. Column.

An Appeal to the Conscience Voterso

Appeals without number are being made to passion, to prejudice, and to that moral sense which has made America what it is, and which has never been appealed to intelligently and persistently without yielding a magnificent response

The evil we fight is a great political moral evil. There is no form of evil so

deep and dangerous as a moral evil.

The one thing no nation can do without is men and women in whom the love of freedom, intelligence, self-con-trol, and moral sense are deep-rooted What makes a state? mills and cotton factories; not granite mountains nor shining valleys; not the lead mines nor the pig iron, nor the lumber interests.

The state is made by the freemen that compose it, and whatever strikes at the manhood of the nation strikes at the nation's life.

There is where the saloon strikes. It is corrupting the manhood and boy-hood of the nation. Even when it does his mother an Ohioan. His brother is not seem to strike directly at any one cashier of the Gibsonburg bank. During of the industries, it is more than an enemy of labor; it is an enemy of the

Back behind all forms of political evil is found the saloon corrupting the individual citizen, making him a ready tool for any form of corruption. Strike down every other form of political or social or industrial evil, and if the sation in posing for so sacred a subject as loon remains, it will re-create them all or worse ones in a few years. For it is a moral evil, and moral evils are like banyan trees that reproduce them-

selves in every direction There are hundreds of thousands of men in the nation to-day who know this, who recognize the immensity of this evil, but who are stifling their Almighty would have prevented it."— keepers are voting, just to beat the other fellows. Out upon such ethics as this! If there is an act in any man's life where conscience should be

it is in casting of a ballot; and the man who will silence his conscience then is unfit to teach or preach morals to J. W. Davis, deacon of the Fourth an Egyptian mummy. God give us five million live consciences and we will the city yesterday to see the workings of make the rum power of this nation tremble from turret to foundation

Without ballots we can do nothing A temperance society, or a reform club or a church, or an evangelical organi zation, can do its work without enroll tom reached the members they at once became interested and decided that if munity. But a political party cannot it was necessary for them to have quires power by winning a plurality of the voters. The men who believe in of the Fifth Baptist church of Philadelare withholding their votes from the prohibition party, are by so doing, depriving that party of all power to out to stay till the day of triumph, whether "The individual cup idea is a most it comes in four years or in forty. But years, and if the voters who are praying for God's kingdom to come contin ued to vote for the license parties not votes before we can accomplish

NOTIONS,

Detectives Capture the Villains Who Wrecked a Grand Trunk Train During the Big Strike-State Convention of the X. M. C. A.-State Items.

Battle Creek Train Wreckers Caught. On the morning of July 16 last an express train on the Chicago & Grand Trunk road was wrecked just inside the city limits of Battle Creek. The fireman, T. W. Crowe, was killed and fourteen passengers injured. An inspection of the track showed that the bolts and fishplate had been removed from the ties and the tools with which the work was done were found lying near by. As that was the time of the big A. R. U. strike it was suspected that the wreck was caused through strikers' instigation. A reward of \$1,000 for the arrest of the wreckers was offered, and the case was taken up by W. S. Deveraux, a Chicago detective. The case has been quietly and persistently followed and nothing was known by the public of its progress until Thursday, October 11, when Deveraux arrested John Bodweig. in Kansas City. The arrest of Stanley Knowles in Chicago and George W. Johnson and Ernest M. Jewett in Battle Creek followed. It is said that Knowles has weakened and given away the whole affair, with the names of those implicated with him.

The Michigan Y. M. C. A. convention was held in the Presbyterian church, at Ann Arbor. About 400 delegates were present. Reports show that there are associations on five continents, 50 nationalities being reached. There are in all 5,000 associations, with an aggregate membership of 500,-000. The report of the treasurer, F. M. Thompson, showed that the actual expenses of last year were \$3,413.82. The receipts from pledges were \$4,-552.22; the disbursements, \$4,431.10, leaving \$71.12 on hand. The financial report shows a credit of \$105.74, there being \$1,087.68 due in unpaid pledges, etc., while there is due on salaries. etc., \$981.94. The following permanent officers were elected: President. Rev. L. P. Rowland, of Michigan; first vicepresident, Henry Ictema, of Grand Rapids; second vice-president, J. T. Jenkins, of Detroit; third vice-president, O. L. Partridge, of Alpena; secretary, I. K. Swindt, of Olivet college; assistant secretary, E. E. Green, of Kalamazoo.

The University Homeopathic Department, The management of the Michigan University are up in arms owing to a report that the homeopathic department was to be abolished. It is true that the attendance in this department has been very small during the past three years, only a dozen students being enrolled this year, but the matter of abolishing the department has never been agitated by the University senate. It is provided in the law allowing one-sixth of a mill tax for the University of Michigan that: "Should the board of regents fail to maintain any of said departments as herein provided, then at such time shall only one-twentieth of a mill be assessed." This, in itself, would prevent the abolition of the school.

Confessed the Murder and Then Suicided. The mystery surrounding the murder of the tramp known as Gus, Sept. 8, on the railroad track three miles north of Cheboygan, has been cleared up. Geo. V. Taylor, who was with Gus at the time of the murder, and has since been detained in the county jail at Cheboygan as a witness and suspect, commit ted suicide by cutting his throat from car to ear with a razor which had been given him to shave himself. Taylor left a written confession in which he said that Gus Genesemeer's clothes could be found near the scene of the murder, also \$511 in money: he also confesses to having committed four other crimes. He stated that he desired to be taken to his home in Ohio and buried beside his mother.

Some Hope for H. P. Homestenders Vet. Willard Kingsley, of Grand Rapids, special counsel for the government in he upper peninsula homestead cases, points out errors in the recent ruling of Secretary Smith in which it was held that the homesteaders had no rights. He says that Secretary Smith ses his ruling on the certificate of withdrawal issued by the government before any of the lands were earned, not on a final patent which was never issued. If Kingsley is right the ruling of Secretary Smith will be reversed and the homesteaders will retain the property which they claim, as against the Michigan Land & Lumber Co.

The 500 employes of the Oriel Cabinet company, of Grand Rapids, are

Strike at Grand Rapids.

involved in a strike. One year ago the wages were reduced 10 per cent, and the men wanted the old schedule restored now that the company is receiving so much business that they are compelled to work over time Twenty men in the trimming department walked out when the demand was refused and the result was the closing down of the entire institution. the largest furniture factory of the kind in the world.

Ex-County Treasurer Charles M. Jackson, of Crawford county, charged with embezzling \$13,000 county funds, was acquitted.

Mrs. Robert Rhead, of Hudson, tried to exterminate the flies while standing on a chair. It slipped and she fell, breaking her arm in two places.

President Gardner, of the Toledo, Monroe & Detroit Electric railroad says that the necessary bonds have been placed and that work will be commenced this fall. The company will build lines in Monroe leading to the lake piers and will put a handsome steel bridge across the River Raisin.

Many years ago Houghton county, as a corporate body, built several sections of a government road, taking pay in wild lands, then deemed valueless. in Menominee, Dickinson, Iron, Marquette and Baraga counties. These lands are now worth several hundred thousand dollars, and last year yielded an income of \$15,716.58.

