Two hundred and forty-eight times does the Bible refer to the angels, yet I never heard or read a sermon on Angelology. The whole subject is relegated to the realm mythical, weird spectral and unknown. Such adjournment is unscriptural and wicked. Of their life, their character, their habits, their actions, their velocities, the Bible gives us full-length portraits, and why this prolonged and absolute silence theme.

concerning them? Angelology is my There are two nations of angels, and they are hostile to each other; the nation of good angels and the nation of bad angels. Of the former I chiefly speak today. Their capital, their headquarters, their grand rendezvous, is heaven, but their empire is the universe. They are a distinct race of creatures. No human being can ever join their confraternity. The little child who in the Sabbath school sings, " Iwant to be an angel," will never have her wish gratified. They are superhuman, but they are of different grades and ranks, not all on the same level, or the same height. They have their superiors and inferiors and equals. I propose no guessing on this subject, but take the Bible for my only authority. Plato, the philosopher, guessed and divided angels into supercelestial, celestial and sub-celestial. Dionysius, the Areopagite, guessed and divided them into three classesthe supreme, the middle and the lastand each of these into three other classes, making nine in all. Philo said that the angels were related to God, as the rays to the sun. Fulgentius said that they were composed of body and spirit. Clement said they were incorporeal. Augustine said that they had been in danger of falling, but now are beyond being tempted. But the only authority on this subject, that I respect, says they are divided into Cherubim, Seraphim, Thrones, Dominations, Principalities, Powers. Their commander-in-chief is Michael. Daniel called him Michael, St. John called him Michael. These supernal beings are more thoroughly organized than any army that ever marched. They are swifter than any

The apostle says, "Which things the angels desire to look into." That is a subject that excites inquisitiveness on their part. That is a theme that strains their faculties to the utmost. That is higher than they can climb, deeper than they can dive They have The Brilliant Beings Have Much to Do a desire for something too big for their with Our Everyday Life-The Text comprehension. "Which things the Is Judges 13:10: And the Angel Did angels desire to look into," But that does not discredit their intelligence. No one but God himself can fully understand the wonders of Redemption. Fire built on a rock. Manoah and If all heaven should study it for fifty his wife had there kindled the flames eternities they would get no further than the A B C of that inexhaustible for sacrifice in praise of God, and in subject. But nearly all other realms of knowledge they have ransacked and explored and compassed. No one but God can tell them anything they do not know. They have read to the last word of the last line of the last page of the last volume of investigation. And what delights me most is that all their intelligence is to be at our disposal, and, coming into their presence, they will tell us in five minutes more than we can learn by one hundred years of earthly surmising.

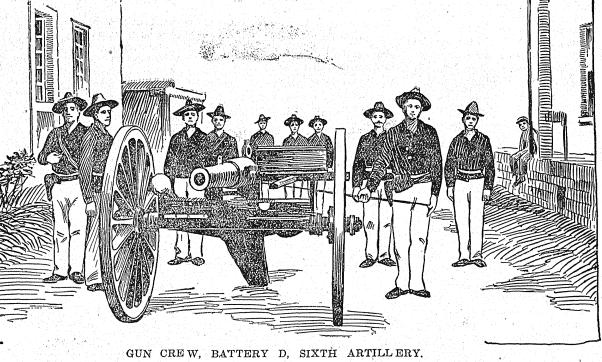

> ******** Another remark I have to make concerning these illustrious immortals is that they are multitudinous. Their census has never been taken and no one but God knows how many they are, but all the Bible accounts suggest their

immense numbers. Companies of them, regiments of them, armies of them, mountain-tops haloed by them, skies populous with them. John speaks of angels and other beings round the throne as ten thousand times ten thousand. Now, according to my calculation, ten thousand times ten thousand are one hundred million. But these are only the angels in one place. David counted twenty thousand of them rolling down the sky in chariots. When God came away from the riven rocks of Mount Sinai, the Bible says he had the companionship of ten thousand angels. I think they are in every battle, in every exigency, at every birth, at every pillow, at every hour, at every moment. The earth full of them. The heavens full of them. They outnumber the human race in this world. They outnumber ransomed spirits in glory. When Abraham had his knife uplifted to slay Isaac, it was an angel who arrested the stroke, crying, "Abraham! Abraham!" It was a stairway of angels that Jacob saw while pillowed in the wilderness. We are told an angel led the hosts of Israelites out of Egyptian serfdom. It was an angel that showed Hagar the fountain where she filled the bottle for the lad. It was an angel that took Lot out of doomed Sodom. It was an angel that shut up the mouth of the hungry monsters when Daniel was thrown into the caverns. It was an angel that fed Elijah under the juniper tree. It was an angel that announced to Mary the approaching nativity. They were angels that chanted when

shall be so poor in dving he cannot afford angelic escort. It would be a long way to go alone, and up paths we have never trod, and amid blazing worlds swinging in unimaginable momentum, out and on through such distances and across such infinitudes of space, we should shudder at the thought of going alone. But the angelic escort will come to your languishing pillow or the place of your fatal accident, and say: "Hail, immortal one! All is well; God hath sent me to take you home." And, without tremor or slightest sense of peril, you will away and upward, further on and further on until after a while heaven heaves in sight, and the rumble of chariot wheels and the roll of mighty harmonies are heard in the distance, and nearer you come, and nearer still, until the brightness is like many mornings suffused into one, and the gates lift, and you are inside the amethystine walls and on the banks of the jasper sea, forever safe, forever free, forever well, forever rested, forever united, forever happy. Mothers, do not think your little children go alone when they quit this world. Out of your arms into angelic arms; out of sickness into health; out of the cradle into a Saviour's bosom. Not an instant will the darlings be alone between the two kisses-the last kiss of earth and the first kiss of heaven. 'Now, angels, do your work!" cried an

expiring Christian. Yes, a guardian angel for each one of you. Put yourself now in accord with him. When he suggests the right, follow it: when he warns against the wrong, shun it. Sent forth from God to help you in this great battle against sin and death, accept his deliverance. When tempted to a feeling of loneliness and disheartenment, appropriate the promise, "The angel of the Lord encampeth around about them that fear him and delivereth them." Oh, I am so glad that the spaces between here and heaven are thronged with these supernaturals, taking tidings home, bringing messages here, rolling back obstacles from our path and giving us defense; for terrific are the forces who dispute our way, and if the nation of the good angels is on our side, the nation of the bad angels is on the other. Paul had it right when he said, "We wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places." In that awful fight may God send us mighty angelic re-enforcement! We want all their wings on our side, all their swords on our side, all their chariots on our side.

