The board of Huron county canvass ers have completed their work and find the total number of votes cast to be 6,-345. Of this number 91 were sound money democratic votes. In 1894 there were 4,870 votes cast, thus showing an increase of 1,475 over that year. Me-Kinley gets a majority of 588; Pingree gets 973, thus leading his ticket by about 400. The majorities for republican county officers ranged from 700 to 900. Snover, for congress, received

The special election on Monday to There are eleven candidates for the decide as to bonding the village to aclighting plant established at the pumping station as soon as possible. The present system of Walker & Hood has been badly handicapped by lack of whereby the village will take their outfit off their hands. By the addition of a good engine we would have a first class system and in conjunction with the water works it can be operated very economically.-[Marlette Leader.

"The Jackson Lake Colonization Plan" is the name of a new enterprise conceived and originated by Rev. S. G. Bettes, of this place. The plan is to furnish poor people from the overcrowded cities and towns with a home and a chance to make a li velicod. Jackson Lake is in the western part of the new state of Wyoming, and has an island in its broad bosom containing about 30,000 acres. This land will at once be set aside for colonization purposes by the state, and bona fide settlers can get a homestead at a nominal cost. The Rev. Bettes will try and provide for the free transportation of all those who are worthy, but without means to take them to this land of ears to evangelism and lecturing, will now turn his talents and energies entirely into this new work, until he makes it a complete success. - [Yale

Hymeneal.

Another of our charming maidens

and has been taken from our midst, the maiden being none other than Miss Kittie E. M. Clark, who was married on Saturday last, at the residence of her sister, Mrs. W. H. Hebblewhite, to Wm. J. Stephens, of Elkton. Rev. B. J. Baxter officiated at the ceremony which took place at 1:30 in the afternoon. The rooms and tables were beautifully decorated with flowers and vines, pink being the prevailing color and the night effect added much to the beauty of the surroundings. The couple left by the afternoon train amid showers of rice and old slippers, for Saginaw, Detroit and Chicago, and after visiting those places will return to Pigeon where Mr. Stephens will open a harness emporium. They will be "at home" after Dec. 1st. The

Cigarette Smoking.

A good deal has been said about the evils of cigarette smoking, but one-half has never been told. Cigarette smoking blunts the whole moral nature. It has an appalling effect upon the system. It first stimulates, and then stupefies the nerves. It sends boys in to consumption. It gives them enlargement of the heart, and it sends them to the insane asylum.

I am a physician to several boys' schools and I am often called in to prescribe for palpitation of the heart In nine cases out of ten it is caused by the cigarette habit. I have seen bright A new experiment was tried on the boys turned into dunces, and straight-

To be a lion, is to have a lion's enemies.

The sultan of Turkey is now threat-

ened with insanity. The world is always hungry for

ideas, either wise or grotesque. Really dangerous opponents generally have a proxy to carry out their

plans. The man who uses words to dodge

ideas does not last long in this age and

generation. If you cannot compliment a man on anything except his clothes preserve a

charitable silence. The world has too many people who cannot keep their personal spites out of

work they are paid to perform.

The best answer that a wife can get to her letters to her husband when she is away from home is a good-sized check.

If Abraham Lincoln really told all the stories that are attributed to him. it is hard to see how he found time to do anything else.

It is not true that the physician who advises his patients to take to the wheel for exercise always gets a commission from the local bicycle agent.

The wedding of Jean de Reszke and Countess de Mailly is said to have been very quiet, from which we infer that Jean did not go after any of his high notes.

It cost a Chicago man \$5 and costs the other day to learn what an eveopener is, but that was only his first payment and the eve-opener comes on the installment plan.

The young women who plays Wagner and Chopin up to midnight five nights out of six ought at least to consider the feelings of the neighbors enough to get her old piano tuned.

The newspapers are printing an item to the effect that Editor Dana "pays from \$1 to \$5 for a poem." Poor old man! He is sure to be buried now underneath an avalanche of manu-

A jealous St. Louis husband fired four shots at his wife, either of which would have been fatal had not the bullets struck her corset stays and been deflected. No dress-reformer will ever be able to convince that woman that corsets are not healthful.

Nothing rankles in the heart like injustice. Try to understand the motives of conduct, and never doubt the word. or refuse to accept the explanation of erring children. They may deceive you but trusting them will make them true, while continual doubt will make the noblest sly and deceitful. Give them the benefit, always, of any doubt as to their conduct, and they will strive to be what you think they are.

Mrs. Schiller, a widow residing in Summerfield, Ill., was clubbed into insensibility by burglars, who had entered her house. All her money was then stolen. Bloodhounds put on the trail ran to the residence of a leading citizen. The marshal thought the pups must be mistaken, and tried again. They repeated it twice, much to the amusement of the friends of the leading citizen who know he is not that kind of a citizen.

Organized labor has won another victory over the Carnegie company. The labor unions of Detroit, at the instigation of the Amalgamated Association of Iron and Steel Workers, insisted upon the material for the new Wayne County building being made in a union mill. The commissioners agreed to this, and when the bids were opened a few days since the offer of the Carnegie company, although below all other bids, was thrown out, and the contract awarded to a union concern.

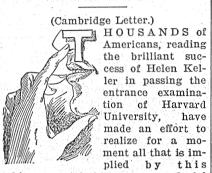

The two-acre map of the heavens in Paris is about completed. It will be the most remarkable and instructive astronomical scheme ever devised and tremendous success which it is certain to be. American astronomers doubtless regret that the United States was the only country to refuse to participate in its construction. The observatories which share the honors of this great achievement are those at Rome, Paris, Greenwich, Potsdam, Bordeaux, Toulouse, Cataline, Oxford, Helsingford Algeria, San Fernando, Tacubaya, Santiago (Chile), La Plata, Rio de Janeiro, Cape of Good Hope, Sydney and Melbourne. Each of these observatories will bear the cost of its own portion and will deliver it at its own expense at the grounds of the Paris observa tory.

An unsuccessful attempt at whole sale poisoning by paris green was discovered at Almond, Wis. While preparing a can of milk for shipment John Bibby, a wealthy milk shipper, noticed a peculiar color, and on investigation found a large quantity of paris green and salt scattered at the bottom of the can. John Burns, another farmer, found a score of piles of paris green and salt scattered in his pasture land, and Thomas Brown lost five of the most valuable cows of his herd from the same poison, deposited by un- dark blue stockings under the plain, this one duty.

HELEN KELLER.

convincing force until one has seen Aside from these, there is nothing to and talked to Helen Keller herself, and to the marvelous teacher who went into the outer darkness after her and brought her back into a human world. plexion is clear and healthy and the Meeting these two for the first time, expression of her face wonderfully atand looking at them as they stand to- tractive in its bright alertness. Her gether, the full consciousness of what has been done surges on one-a great wave of comprehension that seems to sweep one, for a horrible moment, into the blackness from which they emerged. During this flash of acute comprehension there are half a dozen distinct impressions. One not only realizes all that was meant by that early condition of isolation, but one follows mentally the slow and painful processes of the self-sacrifice—and one turns away, stand. After listening for a few moalmost sick at heart, from the thought ments, however, one begins to follow of it all. These are not pleasant sen- her. sations, but no thinking person can fail to experience them the first time Helen Keller's sightless eyes are Mr. Arthur Gilman's school for young turned upon him.

fore one, radiant with interest in all trance examination in the four branchthat is going on. The first trait one es she undertook-English, French, notices in her is this desire to be a German and history. But this was sugpart of everything about her. She is gested by Mr. Gilman only as a test of absolutely devoid of self-consciousness, her present scholarship. and being so, she bursts into speech | teristic interviews with American citicarried out, and now in the light of the zens. It should be added at once, however, that her questions are never unbending towards you, with her sightless eyes fixed eagerly on your face, She is pathetically anxious to show you that she is in touch with the world subject after subject, and dismisses them with a few terse sentences which them all. She uses no unnecessary words. She has learned to express her ideas with wonderful clearness and conciseness. She has a very keen sense of humor, and responds to the mildest joke with a girlish laugh that is very contagious. All these things you notice within five minutes after your meeting with her. Then, as she talks on, you begin to study her more in detail, and this is what you see:

A well-formed, graceful girl of sixteen, in a perfectly plain dark blue carry off all the prizes for the same gown that comes to the tops of her shoes in schoolgirl fashion. The shoes are well made and well fitting, with good, thick soles and low, sensible ferent. Life has much to offer her, but heels. Above them you see an inch of she has voluntarily put it all aside for known parties on his grazing range. full skirt. The waist of her dress fits

sadden one in Helen Keller's appearance. Her chin is beautifully formed, the mouth and teeth are good, her comvoice, strangely enough, lacks the usual monotony of the voices of the deaf. It has rising and falling inflections, and even bits of shading occasionally when the subjects under discussion touch her especially. To understand the interest of this it is necessary to recall the fact that she herself has never heard the slightest sound of any kind since she was eighteen months old. Her speech is a little breaking it—the strain, the patience, thick and at first it is hard to under-

She may feel any depressing and the people in it. She brings up influences the more keenly because she is used to the buoyant atmosphere of Miss Sullivan—that lovely and lovable somehow seem to contain the gist of woman who for nine years has devoted herself day and night to the helpless child. To Miss Sullivan alone belongs the credit of Helen Keller's record today. What Helen has done is not so wonderful when one recalls the concentration that was necessarily put into her work, and the absolute lack of all distracting influences. She developed mentally because imprisoned as she was, every impulse of her nature helped to push her toward the light. When she enters Radcliffe she will probably reason. Her mind to her a kingdom is. There is no other for her, and can be none. With Miss Sullivan it is dif-

ELIZABETH G. JORDAN.

£\$@\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$ DR. TALMAGE'S SERMON.

