CASS CITY, - - MICHIGAN

And still the slaughter of Armenians by the Turks goes right on.

A. A. P. McDowell, Publisher.

If everybody who has wheels could ride them few persons would be walking.

King Humbert, of Italy, is a vegetarian, and seldom eats anything but bread potatoes and fruit.

At the present rate of agitation our indignation toward Turkey will be at its height along about Nov. 28.

There is said to be a literary club in every town of any size in Georgia. The country editor keeps it behind the door. stream.

Fraker and Holmes went after the life insurance companies in different ways, but they reached the same result-the jail.

H. H. Holmes, the alleged murderer, never touched intoxicants, but there's still a chance that he'll take a drop too much.

Col. Robert G. Ingersoll had his pocket picked at a soldiers' reunion last week. Wonder if it changed his ideas about hell?

Kansas City boasts that her cattle receipts are greater than Chicago's. Somebody's been giving the Kansas people a wrong steer.

Cheng Tu would be followed by Slam Bang if the lives of missionaries were considered by the great powers to be as important as the tea trade.

Mascagni declares that composers have librettos sent them by shoemakers and railway porters. Perhaps it would be a good idea to try some of these librettos for a change.

It was right to stop that band in Oklahoma from playing Mendelssohn's "Wedding March" while passing a divorce court. There are some things that appear incongruous, even in Oklahoma.

When a woman attends a New York theater in bloomers, as was the case a night or two ago, the fact argues that the woman is too new or New York is not new enough. We incline to the former theory.

It is quite touching to learn of the fear of that noted financier and economist, Richard Croker, lest Mayor Strong and his associates "bankrupt the city." There are some jokes that are too deep for laughter.

"Rev." Sam Jones is cited with saying that "there is nothing worse than the summer girl." How in the world did he find out and, will he not please

All Who Have Not Yet Accepted the Faith of Jesus Christ Asked the Reason Why-"Is Thine Heart Right?" -II Kings x:15.

ered span. Then leaning over to Jehonadab, Jehu salutes him in the words of the text-words not more appropriate for that hour and that place, than 22 this hour and place: "Is thine heart right?"

I should like to hear of your physical health. Well myself, I like to have everybody else well; and so might ask, is your evesight right, your hearing right, your nerves right, your lungs right, your entire body right? But I am busy to-day taking diagnosis of the more important spiritual conditions. I should like to hear of your financial welfare. I want everybody to have plenty of money, ample apparel, large store-

house, and comfortable residence; and I might ask, is your business right, your income right, your worldly surroundings right? But what are these financial questions compared with the inquiry as to whether you have been able to pay your debts to God; as to whether you are insured for eternity; as to whether you are ruining yourself by the long-credit system of the soul? I have known men to have no more than one loaf of bread at a time, and, yet to own a government bond of heaven worth more than the whole material universe. The question I ask you to-day is not

in regard to your habits. I make no mortal, is thine heart right?

give the name of the fair, the chaste the inexpressive, but likewise the false and fickle she who has been playing on his heart strings for her own amusement?

Bearing flowers in her hand a woman came to the cell of a murderer. "Poor man." she said. "I'm sorry for you." and shed a tear on the corridor floor. "You ought to be, madam," responded the murderer, courteously. "These cruel the scenery growing grander and iron lours shut me off from the privilege of killing a she fool." Still weeping the woman was led away by the jailer.

⁴ A speaker at a banquet to Spanish slope, covered with feathery bamboos, officers in Havana said that Spain had sent 80,000 of the flower of her army to Cuba and was preparing to send 25,000 more. The largest estimates place the number of the rebels at not over 15,000. The "flower of the Spanish army" must be of the "little faded flower" variety, so far in subjugating such a feeble adversary.

Miss Helen Gould has been traveling through the west under the name of sportsman and lover of nature in her Miss Helen Annetta Jackson, to avoid grander moods, and, having seen it, attracting attention. This is real mean one has something to remember for the of Helen, when so many of us have such limited opportunities for looking at millionaires. Heretofore princes and dukes and other dudes with handles to their names have traveled "incog," but no count like her sister, and we'll have to forgive her.

A New York scientist recommends the eating of bones after they are prayer you will make an especial effort ground fine. He holds that under our present diet the bones of the human frame are not properly supplied with the chemical elements needed to keep them in sound and vigorous condition, and that these elements can be most easily obtained by consuming the powdered bones of the animals ordinarily used for food. He would sprinkle a steak or chop with bone dust, after the manner in which it is sprinkled with salt and pepper, and he maintains that thus the taste of the meat may be greatly improved.

Sigmund Leavick, of Denver, formerly of Springfield. Ohio, was a surprised man last week when he learned that a scrubwoman in Springfield. known only as "Irish Mary," whom nobody supposed to be worth a dollar, had died and left him \$75,000. It seemed that seventeen years ago Mr. L. secured a good job for Mary which she held up to the time of her death, and for his kindness she willed him her fortune. It pays to be kind, for kindness is the one thing that nobody is likely to forget. And how little it costs!