MICHIGAN HAPPENINGS.

Mr. and Mrs. E. C. Dayhuff, of Colfax ownship, Wexford county, celebrated the 53d anniversary of their marriage Ground will be broken at Gladstone soon for a large stave factory,

Benjamin Barnard, a traveling man aged about 22 years, committed suicide at Flint by drinking a quantity of carbolic acid. Temporary insanity.

spring.

Florence Campbell, a 2-year-old girl of Grand Marais, got hold of a bottle of carbolic acid and drank some of the contents. She lived but a short time.

Pauline Schlitz and her five children. vho live near Grand Haven, have had black diphtheria in its worst form. Three children are already dead, and it is feared others will die.

Two little girls named Edna Austin and Edith Shilt, of St. Joseph, ran away from home and frightened their relatives into the belief that they had been kidnapped, but were found at Watervliet.

Maggie Smith, a saleswoman in a Grand Rapids dry goods house, drank carbolic acid by mistake and died in awful agony. She got out of bed to take a dose of nitre, but got the wrong bottle in the dark.

Michigan state prison is crowded vith convicts. The roll call shows an attendance of 866, and the officials are worried to find room for the inflow of offenders, who come in bunches, some times reaching as high as 10 a day.

Mrs. Minnie Herre, charged with the murder of her son in May, 1893 was acquitted in the Ingham county circuit court, the theory of the wo-man's insanity at the time the crime was committeed being accepted by the jury.

Fire destroyed the entire plant of the Plymouth Air Rifle company. Loss about \$9,000, insured for \$1,500. Twenty men are thrown out of employment. The buildings being frame. idjoining buildings were saved only by a stubborn fight.

The Grand Traverse region will soon be the leading fruit raising district in the state if things keep on the way they have for a few years past. Thousands of fruit trees will be set out next spring, one man alone having ordered 12,000 for his own planting.

The long talked of project of a spur line from Benton Harbor by the way of Berrien Spings to South Bend, connecting with the Grand Trunk, seems about to be realized. Surveyors are going over the proposed route, and it s claimed that the work of construc-

tion will commence at once. Herman Swartz, a young married man, began working in the South End Lumber Co.'s mill, at Bay City, and the second day as he was cleaning sawdust under one of the saws in arising his skull was broken by a pulley making 300 revolutions a minute. He

was not found until an hour later. Typhoid fever is very prevalent in the township of Greenleaf, Tuscola county. In the family of John Jones there have been eight afflicted and five lied inside of one month, and three others are now at the point of death. A son-in-law has become deranged from his misfortune, his wife and

child being two of the dead. Sheriff Stratton arrested Mrs. Ira Hurd and a man named O. W. Ludlow Ludlow is a young man about 28 years of age with a wife and two children at Benton Harbor. He visited Allegan quite frequently to purchase apples, and the officers claim to have letters which passed between him and Mrs. Hurd making engagements; also that the revolver found was the property

of Ludlow. A protest signed by many of the most prominent citizens of Benton Harbor will be sent to the Allegan authorities. vho, it is alleged, have dealt unfairly vith O. Ludlow, of Benton Harbor, who is charged with being implicated in the murder of Ira Hurd at Allegan. The petition says that he is a young man of sobriety and rectitude, and that he has not received fair play at the hands of the authorities of Allegan. William C. Hicks, a local attorney, has been sent by citizens to defend Ludlow.

The Marquette county board of supervisors, for economical reasons. have not appointed a game warden, and as a result the southern part of the county is flooded with hunters, it being estimated that there are over 300 in that district. Most of these are men hired by commission houses and all the deer they kill are shipped to these houses in gross violation of the state law which prohibits the shipment of venison out of the state. It was the same with partridge in September.

Over 100 laborers employed on the ore docks of the Chicago & Northwestern railway at Escanaba are on a strike. They have been receiving \$1.25 per day. but asked to have their wages raised to \$1.65. This the company refused to do and the men have been paid off. work is hard and disagreeable at this season of the year and the increase they ask is not considered unreasonable. Good wages are being paid in the lumber woods and the railroad company will find it difficult to obtain men at less than \$1.75.

Willard M. Johnson, aged about 40 years, living two miles from Burr Oak, was found dead in the St. Joseph river. northwest of Colon. He had been shot and his body thrown into the river. Four bullets had been fired into his body, one taking effect in his heart. The crime must have been committed a. Johnson was returning from his father-in-law's, near Athens, where he had gone to try to settle a lawsuit with his brother-in-law. The object of the crime was not robbery, as the dead man's watch, money and valuable papers were found on his body.

Detroit has been considerably wrought up over the outcome of the arrest of school inspectors on the charge of boodleism. The disappearance of Milo H. Davis some weeks ago to avoid arrest on the same charge gave color to the accusations, and the trial of Inspector Wm. Liphardt was watched with deep interest. The jury was out 28 hours, and then returned with a verdict of guilty. While Liphardt was in jail awaiting sentence Inspector Julius Lichtenberg, rather than face his trial, which was to follow next, went to his home and shot himself in the head, but the wound will probably not prove fatal.

James Bonine, a Cass county farmer, NEWS OF ALL KINDS has a herd of 40 elk.

Carl Berger, of Klinger Lake, aged 19. brooded over fancied wrongs, and shot himself dead.

The contract for Lansing's new \$47,-000 bridge has been let. The \$100,000 which will begin operations in the city hall will soon be commenced. Alcona county supervisors reduced

the salaries of county officials all the way from \$100 a year to \$400 each. School savings banks have been introduced in four Grand Rapids schools with such success that all the schools will have them.

Although Houghton county reached lown into her pocket last winter and gave the suffering Gogebic miners \$3,000, she doesn't feel a bit poor. Houghton county has over \$100,000 in its strong box.

it will probably be tried again. The Tenth Michigan infantry held

their reunion at Flint. The following officers were elected: President, Col. Charles M. Lum, Detroit; vice-president, M. C. Barney, Flint; secretary and treasurer, J. D. Jewell, Jackson. The twenty-ninth annual reunion of

bers of the old regiment were present. George Crowell was chosen president. Leman Sparks secretary and treasurer. Both are of Chelsea. The Michigan Sunday School asso-

ciation will hold its thirty-fourth annual convention at Grand Rapids Nov. 13, 14 and 15. Maj.-Gen. O. O. Howard will address the first meeting. Two thousand delegates are expected and free entertainment is promised.

The veterans of the Twelfth Michiran infantry assembled at Battle Creek n their annual reunion. The new officers are: B. Stearns, of Benton Har-bor, president; Joseph Ruff, of Albion, secretary. It was voted to hold the uext reunion at Benton Harbor.

Over two years ago James Follet, an gnorant man at Jackson, gave Joseph Hanaw, a wealthy Hebrew, checks amounting to \$600 to collect. The latter said he was not able to do so, but he was sued, and a jury gave Follet a verdict of \$658. There is a criminal action pending against Hanaw on the charge of embezzlement.

The sixtieth annual meeting of the Presbyterian synod was held at Alma. Rev. J. M. Barclay, of Detroit, was elected moderator for this year. The cornerstone of the Alma college gymnasium and museum was laid with imposing ceremonies. Rev. J. M. Geladdress in a very able manner.