Thank God that those who are for us are mightier than those who are against us! And that thought makes me jubilant as to the final triumph. Belgium, you know, was the battleground of England and France. Yea, Belgium more than once was the bat-Christ was born. It was an angel that tle-ground of opposing nations. TALMAGE'S SERMON. ANGELOLOGY THE SUBJECT ON LAST SUNDAY.

(Copyright 1899 by Louis Klopsch.)

Wondrously.

A Methodist missionary in Ceylon one day received a call from an aged Buddhist. He was 96 years old and very decrepit and almost blind. L ke all others of his religion he looked for a reincarnation in another body, after he died, according to his merits, and this is his list of merits as he tole it to the missionary: "I have climbed Adam's Peak twenty-six times; I have visited the Temple of the Tooth seven times; I have caused several Buddhist books to be copied and given to the priests, and I have never killed an animal, except a few fish that I caught. So you see I have plenty of merit, and I shall be born well in my next life." This old man had not done good to any human being, and his faith appeared to be mostly faith in himself. Ceremonial religion furnishes few examples more characteristicor more hopeless.

French justice has overtaken one sophisticator of good. A Parisian styindle amusing to all but the sickened and disgusted victims consisted in the n.anufacture of an especially fine quality of the pate de foie gras so dear to the stomach and the pocket of the gourmand. Put up in elegant pots or jars this supposed delicious preparation of the liver of the fatted goose sold at high prices, and was highly esteemed by epicures, until they learned that the exquisite delicacy over which they smacked their lips with so much gusto was simply a preparation of horseflesh, and ancient horseflesh at that bought from the knackers, boiled mixed with fat pork, spiced with nutmeg, ginger and cayenne pepper, a little rum kirsch or eau de vie being poured over the delectable compound to give it a flavor. Pates of quail, lark. duck, hare and pheasant were also prepared from the same foundation and found ready sale among the gourmands, whose ire is by no means assuaged by the fact that the manufacturer has been sent to prison for eight months.

Canada has wonderfully modified the demands made in connection with the Alaskan boundary. Anxiety for a seaport has at length led to the abandonment of all claim to a large part of the disputed country. Having arrived at this accommodating resolution Canadians are in a better mood to hearken to the unanswerable American argument of delimitation.

You have no doubt observed that it is only after you have made a mistake that people begin to tell how it could have been avoided.

Custom Which Sometimes Is Fatal to the Infants.

"Salting" newly born infants, a practice that dates far back to Biblical times, still obtains in many parts of the old world, says the St. Louis Post-Dispatch. The Armenians in the Russian government of Eriwan cover the whole surface of the babe's body with fine salt, especial care being taken with the interstices between the fingers and all depressions, such as the armpit and the bend of the knee, so that no point shall remain unsalted. The unhappy infant is left in the salt for three hours or longer and is then bathed in warm water. The Armenians of some districts, having abandoned the practice, are called "unsalted," and are despised by the others.. The modern Greeks also sprinkle their babes with salt. If an enlightened mother protests, the midwife is ready with the objection: "But if it isn't salted it will be puny and never will amount to anything." If this salting process is carried to excess, the poor babes don't stand it at all. The skin becomes as red as fire, the irritation is intolerable, and the child dies in convulsions. Yet there mercilessly salts its new-born babes that the limits of human endurance are wide in some cases. This ancient custom is still in vogue in many parts

tan, as the Bible calls him, the commander-in-chief on the other side. All nure angelhood under the one leadership, and all abandoned angelhood under the other leadership. Many a skirmish have the two armies had, but the great and decisive battle is yet to be fought. Either from our earthly homes or down from our supernal residences, may we come in on the right side; for on that side are God and heaven and victory. Meanwhile the battle is being set in array, and the forces, celestial and demoniacal, are confronting each other. Hear the boom of the great cannonade already opened! Cherubim, seraphim, thrones, dominations, principalities and powers are beginning to ride down their foes, and until the work is completed, "Sun, stand thou still upon Gibeon, and thou, moon, in the valley of Ajalon!'

off evil spirits. The action of salt in keeping meat sound, no doubt, is the reason that this strengthening and sustaining power was ascribed to it.

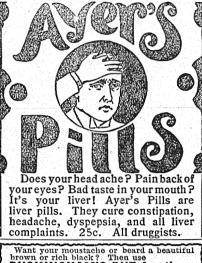

The best friendship says the least about it.

Encircled from our second birth With all the heavenly powers?" BUCKINGHAM'S DYE Whithers

To Los Angeles and Southern California

Every Friday night, at 10:35 p. m., a through Tourist Car for Los Angeles and Southern California, leaves the Chicago, Milwaukee & St. Paul Railway Union Passenger Station, Chicago, via Omaha, Colorado Springs and Salt Lake City, for all points in Colorado, Utah, Nevada and California.

In addition to the regular Pullman porter, each car is accompanied by an intelligent, competent and courteous 'courier," who will attend to the wants of passengers en route. This is an entirely new feature of tourist car service, and will be appreciated by families or by ladies traveling alone. Particular attention is paid to the care of children, who usually get weary on a long journey.

These tourist cars are sleeping cars supplied with all the accessories necessary to make the journey comfortable and pleasant, and the berth rate (each berth will accommodate two persons) is only \$6.00 from Chicago to California. Ask the nearest ticket agent for a tourist car folder, or address Geo. H. Heafford, General Pass, and Ticket Agent, Chicago, Ill.

Winter in the South.

The season approaches when one's thoughts turn toward a place where the inconveniences of a Northern winter may be escaped. No section of this country offers such ideal spots as the Gulf Coast on the line of the Louisville & Nashville Railroad between Mobile and New Orleans. It possesses a mild climate, pure air, even temperature and facilities for hunting and fishing enjoved by no other section. Accommodations for visitors are first-class, and can be secured at moderate prices. The L. & N. R. R. is the only line by which it can be reached in through cars from Northern cities. Through car schedules to all points in Florida by this line are also perfect. Write for folders, etc., to JACKSON SMITH, D. P. A., Cincinnati, O.

"My answer is final," she responded. 'The time might once have been when you fancied I had a childish liking for you, Harry Birmingham; but that time has long since passed away. I gave my heart to the best and noblest man that

DREYFUS' CHILDREN

ONE OF THEM A BABE WHEN MISFORTUNE CAME.

The Other Only Two Years Old, but Remembered the Father When He Came-A Most Affecting Scene With Child Clasped to His Breast.

