The Porte will form twenty new cavalry regiments in the Elassona and raises the army war footing to 70,000 been purchased. So say the foreign dispatches. This would seem to indicate that Turkey has settled in her own mind the question of the evacuation of Thessaly. The Sultan is quietly mobilizing an army of sufficient size to hold in check Russia and perhaps England.

The questions whether the statutes relating to national banks prohibiting one, for, no matter how carefully flowthem from purchasing or subscribing ers are prepared, they contain so much moisture that they invariably ruin that to the stocks of ano er corporation and whether the want of authority can be urged by the bank to defeat an attempt to enforce against it the liability of a stockholder, were passed on by the United States Supreme Court Monday, in the case of the California National Bank, plaintiff in error, vs. Nat Kennedy. The court holds that a national bank has no right to deal in stocks, although it may accept them as securities, and that it may plead its want of power as defense in a case like the one in question. The transaction in the stock of the savings bank is held to have been void, and the judgment of the Supreme Court of California against the national bank is reversed.

OF INTEREST TO WOMEN. One of the latest fads in entertaining

is the gridiron party. The smart bohemian set of London is fond of this diversion, and even the prince of Wales has lent his presence to gridiron parties. The hostess herself must do the cooking and the broiling of a steak or chop becomes of absorbing interest to the company. Dainty silver gridirons are used by the amateur chefs, and smart white aprons are donned to protect handsome gowns.

Every one knows that the horseshoe is accounted lucky. Hundreds of years ago the horse of a Roman princess cast his shoe and a humble artisan rescued it, pressed it to his heart and was crushed beneath the horse's feet. He was picked up for dead, but recovered, and the princess was so touched by his devotion that she married him.

It is said the o'dor of flowers is antibreathed music or heard flowers."

A CURIOUS STORE. Stock and Prices Have Not Changed i

Thirty Years. From the Chicago Tribune: In Bainbridge, Geauga county, Ohio, not fai from Cleveland, is the queerest country general store I ever ran across. Bain-

the Pacific Slope-He Is a Jew and bridge is a small hamlet, but the store as Such Is Barred from the Czar's is as large and well stocked as the average suburban store. It is kept-that is precisely the word for it-by an old widower who has no relatives in that section of the country and is practically a hermit. When the civil war began he was running a flourishing general store in Bainbridge, and made money rapidly during the succeeding four years. When peace was declared prices, which had been greatly inflated, took a sudden drop. The old fellow believed that this would be followed by a boom which would send prices skyward again, and refused to sell his goods for less than he paid for them. Down went the prices-down-down-downand finally he was forced to close his store for want of purchasers. Today

his store stands almost exactly as it did thirty years ago. It is stocked with such goods as are generally found in country stores, but, of course, the stock is now practically worthless. Every day the old man opens the place to give it an airing. He is there, too, for business, if any one chooses to buy what he has to sell and is willing to pay what he asks. "Why, sir," he said to me, "scme of the calico I've got here cost me sixty-five cents a yard in 1867. Wouldn't I be a fool to sell it for five cents?"

THE MORRIS BROTHERS.

Remarkable Quartet of Hale and Hon ored Men 306 Years Old.

Few localities are favored with a more remarkable quartet of brothers than Punxsutawney, Pa. The four Morris brothers dwell in the immediate vicinity of each other. Their combined ages number 306 years. The picture here given represents them as they appeared last week in a picture gallery where they met by previous engagement to be photographed together. James Madison, the eldest (in center of group), is 82 years of age. He was born in Northampton county, and has three living children. Theodore, sitting on his right, is 78 years old. He was also born in Northampton county, but has lived here since childhood. C R. B., the third brother, stands on the

left of J. M., and is 76 years of age and a native of Jefferson county. He has no living children. J. B. th youngest, is 70 years old. He has a large family.

These brothers are farmers, and have by industry and economy succeeded in reaching comparatively easy circumstances. In religion they hold to the Cumberland Presbyterian faith. In nolitics they are Democrats and Populists, but this makes no difference in their love and affection for each other. No family holds a higher place in the esteem of the whole community than these aged gentlemen, and for nobility,

ture, as they have been affected in the perors of other days have no such do-TALMAGE'S SERMON.

SAVE THE CITIES, THE SUB-JECT OF LAST SUNDAY.

From the Text: Ezekic!, Chapter XXVII, Verse 3, as Follows: "O Thou That Art Situate at the Entry of the Sea" -Moral Leprosy the Destroyer.

HIS is a part of an impassioned apostrophe to the city of Tyre. It was a beautiful city-a majestic city. At the east end of the Mediterranean it sat with one hand beckoning the inland trade, and with the other the commerce of foreign nations. It swung a monstrous boom across its harbor to shut out foreign enemies,

and then swung back that boom to let in its friends. The air of the desert was fragrant with the spices brought by caravans to her fairs, and all seas were cleft into foam by the keel of her laden merchantmen. Her markets were rich with horses and mules and camels from Togarmah; with upholstery, and ebony, and ivory from Dedan; with emeralds, and agate, and coral from Syria! with wine from Helbon; with finest needlework from Ashur and Chilmad. Talk about the splendid state rooms of your Cunard and Inman and White Star lines of international steamers-why, the benches of the state rooms in those Tyrian ships were all ivory, and instead of our coarse canvas on the masts of the shipping, they had the finest linen, quilted together and inwrought with embroideries almost miraculous for beauty. Its columns overshadowed all nations. Distant em-

pires felt its heartbeat. Majestic city "situate at the entry of the sea." But where now is the gleam of her towers, the roar of her chariots, the masts of her shipping? Let the fishermen who dry their nets on the place where she once stood; let the sea that by them. rushes upon the barrenness where she

once challenged the admiration of all nations: let the barbarians who built their huts on the place where her palaces glittered, answer the question. Blotted out forever! She forgot God and God forgot her. And while our modern cities admire her glory, let them take warning of her awful doom. Cain was the founder of the first city and I suppose it took after him in morals. It is a long while before a city can ever get over the character of those who founded it. Were they criminal exiles, the filth, and the prisons, and the debauchery are the shadows of such founders. New York will not for two or three hundred years escape from the good influences of its founders-the pious settlers whose prayers went up from the very streets where now banks discount and brokers shave, and companies declare dividends, and smugglers swear custom house lies: and above the roar of the drays and the crack of the auctioneers' mallets is heard the ascripthe Bible out, you had better drive the "We worship thee, O thou al ion mighty dollar!" The church that once stood on Wall st. still throws its blessing over all the scene of traffic, and upon the sips that fold their white wings in the harbor. Originally men gathered in cities from necessity. It was to escape the incendiary's torch or the assassin's dagger. Only the very poor lived in the country, those who had nothing that could be stolen, or vagabonds who wanted to be near their place of business; but since civilization and religion have made it safe for men to live almost anywhere, men congregate in cities because of the opportunity for rapid gain. Cities are not necessarily evils, as has sometimes heen argued. They have been the birthplace of civilization. In them popular liberty has lifted up its voice. Witness Genoa, and Pisa, and Venice. The entrance of the representatives of the cities in the legislatures of Europe was the death blow to feudal kingdoms. Cities are the patronizers of art and literature-architecture pointing to its British museum in London, its Royal library in Paris, its Vatican in Rome. Cities hold the world's scepter. Africa was Carthage, Greece was Athens, England is London, France is Paris, Italy is Rome, and the cities in which God has cast our lot will yet decide the destiny of the American people. At this season of the year I have

past, by the character of those who in minion. With the scratch of a pen he and I propose to classify some of those interests:

In the first place 1 remark: Commercial ethics are always affected by the copal churches, by the authority of the moral or immoral character of those who have municipal supremacy. Officials that wink at fraud and that have

glittering dishonesties, always weaken plications for the chief magistrates of the pulse of commercial honor. Every cities, for their guidance, for their shop, every store, every bazaar, every factory in the cities feels the moral ing morality? character of the city hall. If in any city there be a dishonest mayoralty, or to hold any public position of trust in an unprincipled common council, or a any city. You are God's representacourt susceptible to bribes, in that city tives. God, the king and ruler and there will be unlimited license for all judge, sets you in his place. Oh, be kinds of trickery and sin; while, on the faithful in the discharge of all your other hand, if officials are faithful to duties, so that when all our cities are

promptly executed, if there is vigilance there is the highest protection for all bargain making. A merchant may stand in his store and say: "Now, I'll have nothing to do with city politics; I will not soil my hands with the slush;" nevertheless the most insignificant trial in the police court will rectly. What style of clerk issues the writ; what style of constable makes the arrest; what style of attorney issues the plea; what style of judge charge the jury; what style of sheriff executes the sentence-these are questions that strike your counting rooms to the center. You may not throw it off. In the city of New York, Christian merchants for a great while said: "We'll have nothing to do with the management of public affairs," and they allowed everything to go at loose ends until there rolled up in the city a debt

of nearly \$120,000,000. The municipal government became a hissing and a byword in the whole earth, and then the Christian merchants saw their folly, and they went and took possession of the ballot boxes. I wish all commercial men to understand that they are not independent of the moral character of the men who rule over them, but

must be thoroughly, mightily affected So, also, of the educational interests of a city. Do you know that there are in this country about seventy thousand common schools, and that there are over eight millions of pupils, and that the majority of these schools and the majority of those pupils are in our cities? Now, this great multitude of children will be affected by the intellivice, of boards of education and boards of control. There are cities where educational affairs are settled in the low caucus in the abandoned parts of the cities, by men full of ignorance and rum. It ought not to be so; but in many cities it is so. I hear the tramp of coming generations. What that great multitude of youth shall be for this world and the next will be affected very much by the character of your public schools. You had better multiply the moral and religious influences about the common schools rather than abstract from them. Instead of driving

the different departments rule over us, may advance a beneficent institution or balk a railway confiscation. By appointments he may bless or curse every hearthstone in the city. If in the Epis-Litany, and in our non-Enisconate churches, we every Sabbath pray for the president of the United States, why

neither censure nor arraignment for not, then, be just as hearty in our suphealth, for their present and everlast-My word now is to all who may come

their oath of office, if the laws are in ashes, and the world itself is a red scroll of flame, you may be, in the n regard to the outbranchings of crime, mercy and grace of Christ, rewarded for your faithfulness. It was that feeling which gave such eminent qualifications for office to Neal Dow, mayor of Portland, and to Judge McLean, of Ohio, and to Benjamin F. Butler, attorneygeneral of New York, and to George Briggs, governor of Massachusetts, and affect that merchant directly or indi- to Theodore Frelinghuysen, senator of the United States, and to William Wilberforce, member of the British parliament. You may make the rewards of eternity the emoluments of your office. What care you for adverse political criticism if you have God on your side? The one, or the two, or the three years of your public trust will pass away, and all the years of your earthly service, and then the tribunal will be lifted before which you and I must appear. May God make you so faithful now that the last scene shall be to your exhilaration and rapture. I wish now to exhort all good people, whether they are the governors or the governed, to make one grand effort for the salvation. the purification, the redemption of our American cities. Do you not know that there are multitudes going down to ruin, temporal and eternal, dropping quicker than words from my lips? Grogshops swallow them up. Gambling hells devour them. Houses of shame are damning them. Oh, let us toil, and pray, and preach, and vote

until all these wrongs are righted. What we do we must do quickly. With our rulers, and on the same platform, we must at last come before the throne of God to answer for what we have done for the bettering of our great towns. Alas! if on that day it will be found that your hand has been idle and gence or ignorance, the virtue or the my pulpit has been silent. Oh, ye who are pure and honest, and Christian, go to work and help to make the cities pure. and honest. and Christian.

Lest it may have been thought that I am addressing only what are called the better classes, my final word is to some dissolute soul to whom these words may come. Though you may be covered with all crimes, though you may be smitten with all leprosies, though you may have gone through the whole catalogue of iniquity, and may not have been in church for twenty years, you may have your nature entirely reconstructed, and upon your brow, hot with infamous practices and besweated with exhausting indulgen cles, God will place the flashing coronet of a Savior's forgiveness. "Oh, no!" you say, "if you knew who I am and where I came from, you wouldn't say that to me. I don't believe the Gospel you are preaching speaks of my case." Yes, it does, my brother. And then when you tell me that, I think of what St. Teresa said when reduced to utter destitution, having only two pieces of money left, she jingled the two pieces of money in her hand and said: "St. Teresa and two pieces of money are nothing; but St. Teresa and two pieces of money and God are all things." And I tell you now that while a sin and a sinner are nothing, a sin and a sinner and an all forgiving and all compassionate God are every thing. Who is that that I see coming? I know his step. I know his rags. Who is it? A prodigal. Come, people of God; let us go out and meet him. Get the best robe you can find in all the wardrobe. Let the angels of God fill their chalices and drink to his eternal rescue. Come, people of God, let us go out to meet him. The prodigal is coming home. The dead is alive again,

from Australia and Argentina are ob- died in order to prevent splitting just taining control of the English market, we quote from the Australian Pastorialist's Review: There are in the trade from New Zealand to London 26 vessels, insulated to carry 1,468,600 carcases of sheep; between New Zealand and (or) Australia and the United Kingdom, 15 vessels, insulated to carry 702,000: Australia to United Kingdom 58 vessels, insulated to carry 1,689,400; River Platte to United Kingdom 24 vessels, insulated to carry 690,000; total 123 vessels, insulated to carry 4,530,000 carcasses. The total import of mutton and lamb into the United Kingdom from all sources, in 1896, was 5,717,937 carcasses. Seeing that each steamer is able to make about two and a half trips lines backward. You will die just in the year, it is evident that the sup- | twenty years before the date of your ply of insulated space has more than overtaken the present requirements of the trade. There are sixteen frozen meat stores in London, which alto gether can hold for an indefinite period over 1,000,000 carcasses of mutton; five in Liverpool to hold 325,000, one in Manchester to hold 120,000, one in Cardiff to hold 75,000, one in Glasgow to hold 60,000, one in Newcastle to hold 25,000, one in Bristol to hold 24,000. These are being added to by the erection of cold storage warehouses in other large towns. Close upon onethird of the mutton and lamb consumed in Great Britain now comes from New Zealand, Australia and the River Plate.