THE CHINESE STREAM THAT FLOWS THROUGH FOO-CHOW, THE SCENE OF THE ANTI-CHRIS-TIAN RIOTS.

the river for something like 300 miles, grander. Sheer cliffs, hundreds of feet high, rise in places from the water's edge. Rocks of unique formation stand out from 50 to 60 feet high, while on the other bank will be seen a gentle

which wave gracefully in the breeze, and look like giant green ostrich plumes.

Still further up the river the mountains are covered with dense forests, where game of all kinds abound, ranging in size from the royal Bengal tiger not to be doing any better than it has and wild boar to timid little deer and monkeys, the latter being found in great numbers.

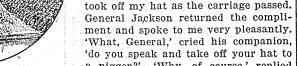

In fact, the attractions offered by this beautiful country are equal for the rest of his life.

An Exchange Minister's Prayer. Some little time ago the minister from Scarboro, Me., exchanged pulpits Helen is a princess of finance and has with the minister from Sacarappa, in the same state. When the Sacarappa minister arrived at Scarboro he was met by a deacon, who said to him: "Mr.

Jones, I do hope to-day that in your for rain. Our crops are being destroyed and I can see nothing but desolation here." So when the minister was about making his petition, he said: "Oh, Lord, I pray Thee that Thou wouldst send copious rains upon the soil of Scarboro, that it may bring forth a bountiful harvest, and that the people will be made glad, and Oh, Lord! they will bless you for it. I desire, Oh, Lord, to state that I make this petition in the name of the good people of Scarboro, for Oh, Lord, I know that Thou, in Thy divine wisdom, will say it is not rain that the soil of Scarboro needs. It is more top dressing."

The Old. Old. Just as circulation was about to cease,

she impulsively nestled upon the other knee. "Edward." "Darling." "Tell me the old, old story, Edward." For a moment he was silent. He was rapidly reviewing the situation, and trying to decide which was the older, the small-boy-and-the-greenand the home-made pie.

Jackson, 'I can't allow a colored man to have more manners than I.' Poor old General Jackson," continued the old man, "I rememeber when they bur-

ied him down yonder in old Tennessee, and this here hickory cane of mine was cut from a tree above his grave." For many years James K. Polk lived

just across the road from Haddex's master's in Columbia, Tenn. Haddex's elder brother, who is still living in Columbia, was Polk's body servant, and served his master in the White House during Polk's presidency. Later on Asa himself became a servant in the Polk family. Among the Presidents whom Haddex has known intimately are: Jackson, Van Buren, William Henry Harrison, Polk, Tyler and Fillmore, He has had conversations with Lincoln. Grant Pierce Buchanan and Andrew Johnson and has shaken hands with Hayes, Garfield, Cleveland and Harrison, and also with the late Secretary James G. Blaine and other presidential candidates. Haddex has been a man of prime he could carry a bale of cotton on |

ably well under his burden of years. Long Service by Employes.

A remarkable case of long service by employes appears in a description of a brass factory in Haydenville. Mass. Ou' of 265 men in the employ of the company 155 have been in its service for ten years or longer. Among these are twenty-seven men whose terms of employment range from twenty to thirty years; ten have been in the same works

for thirty or forty years, and six have been there for forty years or longer. The longest continuous service was forty-three years, with hardly a day of interruption. Such facts are creditable to both sides.

RAND. MENALLY & CO. .

CHAPTER 1II.- (CONTINUED). "You will not have failed to observe," he began, "that our past attemptsnow five in number-have all practically owed their failure to one and the same cause. We have not hitherto recognized which is the stronger and which the weaker of the two barriers that confine the object of our devotion. Because there are but two cruisers guarding the seaboard of St. Helena, while a continuous cordon of armed sentinels is posted around Longwood House, another at the confines of the domain, and yet a third along the coast, we have made the mistake of supposing that our chief difficulties would meet us on land. But experience has shown that by relying on the corruption of servants and the stupidity of sengreeting from the Emperor in freedom tries the path to the shore can always be made smooth. The really insurmountable obstacle has hitherto been the vigilance of the English men-ofwar. They are, as you know, warned of the approach of a vessel by signal from the lookout on the peak, which has a prospect of over twenty leagues. Cruising, one to windward, one to leeward, they allow no ship to enter the roads without being searched; no one to land without permission from the admiral; and even after dark their guardboats, pulling round the island all night, prevent any communication with the shore.

"A prisoner, then, who has gained the landing-stage, is none the less a prisoner still, for he can by no possibility succeed in passing over the halfleague of water which separates him from the vessel waiting to bear him away to freedom.'

M. Carnac sighed again. "It's quite true," said Mr. Holmes; "I found that out myself."

'Say rather that you sent others to risk their necks in finding it out for you." growled the count. The colonel hastened to divert their

attention from each other. "Fortu-nately," he continued, "an inspiration came to me.'

