The North Branch base ball team the quarterly meeting services one arrived here on Monday noon's train to play the return game with our team. As the visitors wished to return on the afternoon train the game was called as qnickly as possible with the visitors at the bat. They started in well and succeeded in making seven runs the first innings giving them an advantage which our boys were not able to regain. Seven innings were played in all and the score stood 21 to 11 in favor of North Branch. ' The game to a certain extent was a disappointment to everyone, as the playing did not equal the game of last Friday. To add to the disappointment the visiting team was unfortunate enough to possess a couple of chronic kickers, but the rest of the boys were gentlemen and no serious unpleasantness arose. H. L. Pinney and G. W. Briggs umpired the game. Pinney received a blow in the chest from the ball but escaped injury. There was a good turn out to witness the game, quite a number from North Branch and other towns being present. While the visitors were the victors, we think our own team showed as good playing, but the errors were numerous on both sides. Practice up, boys, and you can yet put up a good game before the season closes. We give the score by innings below:

The only thing that can keep within talking distance of the mercury is the ice bill.

Wind can occasionally break off a tree, but it has never been able to pull ap a stump.

The man without some kind of a specialty will never amount to much in a crowded community.

After a man has a family he either becomes a martyr or a burden, according to his ability to work.

The reputation of being good natured will bring requests that would spoil the temper of a saint.

Nothing really cures a man of bluffing quite so thoroughly as to have people accept his talk as earnest.

You haven't heard a word about rain makers this season, have you? Nature has monopolized the business pretty well so far.

The Canadians have decided to taboo American silver, but Mr. Astor reports that in upper English society circles American gold is just as popular as ever.

Can bicycle riding be regulated by ordinance? In New York the average number of arrests for scorching is forty daily, and it has not decreased all summer. Does this indicate that the ordinance, even when it is strictly carried out, is accomplishing any reform?

John Lawrence Sullivan is starting out on a new venture; in other words, he will star the country in a play absolutely free from any pugilism. He says that Corbett only draws because he boxes on the stage, while he, the only John L. will give the people their money's worth of acting, pure and simple, and beat Pompadour Jim on legitimate grounds. Of such is the drama to-day.

There is in Hoboken a Roumanian named George Neageri, who must be a "corker," as the boys say. He did something wrong and Detective Fenton started in to arrest him, but with little success. It was not until, one by one, no less than seven patrolmen had come to the detective's aid that the man was captured, and then only after a desperate fight against all eight of them.

There is a terrible scandal at Long Branch. A boy wearing bloomers and a short skirt over them managed to smuggle himself into the girls' handicap bicycle race at that fashionable resort and naturally came in first. Then he was discovered and a terrible uproa

of the faults of Christians they can volunteer? Yes, yes; I see One rising. make a bridge of boats across the He is a young man, only thirty-three stream of death, and they are going years of age. I see his countenance to try it; but, alas for the mistake! suffused with tears and covered with When they get mid-stream away will blood, and all the galleries of heaven go the bridge and down will go their are thrilled with the spectacle. Thanks souls to perdition. O World of the be unto God, "we have an advocate

greedy eye and the hard heart, come | with the Father, Jesus Christ the righton the stand now and testify in be- eous." half of the prosecution against this Oh, Christian soul, your case begins Christian soul on trial. What do you to look better. I think, perhaps, after know about this Christian man? "Oh," all, you may not have to die. The says the World, "I know a great deal | best Advocate in the universe has taabout him. He talks about putting his ken your side. No one was ever so treasures in heaven, but he is the qualified to defend you. He knows sharpest man in a trade I ever knew. all the law, all its demands, all its He seems to want us to believe that penalties. He is always ready. No he is a child of God, but he is just new turn of the case can surprise him, full of imperfections. I do not know and he will plead for you for nothing but I am a great deal better than he as earnestly as though you brought a is now. Oftentimes he is very earthly, world of treasure to his feet. Besides and he talks so little about Christ and that, he has undertaken the case of so much about himself. I am very thousands who were as forlorn as you, glad to testify that this is a bad man." | and he has never lost a case. Courage, Stop, O World with the greedy eye O Christian soul! I think that, after and hard heart. I fear you are too all, there may be some chance for you, much interested in this trial to give for the great Advocate has risen to impartial evidence. Let all those who make his plea. He says: "I admit all that has been proved against my client. I admit all these sins, ay, more; rel between these two parties. There but look at that wounded hand of mine and look at that other wounded hand. and at my right foot and at my left foot. By all these wounds I plead for has told a great deal of truth about this bis clearance. Count all the drops of Christian man, you must take it all my tears. Count all the drops of my blood. By the humiliation of Bethlethat they still keep the old grudge. O hem, by the sweat of Gethsemane, by World of the greedy eye and the hard the sufferings of the cross, I demand that he go free. On this arm he hath leaned; to this heart he hath flown; in my tears he hath washed; on my righteousness he hath depended. Let him go free. I am the ransom. Let him escape the lash; I took the scourg-

> ings. Let the cup pass from him; I drank it to the dregs. Put on him the crown of life, for I have worn the crown of thorns. Over against my throne of shame set his throne of triumph!" Well, the counsel on both sides have

spoken, and there is only one more thing now remaining, and that is the awarding of the judgment. If you have ever been in a court-room you know the silence and solemnity when the verdict is about to be rendered or the judgment about to be given. About this soul on trial-shall it be saved or shall it be lost? Attention! above around beneath. All the universe cries. "Hear! hear!"

The Judge rises and gives this decision, never to be changed, never to be revoked: "There is, therefore, now no condemnation to them who are in Christ Jesus."

The soul that on Jesus hath leaned for repose, I will not, I will not, desert to his foes; That soul, though all hell should en-

deavor to shake, I'll never, no never, no never forsake.

But, my friends, there is coming a in part was as follows: "Those who stand upon the Chicago day of trial in which not only the saint trial? "Oh," says the angel, "I have but the sinner must appear. peech, and in that you will not be t was a mistake to demonetize silver. disappointed. I have pleasure in precenting to you as chairman of the notipresent conditions rather than return fication committee the distinguished to the bimetallic system. They err in governor of Missouri, the Hon, William supposing that we have reached the J. Stone." Gov. Stone stepped to the end of the evil results of a gold stanfront of the platform, and when the dard; we have not reached the end. cutburst of applause had subsided The injury is a continuing one, and no made the speech of notification. person can say how long the world is

At theconclusion of Gov. Stone's reto suffer from the attempt to make gold marks he handed to Mr. Bryan an the only standard money. The same engrossed copy of the resolution of influences which are now operating to notification adopted by the committee. destroy silver in the United States will When Mr. Bryan took the parchment if successful here, be turned against there was a wild outburst of applause, other silver-using countries, and each and while it was still filling the hall, Cheirman Danforth said: "Fellow-citi range, the next speaker needs no introduction at my hands, for his name is a household word throughout the land. I have the pleasure in presenting to times. you the democratic nominee for president of the United States, the Hon.

