## Local Happenings

H. L. Hunt has a change of adv. this week.

Look up the adv. for Dunham's livery.

Mrs. I. B. Auten is visiting Detroit friends.

A. H. Ale made a business trip to Detroit last week.

J. B. Cootes has leased the W. E. Ratz residence on Main Street west.

John McCullough, of Canbora, was in town to day, greeting old friends.

Three carloads more of Christmas trees were shipped from here yesterday.

Rev. and Mrs. M. W. Gifford went to Caro this morning to attend a wedding.

Note the holiday bargains to be had at the Fritz Pharmacy, mentioned in the new adv.

J. F. Hendrick is making a special effort to please his holiday customers. See his adv.

Mr. and Mrs. F. C. Ragan, of Jackson, are the guests of the latter's aunt, Mrs. H. Baxter.

Geo. Matzen wishes your attention to his adv. in this issue and to the bargains at his store.

C. Leroy Spencer and Eugene Maxwell are home from Detroit Business University for the holidays.

Bond's Drug Store is ready for its share of the holiday trade, as you will observe by the tone of the new adv.

Fairweather Bros. have an important change of advertisement this week which you cannot afford to overlook.

The Wickwareites are preparing for a Christmas entertainment on Christmas eve. All are invited to participate.

W. C. Saigeon drove to Kingston, Uby and Sanilac Centre last week in the interests of the Poultry Show here this week.

Arrangements have been made for holding a Christmas tree and entertainment in connection with the Baptist Sunday school.

John J. Klein returned from Pontiac last Friday and is now handling Christmas trees for a Toledo firm, which is shipping from here.

Presiding Elder W. F. Stewart will preach in the Grant M. E. Church next Sunday afternoon and at Popple Church the same evening.

John F. Copland left on Saturday morning for an extended visit with relatives in Scotland. We join his friends in wishing him bon voyage.

The pool room which has been opened in the Mrs. Edwards building is entirely under the management of J. C. Seely. We were misinformed regarding A. L. Johnson's connection therewith.

Mr. and Mrs. T. E. Morse, late of Geyer, Ohio, write that they have purchased a home at Lansing, Mich., and are comfortably settled there. They send greetings to their Cass City friends.

Quarterly meeting services will be held at the M. E. Church next Sunday, conducted by the presiding elder, Dr. Stewart. The quarterly conference will be held at the church parlors on Saturday.

A special sermon to young men will be preached by the Rev. R. Weaver in the Baptist Church next Sunday evening the 15th inst. A hearty invitation is given to all. Seats reserved.

Renew your subscriptions for all periodicals and magazines at this office. Remember that we are paying special attention to this department and are able to meet any clubbing proposition made by a reputable house.

As recording secretary of Court Elkland, No. 826, I. O. F., A. A. P. McDowell, has turned over to the guardians of the children of John J. Parker deceased a draft for \$1,000, that being the amount of insurance he carried in that order.

The Ladies' Aid of the M. E. Church will hold a bazaar and rummage sale in the DeWitt building at the corner of Main and Oak Streets Dec. 17, 18, 19. Suppers will be served Wednesday and Thursday, and programs are being prepared for each evening.

The oratorical contest which the W. C. T. U. is arranging will take place at the Opera House on the evening of Friday, Dec. 27th. Six of our High School pupils will take part and an interesting program is promised. Watch for further announcement.

Our coal dealers are kept quite busy these days supplying the demand for soft coal. The supply ran out entirely on Monday but a fresh car arrived that evening and relieved the stress. The majority of our villagers and many farmers are now finding it necessary to resort to coal for fuel.

The following letters remain unclaimed in the P. O. at Cass City, Mich., for the week ending Dec. 7. Mr. Wellington R. Hill, Miss Beatrice Tyler, Daniel Dickson, Miss Ada L. Brown. When calling for the above please mention advertised. H. S. Wickware Postmaster.

A very interesting meeting of the Baptist young people's union was held on Monday evening, under the new condition of meeting. S. Lee was in the chair. Pastor and Mrs. Weaver sang a duet, "The Valley of Rest." The Pastor gave a practical talk on "Early Consecration." Meeting continued every Monday.

John T. Jones, of this place, is now sojourning at Washington, Pa., and is well pleased with the place, which he states has clean, well-paved streets, immense business capacity, twenty three churches but not a single grog shop or beer saloon, and it requires a doctor's prescription to get a gill of brandy from the drug stores.

Hazel Hive, L. O. T. M., elected the following officers at their regular meeting on Tuesday evening: Lady Com., Miss Mattie Spurgeon; Lt. Com., Mrs. J. F. Hendrick; R. K., Miss Carrie Robinson; F. K., Mrs. M. Gulick; Chap., Mrs. C. McCue; M. at A., Miss Lottie Usher; sergt., Mrs. P. S. Rice; sentinel, Mrs. E. Enos; picket, Mrs. M. Seegar; organist, Mrs. J. D. Brooker.

Geo. H. Turner, of McArthur & Turner, has sold a steam automobile to Henry Wettlaufer, of this place, and also an Olds gasoline automobile to D. A. Freeman, to be placed on the Cass City-Caro stage route. The machines have already been shipped from Detroit and are expected to arrive here to-morrow night. The one for the stage line is expected to begin service on Monday.

Mr. and Mrs. A. A. P. McDowell left on Friday for Ann Arbor to consult Dr. F. Carrow in regard to the condition of Mrs. McDowell's eyes. After a thorough examination, the doctor found progressive atropia in a high degree and fears the result will be total blindness. They returned home on Monday after spending Sunday with friends in Detroit. Mrs. McDowell's mother, Mrs. Jos. Williamson, also returned on Monday to her home at Lindsay, Ont.

At the regular communication of Court Elkland, No. 826, I. O. F., on Tuesday evening, the following officers were elected for the coming year: C. R., Wm. Messner; V. C. R., Wm. A. Anderson; R. S., A. A. P. McDowell; F. S., I. K. Reid; treas., M. L. Gulick; Chap., J. J. Gallagher; S. W., T. Schenck; J. W., John H. Woolley; S. B., D. T. Tyo; J. B., D. M. Houghton; C. D., P. A. Katgen; Phys., A. N. Treadgold; trustees, D. McGilvray, D. Tyo; Finance committee, J. J. Gallagher, I. Schenck. It was also decided that a bean bag should be used at the last meeting in each month, from which each member present shall have the privilege of drawing one bean, there being but one black bean in the bag, and the member drawing the black bean shall have his dues paid for that month by the Court.

### Hint to Farmers.

F. W. McKenzie, of Concord, Mich., who acted as judge of live poultry at the poultry show here this week, has given us a little information in regard to the poultry industry in his home town. It is noted as one of the greatest poultry towns in Michigan, and possibly sends out more fancy poultry than any other town of anything like its size in several states. The farmers for several years were inclined to think it was of no advantage to them, but finally were persuaded to improve their flocks with the result that to-day the amount of market poultry shipped is tremendous. Since the opening of this shipping season, the local dealers have shipped 4,000 per day for five days each week and it appears likely to keep it up for some time yet. The Thanksgiving shipment of turkeys numbered 10,000. This will give our farmers a little idea of what may be done in poultry on the farm if they will become sufficiently interested. We have a number of good breeders in the section who will be pleased to sell their surplus birds at a very reasonable figure and the matter is certainly worth a trial.

## First Poultry Show.

The first winter poultry show to be held at Cass City has been in progress this week at the Town Hall. The few fanciers in town had worked hard to get up an interest and had received many good promises from outside breeders to show their stock, but not a bird came in by train and only a very few came from the country, so that the home fanciers within a radius of two or three miles were compelled to make up the show themselves. They certainly deserve credit for the showing they made, there being about one hundred and thirty birds on exhibition, and the quality averages up very nicely with any of the smaller shows.

The largest class was White Plymouth Rocks, but other varieties were well represented. The farmers gave the show the cold shoulder and the show of butter, eggs and dressed poultry was so small as to be hardly noticeable. This is much to be regretted as the boys added this feature in the interest of the farmers and as they have taken so little interest it is probable that they will confine the next show to poultry. The judge, F. W. McKenzie, of Concord, Mich., did his work well and it is possible he may be engaged to do the work another year. The awards of prizes are given below together with the number of points each bird scored out of a possible one hundred:

Light Brahmas—S. F. Bigelow, 1st cockerel 92 1/2; 1st, 2nd and 3rd pullet 93 1/2, 92 1/2, 92 1/2.

## THE MICHIGAN NEWS FIELD.

Smallpox and Typhoid in the Copper Country

TAGGART SUCCEEDS SALSBUURY

Big Passenger Steamer Launched—Post Office Robbed—Addler's Trunk was a Bad Bank—The Quimbys Get a Life Home—All Sorts of Happenings.

**Salsbury Convicted.**  
Lant K. Salsbury, city attorney of Grand Rapids, whose trial on the charge of bribery in connection with the Lake Michigan water deal, had been in progress in the circuit court for the past six weeks, was found guilty Wednesday morning. Salsbury was in court when the jury came in and plainly showed his disappointment over the verdict. While the defense may have hadly expected an acquittal, they appeared to feel sure of a disagreement, a belief which was shared by the public. It is expected that the case will be appealed, and the usual notes preparatory for such a course were made by the attorneys. The verdict gives general satisfaction to citizens, but is a depressing blow to local Tammany and is taken to mean the fall of the Perry regime in Grand Rapids.

**The Quimbys Go Up for Life.**  
The motion for a new trial in the case of Elmer Quimby, who was convicted about two weeks ago for the murder of his children by poisoning, was denied by the trial judge and Quimby was sentenced to state's prison at Jackson for life. After the sentence was pronounced, Quimby, in a modulated tone of voice, said "Thank you." Mrs. Quimby is now serving a life sentence at the Detroit house of correction for the same offense for which her husband was sentenced, the poisoning of their two little children. The case has been the most famous one in the history of Gratiot county, and the sentence of Quimby disposes of the whole family.