\$ Washington, D. C., Nov. 15, 1896 .-Out of this strange scene of Bible times Dr. Talmage, in his sermon today, draws remarkable lessons of good cheer and triumph. His subject is: "Wrestling with the Supernatural," and the text: Genesis 32:25, 26: "And when he saw that he prevailed not against him, he touched the hollow of his thigh; and the hollow of Jacob's thigh was out of joint as he wrestled with him. And he said, Let me go, for the day breaketh. And he said, I will not let thee go except thou bless

There is a cloud of dust from a traveling herd of cattle, and sheep, and goats, and camels. They are the pressent that Jacob sends to gain the good will of his offended brother. That night Jacob halts by the brook Jabbok. But there is no rest for the weary man. No shining ladder to let the angels down into his dream; but a severe struggle, that lasts until morning, with an unknown visitor. They each try to throw the other. The unknown visitor, to reveal his superior power, by a touch wrenches Jacob's high-bone from its socket, perhaps maining him for life. As on the morn ing sky the clusters of purple cloud begin to ripen, Jacob sees it is an angel with whom he has been contending, and not one of his brother's coadju "Let me go," cries the Angel, lifting himself up into increasing light,

'the day breaketh." You see, in the first place, that God into a terrible struggle. Jacob was a the best schools at which Joseph ever in the midnight to wrestle with a tremendous influence by the brook Jab- prepared the man of Uz to be the subbok. For Joseph, a pit; for Daniel, a ject of the magnificent poem that has wild beast den; for David, dethrone- astounded the ages. There is no way ment and exile; for John the Baptist, to get the wheat out of the straw but a wilderness diet and the executioner's to thresh it. There is no way to purify axe; for Peter, a prison; for Paul, the gold but to burn it. Look at the shipwreck; for John, desolate Patmos; people who have always had it their for Christ, the cross. For whom the racks, the gibbets, the prisons, the ed, useless, and unhappy. If you want thumbscrews? For the sons and to find cheerful folks, go among those daughters of the Lord Almighty. Some | who have been purified by the fire. Afone said to a Christian reformer, "The world is against you." "Then," replied, "I am against the world."

I will go further, and say that every Christian has his struggle. With financial misfortune some of you have you could not sell. Whom you trusted, you have not yet escaped, and it is says: uncertain whether it will throw you, or you will throw it. Here is another | The Hill of Zion yields soul. in struggle with some bad appetite. He knew not how stealthily it Before we reach the heavenly fields was growing upon him. One hour he woke up. He said, "For the sake of my soul, of my family, of my children, Then let our songs abound, and of my God, I must stop this!" And behold, he found himself alone, by the brook of Jabbok; and it was midnight. That evil appetite seized upon him. and he seized upon it; and oh, the horror of the conflict! When once a bad a man and the man has sworn that. by the help of the eternal God, he will destroy it, all heaven draws itself out above, and all hell stretches itself in beneath. I have seen men rally themselves for a struggle; and they have bitten their lip and clenched their fist. and cried with a blood-red earnestness. and a rain of scalding tears, "God help me!

From a wrestle with habit, I have seen men fall back defeated. Calling for no help, but relying on their own resolutions, they have come into the struggle; and for a time it seemed as to save. if they were getting the upper hand of their habit; but that habit rallied again its infernal power, and lifted the soul from its standing, and with a force borrowed from the pit, hurled it into outer

darkness.

through our Lord Jesus Christ." There is a widow's heart, that first but to see a delicate woman, with help-

children, I will preserve them alive; propriate for philanthropists and and let thy widows trust in me!" Some Christians to cry out with this angel one said to a very poor woman, "How of the text. "The day breaketh." The rent to pay, and nothing to pay it with, falling flat in the dust. The Church and bread to buy and nothing to buy of Christ is rising up in its strength to it with, I used to sit down and cry. go forth, "fair as the morn, clear as the I go along the street, when I come to ners." Clap your hands, all ye people a corner of the street, I say, 'The Lord help me!' I then go on until I come \ As I look around about me, I see to another crossing of the street, and many who have passed through waves again I say, 'The Lord help me!' And of trouble that came up higher than so I utter a prayer at every crossing; and since I have got into the habit of saying these cross-prayers, I have been able to keep up my courage."

Learn again from this subject, that people sometimes are surprised to find out that what they have been strug- he will. Like as a father pitieth his gling with in the darkness is really an "angel of blessing." Jacob found in the morning that this strange personage was not an enemy but a God-despatched messenger to promise prosperity for him and for his children. And so, many a man, at the close of his trial, has found out that he has been trying to throw down his own blessing. If you are a Christian man I will go back in your history and find that the grandest things that ever happened to you have been your trials. Nothing short of scourging, imprisonment, and shipwreck, could have made Paul what he was. When David was fleeing through the wilderness, pursued by his own son, he was being prepared to become the sweet singer of allows good people sometimes to get Israel. The pit and the dungeon were good man; but here he is left alone graduated. The hurricane that upset the tent, and killed Job's children, own way. They are proud, discontentter Rossini had rendered "William Tell" he the five hundredth time, a company of musicians came under his window in Paris and serenaded him. They put upon his brow a golden crown of laurel leaves! But amid all the applause and had the midnight wrestle. Red-hot enthusiasm Rossini turned to a friend disasters have dropped into your store and said, "I would give all this brilfrom loft to cellar. What you bought liant scene for a few days of youth and love." Contrast the melancholy fled. The help you expected would feeling of Rossini, who had everything not come. Some giant panic, with long that this world could give him, with arms, and grip like death, took hold the joyful experience of Isaac Watts, of you in awful wrestle, from which whose sorrows were great, when he

their girdle. In God's name I proclaim cessation of hostilities. You shall not always go saddened and heart-broken. God will lift your burden. God will bring your dead to life. God will stanch the heart's bleeding. I know children, so the Lord pities you. The pains of earth will end. The tomb will burst. The dead will rise. The morning star trembles on a brightening sky. The gates of the east begin to swing open. "The day breaketh."

Luther and Melancthon were talking together gloomily about the prospects of the Church. They could see no hope of deliverance. After awhile, Luther got up and said to Melancthon, "Come, Philip, let us sing the forty-

sixth psalm, 'God is our refuge and strength in every time of trouble." Death to many, nay, to all, is a struggle and a wrestle. We have many friends whom it would be hard to leave, I care not how bright our future hope is. It is a bitter thing to look upon this fair world, and know that we shall never again see its blossoming spring, its autumnal fruits, its sparkling streams, and to say farewell to those with whom we played in childhood or counselled in manhood. In that night, like Jacob, we may have to wrestle, but God will not leave us unblessed. It shall not be told in heaven that a dying soul cried unto God for help, but was not delivered. The lattice may be turned to keep out the sun, or a book set to dim the light of the midnight taper; or the room may be filled with the cries of orphanage or widowhood; or the Church of Christ may mourn over our going; but, if Jesus calls, all is well. The strong wrestling, by the brook will cease; the hours of death's night will pass along; one o'clock in the morning; two o'clock in the morning; four o'clock in the morning; five o'clock in the morning: "the day breaketh."

So I would have it when I die. I am in no haste to be gone. I would like to stand here twenty years and preach this C el. I have no grudge against this world. The only fault I have to find with this world is, that it treats me too well. But when the time comes to go, I trust to be ready, my worldly affairs all settled. If I have wronged others, I want, then, to be sure of ling, my arm enfeebled with sickness. and my head faint, I want Jesus beside me. If there be hands on this side of the flood stretched out to hold me back, I want the heavenly hands Then, O Jesus, help me on, and help me up. Unfearing, undoubting, may I step right out into the light, and be able to look back to my kindred and friends, who would detain me here, exclaiming, Let me go-let me go! The day breaketh.

A FAMOUS WOMAN.

Interview With Miss Winifred Leale, Champion Lady Rifle Shot.

In a most interesting series of "Interviews With Women Who Have Excelled." Home Chat gives an insight into rifle shooting explained by Miss Winifred L. Leale, the champion lady rifle shot. Miss Leale was interviewed while shooting at Bisley, where she as if they were the foreigners; we revodiscovered for the moment at leisure on the veranda of the Ladies' Club. charming little bungalow. In reply to the question "What induced you to dominant in the gayety of the place: take up shooting?" Miss Leale replied: "It was pure accident-nothing else. It occurred in Guernsey, my native place. I happened to have accompanied my father to a local rifle meeting, when I was persuaded to take a shot at the target. The result of my initial effort was-well an 'inner'" And as to the rifle you use, Miss Leale, surely you do not have the heavy government weapon?" was another question. "Certainly I do." was the youchsafed reply of the young champion, "I use the ordinary service Martini, exactly the same weapon as the men." Miss Leale, however, prefers the Lee-Metford, which she considers the superior weapon. She declares good sight to be the first essential to successful marksmanship and a taste for shooting to be necessary. Certainly Miss Leale possesses this "natural bent." The many prizes she has won with her rifle shooting wholly against men, testify to her marvelous skill.

The English Always Grumble at All Customs But Their Own-Their Language, Their Sports and Their Ways Are the Only Ones Worth While.

foreign lands. They are most hated, he says, in those countries and by the very people for whom they have done most. For instance, Englishmen are vekemently detested in the Transvaal, which has been changed by them from a sparsely populated desert into one of the richest countries in the world. It is the same in numberless out-ofway regions. As for the continent. what, he asks, would the Riviera and all the French and German summer and health resorts be if it were not for the

constant shower of British gold that falls upon them? "For all that," he continues. "these people, who derive so much from us. and who need us so sorely, have no kindly feeling toward us. They may like individual visitors among the English, but they hate the English visitors as a whole with a fierceness which is as blind as it is unreasoning. They know that to refuse the English must mean ruin to themselves, and yet they would gladly slam their doors in the face of the Anglo-Saxon and tell him in forcible language to seek another and warmer resting place."

In concluding his article, however, the writer abandons the "benefits that cannot be forgiven" theory and proceeds to tell exactly why the feelings of which he complains do exist:

"They people of other nationalities, when they enter foreign countries, endeavor to adapt themselves to the new environments. The English, on the other hand, have a way of marching through Europe with the national flag flying in the van and the drums beating 'Rule Britannia,' just as if they were a new chartered company pushing on to conquer the barbarians.

"Where they elect to remain for a time there they settle down with the air of conquerors. The majority of them cannot converse intelligibly in the language of the country, but they are not at all embarrassed by that. The result is that, before many English travelers have come his way, the landlord has begun to learn English as a part of his stock in trade, is paying extra for bilingual servants and has their forgiveness. In that last wrest- doubled all his notices and advertise-

ments into English "The English, moreover, have a way of finding fault with the local customs -the breakfast, the dinner hour, the early retiring movement—and they stretched out to draw me forward. grumble at them until the landlord, in a frenzy of competition, alters all of them to suit the English taste. The irrepressible Anglo-Saxon, too, brings with him his sports and amusements. He establishes a cricket club and organizes matches at which one set of visitors plays against another and the residents have to be content with the part of the supernumerary crowd. With the consent of the authorities he marks out golf links and the guileless native wandering leisurely over the ground, finds himself shouted at in unknown tongues and hit violently in the small of the back before he has an

> idea what the shouts are all about. "The fact is that wherever we go we have a way of treating the natives lutionize their customs to suit our own convenience: we introduce our games and amusements and make them preand if we condescend to know the language at all, it is not from any abiding sense of the beauty of the same or the duty of learning it, but simply in order that we may be able to communicate our wishes the more easily to the inferior race-just as we do among the Matabele.