William J. Bryan." fects. Since they sell at wholesale and The applause continued for some buy at retail they have lost more than minutes and was renewed again and they have gained by falling prices, and, again, Mr. Bryan standing and waitbesides this, they have found that cering for an opportunity to begin his tain fixed charges have not fallen at speech. all. Taxes have not been perceptibly

taxes.

Foremost among the prominent men on the platform, seated at the left, was Arthur Sewall, the Bath shipbuilder and candidate for the vicepresidency, a vigorous-looking man whose frame told of the New England air. There was Gov. Stone of Missouri a thin-faced man, ministerial in his bearing, and the presiding officer, Elliot Danforth, ex-treasurer of the state of New York. Among the prominent democrats arrayed back of the plat-

form were: Senators Blanchard of Louisiana, Gorman of Maryland, Roach of North Dakota, Tillman of South Carolina; Congressmen Richardson and McMillin of Tennessee, Livingston of Georgia, Rusk of Maryland; Gov. Hogg of Texas, and many others who had borne parts in the convention which

nominated Mr. Bryan. Finally Mr. Bryan managed to stil the applause, and began his speech amidst comparative silence. His speech

it standard countries will need a conpledges the republican party to aid in siderable quantity for subsidiary coinage.

"We will be required to coin only that which is not needed elsewhere; but if minority sentiment in the Chicago con- | we stand ready to take and utilize all vention opposed the free coinage of of it, other nations will be compelled to silver by the United States by independ- buy at the price which we fix. I am ent action on the ground that, in their firmly convinced that by opening our judgment, it would retard or entirely mints to free and unlimited coinage at the present ratio we can create a demand for silver which will keep the price of silver bullion at \$1.29 an ounce, measured by gold.

"Our opponents cannot ignore the fact that gold is now going abroad in spite of all legislation intended to prevent it, and no silver is being coined to take its place. Not only is gold going abroad now, but it must continue to go abroad as long as the present financial policy is adhered to, unless we continue to borrow from across the ocean,

and even then we simply postpone the "Our opponents sometimes admit that | evil, because the amount borrowed, together with interest upon it, must but insist that we should submit to be repaid in appreciating dollars. There is only one way to stop the increasing flow of gold from our shores, and that is to stop falling prices. The restoration of bimetallism will not only stop falling prices, but will-to some extent -restore prices by reducing the world's demand for gold.

"Those who deny the ability of the United States to maintain the parity between gold and silver at the present legal ratio without foreign aid point to Mexico and assert that the opening of our mints will reduce us to a silver. new convert of the gold standard will basis and raise gold to a premium. It add to the general distress. So long is no reflection upon our sister republic as the scramble for gold continues to remind our people that the United prices must fall, and a general fall in States is much greater than Mexico in prices is but another definition of hard area, in population and in commercial strength. It is absurd to assert that "The farmers are opposed to the gold the United States is not able to do anystandard because they have felt its efthing which Mexico has failed to accomplish. The one thing necessaray in order to maintain the parity is to furnish a demand great enough to utilize all the silver which will come to

the mints. That Mexico has failed to do this is no proof that the United decreased, although it requires more States would also fail. of farm products now than formerly to

"It is also argued that, since a numsecure the money with which to pay ber of the nations have demonetized silver, nothting can be done until all "Debts have not fallen. The farmer of those nations restore bimetallism. who owed \$1,000 is still compelled to This is also illogical. It is immaterial pay \$1,000, although it may be twice. how many or how few nations have as difficult as formerly to obtain the open mints, provided there are suffidollar with which to pay the debt. cient open mints to furnish a monetary Railroad rates have not been reduced demand for all the golds and silver to keep pace with falling prices, and available for coinage.

besides these items there are many "We are told that the restoration of more. The farmer has thus found bimetallism would be a hardship upon those who have entered into contracts "The wage-earners have been inpayable in gold coin, but this is a misjured by a gold standard, and have extake. It will be easier to obtain the pressed themselves upon the subject gold with which to meet a gold contract with great emphasis. their capacity for self-government."

took place. The girls were all too tired were awarded in order to those who came in behind this unprincipled swindler.

Queen Victoria's years and crown timations that she will soon practically retire from the cares of state have brighter and sweeter-voiced than ever the appearance of probability. The girl princess of 17 who ascended the a reign longer than any English sov- I love thee." Have you kept the bar-George III. and a few weeks more will overcome that also, leaving the reign of Victoria the longest on record.

A dispatch from Menominee. Mich. runs in this manner: "A meteorological phenomenon appeared to early risers this morning about 4:30 o'clock. The sky and clouds assumed a reddish cast and continued so for about half an hour, then the tint changed to a bright yellow." If this is a phenomenal sunrise in Menominee it would be interesting to know just what constitutes an ordinary before-breakfast sunrise in that locality. It may be possible that the celestial machinery of Menominee is run by a poster artist and that the dawn starts out pea green, gradually changing into brindle brown, but in this locality red and yellow are still the prevailing colors for sunrises.

The architect of the new Boston public library has had a statue made which he intended presenting to the library. but the people of Boston object strenuously to the gift. The statue is thus described in a Chicago paper: "The figure is about life size and represents a girl laughing, as she trips along, at a baby who sits in the fold of her left arm and reaches down toward a bunch of grapes which she is dangling above the child." After this it is hard to see how the people of Boston could accept this gift, even if the girl and baby were dressed in toboggan suits. Any girl, be she bronze or fleshling, who will laugh at a baby who is reaching down toward a bunch of grapes which is being dangled above it has no business to be paraded before the public.

Doubtless the profession of detecting crime has its peculiar fascinations, but they do not appeal to every one, by a long shot. For instance, few women would care to be today in the place of Miss Lillian Allen, or "Marion Archer" as she is called professionally, the clever woman detective of Cleveland. O., who got a confession from Romulus Cotell, the Stone murderer, by visiting him repeatedly in his cell and making love to him. She also read the Bible to him, using religion and love as her two means of success Stone will be hanged November 6.

after the shell has been taken from the beach, so you lifted the cup of comand oftentimes, when he knew it not, munion and you heard in it the surgto ride it over again and so the prizes ing of the great ocean of a Savior's I led him into green pastures and beside the still waters. complaint against the gold standard.