**Smallpox and Typhoid.**  
Smallpox is rife in the copper country, and the disease seems to spread rather than abate. In addition Calumet is likely to have a typhoid fever epidemic. There are now about 25 cases in the city. The locations not being served with water from Lake Superior by the Calumet & Hecla and Tamarack mining companies are those worst stricken with typhoid. At the Osceola mine location there are at the present time about 15 cases. The local physicians have difficulty in attending to the various patients. At the Tamarack Junior mine location there are nine cases.

**Nichols To Face a Jury.**  
Senator George E. Nichols must face a jury on the charge of suborning perjury. The senator himself and his associates in the Salsbury case were completely overwhelmed this morning when Judge Newnam announced his decision in the contempt proceedings, and not only refused to quash the contempt case, but ordered the prosecutor to begin criminal proceedings against the Iowa senator. In the meantime the court will hold the contempt matter in abeyance so that if the prosecution should fall down in the criminal case, the court will still be able to deal with the offender.

**The Biggest Yet.**  
The Eastern States, first of the two big sidewheel passenger steamers now under course of construction for the Detroit & Buffalo line, was launched from the Wyandotte yards of the Detroit Shipbuilding Co. Saturday. The Eastern States is twenty-four feet longer than the City of Erie of the C. & B. line, and when completed will be the biggest passenger boat on the great lakes, having sleeping accommodations for 750 persons, or about one-third more than the North West and North Land of the Northern Steamship Co., now operating between Buffalo and Chicago.

**Exit Salsbury; Enter Taggart.**  
Moses Taggart, attorney-general of Michigan from 1885 to 1888, was elected successor to City Attorney Lant K. Salsbury at a special session of the Grand Rapids council Saturday. When the council assembled Salsbury's resignation was received. In it, besides relinquishing his office, he intimated upon his innocence. The resignation accepted, the republicans nominated Taggart and the democrats named Ernest Bullen, law clerk in the city attorney's office. Taggart won on the first ballot, with the vote cast on party lines.

**A Bad Bank.**  
William Addler, a boarder at the Bay View hotel, Grand Rapids, who has been working in a local lumber yard, had \$770 in his trunk at his hotel, the earnings of three years, which he expected soon to take to his family residing in the lower part of the state. Some one stole the sum and he is penniless.

**Postoffice Robbed.**  
The safe at the postoffice of Ogden Center was touched last night and about \$541 was taken. Postmaster David Pifer has no clue to the thieves. The combination was worked by the burglars, who appeared either to know it or to have acquired it through accident or skill.

**J. W. Soree, of Soree & Waters,** Iowa blacksmiths, dropped dead Monday afternoon with one hand on the bellows.

The Hotel Iroquois at Sault Ste. Marie is being remodeled and enlarged by dividing the large dance hall into rooms.

The smallpox epidemic in Escanaba shows no signs of abating. A woman of the name of McLain, and her three children have the disease.

An effort will be made to split old Calhoun county in twain and a new name will be tacked upon the chunk that contains Battle Creek.

**The Wabash Responsible.**  
Following is the coroner's verdict as to the Wabash railway wreck of the inquest having been held over the body of George Youmans, killed in the wreck:

"Said Youmans came to his death in Seneca township, Lenawee county, Michigan, in a certain railway train on the Wabash railway, about a mile and a half east of Seneca station on November 27, about 6:45 p. m. on the said day, he received certain injuries by reason of a collision between trains 4 and 13, of which injuries Youmans instantly died. That said collision was caused by the negligence of the trainmen of said train 4, said railway company being negligent in a failure to provide train 4 with a head-end brakeman, according to rule 210, of the company, and a failure to provide proper signals at the place of meeting of trains 4 and 13."

"Conductor George J. Martin was negligent in failing to signal said engineer to stop, and failing to apply the air brake when the engineer did not give the proper signal immediately after the station signal at Seneca, according to rule 41 of the special rules of the said company."

"Fireman John Bastien was negligent in failing to remind the engineer to stop, and failing to apply the air brakes until after the said train passed the station."

Engineer Strong says he is satisfied with the verdict.

**Over 100 Were Killed.**  
The persistent efforts of the Wabash officials to minimize the number of deaths in the recent wreck are given a stunning blow by the statements of Rev. Fr. Francis Becherin, whose information is to the effect that over 100 Italians are killed or missing. The Detroit priest bases his figures upon the testimony of fifteen injured in the hospital at Peru. He questioned them on the matter while ministering to their spiritual needs, and states that they all agreed as to the appalling proportions of the calamity. These Italian boys in connection with agricultural knowledge as to the number of their countrymen on the train, and after being acquainted with the list of survivors assert that more than a hundred are either dead or unaccounted for. The priest also states that he generally accepted estimate of victims and confirms the theory that scores of human bodies were absolutely consumed in the coaches which burned.

**Blown to Atoms.**  
The head of one man was all that could be found of two workmen who were in the packing house of the Anthony Powder Co., Ishpeming, when an explosion occurred there Wednesday. The victims were Linus Shively and John Nelson. There was about a ton and a half of powder in the building, which was used for filling caps employed in setting off giant powder. No one knows the cause of the explosion, but it is supposed one of the men dropped a cap on the ground, causing it to explode, as the great jar will set them off. Many windows in Ishpeming were broken by the explosion, and as a consequence the disease is spreading. It is now reported at 73 places.

**Wiseman Gets Life.**  
On Thursday last Wiseman was found guilty of murdering Mrs. Ellen Huss, in Royal Oak, a year ago. The jury was out exactly one hour and 15 minutes. It was learned, however, that only one ballot was taken and the verdict was unanimous for murder in the first degree. "We find the prisoner guilty of murder in the first degree," said the foreman. Wiseman trembled from head to foot, and his head dropped upon his breast. Prosecuting Attorney Rockwell moved that the prisoner be sentenced immediately. Judge Smith ordered the prisoner to stand up and then sentenced him to imprisonment for the rest of his natural life in Marquette prison.

**Michigan's Claims.**  
Senators McMillan and Burrows have promised Ralph W. Stone to do all in their power to assist in collecting the \$300,000 of civil war claims. The money was rejected by the comptroller of the treasury department back in the sixties. Senator Burrows introduced in the senate a joint resolution authorizing the secretary of the treasury to investigate Michigan's claims, and also similar claims by Ohio, Illinois, and Indiana. The resolution was found to be all right to pay them. A similar joint resolution will be introduced in the house. It will be left optional with the secretary of the treasury to either approve the claims himself or refer them to a court of claims.

**Very Sensational Suicide.**  
The suicide of Nelson Culver in Hamilton Thursday was of a sensational character. He was an inmate of the Kalamazoo asylum a few years since, and had to be watched. Yesterday he was missed from his home, and a search was commenced. He was located in the top of a tamarack tree, 50 feet from the ground, and kept his would-be rescuers at bay by occasional shots from a gun, which he had carried with him. Finally, tiring of the amusement, the poor fellow turned the weapon on himself and blew his brains out. His body dangled from a limb high in the air for some time before it could be recovered by his friends. Culver was 40 years old.

**Held for Perjury.**  
Charles H. Beecher, son of George L. Beecher, of Detroit, who declared under oath before Judge Ralston, in the Quarter Session court, Philadelphia, September 13 last, that he was induced to marry Carrie Matson Dearborn, of Boston, in New York last January while under the influence of liquor and opiates, was held in \$1,500 bail to answer a charge of perjury, and was ordered to pay his wife \$15 a week for maintenance. He was required to furnish \$3,000 security for such payment.

The body of A. W. Covert of Owosso, was found setting against a log in the woods near Carland yesterday afternoon, with a shotgun between his knees. The charge had entered his head. He had announced the purpose of going hunting and is not known to have had any troubles.

In an unanimous opinion rendered Tuesday the supreme court denied the mandamus asked by Journal Clerk Sam F. Cook of the house, to compel the auditor general to audit his claim for mileage from Rock River, Alger county, to Lansing—about \$80. Cook's legal residence is in Alger county, but he lives in Lansing.

The crime for which Howard Burchfield, of Charlotte, goes to prison for 10 years is the throwing of a pop bottle at a crowd on Aug. 29, the second day of the Elks' carnival, the missile striking Leonard Green, of Eaton Rapids, causing a compound fracture of the skull, which resulted in the boy's death 36 hours later. Burchfield is 21 years old.

Detroit is not the only place in which the Michigan Telephone company has given notice of a raise in rates the first of the year. "Phone" users in Ann Arbor, Albion and Buchanan are up in arms over a raise, of which they have received notice.

## NEWS FROM ALL SECTIONS.

The South After One Hundred Million Dollars.

KING EDWARD'S CORONATION.

Morse Has Eight New York Banks—Another Consolidation of Bank Interests—King Edward's Diamond Orders are Dazzling, and so are the Queen's.

The Coronation Costumes.

The designs for the coronation robes have finally been decided on. King Edward will wear a cloth-of-gold under-jacket embroidered with palm branches and the shawl-rope, rose and thistle. On the king's stole the cross of St. George, the royal crown and the rose, shawl-rope and thistle will be woven in gold thread. His cape will be a magnificent garment, decorated with silver eagles and fleur-de-lis on the national floral emblems. Over 3,000 precious stones, diamonds, pearls, rubies, sapphires and emeralds will be included in the king's crown. There will be 1,300 pure white diamonds and 1,270 rose diamonds. The historic ruby which the king of Castile gave to the Black Prince in 1367, and which was subsequently worn by Henry V. at Agincourt, is in the center of the crown placed in the heart of a Maltese cross. The queen will wear robes almost exactly similar to those of Queen Adelaide, which will be brought to Marlborough house from Brodie castle, where they are kept as heirlooms. In spite of their age they are in excellent condition. They are of black velvet, manufactured on hand looms, liberally embroidered and laced, having gold trimmings and with huge hanging sleeves.