"The most curious part of it all is that the natives to a certain extent acquiesce in this attitude, and their own acquiescence galls them the more. The foreign temperament runs naturally to extremes, and there seems to be no medium between oriental servility and brutal insolence on their part. When the occasion for the latter occurs it is as if a millstream long pent up had at last burst its bounds."

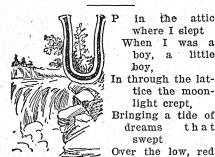

Her Presence of Mind. "Yes, Harry and I went out riding

on a tandem last evening, and he gave me such a fright I have hardly got over it even yet." "How was that?" "When we were going through an avenue of trees and there was nobody in sight he Greek barber surgeons in the Levant leaned forward on his handle-bars and reached his head around and kissed me!" "Why that was dangerous, wasn't

From the heart that is weary and faint to-day; And those dreams should give me back again

The peace I have never known since then-

When I was a boy, a little boy!

The Price He Paid.

Eden E. Rexford tells the following story in the New York Observer: "I made the boss trade to-day," said

Johnny to Hugh, producing a pocket knife which he exhibited with great satisfaction. "Big and little blade, and real pearl handle-didn't cost less than a dollar, and just as good as new. But it didn't cost me that," with a wink at Hugh. "No, sir, I swapped that old chain that I got of Tom Shepard for it. Brass, you know, but I put a polish cn it, and made George think it was gold. 'Good stuff in it,' said I, when he offered to let me have his jack knife for it. 'You couldn't buy a chain like that at the jeweler's for what the knife cost you. And he couldn't, you know,' with a wink and a chuckle, 'jewelers don't keep brass chains like that, but some cheap notion stores sell them Didn't I get the knife cheap, though? It's just a little beauty, isn't it?"

"I think it cost you more than I'd like to pay for it," said Hugh, gravely, as "divinely rancid." "Why, you don't think I got cheated, do you?" asked Tommy in surprise. Yes, I do," answered Hugh. "You

couldn't afford to pay the price you did for it, for you had to tell a lie."

The Boy Is the Father of the Man.

When John Coleridge Patteson, who became the devoted bishop, was a lad at school he was one of the cricket eleven. At the suppers, after the matches, the boys became, unhappily, accustomed to indulge in rather coarse mirth: silly, harmless jokes were circulated, and the talk sometimes became bad. Patteson at last could stand it no longer. He rose up from his place one night, and said clearly and decidedly, with boyish frankness and determination:

"I must leave the 'eleven' if this conversation is to go on: I will not share in it, and I cannot listen to it. If you persist in it, nothing is left me but to go."

His companions did not want to lose one of their best players, and the hurtful talk was stopped. Patteson, when Be grew to be a man, showed only too woll that he could be physically brave.

True Bravery.

. In the heat of passion Robert had done something that he was ashamed of and sorry for, after the excitement had passed away.

be undone." "But isn't there a way to overcome the effect of wrong doing, to a great

extent?" asked a voice in his heart. "How?" asked Robert. "By owning to one's blame in the matter." answered the voice. "Con-

fessing one's fault does much to set wrong right. Try it." Now, says the Observer, Robert was very much like the rest of us-he hated

to admit that he was in fault. "I'm say. But the more he thought the matto say just that.

himself. "If I know what's right and since it can be colored to suit the I don't do it, I'm a moral coward. I'll do it."

So he went to the one he had wrnged result was that the two boys were better friends than before, and his comrade had a greater respect for him because he had been brave enough to da a disagreeable thing when it was presented to him in the light of a duty.

The Voice Within.

When Dr. S. H. Tyng, the emenent preacher, was a young man, he received from some one a stinging, provoking letter. After reading it he wrote a reply filled with words quite as sharp as those which had come to him; for he was abundantly able to hold his own in such a controversy. Starting to the postoffice to mail his letter, he heard on his way a voice as if some one spoke to him, saying:

"Stephen, that won't do." He looked about him, but there was no speaker to be seen; and yet the voice had reached his heart.

Said one good man, when speaking of certain things which other people sometimes practiced: "I cannot do such things; if I do

there is some one inside of me who talks to me nights." How many have been withheld from sin, from folly, from rashness and bitterness by that voice within?

A Child of God.

There was a ripple of excitement all through the orphan asylum, for a great lady had come in her carriage to take little Jane home with her.

Jane herself was bewildered with the thought. The kind matron led her down the wide stairway, and as she passed the hall door she saw the shining carriage, the fine horses, the liveried servants, and it seemed like a dream.

"I hope she is glad to go," said the great lady, in her gentle tone. "Do you want to go home with me and be my child, my dear?"

"I don't know," said Jane, timidly. "But I am going to give you beautiful clothes, and a gold ring, and a box of candy, and books, and dolls, and blocks, and a swing. Now, do you want to go?"

"I don't know," said the child, still frightened.

"You shall have a little room of your own, with a beautiful bed and table and chair; you shall have a bird in a cage, and a little dog with a silver collar. Don't you want to go with me, Jane?' There was a moment's silence, and then the little one said, anxiously,

"But what am I to do for all this?" The lady burst into tears. "Only to love me and be my child," she said, as she folded the little girl in her arms.

God finds us orphaned and desolate and defiled with sin, and poor and naked and blind. He adopts us into his family, and gives us all that we need in this life, with care and protection, and his own name, and forgiveness, and the companionship of the Holy Spirit, and an inheritance in glory; and all that he asks in return is that we should love him and be his

Those Astounding Adverbs.

One evening a gentleman came home with a budget of news. An acquainting off, but at last, just to please him, ance had failed in business. He spoke you know,' with another chuckle, 'I of the incident as "deliciously sad." heart of a soldier. And yet she is one even alone, if she so desired. said I'd trade. My, won't he be mad He had ridden up town in a car with when he finds out how he's got sold? a noted wit, whom he described as "horribly entertaining," and to cap the climax, he spoke of the butter that had been set before him at a country hotel

The young people stared, and the oldest daughter said: "Why, papa, I should think that you

were out of your head." "Not in the least, my dear," he said pleasantly. "I'm merely trying to follow the fashion. I worked out 'divinely rancid' with a good deal of labor. It seems to me rather more effective than 'awfully sweet.' I mean to keep up with the rest of you hereafter. And now," he continued, "let me help you to a piece of this exquisitely tough beef.

Adverbs, he says, are not so fashonable as they were in his family.

Paper Furniture Coming.

Just at present an experiment is being made of building furniture of compressed paper. This does for the living rooms what aluminum has done for the kitchen-literally decreases the weight to a point where a child is able to move the largest piece. It is not proposed in this process to detract in the least from the beauty of shape or grace and elaborateness of ornamentation, but to lessen the price as well as the weight. The first products in the way of paper furniture were finished in enameled paint, and a double colonial bed of paper, with all its clothing, its pillows and mattresseswas lifted by a 16-year-old girl. "But will this new material wear?" is the query sure to be asked by housekeep-"I wish I hadn't let my temper get ers who are hopefully testing the new away with my good sense," he said, pressed paper and aluminum bath tubs, "but it's done, and what's done can't and finding them much to their liking."

Made from Potatoes.

Great quantities of buttons, as well as billiard balls, are now made from potatoes. It is not generally known that if the substance of the common potato be treated with certain acids it becomes almost as hard as stone, and can be used for many purposes for which horn, ivory and bone are now employed. This quality of the potato adapts it to button making, and a very wrong—forgive me," is a hard thing to good grade of button is now made from the well-known tuber. The potato ter over, the more he felt that he ought button cannot be distinguished from the others save by a careful examina-"It's the right thing to do," he told tion, and even then only by an expert, goods on which it is used. It is every whit as good looking as a button of bone or ivory. The cheapness is a and enfessed his fault frankly, and the great recommendation, and will no doubt lead to a much larger employment in the future.

000000000000000000000000000

"Come, Quelton," cried Jack Darcy, bursting into my office one morning in June last, "drop those everlasting papers and take an hour's rest. I want you to go to the opera house with me." "And for what, pray," I answered, 'should I go to the opera house in daytime—the forenoon at that? Is it a rehearsal?"

"Rehearsal? Certainly not; it's the commencement exercises of the Girls' High School, and there is one thing, specially, on the program that I am anxious for you to hear. Get ready, man; it's time to go. It will do you you know about her?" good to see those pretty girls—two hundred and fifty of them, and listen will brush the cobwebs off that hardworked old editorial brain of yours." den but overweening desire to attend those exercises. It would be so radical stocking as she could well be. Few a change from the amusements that I of you editorial 'know-alls' are so wellusually indulged in, something so informed in general literature, philobright and inspiring and beautiful, that | sophy, natural history, science and as-I became, all in a minute, as enthus- tronomy as she is.

iastic about it as my bustling friend had been scanning, laid a weight on fish and is as brave as bravery itself. my "copy" paper, seized my hat and ac- In fact, she excels in all outdoor tually hurried Jack out of the office and into the street on our way to the opera house. I suppose we are all subject to those sudden impulses, but mine astonished me, all the same; later in the day I came to the conclusion that some

beneficent spirit had moved me. As we entered the house, where large audience had already gathered, the members of the graduating class were just coming upon the stage. This of itself was a pretty sight, and Jack and I found a place where we could see it to good advantage. The girls, whose ages ranged from sixteen to nineteen years, were all dressed in white, with lust variation enough in material and trimming to take away the appearance of monotony.

Each girl carried a bunch of flowers in her hand, and wore upon her left. breast the crimson and gold ribbon of

the class. Chairs were arranged in tiers from the front of the large stage to the rear. and the girls entered in two lines, one from each side. Those that entered from the right crossed the stage and passed to the chairs on the left, and those that entered from the left passed to the right. This semi-military effect was very pleasing, and made the scene orderly without being stiff.

When all were seated the exercises began, but it is not my purpose to describe them in detail. Jack soon let me know why he had asked me to come there, and that is what I am going to tell you about. He pointed to the fifth number on the program, and said:

"That is what I want you to hearing to tell you a story about her. She's as gallant a spirit as ever animated the of the gentlest and most lovable girls you ever saw. But wait!"