One of the most pathetic episodes in connection with the Dreyfus case was the first meeting of the prisoner with his children. When he first met his awomatically, by elevators, to a room children on the Saturday after his arrival at Carpentras, Alfred Dreyfus pected," said Tewksbury. "Pretty stood outside the garden at the end of young widows don't go begging in this the carriage drive leading to the Valabregue villa.

On seeing him his little boy and girl, Pierre and Jeanne, jumped out of the carriage which was bringing them, with their grandparents, M. and Mme. Hadamard, from the railway station, and chilling to keep indefinitely and whence they had arrived from Paris, reslat climatic influences, are passed and ran toward their father. Pressing through seeding machines, each of "Yes; but a fellow would naturally them both in his arms, Dreyfus kept prefer dying in his bed to being car- them locked in a long embrace. He ried off by an East Indian fever and was overwhelmed with emotion and unable to speak a single word. This I shuddered. Had I then come home | first interview with his children, after five years' separation, affected him so

deeply that he remained completely prostrate with nervous exhaustion durng the entire day.

And thus were realized the dreams of the unhappy man, whose confinement in and pilgrimage from the hell of the Ile du Diable through the purgatory of the prison of Rennes to the paradise of Carpentras, in the sunny south of France, have held the attention of the world during upward of four years. Speaking to M. Jules Huret, the Figaro correspondent, in the course of that memorable journey from Rennes to Carpentras, Dreyfus had said, in answer to a question as to his future plans:

"I would live alone with my children and wife. My children are henceforth my greatest joy upon earth. The elder, it seems, remembers me. The younger was only a few months old in 1894, so I do not know her. I did not Miss Caroline Hazard, the newly electcare to see them at Rennes, as I would not leave the melancholy picture of the prison in their young minds. You which her distinguished position remust never sadden the imagination of children. But I am going to see them ever breathed-Paul Folliott-and in with the greatest joy in two days. I his grave it is forever buried. I loved want to bring them up myself, in company with their mother, to instruct and educate them. When my children were small I delighted in the thought of talking to them and of training them from their earliest age. Unhappily, events did not allow this. But

How Mrs. Pinkham HELPED MRS. GOODEN.

[LETTER TO MRS. PINKHAM NO. 12,733] "I am very grateful to you for your kindness and the interest you have taken in me, and truly believe your medicines and advice are worth more to a woman than all the doctors in the world. For years I had female troubles and did nothing for them. Of course I became no better and finally broke down entirely. My troubles began with inflammation and hemorrhages from the kidneys, then inflammation, congestion and falling of the womb and inflammation of ovaries.

"I underwent local treatment every day for some time; then after nearly two months the doctor gave me permission to go back to work. I went back. but in less than a week was com-

pelled to give up and go to bed. On

breaking down the second time, I de-

cided to let doctors and their medicine

alone and try your remedies. Before

the first bottle was gone I felt the ef-

fects of it. Three bottles of Lydia E.

Pinkham's Vegetable Compound and a

package of her Sanative Wash did me

more good than all the doctors' treat-

This was crossed, until recently, by a wooden bridge, 126 feet high, which took over 240,000 feet of lumber in the building. Recently this trestle was filled in, and the great undertaking attracted the attention of railroad men all over the country. It took twenty weeks to accomplish the task. It was necessary to haul 2,880,000 cubic feet of earth one and one-half miles up a two per cent grade and unload off the high bridge. This required 1.486 trains of fifteen cars each; 22,000 carloads in all. It was a stupendous undertaking, but now the bridge can't burn, and it doesn't cost a lot of money every year for repairs and watchers.

STRIKE! Hundred of Thousands Are Involved. Trouble in an Important Part of the Organiza-

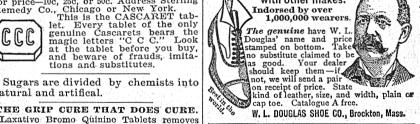

tion Affects All the Rest—A Perfectly Harmonious System Easily Thrown Out of Gear.

Organized labor has reached such a stage that anything affecting a particular branch of it draws all the rest into the

Welborn & Co., Kalamazoo, Mich. GHEAP

stage that anything affecting a particular branch of it draws all the rest into the difficulty. It is exactly the same way with differ-ent organs of the human body. Work too hard, eat too much, drink too much, ex-ercise but little, be a little irregular in any way, and the liver quits work. Then the bowels become constipated and the stomach goes on strike. The heart is affected, the brain follows suit, and every part in the body is dragged into the trouble. The only way out of it is to go at the source of all this-the liver. Square your-self with the liver and all will get back to regular natural work. Cascarets Candy Cathartic make things right with the liver. They perfume the breath, prevent food from souring on the stomach, give tone to the bowels, strength-en the intestinal muscles, while they are cleaning and stirring up the liver to re-newed activity. No matter how long a case has been in-100,000 ACRES Improved and unimproved farming lands to be divided The Truman Moss Estate, Croswell, Sanilac Co., Mich W. L. DOUGLAS

cleaning and stirring up the liver to re-newed activity. No matter how long a case has been in-curable, Cascarets are guaranteed to put things right as they should be, and set the whole machinery a-going. And you can get them at any drug store or by mail for price-10c, 25c, or 50c. Address Sterling Remedy Co., Chicago or New York. This is the CASCARET tab-let. CONCISE AND INTERESTING.

The Celebrated Mains' Trial has Beer Ended, the Supreme Court Disbar ring Him From Practice in This State -He is Morally Irresponsible.

'Our State Auditors' Power. A question of very great importance has lately arisen relative to the authority of the board of state auditors to exercise its decretion in the matter of allowing claims in certain cases. It has always heretofore been the theory that as to all claims not expressly and specifically stipulated in the laws, the board was the final arbiter, and it was to act on its best judgment in allowing all or any portion of such claims or of rejecting them in their entirety. Lately, however, a new idea has been advanced by a number of well informed officials, who adhere to it tenaciously. This is that where the law provides that a certain thing shall be done. the board has no choice but to allow whatever expense the persons charged with the performance of that duty shall say is proper. By way of illustration, take the mitter of the law creating the state tax commission. This law outlines in a general way certain work that the commission shall do, but, as is generally known, it makes no provision whatever for salaries and other expenses, except those of the members of the commission and its secretary. It is contended by those who advocate the new theory referred to that if the commission asks for \$600 or \$600,000 a year for clerk hire, the auditors are bound to allow it, that being the amount necessary to carry into effect the provisions of the law.

Mains Disbarred From Practice. For the first time in at least 25 years, and possibly for the first time in the history of the state, the supreme court on the 2d entered an order disbarring an attorney from practicing in any of the courts in Michigan. This action is one of the results of the famous Mains-Hulburt litigation, the sensational features of which, including prosecutions for perjury, conspiracy to murder, etc., have been fully detailed from time to time during the past three years, and which have tended to well-nigh demoralize legal business in Calhoun county. The central figure in these proceedings is Charles R. Mains, of Battle Creek, whom the supreme court holds is morally irresponsible to practice as an attorney in this state.