**Philippines Domestic Territory.**  
The United States Supreme court has rendered a decision in the case of *United States vs. Philippine Islands*. This is the case known as the "Fourteen Diamond Rings Case," and involves the constitutionality of the imposition of customs duties upon merchandise brought into the United States from the Philippine Islands after the exchange of the peace treaty with Spain.

The opinion was handed down by Chief Justice Fuller. The opinion was adverse to the claims of the government on the ground that the Philippine Islands were, at the time the rings were brought in, American territory. Ceasing to be foreign territory, they became domestic territory, he said. The decision in the De Lima Porto Rican cases was cited at length and it was held that the resolutions adopted by congress concerning the Philippines were not sufficient to change the situation.

**Mr. Perkins' Journey.**  
Weather-beaten and traveled-stained after a pilgrimage by wagon and on foot from Wyandotte, Mich., a distance of something like 700 miles, Harvey B. Perkins and his family arrived in Baltimore Wednesday night in quest of a better climate. Perkins, a native of Baltimore, Chesapeake & Atlantic railway, and took passage on the steamer Avalon for Cambridge, Dorchester county. In the party were Mr. Perkins, his wife, Mrs. Ella B. Perkins, his two sons, Burton H. and Nelson B. Perkins, and a daughter, Mary Perkins. The family were farmers near Wyandotte, and are seeking the genial climate of the eastern shore of Maryland in the hope that the health of Mr. Perkins, the elder, may be improved.

**A Hundred Million Wanted.**  
At a meeting of prominent citizens of Atlanta, Ga., a movement was inaugurated, the successful termination of which means the enrichment of the state of Georgia. The movement is for the purpose of educating the people. The object of the plan is to secure the return from the United States government of the money collected from the southern people during the period of reconstruction as cotton tax, and also the money collected from the sale of captured and abandoned property during and immediately following the civil war. A committee was appointed to present a memorial to congress praying for a return of the tax fund, which it is urged was illegally collected.

**A Rival of Morgan.**  
Charles W. Morse, "Ice King," telephone promoter and financier, has obtained control of the National Hide and Leather Bank, making eight banks in New York city where his word is law. The bank is an old one. The eight banks which this new star in the financial firmament absolutely controls are the Hide and Leather, New Amsterdam, Broadway, Garfield and Commercial, all national banks, and the Bank of the State of New York, Twelfth Ward and Ganey-vort banks, state institutions. Their combined capital is \$4,650,000, and the aggregate of their deposits \$32,318,200.

**A Fraud Order.**  
The Postmaster-General has issued a fraud order against Wilbur S. Graves, of Monroe, Mich., barring him from the use of the mails. According to the department Graves advertised "choice winter apples" at a very low price. To parties who remitted the price no response was made. Graves was called on to show cause why the fraud order should not be issued, but had left Monroe.

The State bank of Williamsville, Ill., was robbed of \$4,000 in cash and jewelry valued at several thousands of dollars.

William Kasten, of New York, who was about to be ordained a Roman Catholic priest, has married Miss Jennie Stockwell, of Morrisville, N. J.

Thomas Paterson Goudie, the book-keeper of the Bank of Liverpool, who disappeared at the time of the discovery that the bank had been robbed of about \$850,000, was captured at Bootle, where he had been in hiding. Goudie had \$500 in his pocket when arrested.

## CONGRESS.

The first Session of the 57th Congress Opened.

The opening of the first session of the fifty-seventh congress at noon Monday drew to the capitol a great throng of spectators. Although the actual work of the two houses was not to begin until 12 o'clock the historic old structure—now refurbished from end to end until it shone with marble, gilt and rich decorations—was astir long before that hour.

The senate was called to order by President Pro Tem, William P. Frye of Maine.

After the usual resolutions and the appointment of a committee to notify the president that the senate was in session, a recess of 30 minutes was taken, and then a further recess until 2 o'clock to await the organization of the house and the appointment of its committee to wait upon the president. Senators Hale of Maine and Morgan of Alabama were appointed as the senate committee.

At 2 o'clock the senate reassembled. Mr. Gamble announced the death of the late Senator Kyle and the senate adjourned.

Alexander McDowell, of Pennsylvania, called the next house of representatives to order at noon.

At the conclusion of the roll call, showing 3.8 members present, Mr. Cannon, Ill., nominated David B. Henderson, of Iowa, and Mr. Kay, Va., nominated Mr. Richardson, of Tennessee, for speaker. The vote resulted: Henderson, 190; Richardson, 149; Stark, Neb., 1; Cummings, N. Y., 1.

Mr. Henderson was declared elected and was escorted to the chair by the other three men who failed. Mr. Henderson thanked the house for its expression of confidence and asked the support of all the members. The oath was then administered to him by Rep. Bingham, of Pennsylvania, "the father of the house," and by the speaker in turn, administered to the members elect.

Congressman Corliss succeeded in setting before the house his joint resolution for a constitutional amendment for the purpose of giving senators by popular vote before any other resolution was offered, so it goes on the calendar as No. 1. Senator Burrows has a similar joint resolution to introduce, only that it is limited to occasions where legislators get into a deadlock and fail to elect. Such a condition exists now in Delaware, and because of this condition the state has no representative in the senate.

There was a good attendance in the galleries of the house Tuesday to listen to the reading of the first messages of President Roosevelt. The members gathered early, chatting and discussing prospective legislation. The main topic was the personality of the new president. Keen interest was manifested in what he would have to say in his message.

The reading of the message was concluded in the house at 2:35. Mr. Grosvenor offered the following resolution, which was adopted without division:

"Resolved, That a committee of one member from each state represented in this house be appointed on the part of the house to join such committee as may be appointed on the part of the senate, to consider and report by what token respect and affection it may be proper for the congress of the United States to express the deep sensibility of the nation to the tragic death of the late President William McKinley and that so much of the message of the president as relates to that deplorable event be referred to such committee."

In pursuance of the terms of the resolution the speaker appointed a committee consisting of one member from each state and territory.

The house then, as a further mark of respect, adjourned.

In the senate the reading of the first important state paper of the president was marked by unusual interest. The galleries were filled.

The reading of the message consumed two hours and fifteen minutes. When it had been completed Mr. Foraker was recognized to offer a resolution for a committee of eleven senators to join the committee of the house in proper expressions on the tragic death of President McKinley.

The resolution was adopted and then as a further mark of respect to the memory of the late president the senate on motion of Mr. Foraker adjourned.

**He Dared and Won.**

Mrs. Robert C. Wyckoff, of Plainfield, N. J., a young woman with three small children, will start in a few weeks for the Klondike, to join her husband there. The family, when living together here, were poor. Four years ago Mr. Wyckoff, in a little chaffing with his employer, was dared by the latter to go to Alaska, the employer offering to bear the expenses. Wyckoff accepted the offer and went. He "struck it rich" after two years of hard work, and has now sent for his family to share his good luck.

**The Schley Verdict.**

The Schley court of inquiry has made up its verdict, and it will be publicly announced on Wednesday, Dec. 11. The meetings of the court have ended and it has finally dissolved. The findings are in the hands of the navy department. No word has leaked out as to the nature of the findings, but the friends of Schley are more confident than ever that he will be vindicated.

The rapid growth of the navy is the plea set up by Rear Admiral Endicott, chief of the bureau of yards and docks, to justify the submission of estimates for the maintenance of the navy yards, and stations and improvements, aggregating \$21,526,350.

## Twenty-eight Perished.

The bar tug Tatosh reports that the British ship Nelson, Capt. Perriam, turned turtle and went to the bottom with its entire crew. The Nelson left Astoria, Ore., Nov. 25. Monday night it was back at the river's mouth, and was reported to have shifted its cargo. It had a bad list to starboard, and could go on only one tack. Tuesday afternoon the tug Tatosh went out and picked up the Nelson, passing a lawser. It was the intention of the Tatosh to remain with the ship during the night. The gale was too severe and the Nelson broke from the tug and the turned turtle, sinking at once. The Nelson carried 28 men, all told.

**Roasted Her Baby.**

Mrs. J. Fred Meyers, living five miles from Corvallis, wrapped her five months' old baby in a blanket, put her in the oven of the kitchen stove to keep warm, and went out in the yard to gather fuel. Half an hour later, when she came back the fire in the stove had blazed up and the room was filled with smoke. Rushing to the oven she found her baby dead, lying in flames. The infant was dead; its arms and legs burned to a crisp.

**News in Brief.**

The will of the late George M. Pullman has been filed for probate in California. The estate does not exceed \$500,000. His widow has asked for letters of administration.

Walter Cavanaugh, who forced Daisy Wheeler, his 7-year-old sweetheart, to steal \$1,200 from her mother and elope with him, has been sentenced at Kansas City, Mo., to five years' imprisonment.

Thomas J. Hampton, colored, who was hanged at Lake City, Fla., Friday for a double murder committed nine years ago, displayed remarkable nerve and sang a cigar to the very moment the black cap was adjusted. He confessed to five murders.

Kick a dog and he bites you. He bites you and you kick him. The more you kick the more he bites and the more he bites the more you kick. Each makes the other worse.

A thin body makes thin blood. Thin blood makes a thin body. Each makes the other worse. If there is going to be a change the help must come from outside.

Scott's Emulsion is the right help. It breaks up such a combination. First it sets the stomach right. Then it enriches the blood. That strengthens the body and it begins to grow new flesh.

A strong body makes rich blood and rich blood makes a strong body. Each makes the other better. This is the way Scott's Emulsion puts the thin body on its feet. Now it can get along by itself. No need of medicine.

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle. Send for free sample.