I looked at the program and saw this: 5. Recitation-The Charge of the Light

Brigade. Agnes Constance Farrell.

The first four numbers of the proprincipal of the school announced Miss Farrell. A fair-haired young girl arose from the front row of seats and advanced gracefully to the front of the stage. Her manner was easy and selfcontained, but absolutely free from self-assertiveness; it was the manner of one conscious of her power, but too modest to make that consciousness apparent

With a slight but graceful bow to

BEARING HAROLD'S UNCONSCIOUS FORM. Half a league, half a league, Half a league onward! All in the valley of Death Rode the six hundred.

Forward the Light Brigade! Charge for the guns! he said; Into the valley of Death Rode the six hundred!

Clearly and distinctly the spirited words fell from those young lips, and as the fifth line of the stanza was reached they rung through the house like the notes of Cardigan's bugle, as he ordered that famous charge. Losing all consciousness of self in the ardor of her part, fired with the glorious spirit of the lines, she rose to a height of oratory almost sublime, and held her audience bound under the spell of

her power. I have never heard anything finer than her impassioned utterance of the fourth stanza of the immortal poem: Flashed all their sabers bare, Flashed as they turned in air. Sab'ring the gunners there, Charging an army, while

All the world wondered! Plunged in the battery smoke. Right through the line they broke; Cossack and Russian

Reeled from the saher stroke.

Shattered and sundered. Then they rode back; but not-

Not the six hundred. The slight figure of the girl trembled with enthusiasm, her face glowed like that of one inspired and her marvelous voice, sweet, clear and resonant, cut the air like one of those "flashing sabers." At the close of her recitation admiration, burst into a perfect storm of applause. I had never seen nor

heard a more brilliant performance. "Come," said Darcy, "we can go now. That is what I wanted you to hear. What do you think of her?"

"She is a wonderful girl," I an-

"I am going to tell you," said Jack. "It is a very pretty little story of heroto what some of them have to say. It ism, but it came near being a tragedy. Agnes Farrell is eighteen years old. I have known her for four years. She Now I cannot tell you how it was, but | is one of the brightest girls I ever Jack's proposition roused in me a sud- saw. Her tastes are intellectual, and yet she is as far from being a 'blue-

"And yet she has her sail boat at the seashore, and few men can equal her in I tossed aside the "exchange" that I its management. She swims like a sports that girls indulge in, and enters into them with as much spirit as she exhibited on the stage just a moment

> "But let me tell you the story that I referred to. Her father has a cottage at a quiet little place down on the coast, a place separated from the mainland by a broad, generally placid inlet, where may be had delightful sailing and fishing. The family goes there every summer.

"I spent three weeks there last season, and it was during that time that the incident happened of which I am going to tell you.

"A family by the name of Graham has a cottage near the Farrell's, one member of which is a boy about Agnes' age. His name is Harold. He is a great sailor, too, and his boat, the Ariel, is almost as well known for its achievements as Agnes' Sprite. In fact. there has always been a sort of goodnatured rivalry between them, for while Agnes and Harold are warm friends, they would never agree on the relative speed and other qualities of their two boats.

"No actual test had ever been made, for they did not care to have a regular race; they rather shrunk from the publicity that a race would give them. But one day in July an opportunity occurred that neither felt disposed to decline, and so they at last matched their little crafts against each other.

"It happened more by accident than design. Harold had gone out early in proved thoroughly satisfactory. Durthe morning for a sail around the inlet, taking with him only one of his Miss Agnes Farrell's recitation. She is friends, Sam Colston. Two hours later a remarkable girl. I want you to see Agnes took her boat out, with her and hear her to-day, and then I am go- younger sister, Bertha, as her companion. This was nothing unusual, for a heroine—every inch a heroine, with Agnes is so good a sailor that no one ever thought of forbidding her to go

"The girls had not been out long when they saw Harold's boat just turning the point of a pretty green, reedgrown island on the western side of the inlet. There was a brisk wind from the south, and the Ariel was feeling its full force as she rounded the island and turned her prow toward the gram had been given, and then the north, where the broad unbroken body of water stretched out before her.

"It happened that Agnes' boat was headed in the same direction, and as they were now fairly abreast of each other, though still some distance apart, the conditions for a trial of speed were almost irresistible. In fact, they were irresistible, for Harold presently stood up in the stern of the Ariel and waved his handkerchief in a challenging manner at the young sailor of the Sprite.

"Agnes could not stand that, and she lost not a second's time in waving defiance at the Ariel., "'Why, Agnes,' said her sister in

surprise, 'are you going to race with Harold Graham? Oh, but I'm glad! I know we'll beat him!' "'I am going to try, at any rate,' an-

swered Agnes, 'and settle, once for all. which is the faster boat, or which is the better sailor, as you please.'

"And so the long-deferred race was on at last. Circumstances seemed to have brought it, and now that it was avoid it; both were confident of victory. "It was a beautiful sight. The deokblue water was flecked all over its surface with little foam-caps that were raised by the sweet south wind. For more than a mile toward the north the course extended, with no obstruction of any kind, not even a fisherman's boat being in view. On each side of them | though negroes frequently perform were little islands with their reedgrown banks reaching clear down to the waters edge, thus looking like big emeralds that had been dropped upon the sapphire bosom of the inlet. And over all was the glorious light of a cloudless, sun-lit sky, touching everything with beauty and beaming life. "Over such a course sped the two

pretty boats, their prows cutting the water and sending the spray back along their glistening keels. "The boats had now approached within talking distance of each other. and each young sailor was bantering

the other, but all the while intent upon the progress of the race. And as they talked they steered closer and closer to each other, until finally the two one big sheet.

"Realizing the danger of sailing so would sheer off toward the west warning Agnes of his intended movement. lost her grip of the tiller, and before or saluting."

she could regain it or could realize what it all meant the nose of the Sprite had thrust itself with tremendous force into the Ariel and knocked

her over like an egg-shell. "Harold and his friend were thrown into the water, which was quite deep at that place, and they disappeared beneath the surface like stones. Young Colston came up again almost immethe audience, until then rapt in silent | diately and was clinging to the halfsubmerged sail of the Ariel when Agnes had brought her boat about and was preparing to give aid to her unfortunate antagonists. Harold was nowhere in sight.

"The brave girl did not hesitate a second; she rightly supposed that the swered, "simply wonderful. What do young fellow had become entangled in the rigging of his boat, and if that were true, he would drown unless someone went to his rescue. Giving a few hurried directions to her sister. she threw off her hat and plunged into the water where Harold had gone down.

"The accident had given young Colston so great a shock that no help could be expected from him-Agnes must save Harold by her own exertions or he must perish. She was cool and undaunted in spite of the trying situation in which she found herself, and taking a quick mental note of the surroundings, she dived underneath the

"Presently she reappeared, bearing Harold's unconscious form. Colston was able by this time to come to her assistance, and together they got him on the deck of the Sprite, and promptly began their efforts to restore him to

life. "They had a hard fight of it, but they conquered at last, for Harold man, too, was victimized over some soon opened his eyes and smiled up into the face of the gallant young girl and I could give you the name of a big who had put his life in jeopardy and

then saved it by her heroic action. "Now," added Darcy, "you know why I admire that young girl so much. for the men to taste), and dared not This story has never been told before to anyone but the friends of the two families, and I tell it to you now, Quelton, with the distinct understanding ly labeled wines in their cellars, some that you do not tell it with the true names of the parties."

To my readers I will say that I could not resist the temptation to relate the incident, but I have kept faith with Darcy-I have not given you the real names.

A Laundry School.

"This is the way we wash our clothes," is a familiar phrase in the playground and the nursery; it has now the little girls attending board schools in London. Laundry classes, at which they may acquire at least one useful accomplishment, have been established in various parts of the metropolis, and according to the annual report of the school management committee, have ing the year they were attended by 12,262 aspirants to proficiency in the art of cleansing and beautifying articles of every day wear. There are now seventy-one permanent laundry centers, and two others are building. Each school consists of one class-room, with accommodations for fourteen children, and is fitted with desks and seats, thirteen washtubs and ironing tables, a copper and a sink. The whole work is under the superintendence of Miss Lord and Miss Jones. At present there tresses and a number are being trained salary of the superintendents commence at \$750 per year, and rises to \$1,000, with a small addition for traveling expenses. Instructresses 'salaries rise to \$350.

Too Numerous to Mention. "Did you ever notice that almost all these misers reported in the papers are single men?" asked Mr. Watts. "Yes," answered Mrs. Watts. "married misers are too numerous to be

worth mentioning." When He Looked at the Bill.

POPULAR SCIENCE.

Leader.

Generally speaking, we say that the curvature of the earth amounts to about seven inches to the statute mile; here neither of the contestants cared to it is exactly 6. inches, or 7.962 inches

for a geographical mile. Lightning is zigzag because, as it condenses the air in the immediate advance of its path it flies from side to side in order to pass where there is the least resistance to its progress.

Scientists say that no negro has ever tamed an elephant or any wild animal, with wild animals after they have been cowed into submission by white men. Snow appears white because it is an uniting before they reach the eye, cause

it to appear white to every normal eye. A sun dial made for London would be useless for either Paris or Edinburgh. The altitude of the pole star varies with the latitude, and hence is greater makes with the dial-plate must vary be eaten."

with the latitude.

Dr. Burton Ward, according to the Medical Age, declares that there "is the thrifty landlady. boats might have been covered with one infallible symptom indicating whether one is sane or not. Let a person speak ever so rationally and act close together, Harold said that he ever so sedately, if his or her thumbs She turned quickly, looked toward him, of their thumbs when writing, drawing

WINE LABEL SWINDLERS.