Two Miners Blown to Fragments.

Two more miners were killed at the Cundy mine, near Iron Mountain, on the morning of Oct. 30. The accident was caused by a premature blast of dynamite in the Gray shaft. The vic

MICHIGAN NEWS ITEMS. Charlotte is to have free mail deivery. A smallpox hospital has been estabished at Saginaw. Holly and Marshall reports the first fall of snow for this season on Nov. 2.

The supreme court has decided that Eikhoff's home rule bill is unconstitutional. The debt of \$1,600 on the Niles M. E. church was raised by subscription on the 29th.

The schools and churches at Durand are closed on account of the prevalence of measles. About \$2,000 worth of damage was

done to private property in Jackson on Hallowe'en. The farmers in the vicinity of Mt. Clemens are satisfied with their first sugar beet crop.

It takes three cider mills running overtime to keep Tekonsha people from going thirsty. All vagrants who are now arrested

at Bay City will be compelled to work 30 days for the city. The first wildcat skins of the season

vere brought into Gladwin last week for the collection of bounty thereon. A genuine school row is on at Munisng which will have to be settled at the November term of the circuit court.

A mammoth wildcat was trapped near Traverse City the other day. It measured six and a half feet from tip to tip.

Saginaw is to have a muslin underwear factory which will cost \$20,000. The factory will be in operation in six weeks.

Two prominent Ypsilanti ladies narrowly escaped death by suffocation on the evening of Oct. 30. The folding bed shut up,

A heavy snow storm at Coldwater on the 3d practically caused the suspension of business, hardly a team venturing on the streets.

A Shiawassee county house charge by the name of Frederick Bhanze was run over and instantly killed by a D. & M. freight on Oct. 30.

The Kings County Fire Insurance company, of New York, has been admitted to do business in Michigan by Commissioner Stevens. A new three-story brick hotel, with

all the up-to-date improvements, is one of the good things down on the bills for Cadillac next season. A new \$1.600 pipe organ has been

placed in the Catholic church at Parisville, Huron county. It is the only pipe organ in the county.

The smallpox cases at Benton Harbor are not malignant according to the inspector of contagious diseases for the state board of health.

The state board of pharmacy has socured eight convictions of druggists in different parts of the state for viola tion of the pharmacy laws.

What timber there is left in Cass county is being gobbled up by buyers his fall, the high price of lumber making the demand strong. There are just 700 veterans in the Soldiers' home at Grand Rapids. This is much in excess of the usual number at this time of the year. Although E. M. Harris was defeated at the polls last fall for the position of prosecuting attorney of Ogemaw county by Mrs. Abbott, he now fills her place. Temperance workers in Allegan county have organized to bring about. if possible, another vote on the question of local option in the county next spring.

The Wolverine Developing company has been organized with a capital stock of \$50,000. The object of the company will be to explore for gas, coal, oil, etc.

A Calhoun company to be known as

Calumet capitalists will build an electric lighting plant at Lake View. It is the purpose of the new company to furnish lights for business houses and residences in Calumet. Red Jacket

and Laurium. The new hom copathic hospitalat the University of Michigan will contain six wards; two for men, three for

women and one for children. The normal capacity of the hospital will be from 75 to 80.

Harland Houghtaling, who has a farm north of Standish, harvested a sugar beet the other day which measured four feet and three inches in length, and thinks he has done about as well as the next man.

A Hillsdale capitalist by the name of James S. Galloway has purchased 391/4 square miles of Canadian pine timber land, located in Morgan county, Ont. He expects to cut 100,000,000 feet of

white pine from the tract. The work of re-grading the old Coldwater and Marshall roadbed from Marshall to Olivet has been completed but the work of laving the rails for the new Columbus. Marshall & Northwestern railroad is at a standstill.

The 23d annual convention of the W. C. T. U. for the 3d district, composed of the counties of Eaton, Caloun, Barry and Branch, and representing 39 cities and towns, will be

held at Battle Creek, Nov. 8 and 9. The first estate to be affected by the new state inheritance tax law is that of Lawrence Olsaver, of Webster. About \$23,000 of personal property was left, and under the law the estate must pay 1 per cent on all over \$5,000, which would make the tax about \$180.

Ithaca business men and other citizens having the welfare of the city at heart have organized an improvement society, and being sensible men, they have decided that the first thing to do to promote the prosperty of the city is to improve the highways leading in from the country roundabout.

An old time document, a land patent conveying lands in the township of South Haven, dated May 5, 1836, issued by Andrew Jackson, President of the United States, to the late Judge Jay Rand olph Monroe, was placed on rec

ord a few days ago in the office of the register of deeds of V an Buren county. Instead of giving a bonus to some outside company to locate in the vilage-and stay until some other place offered it another bonus-the business men of Minden have organized a stock company, leased a factory building which has been standing idle in the

town, and will run the business themselves. Belding is a pretty busy place these days. All the factories in the cityand there are a lot of them-are behind on their orders and running overtime to catch up, and many new houses are being built to supply the demand

RELIABLE AND INTERESTING.

Parishes in the Milwaukee Diocese to be Incorporated and Property Deeded to

Them-New Treaty With Spain-Admiral Dewey Will Marry Mrs. Hazen

Street Fight in an Indiana Town. A desperate street fight between

members of a Tennessee colony, recently located at North Salem, Ind., and citizens of the place resulted in the instant death of one man, the fatal wounding of another and minor injuries for many others on Oct. 29. Trouble has been brewing for some time and it came to a focus when a number of the Tennesseans started a row in Ragan's store. The proprietor tried to quell the disturbance, but found himself in danger of being trampled and beaten to death. He ran behind the counter, secured two revolvers and opened fire. Instantly pistols were drawn by everybody and the fight spread out into the street, where it became general. Women fainted and unarmed persons in the vicinity of the battle sought shelter in stairways and behind telegraph poles. More than 25 shots were fired, but no one can or will tell who fired the fatal shots.

To Become the Property of Parishes. The recent decision of the supreme court in the suit brought by Archbishop Katzer, of the Milwaukee diocese, for the purposed of securing a return of taxes assessed against property owned by him, which he claimed was church property, held in trust, has brought about a radical change. According to the decision, property, even when held in trust, by the archbishop, is subject to taxation. As it has been the custom for all the property in the diocese to be held by the archbishop. who, on his death, wills it to his successor, it is readily seen what the decision would mean. He has ordered that all the parishes in his diocese be incorporated, after which the property will be deeded to them by the archbishop and the title will hereafter rest with the parish instead of the bishop of the diocese.