"It is only necessaary to note the increasing number of failures in order to know that a gold standard is ruinous to merchants and manufacturers. If the people cannot buy, retailers cannot sell, and, if the retailers cannot cell, wholesale merchants and manufacturers must go into bankruptcy. "Mr. Blaine, speaking in the house

of representatives on Feb. 7, 1878, said: 'I believe the struggle now going on in this country and other counutries for a single gold standard would, if successful, produce widespread disaster in and throughout the commercial world. The destruction of silver as money and the establishing of gold as the sole unit of value must have a ruinous effect on all forms of property, except those invested which yield a fixed return in money. These would be enormously enhanced in value, and would gain a disproportionate and un-

fair advantage over every other species of property.' "We are told that any attempt upon the part of the government to redeem its obligations in silver would put a premium upon gold, but why should it? The Bank of France exercises the right to redeem all bank paper in either gold or silver, and yet France mainver at the ratio of 151/2 to 1, and recapita than we do in the United States. will serve.

This "one thing we know," that the legalized saloon is the curse of our common humanity. That's enough to engross the political mind of the patriot until it is settled. The only way to settle it right and permanently is for the God-fearing and humanityloving voters to stand against it on election day.

present your body a sacrifice to the

devil; if you vote prohibition, you vote

for the Lord and against license.

The cry against Prohibitionists of its neighbor continues the license sysbeing gold bugs and goldites is as fal- tem. In the former the population has lacious as to call them silverites or increased 91 per cent, while the exsilver bugs. They simply declare for pense for the support of the poor has Prohibition and the overthrow of the increased 46 per cent. In the latter, saloon-the things which called the although the population is one-third party into existence. It has simply less, the arrests and poor expenses are gotten back to first principles, where, much more than double the figures for if it had remained, it would to-day Quincy. number a million adherents.

An exchange speaks of the "Prohibition gold party." There is no such ful illustration of "how blessed it is party. The national Prohibition party for brethren to dwell together in has no declaration on the money question and in no way can it be made out annual election, when the brewer and that it favors the gold standard or free | the Sunday school man, the bar-tender silver. Its individual members are al- | and the deacon, the bum and the whitelowed to hold whatever opinions they please on other issues but all are united in their determination that the liquor ticket.-Q. L. Morrow. traffic shall die.

We follow Prohibition into whatever camp it goes, and it is certainly fullfledged in each of these two camps. It looks as if every party would split this year, and perhaps ours might as well set the fashion-it helps to clear the air. Parties are of no more advantage than so many tin cans. The Divine Spirit is ever pouring itself into new voter hides. receptacles, and when an old one is broken and lies by the wayside it is not for us to stay our march bemoaning its battered condition. Good will toward each of the two wings of the Prohibition bird, and may it soar aloft. -Miss Willard.

"If a man who is a drunkard could be killed by his first drink, what an amount of sorrow and shame and degradation would be prevented!

A liquor organ announces that among trade marks and labels of whiskey brands to be recorded shortly States Brewers' Association has had is "McKinley Rye." Make it "Mc-Kinley Wry" and the Rev. Dr. who says liquor selling cannot be licensed without sin will see his way to remain | keepers, who are their distributing inside the party ranks.

every one knows that the people who ride in washington Park are not of the class that frequent saloons. The dent alive that would not sit up nights cycling patrons of the Fifty-first stree from now until the November election groggeries are few in number, and to study out some scheme to beat the their wishes are in no way entitled to policy holders out of ten cents on the consideration. dollar.

and have won my suit in each case. I effect of keeping our money at home,

"The foreign investor nearly doubles his capital when bringing it here, and, at the same time, has the advantage of our cheap native labor and sells his products for gold on their exportation. The native manufacturer has prospered under silver at the expense of the foreign merchant and importer. Silver contracts imports and stimulates exports."

All reports agree that Mexico prospers under silver, and we know that with both gold and silver as primary money we should prosper again.

Don't Worry.

Some of the papers are suggesting that the silver party will not get a chance to vote for Bryan and Sewall because it is not a party recognized by the law. It is to be hoped that no goldite will become inspired with confidence on so slender a foundation, and that no silver man will permit himself to worry over anything so ridiculous.

A silver democrat can certainly vote the straight democratic electoral ticket. So can a silver republican. Wherever it is deemed necessary and the law will permit, the silver party will make its own nominations, but in naming electors it will, of course, select the same men whose names appear on the democratic ticket, for they are too shrewd to divide the silver vote. Where the law will not allow the same name to appear twice on the same ballot they will vote the straight democratic electoral ticket. Men who believe the silver issue para-

mount to all others, and who have broken away from their party on that issue, are not going to allow themselves

to be disfranchised by a mere party name. The silver men will all vote and do

it in such a way that their votes will be counted. Don't worry.

Wears the Wall Street Collar. Maj. McKinley tried very hard not to commit himself on the monetary issue in his speech accepting the Republican nomination and came near succeeding. One statement, however, which he let slip removes all doubt as to his position. He said: "The platform adopted by the Republican national convention has received my careful consideration and has my unqualified approval." That means that the Ohio man is unqualifiedly in favor same stamp, have exhibited in issuing of the gold standard. Let us hear no

paid in silver.

Choose ye, on election day, whom ye ride the wheel. Aside from the fact more defenceless the beneficiary the irrigation schemes; the cultivation of contracting the currency by ruining employes, driving out gold and overthrowing our sound financial system .-Whidden Graham.

What 16 to 1 Means.

How can the people be made prosper-

ous? By setting class against class;

discouraging the investment of capital

It means that 16 ounces of silver for debt paying purposes shall be made, by law. worth as much as 1 ounce of gold. One ounce of gold will now coin \$18.60. Sixteen ounces of silver shall be made to coin \$18.60.

You can buy in any market today 16 ounces of silver for \$9.94. The profit is 87 per cent, or \$8.66.

In other words, if a man borrows of you today \$18.60 he can pay you, if "free silver at 16 to 1" becomes a law. with \$9.94.

Look out that it doesn't! Silver is merely a commodity, like tin, iron or wood.

If the government should say \$9.94 worth of wood shall cost \$18.60, would you buy it? Certainly not.