Clever Devices Which Successfully Deceive Wine Buyers. "If people who follow 'brands' and

makers' names knew of half the swindles perpetrated with labels they'd be astonished," said a celebrated English wine merchant to exchange reporter. 'Why, I know a man, a former engraver, who can forge the brand of any wine in existence. This is his sole occupation, and working in league with him is a clique of rogues who buy un quantities of empty wine and champagne bottles from hotels and restaurants. Some of this gang have been wine merchants' assistants and understand bottling, and they fill the bottles with a low priced but drinkable port, claret, champagne, etc., and affix cleverly forged labels of the most expensive brands, bearing the names of foreign growers. Not only are the bottles peculiar to each grower used but they even procure the proper gold and silver foil from France, and as to corks. they know where to find a cork cutter | car and dining car. Most luxurious to the trade who will supply any shape | service via any line. and kind required. Seals are easily imitated by taking an impression and putting cobwebs on port wine bottles is an old dodge. They plant these spurious wines at certain restaurants and clubs, the wine buyer 'standing in.' I Building, Chicago. know more than one high class restaurant where these imitations are constantly sold to people dining there as genuine brands. So perfect are the forged labels that a military officer actually paid these sharpers over \$500 for some Madeira worth \$50 which they advertised as dating from the battle of Waterloo. A very well known noblepretended wine to the tune of \$1,000, firm of wine merchants swindled for nearly \$15,000 (a few bottles of genuine wine being procured and opened prosecute, for it would simply have ruined their business were it to be come known that they had hundreds of false-

An Object Lesson.

About the best object lesson in the way of il lustrating the old adage of "leaving well enough and Huron streets last Monday night of a farmer and family in a typical prairie schooner. Three years ago this man owned as pretty an 80-acre farm up in Huron county as ever the sun shone pon. But of course he got restless. He got the vestern fever and sold his pretty 80-acre farm for the ready, and started for Oklahoma. The writer of these lines, in the capacity of staff correspon dent for a western dally, made the "run" into the Cherokee outlet from the same point that the Huron county farmer, and knows some of the trials. This man located upon 160 acres of that red waste of wind-swept prairie land, paid the government \$1 per acre, his land office fees. and started to farm the "way they do in Michigan." One season settled it with him as it has with ousands of others. As fast as he could plow furrow, by the time he got round again, the wind would have it blown level with the ground. This ould be raised in Oklahoma was a choice variety of disturbances, and even went so far as to state that it was impossible to raise an umbrella. Afville, a surprise by having a supper and ter plodding along from bad to worse for three years this man ten weeks ago started for Michigan. His condition when he struck Vassar was in contrast conspicuously with the manner in which he left. Two old horses and a yellow dog constituted his live stock. In lieu of the neat-fitting frock coat was a tattered duck coat and an old pair of overalls, no money, no farm and precjour little hope. Moral of this is: If you have

Experiences Heavy Loss by Fire. Dynamited His Enemy's House. The humble home of Frank Konczal a Polish laborer of Springwells, a suburb of Detroit, was almost demolished by dynamite and three people were badly injured. It was about 10:45 p. m. and the occupants of the house were Konczal, his wife and eight children, including a married son, the son's wife, and a young German, named Robert Ewers who was paying attention to Josie, the oldest daughter. All had gone to bed except Josie and Ewers when suddenly there was a tremendous explosion, the walls were split open at the corner, plastering, flooring and furniture were hurled with terrible force through the rooms on that side of the house, windows were blown out and every piece of furniture, and crockery in the house was broken. When the neighbors who heard the explosion had arrived and a hospital ambulance was called it was found that Konezal and Ewers were terribly wounded and that Josie had a serious cut in the right eye. The others of the family were uninjured, their rooms being on the side of the house opposite the explosion. At the hospital it was found that Konezal had at least 25 wounds, covering

of one eve. The only stable theory as to the cause of the explosion is that Stephen Regulski, a Polish laborer, had a grudge against both Knoezal and Ewers and had often made threats of killing them. He is known as an ugly fellow and is feared by his neighbors. He was arrested about three hours after the explosion, at his home where he was found in bed with his clothes on.

his body from head to foot, caused by

splinters, gravel, etc., and one very

serious, where a large splinter had en-

tered the back near the kidneys.

Ewers' eyes had been terribly burned

and a splinter striking his head had

caused concussion of the brain. His

evesight is undoubtedly destroyed and-

he may die. Josie will lose the sight

Farmer Shot His Wife and Himself. Samuel J. Welch, a well-to-do and respected farmer living about three northwest of Unionville, shot his wife and himself.

On the fatal morning the family had breakfast early as usual and George Welch, a brother, had gone to the barn to do the chores. He had been absent but a few moments when he heard the discharge of a gun, which caused him to hurry toward the house. He saw his brother near the well with a gun in his hand and as George approached the gun was discharged and his brother fell upon knees; he grabbed the gun and ran to the house and there found Mrs. Welch dead upon the floor with her head nearly blown from her body, and her little 5-year-old boy standing by crying. He took the child and gun ance. While he was gone Welch went, back into the house, secured a revolver and shot himself through the head.

Samuel J. Welch was 53 years of age and his wife was 49. They moved to the scene of the tragedy two years ago from Yale, where they were married nine years ago. They had never lived agreeably together, having always quarreled more or less over their children by previous marriages. They were in good condition financially.

14 Buildings Burned at Traverse City. Fourteen buildings were destroyed by fire at Traverse City and one man lost his life. The total loss is estimated at \$55,000, with about \$10,000

The fire started in the drug store of C. A. Bugbee, on Front street, one of a row of frame buildings, and is supposed to have been caused by the explosion of chemicals. The flames soon spread to the Front Street house and other buildings adjoining. Many of the buildings were leading business houses. and it was only by the efforts of the firemen that a dozen others were saved. Edward Newberry, porter of the Front Street house, who was sleeping in one of the upper rooms, was cremated. It was thought that one or two more lodgers were burned, but no more bodies were found. There were about 30 guests and boarders in the hotel, but they succeeded in escaping through the windows in their night clothing. All of them lost their personal belongings.

Three Children Burnel to Death.

A terrible holocaust occurred at the residence of Alexander Campbell, four miles south of Perrinton. While the family were asleep the house took fire, and was soon enveloped in flames The alarm was soon sounded, but all the avenues of escape were shut off. One of the children escaped by jumping, but two others, aged 6 and 2 re spectively, and a cousin, aged 19, were burned to death. Neighbors flocked to the rescue, but were unable to do struck his gun, which went off and anything, the house soon becoming a mass of ruins. The charred remains were with difficulty recovered. How the fire originated is not known.

The semi-annual apportionment of primary school money is made by Supt. Pattingill. . ne total sum to be distributed is \$547,637.87, or 77 cents for every child of school age in the state.

The schooner A. J. McBrier went ashore above Port Hope and was released by the tug Thompson, after jettisoning the deck load of lath. While schooner capsized, but no one was lost. the bottom was damaged.

D., L. & N. Sold and Re-organized. The D., L. & N. railroad properties were sold at auction at Grand Ledge. John S. Lawrence, as master in chancery, acted as auctioneer. The D., L & N. was sold for \$100,000 to F. A Nims, of Muskegon, counsel of the system, in behalf of Charles Merriman and Alpheus H. Hardy, of Boston. The bondholders 30 minutes later organized the Grand Rapids, Lansing & Detroit railroad. The Saginaw & Western division of the D., L. & N. system, vas also sold to Charles Merriman and Alpheus H. Hardy, of Boston, for \$50, 000. This includes the branch from Alma to Howard City. They will consolidate it with the main road and improve the service in every respect.

THE TWO PENINSULAS.

The Michigan Association of Farmers' clubs will meet at Lansing, Dec. 7

found the petrified remains of three men in the woods. Fred Smith, aged 19, was fatally shot

Two woodchoppers near Newberry

by his brother Tom, aged 17, while they were hunting near Sturgis. Burglars blew open the safe in August Kleeman's grocery at Bay City,

and were rewarded by finding \$520. Albert Clark, of Wyandotte, was instantly killed by being shot by Chas. Davis at Flat Rock. Coroner's jury says it was accidental.

The Shaw Electric Crane Co., of Muskegon has just completed four large cranes for an immense manufacturing plant at Mariopol, Russia.

The state fish commission has bought five acres on Mill Creek, near Grand Rapids, for a black bass hatchery. It will be the only one of the kind in the

country. Gov. Rich has appointed Edward W. Lowe, of Grand Rapids, member of the Mackinac Island state park commission to succeed Thomas W. Ferry

deceased. The football teams of the University of Michigan and the University of Minnesota fought a hard battle at Minneapolis for the championship of the west. Michigan won by a score of 6 to 4.

The Cleveland Cliffs Co., at Gladstone, has made sales of pig iron since election sufficient to warrant running its furnace to its full capacity. For some time it has been turning out only about 100 tons daily.

Col. A. T. Bliss, of Saginaw, says the demand for lumber is increasing, and sellers are able to make better terms than they could a month ago. Shingles have advanced 30 cents per 1,000 and are moving briskly.

1Gov. Rich has appointed Gen. D. B. Ainger, of Charlotte, state bank commissioner, to fill out T. C. Sherwood's unexpired term. Gen. Ainger was a national bank examiner-at-large under Harrison. For four years he has been leputy auditor-general.

The four copper mines at Houghton which have been idle for some time. are soon to be consolidated and worked on a large scale on eastern and European capital. Employment will be given to over 800 men. A mill site has been secured on Portage lake.

Peter Zimmer, a Huron, was hauling cornstocks for fodder when his team started forward suddenly, throwing him to the ground. His head struck on the sharp corn stubble, bursting a blood vessel and causing death in a short time.

Frank Rockefeller visited James Mc Naughton, superintendent of the Chapin mine at Iron Mountain. He is about to visit the Gogebic and Vermillion mines to arrange for the resump tion of work, giving employment to 1,500 men. It is believed work will also be resumed at John D. Rockefel-

ler's mines. The Cincinnati saw mill, owned by Mrs. H. E. Carpenter and Mrs. B. P. Wodon and valued at \$30,000, and the Salsburg brewery, owned Jacob Knoblauch & Son and valued at \$20,000, both located just north of Bay City, were burned by a supposed incendiary fire. Davison's shipyard and Wilson's hoop mill were saved by the wind shifting.

Gov. Rich has paroled Benjamin H. Hicks, sent up four years and six months from Grand Rapids for taking liberties with a little girl. Hicks is now 64 years old. Elmer Northrop, sent from Van Buren county 12 years ago for rape, is also paroled. He was a stupid, illiterate, boy of 18 when the

crime was committed. Samuel Nixson, aged 87, was cre mated in his shanty, about three miles east of Britton. An old wornout stove is supposed to have been the cause of the fire. Mrs. Nixson and her brother, Henry Prentiss, were in another house only 20 rods away and knew nothing of the fire until an hour later. Two of Armour's box cars and several small

ouildings were destroyed. Henry Schmid, aged 14, and several other boys were shooting quail near the father declaring that God had ap-Flat Rock. W. C. T. U. CONVENTION.