The Cheyenne and Arapahoe Indians are wrought up over the new law which goes into effect July 1 relating to polygamy. After that time each of the forty Chevenne Indians who has more than one wife will have to choose one of the two, three or five wives that he has, and the cast off wives must go back to their relatives. The interest between the squaws, who have become enlightened to their situation, has become intense. Every squaw who wants to remain with her husband is doing her best to please him so that she will be the lucky wife.

delicate laces and gauze with which they come in contact. Smart women do not carry bouquets this season, as they are too cumbersome and heavy. A few roses are tucked into the bodice or hair or tied to the fan instead. Some women still vigorously advocate the wearing of a turban for evening head-dress, but they are the ones who do not possess pretty hair.

A ring recently exhibited at Antwerp was the admiration of diamond cutters and merchants because it was the first successful attempt to cut a ring out of a single stone. There are a great many difficulties in this method of cutting diamonds, as the stones have a certain cleavage and particular veins To show how rapidly frozen meats all of which have to be carefully staas success seems within reach. After several unsuccessful attempts and three vears' labor the feat has been accom plished by the patience and skill of one of the best lapidaries of Antwerp. The ring is about six-eighths of an inch in Abyssinia, which took twenty-three diameter. In the Marlborough cabinet years to complete. These very rethere is a ring cut out of one entire and perfect sapphire.

After and will replace the latter for hydrauthe needles are burnished the same malic packings, wire insertions, etc., as it is impervious to mineral oil and can chinery counts them and sticks them in are sold.

thought it might be useful to talk a little while about the moral responsibility resting upon the office bearers of all our cities-a theme as appropriate to those who are governed as the governors. The moral character of those who rule a city has much to do with the character of the city itself. Men, women and children are all interested in national politics. When the great presidential election comes, every patriot wants to be found at ballot box. We are all interested in the discussion of national finance, national debt, and we read the laws of congress, and we are wondering who will sit next in the presidential chair. Now, that may be all very well-is very well; but it is high time that we took some of the attention which we have been devoting to national affairs and brought it to the study of municipal government. This it seems to me now is the chief point to be taken. Make the cities right, and the nation will be right. I have noticed that according to their opportunities there has really been more corruption in municipal governments in this country than in the state and national legislatures. Now, is there no hope? With the mightiest agent in our land, the glorious gospel of Jesus Christ,

Bible further in. May God defend our glorious common school system, and send into rout and confusion all its sworn enemies. I have also to say that the character

of officials in a city affects the domestic circle. In a city where grogshops have their own way, and gambling hells are not interfered with, and for fear of losing political influence officials close their eyes to festering abominationsin all those cities the home interests need to make imploration. The family circles of the city must inevitably be affected by the moral character or the immoral character of those who rule over them.

I will go further and say that the religious interests of a city are thus affected. The church today has to contend with evils that the civil law ought to smite; and while I would not have the civil government in any wise relax its energy in the arrest and punishment of crime, I would have a thousand-fold more energy put forth in the drying up of the fountains of iniquity. The church of God asks no pecuniary aid from political power; but does ask that in addition to all the evils we must necessarily contend against we shall not have to fight also municipal negli- and the lost is found. gence. Oh, that in all our cities Christian people would rise up, and that they would put their hand on the helm before piratical demagogues have swamped the ship. Instead of giving

some of your attention to municipal government. I demand that the Christian people who have been standing aloof from public affairs come back, and in the might of God try to save our cities. If things are or have been bad, it is because good people have let them be bad. That Christian man who merely goes to the polls and casts his vote does not do his duty. It is not the ballot box that decides the election, it is the political caucus: and if at the primary meetings of the two political parties unfit and bad men are nominated, then the ballot box has nothing to do save to take its choice between two thieves! In our churches, by reformatory organization, in every way let us try to tone up the moral sentiment in these cities. The rulers are those whom the people choose, and depend upon it that in all the cities, as long as pure hearted men stand aloof from politics because they despise hot partisanship, just so long in many of our cities will rum make the nominations, and rum con-

trol the ballot box, and rum inaugurate the officials. I take a step further in this subject shall not all our cities be reformed, and purified, and redeemed? I believe the and ask all those who believe in the

omnipotence of prayer, day by day, and day will come. I am in full sympathy every day, present your city officials bewith those who are opposed to carrying fore God for blessing. Nor angels can their joy contain, so much time to national politics, give But kindle with new fire; "The sinner lost is found," they sing, And strike the sounding lyre.

Joy Versus Sorrow.

No human being can come into the world without increasing or diminishing the sum total of human happiness, not only of the present, but of every subsequent age of humanity. No one can detach himself from this connection. There is no sequestered spot in the universe, no dark niche along the disk of non-existence to which he can retreat from his relations to others. where he can withdraw his influence of his existence upon the moral destiny of the world; everywhere he will have companions who will be better or worse for his influence.

Not to Blame.

"You know you think more of a rich man than a poor one," said the outspoken friend. "I can't deny it," said the stateman sadly. "But how can I help it? Every poor man I meet wants me to help him get a government job."-Indianapolis Journal.

Corset Saves Her Life.

The Buried Cities of Ceylon.

It may be still counted among things not generally known that in the luxuriant forests of Ceylon the ruins of citles are concealed not inferior in boldness of conception and richness of design to any in the world. They lie in the northern half of the island, almost buried among vegetation, and in some cases still difficult of access. They have been smitten in bygone ages by the fury of conquerors, they have suffered yet more severely from the hand of time. Trees have taken root on walls and roofs and have wrenched them asunder, the rank forest vegetation has buried ornamental carvings and scultured figures. Yet what remains is wonderful, and what would reward excavation may be easily inferred. The ruins belong to very varied dates, some going back to well before the Christian era, others to three or four centuries after it, while one very beautiful and extensive group belongs mainly, if not wholly, to a comparatively late period in Singhalese prosperity, the middle of the twelfth century. Their connection with Buddhism is very close, the most conspicuous remains at the present times being

commonly temples, monasteries and dagabas-huge, dome-like structures, which in magnitude are not unworthy rivals of the pyramids of Egypt. One of the most remarkable of the groups or ruins is Mimintale, the mountain city. A rocky mass arises abruptly from the plain to a height of 1,000 feet. The slopes are now covered with dense forest from the base almost to the top, except on the space where a gigantic stairway of granite slabs leads up to the summit. This might well be

taken for a part of the natural hill, in reality it is a huge ruined edifice, the morning. remnant of a dagaba, in the construction of which millions of bricks have The Vanished River's Track. been employed. Near it are other dag-Explorations made last autuinn abas of great size, and, besides these, rock-cut chambers and many other rebrought to light many interesting facts about what is known to geoloists as mains of the ancient monastery. The city is associated with sacred memories the "Nipissing-Mattawa River." This in the history of Ceylon. rafters of his bed head. Instead of approaching his superior officer and his saucepan, he hobbled, shivering, to the fireplace, and held his chin as close as he possibly could over the fire. Crayford looked after him. "Hello! what are you doing there?" "Thawing my beard, sir." "Come here directly, and set to work

once," the captain proceeded. "But] must ask you to keep your boat waiting for half an hour more. You will be all the longer with your wife, you know. I thought of that, Crayford." "I am much obliged to you, Captain

Helding. I suppose there is some other reason for inverting the customary order of things, and keeping the lieutenant on shore after the captain is on board?"