Dear Brother of Beaule, you swing into line too hard. You say you like to see people practise what they preach. Just look back Brother and think how many times in your life you have met people who did not meet those requirements. There are thousands of people in the country to-day who are not in sympathy with the liquor traffic, who do not and will not even vote Prohibition; the time is not yet ripe for the change. Yet it will come and a small thing may yet start another flood of indignation over the county as did Mrs. Stow's "Uncle Tom's Cabin" in slavery times. The chances are we will never see it, Scripture tells us, "Whatsoever a man soweth the same shall he also reap, and a man who makes his living by the destruction of the soul of his fellow men must have a future too horrible to contemplate. Fifty years ago the abolition of slavery was thought impossible. The downfall of the liquor traffic will come in its own good time, but a far different method must be adopted to do the work than the methods now employed. Whenever a man was wanted to fill a great position the man was there at the right time—Wellington at Waterloo, Grant during the civil war, Dewey at Manila, and, Dear Brother, when the time arrives for the liquor traffic to go down, the right man will be there to lead the party to victory. But not until then will you ever see the cause victorious.

## WEAR OF THE EARTH

HOW THE FACE OF OUR GLOBE IS CONTINUALLY CHANGING.

**Geological Agents That Are Always Busy In Nature's Great Workshop.**  
Where Man Has Comparatively Little Influence.

The atmosphere plays its part in geological operations. Its corroding power, backed by rain and wind, helps to decay and disintegrate those rocks which are exposed to its influence. Rain completes the work thus begun. Wind blows dust, sand and volcanic ashes over large tracts of earth—in fact, over the whole of it.

It is only of late years that geologists have discovered that the fine volcanic dust is carried over the whole of the earth's surface and plays a very important part in the deep sea deposits. On deserts and nearly rainless regions blown sand will wear away the hardest rocks by beating against them. Some sandstone formations appear to have been piled up by winds.

Winds cause ocean currents, waves and storms. The great denuding power of the sea is largely due to the atmosphere. Some parts of the English coast are being rapidly washed away. Plants and animals have their distribution considerably affected by winds and ocean currents. Again, whether living in water or on land, animals live on the oxygen supplied from the atmosphere, and land plants absorb carbonic acid from the same source.

Rain acts in two ways: (1) chemically by dissolving certain substances, such as lime, out of the rocks, and (2) mechanically by wearing down their surfaces as it flows over them. Any old building—a ruined castle or cathedral, for instance—shows a "weathered" surface resulting from the action of rain and wind. In sandstone structures the details of carving are often lost, and on old tombstones the lettering can hardly be deciphered. Springs are due to rainwater collecting in rocks and rising to the surface. Rivers are fed by rains and springs.

A river is a very powerful geological agent. In the hardest rocks rivers gradually carve out a valley or gorge. This is accomplished partly by chemically dissolving certain mineral substances, but chiefly by mechanical erosion, the stones, sand and mud wearing away the bed of a stream as they run and tumble over it.

The finest examples of river action are the famous canyons of Colorado, which in some places are gorges 5,000 or even 6,000 feet deep, with vertical sides. But, as already pointed out, rivers have a constructive action quite as important as their destructive action. By bringing down their burden of sediment into lakes, estuaries and seas they build up great piles of rock and "sow the dust of continents to be."

Glaciers are rivers of ice fed by the "eternal snows" of high mountain ranges such as the Alps. They wear out their own valleys as rivers do; they transport mud, sand and stones to great distances, in some cases sending them sealed up in icebergs to float far out to sea and on melting deposit their burdens on the sea floor. Off the coast of Newfoundland northern icebergs are depositing a great mass of "glacial drift."

The sea is a great denuding agent; but its work is more constructive than destructive. It is the workshop where nearly all the stratified rocks have been accumulated and ranged in layers or strata. The rivers and ocean currents continually bring in fresh supplies of debris even for hundreds of miles.

Man, compared with the lower animals, produces but little effect as a geological agent. Still the human race has considerably modified the distribution of plants by cutting down forests and by cultivating certain plants to supply food. So with animals. Certain useful species have been cultivated and enormously increased at the expense of others which prove useless or harmful.

But plants and animals have had, and still have, far more influence geologically. Coal seams are made up of vegetable remains of former periods. Forests have an important influence on climate and on animal as well as plant life. In the comparatively unknown world of the ocean marine plants doubtless have important functions.

Marine animals accomplish a vast amount of geological constructive work. Great deposits thousands of feet thick owe their existence to small calcareous creatures living in the sea. Coral reefs afford the most familiar illustration.

The force known as heat is of great importance. The earth is hotter below the surface and probably has a very high temperature toward its center. In some places not very far below its surface it contains highly heated rock, which occasionally flows over the surface during volcanic eruptions. In other places we find hot springs in connection with volcanic action.

Heat exercises a powerful influence on rocks deeply buried below the earth's surface, chiefly by means of heated water and steam. In this way rocks have been very much altered or "metamorphosed." The crystalline schists have thus been brought to their present state by a series of chemical changes due to heat, and there is no doubt that they were once ordinary deposits of clay, sand, etc.—Hutchinson's "Autobiography of the Earth," the Appleton Company.

# "PACE THAT KILLS"

This is a story of "the pace that kills."

Young George Pullman, age, according to the records, 26, born to the possession of millions, attended through all his life by the luxurious surroundings that were his right of parentage and expectation, died recently in California. The cause of his death was given in the dispatches as acute pneumonia.

George Pullman, as every one who reads the newspapers knows, was one of the twin sons of George M. Pullman, the inventor of the sleeping-car system that bears that name. He and his twin brother Sanger were born on June 25, 1875. The character and achievement of the father are too well known to need explanation here. Pullman, Sr., from humble beginnings amassed a colossal fortune. The foundations of his fortune were laid before his sons were born, and there was never a time thereafter that his fortune did not prosper. He died very suddenly, as it might be said, without warning. That is to say, he retired one night in perfect health, awoke in distress, and passed away almost before physicians could be summoned to lend him assistance and comfort.

A day after the newspapers were filled with flattering obituaries. It was only after the publication of the terms of his will that the world became aware of the great and mighty grief that had tugged at the heart strings of the rich man for years before Providence sent the stroke that took him out of the world. In this will he cut off his twin sons with a comparative pittance of \$3,000 a year, being careful, however, to explain that the reason he did so lay in the total inability of either to appreciate the blessings of business or the value of money. The country rang with the news of the disinheriting of the twins, and the event served to afford excuse for a recapitulation of the numerous and picturesque escapades of both. The bulk of the Pullman fortune of course

The two engagements were announced almost simultaneously. Miss Lynne Fernald, the daughter of Mrs. J. W. Fernald of Chicago, plighted her troth to Sanger Pullman. Within a few days it was announced that George Pullman, Jr., was engaged to Miss Felicitas Oglesby, a daughter of the former governor of Illinois of that name. Immediately after the publication of the terms of the Pullman will disinheriting the twins, both young ladies promptly sought release from their respective engagements.

After their disinheriting, the twins seemed to thrive fairly well, though there was no appreciable diminution of the fervor with which they sought the gayeties of life. Neither seemed to grieve over the loss of his fiancée. Young George went the pace as of yore, and the next piece of news to startle various communities was to the effect that he and Miss Fernald had eloped from his mother's summer cottage at Elburn, N. J., where the young lady was an honored guest. The two were married privately in New York, and when Sanger heard of the event he telegraphed his brother his sincere congratulations.

Not so long after this Sanger himself was married without parental consent to a young woman in California, and when he arrived in Chicago to seek his mother's blessing, he was met by his brother George, who gave him every assurance of his affection and support. From that time on Sanger and his wife have lived happily. It was to the doomed George that the trouble came.

Very shortly after his brother Sanger's marriage he resumed a former friendship with Mrs. Blanche Bowers, one of the playmates of his childhood, and the wife of the composer of several popular songs. The two were seen together constantly. George took Mrs. Bowers to New York, and it was while living with her at the Gerrard hotel, on Forty-fourth street, that Mr. Bowers brought suit for divorce against his wife and an action against

by the vibrating glitter. And then you fall asleep.

Several other mechanical contrivances for inducing sleep have been placed on the market from time to time. All are founded upon the well-known fact that the concentration of the mind upon a single impression produces sleep. The most complicated of these mechanical sleep producers is the "vibrating coronet," just invented by Dr. Gaiße of Paris. It consists of three bands of metal encircling the head. A branch strip extends to either of the eyelids, and by aid of a spring gently vibrates against it. This is used to induce sleep in the patients of the clinic of Dr. Bertillon.

## GUITEAU'S SANITY.

Doctor Who Questioned Him Says He Was Irresponsibly Insane.

I propounded to Guiteau a series of questions which, with few exceptions, were such as he had not answered before. They related to his mental and moral experiences while contemplating his objections to the course of Garfield toward himself to the rise of the idea that he must "remove him," to his shrinking from it at first or otherwise, and what would have been his opinion if President Garfield had recovered, writes Dr. T. M. Buckley in the Century Magazine. Many of them involved sharp discriminations, and were such as would have puzzled a typical monomaniac or paranoiac. He answered the questions, made no reply that required explanation, used no superfluous words, did not ask for a repetition of any questions, nor employ a word in an improper sense; but occasionally he contradicted the record of his own course and his own testimony. He gave no indication of being, or ever having been, irresponsibly insane. His conversation and bearing were unlike those of a man who had committed a crime, and after doing so had made himself believe that he could not help it. His motives were obvious. He desired office; dis-

"Even that my love, Alice, you like me more than you admit. Unsay your words, my dearest, and give me hope."

"Do not vex me," she resumed, in a pained tone; "do not seek to turn me from my duty. I—I, though I scarcely like to speak of these sacred things, Gerard, I have put my hand on the plough; even you cannot turn me back."

"Tell me one thing, Gerard; it will be safe. Was the dispute about Frances Cheneyvix?"

He contracted his brow, and nodded.

"And you could refuse her? You must learn to love her, for she would make you a good wife."

"Much chance there is now of my making a wife of any one."