The silver dollar today is worth 53 cents. Its present ratio to gold is about 31 to 1. All the governments in the world cannot change the commercial value of silver any more than that of coal, iron tin or copper!

The more silver produced the cheapen it will get!

Would England, France or Germany take in payment of debt from us for \$18.60, \$9.94, simply because our government said that \$9.94 worth of silver is worth \$18.60 of gold?

Certainly not! No more than you would accept such a settlement of a personal debt.

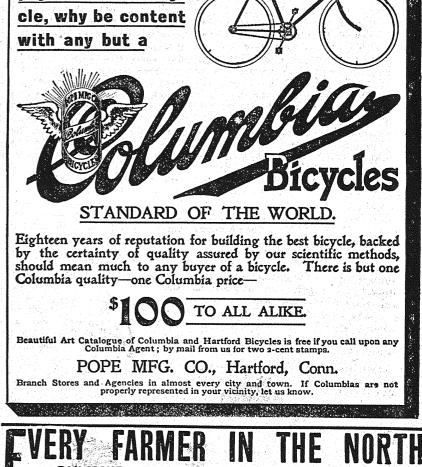

A standard of exchange must be coextensive with the commercial world and acceptable to all concerned.

Have They Cornered Copper Cents? A majority of the letters from the workingmen in your columns claim that gold has appreciated in value since 1873, and that this appreciation has been caused by the wicked bankers who have cornered all the gold. Has any one suggested that these wicked bank ers have cornered all the cents? In 1873 it required 129 cents to purchase only one ounce of silver. Today it requires only 68 cents to purchase this same one ounce of silver. In 1879 it required 125 cents to purchase one bushel of wheat. To-day 63 cents will purchase one bushel of wheat. And yet 100 cents will purchase the same amount of gold to-day as it could in 1873. Clearly, then, it is this bad little copper cent that has caused all our hard times and not the gold. Let us compel all of our creditors to accept five mills instead of ten for 1 cent.-Common Sense, in New York World.

No competent workingman is overpaid in gold, but he might be under-

a the state Contraction Contra PLU The best reason in the world why some things sell so well is because they are good. That is one reason for the great sales of "BATTLE AX." But good quality is only half the story. The other half is the size of a 5 cent piece. It is as big almost as a 10 cent piece of other and poorer kinds. Facts are facts. You can buy and see for yourself. Five cents isn't much to invest. If you are able to pay \$100 for a bicy-

PENINSULA MATTERS

RELATED IN A BRIEF, CONCISE MANNER.

Owosso Has Another Sensational and Bloody Affair-No State Offices for Women in Michigan-Two Steam

Barges Sunk in Lake St. Clair.

Wysterious Double Tragedy at Owosso. Shortly after 6 a. m., Mrs. Geo. Russell was discovered on the sidewalk in front of the Russell home at Owosso clad in her night dress, with a butcher knife imbedded in her cheek to a depth of five inches. A trail of blood led from the spot into the house and upstairs to the sleeping apartments. There her husband was found, lying on the floor, in a pool of blood flowing freely from a deep gash in his throat. The Russells claim the deed was the work of burglars. Near neighbors, however, say they heard loud talking in the Russell house during the night. Mrs. Russell had closed a deal whereby she was to make the transfer of some valuable real estate and it was known that the couple frequently quarreled over business transactions. The cutting was done with knives belonging to the injured people. The bedroom looked like a slaughter pen, the walls being spattered and the carpets and bedding saturated with blood, and the general condition of the room would indicate that a fierce struggle had taken place. Both will die of their injuries. The Russells are well-to-do and have two grown children.

Women Not Eligible to State Office. Atty.-Gen. Maynard has given an opinion that Mrs. Lucy Morehouse, of Big Rapids, is not eligible for the office of state superintendent of public instruction. She was nominated by the Michigan Nationalists. He says the office was created by the constitution and stands on the same footing as governor, auditor general or any other state office. The constitution confines electors to males. It would be absurd to say that a woman who cannot vote can be a candidate for a constitutional office. A woman can be county school commissioner or member of the board of education, because such offices are created by statute not by the constitution.

Train Robbery at Bellevue. A special stock train on the C. & G. T. was boarded by four men at Bellevue, all masked and heavily armed, who, at the point of their guns, compelled the two men in charge of the stock to empty their pockets of all their money and a number of other articles of small value. Word was sent to Charlotte, but when the train slowed up there the robbers jumped off and the dark night aided them in escaping to the woods. They were located in a section house at Potterville and a posse was organized and all were captured. Their ages are 18 to 22.

Ray Coates Guilty of Murder. The trial of Ray Coates, who mur-

Paul Schreras, of Saginaw, aged 21. THE FOUR QUARTERS fell on a rip saw at the Saginaw box factory and was fatally injured. Peter Roberts' little boy was scalded to death at Lake Linden by pulling a pot of boiling lye over upon himself. W. J. Graves, of Graves & Co., lumber dealers at Grand Rapids, is missing and \$4,000 of the firm's cash has vanished. Harry Waters, a hardware merchant at Paw Paw, was probably fatally injured by dashing into a team of horses while trying to make fast time on his bicycle.

The E. F. Gould mill, near Saginaw, burned. It belongs to the Gould estate, E. C. Chapman, of Atlanta, having charge. Loss \$15,000, with partial in- A gang of the non-union men who surance.

By a C. & G. T. freight train breaking in two and crashing together again near Lansing seven cars were badly smashed and an unknown tramp, aged about 28. was crushed to death.

Wallace Richardson, aged 35, a stranger, was found dead by the river, at Manistee, having committed suicide by taking carbolic acid. Cards and card makers were found on his person. The body of Thomas Brotherton, a farm hand who had worked for Isaac Mead. of Emmett township many years, was found floating in the Battle Creek river, at Battle Creek. He was drunk when last seen alive.

Jennie Tripp, aged 12, of Muskegon, is somewhat of a madcap. She has run away from home several times. Her last escapade was ended by an attempt to drown herself in Muskegon lake, but Harry Lobdell pulled her out.

Richard Vines, of the life saving of Chicago, but camping at St. Joseph, and Phillip Loeffler were all overcome by heat at St. Joseph. Loeffler died; Gluckselig has lost his mind and Vines is critically ill.