"Quite true; there is another reason. I want you to wait for a volunteer who land. has just joined us.'

"A volunteer!"

"Yes; he has his outfit to get in a hurry, and he may be half an hour late.' of the principal room are the sleeping

"It's a rather sudden appointment, isn't it?" "No doubt. Very sudden."

"And, pardon me, it's rather a long time (as we are situated) to keep the ships waiting for one man?"

"Quite true, again. But a man who is worth having is worth waiting for. This man is worth having; this man is worth his weight in gold to such an expedition as ours. Seasoned to all climates and all fatigues; a strong fellow. a brave fellow, a clever fellowin short, an excellent officer. I know him well, or I should never have taken him. The country gets plenty of work out of my new volunteer, Crayford. He only returned yesterday from foreign service."

"He only returned yesterday from foreign service, and he volunteers this morning to join the Arctic Expedition? You astonish me."

"I dare say I do; you can't be more astonished than I was when he presented himself at my hotel, and told me what he wanted. 'Why, my good fellow, you have just got home,' I said; 'are you weary of your freedom after only a few hours' experience of it?" His answer rather startled me. He said, 'I am weary of my life, sir; I have come home and found a trouble to welcome me which goes near to break my heart. If I don't take refuge in absence and hard work, I am a lost man. Will you give me refuge? That's what he said, Crayford, word for word.'

"Did you ask him to explain himself further?"

"Not I; I knew his value, and I took the poor devil on the spot without pestering him with any more questions. No need to ask him to explain himself; the facts speak for themselves in these cases. The old story, my good friend. There's a woman at the bottom of it, of course."

Lieutenant Crayford walked backward Mrs. Crayford, waiting for the return and forward briskly, trying what exof her husband as patiently as she ercise would do toward warming his could, was startled by feeling a hand blood. suddenly laid on her shoulder. She looked around and confronted Clara.

thousands of women in this condition, there would be fewer disappointments at birth, and they would not experience those annoying "longings" In the following letter to Mrs. Pinkham, Mrs. Whitney demonstrates the power of the Compound in such cases. She says:

"From the time I was sixteen years old till I was twenty-three, I was troubled with weakness of the kidneys and terrible pains when my monthly periods came on. I made up my mind to try Lydia E. Pinkham's Vegetable Compound and was soon relieved. After I was married, the doctor said I would never be able to go my full time and have-2-living child, as I was constitutionally weak. I had lost a baby at seven months and a half. The next time I commenced at once and continued to take your Compound through the period of pregnancy, and I said then, if I went my full time and the baby lived to be three months old, I should send a letter to you. My baby is now seven months old and is as healthy and hearty as one could wish.

"I am so thankful that I used your medicine, for it gave me the robust health to transmit to my child. I cannot express my gratitude to you; I never expected such a blessing. Praise God for Lydia E. Pinkham's Vegetable Compound, and may others who are suffering do as I did and find relief, and may many homes be brightened as mine has been."-MRS. L. Z. WHITNEY, 5 George St., E. Somerville, Mass.

PENINSULA MATTERS

RELATED IN A BRIEF, CONCISE MANNER.

Fire Destroys the Town of Lake Ann, Rendering Several Hundred People Homeless and Without Food-Deaths Caused by the Hot Weather.

Village of Lake Ann Burned Out. Lake Ann, a village of 800 inhabitants on the Manistee & Northeastern railroad, 18 miles south of Traverse City, was almost wiped out of existence by fire. Seventy-five families are homeless and as every store in the town was destroyed there was not food enough for even one meal for half of them. The fire broke at 1 p. m. in the mill of Wm. Habbler, presumably from the engine room. The high wind blowing from the southwest spread the flames through the main portion of the town very swiftly. The business part was cleaned up in an hour, including all stocks of goods. The saw mill, stave factory, cooperage sheds, warehouses and the large stock of lumber of Wm. Habbler were a total loss. Traverse City was asked for help, and an engine and crew were sent by special train, but it was almost too late. The additional help saved about half a million feet of lumber, the cooperage factory and a dozen small dwellings on the outskirts. The burning of the mills and factories throws the main portion of the males out of employment. The heaviest loss was sustained by Wm. Habbler, who will lose about \$50,000. Putman & Burnett lose about \$10,000. Other losses on stores, business structures and dwellings and furniture range \$150 up and brings the total to about \$125,000. Habbler has \$5,500 insurance, Putnam & Burnett \$2,000 and scattering about \$3,000 more.

Mrs. Masters, aged 80, was cremated. She escaped once from the burning dwelling, but returned for valuables, when the building collapsed and all efforts to rescue her were unavailing.

State Bar Association.

The eighth annual convention of the Michigan State Bar association was held at Port Huron. President O'Brien J. Atkinson, in his annual address. gave a history of the association and recommended the reading of biographies of leading members of the bar at future meetings of the association. An animated discussion was had on the new law which admits graduates of the U. of M. law school and of the Detroit College of Law to practice upon the strength of their diplomas. The general trend of the discussion was in opposition to the law. There were a number of other interesting and important matters debated and papers read. The entertainment of the lawyers included a trip on the river to Stag island and a banquet at the Harrington hotel.

Music Teachers Meet at Detroit.

MICHIGAN NEWS ITEMS ITEMS OF INTEREST. Pontiac is now connected with Detroit by an electric railway.

Thos. Wallace's large barn at Elsie was destoryed by lightning. The fiscal year of the state closed

with a balance in the state treasury of \$783,888. The Queen mine at Negaunee started

up with 275 men, and the force will be increased. Russell Woodlin, age 20, colored, was drowned in Spring Lake, near Battle

Creek, while bathing. The Tappan Shoe Co., has broken ground for a \$12,000 factory, to employ 200 men at Coldwater.

Herbert Townsend, a farmer near Perrinton, was kicked in the pit of the stomach by a horse and he may die.

A. J. Jucket, a Homer farmer, has been appointed deputy oil inspector for the Ninth district, ending a bitter fight. Mrs. Ernest Maurer, of Niles, accidentally cut an artery in her arm and bled to death before the doctor arrived. Geo. McIntyre was sent from North-

ville to the reform school for four years for stealing Arthur Buzzell's bicycle. R. B. Arthur and wife have been

chosen superintendent and matron respectively of the Masonic home at Grand Rapids.

Harry L. Williams, of Sturgis, has invented a flying machine, attached to a balloon, which he says can be guided and controlled with ease.

A portable boiler used by Kennedy & Campbell, pavement contractors, exploded at Bay City, but no one was near enough to get hurt.

The general store of Williard Smith, at Yates, a country postoffice near Copemish, was struck by lightning and burned down. Loss \$1,700.

Jesse Hainer, aged 19, jumped from the topmost point of the Maple street bridge at Manistee, 35 feet to the water and swam ashore uninjured.

The Dryden roller mills and elevator burned down. Loss, \$13,500; insurance, \$5,000. J. C. Lamb, of Imlay City, was the owner. Cause of fire not known.

Thomas Hall was kicked so severely in a fight Joseph Bryant, at Dowagiac, that he died, and Bryant is locked up on a charge of manslaughter. Both are colored.

George J. Howard, aged 23, employe of the First National bank at Niles, was drowned while bathing at Barren the passengers were seriously injured. lake. The board of directors had just made him assistant cashier.