The warehouse of Reardon Bros., at Midland, filled with tubs and pails, belonging to the Midland Woodenware company, was destroyed by fire. car on the sidetrack loaded with tubs and pails was also burned. The flames came dangerously near a powder and dynamite magazine, and there was a great scare for a time. Total loss about \$2,000.

The twenty-second annual reunion Phil Sheridan's old regiment, was held A mob was quickly formed and at Grand Rapids. There were about marched to the jail. The jailer was 200 members present. Officers were elected as follows: President, Henry Vance. Saginaw; vice-president, W. D. cell, and after a bitter struggle Hoyt, Grand Rapids; historian, Marshall P. Thatcher, Detroit.

The board of auditors of the Mich gan State Engineering society met at Lansing and after canvassing the votes leclared the following officers elected: President, George A. Pierson, Kalama-zoo; vice-president, J. J. Cramwell, Saginaw; secretary and treasurer, Francis Hodgman, Climax; directors, . B. Davis and C. E. Green, Arbor; Dorr S. Keels, Grand Rapids.

At the grand encampment, I. O. O. F. at Hillsdale, Josiah Dandy, of Grand Rapids, was elected grand patriarch; Henry Weaver, of Newaygo, grand high priest; Frank Shepherd, of Cheooygan, grand senior warden, and William Skimon, of Fort Gratiot, grand junior warden. The grand patriarch appointed Robert Donovan, of Charlotte, grand marshal, and N. A. Metz, of Marquette, and Earl Fairbanks, of

Luther, grand sentinels. The annual meeting of the Ludingofficers were elected: President, J. C. Floyd, D. D., Grand Rapids; vice-president, Judge J. H. Grant, Manistee; secretary, Elvin Swarthout, Grand treasurer, Thomas P. Me-Master, Ludington. committee are already planning for an excellent program for next year's assembly, which opens July 9.

The Czar is Doomed.

London: The correspondent of the the safe. He took everything." Standard at St. Petersburg telegraphs that he has learned from an eve-witness that Prof. Zaccharin while in attendance upon the czar said to him: "Your majesty's malady is incurable; with care and attention your valuable life may be prolonged for some months, but it is useless to conceal the fact that no remedies will avail beyond a certain period." The emperor, after the interview entered a room in which a number of nis relatives were assembled and said: "Prof. Zaccharin has just told me there is no hope. The emperor was visibly affected and those present were thrown into a state of consternation by the change in his face and bearing. They greatly blamed the professor for his frankness.

The ezarewitch, Grand Duke Nicholas, is expected to arrive in St. Petersburg shortly. The army reports are already being sent to him, and he will probably assume the chief commandership almost immediately.

Thieves entered the residence of F J. Opp, of Newton, Hamilton county, O., and stole about 15,000 in stocks.

Instead of chapel exercises, which have been practically abolished at the University at Ann Arbor, devotional xercises will be held twice a week in University hall.

Universalists of Michigan was held at of Coney Island, immediately started Charlotte. Officers were chosen as follows: President, Rev. Lee S. McColsucceeded in rescuing one of the party, ester, Detroit; vice-president, Rev. H. N. Conden, Port Huron; secretary, Rev. boat, and brought him ashore in an W. L. Gibbs, Concord; treasurer, E. A. Treadway, Grand Rapids.

GLEANINGS FROM IMPORTANT PRESS DISPATCHES.

News from the Oriental War Continues Most Favorable to the Japanese Who are Rapidly Nearing China's Capital .-Eight Drowned in Lake Ontario.

The Ever-Victorious Japs. London: A dispatch from Tokio says that a detachment of Japanese cavalry and infantry made an attack upon a force of 2,000 Chinese at Wei Ju and that the place is now in the hands of Japanese. Japanese field marshal, Count Yagamata, has established his Charlotte Huntley obtained a verdict against the city of Lansing for \$775. Is near the sea and easy of access to supplies. A state of seige has been supplies. A state of Heroschima, sidewalk. As neither side is satisfied that the Chinese officials no longer deny that the Japanese fleet commands the Gulf of Pechili. It is added that the Japanese admiral pays a weekly visit to every important station on the gulf.

Washington: The cable report that the Italian minister at Pekin, in pursuance of instructions from his governthe Twentieth Michigan infantry was ment, had offered his services as mediheld at Eaton Rapids. Over 90 mem- ator in bringing the China-Japan war to a close, is construed at the legations here as a possible move on the part of the triple alliance — Germany, Italy ind Austria—to intervene. The views of the Japanese authorities are that here can be no mediation which does not give Korea complete independence, crush China's power to further retard he progress of the east, and reimburse Japan, either in money or territory or her enormous expenditure con racted by the war.

Shanghai: Various local rumors are n circulation, the most prominent being that 40,000 Japanese troops have landed near Shan Hai Kwan, on the ooundary between Manchuria and Chi Li, at the eastern end of the great wall which traverses China. Shang Hai Kwan is directly on the railroad building from Tien Tsin to Moukden, and s of great strategic importance. In fact the opinion has been expressed that if Shan Hai Kwang is captured there is nothing to prevent the Japanese from marching on to Pekin. Yokohoma: The Japanese have occupied the south bank of the Yalu iver after driving back the Chinese.

Lynched a Wealthy Murderer. At the close of the Beattyville, (Ky.) ir, Oscar Morton, a prominent citizen of Stanton, in Powell county, went on he warpath. Only two weeks ago of Ann Arbor, delivered the Morton killed his man at Stanton, and was out or \$5,000 bond to appear next week at the Powell circuit court. When he arrived at the fair he proceeded to get drunk, and then went to hunt for Sheriff William Simms, who was his deadly enemy, a feud of long standing existing between the two men. When they met both drew revolvers, Morton having two, and when the smoke cleared away Simms was found dead and Morton wounded. The murderer was hurried off to jail, but public indignation was aroused as Morton had of the Second Michigan cavalry, Gen. killed two men in less than two weeks. Moody, Big Rapids; secretary, Edwin was seized and dragged out and taken to a bridge some distance from town and the rope placed around his neck and then he was forced to jump. His body was then filled with bullets

The dead sheriff was only recently narried and leaves a young widow. He has killed three men. Going to the fair he attempted to kill the fireman of the train because he would not increase the need the locomotive was running.

Train Robbers Get \$150,000. A north-bound express train on the Richmond, Fredericksburg & Potomac railroad was held up by robbers at Quantico, Md., and details show the ffair to have been of a most daring character and also that several of the

cobber gang were men of experience

n the railroad business. Express Messenger Crutchfield thinks the booty secured was \$150,000 or more. He gave this account of the robbery But one robber entered the car. He was of heavy build and dressed like a farmer, although he seemed to thor ton Epworth Training assembly was held at Ludington and the following ness; he had a red handkerchief over ness; he had a red handkerchief over the lower part of his face. When the train was stopped I opened the door of my car. The robber shot at me and I fired back and closed the door. He called: 'Open the door or I'll blow the The executive whole car to pieces with dynamite. planning for an Then he threw a stick of dynamite. It struck the door and shattered it and the casing. The force knocked me off of my feet. I then opened the door. One robber came in and made me open

> Bloody Rebellion in China. London: A dispatch from Shanghai ays that rebellion has broken out 100 iles from Hankow. The rebels are fairly armed and very reckless. They attacked the government buildings, which were feebly defended by loyal troops. The latter were soon defeated nd many of them were killed. Many others joined the rebels. Two mandarins were killed. The province is lmost denuded of troops, and the rebels are daily gathering strength. It is expected that they will advance on Woo Chang, province of Hoo Pee, of which Hankow is the capital. The garrison at Woo Chang has gone to the coast, and the place is therefore practically defenseless.