Camilla glanced quickly up in astonishment; and he went on rapidly, as if to retrieve a false step. "An inspira-" tion from a source not unknown to you. Madame de Montaut, who has spoken with so much eloquence to-night, was in fact the first to suggest that it might he possible to pass under that which we could not pass over."

The three visitors stared and were dumb. Camilla looked anxiously at their faces to gather their probable simple Every casual stranger can sail round and round me, and stare into my galley windows!" But he was, only half displeased. This little bout had warmed him after all, and he felt the sanguine current of hope and active thought running through his brain like a mill-race in the spring sun-light. He had escaped the dreaded good fortune

that had threatened him with immediate banishment, and he had begun to find his bargain with Camilla even more profitable than he could have ventured to expect when he made it. It was not until close upon 3 o'clock that Camilla returned. However, when she did come, she came alone, and that was a consolation worth waiting for. She joined Dick in the morning-roon downstairs, and settled herself by the fire with perfect ease of manner. He

"Yes." said the colonel, "a submarine boat is what is needed; and if the idea was another's, I may at least claim that the execution of it has been mine. "Execution?" asked Holmes, with

transparent jealousy. "What do you mean? The thing's impracticable!" "Oh! it is a poor machine," said the

colonel, with great deference, "and not in any way one such as you, Mr. Holmes, would have been able to design; but I think it will serve its purpose, and that is enough." M. Carnac shook his head. "I hope

it may," he said, despondently. "This." said the colonel, unfolding a

drawing and holding it up, "is a sketch of the boat. It is eight feet wide, seven deep, and sixty-five long, and is made in a number of separate parts, each capable of being concealed in a hogshead cask. The whole can be put together in two hours."

"Good!" cried the count, with a side glance at Holmes. "Most ingenious! And how do you propose to use it?"

"Only as an auxiliary, of course," replied M. de Montaut, "for its effective range is very limited. It is sunk by admitting water into tanks at the two ends, and raised by pumping it out again. The propelling power consists of two broad paddles worked from in-

side by hand, and moving much like the fins of a fish. The shape of the boat, as you see, is not unlike that of. an ordinary canal barge, with watertight ends, and with the central space covered in by an oblong erection. having panes of glass in the front and sides for purposes of steering, and at the top a hatch or trap-door for ingress and egress."

"It will be very laborious to work," said the count.

"Precisely," said the colonel; "and I propose therefore to use it only as far as it is absolutely necessary. My idea

is this: A merchant-vessel will arrive his stalwart patient's weight-rallied off Jamestown. The first time that I was able to see 'From this moment,' he said, 'she shall the Empress in private life was at St. be called Camilla, and I dedicate her to did not oversleep himself. Cloud, where the de Tascher family octhe great protector who has saved us." cupied a villa adjoining the palace, with "Napoleon was pleased with the readiness of the reply, and took him into an entrance to the priate grounds, of high favor. He afterward gave him a which we had a key.

> One evening I had taken a drive with the duchess, and on our return she had gone into the garden with her elder daughter to enjoy the fresh air, requesting me to order the lamps for the drawing room. I had just laid my hand on the bell when I heard a voice asking me for the duchess, and the door suddenly opening, I saw a lady standing in the entrance. Supposing her to be a visitor from Paris, I immediately went toward her, begging her to come in while I called the duchess, who was in the garden; but I saw some hesitation, and al-

Two Instances That Left the Question though the room was nearly dark a ray of moonlight resting on her face revealed the Empress Eugenie.

I was startled, and hardly knew what I ought to do, so paused for a moment: whereupon she hastily took flight, closthe Mills building yesterday, says San ing the door. I ran to the duchess, Francisco Post. One walked boldly to saying: "Madame! The Empress is the very edge of the roof and gazed here!" She hastily came forward, when steadily into the street below without the door opened again and the Empress, accompanied by the Duc de Tascher and a numerous suite, came in quickly, with extended hands, which the duchess kissed. She had previously run on alone, leaving the others behind her, and in the anteroom had asked the servant on duty if the duchess was at home, wishing to surprise her. The man, who was half asleep, sprang to his

feet with evident trepidation; on seeing which she exclaimed, "Do you know me?" "Certainly. I have the honor of knowing Your Majesty." "Oh! how tiresome!" she cried ("Comme c'est ennuyeux!"); "everybody knows me!" She

then hastily opened the door before her, and saw that I too recognized her, on which she flew to the duke, saying, "Tascher! Tascher! I cannot go inthere is a strange lady!" He answered,

laughing, that he thought he knew who that strange lady must be, and that her Majesty need not be alarmed on which she consented to return. As the duchess welcomed her warmly, she said that she had felt quite shy (intimidee) when she saw "madame," with a smiling bend toward me, on which I was presented in

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure nov Catarrh Cure is the only positive cure how known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work.

The proprietors have so much faith in its curative powers, that they offer One Hun-dred Dollars for any case that it fails to cure. Send for list of Testimonials. Address, F.J. CHENEY & CO., Toledo,O.

Sold by Druggists, 75c. Hall's Family Pills, 25c.

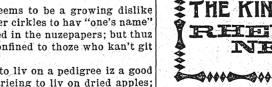

PRINTERS' INK.

