The geographical congress of Italy, which will be held at Milan this spring, has authorized the Touring club of Italy to organize a special exposition of the methods of locomotion used for long voyages during the nineteenth century. The Touring club has received the idea with enthusiasm, and will endeavor to make this exposition as complete and as interesting as possible.

Jackson Man's Terrible Crime.

David H. Creech, of Jackson, capitalist and 71 years old, fired four bullets into the head of his young wife, Mary J. Creech, who had recently obtained a decree of divorce. Creech is in jail charged with assault with intent to murder and Mrs. Creech lies in a precarious condition at her home in that city. The crime is the immediate result of a supreme court decision, handed down on the 16th, which affirmed the decision of the circuit court which granted Mrs. Creech an absolute divorce with alimony and the custody of the children. Mrs. Creech is a second wife. She was housekeeper in the Creech family during the lifetime of the first wife and upon the latter's death, some 15 years ago, continued in that capacity.

F. H. Clergue, of Sault Ste. Marie, paid Detroit a visit on the 19th, and his visit had an important bearing upon great business interests of Detroit and Michigan. Contracts were made by him looking to the location at the Soo of a \$50,000,000 steel and iron manufacturing company, and a project was put well under way for the establishing at Detroit of blast furnaces with a capacity of 1,000 tons | ecution in the case, was paid \$25 a day for 12 days' actual work. 1.000 men.

Smallpox Still Increasing.

The prediction of Secretary Baker, of the state health board, that smallpox would begin to abate about the first of April has not been verified. From one to five outbreaks have been reported daily-since-the-beginning-of the month, and while the disease has been 'wiped' out in numerous places it' has continued to develop in others, and will probably continue to do so until the people recognize the disease as dangerous and take the proper steps to restrict it.

The building of the German-American ugar factory on the west side of the river at Bay City, which has been hanging fire for several weeks, is now assured. St. Johns citizens are raising \$5,000 by popular subscription for the construction of a building for the Gering-

Senator Opposed to Treaty.

Long interviews were had on the 5th between Secretary Hay and Senators Foraker, and Lodge, supposedly with reference to the proposed isthmian canal treaty which is to replace the Hay-Pauncefote treaty if Secretary Hay succeeds in his task of reconciling the views of the senate and the admin istration. The talks that the secretary of state thus far has had with senators on the subject of an cunal treaty have revealed a considerable opposition to any treaty at all, some senators insisting that nothing more is requisite to the construction of the canal than the abrogation of the Clayton - Bulwer treaty, and it is still far from certain that a treaty can be drafted that will command the support of two-thirds of the senate, and still be reasonably acceptable to Great Britain.

Rich Women of New York Seldom Mothers One of the subjects discussed at the ecent meeting of clergymen, at New York, called to consider the growing passion of society women for gambling, was the fact that there are so few children in the homes of the rich and so many in the tenements. The ministers deplore the fact that there are so few young people in their congregations and so few children in the Sunday schools. Reports from 12 prominent churches attended by families of wealth and fashion showed a total membership of 9.661 with but 1500 children on the rolls of the Sunday schools. It was reported that only 61 children attended Sunday school of a church which has 1,000 members.

Will She Become a Nun?

It is reported that Queen Marie Amelie, wife of Don Carlos, king of Portugal, has resolved to become a nun. This is a direct result of the protracted quarrel between the royal couple over the king's attitude toward the religious orders of the country. She is a devout Catholic while her husband sides with the liberals, and during the recent disturbances he openly espoused their cause against the church. However, in the better informed circles at Lisbon it is declared that the story is absolutely fantastical.

It is greatly to be regretted, even if Delaware's failure to be represented is by its own consent.

President Hadley of Yale made a striking classification of society in a recent address on the development of a public conscience. Humanity, he said, is made up of two classes. Individuals of the one participate in the business of life for what they can get out of it, of the other for what they can put into it. It is not, however, a paradox that those who put most into life are also, in the largest and best sense, those who get most out of it.

Prof. Gustave Bischof of the Glasgow university has invented a new process for the manufacture of white lead. His plan is the conversion of metallic lead into litharge, by means of water gas at a temperature of 300 degrees centigrade, to suboxide. Sufficient water is then added to moisten this suboxide, which is converted into hydrate. This substance is then inserted into a gas-tight apparatus, and by means of carbonic and diluted acetic acid manufactured into white lead. Under the old process white lead occupied from two to three months in its manufacture, but Prof. Bischof is enabled to make a purer article within less than forty-eight hours at a much cheaper price and with perfect safety to the employes. .

Gov. Allen, of Porto Rico, who is now in Washington, will urge President McKinley to so construe the Foraker bill that if the Porto Rican tariff is removed next July, as reported, the import duties upon goods from foreign countries into Porto Rico shall be paid to Porto Rico and not to the treasury of the U.S., as is at present, the case with most of the duties collected there from foreign imports. It is argued that local merchants are not benefited if the U.S. receive the customs receipts. According to figures of G. W. Whitehead, the collector of customs

for Porto Rico, the total import duties for March were \$87,758, of which only \$17.850 were for American goods. March can be taken as a fair average.