Four Persons Lost in the Klondike. The treasure ship Roanoke, which brought down \$1,300,000 in gold and 400 passengers, reported at Seattle, Wash., on Nov. 1, 16 days from St. Michaels and 11 days from Cape Nome, brought the first story of the death of several New Yorkers, members of the Alaska Protecting Co. The dead are: Mr. and Mrs. Emil Kuhner, Oscar Becker and an unknown man. Beck er's body was washed on the beach a

St. Michaels island and later was found an over-turned steamer and a scow loaded with machinery, which represented the assets of the company. The

WAR NOTES.

A recapitulation of the casualties in The London war office on Oct. 31 rethe regular and volunteer armies beceived a dispatch from Gen. general of the army. Brig.-Gen. Corbin, to the secretary of war, was made public on Nov. 1. Aside from the strictly technical recital of all the details of a busy year in military life, the report gives much information of an interesting general character and submits numerous recommendations for the betterment of the service. Gen. Corbin sums up the military forces now in the service of the United States as: Regular army, 64,586; volunteers, 34,574; total, 99,160. The regular establishment consists of 10 regiments of cavalry, 7 of artillery, and 25 of infantry. The volunteer establishment consists of 1 regiment of cavalry, 24 of infantry and a Porto Rico battalion. The distribution of these troops up to October 1 last, was as follows: In the United States, 34,229; Porto Rico, 3,363; Cuba, 11,187; Philippines, 32,315; en route to the Philippines, 17,099; Alaska, 499; Hawaiian islands, 466.

place, and the greatest crowd that ever volunteers and a troop of the 4th cavgathered in the Coney Island club alry cleared the country of all armed insurgents from Florida Blanco to congle for supremacy. In five rounds siderable distance beyond Porac, pursuing them into the mountains, capturing nine of their cavalry horses, several guns, considerable property, and like a bull terrier was at his man killing, wounding and capturing a number of the enemy. The insurgent cavalry of that section is now practically destroyed. Bell's casualties, one man killed and two wounded.

STATE OF OHIO, CITY OF TOLEDO, LUCAS COLARY, LUCAS COLARY, Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure. FRANK J. CHENEY. Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886. [SEAL] A. W. GLEASON, [SEAL] Notary Public. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 750.

Sold by Druggists, 75c. Hall's Family Pills are the best.

The Baltimore and Ohio South Western Rail Road placed in service several months ago five large tenwheel compound passenger engines for use on fast trains between Cincinnati and St. Louis. The performance of these engines has been eminently satisfactory and up to the highest expectation. The same line has also in service 50 consolidation compound freight engines which provide ample power for the entire line in addition to what was already in use. The compound engines were an experiment but hard service has proved that they are entirely successful and show a saving of 15 per cent in fuel as compared with simple engines of the same type. Exhaustive tests were made with both the simple and compound locomotives before the order for the entire lot was placed with the result vastly in favor of the compound locomotives.

Try Grain-o! Try Grain-oi

Ask your grocer today to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it, like it. GRAIN-O has that rich seal brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. One-fourth the price of coffee. 15c. and 25c. per package. Sold by all grocers.

Tomatoes by Weight.

In the canning factories tomatoes are bought by weight not measure. They are washed and scalded by machinery, peeled and cored by hand. Then they are sorted, packed in cans by machinery, sealed and steamed for about an hour. The cans are next soldered, cooled, labeled and packed in cases.

in a couple of vicious uppercuts that A detachment of Bell's regiment,

tims are Richard Knight and John Pedro. It is supposed that a piece of granite became dislodged and fell into the hole and when the iron was driven down on the powder a spark was struck, causing the explosion. The accident occurred on the same level, and nearly in the same spot where three men were blown to pieces only recently.

Michigan's War Claim.

It will be remember that Gov. Pingree and the military board spent about half a million dollars putting Michigan's quota of troops in the field, and they expected to get the larger part of it back from the general government. Recently it was announced that the general government had allowed the state a paltry \$26,000. It is now understood that the governor is not inclined to accept the amount. if such acceptance will interfere with the collection of the balance.

The Fish Law to be Tested.

Deputy Game Warden Brewster says that the supreme court will shortly be called upon to pass upon the legality of spearing fish in private waters. Genesee parties own land all around an island lake, and claim to own the fish. They were prosecuted and the case will be tested. It was held that as more than one man owned land around the lake the same could not be held as private property.

Must Pay Their Poll Tax.

A number of Durand residents refused to pay their polltax, and the village didn't do a thing but begin suit against each one for the amount due. The original tax and fee amounted to \$1.04, but those who waited to be sued had to put up \$2.10 each, the costs of instituting each suit bringing it to ter. that amount.

Will Test the New Law.

A South Haven druggist refused to make the weekly report to the prosecuting attorney of his liquor sales, as provided by a law passed by the last Regislature to apply to local option counties, and has been bound over to the circuit court, the idea being to test the constitutionality of the law.

Roscommon county will raise \$12,-.500 this by taxation for all purposes.

The Wolverine Sugar company, of Benton Harber, will shortly begin the manufacture of sugar from the sugar

The Michigan Fanciers' association will hold its annual poultry and pet stock show at Battle Creek for one week, commencing December 15.

Davison is assuming city airs. Two blocks of paving have been laid in Main street and cement walks are be ing put down at street crossings.

The session of the October term of the circuit court for Huron county, lasted only two days, but in that short | at the hands of the jury which sat on time \$650 in fines were collected. the case.

Portland people seem to be free from superstition. A literary club has just been formed in the village, the membership of which is to be 13-no more and no less.

Notwithstanding the high wages offered for men to work in the woods, lumber operators in the upper peninsula are compelled to work their camps shorthanded.

There are some queer people at Battle Creek. One of them has just been arrested for burning up the sidewalk in front of his own and his neighbors' bachelor of science in engineering and houses for fuel.

The attempted murder case of Mrs. Marie Butterfield Sanderson, which was called on Oct. 30, has been adjourned until the December term of the circuit court in Calhoun county. The Lenawee Farmers' Mutual Insurance Co.'s report shows 5,500 members: amount insured, \$8,708,840; rate of insurance, \$2.01. Edgar Morse has been re-elected secretary for two years. A tract of 100 acres of hardwood tim-

ber located near Vernon, one of the few such tracts remaining in the erseed. county, has been sold to Bay City lumber operators and will be cut this win-

An attempt was made to blow open the safe in the exchange bank at Byron with nitroglycerin on the 2d, but the burglars were frightened away, only securing \$5 in pennies for their trouble.