"Oh, this will blow over in time; I feel it will. Meanwhile—"

"Meanwhile you destroy every hopeful feeling I thought to take to cheer me in my exile!" was his impatient interruption. "I love you alone, Alice; I have loved you for months, truly, fervently, and I know you must have seen it."

"Love me still, Gerard," she softly answered, "but not with the love you should give to one of earth, the love you will give to Frances Cheneyvix. Think of me as one rapidly going; soon to be gone."

"Oh, not yet!" he cried in an imploring tone, as if it were as she will.

"Not just yet; I hope to see you return from exile. Let us say farewell while we are alone."

She spoke the last words hurriedly, for footsteps were heard. Gerard snatched her to him, and laid his face upon hers.

"What cover did you say the book had?" demanded Frances Cheneyvix of Gerard, who was then leaning back on the sofa, apparently waiting for her. "A mottled? I cannot see anything like it."

"No? I am sorry to have given you the trouble, Fanny. It has gone, perhaps, amongst the 'has-beens.'"

"Listen," said Alice, removing her hand from before her face, "that was a carriage stopped. Can they be come home?"

Frances and Gerard flew into the next room, whence the street could be seen. A carriage had stopped, but not at their house. "It is too early for them yet," said Gerard.

"I am sorry things go so cross just now with you," whispered Lady Frances. "You will be very dull over there."

"Ay, it to hang myself, if you knew all, and the bracelet may turn up, and Lady Sarah be sporting it on her arm again and I never know that the cloud is off for me. No chance that any of you will be at the trouble of writing to a fellow."

"I will," said Lady Frances. "Whether the bracelet turns up or not, I will write you sometimes, if you like, Gerard, and give you all the news."

"You are a good girl, Fanny," returned he, in a brighter accent, "and I will send you my address as soon as I have got one. You are not to turn proud, mind, and be off the bargain, if you find it so offensive."

Frances laughed. "Take care of yourself, Gerard."

So Gerard Hope got clear off into exile. Did he pay his expenses with the proceeds of the diamond bracelet?

## CHAPTER XII.

The stately rooms of one of the finest houses in London were open for the reception of evening guests. Wax lights, looking innumerable when reflected from the mirrors, shed their rays on the gilded decorations, on the fine paintings, and on the gorgeous dresses of the ladies; the enlivening strains of the band invited to the dance and the rare exotics emitted a sweet perfume. It was the West End residence of a famed and wealthy city merchant of lofty standing; his young wife was an earl's daughter and the admission to the house of Mr. and Mrs. Lady Adela Netherleigh was coveted by the gay world.

"There's a mishap!" almost screamed a pretty looking girl. She had dropped her handkerchief and stooped for it, and her partner stooped also; in his hurry he put his foot upon her thin, white dress, she rose at the same moment and the bottom of her skirt was torn half off.

"Quite impossible that I can finish the quadrille," quoth she to him, half in amusement, half provoked at the misfortune. "You must find another partner, and I will go and get this repaired."

She went upstairs; by some neglect, the lady's maid was not in attendance, and too impatient to ring and wait for her, down she flew to the housekeeper's parlor. She was quite at home in the house, for she was the sister of its mistress. She had gathered the damaged dress up in her arms, but her white petticoat fell in rich folds around her.

"Just look what an object that stupid—!" And there stopped the young lady; for instead of the housekeeper and lady's maid, whom she expected to meet, nobody was in the room but a gentleman—a tall handsome man. She looked thunderstruck; and then slowly advancing and staring at him as if not believing her own eyes.

"My goodness, Gerard! Well, I

should just as soon have expected to meet the dead here."

"How are you, Lady Frances?" he said, holding out his hand with hesitation.

"Lady Frances! I am much obliged to you for your formality. Lady Frances returns her thanks to Mr. Hope for his polite inquiries," continued she in a tone of pique, and honoring him with a swimming ceremony of courtesy.

He caught her hand. "Forgive me, Fanny, but our positions are altered—at least mine; and how did I know that you were not?"

"You are an ungrateful—raven," cried she, "to croak like that. After getting me to write you no end of letters and all the news about everybody, beginning 'My dear Gerard,' and ending 'Your affectionate Fanny,' and being as good to you as a sister, you must me with 'My Lady Frances'! Now, don't squeeze my hand to atoms. What on earth have you come to England for?"

"I could not stop there," he returned with emotion; "I was fretting away my heartstrings. So I took my resolution and came back; guess in what way, Frances, and what to do."

"How should I know? To call me 'Lady Frances,' perhaps."

"As a clerk; a clerk to earn my bread. That's what I am now. Very consistent, is it not, for one in my position to address familiarly Lady Frances Cheneyvix?"

"You never spoke a grain of sense in your life, Gerard," she exclaimed, peevishly. "What do you mean?"

"Mr. Netherleigh has taken me into his counting house," she echoed in surprise. "What, with that—that—"

"That crime hanging over me. Speak up, Frances."

"No; I was going to say that doubt. I don't believe you guilty; you know that, Gerard."

"I am in his house, Frances, and I came up here tonight from the city to bring a note from his partner. I declined any of the reception rooms, not caring to meet old acquaintances, and the servants put me into this."

"But you had a mountain of debts in England, Gerard, and were afraid of arrest."

"I have managed that; they are going to let me square up by installments. Has the bracelet never been heard of?"

"Oh, that's gone for good; melted down in a caldron, as the Colonel calls it, and the diamonds reset. It remains a mystery of the past, and is never expected to be solved."

"And they will suspect me! What is the matter with your dress?"

"Matter enough," answered she, letting it down, and turning round for his inspection. "I came here to get it repaired. My great booby of a partner did it for me."

"Fanny, how is Alice Seaton?"

"You have cause to ask for her. She is dying."

"Dying!" repeated Mr. Hope in a hushed, shocked tone.

"I do not mean actually dying this night, or going to die tomorrow; but she is dying by slow degrees, there is no doubt, it may be weeks off yet; I cannot tell."

"Where is she?"

"Curious to say, she is where you left her—at Lady Sarah Hope's. Alice could not bear the house after the loss of the bracelet, for she was so obstinate and foolish as to persist that the servants must suspect her even if Lady Sarah did not. She felt, and this spring Lady Sarah saw her, and was so shocked at the change in her, the extent to which she had wasted away, that she brought her to town by main force, and we and the doctors are trying to nurse her up. It seems of no use."

"Are you also staying at Colonel Hope's again?"

"I invited myself there a week or two ago to be with Alice. It is pleasant, too, than being at home."

"I suppose the Hopes are her tonight?"

"My sister is. I do not think your uncle has come yet."

"Does he ever speak of me less resentfully?"

"Not he; I think his storming over it has only made his suspicions stronger. Not a week passes but he begins again about that detestable bracelet. He is unalterably persuaded that you took it, and nobody must dare put in a word in your defense."

"And does your sister honor me with the same belief?" demanded Mr. Hope bitterly.

"Lady Sarah is silent on the point to me; I think she scarcely knows what to believe. You see I tell you all freely, Gerard."

## CHAPTER XIII.

Before another word could be spoken Mr. Netherleigh entered. An aristocratic man, with a noble countenance. He bore a sealed note for Mr. Hope to deliver in the city.

"Why, Fanny!" he exclaimed to his sister-in-law, "you here?"

"Yes; look at the sight they have made me, replied she, shaking down her dress for his benefit, as she had previously done for Mr. Hope. "I am waiting for some one of the damsels to mend it for me. I suppose Mr. Hope's presence has scared them away. Won't mamma be in a fit of

rage when she sees it, for it was new tonight."

Gerard Hope shook hands with Lady Frances, and Mr. Netherleigh, who had a word of direction to give him, walked with him into the hall. As they stood there, who should enter but Colonel Hope, Gerard's uncle. He started back when he saw Gerard.

"C—can I believe my senses?" stammered he. "Mr. Netherleigh, is he one of your guests?"

"He is here on business," was the merchant's reply. "Pass on, Colonel."

"No, sir, I will not pass on," cried the enraged Colonel, who had not rightly caught the word business. "Or if I do pass on, it will only be to warn your guests to take care of their jewelry. 'No, sir,' he added, turning to his nephew, 'you can come back, can you, when the proceeds of your theft is spent! You have been staring it in Calais, I hear; how long did the bracelet last you to live upon?'"

"Sir," answered Gerard, with a pale face, "it has been starving rather than starving. I asserted my innocence at the time, Colonel Hope, and I repeat it now."

"Innocence!" ironically repeated the Colonel, turning to all sides of the hall, as if he took delight in parading the details of the unfortunate past. "The trinkets were spread on a table in Lady Sarah's own house. You came stealthily into it—after being forbidden it for another fault—went stealthily into the room, and the next minute the diamond bracelet was missing. It was owing to my confounded folly in listening to a parcel of women that I did not bring you to trial at the time; I have only once regretted not doing it, and that has been ever since. A little wholesome correction at the penitentiary might have made an honest man of you. Good-night, Mr. Netherleigh! If you encourage him in your house, you don't have me."

Now another gentleman had entered and heard this; some servants also heard it. Colonel Hope, who firmly believed in his nephew's guilt, turned off peevishly and indignantly; and Gerard, giving vent to sundry unneighbourly expletives, strode after him. The Colonel made a dash into a street cab and Gerard walked towards the city.

Lady Frances Cheneyvix, her dress right again, at least to appearance, was sitting to get her breath after a whirlwind waltz. Next to her sat a lady who had also been whirling. Frances did not know her.

"You are quite exhausted; we kept it up too long," said the cavalier in attendance on the stranger. "What can I get for you?"

"My fan; there it is. Thank you. Nothing else."

"What an old creature to dance herself down!" thought Frances. "She's 40, if she's a day."

The lady opened her fan and proceeded to use it, the diamonds of her rich bracelet gleamed right in the eyes of Lady Frances Cheneyvix. Frances looked at it and started, she strained her eyes and looked again; she bent nearer to it and became agitated with her emotion. If her recollection did not play her false, that was the lost bracelet.