While sinking a large rock on his farm near Commerce John Malcolm was crushed to death by the rock falling on him. He had excavated to the depth of three feet on one side of the rock and was about ready to leave the hole when the earth gave way, causing the great stone to roll on him. Theron Graham and his son, of

Forest, are in jail at Flint on a charge of stealing a span of horses from Nelson Graham, the aged father of the first named. Theron, it is alleged, borrowed his father's horses to plow and sold the animals in Tuscola county. and then told his father the horses had glanders, and that the state veterinarian had ordered them killed.

Three fatal accidents occurred in Grand Rapids, in one day. Frank E. Boyland, ex-deputy sheriff, and a prominent farmer and dairyman, was thrown from his buggy during a runaway and his skull was fractured so that he died. Miss Minnie Hoagland, aged 25 years, stepped off of a street ear and was run into by a team. She died of concussion of the brain. Edward Caswell, of the firm of Caswell Bros., was found dead in his store on South Division street. There was every evidence of morphine poisoning, but whether it was taken with suicidal and filibustering expeditions have go

an immense crowd of people.

It is Extending to Pittsburg. More Bloodshed in the Cleveland Strike. The trouble over the strike at the Brown Hoisting Co.'s works at Cleveland has resulted in more bloodshed. have taken the place of the strikers were attacked by a mob at the corner Wade Park and Madison avenues over a mile from the factory. A hot fight ensued in which revolvers, clubs and rocks were used, and four men were badly injured, two of whom will die. Thos. Evans, aged 26, a union man was shot in the left side, the ball passing through the spleen and hitting the spinal column so that both legs are paralyzed. He will probably die. Geo. Plumb, non-unionist, was shot through the bowels, and may not recover. J. W. Caldwell was shot

through the fleshy part of the leg, and was struck on the head with a club. A dozen others were somewhat injured but not seriously. Several thousand laboring men of

Cleveland are drilling nightly on obscure streets, or in halls of labor unions. The object is in accordance with a long cherished plan to form the labor unions into drilled companies, which has been crew at St. Joseph, Chas. Gluckselig, under consideration among the labor unions for the past two years, but

which has not been put into execution until the recent numerous encounters between police and strikers. The Strike Extending.

The Brown Co. strike has been exended to Pittsburg. The strikers learned a few days ago that the Schaife Foundry and Machine Co., of Pittsburg, was doing work for the Brown Co., and they sent a representative there. He sent back word that he would succeed in getting the pattern makers, machinists and iron moulders of the Schaife Co. to strike.

SPAIN MAKES DEMANDS.

Claims Big Damages From Uncle Sam for

Filibusters Going to Cuba. The Spanish government is preparing a big bill of damages to be preblocks on the water front and were sented to the United States on account fiercely fought by the firemen. The of the numerous expeditions alleged to have gone from cur shores to the relief of the Cuban insurgents. In support of its claims to reparation it intends to invoke the precedent estabished by the United States against Great Britain in the celebrated Alabama claims awards made by the Geneva arbitration tribunal. Calderon Carlisle, attorney for the Spanish legation at Washington, has prepared a report of the demands of Spain and the same has been received by the U.S. government. Mr. Carlisle says the United States has been made the base

six bridges were washed out along Pine DeHaven another occurred at Claridge, a little mining town in the Manor valley above Greensburg on the Pennsylvania railroad, about fifty miles west of Johnstown. A dozen houses were swept away and a number of people are missing. The dam at the pleasure lake of the Greensburg & Jeannette Electric railway above Jeannette burst. The pent-up waters rushed down the already flooded valley and carried away from forty to sixty houses and buildings. At Irwin station the Pennsyl-

known to have lost their lives and sev- stroying thousands of dollars worth of en others were seriously hurt. At least property. Not much damage resulted in the immediate city, but it was heavy creek, between Sharpsburg and DeHa- in the surrounding places. DeHaven, ven. Shortly after the cloudburst at a small oil town on the Pittsburg & Western railroad, had to bear the brunt of the storm's fury, and it was there that the most of the lives were lost. This little town of 600 inhabitants is situated in a valley just at the junction of two creeks and every heavy storm fills these creeks and floods portions of the place, and this time a wall of water 18 feet high swept down upon it. When the storm burst the house of James Robinson was made the place of refuge by 10 persons. Of this number three women were drowned. Three other persons were drowned at vania railway depot and other strucother points. At least a dozen towns suffered much loss.

Many Deaths from Heat.

The fifth day of the continued tor-ridity in New York City and suburbs was more terrible than the whole of the preceding days. No less than 100 deaths occurred in the New York City, 20 in Brooklyn, 12 in Jersey City, and 44 in other suburbs of the metropolis. The suffering among the poor in the tenement districts was something awful Chicago has also witnessed a harvest of death unprecedented, no fewer than 31 deaths occurred on the fifth day. There were about 800 dead horses on the streets, the city being unable to secure sufficient assistance to cart as many away as daily succumb to the heat. St. Louis added five deaths to her list; Philadelphia seven; Boston two; Indianapolis two.

The situation at Cincinnati improved somewhat and while there were several prostrations there were no deaths. At. Akron, O., William Randall was driven insane by heat. At Parkernburg, W. Va., A. H. Thorp suffered a fatal sunstroke. At Sullivan, Ind., there were seven deaths from heat.

The continued death-dealing hot weather in New York was somewhat tempered on the sixth day by a fresh ocean breeze, but there were over 100 deaths in the city and suburbs notwithstanding.

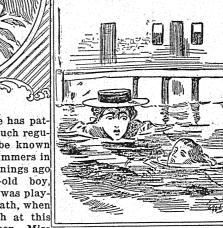

Greater relief came the following day, however, and the death list took a drop to 72.

#### Terrific, Fatal Boller Explosion.

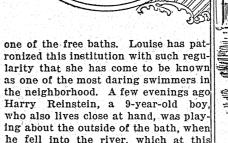

A 150-horse-power boiler at the Louisville brick and tile works near Maximo, O., exploded with terrific force, completely wrecking the building. Isaiah Johnson, engineer, had his neck broken, his body being penetrated by an iron bolt. Samuel Snyder was badly injured about the head, and his breast was crushed. Neither can recover and both leave families. James Graisy, John Rufaneith, Sheridan Sell and Chas. Sefong sustained painful injuries, but will recover. The boiler was blown through two kilns, a distance of 75 feet. Loss \$10,000, with no insurance.