Sir Joseph Renels, the senior alderman representing the Aldersgate ward, has been elected lord mayor of London.

While threshing grain in a barn six six miles east of Fort Recovery, O., a spark set fire to the straw. William Freer and Elsworth McAfee were unable to escape and perished in the flames. Nathan Greer was severely burned and may die. Loss, \$3,500.

A catboat, containing four men, Iniversity hall.

The forty-third convention of the capsized. John and Daniel Bailey, who was clinging to the overturned MORE WAR TALK.

England to Send Troops to China. -The Situation Becoming Complicated.

London: Six thousand troops will be send from India by England to protect the treaty ports in China. The first rifle brigade will leave Calcutta on Oct. 16 for Hong Kong. It is stated that the second-class cruiser Aeolus. from the Mediterranean squadron, and the gunboats Red Breast and Pigeon, from the East India station, have been ordered to join Admiral Freemantle's squadron in Chinese waters. The British consuls at Hankow and Ningpo sent alarming dispatches to the government reporting disturbances in those places and stating that the European residents were in peril. Washington: In Japanese official circles here the cable reports that China has asked England, France and

Russia to send troops and vessels to China to protect their respective in terests, are construed to be a public confession on China's part of the panic and demoralization of her people, and her inability to afford the usual protection to foreigners. Secretary bert has been forehanded in taking steps for the protection of the lives and property of American residents in China believed now to be endangered by rebellious and unrestrained troops. There are now five United States war ships in the east, the Charleston, Baltimore, Monocacy, Concord and Petrel, and this force will be increased to eight vessels by the addition of the Detroit, Machias and Yorktown as soon as they can be made ready. And these will co-operare with the warships of the other powers to mutally protect foreigners.

Yokohoma: The applications for the Japanese war bonds have exceeded 70,000,000 yen, more than double the amount called for. The Japanese government has decided to prohibit the export of coal from the empire. The Chinese man-of-war Isao-Kiang, cap tured by the Japanese July 25, has been added to the mikado's navy and is to be known as the Toyoshima, the name of the island off which she was taken. The standing committee of the six po litical parties in opposition to the Jupa nese government, have passed resolu tions that during the war the ministry shall be cordially supported, without regard to domestic differences of

One Man's Carelessness Cost Five Lives One workman dead and four others closed in the mine, with all avenues of escape cut off and the most disastrous mine fire ever known in the western anthracite coal fields raging at the Luke Fidler colliery, at Shamokin, Pa., is the result in brief of a carpenter's negligence. Fifty-five other workmen who were employed in the mine at the time of the accident had thrilling escapes, as they were compelled to grope their way through smoke and noxious gases. The fire started in the airway of No. 1 shaft and Irvin Buffington, whom the colliery officials held responsible for the disaster, is dead While Buffington and others were engaged in repairing No. 1 shaft, the former disobeyed orders by lighting his naked lamp in the air course for purpose of testing the air. A spark set fire to the timber, that was as dry as powder, and the current carried the flames up and down the shaft like lightning. The mine was soon a mass of flames and could not be approached from any direction. It is feared the inside workings will have to be flooded, which means many months of idleness to the 900 employes.

Great Irrigation Works It will surprise many people to learn of the magnitude of some of the irriga-tion works constructed in the United States during the last few years. Colorado over \$15,000,000 have been spent in such works and in California over \$13,000,000, while many single enterprises to cost several millions each are in progress. The greatest irrigation enterprise in America and one of the greatest in the world is in the Pecos valley, in southeastern New Mexico, where upwards of \$3,000, have already been pended. These works consist of enor mous storage reservoirs—one of which is the second largest in the world, submerging 8,000 acres and having a capacity of nearly fifty billion gallons of water; and of, a vast network of canals aggregating 1,200 miles in Four hundred thousand acres of land will ultimately be brought under cultivation, about 70,000 acres of which have already been settled upon. From all accounts the Pecos valley is a paradise for the fruit grower and live stock raiser; while its dry air and sunshiny climate, practically winterless, is said to be even more beneficial than that of Colorado for consumption and

Eight-Story Bullding Fell-Eight Dead An eight-story building in course of construction at 74 Monroe street. New York City, was blown down by a gale. t crashed through another building at No. 72, demolishing it completely. Two families with boarders living at

other chronic troubles.

The schooner Hartford, bound from Detroit to Cape Vincent, with a cargo of 22,000 bushels of wheat, went on the beach below Woodville, N. Y., in a heavy gale, and the entire crew of eight persons, including Capt. William O'Toole, his wife and babe, were drowned. The cargo consisted of 22,000 bushels

of wheat valued at \$13,000, owned by J. S. Lapham & Co., of Detroit, and fully insured. The Hartford was of 307 tons, was 21 years old, was built at Gibralter by Linn & Co., was owned by G. H. McKinley, of Clayton, N. Y. unconscious condition. He was resus- and Capt. O'Toole the master, was valued at \$4,500 and was insured.

FEARFUL ATLANTIC GALE.

Fifty Vessels Wrecked, 200 Lives Lost in Newfoundland-New York Suffered. A northeast gale of exceptional

force swept over Newfoundland. The storm was very severe at St. Pierre, Miguelon, where 200 lives were lost and great damage done. Not less than 50 vessels dragged their anchors or parted their cables, and were thrown upon the shore. No assistance could be rendered the shipwrecked men from the shore. Altogether there were nearly 300 vessels at the port, not a single one of which escaped without sustaining some damage. Several of the fleet are missing and grave fears are entertained that they foundered during the night. New Yor and Elsewhere.

New York: A storm broke upon this section and great damage on sea and on land. The fishing smack Louise was driven ashore at Highland Beach and is a total loss. Her crew of ten men were taken off by the life saving crew. At Seabright and vicinity a number of buildings were unroofed. At Long Island City the big iron tank, 200 feet high, belonging to the East River Gas company was blown down to within five feet of its foundation. Off Belle Haven, near Greenwich, Conn.. the vacht Verena was wrecked: two drowned. A two-masted schooner

went to pieces on Hart island. At Englewood, N. J., Mary Kerr, aged 19, was killed by a chimney being down upon her. The tug Belle Mc-Williams, with a tow of seven barges of coal was driven ashore and four lives were lost, beside all the barges. The steamer Majella, of Newport, R.I. was found bottom side up near Point Judith and all on board were lost. She had a crew of five men.

The wind was the strongest and the sea the highest ever experienced here and much injury was done to the oyster business. In the interior the apple crop is ruined. In Brooklyn and Jersey City considerable damage was done to buildings, and business was almost suspended.