She discerned her sister, Lady Adela Netherleigh, and glided up to her.

"Adela, who is that lady?" she asked, pointing to the stranger.

"I don't know who she is," replied Lady Adela, carelessly. "I did not catch the name. They came with the Cadogans."

"The idea of your having people in your house that you don't know!" indignantly spoke Frances, who was working herself into a fever. "Where's Sarah, do you know that?"

"In the card room, glued to the whist table."

Lady Sarah, however, had unglued herself, for Frances only turned from Lady Adela to encourage her.

"I do believe your lost bracelet is in the room," she whispered in agitation. "I think I have seen it."

"Impossible!" responded Lady Sarah Hope.

(To be continued.)

## KICKING A BILL OUT.

Document Actually Kicked Out of House of Commons.

Sir John Knight, a stout old Tory member for Bristol, who in the year 1893 proposed to kick a bill out of the house of commons, got into sad trouble. It was a measure for the naturalization of foreign Protestants, and Sir John, in the course of a violent invective, exclaimed: "Let us first kick the bill out of the house, and then let us kick the foreigners out of the kingdom," this observation being aimed at William's Dutchmen, if not at the king himself. But what Sir John only proposed to do with this bill the commons actually did with another obnoxious measure in 1770, says Good Words.

The peers had presumed to alter a money bill by striking out a provision which offered a bounty upon the exportation of corn. The commons, indignant at the treatment of their deputation, who had been contemptuously ejected from the peers' chamber, and further incensed by the fact that on another occasion Burke had been kept waiting three hours at the door of the upper house with a bill sent up by the commons, took the present opportunity to show in emphatic manner that there was at least one privilege on which they would not allow the peers to encroach. The amendment was promptly rejected, and with it the bill.

The speaker tossed the document over the table, and members of both parties, as they went out, kicked it toward the door.

## FUNNY KIND OF SNAKE.

Falls Apart When Attacked But Comes Together Again.

In certain parts of Pennsylvania, says a modern Ananias, there is occasionally found a reptile known as the joint snake. When attacked, according to the stories told by old settlers, it flies in pieces, each part taking care of itself. A bark peeler named Osterhout attacked one of these the other day near Shamokin, and, to his utter amazement, it broke all up, each section jumping off in a different direction. In the course of an hour he returned the same way, and was utterly amazed to see it all together, except the tail piece.

After waiting a few moments, he saw the tail coming up to join the body, taking sharp, quick little jerks. It came nearer and nearer until within a few inches of the three-quarter snake, when it gave a sudden jump and hatched on in the proper place, with a fuss resembling the popping of a cap. Osterhout knocked it to pieces several times, and each time it came together again.

He carried his amusement too far, however, in throwing the tail across the creek, "just to see," he said, "how long it would take to catch up," but it never caught up. The snake was carried to the house where a new tail is beginning to grow out to replace the other.

## Physicians Much Interested.

Northport, Mich., Dec. 9.—The medical men are just now eagerly discussing a most remarkable cure of a severe case of Kidney Disease in this county. Mr. Byron O. Leslie of Northport has for years been a victim of kidney derangements, with all the consequent pain and annoyance. He was gradually growing worse and as the disease advanced he became very despondent, often wondering if he would have to endure this suffering all his lifetime.

But at last he found a remedy that cured him in Dodd's Kidney Pills. He was much pleased, but did not say much about it lest the good effect he experienced would not last. Now, however, after months of continued good health he has concluded that he is permanently cured and his announcement of this has caused a profound sensation among the physicians and the people who knew of his apparently hopeless condition.

Women on Germany Railroads.

Women in this country have as yet made but little headway in the service of the railroads, but in Prussia the head of the state railways has announced that for the future as many women as possible will be employed by them in these posts suitable for women. They will hold positions at the ticket offices, telegraph offices, be telephone clerks at the counting offices and at the goods offices. In Prussia a great number of women are already employed in various government posts and each year sees fresh openings made for them.

## THREE CHICAGO DOCTORS

Failed to Do for Miss Mabelle L. LaMonte What Was Accomplished by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I was in an awful state for nearly three years with a complication of female troubles which three physicians called by different names, but the pains were all the same. I dreaded the time of my

monthly periods for it meant a couple of days in bed in awful agony. I finally made up my mind that the good doctors were guessing; and hearing from different friends such good reports of Lydia E. Pinkham's Vegetable Compound, I tried that. I bless the day I did, for it was the dawning of a new life for me. I used five bottles before I was cured, but when they were taken I was a well woman once more. Your Compound is certainly wonderful. Several of my friends have used it since, and nothing but the best do I ever hear from its use.—Yours, MABELLE L. LAMONTE, 622 E. 31st St., Chicago, Ill.—\$5000 forfeit if above testimonial is not genuine.

went to the widow. The two daughters, however, Florence and Harriet, received a magnificent share. Both of these sisters are now married, one being Mrs. Frank O. Lowden of Chicago.

Sympathy for the two boys might have been more marked if it had not been for the known intention of their mother, made public very shortly after the publication of the terms of the will, to provide for them handsomely from her own splendid jointure. She made good her promises in no uncertain way, and since their father's death the twins have suffered no lack of luxury. It was in their doings before and after their father's death that the newspapers of New York and Chicago, not to speak of other cities, found the pretext for biographical sketches that were not always complimentary.

One of the beautiful features of this strange modern domestic romance has been the lasting and imperishable affection that has always existed between the two brothers. When either one has been in a scrape or in any sort of entanglement the other has invariably stood by him. Sanger Pullman was at his brother George's bedside when he passed away. He was never away from him when he was in trouble.

The first trouble came, perhaps, while the parents were in Europe, shortly after the twins had returned from separate schools in the East.

Young George and his brother Sanger, handsome as young gods in these days, became the dual center-piece of a rapidly moving coterie of young men of the town, who spilled champagne by the bucket, patronized all the first nights at the theaters, consumed all the lobsters and Welsh rarebits that were to be had for money, and in other ways managed to interest themselves in the industry of burning the candle of life at both ends.

These, of course, were wild oats of the more trivial sort. The tragedy began to darken when the blessed state of matrimony hove into view as a possible solution of the destiny of the twins. It was the matrimonial experience of both that gave the newspaper historians their best opportunities, and that brought to both brothers a notoriety that either, no doubt, would have gladly escaped.

Mr. Pullman for \$50,000 damages for alienation of the lady's affections. Mr. Bowers has since secured a decree of divorce from his wife. The damage suit probably terminates with the death of Mr. Pullman.

Mrs. Pullman (formerly Miss Fernald) secured a divorce from her husband last December, with bail for her feelings in the way of \$1,000 annual alimony. That bail may or may not cease with the death of the offender. Fourteen days after that divorce Mr. Pullman married Mrs. Brazelle, a sister of his brother Sanger's wife. The ceremony was performed in the Arlington hotel in Carson City, Nev. Since that time and up to the day of Mr. Pullman's death, he and his wife lived in California.

## MACHINE TO INDUCE SLEEP.

Help Brought to Sufferers of Insomnia by a Recent Invention.

The alarm clock which may with reasonable certainty be depended upon to awaken you at any desired time in the morning is soon to be greatly enhanced in value by another mechanical attachment. This is a sleep producer. To persons troubled with sleeplessness or sleepiness the new contrivance will undoubtedly prove a boon. It will put you to sleep at night and waken up at the proper time in the morning.

The sleep-producing attachment consists of two horizontal rectangular panels of ebony, eight inches long and one inch high, revolving in opposite directions on a nickel pivot. The spring having been wound up, the ebony panels, one above the other, revolve. Each is studied on both sides by a horizontal row of bright circular mirrors, the size of a quarter dollar, and maintains a velocity of one revolution per second. This speed will continue for an hour without rewinding.

To induce sleep by aid of this mechanism you darken your room and allow a bright pencil of light falling from an aperture in the window behind you to fall upon the rows of mirrors in such a manner that they will reflect the rays into your eyes. Concentrate your gaze upon the revolving panels, and not allowing it to wander elsewhere about the room, you soon become fascinated

appointed in the quest he felt revengeful and the idea occurred to him to kill the president and put the "Stalwarts" in power. When it first arose it was like the idea of forgery murder or suicide. By turning away he could have cast it out and resisted its fascination, but as he voluntarily dwelt upon it its proportions grew. The root questions in his case were: Did he know what he was doing? Did he know that it was a crime? Had he power to refrain from doing it? These, I believe, could be answered only in the affirmative by one wedded to a theory. Whether Guiteau had become irresponsibly insane at the time of his execution is another question.

## A New Alpine Danger.

The wire cables used by tourists for protection and aid in the Alps may, according to the latest experiences, be dangerous. An accident which occurred on July 20, during an ascent of the Tribulation in the Stubai Alps is a proof of this. Several tourists on that day ascended to the summit of the mountain, which is 3,100 metres high. Near the top, where the ascent had to be made with the aid of wire cables, the rocks suddenly began to hum when an ice pick came in contact with the cable, and sparks were seen. Shortly before there had been a thunderstorm which caused all these electrical phenomena. Suddenly the lightning struck the cable, stunning a tourist and the guide and hurling them several hundred metres below. The other tourists were also struck.

## Electricity Instead of Fuel.

The people of Davos, Switzerland, propose to dispense with fuel of every description and to resort to electricity for all industrial and domestic purposes. Already electricity is extensively employed for cooking, heating and lighting in several villas, while one of the largest bakeries in the district is electrically equipped in every respect.

The scientific world awaits the particulars of the latest process of extracting oxygen from the air by physical instead of chemical means.

# AT THE TABLE.

Two years have sped since first I led  
You to the table, dear,  
And you sat over there alone  
And I sat smiling here.

A year or two flew past and you  
No longer sat alone;  
A little one was in your arms,  
Your darling and my own.

And then another year or so,  
And some one else was there,  
And Willie sat near me, you know,  
While I sat smiling here.