National Democratic Party. Representatives of 33 states met in

alarm raised. Without even taking off her hat she ran down to the spot and sprang in after the struggling boy. It was a leap of five or six feet and when she began swimming toward Harry he was still eight or ten feet distant from her. Weighted down by her clothing and shoes, the brave girl was heavily handicapped and by the time she reached the boy he was a foot beneath the surface. She caught him by the hair and lifted his head above the water. She put her left arm around him and with the disengaged hand began to swim for the other side of the pier, where there is a good landing place. The terrified lad made frantic clutches at her, but she warded them off. She had from fifteen to twenty feet to swim before she reached the landing place, but she was so cool and self-possessed that she did not let go of her parcel of finery until she had almost reached her goal. By this time all the neighborhood was in a state of great excitement. The women in the bath came out and crowded forward to watch the rescue. Patrolman Edward J. Kelly acme running from EastFifty-second street and the river, and Bath Attendant Jerry Ryan rushed forward from the other direction. They met at the point which Louise was striving to reach. Ryan "knew she was good for the job," as he afterward expressed it, and contented himself with cheering frantically. The girl slowly swam forward until the twomen were able to seize and assist her to a firm footing. In a few moments she was at home changing her clothes. Miss Frederick is as modest as she is brave, and last night she made light of her heroism.

A 17-YEAR-OLD HEROINE.

REVIEW OF TRADE.

An extraordinary spell of deadly hot weather has affected trade throughout the country and An extraordinary spell of deadly hot weather as affected trade throughout the country and other conditions are not stimulating. Labor difficulties extend and the closing of the estab-lishments for want of work and the refusal of commercial loans by banks checked operations in many branches of industry and trade. The government crop report for August was so gloomy that a great rise in prices would have followed if had been entirely credited. In fact wheat rose a little but again declined. Corn declined throughout the week. It is wise to remember that the government accounts were based on returns prior to the first spell of heat and hence may be more nearly correct than they were when prepared. But official and unofficial estimates of great decrease in wheat yield are confronted with a movement from the farms of 3,60.741 bu the past week, against 2.29..242 hast year, and it scarcely seems reasonable to believe that 20,700,000 bu would have been marketed since July 1 this year, against 11, 205.212 bu last year. if the yield had been smaller, with the price 9c lower than a year ago. No one now questions the probabil-ity of a very large yield of corn.

In the vicinity of Mio Benj. Geisler's home and several barns were destroyed. Thirty-three sheep owned by C. A. Brown were killed by lightning under an oak tree, near Schoolcraft.

He put the ourselves to want when in a strait, gas out, and sat on a chair in the hall, and have agreed to call advice; and he waiting and counting the minutes, went, besides, with vague but rather longing for any human countenance. eplendid expectations of relief. Alan was rich, or would be so when he came of age. By a stroke of the pen he might remedy this misfortune, and avert that dreaded interview with Mr. Nicholson, from which John now shrunk in imagination as the hand draws back from fire. Close under the Calton Hill there AN runs a certain narrow avenue, part street, part by-road. The head of it faces the doors of the prison; its tail descends into the sunless slums of the Low Calton. On one hand it is overhung by the crags of the hill, on the other by an old graveyard. Between inquisitive expression that came so these two the roadway runs in a trench, near to smiling and was so different in sparsely lighted at night, sparely freeffect.

"This is a time when I do not like to LOVE'S SECRECY be disturbed," he said. "I know that," returned John: "but have-I want-I've made a dreadful mess of it," he broke out; and turned to the window.

Mr. Nicholson sat silent for an appreciable time, while his unhappy son surveyed the poles in the back green, and a certain yellow cat that was perched upon the wall. Despair sat upon John as he gazed; and he raged to think of the dreadful series of his misquented by day, and bordered, when deeds, and the essential innocence that lay behind them. dingy and ambiguous houses. One of

"Well," said his father, with an obvi- ment between us, and she always took ous effort, but in very quiet tones,

"what is it?" "Maclean gave me four hundred pounds to put in the bank, sir," began John; "and I'm sorry to say that I've been robbed of it!" "Robbed of it?" cried Mr. Nicholson,

with a strong rising inflection. lighted by noisy gas jets, beside a dirty "Robbed? Be careful what you say, tablecloth, engaged on a coarse meal John!" and in the company of several tipsy "I can't say anything else, sir; I was just robbed of it," said John, in deswas not sober; he had lost a thousand peration, suddenly.

pounds upon a horse race, had received "And where and when did this exthe news at dinner time, and was now, in default of any possible means of traordinary event take place?" inquired the father. extrication, drowning the memory of "On the Calton Hill about twelve last his predicament. He to help John! The

night." thing was impossible; he couldn't help "The Calton Hill?" repeated Mr. Nicholson. "And what were you do-"If you have a beast of a father,' ing there at such a time of the night?" said he, "I can tell you I have a brute "Nothing, sir," says John.

Mr. Nicholson drew his breath. "I'm not going to hear my father "And how came the money in your called a beast," said John, with a beating heart, feeling that he risked the sharply. last sound rivet of the chain that bound "I neglected that piece of business."

said John, anticipating comment; and casion with a wonderful embellishthen in his own dialect: "I clean forgot all about it." "Well," said his father, "it's a most least, I had enjoyed the society of Webextraordinary story. Have you com-

municated with the police?" "I have," answered poor John, the blood leaping to his face. "They think foul walls and maculate table linen. they know the men that did it. I dare and even down to Colette's villainous say the money will be recovered, if casters, seemed like objects in a night-

that was all," said he, with a dospermare. And just then there came a ate indifference, which his father set knock and a scurrying; the police, so down to levity; but which sprung from lamentably absent from the Calton Hill, appeared upon the scene; and the party, the consciousness of worse behind. "Your mother's watch, too?" asked Mr. Nicholson.

"Oh, the watch is all right!" ried John. "At least, I mean I was coming duly summoned to appear as witnesses to the watch-the fact is, I am ashamed to say, I-I had pawned the watch before. Here is the ticket; they dldn't find that; the watch can be redeemed; they don't sell pledges." The lad panted out these phrases, one after another, like minute guns; but at the last word. which rang in that stately chamber

like an oath, his heart failed him utterly, and the dreaded silence settled on father and son. It was broken by Mr. Nicholson picking up the pawnticket: "John Froggs,

85 Pleasance," he read; and then turning upon John, with a brief flash of passion and disgust, "Who is John Froggs?" he cried.

"Nobody," said John. "It was just name." "An alias," his father commented:

"Oh! I think scarcely quite that," said the culprit; "it's a form, they all do it, the man seemed to understand, we had a great deal of fun over the

pleasing.

Whenever he called afterward Fred

and lands, and there was an un-common attach me with her when she spent the season at Washington or among the mount-

ains, or at the seaside, when I could not have gone but for her affectionate kindness.