10,000 Cloakmakers Strike. A general strike of the cloakmakers of New York City, numbering nearly 10,000 men and women, has been inaugurated. About 7,000 finishers and operatives will be forced out of work. The strike committee has agreed that no settlement shall be made with the manufacturers until the latter have signed bonds, giving real estate secur ity for their good faith. It was further agreed that no union men shall commence work until all of the manu-

facturers had come to terms. THE MARKETS.

WEEKLY REVIEW OF TRADE.

Fowl.....Ducks.....

Turkey.....

NEW YORK.—Dun's weekly review says: Business is still waiting for the development of retail trade. There is a little better demand in some industries, but not so good in others. No. 72, demolishing it completely. Two families with boarders living at No. 72 were buried in the ruins. Eight dead bodies were taken out and nine badly injured. The building was to have been occupied when completed as a foundry. Ever since the foundation was laid there have been complaints on every side that the structure was a weak, flimsy affair, and many had expressed the belief that it would fall before the roof could be put on.

36 Boilers Exploded—Four Men Dead.

Four men were killed, two were fatally injured and several were painfully burned by a disastrous boiler explosion that occurred at the Henry Clay colliery at Shamokin, Pa. The entire steam supply plant of the mine consisting of 36 boilers, was totally demolished and in addition to the monetary loss, which will aggregate \$30,000. Four big collicries will be unable to resume operations for at least a month, The cause of the explosion is a mystery.

Distribution of the till trade. There is a little better demand of retail trade. There is a little better demand of rosem in dustries, but not so good in others. Wholesale dealers in nearly all branches are halting because business does not yet show distinctly what it is to be. Lower prices for the great farm staples and lower wages in some establishments hinder purchases for consumption, while political interest and uncertainty all branches are halting because business does not yet show distinctly what it is to be. Lower prices for the great farm staples and lower wages in some establishments hinder purchases for consumption, while political interest and uncertainty all branches are halting because for onsumption, while political interest and uncertainty all tradequate employment for money here, are raising the rates of foreign exchanges with inadequate employment for money here, are raising the rates of foreign exchanges with inadequate employment for money here, are raising the rates of foreign exchanges with inadequate employment for money here, are alsing the rates of foreign exchanges with inadequ

United States, against 393 last year, and 43 in Canada against 42 last year.

New York.—Bradstreet's review says: An actuation of favorable features is revealed in the telegraph reports. While most of the advices of improvement come from the west and south there are some encouraging features also reported from the east. In New England, although the demand is classed as only moderate and a conservative trade is the rule; the industrial situation improves, owing to the ending of the great cotton mill strike, and print cloths are weaker as a result. Australian comending of the great cotton mill strike, and print cloths are weaker as a result. Australian competition has also weakened raw wool prices. Iron production everywhere at present is very large and this has impaired values of the raw and manufactured product quite noticeably. At Chicago business in staple lines is large, although a slackening from previous weeks is noted. Notable price changes have been the decline of 1/20 in cotton and raw sugar, 25c in pork and 50c in steel billets.

Niles has let the contract for its ne \$75,000 water works system.

When Others Fail

Hood's Sarsaparilla builds up the shattered system, by giving vigorous action to the digestive organs, creating an appetite and purifying the blood. It is prepared by modern methods, possesses the greatest curative powers, and has the most wonder-ful record of actual cres of any medicine

in existence. Be sure to get only Hood's Hood's Sarsaparilla I home "Hood's Sarsaparilla is the best medicine I have ever taken for a blood purifier. I had a tired feeling, and was restless at night. I feel much better since taking Hood's Sarsaparilla. I have taken a great many other medicines, but they have given me no relief. My wife and children have also taken Hood's Sarsaparilla for purifying the blood with beneficial results." EMIL KOCII, Beecher, Ill. Get only Hood's.

Hood's Pills are purely vegetable. 25c. In Italy the senate consists of princes of royal blood, and an unlimited number of members appointed

by the king for life. France elects a senate of 300 members for nine years from citizens at least forty years of age. One-third of them retire every three years.

In Boston are the headquarters of the Ramabai association, whose purpose it is to rescue child widows in India. This society is flourishing, and

reports an income of \$61,784. The shah of Persia, is a photographer of no mean skill. In his travels about his domain he carries with him a camera, which he uses on any bit of

landscape striking his fancy. Virtue is not always its own sole reward. James Haysman, a New York expressman, who found on the street a check for \$20,000, payable to Russell Sage, took it to his office and received a \$1 bill for his honesty.

AN ACCIDENT.

fell Through a Cellar Door, Serious Injury to the Kidneys.-Lame Back and Backache for Years .-Relief at Last.

The above cut is taken from a recent photograph of Mr. W. A. Grenville, of Kingsville, Ontario. Mr. Grenville has resided in Kings ville for the greater part of his life, filling many positions of public trust; for a number of years member of the Town Council, and at present holds the position of Town Clerk. About eight years ago Mr. Grenville had the misfortune to fall through a cellar door, injuring himself severely, bringing on a continual lame back and backache, which the doctors diagnosed as kidney complaint. They could, however, give him no relief, and in despair be looked elsewhere for a remedy. How successful he was he tells you in his own words, as follows: "About eight years ago I had the misfortune to fall and hurt myself, severely injuring the kidneys. I failed to find relief for the lame back which followed, and hearing of Doan's Kidney Pills, as a last resource I gave them a trial: the results of the trial were both pleasing and surprising. I feel safe in recommending them to anyone needing a remedy for any form of kidney trouble. I have heard of many others personally known to me who have used Doan's Kidney Pills with the same degree of success. Doan's Kidney Pills are sold for 50 cents per box, or six boxes for \$2.50. house was crammed. The prestidigitator is not always a popular "turn;" he lacks piquancy and excitement, and very often originality; but Alcorez had got hold of one or two almost startling feats which current rumor gave him the credit of perilously steeling from Thibet. At all events his name on the bill was a feature, and he always took well.

The conjurer himself stood at the bar waiting his call, and drank sparingly with his admirers. He was in good spirits that night, for on the following week he was to start on a big American tour which was almost certain to result in further engagements and assure his future.

On the stage the Sisters de Leari were singing the third and last encore verse of their great success, "We Get There All the Same." At that early period they dressed as their grandmother. Thirty years later they will make up as nearly as possible like their grandchildren. Art demands such sacrifices from its vo-

Alcorez made his final adieus and went behind to his dressing room. The Sisters de Leari gave place to a low comedian, then the curtain went up on Alcorez's table and appliances, his name blazoned in letters of gold upon a black background.

At different times and in all places there are sympathetic audiences and exacting audiences. Why, and what controls them, none can say. Simply they are there and have to be allowed for. As the juggler bowed, his experienced eye took in the sea of faces, and he smiled.

He generally began with a very simple trick that is as easy as it looks impossible, and older than the necromancers. He would borrow a watch, get a stranger from among the audience to come upon the stage and hold it, and then cause it to disappear and be found in someone else's possession. It is very absurd when you see how it is done, but it is capable of endless variations, and can always be made to raise a laugh, which is the conjurer's first object.