The years have sped since first I led  
You to the table, dear,  
And you looked queenly at the foot  
And I felt kindly here.

To-day as I look down at you  
On either side I see  
A row of hungry little ones  
All gazing up at me.

We've added leaves, one after one,  
And you are far away—  
Aye, thrice as far, my dear, as on  
That happy, happy day.

But though we sit so far apart—  
You there and I up here—  
Two rows of hearts from my fond heart  
Stretch down to you, my dear.

Thank God for every extra leaf  
The table holds to-day  
And may we never know the grief  
Of putting one away.

# THE COURAGE OF A COWARD

WHEN James Herrick entered West Point he promised his mother that he would behave himself. "Herrick," she had said as he was parting with her for the first time in his life on that June morning when the train was to bear him away to new life and new scenes, "Do what is right by your father's memory. He was a good man, a religious man, and because of it he was the better soldier."

The boy stooped, kissed his mother and promised. His father had been killed four years before on that awful day when the swarming hosts of the Sioux had slain to the last man the little band of the gallant Custer. Jimmie had been appointed to the military academy by the President, as a recognition by the Government of his father's gallant services. He was a manly lad, but of a grave temperament and a rather retiring nature, characteristics that were the more marked on account of the fact that Jimmie had led only a home life.

A year passed away, and Jimmie Herrick was a third classman. He stood well in his studies, and his record for discipline was of the best. His position among his fellow cadets, however, was strange. The majority of the boys, those who worked hard and walked the strict line of discipline, respected this shy, retiring lad, who worked like a Trojan early and late to master his lessons and to overcome deficiencies in early schooling, for much of Jimmie's life had been passed at frontier posts, where the mother at the odd moments taken from household duties was the only teacher.

Some of Jimmie's classmates rather sneered at the boy and called him a

The story that Jimmie Herrick had submitted tamely to being called a tale bearer went through the corps. Jimmie found some of his best friends falling away. Many of his classmates passed him with averted heads. The story went abroad that he was a coward. Jimmie's heart was heavy. He was fighting a braver battle with himself than any he could fight with another. "They call me coward," he said to himself. "I wish that I could show them."

June came and the cadets went into camp just beyond the great cavalry plain. Visitors poured into the post from all parts of the country. Jimmie's mother came to see him. She knew the story of his trouble and knew that it was for her sake that the boy had restrained his hand when taunted with being a tale bearer. She told him that in the end all would be right. During the first two weeks of the summer encampment Jimmie Herrick's sole companion was his mother.

Jack Harvey's parents and his sister were visiting West Point. Clara Harvey was seventeen years old and Jack's only sister. With his parents, he idolized Clara. Mr. and Mrs. Harvey, with Clara and two or three of her friends who were staying at the hotel, had asked a number of cadets to join them one afternoon just after drill at a picnic to be given at Gee's Point, a little peninsula that juts into the Hudson from the edge of the path which runs along the bluff just below Battery Knox with its frowning guns. A little lighthouse surmounts the end of Gee's Point. The river where it sweeps around the base of the light has a treacherous current. The tide backs up into the Hudson for many

"I AM NO TALE-BEARER, JENNINGS," SAID HERRICK.

milk-sop. His room-mate, "Jack" Harvey, was always glad to avail himself of Jimmie's knowledge of mathematical problems earned by hard study, but he was ever ready with a shy joke at Jimmie's steadfast refusal to join in any of the cadet pranks. Jimmie found that the hard infantry drill, the artillery evolutions and the dashing cavalry movements in the riding hall and on the plain gave him plenty of physical exercise and formed a vent for pent-up animal spirits.

Jack Harvey, Jimmie's room-mate, had gathered about him a number of reckless spirits, who were bent on almost any breach of discipline which would bring them what they called fun. When Jack's chums found out that Jimmie would take no part in their larks they dubbed him a weakling. One evening before "call to quarters," when a lot of them had followed Jack to his room and a discussion of a proposed trip beyond cadet limits after "taps" was being held, one of the visitors, with a look at Jimmie, said: "Guess we hadn't better talk about this thing before the parson; he might squeal on us."

Jimmie felt the blood rush to his face. He sprang to his feet with clenched fists. He was about to hurl himself at the one who dared accuse him of being a tale bearer. Then a memory framed itself in his mind and he stood still, his arms at his sides, and looked calmly in the face of his accuser. "I am no tale bearer, Jennings," he said quietly and then resumed his seat.

The other cadets looked at one another and a sneer appeared on the faces of many. To them nothing could explain how a man could submit to being called a tale bearer without resenting it with a blow. One by one they left the room, and Jack Harvey was left alone with Jimmie. "Why didn't you thrash Jennings when he called you that name, Herrick?" said Harvey. "The boys have always thought you a weakling, and now they'll think you a coward."

Jimmie looked his room-mate in the eye. "If I had thrashed Jennings," he said, "it would have convinced nobody that I was not a tale bearer. I've settled this thing with my own conscience. That's all I care to say about it."

miles above West Point, and when tide and current meet at the jutting rocks of Gee's Point the waters seethe and swirl in a perfect maelstrom.

The little party of picnicers was seated on the rocks at the extremity of the point with the rushing waters churning the light's foundation ten feet below. It was a jolly party and the fun was running high when Clara Harvey said: "This is a good place for 'follow your leader,' and before any one could interfere she had jumped lightly to a narrow shelving rock that jutted out just below the railing of the tower. Along this she picked her way until nearly half-way round the light. Then without an instant's warning her foot slipped and she was thrown into the rushing water below.

There was one wild scream from Mrs. Harvey. A strong current caught Clara and shot her out into the stream. Once she disappeared, and then her white face was seen above the waters. Jack Harvey plunged in. He was a poor swimmer, and a sweep of the tide sent him helplessly toward the shore at the foot of the cliff. The other cadets stood momentarily panic-stricken, looking at the helpless girl in the water.

At that instant a gray clad form dashed by them like a passage of light. A figure shot clear of the lighthouse railing and heading clove the waters of the Hudson. In a moment it reappeared above the surface, and the watchers saw a strong athletic form battling with mighty arm strokes the cross current of tide and river. It did not need a second glance to recognize in the swimmer Jimmie Herrick. The boy was an experienced swimmer, having been taught the exercise to perfection by his father in the waters of the Yellowstone and the Missouri. He saw the direction in which the tide had swept Clara, and striking into the current, to be swept with it, and adding to its force all the strength of his swimming he managed to reach the girl just as she was sinking for the third time.

To go back with his burden against the body of that rushing water was impossible. Jimmie knew that the only hope for the girl's life and for his own was to husband his strength, to keep above the surface, and to let

the Hudson sweep them on until help should arrive.

The cries of Mrs. Harvey had been heard by some men at the north pier. They jumped into a boat and struck out for the place where the sturdy cadet was battling with the waters for two lives. They reached him just in time, and drew him and the unconscious girl into the boat. In a moment the boy had sunk into insensibility. A surgeon was summoned, but it was an hour before he could pronounce both rescued and rescuer out of danger.

Jack Harvey had tried his best to reach his struggling sister, but the water at the point where he had jumped in had simply driven him back to the shore. With his mother and father he watched the efforts of the surgeon to bring his sister's rescuer back to life. When Jimmie finally opened his eyes Jack bent over him and said: "Herrick, I thought you a coward; you are the bravest boy that ever lived, and in an hour the whole corps of cadets shall know it."—Edward B. Clark, in the Chicago Record-Herald.

# BEEF SUGAR INDUSTRY.

Farmers Do Not Seem to Appreciate Its Value.

By every mail we receive letters informing us of new beet sugar enterprises. If such conditions continue, there will certainly be a reaction, and the existing beet sugar industry will suffer. There are many facts which we consider very important to call attention to. The average existing beet sugar factory of the country is at a great disadvantage owing to the fact that the raw material is not furnished in sufficient quantities. Who is to blame? We fear the tillers are responsible for existing conditions. There are a very few soils devoted to sugar beet cultivation that will not yield an average of ten tons to the acre and in some cases twice that amount. If the yield has fallen short, it is generally through neglect of the farmer. According to the Tenth Census there were during 1900, 135,000 acres planted in beets, yet the total yield was only 794,000 tons, or an average of less than six tons per acre. This average was reduced by the reason that thousands of acres in certain districts were abandoned after seeding. The fact, however, remains that for Germany during 1897, 1898 and 1899, the average to the acre was thirteen, twelve and one-half and eleven and three-tenths tons respectively. We notice also that the normal daily capacity of the American beet sugar factories was 22,000 tons; if we admit that the average campaign is 100 days, there should have been at the disposal of the thirty-seven then existing factories 2,200,000 tons of beets, if they had all worked at their maximum. This would mean 220,000 acres planted in beets, or an area of 65,000 acres more than were actually devoted to this special crop. We have always insisted upon it that the farmers and manufacturers should work together; the farmers alone appear to be neglecting the opportunity they have within reach. If the crash occurs, it will be due to a want of supply of raw material and in no way to defective method of machinery used. We fear the only solution is for the manufacturers to take hold of this most important agricultural problem, and actually cultivate the beets they require for an average campaign.—The Sugar Beet.

# Thibetan Skull Drums.

A drum of an extreme repulsiveness of nature is one used by the Lamas of Thibet at some of their church ceremonies. For this the craniums of two skulls, preferably children's, are taken, and over the concave side of each is stretched the skin of a snake. The two skulls are then cemented at their vertices to either side of a wooden disk covered with a cotton cloth, the stretched skins being outermost. These drums are often ornamented by having the heads of devils and such-like horrors, the more repulsive the better, painted upon them in red and blue colors. The method employed in playing them is rather curious. To the wooden disk between the two halves a cord is fastened by which the drum can be suspended and then rapidly rotated; two short cords with knobs at their ends hang down in such a way that as the drum revolves they strike alternately on either face and thus produce a regular "tum, tum, tum" sound.