A man who registered at the Harrington house at St. Louis, as J. W. Houcks, of Belding, committed suicide in his room by taking morphine. Over \$300 in money was found on his person. President McKinley has again honored Michigan by naming W. K. Anderson, of Detroit, as consul at Hanover, Germany, and James Shepard, of Cassopolis, U. S. consul at Hamilton, Ont.

PUNCENT PARAGRAPHS PICKED PROMISCOUSLY. Christian Endeavor Excursions on

> Way to San Francisco Wrecked and Five Persons Killed-Venezuela Has | an amendment to the tariff bill, proan Exciting Cabinet Crisis.

Christian Endeavor Trains Wrecked. The great international Christian Endeavor convention at San Franciso and the low rates made by the railroads attracted many hundreds of excursionists and the dates for the starting of the trains drew such crowds into Chicago that the railroads had hard work to handle them. One large excursion train was sent out from Chicago on the Chicago & Northwestern in nine sections carrying about 6,000, and when about 30 miles out a collision occurred between sections 4 and 5 which had started 15 minutes apart. Section 5 came up behind at great speed and the shock of the collision was terrific. The

passengers in the two rear sleepers of section 4 were all in their berths. They received no warning and those not killed outright awoke to find themselves jammed in the wreckage. Passengers on both trains hastened to the

spot and began the work of rescue. One of the first of the injured taken out was Engineer Charles Courtney, of sec- | bill was restored entire after beif detion 5. He had struck to his post like a hero and is so seriously injured that he cannot live. The body of an unidentified man, supposed to be a tramp, was found between a baggage car and the engine crushed to death. Three persons were found to be killed out-

right and about 20 or 30 persons injured. The dead are: Mrs. John Gooding, and Mrs. R. Shipman, both of Appleton, Wis., and the unknown tramp, who was riding between engine and baggage car.

Train 11, on the Vandalia railroad, which left Indianapolis with a large number of Christian Endeavorers, collided with train 6, bound east from St. Louis, near Vandalia, Ind. Two trainmen were killed and two fatally injured, as follows: Killed-R. T. Sherman, mail clerk No. 6, of Indianapolis, and W. P. Coon, baggageman, of Indianapolis, on No. 11. Fatally injured -Samuel Parkinson, mail clerk, of Columbus, O., crushed in the wreck, Frank Ownes, fireman, of Terre Haute, mangled under the engine. None of

450,000 MEN IDLE.

375.000 Coal Miners Strike for a Living -85,000 Iron and Steel Workers Out.

Dispatches from various coal mining centers say that circulars have been placed in the hands of all the bituminous coal miners in the United States calling them out on strike. It is estimated that 375,000 men will be involved. Ohio, Pennsylvania, Illinois, Indiana, and parts of West Virginia and Kentucky will contribute to the movement. The strike is to enforce the Columbus

The twelfth annual convention of 'the Michigan Music Teachers' association was held at Detroit. Mayor Maybury made a happy speech of welcome and offered to sing a song for the teachers, but the police refused permission for fear of a riot. The program of the convention included several concerts and interesting and important papers and addresses upon subjects near the heart of music lovers and teachers, one of the most pleasing entertainments being a program rendered by the celebrated pianist, Leopold Godowsky. Mrs. Ida Norton, of Detroit, was elected president and F. L. Abel, of Detroit, secretary - treasurer, for the ensuing year.

Four Fatalities From Heat in Detroit.

Four deaths on account of heat were occurred in Detroit and vicinity. Mrs. Kowalski, of Portland, Mich., who was visiting at 655 Willis avenue east, died from heat prostration. Mrs. Catherine Orr, of 864 St. Aubin avenue, died from the effects of exposure. She worked several hours in the broiling sun during the day, and frequently took icecold drinks. Robert Plath, of 24 Scott street, the other Henry Lang, of Wyandotte, were other victims of the heat. The physicians reported 15 to 20 cases of prostration from sunstroke, none of which were serious.

Mother Died for Her Little Ones. Lightning struck the house of Geo. Copeland during a storm at Stanwood and burned it to the ground at 3 a.m. The grown people escaped from the burning structure without trouble, but Mrs. Baudoin, Copeland's sister-in-law, discovered that her two little children were still in the flames and she rushed in to save them. She succeeded in carrying out her little boy, although he was so badly burned that he may die, and then she returned for her little girl. Neither mother nor child reached the open air again, but both perished in the flames.

Wm. Curry, a carpenter from Detroit, was struck by the Michigan Central work train near Marshall and was thrown 20 feet, but it did not kill him. He walked into town and was arrested for drunkenness and sent to jail for 10 days, but he died in jail that night.

Receiver J. A. May, of the Ingham County Savings bank, has been unable to realize very much on the assets of the institution, and has obtained the consent of the circuit judge to commence action against the stockholders behind a bush. One bullet entered missioners, now in Paris, are coming of the bank to levy an assessment for the benefit of the depositors.

Corunna's council decided to advance \$2,000 to the D. R. Salisbury shoe factory, but protects the city by taking a bill of sale for five years. If Salisbury runs his factory all that time he will be credited with \$400 each year on the bill of sale.

Archie Gordon, ex-Constable Sellers and Ernest West were arrested at Battle Creek, charged with conspiracy to bribe Prosecuting-Attorney Lockton, the complainant in a case against West, the circuit judge, sheriff and other officers.

Mrs. Gil Darling and her 4-year-old child were fatally burned by the explosion of a gasoline stove at Hastings. The child died a few hours after the accident. Mrs. Darling was filling the gasoline stove, which was close to a hot wood stove.

Prof. Thomas M. Cooley, of the U. of M. faculty, who has been constantly growing weaker for the past two years, has begun to lose his mind and his condition will soon warrant his being sent to some private institution for special care.

Joseph Haynes and wife were lodged in the Kent county jail for stealing 13 chickens belonging to Mrs. James Lar-away, of Cascade. The chickens were found in an upstairs room of Haynes' house. They say they stole them to keep from starving.

J. D. S. Hanson, editor of the Hart Journal, was driving with his wife and two daughters, when the team become unmanageable. Hanson and the girls jumped out, but Mrs. Hanson stayed in for nearly a mile, when she jumped, striking upon her head and shoulders, and receiving such injuries that she may die.

Several years ago Allegan township, Allegan county, agitated the subject of good roads, with the result that there are now 30 miles of the best graded and graveled turnpikes, in place of what were once sandy wastes. Other townships caught the fever, people subscribed liberally, and in a very few years Allegan county will have

roads as good as those in France. While Charles Nelson, aged 24, a popular young man of Cadillac, sat on bench in Washington park, Chicago, with a lady friend, an unknown assassin fired three bullets at him from Nelson's body near the heart, another him in the fleshy part of the leg. Nel-

The Ohio miners have been looking

for this for several months. When the conferences between the miner's representatives and the operators recently failed to bring any sign of better wages, but showed instead the probability of a further reduction, it was felt that a strike must come. The United Miners' officials set to the task of bringing the miners of other states to the point also, and had very little trouble in doing so.

Iron and Steel Mills Closed.