The publisher of a "long felt want" should not expect to secure advertisements before readers.

Advertisements are like men in that those which accomplish the most frequently have the most faults.

An advertiser who confines his adveron the jumping toothake like the tising to one medium cannot reach everybody in an entire state or section. One little "ad." which is seldom inserted by any one lot of the weaker sex

forgiven."

Natur haz its devious and winding ways, az well az its strate places; hence-

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleas ant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from

every objectionable substance. Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

NEWS OF THE HAPPENINGS IN MICHIGAN.

The Supreme Court Gives an Opinion on the Constitutionality of the AntiFusion verely. He went home immediately Law-Gen. O. M. Poe D'ed at Detroit-Two Schooners Sank in St. Clair River

Anti-Fusion Law is Constitutional.

The supreme court of Michigan has filed an elaborate opinion in the mandamus case brought by Albert M. Todd to compel the election commissioners of the counties comprising the Third congressional district to print his name on the ticket of each party nominating him, claiming the so-called anti-fusion law of the last legislature to be unconstitutional. The opinion, written by Justice Grant was concurred in by Justices Hooker and Long. Chief Justice McGrath did not sit in the case. Justice Grant says:

When each voter has been afforded the op-When each voter has been afforded the op-portunity, and has been provided with reason-able facilities to vote the constitution has been complied with. All else is regulation and lies in the sound discretion of the legislature, to whom alone such regulation is committed. Courts cannot hold them unconstitutional be-cause in their judgement they are harsh or un-wise, or have their origin in partisan purposes. Courts have nothing to do with the motives of period the reasons they may have for legislators nor the reasons they may have for passing the law.

After reviewing a number of authorities, Justice Grant concludes as follows:

It is insisted that the candidate has the constitutional right to have his name appear upon the ticket of every party that indorses him. The law gives every candidate the right to have his name appear on the ticket once. Naturally it belongs in the column of that party with which he is openly affiliated, but if he chooses to have his name attached to the ticket of some which ho is openly affiliated, but if he chooses to have his name attached to the ticket of some other party, and that party does not object, he possesses that right. But I know of no reason or authority for saying that any candidate pos-sesses the constitutional and inalienable right to have his name appear more than once upon the official ballot containing the tickets of two or more political parties. The Australian bal-lot contemplates that his name shall be there but once. It follows then, that every voter has a reasonable opportunity to vote for him. This is the sole constitutional right guaranteed him. He has no occasion to find fault so long as he is permitted to have his name upon the ballot upon such ticket as he chooses, with the con-stitutional right, following an opportunity given to every voter to vote for him, which he can do by simply making two crosses instead of one. The law is general and aims at no po-litical party. One party may be affected at one election and another at another, or all parties may be affected at one election, some in one locality and others in another. It does not provent coalition between different political partics. It does not deprive the members of those political parties of the means to put their coalition into effect by their votes, bit furnishes all reasonable facilities for so doing. It only requires some degree of intelli-gence and care on the part of the voters. We hold the law constitutional.

Another Gale on Lake Superior.

An October storm from the northwest is dreaded by sailors on the lakes, and especially on Lake Superior. That region has been visited by three in as many weeks, but the last was not ous farmer. quite so disastrous. However, it entailed a great amount of suffering as it brought hail, snow and a cold, cutting rain. At the "Soo" the wind forced the water over the lock gates and prevented any boats passing up or down for several hours and caused a big jam. The tugs Parker and Boynton were compelled to abandon a raft of 3,000,000 feet of logs which they were towing from the Two Heart to the "Soo." The Rappahannock and barge Aberdeen were seen laboring in Whitefish bay. The seas were roll-ing mountains high, and the boats have not been heard from since. Sev-

Gen. O. M. Poe Dead. Gen. O. M. Poe, colonel of engineers, S. A., died at the family residence at Detroit after an illness of 10 days. About two weeks before his death, while making an inspection of the big government work at the "Soo" Gen. Poe slipped in stepping from the lock wall to the deck of a tug and injured his left leg below the knee quite seand seemed to get along finely until a week later erysipelas set in and medical skill proved of no avail. Since 1883 Gen. Poe has been in charge of government improvements on Lakes

Huron, Michigan, St. Clair and their connecting waters and among the numerous monuments of his energy is the great canal at Sault Ste. Marie.

Orlando M. Poe was born in Stark county. O., March 7, 1832; entered the West Point academy at the age of 20 and graduated with a commission in the engineer's corps of the regular army He was first lieutenant when the war broke ou He was first lieutenant when the war broke out and Sept. 16. 1861 he was given command of the Second Michigan infantry with the rank of col-onel of volunteers. He marched with Sherman to the sea and received promotions rapidly "for gallant and meritorious services" and at the close of the war he was brevet brigadier-gen-eral. Gen. Poe continued in active service and in 1833 was placed in charge of waterway im-provements from Luke Superior to Lake Erie. He would have been feitred from active ser-vice. He leaves a widow and one daughter, having lost three daughters in five years.