Vegetarianism will be the fad among the prisoners in the Kalamazoo county jail hereafter. The supervisors cut the sheriff's allowance for feeding prisoners to 30 cents per day, and the logs rolled over and ground three men sheriff asserts that meat cannot be furnished the prisoners at that price. Johanna Gursky, the Crystal Falls girl, who was lost in the woods, was found on Oct. 30 by a homesteader near Atkinson. She had been 17 days in the woods with nothing to eat, but wintergreen berries, and had walked 17 miles from the place where she dis-

appeared. The price of dogs is a variable quantity at Milan. One resident of that place recently sold 17 pups at prices ranging from \$10 to \$25 apiece. but another man who sued his neighbor for shooting his pet canine got but \$1.50

The new railroad from Lowell will also strike the city before long and help things along. President Brown of the state live

stock sanitary commission was at Lansing on Oct. 30 on his way to Watertown, Clinton county, where a case of lumpy jaw is reperted. He says the health of the cattle of the state was never better, and that there has been

less swine plague or hog cholera this year than for some time. The Boucher murder trial which has been in the circuit court at St. Joseph for four days, was finished on the 3d and the case given to the jury. He

was alleged to have killed Wm. Hawkens, and two witnesses testified that Boucher admitted his guilt, all other testimony being circumstantial evidence. He was later found guilty of murder in the first degree.

The sheep pens at the stock yards at Kansas City, covering an entire block, were destroyed by fire on the 28th and 600 sheep were cremated. Four firemen were seriously injured by falling walls, and one, Charles Peterson, may

die. Loss estimated at \$30,000. The steamer Labrador, which recently arrived at St. Johns, from a trip along the Labrador coast, reports that desolate island off the northern section to the fact that the instructions for a vessel to bring them down miscarried.

news was brought to St. Michaels by natives who claim to have seen the steamer overturned during a severe wind storm which prevailed about September 15.

New Treaty With Spain.

An understanding has been reached by which it is expected that negotiations will be opened soon at Madrid for a new treaty between the United States and Spain. This will be the last step toward completely restoring the friendly relations between the two countries. The war with Spain swept the old treaty out of existence and the only international agreement now in existence is the peace treaty, which is confined to the events growing out of the war, has no reference to commerce, navigation, extradition and other manifold relations between nations in times of peace. The coming negotiations will be for the purpose of forming such a treaty of commerce, amity

"No, not at all."

going, dear. Good-night."

"Good-night," I said.

unrepentantly.

coldly.

CHAPTER XI-(Continued.) will come and see you every day if you "I don't know the details of the rest | like. I'm nicer than Kitty-I am, in--but she threw John over; she deed! couldn't bear the prospect of poverty! Monsieur Arnaud, who had made a colossal fortune in trade, who had bought land in Brittany, had heard her sing and proposed and been refused, Madame Arnaud rose to go. and now proposed again and was accepted. She accepted the colossal fortune, and hoped that the jam would compensate for the presence of the pill in the shape of monsieur. I hope monsieur proved a more bitter pill than they reside when warming?" she expected; I hope devoutly that he proved a brute; but of that history does not speak."

The clock ticked on again in the silent room. Meg and I sat still, saying nothing for some minutes; then I asked half absently-

'Who told you the story?" "Never mind who told me," said Meg, rising suddenly from the elbow of my sought me, with a note of anxiety in her clear, sweet voice. chair and wandering away from me to turn over the music on the piano. "I heard it long ago, but had half forgotten it; and it was only the other day that I knew it was John to whom she had been engaged."

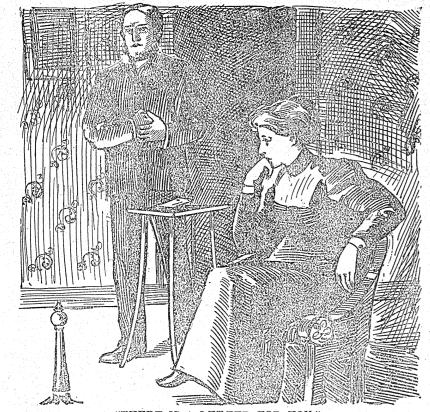

asked. "And John thinks her so good!" 1 said wonderingly, speaking to myself rather than to Meg.

"My dear," returned Meg drily, "John is a paragon-as I believe we have said before."

A soft tap at the drawing-room door, and the maid announced-"Madame Arnaud."

I rose quickly. Madame Arnaud came across the room towards me. She kissed me and shook hands with Meg:

and, in another minute, I was offering her tea, and she was sitting talking to us in that soft, low, musical voice of

"The society of one's contemporaries is such a relief, is it not?" I said; and I meant the speech to be biting in its IN FAR FAMED PORTO RICO sarcasm. My voice spoilt the speech a little by faltering. John was looking at me with such a grave glance that my eyes fell. He did not answer me. He drew on his thick gloves slowly, looking thoughtfully away from me down into the fire: then he sighed, kissed me in a grave way, and went. I heard the street door shut, then

I sat down in a hopeless attitude upon

and burst into tears.

CHAPTER XII. Seven o'clock, eight o'clock, nine Meg had succeeded. It was impossio'clock struck. The fire had burnt ble to talk seriously if Meg meant the conversation to be frivolous. The conroom had grown cold. Still I sat in versation remained frivolous until the same attitude-my head bowed down upon my hands-and tried to "John is not back yet?" she asked, think calmly of the future that lay before me-tried and failed. I was so "His slippers are still in view," said young!-I had so many years to live! Meg-"on the dining-room fender-or

-that thought was too pitiful; it made is it in the breakfast-room, Kitty, that me cry anew! And as long as I live, John's life must be a bondage; he had "No, John is not in yet," I replied married me for kindness' sake, but perhaps he had never realized before-Madame Arnaud opened the fur baghand how little I should have in commuff she carried and took out a letter. mon with him, how young I was, how "I feared I should not see him. Will foolish, how dull the constant comyou give him this?" she said, and there panionship of a girl of seventeen must was just a touch of embarrassment in her manner as I took the letter from for John's sorrow or for the pathos of her. "You won't forget it?" she bemy own part therein.