This summer Esther had declared herself tired and sick of crowds and balls and flattery, and proposed to go to Mrs. Thornby's in the country. Fred waist, and he asked me if I would grant had studied his profession in New York him a private interview in the morn and was going into partnership with an eminent lawyer there. We had seen him a great deal. His mother lived in a small house and possessed much

anded estate, and where she had often urged us to visit her. And this is the way it happened

that we were at Thornby cottage yawnmore than right, since you proposed ing the day away, with an occasional walk or ride or excursion. The glorlous Fourth had been celebated in the village of Belleville by a picnic in the grove, sweetmeats, India crackers, white muslin, and a famous swing, hands at twelve last night?" he asked that closed respectably with a grand ball in the evening at the town hall, which had been adorned for the ocment of banners and flowers. We really enjoyed it, for that evening, at ster Hamilton

> He was polished, educated and refined, and though he was somewhat wanting in the fulsome flattery of our city courtiers he possessed a dignity of mien and expression of candid truth that made his attentions more pleasing than all the hackneyed compliments of a Saratoga ballroom. I can acknowledge now that I was fairly caught and captivated by his grace and manliness that night, but I did not forget the social bar between us, and so neglected to ask him to call. Fred chided me for it, said I must learn country manners, and soon invited him to spend the evening. I was needlessly frigid and impolite: refused to sing or play, and pleaded a headache as an excuse for refusing a game of backgammon. But Esther quite atoned for my coldness by her sparkling cordiality. She made unusual efforts to be winning and agreeable, while the young mechanic assumed an air at once so easy and polite, so free from mauvaise honte, so much upon the footing of equality, that it was to me absolutely intolerable, and

I retired before he left. He had called twice since, and was obviously in love with Esther and Esther with him. It was all well enough perhaps for a summer flirtation, but Esther never flirted. Would she marry him? The idea was preposterous! I made up my mind to interest Fred in the matter, and devise some way to save her from such a fearful fate. My first attempt was unsuccessful. Next evening Esther and Hamilton went to ride on horseback. The affair was really becoming serious, and when I mentioned the subject to Fred he was more attentive. "It is really too bad, Fred, for us to suffer things to go on in this way without at least making an effort to break the spell he has thrown around her Of course, it is only a strange infat

ly revolting; but Webster Hamilton's just as long as I live. Never-if I live callantry equaled his nonchalance, for a thousand years!" he even pressed my hand cordially as Fred took a turn up and down the he assisted me into the vehicle, and his

room, shrugged his shoulders and massive brow was placid as the unasked Hamilton if he had told me all. troubled lake beneath the summer "I believe so-nearly," laughing, moon. I even enjoyed the ride more "About the dirty mechanic?" than I would have confessed to Fred. I winced. If he had really suffered the pangs of "No-I left that for you." "Not all."

"What about Esther?" she asked, coming forward in her witchery of smiles and coquetries, and going to Fred's sidc. He put his arm about her

Women Who Wear Loose Gloves. The wearers of tight gloves will be interested to learn that the women whose hands and arms are famous for their beauty all wear loose gloves. Bernhardt wears long, loose-wristed gloves and her white, beautiful hands are among her charms. Miss Terry has a large hand, almost masculine in the are beautifully tapered. Her hand is in proportion with her figure and she does not squeeze either into tight compresses. She wears large gloves and her hands are lily white and as smooth as a young girl's .- Detroit Free Press.

AN INVITATION.

It Gives Us Pleasure to Publish the following Announcement.

All women suffering from any form of illness peculiar to their sex are requested to communicate promptly with Mrs. Pinkham, at Lynn, Mass. All letters are re ceived, opened, read and an swered by women only. A woman can freely talk of her private illness to a woman: thus has been established the eternal confidence between Mrs. Pinkham and the women of America. This confidence has induced more than 100,000 women to ANALS write Mrs. Pinkham for advice during the last few months. Think what a volume of experience the has to draw from! No physician living ever treated so many cases of female ills, and from this vast experience surely it is more than possible she has gained the very knowledge that will help your case. She is glad to have you write or call upon her. You will find her a woman full of sympathy, with a great desire to assist those who are sick. If her medicine is not what you need, she will frankly tell you so, and there are nine chances out of ten that she will tell you exactly what to do for relief. She asks nothing in return except your good will, and her advice has relieved. thousands.

Pale and cold as polished marble, I sat by the window to wait his coming, and for the first time he seemed dear to me, dearer than life itself-but my sacred honor was dearer still. Fred and Esther had gone out to

shoot at a target at the further end of the garden; Mrs. Thornby was in the kitchen, and I was alone. Presently he rode into the avenue upon his mettlesome steed-a finer figure never rode-and my heart leaped into a wild tumult of pride, pleasure and pain. He saw me and raised his hat with a beaming smile. At that instant a pistol report frightened the fiery animal and he reared high in the air,

turned and dashed homeward riderless.

this shameful scheme, that you should help me out of it, and I want you to see him in the morning and tell him the whole. I cannot.' Fred showed all the consistent sympathy of his sex, and replied cooliy: "'Pon my honor, now. I don't see what I have got to do with it. It would be confoundedly awkward for me to interfere. Web and I were always good friends, but what do you care for a dirty mechanic?" Alone in the silence of the night,

name-He paused at that, for he saw his explained he had the world to lose i father wince at the picture like a man physically struck; and again there was a witness. It was remarkable what silence. very act of opening before each of that (TO BE CONTINUED.)

> CYCLING FOR WOMEN. It Is Freshly Indorsed by High Medical

Authorlty. In an article in the Nineteenth Century entitled "A Medical View of Cy-

cling for Ladies," the author, Dr. W. H. Fenton, indorses the exercise, asserting that it has done more to improve the health of women than almost anything that has ever been invented. "Let it at once be said, an organically sound woman can cycle with as much impunity as a man. Thank

heaven, we know now that this is not one more of the sexual problems of the day. Sex has nothing to do with it Hamilton was suddenly taken with you beyond the adaptation of machine to are capable of great physical improvement where the opportunity exists, neglect."

Dress even now heavily handicaps them. How fatiguing and dangerous were heavy petticoats and flowing skirts in cycling even a few years ago a dream, and I am poor, plain and disthe plucky pioneers alone can tell us. "Inappropriate dress has a certain think I am the heiress-no, he is no

number of chills to account for. When fair practice has been made and the 'hot stage,' so to speak, is over, the feet, ankles, neck and arms get very cold when working up against wind. Gaiters or spats, high collars and closefitting sleeves meet this difficulty. Summer or winter, it is far safer to wear warm absorbent underclothing and avoid cotton.