CHAPTER X.

Mrs. Cowley looked exceedingly guilty when her lord and master entered; but he, being full of his own business, did not observe it. He laid aside his wrappings, called for hot water and the spirit case, and sat down by the fire with an air of a man who had earned his repose and meant thoroughly to enjoy it.

"Have you been alarmed in any way since I went, Mrs. C.?" he asked when his toddy was thoroughly mixed.

"No, my dear," she replied briskly: which was a gross fib, as we know, because the unexpected arrival of her, sbut behind her she caught her mothnephew and his wife had nearly sent her into a fit of hysterics. But that was only one of the white lies that are perfectly allowable, and even long after tonight. You never saw praiseworthy, when the head of the two such horrible objects as Charles stitution for the reformation of juvehousehold is in question. If British matrons hesitated long over a "taradiddle," there would be little peace, I fear, in many a British home.

"Not alarmed, eh!" said Mr. Cowley, sipping at his glass. "Well, I'm glad son why we should not rent the house want it, and the agent evidently looks in the center of the room. upon it as one of the best speculations he ever made."

"Another year! Mercy preserve us!" hands in horror.

"And why not, pray?" was the sharp reply. "If we go sooner we shall have done no good. People will think we are frightened away, after all; wherehint at such a thing.'

~!~ LIFE IS WHAT

Life is simply what we make it as we hasten heedless on To the future that awaits us just beyond the gilded dawn;

We can plant our path with roses, aye, on water it with tears, We can shadow it with sorrow that will stay throughout the years:

We can make our neighbors happy with a laugh or with a song. can scatter sunshine always as We through life we pass along;

Life is simply what we make it; let us make it bright and gay, For the bird that carols sweetly gladdens

all the summer day. Aye, life is what we make it, bright or

clouded o'er with woe, As fate doth sweep the pendulum unceasing to and fro: Plant roses in your pathway, weed the thistle from your door, He in whose heart a laugh is born cannot be counted poor: So make life bright and merry, sunshine never killed a flower. PIC I G OUT MONTE CRISTO The man and the girl settled themselves in their seats just as the orchestra was playing the overture to the first act of "Monte Cristo."

"Now, what is the story of the play?" asked the girl as soon as she got her breath. "I

> read the first two chapters of the book once and then something happened and I forgot to read the rest."

The young man tried to look intelligent. "I read it ten years ago," he confessed, "and I'm afraid I don't know much about it. But Monte Cristo-er -I don't know what he was when he began to stir up

things, but he's frightfully rich in the end and there's an island mixed in "All his enemies with it, and he

but smilingly. Sometimes women show real heroism even if it is unnoticed. The first act was nearly through

when the girl clutched the young man's arm. "Monte Cristo must be that gloomy individual who is plotting," she said triumphantly. "But I don't see what that foolish young sailor is frisking around so for. They talk so fast I can't get the thread of the story."

The young man looked worried. Just then the gendarmes sent by Villefort snatched the sailor from his wedding feast and carried him off to the prison. Everybody on the stage promptly fainted.

"Can the sailor be Edmund Dantes, afterward Monte Cristo?" asked the girl with puzzled brow. The young man shook his head restlessly. "Perhaps the next act will make things clearer," he cheered her up.

"The program says eighteen years elapse between acts 1 and 2," said the girl as the curtain rose on the gloomy prison scene. Jason didn't have the price who might grieve. No, it must not be thought of, it is aisgraceful, determines he in such case as has been made and

provided first herein. True there is the dual path of reform and work. Along its broad and straight but steep and rocky way its twin sign-posts stand side by side, pointing with unbent fingers to the temple of hope shining afar in the fields of ease. But the ascent is arduous Nor is it so easily undertaken. If reform without work is fruitless. equally true it is that work without reform is profitless. And to achieve the one and secure the other merely by determining to do so is possible only to those souls whose fibres are spun from steel and adamant.

To the conclusions thus advanced came Jason Fenwick on the morning when he perceived with bitterness that even those poor resources he had been able to call his own had been drunk and eaten all, leaving neither crumbs nor lees behind. He had slept uneasily in a chair in an all-night saloon, fearful of ejection from its warmth, tim-orous of approaching the unspeakable "free lunch" which, beneath the ob-servant eye of the bartender, held out its bawdy allurements only to those who had "the price." The scene in the wretched inn again plunged them in gloom. "I guess the priest is Dantes in disguise," said the young man comfortably.

The guileful priest immediately began telling young Albert about his brother, the famous Monte Cristo. "He can't be!" said the girl irritably. "Listen to that! Why don't they wear signs so one can tell? And I wish they didn't have such a rackety storm outside-it's a very bad climate, seems to me!'