As the result of the failure of the joint wage conference of the Amalgamated Association of Iron and Steel workers and manufacturers to agree upon the scale at the Youngstown, O., conference nearly all the the union mills in the country are closed down and between 75,000 and 85,000 men are idle. The Amalgamated association received some enccuragement in the shape of signed scales from six prominent factories in Michigan,

Indiana and Kentucky. All plate mill employes of the Mahoning Valley Iron Co. and Coleman, Shields & Co., at Youngstown, O., were discharged because they had refused to make certain concessions asked by the firm under the amalgamated scale.

Steamer Went Down-69 Lives Lost. The missing steamer Aden, which left Yokahama on April 28, for London via Aden, Arabia, is a total loss, having been dashed to pieces off the island of Socotra, at the eastern extremity of Africa, on June 9. The unfortunate steamer carried 34 passenger from Japan besides the crew. The steamer Mayo, which went in search of the missing vessel, saved nine of the Aden's crew. In all it is thought that 69 persons lost their lives in the disaster by being swept overboard one by one during the storm. The Mayo saved nine of the Aden's passengers and three of the white and 33 of the natives of the steamer's crew. All of these persons were rescued just as the Aden was

breaking up. President McKinley visited Canton to

spend the Fourth with his mother. A London cable places the expenses

of the queen's jubilee at \$23,000,000. The London Review prints an article stating that the U.S. bimetallic com-

to London armed with an agreement pierced his neck and the third wounded | made by France with the United States for a joint appeal, to the other powers wise contribute to an extended use of silver. Washington authorities say

Senate to make reciprocity treaties giving 20 per cent reduction in duties on designated articles, or placing articles on the free list. The retaliatory clause provides that whenever any country bestows an export bounty on any article, there shall be levied, in addition to the duties provided by the act, an additional duty equal to the amount of the bounty.

Many Slain by Heat. After one of the coolest springs even known a torrid summer broke in upon the central and southern states which in the first week of July became simply intolerable. From Pittsburg to Kansas City and from Chicago south cloudless skies and the blazing sun left a record of prostrations and death which has seldom been equaled. Cincinnati showed the highest death rate, 13 deaths resulting out of a total of 50 prostrations, but there were many fatal cases at other points. In Chicago there were over 130 prostrations within four days and a total of 27 deaths were recorded from effects of the heat. Cleveland reported four deaths; Pittsburg three and other cities from one to four, with scores of prostrations. Detroit reported four deaths from the sweltering heat.

Houses Blown up by Dynamiters.

A dynamite explosion in South Scranton, Pa., blew up the business block of Leon Olchofski, a double dwelling owned by him and the nearby home of Michael O'Hara. The business block was torn to pieces, and 20 other houses had all the windows. blown out and plaster torn from the walls. The shock was felt all over the **P**i city. Olchofski was fatally injured in Buffalo 78 @78 *Detroit-Hay, No. 1 timothy, \$10 00 per ton. Potatoes, new southern, 95c per bu; old, 30c. REVIEW OF TRADE. Better weather has favorably affected the sale of seasonable goods, particularly cloth-ing, hats and shoes, and the movement of goods for fall delivery has begun. The most encouraging feature is the continued and, in ome instances, increased confidence of mer chants and manufacturers that the autumn will bring a larger volume of business at higher prices. The least favorable feature of the past week is found in disappointment at lack of demand and reaction in quota-tions for some varieties of iron and steel. The idleness of 40,0,0 iron, steel and glass

conference with Dr. J. Roell, the minworkers and soft coal miners is, except in the latter instance, due in part to the season. Large hopes are built on prospective de-mand after the tariff bill has passed but the ister for foreign affairs and president of the ministerial council. Auburn, N. Y .- Robert J. Powley pressure in the market of large importing stocks may defer it, but the removal of unwas executed for the murder of his certainty will in any case increase business.

Sweetness and Light.

0000000000000000

Put a pill in the pulpit if you want practical preaching for the physical man; then put the pill in the pillory if it does not practise what it preaches. There's a whole gospel in Ayer's Sugar Coated Pills; a "gospel of sweetness and light." People used to value their physic, as they did their religion,-by its bitterness. The more bitter the dose the better the doctor. We've got over that. We take "sugar in ours"gospel or physic-now-a-days. It's possible to please and to purge at the same time. There may be power in a pleasant pill. That is the gospel of

Ayer's Cathartic Pills. More pill particulars in Ayer's Curebook, 100 pages. Sent free. J. C. Ayer Co., Lowell, Mass.

Be a man's vocation what it may, his rule should be to do his duties perfectly, to do the best he can, and thus to make perpetual progress in his art.

Neither accept an opinion, nor except against it, merely on the score of its novelty; all that is new is not true; but much that is old is false.

Try Grain-O. Ask your grocer today to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it like it. GRAIN-O has that rich seal brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. 1/4 the price of coffee. 15 cents and 25 cents per package.

Sold by all grocers. Tastes like coffee Looks like coffee. It doesn't take long for the world to

prevent the reptiles from freezing.

Thre was not a human being in the

room. It was as still as death. Sud-

derly the head of a large South Ameri-

can boa constrictor appeared above one

of the boxes. It rose slowly up into

the air until about two feet of its body

was insight. Its evil little eyes spark-

led, and it twisted its head and looked

arcund the room until it beheld the

sleeping cub. Then its head dropped

over the side of the box and began

moving across the floor. Yard after

yard of snake came out of the box. It

was a monster reptile and it moved

cautiously and with its eyes still fas-

tened on "McKinley." The snake

plaintive voice. Swiftly its body dis-

appeared and louder grew its cries.

The mother of the only lion cub born

in captivity in the United States heard

the wails of her offspring and be-

tween the bars of her cage compre-

hended the stiuation at a glance. She

sprang to the bars and let out a roar

that brought every animal in every

cage to its feet and pandemonium

troke loose. The mother of "Mc-

Kinley" roared incessantly, while the

lions joined in the chorus; even the

sea lions bellowed and soon the ele-

phants began to trumpet. Only "Mc-

Kinley" was silent. All of his body

had passed inside the snake's jaws ex-

cept a small part of his head and his

front paws. There was a self-satisfied

look on the snake's face. The turmoil

of the animals reached the circus at-

taches in another building and they

ran quickly to the scene. They com-

prehended matters at a glance. One

of them ran to the elephants, which

were tugging at their chains and still

"McKinley," a cub lion, was dozing

PRESIDENT DISCOVERS A RE-TREAT NEAR WASHINGTON.

It Is Called "Cherry Farm"-Isolated, Roomy and Inviting-It Is the Property of Former Senator Henderson-A pretty Place.

> (Washington Letter.) RESIDENT Mc-KINLEY has chosen the place for his summer residence. It is known as "Cherry Farm,"seven miles southwest of Washington, just back of Ft. Myer. and is reached by several beautiful drives from the

city proper, one leading through Fort Myer and another through Arlington. "Cherry Farm" is the property of ex-Senator John B. Henderson of Missouri, who purchased the beautiful place four years ago from Thomas H. Sypherd, who far nearly twenty-five years was one of the chiefs in the Sixth Auditor's office of the treasury department.