Attempt to Rob a G. R. & I. Train.

Would-be train robbers filled the ngine of a northbound passenger train on the G. R. & I. full of bullets in a dense woods near Kalamazoo. Four masked men were seen on the track by the engineer, and a volley of bullets was fired immediately after. One shot smashed the headlight and the other made splinters of the wood work of the cab. Instead of obeying an order to stop, the engineer pulled the throttle wide open. The passen-gers knew nothing of the affair until some time after, when the train reached Cooper station.

Costly Blaze at Edmore.

The elevators and grist mills of J H. Gibbs & Son at Edmore caught fire and the flames were soon beyond control, although the fire company worked bravely. The engineroom and a dwell ing near by were saved by hard work The elevator contained 10,000 bushels of grain. The estimated loss is \$30,000 vith \$2,000 insurance. The origin of the fire is a mystery.

GENERAL NEWS ITEMS

INTERESTING CHRONICLE OF GENERAL NEWS MATTERS.

Cuban Insurgents Win Some Important Engagements and Receive Some Re-

The Cuban war for freedom from the all the former seem to be continually gaining ground and winning battles. A New York World correspondent in Cuba, who visited the provinces of Santa Clara and Santiago in June and again this month, says it is astonishing to see the growth of the insurgent army and their splendid training dur-ing that time. Gen. Antonio Maceo has 20,000 troops in those two provinces alone, and the entire Cuban army-num-bers about 60,000 men. All but two of the provinces are practically in control of the insurgents notwithstanding the fact that there are over 100,000 Spanish troops on the island under the command of Capt.-Gen. Campos, supposed to be one of Spain's most able fighters. The Spaniards do not fight with brav-ery and will only stand battle when

they have overwhelming numbers. But they can scarcely be blamed as they are poorly drilled, badly disci-plined, meanly clothed, have wretched food, are marched hurriedly here and Rev. A. E. Hinshaw has been found there without any apparent plan of guilty of the murder of his wife at campaign and are unaccustomed to the Danville Ind. climate. Scores of them die weekly Maj.-Gen. If Born of Foreign Parents-At Least the Attorney-General So Claims. While a great crowd of people was Wong Kim Ark recently arrived at San Francisco from China, and de-

manded a landing on the ground that he is a native of California.⁹ The col-lector of the port refused him landing, claiming he is not an American citizen. The decision was in accordance with an arrangement with the attorneygeneral, who is anxious to test the rights of American born Chinese to land. According to the contention of the government, a person born in the United States must not at the time of his birth be subject to any foreign power, thus making it indispensable to citizenship by birth that the parent be an American citizen, for if the father be alien the child will be subject to the country of the sire. In other words, to be an American citizen by birth one must be born of American parents. If this contention of the government is upheld, the standing of all people born in the United States of alien parents will be greatly affected.

NOT AN AMERICAN CITIZEN

Another Big Warship Launched.

The United States armored cruiser Brooklyn was launched into the waters of the Delaware at Cramp's shipyard, near Philadelphia. The vessel passed from the ways without a hitch. Miss Ida May Schieren, daughter of the mayor of Brooklyn, broke a bottle of American champagne on the cruis-er's bow and said: "I christen thee Brooklyn." A large number of distinguished people witnessed the launch. guished people witnessed the kaunch. The Brooklyn is regarded by naval experts as a marvel in the art of marine architecture. She is classed as a steel armored cruiser, hav-ing four eight-inch barbette turrets and is 400 feet in length... Her cost exclusive of arma-ment is 2,986,000 She will have twin screws. There will be four engines, of the verticle triple expansion type. There are seven boll-ers, tive of which are of the double end type. The hull is of steel. not sheathed, with a double bottom and a close water-tight s bdivision, running to about 12 feet above the water line. The ship's battery will consist of eight 8-inch breech-loading rifles of 35 calibre. 12 5-inch breech-loading rifles of the rapid-fire type. 13 6-pounder rapid-fire guns, four 1-pounder rap-id-fire guns and four machine guns.

24 British Sailors Drowned.

A disastrous storm raged around the outhern coasts of Great Britian. Six ifeboat men were drowned in Bristol channel and three Blackpool fishing boats went down, drowning five fisher nen. Number of vessels were deserted by their crews and the total loss to hipping is enormous. Later.—Reports of the damage by

the great gale make the total lives reported lost 24, and the total number of vessels known to have been wrecked 49.

Cambridge, O., Burned-One Life Lost.

The business portion of Cambridge, D., was destroyed by fire with a loss of over \$100,000. The wind drove the flames so that the firemen were practically powerless. One man was burned to death—Frank Law, employed at Davis' livery stable. The general offices of the Cleveland & Marietta railroad were destroyed but most of the valuable documents were saved The insurance was less than one-half the losses.

Six Mon Killed in a Quarry.