At that instant the priest bursts in the door and sees Villefort fall dead. "One!" counts the priest dramatically, raising his finger to heaven.

"No," said the young man in disgust, "the peddler must have been Villefort's brother-the priest is Monte Cristo-and he is checking off enemy No. 1."

The girl sat back angrily. "Anyhow," she said, "my head aches."

When a cheerful. brave and light-hearted woman is suddenly plunged into that perfection of misery, the blues, it is a sad picture.

It is usually this way :

She has been feeling out of sorts for some time, experiencing severe headache and backache; sleeps very poorly and is exceedingly nervous.

Sometimes she is nearly overcome by faintness, dizziness, and palpitation of the heart; then that bearing-down feeling is dreadfully wearing.

Her husband says, "Now, don't get the blues! You will be all right after you have taken the doctor's medicine."

But she does not get all right. She grows worse day by day, until all at once she realizes that a distressing female complaint is established.

Her doctor has made a mistake.

She loses faith ; hope vanishes ; then comes the morbid, melancholy, everlasting blues. She should have been told just what the trouble was, but probably she withheld some information from the doctor, who, therefore, is unable to accurately locate her particular illness.

Mrs. Pinkham has relieved thousands of women from just this kind of trouble, and now retains their grateful letters in her library as proof of the great assistance she has rendered them. This same assistance awaits every sick woman in the land.

Rivers Under the Ocean. A few months ago H. Benest, an English geographer, published an in-

teresting study of streams of fresh water flowing beneath the surface of the sea. Disasters to ocean telegrath cables first called attention to this subject. On several occasions, about 1895, a new and well made cable between Cape Verde and Brazil broke. Soundings were made to discover whether these breakings were due to the state of the sea bottom and it was found that the place in question was near the submarine mouth of a subterrane n river; the alluvial material transpo tlungs, cure cold and stop the ed by this fresh water stream encountered the cable and finally succeed d in breaking it. Touchingly Sad.

The funeral of Mrs. Geo. H. Beach occurred last Friday, and everything departure. connected therewith was more than usually impressive and sad. We went to press too early last week to make appropriate mention of the death and circumstances connected therewith.

The North Branch Gazette, in refering to her decease, published the following: "Receipt of this sad and shocking intelligence created the profoundest sorrow throughout this village and vicinity, where deceased had been known since childhood and universally esteemed by a very large circle of friends as a person who was richly possessed of those lovable personalities and sterling traits of character which endear her most to those who knew and Mrs. P. R. Weydemeyer, also of her best. She was about 27 years of this place. The ceremony was per. age, just in the bloom of mature womanhood. Seven years ago yesterday, (April 18) she was happily married at the home of her parents, Mr. and Mrs. J. H. Swailes, and place of her birth, three miles east of this village, to Mr. George H. Beach, who at that time and for several years after was stationed here as agent for the P. O. & N. R'y. About two years following this felicitious alliance their home was blessed with the arrival of a baby daughter, now grown to a bright and pretty chid of 5 years. Just at the second dawning of maternity, when the fruition of parental hopes seemed at hand, without the slightest forecast of impending calamity, the lamp of life was extinguished as by a thunderbolt from a clear sky."

On Thursday the bereaved husband letter of condolence from W. C. San- adv. ford, the Superintendent of the P.O. & N. R. Had the word arrived a little sooner many more would have availed themselves of the opportunity to evidence their respect and sympathy, but as it was something over forty accompanied the friends from here.

The remains were first taken to the home of deceased's brother, Arthur Swailes, where a brief service was held, and the more public service followed An the M.E. Church, of which Mrs. did business in town on Tuesday. Beach had been a member. The service Mrs. Vance has just returned from a was conducted by the pastor, Kev. R. place. The interment took place at the cemetery east of North Branch. Besides her husband and little daughter, deceased leaves father, mother and three brothers to mourn her Mr. Beach feels his loss more keenly

than can be expressed, and will not attempt to resume his duties at the depot at present. On Monday he returned with his father and mother. Mr. and Mr. R. C. Beach, to Saginaw, where he will remain for a time. He has the sincerest sympathy of everyone.

Quietly Wedded.

A quiet wedding took place on Monday morning, at the home of Mr. and Mrs. Wm. J. Campbell, north Seegar Street, the contracting parties being their eldest daughter, Margaret A., and Harry P. Weydemeyer, son of Mr. formed by Rev. Chas. H. Morgan, Ph. D., of the M. E. church, in the pres-

ence of the immediate friends, after which the happy couple took the morning train south, bound for Kalispell Montana. Messrs. P. R. and Warren Weyde-

meyer have located valuable govern ment land there and desire Harry to assist them in the development, so the wedding trip will be made thither, but it is not fully decided to locate there. The many friends of the young people wish them unstinted happiness and hope they may find a congenial home and surroundings in that far western land.