The National Body Held an Interesting Five Days' Session at St. Louis.

The twenty-third annual convention of the Women's Christian Temperance Union was held for five days at Music hall, at St. Louis, with the greatest attendance of any one previously held. At least 500 accredited delegates were present and as many more visitors from every portion of the county. Miss Frances E. Willard, national president, called the meeting to order. She was received with a salute of waving handkerchiefs. It is decided to make March 20, birthday of General Neal Dow, a prohibition rally day. The report of the Treasurer, Helen M. Baker, of Illinois, showed that the total receipts were \$27,708 and the expenditures \$24,-115, leaving a balance of \$3,592. The report of the corresponding secretary, Mrs. Catherine Lent Stevenson, of Massachusetts, showed that during the year 1.175 new unions had been organized, the gain in membership being 15,888. The gain, however, had been offset by a corresponding loss. Mary F. Lovell. of Pennsylvania, superintendent of the Department of Mercy, reported that 10,542 children were enrolled in the Band of Mercy.

Bishops of Methodist Episcopal Church Meet in Detroit. Mich.. To Plan for Raising and Appropriating over a Million Dollars a Year for Missions

Noted Methodists in Convention. The general missionary committee of the Methodist Episcopal church met in the Central M. E. church at Detroit, Mich. The committee is composed of the most eminent men of that denomination and 17 of 21 bishops, the leaders of the 3,000,000 members, were present, besides prominent clergymen and laymen from all parts of the country. Bishops Bowman, Foster, Merrill, Andrews, Warren, Foss, Hurst, Ninde, Walden, Mallalieu, Fitzgerald, McCabe, Cranston, Thoburn, Hartzell, Fowler and Newman were present, the absentees being Bishops Taylor, Goodsell and Joyce who are on tours of evangelization in foreign countries, and Bishop Vincent who is preparing to go. The bishops have traveled around the world several times in their work and have learned to know all sorts and conditions of the human family, and to feel sympathy for the savage and degraded races of far-off lands as well as for the poor and ignorant of more civil-

ized nations The business of the committee is stupendous, including the disbursement of a good sized fortune to the various branches of mission work and the laying of plans for raising another fortune to be nut out the next year. The report of the treasurer showed the cash receipts to be \$1,221,258.18, a gain over last year of \$46,703.80. Of this total \$78,098 was a special contribution toward the debt of the society. The expenditures were \$1,170,117 16, leaving a balance of \$51,141.02. This balance applied to the indebteduess leaves a total of \$187,914.34, which the mission committee owes its creditors. After lengthy discussion which showed that the men of God were good financiers is was voted to place the appropriations for next year at \$1,121,000. Platform meetings for the general

public were held each evening and the bishops were distributed among the different churches on the Sunday of the convention week. Uncle Sam Made the Turks Back Down. The British steamer Boyne, from Mediterranean ports arrived at New York without a manifest, for which

Capt. Fisher offers an explanation. As the Boyne lay off Smyrna, Turkey in Asia, he heard the noise of riots and the cries of victims of the bloody Turks. Towards dark a small boat load of Armenian refugees came out to the Boyne and Capt. Fisher took them aboard. Soon after some Turkish soldiers came out and demanded the surrender of the Armenians and upon The captain sought assistance from an Italian man-of-war and was refused, but at dawn the U.S. warship Minneapolis came into the bay. When the Boyne signalled her trouble Admiral of the U.S. Mediterranean squadron, you want. You'll take those refugees safely out of this port if I've got to bombard the town," and the admiral ordered off the Turkish barge and sent a detail of marines and blue jackets over to the British ship, with orders to hold her safe from attack. With this Capt. Fisher set sail.

Italy Forced to Abandon Ethopia. A cable from Rome says: Maj. Verazzini, Italy's envoy plenipotentiary to derstanding. Mr. Olney's extension of the Negus Menelik of Abyssinia has the Monroe doctrine, itself not before telegraphed to the Italian government acknowledged by any European power, as follows: "I have to-day with great has now received the sanction of Great solemnity signed a treaty of peace and Britain. But it would be profitless as a convention for the release of the prisoners in Menelik's hands. The treaty provides for the restoration of the status quo pending the appointment of delegates by Italy and Abyssinia a year hence to determine the frontiers by friendly agreement." It recognizes the absolute independence of Ethiopia and abrogates the Uccialli escence." treaty. Italy undertakes in the meantime not to cede the territory to any other power. Should she desire spontaneously to abandon the territory it would return to the Ethiopian rule. By the Uccialli treaty concluded in 1889 between Menelik and Italy, Abyssinia became an Italian protectorate. The settlement announced by Mai. Verazzini is the outcome of Italian reverses at the hands of the Abyssinians.

Japan Coming to the Front. The report of the United States commissioner of navigation for 1896, after referring to the necessity for the passage of a free ship bill, states that our maritime rank on the Pacific is now threatened by a new rival, Japan, which has just established a trans-Pacific steamship line to the United States beat it out of him. The parents beat and, with the co-operation of American capital, is preparing to rapidly extend the service.

As he was doing so he was inconscious by the trainmen.

UNITED STATES WINS.

Great Britain Agrees to Arbitrate the

Venezuelan Boundary Dispute. The arbitration of the Venezuelan dispute is a settled fact. All arrangements have been completed at Washington and all details of the arbitration treaty between the United States and Great Britain are arranged. The terms were cabled to London and have been accepted. The treaty covers Venezuela only, and does not include a general treaty of general arbitration between the United States and Great Britain, but opens the way for future negotiations to that end.

The king of Sweden and Norway, Oscar II, has been chosen by the treaty as the fifth and final arbitrator. The other four are to be designated two by the lord chief justice of England and two by the chief justice of the United States. Venezuela will not be directly represented on the comission.

An essential feature of the treaty is that 50 years' actual possession is to constitute title. With this limitation as to the settled districts the entire sweep of Venezuelan, boundary is placed in the hands of the court of arbitration. The treaty was concluded in Washington at the British embassy, Sir Julian Pagncefote representing her Brittanic majesty, and Secretary Olney the United States.

The Monroe Doctrine on Top.

Now that the facts of the Venezuelan arbitration agreement are known fuller information is obtainable as to the form the compact has taken. There are two distinct papers in the transaction. The first and by far the most important one is in the nature of a solemn agreement between the United States and Great Britain on the terms by which the boundary question will be settled and the form of the court of arbitration. Then, because the subject matter of the boundary lies between Great Britain and Venezuela, a second paper is made necessary. This will be in the form of a treaty, the contracting parties being Great Britain and Venezuela. Each instrument will relate to the other, and be a part of a common understanding on the entire subject. In this way Venezuela retains her attitude as a contracting party to the final treaty. The fact of the United States being made a principal in the arbitration, while Venezuela is not represented in the commission. does not establish the policy of a protectorate by this country over the smaller republics of this hemisphere.

The first contention of Great Britain was that if the Monroe doctrine was recognized it would bar foreign governments from one form of redress for grievances or damages inflicted upon any of the great powers by these small republics, and that therefore the United States would have to stand surety for the good conduct of the governments whom we protect in their territory. Mr. Olney made it clear that the United States would not accept this contention, but that we would confine ourselves to the one proposition, that no foreign power should establish dominion over territory on this continent, and care was taken by Mr Olney that the action in this case should not hereafter be interpreted to mean that we assumed any responsibility for our sister republics In view of this fact the agreement of arbitration between Great Britain and the United States is based entirely upon the recognition of our right to enforce the Monroe doctrine.

What the Foreign Press Thinks of It. The London Speaker publishes an article in which, after recalling Lord Salisburg's reply to Secretary Olney in regard to Monroeism, it says: "An entirely new order of things has been established by the Anglo-American unwell as somewhat painful to touch upon this delicate ground. What had to be done, had to be done, and that is the long and the short of it. We may not like it; but there ought to be no difficulty in choosing between the absurdity of complaining over the inevitable and the dignity of smiling acqui-

The St. James Gazette says: "Lord Salisbury's great admission of the principle that the United States have the right to intervene in frontier disputes of the American powers and to compel the disputants to arbitrate, altogether transcends in importance the question of the Guiana boundary. It is a formal recognition of the hegemony of the United States on the American continent, and gives the President a position in the new world which the mediaeval popes and emperors tried vainly to claim in Europe."

The Paris Temps says the agreement endows the United States with absolute supremacy in the western hemisphere, and that it must be a bitter pill to British pride to consent to that.

BRIEFS.

Diphtheria is now prevalent in a number of towns in the copper mining district of the upper peninsula, and despite the vigilance of health officers and physicians for the past six weeks new cases are constantly appearing. Mrs. Wm. H. Vanderbilt, who died

suddenly at the home of her daughter, Mrs Elliott F. Shepherd at Scarborough-on-the Hudson, N. Y., was buried from St. Bartholemew's church, New York City. The eight children were present as were her grandchildren, except Cornelius Vanderbilt, Jr., Consuelo, duchess of Marlborough, and Mrs. Henry Payne Whitney, all of whom are in Europe.

At one meeting of the Methodist missionary committee at Detroit Bishop McCabe raised \$3.500 for mission work and said he would make it \$5,000 before the week ended.

HOT FIGHTING IN CUBA.

Report Says the Insurgents Drove the Spanish Army Back Eight Miles.

A recent dispatch from Havana said: Capt.-Gen. Weyler has taken the field in person against the insurgents under Antonio Maceo in the province of Pinar del Rio and reliable news received from the front indicates that the Spanish columns are approaching close to the enemy. Strong reinforce ments were embarked to support the captain-general in the operations against the insurgents. Gen. Weyler arrived at Mariel and left shortly afterwards, going in the direction of Guanajay, on the military trocha. News from Mariel of numerous skirmishes in that region indicate the activity with which military operations are now being pushed. The troops were extended for five miles along the highway. Capt.-Gen. Wevler left Mariel with a column of 6,000 infantry, 400

cavalry and six cannon. A later dispatch from Key West says: Capt.-Gen. Weyler has at last met the Cubans on the field and has suffered a repulse, according to the advices per steamer Olivette, from Havana. Weyler, it is said, was attacked while encamped in the Gobernadora hills, in Pınar del Rio province, by the Cubans under Perico Delgado and Perico Diaz. The Cubans surprised the Spanish outposts and for a time great confusion prevailed in Weyler's camp. Weyler is said to have fallen back about eight miles. During the retreat the Cubans killed 34 Spaniards

and wounded 60° others. A report has been sent out from Havana which says that the Spaniards defeated the insurgents and captured their position. Another dispatch from Key West, however, corroborates the report that Weyler was driven eight miles. Maceo had been informed of the proposed attack and made preparations to give the enemy a warm reception. Sharp fighting ensued for several hours, which ended in the retreat of the Spaniards. Maceo's 500 sharpshooters were placed in advantageous positions and did deadly execution. Early in the fight they singled out Gens. Melguez and Echague and shot them down. The report further says that Gen. Weyler himself was shot in the leg. Havana is in a whirl of excitement. What Is Uncle Sam Up To?