I was numb with cold, dazed with cloak and went out of doors into the

cold gray October night. There were few people about. In the park the paths were deserted. If I had "I dare say I was rude," I admitted been less unhappy, I should have been frightened at the loneliness; I was too "Oh, don't feel doubtful about it.

wretched to feel fear or to care about dear-you needn't! You were an icicle the cold. -an iceberg-the polar regions! I'm came out and shone down between the its area which was not at some time gravia" (or grana?), the "Royal ing and sifting. trees upon the rippling water; the

water sparkled coldly, the bare branches looked ghostly in the pale silvery light. Then the clouds gathered again and the moon was hidden.

I sat down on a seat beside the pathway, with my fur cloak drawn closely about me; and my tears fell fast again beneath my veil. Footsteps came slowly up the lonely path. Two figures were advancing in the darkness; I saw them dimly outlined, but did not read Kingsley's inheed them. I only awoke to any interesting descripterest in them when my ear detected a woman's choking sob.

SAW POSTAGE STAMP WALK

Saloon Customer Dropped It on Floor and It Began to Climb the Bar.

He had been out all night, and he looked it all over. Wandering into a is another, the color of chestnuts, and fumbled in one of his pockets. "Shay, barkeep," he said, thickly, "gimme zin fiz n' er postash stam'," fishing a badly crumpled letter from his pocket. The bartender mixed the drink, got a postage stamp from a from the sap of the cocoanut tree, drawer and placed both before the inebriated one. The latter, after several futile efforts, picked up the sticky stamp, moistened it with his tongue, and then awkwardly dropped it to the

floor. Stooping to recover it, he suddenly straightened up, passed his hand. quickly over his eyes and then stared. at the floor with a look of mingled. amazement and horror on his features. "Now I've got 'em, barkeep; got 'em again!" he yelled, moving toward the door. The postage stamp, to all appearances, was staggering about the floor. Finally it proceeded to climb up the side of the bar. The barkeeper took a look and he, too, was mystified. But a light suddenly dawned upon him and he brought the bar mallet down. upon the apparently animated postagestamp with a laugh that jarred the overwrought nerves of the other man ... The moistened postage stamp in falling, it seems, stuck on the back of a husky young cockroach foraging for free lunch on the barroom floor. The roach with the stamp sticking to his back, and with his body hidden from sight under it, had staggered about and attempted to climb up on the bar with his burden. When the barkeeper explained things, the other man hastily changed his order to seltzer and lemon. -New York Times.

ORDERING A TROUSSEAUL

Beautifully Dressed Dolls Sent to the Prospective Bride.

A vast amount of very beautiful and exquisitely skilled work only plays at secondary and passing part in the economy of trade, says the New York Commercial Advertiser. The big dressmakers' models are so exclusive and precious that they are guarded from. outsiders as one would guard jewels or gold from a thief. Pattern dresses cost enormous prices, and the gown builders use them bit by bit as ideas for 'original" costumes. To their farwestern or southern customers they will send exquisitely dressed dolls to demonstrate the specially designed costumes they think will suit them. Not long ago as many as two dozen dolls were sent to California to a young woman whose trousseau was to be made in New York. When the dolls were returned their frocks were removed and destroyed; yet the care taken to make these miniature frocks perfect in every detail of cut, fit and trimming was greater in a way than that the real costumes will require. Jewelers send out designs or make them up to exhibit to a customer, in wax using sometimes paste stones and some-

"THERE IS A LETTER FOR YOU."

hers that made her most commonplace | the fire and waited for John to come. speeches charming, graceful and full of meaning.

"I want you and John to come to the theater with me one day next | ing-room. week," she said. "Miss Corfield has promised to come too. You must tell me which day will be most convenient.'

"Thank you; any day," I replied coldly. I could not accept the invitation with the graciousness that was befitting.

I was grateful to Meg for breaking in and taking upon herself the onus of the conversation. She talked nonsense eloquently for the next ten minutes, and never left a pause.

"Do you know what I meant to say to you when I came this evening?" said Madame Arnaud at length, turning away from Meg and smiling at me. "I meant to scold you. Why do you never come to see us?"

"I do come, Madame Arnaud-very often.'

"Not very often," she returned re proachfully. "Never unless we send a formal invitation to you!"

"Kitty has given up the world," interjected Meg. "She devotes herself to planning unexpected mutton chops for John, airing his newspapers, and putting his slippers down to warm." Madame Arnaud, looking earnestly

at me, paid no heed to Meg's explanations.

"We want to know you," she continued. "You won't let us know you!"

"Madame Arnaud." broke in Meg, ir repressibly, "Kitty is very dull when known. I've known her for seventeen years, and can speak with authority. I wish you'd want to know me instead! I should be most grateful-I would come to see you frequently, and never | do not mind." wait for formal invitations. I like coming to see people who live in big houses, with plenty of servants, and plenty of easy chairs, and hot-house flowers, and grapes and peaches out of season, and a brougham to drive in the park in, and a man in livery to I smiled a hard, mirthless little open shop doors and wait outside! I smile.

He came at last. He stopped to hang up his hat and great-coat in the hall. then came briskly toward the draw-

"Kitty! All in the dark!" he exclaimed, as he opened the door. He came across the room, bent down and kissed me, then stood before the fire, holding out his hands to warm them. "John," I said in my coldest, most steady tone, determined to speak quite carelessly, "there is a letter for youfrom Madame Arnaud. Here it is." He took it eagerly. I opened a book

and pretended to be deeply absorbed in it. John carried his letter across the room toward the lamp. He read it without making any comment. I heard him turn to the first page to read it through again; he stood still for many minutes, the letter in his hand, and seemed to be lost in thought. The dinner-bell rang while he was standing there. I put down my book and rose slowly from my seat. Then John sighed, folded his letter,

and came towards me. "Kitty, I am going out," he said. I did not reply for a moment: my heart felt dead within me. I could not

even feel angry; I was too heart-sick with misery, with helpless, hopeless, aching regret. "To Madame Arnaud's?" I asked. And the question was asked in the

most level tone, without passion, almost without interest in the answer. "Yes. I am sorry to leave you again.

But, although he spoke in his habitually gentle way, he spoke abstract-

edly. "Don't trouble," I said, coldly, "I "Have dinner, Kitty. Then go round

Kitty."

and see the girls." "Oh, yes-that is a most exciting

plan!' "So exciting that you are almost glad to get rid of me?"

LIGHTNING WORK ON TROUSERS How the Cheap Grade of "Pants" Are

none!"