To-night Alcorez borrowed the watch. Almost before he had made the request a man from the front row of stalls stepped upon the stage to assist him. This alacrity was so unusual that Alcorez looked at the man curiously, and wondered that the face seemed so familiar to him. A word from the audience caught the juggler's ear and he turned quickly to the

"Sir, are you my friend, my accomplice, my servant? A gentleman in the audience distrusts me. Is it/so?" "Certainly not," said the stranger. "Have you ever assisted me before

stranger.

and become familiar with my ways?" continued the conjurer. There was just the suggestion of a

pause, but the "no" was firm and emphatic, and Alcorez proceeded.

Generally it was easy to reduce the assistant to the necessary state of confusion at a very early stage, but the stranger did not indulge in any of the humorisms by which the volunteers lay themselves open. Alcorez, a little puzzled, placed the watch in a handkerchief, gave the ends to a stranger to hold, and crossed the stage.

There was still an almost unfailing ruse. Few men-those accustomed to powder least of all—can face a gun or a pistol without a tremor. This gives the conjurer a double advantage; by means of a weapon he can bring a too observant assistant into

GAVE A LONG, GURGLING SIGH. such a condition of nervousness that he/is unable to proceed, and he can, for a moment, startle a whole audience out of watchfulness by the sudden flash and report. Alcorez picked up a glittering revolver, raised it quickly, and drew the sight dead on the other's face.

"Are you ready?" he called sharply. "Quite," unflinchingly replied the

Alcorez lowered the weapon.

"The danger is small," he said with a lightness he was far from feeling at that moment. "but I like not to take a fellow creature unprepared. But then"-with professional facetiousness-"I have killed only one

man as yet." "There's luck in even numbers," said the other quietly. "Perhaps I

shall be the second." Alcorez shrugged his shoulders. After all, it mattered little. He could create a diversion and make the

pass afterward. He took up the revolver again,

judged the sight well above the head, The effect was instantaneous. The

stranger pressed his hand to his forehead, gave a long, gurgling sigh, and sank down on the boards, while from the hall came the shricks of women and the horrified shouts and threats of men as they surged from the doors

and the stage. Alcorez stood for a moment stupefied. In that short second a dozen possibilities whirled around one dull central fact—irretrievable ruin. Pos sibly he had mixed his cartridges: perhaps, even, some one had tamper ed with his pistol. Ah! after all the poltroon might have only fainted. He rushed across, bent down, and grew ghastly as he saw a red fresh streak on the fallen man's brow. Theatrical to the last, he faced the raging crowd and, tearing open his shirt, placed the weapon to his own heart and fired. A renewed burst of shrieks and cries greeted this. He neither fell nor moved, but stood with uplifted hands as if mutely calling on heaven to witness his innocence.

They carried the dying man into dressing room and placed him on a couch, while Alcorez followed, sickly with terror and agitated beyond words. The manager was there already. "See if there is a doctor here," he said briefly to an attendant.

"There is no need," said the strange suddenly, as he rose from the couch companion; much more then it is neand stood firm. "I was not hurt." He took a cloth, wiped his forehead clean, and showed his hand smeared with fresh red paint.

There was a hushed pause, broker by the sound of Alcorez falling hearily to the ground. From the little group of men came a word: "Coward!"

"Perhaps," said the stranger, unmoved, "but listen. Once beforemonths ago-I stepped upon the stage to assist that man. Never mind why. I went to help him, that is enough. He repaid me by making me a laughing stock for all present. As it happened, it involved more than either he or I knew at the time. have taken the only means I could of humiliating him. Ask him how it feels. Now we are quits." And before anyone could move he passed out of the room and was gone.

He was more than quits. Alcorez's name appeared on the bills no more His nerve was completely gone, and from that night his hand never again knew its cunning.

Selzing the Opportunity. Lord Coleridge sprang into eminence as a lawyer by adroitly seizing a simple incident while he was pleading the cause of a man on trial upon this line of work. Her woman's for murder. In the course of his curiosity has led her to investigate long argument, a candle in the jury for herself what has puzzled the mind box flickered and went out, leaving of the physician and her woman's wit the court room in darkness. He has sometimes solved rather trying stopped speaking, and the silence in questions. A bright, intelligent girl court for a moment was oppressive once said to me: "I have always The usher replaced the light, and wanted to train for a nurse ever since "Gentlemen of the jury, you have a solemn duty, a very solemn duty to not know what was the matter with discharge. The life of the prisoner her. at the bar is in your hands. You can take it—by a word. You can ex- in training for a nurse has awakened tinguish that life as the candle by a desire to carry study along the same your side was extinguished a moment ago. But it is not in your power, it is not in the power of any of us—of any one in this court or out of it—to restore that life, when once taken, as that light has been restored." The tone in which the words were spoken, the cadence of the voice, and the action of the orator, with the inspiration of the scene and the hour, produced a thrilling effect. The jury acquitted the prisoner, and Coloridge's fortune

was made. - Argonaut.

Heroic Measures. One of our neighbors, an unusually learned clergyman, writes James Payne, was much given to Greek quotations. 1 was learning Greek at that time, and those sonorous lines of his to which the ladies listened with reverent awe, irritated me extremely. One of them asked me once, in a hushed whisper, the translation of these quotations. I gave her to understand, with an opportune blush, that it was scarcely meet for a lady's ear. "Good heavens!" she cried. "you don't mean to port themselves and who prefer a say-" "Pray, don't quote me in work of immediate usefulness, for it the matter," I put in pleadingly; is true that in nursing one can use his "but I really -no, I really couldn't influence directly, and the conscioustell you," which was quite true. Professional Nurses.

A few years ago the nurses graduated by our hospitals did not represent the best class of young ladies in this country. Now we find many of our first daughters of the land taking up a course of training for nursing. What is the cause of this change One reason may be found in this fact -the demand of the public for more intelligent and refined nurses. How jarring and discordant to the nerves of the sensitive sufferer is the loud-

voiced individual who walks about your room with a jerky step and settles you among your pillows as if she were anxious to get through as quickly as possible, while upon her, in a great measure, your recovery depends, for good nursing is often more effective than medicine.

The nurse of to-lay is also to be a cessary that she be congenial and capable of ministering to wants of mind and soul as well as of body. Again, the rapid strides taken by

the medical fraternity in the last quarter of a century, have given rise. to a more complex style of nursing and the standard had of necessity to be raised. In all our hospitals the nurse must be at hand in critical operations to aid both then and afterwards by hand and brain work.

As a rule, those are not admitted for training who have not had experience in the responsibilities of life or are old enough to be able to have good judgment and to rely upon themselves in emergencies. training now given in the form of lectures is such as will enable the bright student to understand any technical terms a physician may need to use in his instructions to her, while object lessons are found in the actual nursing of the sick in all ordinary diseases under the watchful eye of an experienced nurse, thus the student has the advantage of both theory and practice.

Then with the increased opportunities for work and with the so-called enlargement of her sphere, woman has very naturally looked favorably

Sometimes the knowledge acquired line still further find our young aspirant to the rank of a nurse a full-fledged physician, says the Philadelphia Times.