A special dispatch from Washington says: "The war department has called on the leading trunk line roads running to Key West, New Orleans and the other gulf ports for an immediate statement of their capacity to move troops, supplies and heavy war material. The information demanded is complete to the most minute detail and embraces such questions as: 'If you are required to move 5,000 troops over your lines with necessary equipments and supplies how long after notification will you require to perform the service?' Caution as to secrecy is imposed on all roads called on for information."

No one doubts that a brighter day is dawn ing and it is a common remark that never be fore has business shown so great a chang-for the better within so short a time. Dis for the better within so short a time. Dispatches telling of about 500 establishments which have opened and have materia enlarged their force, though they fill melarms, give only part of the facts, for throughout the country the gain has been surprising even to the most hopeful. It is not mere speculation or hope which lights the fires and starts the wheels, for orders which have been accumulating for moothes. the fires and starts the wheels, for orders which have been accumulating for months, with the necessary replenishment of dealers' tocks now greatly reduced, would employ he whole producing force for a time, and he increase in the number of hands at work neans increase in purchases for consumption. Foreign need of American wheat continues an important factor, and the prices have advanced—a total of 24c since early in eptember. The price is the highest since fune 1892. Many textile works have been tarting or increasing force, mostly on orters booked weeks ago. But there has not been much gain in the demand as yet, there is slightly better demand for lightweight men's goods and for dress goods, but not enough as yet to start most of the waiting mills. The cotton goods market is not yet active, but more liberal estimates of the cotton crop are generally credited.

Returns from Wyoming show that the Bryan electors were elected by a majority of 29. The opening of the German reichstag

drew a large crowd in anticipation of some important revelations as to the German-Russian secret treaty which was made public through Prince Bismarck's paper recently. The imperial chancellor, Prince Hohenlohe, however, treated the subject evasively. He said that Germany is for peace, that her relations with her allies were very friendly, and that there is no proba-

SCROFULA OR ECZEMA?

PHYSICIANS FAILED TO AGREF ON THE CASE.

After Years of Suffering the Patient Takes Up His Own Case and a Cure Is Effected in a Few Weeks-This Is a Wonderful Story.

From the Times, Vassar Mich.

Michigan has been the home of Arthur H. Thomas for twenty-six years. and he is known in Edmore, Bad Axe, Bay City and Vassar as an honest, pains-taking, conscientious workman. Observing a most radical change in the personal appearance of Mr. Thomas since his residence here, a representative of the Times called on that gentleman, who said in response to our inquiry: "Your remark regarding my appear-

ance calls to my mind vividly a very important circumstance in my life. It's not a long story, but it means considerable to me, for it marks the dawn of a new life. I am now in my twenty-seventh year, and since about fifteen years of age I have been afflicted with which does not convey to the average person the true suffering it carries.

"My face first broke out in small sores, next my back, then my arms, until almost every part of my entire body was covered so thickly that you body was covered so thickly that you

could scarcely place the point of a lead pencil upon my flesh without striking a sore spot. My sufferings gradually increased as the disease attained age. The tortures no tongue or pen could describe. I consulted physicians of repute at Edmore, and after following their instructions and taking their medicines as directed, I gave it up, because I obtained no relief.

"I was next recommended to a prac-itioner in Bad Axe, for whom a friend claimed great success in skin diseases prescribed for me, but failed to give reief. I was now undergoing most excruciating tortures; dry and parched as my skin was, I could obtain no rest at night from the horrid plague. I tried blood medicines by the score, and as a last resort placed myself in charge of another physician at Bad Axe who disagreed with the others in pronouncing my case scrofula in its worst form.
"His treatment, however, did me no good, and after going to Bay City in charge of another physician who also falled to allay my sufferings, I took the advice of a Pinconning friend whose wife had been greatly distressed from the same causes, and began the use of Dr. Williams' Pink Pills for Pale People. The first box so thoroughly cleansed my system of its impurities that before I had taken all the pills I began to resume my natural sleep. Before completing the second box my face and body became free from blotches, the sores disappeared and I was as well as I ever was. No, sir, I cannot speak too highly of Pink Pills. They cured me when all other medicines and physi-

cians failed."
Dr. Williams' Pink Pills for Pale
People are not a patent medicine in the
sense that name implies. They were first compounded as a prescription and used as such in general practice by an eminent physician. So great was their efficacy that it was deemed wise to place them within the reach of all. They are now manufactured by the Dr. Wil-N. Y., and are sold in boxes (never in loose form by the dozen or hundred, and the public are cautioned against numerous imitations sold in this shape) at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or direct by moil from In Willears! Medical had been also as the public are considered by moil from In Willears! rect by mail from Dr. Williams' Med.

Civilization may justly claim to have perfected the boor.

\$106 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded lisease that science has been able to give disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testhat it fails to cure. Send for list of tes-

Too | son had drawn on him for the whole Violante, I must thank you for teaching your daughter to have such kindly sentiments for me."

"I told her the story, Emile, to explain why I had kept her in such strict retirement, and because of her girlish repugnance to her marriage with the

"You do not approve, then, of these unions which consult only fortune and least, it seems to me. But, Felicie, I title, Lady Felicie?" observed Emile, no longer urge upon you this marriage as they slowly left the wood.

fervor. "And what says the countess?"

"That it is cruel to excite repugnance to a destiny you know is inevitable. But the system is as detestable to me as to any one."

"It is to last but a frail moment longer!" ejaculated Emile. "O, France! at what terrible carnival of frightful you could not help yourself if you tried; in barrels of clams.

passions is your purification to come!" They had now reached the open

"Do not accompany us farther; there or threw the ghostly is no occasion for it, and your time is circle upon the valuable," said the countess.

He turned at once.

"Then I wish you good-night." The ladies waited till the woods hid his figure from them, then went slowly earnest face in all | toward the chateau, from whose boudoir windows, as they approached near. they saw the cheerful lights streaming forth like a beckoning star

"Oh. mamma." said Lady Felicie. "I wonder so much at you! Title nor fortune, nor forty fathers should have separated me from Emile, so grand and

The countess paused suddenly, and leaning heavily against her daughter, burst into a perfect passion of tears. The stern pent emotion once finding vent, it seemed that she would never grow calm again. Felicie was deeply cally, called her by every endearing name, and besought her to recover composure. Nothing seemed to avail, until suddenly the idea occurred to the

daughter to feign alarm. "Hark!" exclaimed she. "Oh, mam ma, is not that M. Pierre, yonder?" One great shudder shook the countess, and seizing Felicie by the hand, she dragged her into the shelter of a face, and was evidently shocked at the cluster of mulberry trees. She listened anxiously for several moments, then cautiously resumed their approach to the chateau. The little ruse had been successful. They reached the balcony in safety; stealthily followed the unused corridor and gained the boudoir. Hastily removing their wraps, and putting them out of sight, the pair sat down, and assumed an attitude of care-

mained there through the whole even-"We must show them that we are here. Open a book, Felicie, as though you were reading, and then ring the bell and order a flask of wine. I am deathly faint. Give the order yourself, for I fancy I could not steady my tones vet" She leaned back in the chair, her face as pale as marble. of far more propitious circumstances." "Dear, dear mamma," cried Felicie, through a flood of tears, "I spoke thoughtlessly; I never meant to hint that I believed you anything but the angel you are!"

She flung herself upon her mother's breast, and they mingled their tears to gether. After this they were both comforted. They shared the same couch that night, and long after Lady Felicie had fallen into the sweet slumbers of innocence and youth, the pale mother bent above her, whispering softly:

"Oh, my beloved one, may Heaven spare you the bitter trials of your hopeless mother. At least, though your warm, womanly devotion be not aroused, may you find a husband you can respect and honor, and not a narrow-minded, tyrannical master, who crushes your most strenuous efforts to fulfil your duties loyally."

In two days longer, as Emile had prophesied, the count arrived with his noble friend. If the servants marveled at his quiet entrance, his freedom from the accustomed retinue of attendants. they stood too much in awe of him to comment upon it. He greeted the countess with his usual stately courtesy, but he clasped his daughter to his heart ere he presented her to the marquis. It was true, that she was the dearest thing in the world to him, except his pride and his selfishness. He loved her as deeply as his narrow nature would allow.

"This, De Berri, is Lady Felicie. You see she has quite outgrown the little girl you remember," said the father,

The old marquis bowed gallantly over the trembling little hand extended to

"I greet the Lady Felicie with a great deal of pleasure, and no little admiration. But I shall allow a younger voice to describe the effect of such fresh loveliness upon our dull, Parisian

eyes.' "Your son has not accompanied you?" observed the countess, to spare her agitated daughter the necessity of

reply. "Not vet, my dear madam. He took a more circuitous route. You are doubtless aware of the revolutionary state of the whole country. He was imprudent enough to express his indignation at the brutal insolence of the mob toward her gracious majesty, the queen, and very nearly paid the penalty of his boldness. I shall not feel quite easy till he reaches us."

"I have heard very little from Paris. You know our extreme isolation, and the count prohibited intercourse with Fejus. I hope you do not apprehend serious results?"

"One cannot say what will happen It had grown a little quieter, but the leaders are subtile now; they have but to touch a spring, and the mine is fired. Heaven help all who come in the way

The countess looked anxiously over b her husband. "Have you any fears of this insub-

ordinate spirit reaching Feius?" asked "Pshaw!" said the count, testily 'what do women know of such things.

I must go and talk with M. Pierre, and see how affairs have gone on." "Stay," interposed the countess, "had you not better listen w my account first? I assure you it will be

wiser." With his accustomed perversity, from the paltry desire to show that he was lord and master over this woman of twice his intellect and force of character, the count replied, contemptuous

ly: "Your account, indeed! I would as scon question one of the servant girls. I should have to allow one-half for give language to your antipathy to my worthy Pierre, and the other half to your ignorance of all business matters, and then where would my result be?"