In this beautiful and secuded place President and Mrs. McKinley, with Secretary and Mrs. Porter, will pass the heated summer weeks. The house is far back from the public road. Sit. uated along a veritable forest of fruit and shade trees, the small summer cottage is as completely isolated as though it were a thousand miles from the national capital. One must have a most intimate acquaintance with the geography of the adjacent country in order to find the house at all.

It is reached by a narrow lane which turns in from the main road about half a mile from the small village of Ballston. This lane is an execrable one. It is full of rocks and ruts, and the devious ways in which it twists and turns through the short pine brush is apt to cause a city bred person to lose his bearings entirely. Approaching the house, one is im-

pointing, for it seems small. But its

full size is not apparent from the front

view, for when making the turn in the

driveway it is seen that the building

extends quite a good distance in the

rear. It would be difficult to classify

the style of architecture, for the rea-

son that it is a combination of the old-

fashioned farmhouse and the modern

summer cottage, Senator Henderson

having had it remodeled when he pur-

chased the property four years ago

from Mr. Sypherd. It is two stories

in height, after the style of many south-

ern houses, and there are porches and

verandas on all sides. The broad ver-

anda on the north side is a particularly

inviting one, and it is reached through

room and the dining room. The house

is furnished handsomely throughout,

although the Henderson family has

spent very little time there. The draw-

ing room and library are practically

one room, being separated by portieres

of blue silk. The prevailing tone of

the walls and ceilings of both these

rooms is blue, and the furniture is of

the kind usually seen in summer cot-

tages-rattan and cane being the prin-

cipal materials of which it is made.

Communicating with the library is the

cozy little dining room, the two china.

closets filled with handsome tableware.

This room has a southern exposure.

and a generous bay window adds to its

attractiveness. Back of the dining

room is the southern kitchen, which is

quite a model in its way. In it are

all the appliances necessary to culinary

operations. A well of excellent water,

which has a wide reputation in the

country round about, is also situated in

this kitchen. The upper floor is

reached by a handsome winding stair-

on the attitude of the candidates tow

The approximate May, who is now a happy wife and position of the foreign body was determined by attaching the apparatus to an upright support and so placing a lighted candle that the shadow cast by the indicators would fall like those thrown by the Crookes tube. A small object was then held before the candle transfer to Canada, where for a year | in such a position that its shadow was coincident with that of the foreign body. A record having been made of this line of shadow, the candle was cause the information came to him in moved until the shadows of the indicators corresponded to those of the second negative. The obwas again employed and a second impression recorded. Where the two lines of shadow of the test object crossed should be the situation of the foreign body in the eye. Throwing the distance of the center of the cornea from a fixed point of the apparatus, one could measure the dist ance at which the foreign body in the eye lay behind this point, and thus as certain its approximate position.

The Evolution of Money.

When Dr. Schliemann was digging at the supposed site of Troy, he uncovered the remains of several ancient cities which had been built, one after another, on the same hill. In the second layer upon the bottom he discovered masses of silver in the form of ax heads. Dr. Gotze now suggests that these were intended, not for implements, but for money. Bronze ax heads have also been discovered in ancient remains, mingled with metal the new tunnel will run not much less pieces in the form of rings, in such a than 7,000 feet beneath the summit of manner as to suggest that all alike Mount Leone, it is anticipated that the were intended to serve as money; and temperature will be as high 104 degrees: the conclusion is drawn that,, in an-Fahrenheit. During the digging of the cient times, the metal ax head had St. Gotthard tunnel the temperature come to be a popular unit of value for rose to 88 degrees. The heat affected purposes of barter. After it had disthe health of the workmen, more than appeared as actual money, the memhalf of whom were attacked by disory of it, according to this theory, was preserved in the coins of Tenedos. which bore the figure of an ax head. Dr. Gotze also suggests that the "wedge of gold" which Achan stole from the spoils of Jericho, and for the stealing of which Joshua had him stoned to death, was a specimen of the ancient ax head money.

animal. The animal thus treated is not only rendered immune to diphtheria, but if already suffering from the disease is cured. The new antitoxin can be prepared very quickly, and it is said to be much more effective in its operation than the older form, which requires weeks for its preparation.' Dr. Smirnow has not vet, however, experimented with human subjects, his most important patients being dogs, which of all animals are said to be perhaps the most susceptible to diphtheria poi-SOU.

Camels in the Snow.

Troops of camels, brought from Mongolia, are employed in winter to carry supplies and materials, to and from the gold placers of eastern Siberia, and the spectacle presented by a long line of these "ships of the desert," tramping solemnly across the snows of a Siberian steppe, is described as extremely singular. Camels require only about half as much daily food as horses, but on the other hand, they have to be liberally supplied with salt. Where the country is so wild that neither roads nor tracks exist, reindeer are employed instead of horses or camels, and they find their own living en route, by uncovering, beneath the snow, a kind of gray lichen on which they are able to subsist.

Ascent to a Monastery.

The monasteries in mid-air that are found along the frontier between Turkey and Greece have been fully described in this naper. Today is presented a reproduction of a snap-shot photograph, showing very clearly how visi-

tors gain admission to these secluded and impregnable citadels of theology. -Ex.

> OFFICERS IN A SNARL. Ancient and Hono(u)rable Artillery

Boston Gets Mixed. (Boston Letter.)

Colonel Henry Walker is commander of that highly interesting Boston organization, the Ancient and Honorable Artillery Company, and Colonel Sidney Hedges is a former commander. The Ancients have not done much fighting since the close of the revolutionary war (in fact, it was split in side of George III.), but it was demonstrated not long ago that the martial spirit has not left them entirely. There has been bad blood between Colonel doors leading from both the drawing Hedges and Colonel Walker ever since the Ancient's trip to London last summer. This grew, it is alleged, out of Colonel Walker's temerity in telling the Ancients that when the Prince of Wales arose to address them they must

with the odor, is gradually withdrawn, while fresh water takes its place. Afterward the perfume is isolated from the water with the aid of ether. It is said that by this method some flowers whose perfume had never before been extracted had been successfully treated. The process has been notably efficient

in the case of the lily-of-the-valley.

Typesetting by Electricity. A St. Louis inventor has patented a device by means of which a typesetter, using a machine with keys resembling those of a typewriting instrument, produces a perforated strip of paper each of whose perforations represents a printed character. When the perforated strip is run through an electrical transmitter, connected by wires with distant typesetting machines, properly adjusted for the purpose, the type can be simultaneously set in as many different printing offices as may be connected in the circuit.