From a financial standpoint nursing is a fairly good profession, comparing favorably with teaching, and shorthand and type-writing, as a trained nurse seldom receives less than \$20 per week. From being sent out on private duty at first, in the interest of the school with which she is connected, she acquires a foothold and standing, while after graduation, if not occupied, she leaves her address at the school, and in her turn is assisted ik securing another position.

To one who is at all philanthropically inclined nursing offers a broad, inviting field for labor; the disappcinted lover and the orphan, who feel that this world has no longer any pleasure for them, and who desire only to devote themselves to a life of doing good, are not now the main workers in this profession, but the majority are those who have a taste for the work and who wish to supsuffering, be the extent ever so

There are also those who take the training, not intending to make use of it afterwards in a professional line. but applying it in their families and finding that the practical experience of their training often comes in very handy. To be sure, nursing has its disagreeable side, but what profession has not? Nothing worthy has ever been achieved without patience and labor and the unbiased mind passes Modern Magician-No, madam; over all the petty trials and unin moulding our characters, which must be tried as in a furnace.

> All hail the wearer of the stripes and cap! May her good work go on while she labors to bring renewed strength and health to the weak may she inculcate those principles of love and moral light that never grow old.

Household Bells.

A peculiarity of the modern house is the absence of bells. Many of those recently built have no bells except at the entrance, and the majority are without any means of communication from the parlor floor.

A mishap which might have resulted in a fatal accident happened, not long ago, in a Brooklyn house ter. Stir the beaten yolks into the devoid of bells, and may be a warning to others. The mistress, not whites beaten to a stiff froth. Whip feeling very well, thought possibly a vigorously. Cook in hot buttere warm bath might do her good. While gem pans or earthen cups in a quick in the water she was seized with a oven half an hour, or until the puffviolent chill. Realizing her danger are brown and well popped over.

struggled out of the tub, and by din of considerable exertion succeeded in unlocking the door. By this time she was so exhausted that she could bare ly utter a sound, and even her groans were so faint that they were no heard by the family in other parts of the house. There was not a bell on that floor, and sinking down in despair of receiving assistance, she re-

signed herself to fate, when by chance

in replacing the old call-boy system in large hotels there is no doubt of their ultimate adoption and very general use. The new Hotel Majestic, corner of Seventy-second street and Central park, West, New York, will be entirely equipped with telephone service, and the National telephone company of Boston, has received an order for 500 sets, or 1,000 instruments.—Elec-

FORETOLD NAPOLEON'S FALL Old Manuscripts Written by a Danisl

trical Review.

Astrologer Centuries Ago. Some old manuscripts have just been discovered in San Francisco of wonderful importance. These manuscripts are the production of one Peter Hansen, a noted Danish astrologer, who lived through the end of the sixteenth and the beginning of the seventeenth centuries. He was a contemporary heavily upon the wage-workers, who and a correspondent of Johann Kepler, the great German astronomer, Basil and other learned men of that time. He was also a nephew and pupil of the celebrated Danish astronomer, Tycho Brahe, and lived in Copenhagen in the years 1594 to 1612. The discovered Hansen manuscripts are in possession of a descendant, Olaf Linnberger, who, however, knew nothing of their nature, although believing them of great importance. Mr. Christian Andersen, an accomplished Danish scholar, has examined those old papers and found wonders in them.

Part of these manuscripts are of the greatest possible interest to the American people at the present time. But first it will be well to show the value of these calculations and predictions. The great plague of 1664-1665 is clearly foretold, with cumulative disfed on carefully-weighed quantities of aster on London, indicating the great fire more than half a century in advance. Lilly borrowed from this. The French revolution and the rise and fall of Napoleon are clearly predicted and with entire precision in the designation of years. These are accompanied by charts and diagrams, apparently of terrestrial and celestial combination. On one of these charts is a heavy line from the French frontier to Moscow. The fall of Napoleon is told with the force of language of a prophet. It says:

"The conqueror shall become haughty and despotic, drunken with ambition, leading his victorious hosts through fire and blood as a glutton revels at a feast. Then shall he penepassing beyond the lines of his auspicious star, and two stars of evil omen confront him. His victorious banners shall wither like dry twigs in a blast of fire. He shall stagger back before notions about foods. It is generally a hurricane of destruction, tattered, bleeding and torn, and fall prostrate in the furious agony of a dying giant, to sink forever, as choking in a sea of blood.

Among the other predictions in these old documents are the destruction of Lisbon by earthquake, the extinction of the papal temporal power, the Franco-German conflict and other

American Shipping

Statistics show that in 1856 71.56 per cent of the tonnage of vessels in foreign trade entering our ports was American. In thirty-six years, or in 1892, this percentage had diminished that is more abundant in the brain to 20.61. Again, the value of goods imported and exported in United human body. But the fact is that States trade fell from 73.7 per cent in 1856 to 12.3 per cent in 1892, the latphorous in fish. If there were it ter year's receipts in cash to the veswould be of no importance. The widely sels having been nearly \$200,000,000. circulated phrase "Without phosphor- Of this immense sum \$175,000,000 went to foreign vessels. The significance of these figures will be better On one occasion the elder Agassiz understood if we state that the gross delivered a lecture on the importance | railroad earnings for 1893 amounted to \$1,220,751,874. Had the same conremarked in a joking way that fish was ditions that mark our shipping interan excellent brain food. From this ests prevailed over \$1,000,000,000 of saying and from the oft-quoted phrase the total sum would have represented the foreign interest.

Exterminating Elephants.

A writer in the Central Africa Ga zette from Tete says that at the rate at which elephants of all sizes are a present being killed off in South and Central Africa there is little doubt tea-cloths, and lunch sets. They are a quart of milk as it comes from the that in a few years they will be practitones of green to give the proper ef- nutritive material. The Earth's Attraction

A mass of 1,000 pounds' weight will lose exactly two pounds between tidewater and the top of a mountain four miles high. This, it is plain to be seen, is because the force of the earth' attraction is much less on the mounoutright and used to good advantage tain top than it is at sea level.

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live bet-ter than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the

remedy, Syrup of Figs. Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from

every objectionable substance. Syrup of Figs is for sale by all drugrists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will no accept any substitute if offered.

REGISTERED Leicester ram for sale at a barnearly new. A sad and fatal accident occurred in Almer township on Sunday afternoon. by which a little four year old girl met her death. It seems that a little girl four years old, the daughter of Ant wine Pratt, was playing near a burning stump a short distance from her home. In some manner her clothing took fire and her screams attracted her parents to the spot. Before the fire was extinguished her clothing was nearly nes on Wednesday, Oct. 24th; farm stock burned from her body and after suffering untold misery for a few hours she breathed her last.-[Caro Demo miles south of Wickware, on Wednescrat.

Saturday morning about seven o'clock, Henry T. Gilbert found a horse attached to a buggy sianding on Fifth street, near the school house. He took them to his barn and during the day informed various farmers who were in town but could find no trace of the owner. In the evening, however, Peter Decker of Greenleaf, west of Bad Axe, arrived in Sand Beach and claimed the property. Mr. Decker had been in attendance at the Huron county fair and the horse and buggy had been left standing in front of the Hotel Irwin, from where it was taken by some unknown person.—[Sand Beach Times.

Lindley Murray's Birthplace.