The countess colored deeply, while Felicie's eyes flashed indignantly. (TO BE CONTINUED.)

FOR SUNDRIES.

Why the Spendthrift Son Ruined His Rich Father.

His rich father had given him the bicycle—turned it over to him as a gift, ly not cost him a cent. It was not that the young fellow was poor. His so peculiar and delicate make it very | father was a millionaire and it delightembarrassing to speak plainly with ed the old man to equip the boy with you, yet I cannot endure that you all the luxuries and costly accessories son an allowance of \$25,000 a year. A more than I make. At last he had him to go ahead. And the young man and suffered bitterly; that I have father going to the office one morning meant it should only be myself to be was informed by his white-faced conimmolated. Circumstances have cruelly fidential clerk that he was ruined. The power given me to make the best of was surprised. and it closes at the shoulder. The mousquetaire sleeves are arranged over close-fitted linings, the fancy puff of striped etamine being stylishly draped at the shoulder. Lace frills fall from the wrists over the hands. The fashionable skirt is shaped with six gores. the center of each being cut straight with bias edges that meet in V style. The front and sides fit smoothly at the top, the fullness in back being laid in two box-plaits with placket closing in center. The mode will develop handsomely in various combinations of materials, and affords an excellent opportunity for the display of elegant fabrics and trimming.

Showing One's Affection.

J. T. E. is evidently an attentive reader and has a good memory. He refers to a bit of correspondence published some time during last winter, in which Mercedes complained that her best young man bestowed tender glances on other young women, whereby her heart was made sorrowful. J. T. E. thinks Merecedes could not have given her said young man enough smiles and evidences of her affection for him. else he would not have sought them in other directions. He continues: 'A young man likes to have a young lady show some regard for him, if she cares for him at all. And if she fails to do this, she naturally must accuse her-

Stooping Shoulders, Etc.

Argentine and Truly have been for some time troubled with a tendency to stoop. They declare that they try to sit up erect, but efforts are of no account, for they drop back at once into the objectionable form. They want to know some remedy, as they are threat ened with shoulder braces and straight jackets if they do not stop the habit of stooping. Answer: Shoulder braces and all kindred appliances are of but little value as aids to an erect position or an elegant carriage. It would be far better to take a course in physical training of some sort, or to row, or ride the wheel, provided the correct posture was maintained. It is often the antee a cure. Booklet and sample mailed free case with young persons who grow rapidly that their muscles do not grow strong as fast as their size increases They therefore feel weak and sometimes languid, and lack the spirit and elasticity that should characterize youth and fairly good health. Corns and warts are said to be forms of dis ease—at least are abnormal growths. There are many alleged cures for both, but a real, genuine, permanent cure would make the fortune of its inventor.

Sisterly Discipline. Nellie K. S., seventeen years old, has a sister who is eight years old. Nellie instructs her small sister, but her patience is sometimes severely tried by the carelessness and inattention of her young pupil, and her mother, to whom she appeals, gives her permission to punish the delinquent. This she does, but scarcely feels comfortable about and writes to ask if she did right in punishing by using a school rule on the child's hands. Answer: Under ordinary circumstances, it is much better to leave all such punishment to the child's mother. There must not be two authorities in the house over one child. In case the elder sister is the only guardian and caretaker of the younger, it is well to insist upon obedience; but the less punishment the better, under any circumstances, and especially if there is more than one person to give

T. P. is a young woman who enjoys the best of health, but she is often asked if she is ill because her eyes ook heavy and there are shadows beneath them. So much is said about this that she is somewhat disturbed. and asks if there is any remedy for this appearance. Answer: If one habitually has such shadows under the eyes it indicates nothing, and should excite no comment. Some persons have these shadows all their lives. Under such circumstances there is no remedy. If they come from ill-health a tonic is sometimes beneficial.

With Slashed Bolero A charming model illustrated here, embraces the latest novelty in bolero jacket and full belted bodice. Glace silk was selected for the costume. The ground is of vivid green, showing stripes of deep red, or rather "beet root"-a color very much in evidence for the coming season. The bolero of velvet, in the same rich tone, cut in deep slashes, reveals glimpses of the bright hued silk beneath. The fonciful tabs falling over the sleeves are a continuation of the jacket, which is outlined with applique and narrow edging of cream lace. A crush belt, of the usual depth in front, encircles the waist, but gradually widens toward the center of back where it closes between tucked shirred edges and extends above the waist line. A standing collar is concealed by a crush stock

above. The skirt, with six gores, i of moderate fulness, smooth fitting as There is a revival of the beautiful the top, but widening perceptibly toward the lower edge, where two bias folds of silk and narrow lace edging form the decoration. Baffled Many Times but Success Comes at Last.

(From the Grand Rapids Press.) The following incident would be hard to believe if it had not occurred right here in Grand Rapids, and investigation by our representative has placed it beyond the reach of doubt. These are the facts in detail: Mr. J. H. White of No. 25 Haifley Place, has been an instructor in penmanship in different business colleges for the past fourteen years. He says: "Last October I was suddenly taken ill. I consulted a physician, who said the pain was from 'gravel' stones; gradually grew from worse; the pain, was in my back and side. My back swelled up in a great ridge, and I finally grew so bad that I was taken to ped, as helpless as a child. I passed blood, and when the pain was at its worst I was like one crazy. The doctor injected morphine to give me relief, but further than that he said he was powerless, and nothing would do me any good but a surgical operation. I believe my flesh was literally cooked in the attempts to relieve my agony, everything was used, mustard

plasters, turpentine, hot cloths and all such things. I was in this condition, given up by the doctor, and almost out of my mind with suffering. I commenced taking Doan's Kidney Pills, and really I felt easier in 20 minutes. After about two hours I had a passage of urine, and passed blood and some 'gravel' stones which greatly relieved me. I rapidly improved. I took in all six boxes, and I feel to-day entirely well. Mine has been a wonderful case. I feel that I cannot say anything strong enough for Doan's Kidney Pills. My great wish is that they may become well known. They will prove a boon to man-For sale by all dealers, price 50 cents.

RESCUE.

McKinley is elected, and politics have changed into business.

At present, the people of this vicini ty are being visited by very fine weather. May it continue.

Postmaster Carroll (the business man of this town) is now preparing for a stone-wall under his new mansion. In time, he will have a house that will do you good to look at.

Our school at this place, opened this month with an enrollment of 42. We have a large attendance and a brighter happier and more energetic lot of scholars never existed.

The game season is now open and the hunters at this place are making use of it, to the utmost. We are reminded of one hunter, who hunted five days plant. and saw one rabbit, which, fortunately escaped.

We, the people of this vicinity, are receiving the best instruction, from the Free Methodist Ministers, that was ever given here. Saturday and Sunday evenings, five of them occupied the pulpit. We are sure they were in earnest, because they had the largest congregation and the best order ever heard of.

CANBORO.

A number of our town people are to day at Bad Axe.

Rob. Burleigh and daughter, Mary,

are at Elkton this week. Mrs. Hintz, visited with her friend

Mrs. Dulmage, on Sunday. We are told there is a wedding in view. At least so Mrs. Gossip says.

John Atkinson and family will move Tom Stephens, of Elkton, Sundayed with his brother, Rob. Burleigh and

Mr. Smith, of Saginaw, and Mr. Parks, of Elkton, are in town to day on business.

Fred Lown is moving his household effects to-day from Cass City, his house is now finished.

Rev. Wade, of Elkton, preached at the F. W. B. C. on Sunday evening to a large and very attentive congregation.

Bean threshing is taking the farmers time and thoughts now election is over. Det Webster received 100 bushels from four acres. Not so bad for Grant's sand hills.

The L. O. T. M's. of Canboro intend to have an entertainment Dec. 15th. Admission 25c. They also have two quilts which they will sell or dispose of to the best advantage.

GAGETOWN.

D. O. Gibbs and wife were in Caro Sunday and Monday.

Eli Carr and Wm. Ritchie were Bay Port Wednesday.

Miss Edith Purdy, of Caro, was here to see her brothers Friday.

Services will be held in the Methodist Church every Sunday evening.

The recent election has done won ders in restoring confidence and starting up factories in this country. But the strangest thing caused by the counting in of McKinley Wednesday night after the election, occurred at Wm. McKee's in Brookfield, Hnron County. Four years ago, when the news came that Grover Cleveland had been elected, Mr. McKee's clock to Harrison, Mich., in the near future. stopped and it has refused to run since then, although local tinkers have tried their best to make it go. Wednesday night, Nov 4th, after McKee and his had spasms over the results of the election and ceased to chronicle time. preferring to leave the past four years a blank in its history.

Wm. Baker, of Saginaw, has been here for some weeks putting his mill in running order and Saturday leased the mill to Brit Predmore, of Kingston, for a year and Mr. Baker left on the afternoon train for home. The mill has three good run of stone, one each for flour, feed and buckwheat. Mr. Predmore has secured the services of Mr. Moe as engineer and the mill started up Tuesday under the new management, and as Mr. Predmore is well known in this community, having been first miller in the Cass City mills for many years, it is needless to comment on his skill and ability in the milling business, but will say this to the public: Be generous and give Mr Predmore a fair trial. The mill has turned out an excellent quality of buckwheat flour so far.

One of Gagetown's early settlers is gone. Margaret, the wife of John Wilson, departed this life at about noon Friday. Mrs. Wilson fell from a chair some weeks ago and was confined to her bed, from which she did not rally. Deceased was the daughter of Matthew and Elizabeth Seekings and was born at Little Donham, Isle of Ely, Cambridge, England, in 1821 and was married to Mr. Wilson at her parental home about the year 1849 and they soon thereafter sailed for America, landing first at New Orleans and later ging to Vicksburg, Miss., and from there to Medina, Ohio, where they lived four years. They then came to Gagetown and have resided here permanent-

ly. Mrs. Wilson leaves no children, but a husband, one sister and two brothers survive her-Mrs. Geo. Clara and James Seekings, of Kenton, Ohio. and Samuel Seekings, of this place. Deceased was one of those retired about three-quarters of an acre of rarely visiting among friends or neighbors, yet she had the faculty of making her guests feel at home and was church and the funeral was held at the Episcopal Church Monday at 1 p. m.,

> The Wife-Be careful, John, and don't let the baby drop on the hard