Six lives were crushed out at a quarry near Independence, Mo., by the premature explosion of a blast. The victims are: Miles T. McTiernan, contractor; Con Pruitt, farmer, 25 years old; Dan Larkin, Antonio Carlin and Pat Welch, quarrymen; Tom Ferguson, a boy 9 years old. The men were crushed under a huge rock and instantly killed. The boy lived a few

REVIEW OF TRADE.

Seasonable weather has stimulated sales of merchandise and increased the prospects of a favorable fall trade generally. Among the less favorable features are a moderate demand in staple lines on the Pacific coast, and the check to the advance in prices of iron and steel, with a reaction of about 1 per ton at Ohio valley and Pennsylvania centers. Prices for iron and steel at western centers are firm and dealers are said to be sold eight months ahead. Mer-cantilé collections are very generally improved, more particulariy south. The general dry goods trade has improved with more sensonable weather, larger eastern jobbers reporting a material increase in the demand. The un-favorable spot is in men's wear woolens, the spring sale for which was unsatisfactory, owing to foreign competition. Trade conditions south are improving with the free movement of cotton and the high price of that staple

'RAINING CARRIER-PIGEONS. How They Are Taught to Act as Mer

sage-Bearers. DeWitt C. Lockwood writes an account of the "Carrier-Pigeons of Santa Catalina," describing the rapid mail service established between the two places in the September St. Nicholas. He says: It must be understood, however, that in certain pigeons, especially those known as the Belgian variety the homing instinct is developed in a remarkable degree; and it is the bird's intense love of home, and the almost unvarying certainty of their return thither after having been taken some distance away and then released, which makes them valuable as carriers. The methods used in training a pigeon for, special service are not by any means similar, as many persons seem to think, to those employed in training a dog to run after a stick, or a white-spotted pony to dance the polka. A carrier's education consists in conveying him away from home and letting him go, when he simply flies back to the loft I come mighty nigh mortgigin' the where he belongs. This sounds almost as thrilling as the story of the enterpris- to want when I give 'em to her." ing mouse that first ran up the clock and then ran down again, and of course it conveys no idea of the immense amount of care and patience involved told me ef I'd lump my dealin's they in the rearing and breeding of the birds reckoned they could let me have 'em at -the special cultivation of those qualities which produce the best results, and so on. In training the birds for Catalina three or four were usually placed together in a pasteboard box, perforated with holes about the size of a quarter of a dollar. They were carried to a spot a mile or so from the loft, in a direct line for the coast of Catalina, and released. A few days later the same birds were taken a greater distance away-say three or four miles from home-and liberated. In this manner the several succeeding journeys were gradually lengthened until San Pedro the seaport of Los Angeles, twenty-two miles distant, was reached. Then the pigeons were taken aboard the steamer and set at liberty a few miles out at sea; increasing the distance upon the four occasions that followed, until at last the end of the route was reached and the birds would fly, without fail, across the sea and over the land to their home.

"The highest elevation attained by man," said the professor, "is about 20,-000 feet." "H'm." whispered Undergrad, "I got so high on hard cider one day down on the farm that I didn't get back to earth for four days."-Cincinnati Enquirer.

"I'm perfectly convinced," said the ambitious young man, "that I can write the greatest novel of the period.' "Why don't you go ahead and do it then?" "Oh, I would not think of such a thing. I am happy in my belief on the subject. Where's the good of my risking disapointment?" -- Washington Star.

NORTHERN EDITOR'S VIEW OF THE COUNTRY AND PEOPLE.

The Condition of the Negro and the Prospects of His Advancement as Seen by

a Michigan Publisher-An Interesting Letter from the Land o' Cotton

St. Augustine, Fla., September 28.-What advancement has the colored race of the south made in the past fifteen years is a subject which may per naps be of some considerable interest to people of that section of the north where this letter reaches. The observations in this line, which have been made, are placed in comparison with observations made by the writer in 1880 and 1881.

Close observations now we must be frank to say fail to disclose that marked improvement which we had hoped to meet with. The race is still the laborers and the servants of the white man. There seems to be a no larger percentage of them independent of servitude upon the whites than there was in 1880. Their social condition has not advanced to any perceptible

degree. Last night in the opera house we noticed that there was the "nigcould feel the gate a-givin' way and gers' corner" in the gallery the same as fifteen years ago. No one of the race, no matter how princely dressed, how intelligent, how largely mixed with the blood of the Caucassian or how wealthy, was allowed a seat in the dress circle or parquet. Upon rail-

way trains they are all given seats in the front part of the smoking car, which is partitioned off from the smoking section. No colored person ever attempts to take a seat elsewhere. On a rush to take a train they may get on to one or the other of the cars allotted to the whites, but they pass immeditely through to the smoker. We said they never ride in any other car than the smoker. This statement is subject to qualification. When they accompany whites, either man or wo man, in the capacity of servants or nurses, they are allowed seats near them. It seems to make considerable difference as to their being acceptable to riding with white people when they thus ride in the capacity of menials.