The house, a four room log cabin, in which Lindley Murray, the grammarian, was born is still standing on the father in 1730.

McGillvray the Man

Among our honored citizens
McGillvray stands ahead,
And never of his manhood, yet,
Were ought but blessings said.
Old-fashioned, staunch and farmer-like,
His love is deep the same,
While laurels of an honored life
Crown noble McGillvray's name,
With ballots and with hearty cheer
We'll honor do the ploneer,

From farmer boy to manhood His course has been upright,
And ever he against the wrong
Was foremost in the fight.
The tyrant's foe, the poor man's friend,
And just as noble kind.
Who knows which most to praise and love—
McGillyray's heart or mind?
No party line can stay the crowd No party line can stay the crowd With notes and cheers both long and loud?

With these state cleers both tong and four All Tuscola as Cass City
Well know the hero's worth—
His high renown his noble course
From honored, humble birth.
His friends are legion, east and west,
In county and in town,
And on his head will rush to place
The Clerkship for a crown.
As Walton the bugle-call once gave,
For McGillyray now the flags shall wave!

The citizens of our land, when tried, And noble found and great, Above all motive partisan, Should dignify the place. Should dignly the pade.
In justice and for public weal
McGillvray should be there,
And vandals hands, through party strife.
Forego the Clerkship's chair,
All hail! then, McGillvray, tried and true;
As just and fair, we'll stand by you.

Our Churches.

RESCUE.

The Rev. D. C. Challis, of Caseville, will preach in the Grant Methodist Episcopal Church on Sunday next Oct. 21st at 10:30 and 7:30 p. m, and will administer the Sacrement of the Lord's Supper and Baptism during the morning service.

On Monday evening at 7:30 p. m. he will deliver a lecture on "Missionary Work in Bulgaria" under the auspices of the Epworth League. Admission 10 cents. Everyone cordially invited.

We regret to state the death of Mrs. Thomas Cosgrove, which occured Friday afternoon. She had been ill for more than five weeks. Mrs. Cosgrove was but thirty years of age, was the daughter of Mr. and Mrs. Reuben Body and the first child born of white parents in this town. Was married to Mr. Cosgrove in 1885. She leaves a husband and three children. Was interred in Grant cemetery on Sunday; Rev. Huyser | and picked it up. Before the luckless of Cass City, officiated. Services were conducted under the auspices of the L. O. T. M., of which she was a member. A. A. McKenzie, of Cass City, had charge of the remains.

Religion and the Regulations.

The following story reaches me apropos of soldiers changing their religion: A soldier applied in the usual form to a certain C. O. for permission to change his religion. The C. O. was a little hazy about the regulations, but he was quite clear that there must be two parties to an exchange. "Very well," he replied. "I have no objection. But you must get a good man to exchange with you."-London Truth.

THE TERRIER AND THE LIONS. Size Did Not Count as Regarded Ownership

Kindness is powerful with animals, but I have often been led to think that where kindness fails impudence conquers. In Lincoln park, Chicago, I saw a lady put her hand on the heads of three lions in succession and stroke their ears as if they were kittens. They growled when she pretended to leave, and when she returned they fought among themselves for the first chance of being petted again. But this lady had nursed these lions, and they seemed

to know her as a child knows its mother. There was a little Scotch terrier in the cage with the same lions. He did nothing but bark and snarl and snap at them. One good swish of any one of the three tails would have wiped him out of existence. But he just ordered the big animals around as if he were the lion and they the rat catchers. They obeyed, although with the long deep rumblings as of muffled thunder.

He was not a pretty dog, nor was his voice calculated to make him many friends. He was in no danger of being worried by encores. I don't know that he had any moral qualities worth bragging about. But he was Scotch. He had the reputation of being a terror as well as a terrier, and he had a broken leg. Perhaps as an invalid he appealed to the sympathies of his big companions. This, however, would not account for

his insolent airs of superiority. He took the best of the food. He got the first and the last shake hands from the lady. His barefaced impudence was more powerful than all the kindness and attention of the gentle nurse. And he gave nothing for his living except his bark. For the struggle of life he had no equipment but impudence, and yet he kept three lions in what must have been literally a condition of galling servi tude. There is room somewhere here for a moral. But Æsop is dead. And when he lived he tacked morals only to fables, where indeed they seem to belong. —Donahoe's Magazine.

THE TELEPHONE DEADBEAT.

How He Gradually Comes to Believe That He Owns Your Instrument.

"If there is a variety of deadbeats," said an eminent citizen the other morning, "which annoys me more than all others, it is the man who moves into your building because you have a telephone. At first he drops into your office and tells you his wife bade him order a steak before noon and that he had for gotten whether it was porterhouse or sirloin. He says that a family across the street from his house has a phone and that with your permission he'll just ring 'em up and have 'em send for Mrs. X. Well, that doesn't bother you much because you are thinking of the family across the street, but in a week or two Mrs. X. begins to call you up with the request that you step across the hall and bring her husband to the phone. Then the husband begins to drop in to telephone his commercial acquaintances until two-thirds of his entire business is done over your wire. There is only one more step. One of his agents is up, say, at Mount Morris, and it is very necessary to communicate with him immediately. As much as \$4 may depend upon a word. He hurries in and says of course you have connected with Mount Morris. It is marvelous how man's inventions put the miles at

naught. "While you are chalking up 25 cents to profit and loss he has become the possessor of your telephone. From that time on, if you are using it when he comes in, he waits impatiently and gives you a look when you ring off as much as to say, 'Sir, you are taking liberties with my property which I must resent.' There are but two things left to do-take out the telephone or move out yourself. I am fond of my offices, so the telephone had to go."-Rochester Standard-Union.

A Cat's Breath.

All the felidæ possess poisonous breaths, intended by nature to act as an anæsthetic on their prey. If a person cares to experiment by inhaling, for instance, a cat's breath, they can easily realize the truth of this statement. Carefully watch a cat playing with a captured mouse. You will discover that the mouse does not suffer, but is sort of stupefied, as if by chloroform. In the "Life of Livingstone," written by himself of explorations in Africa, he states that once when he was seized by a lion and his arm broken the crunching of the broken arm gave him no pain, so benumbed were his senses by the animal's breath. A cat seeks the child for its soft bed and the warmth of its bed and lies down on the chest of the infant. Its weight impedes respiration, its breath anæsthetizes the child, and death follows. This circumstance has actually occurred, and medical records conclusively prove it .- Brooklyn Standard-Union.

Sir Richard Owen and the Fakir. A novel story of the late Sir Richard Owen is going the rounds. A snake charmer at Cairo, reckoning without his host, appeared before Sir Richard to go through a deadly performance with a cerastes-the horned wasp. The reptile was placed on the ground. Owen looked at it a moment, then stepped forward performer could interpose the savant plucked from its head its projecting horns, which on closer inspection proved to be fishbones. The fakir was somewhat disconcerted at the rapid unveil ing of an actually harmless animal, and the entertainment was withdrawn.-London Figaro.

Science Right. Husband—A great scientist says that women are less sensitive to pain than

Wife-I presume it is so. I can suffer torments and go right along with a smile on my face. while you swear and tear around like mad if you bump your head while hunting a collar button. -New York Weekly.