"Where the Woodbine Twined." Several correspondents give versions of the origin of the expression, "Where the woodbine twined," etc. This is Jim Fisk's own, as remembered by an old friend, Jim Webber: "When the affairs of the Erie road were under investigation," said Fisk, "I was asked by a committee what had been done with certain securities. During my experiences as a peddler I had often noticed in traveling through New England that farmers of more than usual taste had woodbine climbing up around and partly hiding the rain-water spouts on their houses. No, I didn't want to tell that dignified committee that the securities had 'gone up the spout,' which was a fact, and, remembering what I had so often noticed in New England, I replied that they had 'gone where the woodbine twined.'" Mr. Webber says the story can be easily verified. I take his word for it.—New York Press.

A Weakness of Lord Roberts. The best of men have their little weaknesses, says London Truth, and both in India and in South Africa Lord Roberts showed, according to all reports, an amazing weakness for officers more or less connected with "society," and his personal staff was entirely composed of them.

# CHARCOAL BURNERS.

## SUBSTITUTES RENDERING THE BUSINESS A LOST ART.

Gas and Gasoline Have Almost Displaced Charcoal as a Heat-Producing Substance—The Man Who Burns Charcoal Leads a Gypsy Life.

Charcoal burning in the United States, so far as the product concerns the cities, gives promise of becoming a lost art. Gas and gasoline have almost displaced it as a heat-producing substance. With the thinning of the forests, too, the source of supply is cut. Yet in the woods of Michigan, Wisconsin, Ohio and Pennsylvania, a comparatively few follow the lonely life. Charcoal in its perfect state is a baked, not a burnt wood. Here is the distinction that keeps the charcoal burner awake sometimes from 48 to 60 hours at a stretch, especially if he be alone. For the baking of charcoal the wood is piled in a circle about a central pit, leaving interstices through which the heat from the fire burning in the center may circulate to the outer edge of the pile. Turf is piled over all until the pile resembles a volcano. It is the object to keep the wood covered until it cannot break into a blaze. High winds are troublesome. The sign of trouble in a kiln is a thin blue smoke that points to fire in the wood. This fire is put out by smothering from the outside. Only experience teaches when the charcoal is sufficiently baked. When this period is reached it has lost about three-fourths of its weight. An observation is to the effect that "ten horses will draw the wood and three horses will draw the charcoal away." The slower the wood has baked the more substance and weight will be in the coals. When the pyre has burned sufficiently the fire is put out by drenching the heap with water. Even after hundreds of gallons have been poured through the heap, it may take three days for it to cool sufficiently for the charcoal to be removed. A kiln will produce 200 to 250 bushels of the coals. The charcoal burner leads a gypsy life. His cabin is near by the kilns, and in it is the picturesque disorder that is natural to man in the woods. His kitchen utensils are most in evidence. His bed is wholly secondary. He eats to live and lives to work with only an occasional "spree" in some nearby town. In the woods sobriety is everything to his craft. He is a wonder to the visitors, as he plunges into thick smoke and heat, and works in the choking fumes with the fortitude of a salamander. When the kiln is working best the smoke and fumes are worst, and to keep the kilns so necessitates the constant attention of the burner. These fumes are considered detrimental to health under ordinary circumstances, but the compensating life in the woods seems to make the charcoal burner a hardy specimen of his race.—Utica Globe.

# The Care of Children.

When it is a possible thing, have a separate bed for every child, even though there are two beds in a room. This is by no means an expensive matter. Good legs can be turned or made at home and supplied with casters. Fasten these onto wire-wire springs, and over them fasten a good mattress of curled hair or moss. Make a cover of heavy unbleached muslin to protect the mattress, and then make it up as you would any bed. A pretty outer cover or spread made of art denim, linen or other suitable material, made with a flounce reaching to the floor, will convert this bed into an attractive divan if the room is needed during the day. A nice bath is very refreshing just before bedtime, and is usually productive of quiet sleep. It means considerable work for the busy mother of several children, but it generally pays in the end.

# Two Sufficient Reasons.

The senior partner did not make his appearance at the office until about 2 o'clock, and then the junior partner was not there. "Where is Mr. Tenterhook?" he asked of the bookkeeper. "He left the office a while ago, sir," replied the man of daybook and ledger, "and he said he wouldn't be back today." "I hope nothing is the matter with him," the senior partner added. "I'm afraid he isn't very well, for he complained of a pain in his stomach yesterday." "Well," the bookkeeper explained, "he said something about having eaten some fish at lunch that didn't agree with him, and he added that there was a football game this afternoon that he wanted to see, anyhow."—Pittsburg Commercial-Gazette.

# True to Her Colors.

Now, the Eminent Reformer and the Emancipated Woman were about to be wedded. In fact, the ceremony was being performed. "With this ring," said the Eminent Reformer, "I thee wed." Here there was a breathless hush over the audience as the Emancipated Woman made a gesture of dissent, and exclaimed: "And this, after your campaign against ring rule? Never!" Saying which she swept out of the church. The audience was divided in its surprise over the injection of politics into matrimony and the sight of an Emancipated Woman sweeping.—Baltimore American.

# A GREAT SOLDIER'S HOME.

## Both Union and Confederate Veterans to Be Cared For.

The Home for Disabled Volunteer Soldiers at Johnson City, Tenn., which is now being built, will, when completed, be one of the most notable groups of buildings in that state. Aside from its architectural value, the home will be remarkable because of the broad and liberal plan on which it will be conducted. There are homes and soldiers' retreats in all parts of the United States, but they are exclusively either for union or for confederate veterans. This one will be, according to the plans which have been adopted, "a shelter for 2,500 men who volunteered in the union or confederate service in the civil war and in the war with Spain."

The home will comprise thirty-five buildings. Congress appropriated \$1,000,000 toward the project, and the home is to be completed in three years. The site comprises a tract of land a mile and three-quarters long and three-quarters of a mile wide, situated in the heart of the Tennessee mountains. The place is so delightfully situated that it is believed it will eventually become a popular health resort.

Among the larger buildings of the group will be a memorial hall, mess hall and chapel, and a canteen similar to those which were maintained at army posts many years ago will be one of the features. The grounds will be laid out in parks, groves and drive-ways, and the landscape features will add to the picturesque appearance of the home. Gen. John T. Richards, of Maine, has been appointed superintendent of construction.

Mr. and Mrs. Fred Abbott, of Owendale, attended the funeral of C. G. W. Parker Monday.

Died, at his residence at Canboro, Dec. 6th, C. G. W. Parker at the age of 77 years and 4 months. The deceased was born in the state of New York, Aug. 8, 1824, and at the age of three he moved with his parents to Canada living there till the year 1864. Deceased then moved to Lapeer, lived there awhile, and with seven others came to Huron county and took up a homestead being one of the pioneers of this place and was still living on the old homestead. The deceased leaves to mourn his loss a widow, two brothers and one sister also three sons and four daughters and a host of friends and neighbors. The deceased was a kind father and friend to all. The funeral was held at the Canboro Church Monday. Elder Abbe preached the funeral sermon. The remains were interred in Grant cemetery.

### Saved his Life

"I wish to say that I owe my life to Kodol Dyspepsia Cure," writes H. C. Christensen, of Hayfield, Minn. "For three years I was troubled with dyspepsia so that I could hold nothing on my stomach. Many times I would be unable to retain a morsel of food. Finally I was confined to my bed. Doctors said I could not live. I read one of your advertisements on Kodol Dyspepsia Cure and thought it fit my case and commenced its use. I began to improve from the first bottle. Now I am cured and recommend it to all." Digests your food. Cures all stomach troubles. Amos Bond, Cass City; F. A. Francis, Kingston.

### Brain-Food Nonsense.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutritive is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aid digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Fritz's Drug Store, Cass City; or Francis Drug Store, Kingston. Get Green's Prize Almanac.

Thomas Gulliver, of Denmark, was in town Wednesday. Mr. Gulliver is a pioneer of Tuscola county and one of the most companionable men one would wish to meet. Mr. Gulliver is the possessor of the first wagon brought to that section of country. The ancient vehicle is in good condition with the exception that it lacks four wheels and a tongue. Aside from these slight defects, the wagon is in a good state of preservation. —Caro Journal.

## It isn't the Cook's Fault, It isn't your Grocer's Fault,

that the bulk coffee you just purchased turns out to be different from the "same kind" bought before. Coffee purchased in bulk is sure to vary.

The sealed package in which LION COFFEE is sold insures uniform flavor and strength. It also keeps the coffee fresh and insures absolute purity.

makes kidneys and bladder right.

### Nicely Graded.

It is still a tradition that the people of Manchester, England, should give at Liverpool with the proverb, "A Manchester man, a Liverpool gentleman," but, it is said, classification is not so strongly marked in Lancashire as in the old days.

When stagecoaches were running, a guard was once asked, "Who has that gotten inside, Billy?" Billy consulted his list and replied, "A gentleman fra Liverpool, a mon fra Manchester, a chap fra Owdham and a fellow fra Wigan."

### She Remembered.

Small Mabel had received a parental injunction to remember at least one thing the minister said at church, and upon her return home exclaimed, "I remember something!"

"That's right, dear," rejoined her father. "Now tell me what the minister said."

"He said," replied Mabel, "A collection will now be taken up." —Chicago News.

### TESTIMONIAL.

To the Editor:  
Dear Sir:—I've several years I have been troubled with deafness, roaring in my head and all the symptoms of Chronic Catarrh. I believed that my case was incurable, but upon the urgent request of a friend I consulted Dr. Morrison of the Detroit Clinic. After a careful examination he said he could cure me in two months. I commenced treatment and in two months I was cured; could hear as well as ever; no more pain or roaring in the head. I was afraid it would return but I have had a severe cold since I was cured and there has been no return of the trouble so I know I am cured. I want all your readers to know of my wonderful cure.