As to virtue, there seems to be a difference of opinion among the people there as to whether any advancement is being made or not. On education and religion there appears to be the same diversion of sentiment. On makinvestigation inquiries have not been confined to any one class. Where opportunity has offered, inquiries have been made of men of intelligence both of northern and southern birth. On all these investigations we have found but one person taking a position differplied, blushing just a shade myself as ent from the others. This man was a Methodist minister whom we met at

Desup, Ga., while waiting at the hotel for a train. This man was a native Georgian, whose father was a large slave owner and who was himself a confederate soldier by choice. The wide streets, several of which are 190 feet in width, with 12, 14 and 16 feet ideas expressed by this gentleman were so decidedly different from those walks. The next night was passed at expressed by all the others with whom Jessup, Ga., and the third at Jacksonwe had conversed that they are worville, the gateway of Florida. Jackthy of some especial notice. The gensonville is a magnificent city, a matleman stated that in religion the negro jority of the people being from the was making rapid strides in the adnorth. Should any of the readers of Three Families in Succession Have Each vance; that in education he sought this letter have occasion to visit Florevery opportunity to advance his con dition: that in virtue he Mrs. Matilda Craig, who lives near was fast throwing off the galling yoke fastened upon him by generations of slave ser-"There was never a man or a vitude. race of men that would not become elevated by religion and education." the mother of a dozen children, and all remarked our acquaintance of the day. three of these families had a pair of He stated that he frequently spoke to twins. Mrs. Craig was born May 3, negro congregations in their churches. 1828, in Bath county, and if she lives to But he stated that while the white people of the south would permit him to preach to the negroes, being a native southerner, without ostracising him, they would not permit a person made arrangements to hold a re-union from the north to do the same thing. at the old homestead on this fiftieth an- The same sentiment existed in relation to teaching the colored schools This sentiment has been found to exist among the others interviewed number of ministers who have offi- on the subjects touched upon in the last paragraph. When a negro re ceives education he will not longer willingly work at manual labor. He seeks genteel employment. If he cannot find this employment he either becomes a loafer or a criminal. That virtue is at a discount and that religion for the negro is a harmless source of diversion. What the exact facts may be personal observation has not as yet enabled us to determine. One would naturally suppose that the position taken by our ministerial friend was the right one, yet what are we to do with the mass of evidence contrary to his position? We find this state of facts to exist. The habitation of the negro is the hovel still, his language is still the jargon of fifteen years ago. He is still thriftless and unreliable. The germs of a better cannot take root and grow to any remarkable degree amidst the surroundings of squalor and filth. We are speaking of the negro as a race. There are bright and sparkling exceptions. When the subject of the emigration of the negro to Africa is discussed, the general impression is found to be neither the white or the intelligent men of the negro race desire it. The white says the negro would relapse to his tormer condition if robbed of the association of the whites and this seems to be feared by the negro of intelligence himself That the negro has shown remarkable advancement in the thirty-two

ead and write. While the negro seeks not reach above 90, but it was very ducation these whites avoid it. The trying. When we struck Jacksonville the temperature was SS, but a stiff Methodist minister above mentioned stated that the condition of these peowind was blowing from off the ocean ple was deplorable. That the great and although warm, as shown by the obstacle^{*} in the way of their advancethermometer, to us the temperature was apparently only about 70. The nent was a religious society called the rimitive Baptists. The ministers of only time the heat is realized is while his sect are uneducated, absolutely in the sun out of the breeze; then you ignorant in most cases. One of the know you-have 88. The temperature tenents of the church is opposition to for the four days we have spent in St. an education or paid ministry or an Augustine has been about 82, all day and all night. There has not been a educated people. The ministers oppose the education of their flocks most

variation of over 4 degrees during the 24 hours. It has been refreshingly strenuously and there are but few who lare to arouse their opposition. cool, made so by a stiff ocean breeze To-day a walk was taken on the beach gathering sea shells of fully six These people are absolutely improvilent and shiftless. They either rent a mall piece of land from one of the or seven miles, starting at 11 o'clock. No umbrella was used. The sun was shining bright; temperature 82. A FILTER INSIDE YOU

HOW YOUR BLOOD IS KEPT PURE

Health Comes From Pure Blood. Pure Blood Depends on Your Filter Inside You.

Your Kidneys Keep Your Blood Pure If They Ary Well. A Few Facts About Them, and How to Make Them Well When They Are Sick

Your blood is what nourishes your body.

New blood is made every minute. It goes to the lungs, gets fresh air, and then passes through the body. In passing, it deposits new flesh, fat, bones, etc., and takes up worn out matter. This worn out matter goes to the kidneys. The kidneys filter it out of the blood and throw it out of the body.

That is, when they are well, they do When your kidneys are well, they act, as perfect filters, to keep your blood pure. When they are sick, they Hotel, first inquiring of cabby his price act imperfectly. They leave the bad

> There is nothing more poisonous than bad blood.

A proof of this is rheumatism. It is simply a blood-poisoning caused by the bad matter left in the blood by sick kidneys.

Bright's disease is the kidneys working the other way-taking the good food out of the blood

Both kinds of kidney sickness are dangerous.