Made. also occur in the central and north-"Pantaloon-making has been rewestern portions of the island. duced to a great science in the big factories both here and in the north." said a New Orleans clothing dealer to

a New Orleans Times-Democrat man. I refer, of course, to the cheap garments that in this section are sold almost entirely to the negroes. A pair of 'pants' of that grade contains twelve pieces, the outlines of which are represented by slits in the top of a heavy table. Twenty-four sections of cloth are laid on the table and a revolving knife like a buzz-saw travels through the slits. As it does so it cuts the fabric into the exact patterns. The whole thing is done with incredible swiftness and the pile of cloth is scarcely deposited when it is fully cut. The pieces are then sent on an electric carrier to the sewing machines, which

are also run by a motor. Each operative has only one thing to do. The first one will put in the leg seams, the second sew up the body, the third will put on the waistband, and a fourth will attach the straps. The buttonholes are worked by machinery, and, as a rule, the buttons themselves are of the automatic staple variety and are secured by a single motion of a sort of punch. It is very interesting to watch

the garment passing from hand to hand, and it reaches the inspector all complete with a celerity that nearly takes one's breath away. It is then ironed by being passed between a series of gas-heated rollers and is ready to be ticketed and placed in

stock. Under the present system the outputs of some of the large factories have been quadrupled during the last five years.'

times real ones. The wax is melted flat and smooth into a box, and then the jewels are stuck into it. Black wax throws up diamonds to perfection and the idea of the pattern, a tiara, ring or aigrette is to take is easily realized when seen in this form.

The Jolly Egyptians.

An interesting papyrus recently discovered shows that many of the ancient Egyptians were quite as fond of drinking good liquor as are any of the moderns. In this papyrus, which is 3,000 years old, the philosopher Ani. writes the following words of warning: on the subject of intoxication to a student in Channu: "I have been informed that you are not only neglecting your studies, but that you are also indulging in the most frivolous pleasures, and that you spend a good deal of your time in drinking. Now, how can it benefit you to drink so much beer every day? Take advice and shum that insidious liquor." From other sources we learn that students in the their pedals, as it were, and got out of | land of the pyramids enjoyed their beer, and were quite as fond of playhad occurred to a certain party of cy- | ing practical jokes as any of their descendants. From the diary of an Egyptian lieutenant who flourished about 2,000 years ago we obtain the interesting information that a quart of beer cost about 5 cents, and there are various entries in the book which allow us to infer that the average Egyptian never dreamed of quenching his thirst with less than a quart at a time. "Indeed," says the erudite Egyptologist who has deciphered this diary. "there are various facts which justify" us in describing the thirst of the ancient Egyptians as pyramidal.""

Pigg, Hogg, and Bacon Meet. To the casual observer the other day the register of the Savoy hotel looked! more like an inventory book of a packing house than a hotel register. Early in the morning a stranger entered the hotel and signed: "J. R. Piggr. Windsor, Mo." A few minutes later two men stepped up and signed just below Mr. Pigg's signature: "C. B. Hogg, Canton, Ohio," and "Brown Bacon, Chicago." The three gentlement who attached such names in juxtanosition were not acquainted with each other, but when the hotel clerk saw the "Don't you wish God to take men whose names attracted so muck. Bacon were traveling men.-Kansas

The Dead Irishman.

Some Irish body snatchers had rifled has laid down certain regulations to a grave and hid their booty in a corner hold the measles in check. It must of the churchyard, when it occurred to be admitted that these regulations a half tipsy fellow, who had been watchhave to a great extent been ignored. ing them unobserved, that it would be although, possibly, in many cases it is pleasanter to be driven back to the nearest town than to walk. He accordingly a physician is called it becomes his secreted the dead man under a hedge duty to report the case to the health and lay down in his place. He was duly officer. If no physician is called it is transferred to a cart, but when about the duty of the parent or gnardian to half the journey was over one of the men who had touched his hand scream-

ed to his friend, "Good heavens, the body is warm!' Hereupon, in a deep voice, the supposed dead man remarked, "If you had been where I've been for the last two days, you'd be warm too!" In a moment he was left in full pos-

session of the vehicle !- Sir M. E. Grant Duff's Diary.

Baby Eczema. Mr. S. F. Rose, of 133 Sixteenth St.

Buffalo, N. Y., says: "Our baby boy suffered greatly with itching eczema. A few applications of Dr. A. W. Chase's Ointment stopped the itching and healed the sores and a bright natural skin now takes their place." Dr. Chase's Ointment is an absolute cure for all itching, burning skin diseases, and is the world's greatest skin beautifier.

right on top of me. Somehow I man aged to draw my knife and get in a few jabs that did no damage. The bear hugged me tighter and tighter, and I kicked harder and harder and jabbed It is stated that one morning recent wildly with my knife. Then we both ly a young fellow who had just secured

rolled on the ground, and the bear tried a clerkship in a government office was to bite my face, but I kept off his fast considerably startled by a little scene clawing blows by hugging tightly that he witnessed. An elderly man, one against him. I jabbed and jabbed as of the senior clerks in the room, sudwe rolled over and over, and the bear's denly rose from his desk, dragged the face and claws were pretty badly cut comfortable chair on which he had and one of his eyes was put out of service. The snow all around was torn up

and spattered with blood. "Before I knew it we were just on the edge of the bluff, and an almost vertical wall of snow lay just below us for over a hundred feet to the bottom. "This frightened me more than the bear, for I knew what it meant, but before I could think of doing anything we were over the edge and rolling down at

lightning speed. "It could not have taken more than a few seconds, but it seemed to me like years. Now I was on top of the bear. and now underneath. Snow filled my eyes and ears, and I was scratched and wounded and bumped until I thought my end had come.

"It seems to me that I kept striking at the bear as we rolled, or rather shot. downward, for we were going at the speed of a cannon ball. Then there was a sudden bump while I was on top, and the bear gave a moan of pain and let go of me

"That gave me my chance, and I drove my knife into his heart.

"The skin measured over seven feet. I found out while we were cutting him up that when he struck the rock at the bottom of the hill he shattered his spine. It was just a piece of luck that the bear struck the rock and not myself."-San Francisco Call.

Why You Yawn.

Have you ever observed at a theater or concert that the people who are most deeply interested appear between the acts to be quite weary of the whole thing, yawning half a dozen times in succession? The reason of this is a physiological one. When your attention is much absorbed in anything exciting or touching, you breathe in a very shallow manner and take into your lungs only half enough air. Consequently, when your attention is relaxed, you have to make up the deficiency. This you do by yawning, which, after all, is

only breathing a very deep breath. If you watch a man at a play and observe that he is greatly moved by some incident, you may feel sure that when the scene ends he will sigh and a moment or two later yawn repeatedly. Of course the yawning, so far from being a sign of weariness, is a proof of

the liveliest appreciation. Very often you will observe the same phenomenon in a girl reading a novel. And by her yawns you can tell when the end of some absorbing incident is

reached.--Cincinnati Enquirer.