"The Weeping of the Vine." After the spring pruning in the vineyards water is seen trickling down the stems, and in France this is poetically called the "weeping of the vine." Prof. Cornu. a botanist, has recently studied this phenomenon, and he says it is due

from one pine grove to another. Their to the abundant absorption of water nest is made of pine twigs, lined with by the roots of the vine in spring time. feathers, soft grass, and the needle the water is forced through all the like leaves of the fir tree. HAMMOCKS

What a hustler Spring is, your no sooner get your snow shovel hung upon the rack than your have to get out your Law Mower. From June to September, time saunters, from September to March it pokes, but from March to June it goes in a gallop. If you have not yet got your HAM-MOCKS a CROQUET set you will find a full line at

S. OSTRANDERS'.

a story about his most unlucky Fourth,

something like this: One Fourth of July, when I was about 7 or 8, I arose full of patriotism and went out to have a good time with my firecrackers. I al-so had a number of birthday presents, which made me still happier. In fact, the intense patriotism which I have always displayed for the Fourth has its origin a little, I think, in the fact that I get many presents on that day. Well, on this particular day I went out with my presents, such as could be carried, and my firecrackers and was having the 'largest kind of a time' when a

"The fact is that in the hands of a $\begin{bmatrix} ARGE commodious rooms to rent. \\ 78 & J. L. HITCHCOCK. \end{bmatrix}$

hands full on this particular holiday. young and old, there is hardly any one who does not remember a New York Fourth of July when things went wrong at least once and very seriously. From the aged veteran who goes out to see the fireworks and gets a spark in his

eye to the small boy who holds his toy pistol "to see if it will kick" there are sure to be casualties more or less seri-

Ask any prominent man in Gotham for his Fourth of July experiences, and he will tell you a good story. This is especially true of H. C. Du Val, private secretary of Chauncey M. Depew, for

interested several capitalists in the proposed electric road from Port Huron to Bay City. He says work will begin this fall or next spring. The franchise gives free right-of-way, with no taxation for 30 years.

Last week Thursday, while overheated by working, Howard McKernon of near Deanville went to the pump and drank freely of cold water. The effect was to cause illness which resulted in his death Sunday morning. He was 19 years old and a son of Francis McKernon.-[Imlay City Record.

The remains of Edwin R. Cookingham, a former resident of Caro. who just such times as the morrow, to be run died at Ypsilanti Sunday evening, were interred in the Caro cemetery. Mr. Cookingham was county clerk from 1882 to 1886, and has represented floor. the township of Almer on the board of supervisors for six years. He was simply, "the flag of our country, as township clerk one year and county superintendent of poor three years.

The Dryden roller mill, elevator and three smaller buildings, owned by George R. Lamb & Co., were burned to the ground Sunday morning about 2 o'clock. The depot and express office were saved with difficulty. The cause of the fire is unknown. The loss ready." is estimated at about \$12,000. A. J. Howell, the miller, was overcome by heat and smoke but not fatally injured.

The oil fields which for some time have been known to exist in the swamp in the southwestern part of this township, are very promising. Not much has yet been said of the matter, but it is certain that a thorough development will be made soon. A substance taken from a few feet below the surface will burn brightly for a long time, so it is cortain that petroleum exists in large quantities here. A stock company will probably be formed in the near future, and all necessary arrangements consumated to develop the vast wealth which Mother Earth undoubtedly has hidden in this township. --Minden Herald.

"Last summer one of our grand-chil ren was sick with a severe bowel trouble,' says Mrs. E. G. Gregory, of Frederickstown, Mo. "Our doctor's remedies had failed, then we tried Chamberlain's Colic, Cholera and Diarhoea Remedy, which gave very speedy relief." For sale by T. H. Fritz, Druggist.

For Sale. 120 acres of land in Evergreen township, 60 acres under cultivation with fair buildings, good orchard; will sell cheap on terms to suit purchaser. Call on or address, Wm. F. Ehlers, of Shabbona, Mich., or D. June & Co., Fremont, Ohio, 5-13-

conceivable spot. The boy sat at the table reading, while his grandmother started to do some knitting. about and very careful not to get near

All at once the veteran looked away the fire again, for that day at least." Another famous New Yorker met with from the moths and said, "George, get bad luck once on July 4, when a mere out the flag."

baby. That was Oliver Sumner Teall From an adjoining room George brought out the banner, a silk one, beauand he was but 5 years old at the time tifully woven, but showing the unmis-It is said that people who have passed through great dangers can never accutakable wear of time. Holes in it had been carefully patched by the hands of rately describe the events as they occur the old woman, and her eyes rested lovred, and that is why Mr. Teall cannot ingly on its folds as she recognized the tell exactly about that explosion. "I was playing with a pinwheel," said he, old work. The flag was one kept for "when it went off in some mysterious way, and, still more mysterious, it up on the lofty pole in the garden. The seemed to carry me off with it. I flew old soldier's eyes glistened with a soft up into the air, heavy though I was

emotion as he smoothed the banner with five years of chubbiness, and when across his knees and spread it on the "The same old flag, mother," said he a great deal more of howl than there had been. My eyes seemed gone, my curls surely were gone and my little dear to us now as when we came here dress was missing in some of its imporfirst to live together till the end."

"Yes, John, my husband," was her tant links. I lived. But, oh, I rememproud answer, "and pray God George bered that Fourth for a many a long will always honor it as you have." day.' The veteran caterer Delmonico says "You need have no fear, mother," re-

he is extremely fond of the Fourth and plied the veteran, looking up at the young man standing before him. "I always celebrated with the small boys. have no doubt of him. The boy is from Banker D. O. Mills says the Fourth is the most glorious day in the year, not the same stock as we are and just as even excepting Christmas. General Ben-

"Grandmother," said George, "here's jamin F. Tracy says he does not care for a little hole in it, a fresh one. Shall I fireworks now, and when he was a boy call the girl in to mend it?" and hankered after such things he was too poor to buy them. Lawyer Abe

"Oh, no, no!" anxiously. "I can still do all that myself, dear, thank God, though it may be for the last time. Please give it over to me. Look, father. Watch me fix this." Save for the monotonous tick tock of

the old oaken clock there was silence in and there will be more Americans in the room while the old woman's needle England's metropolis to remember the plied slowly in and out of the silk. The day than in any previous year. The wealthier Americans who happen to be veteran watched her with a sort of quiet pride. As her task was completed the in London will visit that famed seat of Waldorf Astor, where the great landclock struck 9. owner has prepared quite a celebration.

"Nine o'clock." said the soldier roflectively. "It is good time we all went Mr. Astor's well known antipathy to to bed, for we will have a long day bo- fireworks is likely to limit the day's obfore us before tomorrow night comes." servance to quiet festivity, but three The night passed quietly and rapidly years ago he set a dinner of 300 covers away, for all in that rose clad cottage on the Thames bank, and 14 members of were sound sleepers. The old soldier, parliament sat down to it and drank the however, was up before daylight, and, health of the president of the United States. At Cliveden preparations have throwing open his casement window, leaned far out to take a look at the been making for nearly two months, and the number of Mr. Astor's guests weather. It was certainly going to be a will run into the hundreds. The official fine day. As yet there was but a weak glimmering in the east, where the sun celebration of the day in England will, of course, be that held in the American would presently break through, and the world looked limpid and cool in the

embassy in London. So fully recognized gray dusk of the early morning. As the in England are the customs incident to soldier leaned out of the window enjoythis day that it is an understood thing ing the fragrance of the dew steeped that no one connected with the embassy roses that climbed in clusters just beshall be asked to any affair that is timed neath the window frame he felt a light to cover the Fourth of July. For 30 touch on his shoulder, and, turning, he years the queen of England and the Prince of Wales have been represented saw his wife at his side. "Are you happy this morning, John?" at the banquet given by the American she asked. minister on that day.

"Quite," said he. "And you, dear?"

The process of scouring needles bright takes about a week. They are mixed with oil. soft soap and empty powder, wrapped in loose canvas and placed in a kind of mangle worked by mechanical power. This scouring process done, the needles are washed in hot water and dried in sawdust.