Both can be cured by Dr. Hobb's Sparagus Kidney Pills.

One of the most wonderful facts of our body is this natural filter inside us. Our kidneys are very important party may be one or it may be 10 organs. We don't take enough care of them. We are sick oftener than there is any need for. It is simply because we take no heed to our kidneys.

Sick kidneys show their effects in many different diseases.

Rheumatism and Bright's disease Anaemia, Neuralare very common. gia, Pain in the Back, Dizziness, Bladder Troubles, Gravel, Diabetes, Sleeplessness, Nervousness.

These are only a few symptoms, or so-called "diseases." Back of them all are the sick kidneys.

Once the filters can be made to work, all these symptoms will disappear. Dr. Hobb's Sparagus Kidney Pills

are made principally from the roots of the asparagus plant, which has a special curative action on the kidneys. It gives them new life and strength. It helps them to do their work as it ought to be done. It cures their sickness. It

When the kidneys are well you will feel a great difference at once. Your complexion will clear, and your whole body will get renewed life and freshness

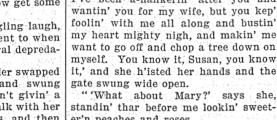

This is the effect of Dr. Hobb's Sparagus Kidney Pills on the sick kidneys, of the re-vitalized kidneys on the im

With a course of Dr. Hobb's Sparagus Kidney Pills you will get new life. They will cure you when other medi-cines, which do not reach the real seat of disease, cannot help you.

Dr. Hobb's Sparagus Kidney Pills are for sale by all druggists, price 50c. per box, or will be sent prepaid to any address on receipt of price.

An interesting booklet, explaining about the kidneys and their power for good and evil, sent free on request. Address Hobb's Medicine Co., Chicago,

Learned professor—"A desire to eat soap."-New York Weekly.

'Tis greatly wise to talk with our past And ask them what report they bore to

years of his freedom is evident upon all hands. But he is the negro still. He is not a Caucasian and cannot be made one. He imitates the white. He is not original. He follows, he does not lead. The whites of the south could not get along without him. He

cannot get along without the whites. The color line is as distinctly drawn as of old. Whether right or wrong it is

a question which the people who have to deal with the negro race must solve. The people of the north are not in a position to do so-solve it.

There is a class of people in the south who are making far less progress than is the negro. They are whites, they have never been slaves. Yet the percentage of illiteracy is far | to 100,000. It is a handsome city and greater among them than among the is building up fast.

negroes. In fact, their condition has not improved any since the war. There is not one out of ten who can

ida, either for pleasure or business, he or she will be met at the depot at Jacksonville by a most persistent and insolent gang of hotel runners. There are a lot of worthless hotels in Jacksonville and some very pleasant ones. Turn a cold shoulder to all these runners and ask the street car conductor to transfer you to a car passing by the Belle View House. This house is family hotel where everyone is at home. It is kept by a northern lady. It overlooks the magnificent St. John's river, at this point fully a mile wide and filled with shipping. A stop at Jacksonville will be thoroughly enjoyed. It is at the upper edge of the belt producing the date palm, the cabbage palm, the orange, the lemon, the banana, and several other sub-tropical fruits and foliage. Here that peculiar vegetable formation known as the Florida moss seems to thrive as nowhere else. It is a species of moss which grows upon all the trees. It hangs pendant from the branches, in many instances as long as ten feet

After a day at Jacksonville, an hour and a half brought us to this Mecca of all winter pleasure seekers and all seekers after health, this one city of history in our national life, the oldest city in the United States-St. Augustine. Arriving here Thursday morning, we have not yet had sufficient time to acquaint ourselves with the city and some of its history to make a St. Augustine letter interesting. The first impression one obtains in

getting off at the depot is that you have encountered a city of 75,000 or 100,000 inhabitants. You are met by forty or fifty cabbies seeking your patronage for a ride up town. Do as we did. Ask for a cab to take you to the Ocean View Hotel, and thus secure relief from the torment of repeat ed solicitation. You next observe that

there are no street cars and that all the streets first encountered are paved with asphalt. This is in the new section of the city. Next you are astonished at the magnificence of the hotels, perfect palaces by the dozen. Next the driver will point out St. George

street, one of the old streets of the city. It is the principal street and is about 18 feet wide, lined on both sides with old Spanish houses with overhanging balconies, and where houses are opposite each other, there remains only four or five feet of space between. Treasury street is the most narrow street in the city. This is seven feet wide. Business houses and residences are situated upon it. There

are other streets by the dozen varying in width from that of Treasury street seven feet, to that of st- George street eighteen feet. As stated, we will not go into a description of the city unti we have had opportunity to study it more thoroughly, visit its many magnificent hotels now closed, but which our card as a newspaper correspond ent opens upon demand. St. Augus-

tine has a summer population of 5,000 and a winter population of from 75,000

While in Tennessee and Georgia our party found the temperature exceedingly high, apparently. In fact, it did he keeps .- Ram's Horn.

WEDDING DRESSES TO HIRE. miles is sometning magnificent. We