"The diseases of women take a front place in our social life; but, if looked into, 90 per cent of them are functional ailments, begotten of ennui and lack of opportunity of some means of working off their superfluous muscular, nervous and organic energy. The effect of cycling within the physical capacity of a rheumatism and indigestion. Sleepless-

ness, so-called 'nerves,' and all those petty miseries for which the liver is so often made the scapegoat, disappear in HORTLY AFTER the most extraordinary way."

breakfast, at which His Great Consolation. company you?"

> pleasure consists in knowing I am here."-Truth.

uation which she will shudder at when she is once free from his power."

"You may be right, Effie"-my name is Effie Morse-"how blind I have been But what can we do? Esther will have her own way, you know, especially if she thinks anyone wishes to oppose her. What would you do? Women are so shrewd in such matters."

"I don't know. I'm sure. How would a little well-directed sarcasm do?" "Oh. I have it now! Suppose you cut her out-make it appear as though

--fickle-minded, you know. That would dress and dress to machine. Women bique her vanity so that she would treat him accordingly. She can't beau

"Nonsense, Fred, you know that couldn't be done, as long as Esther is worth half a million, and beautiful as agreeable, unless you could make him

such fellow. That would'nt do." "Oh, of course, I don't suppose you could really turn Hamilton's affections from Esther to you, but we could maneuver a little to have you walk and ride together, and though I would be the real general, we could make it appear to be his preference. A few hints from me to Esther upon his sudden change would make it all right. That

would be glorious. You keep quiet, and I will take charge of Esther. You can afford to be agreeable to the fellow for a while; if he really falls in love with you, no matter. He deserves some punishment for his presumption."

I had some misgivings about trusting myself within the influence of his wi'es, but as he was by no means a disagreewoman acts like a charm for gout, able companion, I finally consented for Esther's sake.

Fred and I had several secret sessions on the piazza and our tactics were soon arranged. An excursion was planned to visit Fort Knox, ten miles distant, and Hamilton was invited. He

drove up his own horse and chaise-I wondered how he could afford to hire so smart a turnout—but I soon learned that it was his own. Fred brought his

buggy round, and as Esther and I came down, he very quietly said, extending ilton.' his hand:

"Shall I have the pleasure of your company, Cousin Esther?" She half hesitated, but instantly stepped forward. The idea of forcing my society upon a young man who would wish me with Pharaoh's host.

never knew how I reached him, bu I remember a still form lying on the grass, and I was clasping the dear head in may arms, laying my cheek against his brow, entreating him in the wildest terms of despair and endearment to look up and say he was not dead. I called to Fred and Esther, but before they could reach us the dark eyes unclosed and strong arms encircled me.

"Effle, my precious darling, do you love me?" he asked in low tones of the tenderest emotion. I forgot Esther and all my vows of renunciation in that fearful fright, and

only said: "God knows I do, Mr. Hamilton." He was not hurt, but was on his feet, just as Fred and Esther arrived, but I had fainted.

Returning consciousness found me reclining on the sofa with my head pillowed in the arms of Webster Hamilton, Esther bathing my face with cologne Fred knocking down chairs. spilling water on the furniture and ing as angling. making himself generally useful.

I tried to rise, but the encircling arms imprisoned me, and Fred and Esther suddenly left us alone. Then he told me he had loved me from the first. but I was so cold and rude that he could not tell me so, and had appealed to Fred, who suggested a flirtation with Esther as the surest way of bringing me to my senses. He did not approve of it at all, but they had managed it all their own way.

"And you really didn't love Esther at all?" I eagerly asked. "I really love nobody but you, and never expect to," sealing the avowal very impressively upon my lips. "And

could you, city born and bred, marry a poor mechanic, Effie?" "I think I might if the poor mechanic happened to be Webster Ham-

Fred returned at this juncture look

ing very pompous and satisfied and feeling, no doubt, a sense of self-gratification similar to that of General Grant after the taking of Vicksburg. It has been proved by experiment that tea retards digestion. An infusion of 1 per cent of tea causes a visible delay; 3 per cent infusion will delay the digestion sometimes as much as 12 times the normal period: 10 per cent decoction arrests the digestion of all starchy foods.

WHAT WOMEN ARE DOING.

Mrs. Phoebe Filcher of Warrendale. Ore., made a recent trip, during which she shot four brown bears and one cinnamon. The cinnamon, after being shot, turned upon Mrs. Filcher and was within ten feet of her when a second shot from her rifle dispatched it.

Miss Bertha Creighton of Philadelphia has received as a gift from Mr. Tift of the United States treasury department at Washington a pair of Cinderella slippers made of the ground pulp of \$100 bills. Miss Creighton may be said to wear on her feet \$5,000. A recitationist who is doing very well in London is Miss Helen Mar, as she is known professionally, or Mrs.

Steele Mackaye, as she is remembered in America. Miss Mar went to England shortly after Mr. Mackaye's death, and has been heard in a great many drawing-rooms during the present season.

Mrs. Virginia Patterson of Philadelphia is a most remarkable sportswoman. Recently at a morning "fishing" she caught two immense tarpon, that, when hung from a pole, with their tails touching the ground, measured two feet more than their captor. She is quite as enthusiastic over hunt-

LITTLE CURIOUS NOTES.

The exact distance to either the north or south pole from the equator is 6,000 miles.

J. Dubois, a French opera-house manager, has "invented a rainbow that shows up naturally on the stage." It is believed that the temperature of the earth at a depth of 200 miles is

not less than 18,000 degrees Fahrenheit. It has been discovered that the color-

ing matter in the emerald is of organic hasis and that it is easily destroyed by the heat.

The water entazca is but one-tenth of an inch in length. It lays 20,000 eggs in a single season of less than seventeen days.

If a cannon ball could maintain its initial velocity for twenty-four hours it would beat the sun in his apparent journey around the world.

A block of best steel four feet square would be reduced to a cube of little more than nine inches if it could be taken to the center of the earth.

Surely, any ailing woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

Never in the history of medicine has the demand for one particular remedy for female diseases equalled that attained by Lydia E. Pinkham's Vegetable Compound, and never in the history of Mrs. Pinkham's wonderful Compound has the demand for it been so great as it is to-day.

If afflicted with } Thompson's Eye Water.
